PROCEEDINGS OF THE MADRAS GOVERNMENT.

Proceedings of the Board of Revenue (Revenue Settlement, Survey, Land Records and Agriculture).

Settlement of Land Revenue (Jamabandi)—Submitting to Government report on the—for fasli 1319 (1909-1910). } (Here enter No. 672, dated 26th December 1910).

Order—No. 978, Revenue, dated 3rd April 1911.

Miscellaneous.

With its Proceedings read above the Board of Revenue submits the report on the land revenue settlement of the Presidency, for fasli 1319, the agricultural year ending 30th June 1910.

2. The rainfall was below the average in all districts except Ganjám, Salem and the Nilgiris. The south-west monsoon was on the whole very good and fairly distributed, but the north-east monsoon was deficient in most of the districts. The average annual retail prices were generally lower than in the preceding year but were everywhere above the normal rates. The price of rice was above warning rates in four districts, that of ragi in thirteen districts, that of cholam in all but four districts and that of cumbu in nine districts.

3. The total extent of ryotwari holdings in the Presidency, viz., 24·75 million acres, showed an increase of 174,000 acres over that of the previous year. 19·45 million acres or 78·6 per cent. of the holdings were cropped against 19·91 million acres or 81 per cent. in the previous year.

4. The following statement exhibits the land revenue and cesses which accrued in the year under review and in the previous years :—

—	Fasli 1318.	Fasli 1319.	Difference.
	Rs.	Rs.	Rs.
1. Peshkash or revenue from permanently-settled estates ..	49,79,233	49,91,632	+ 12,399
2. Land cess on permanently-settled estates	12,88,674	13,36,009	+ 47,335
3. Quit-rent levied on inam villages held on favourable tenure.	7,55,627	7,55,136	− 491
4. Land cess on inam villages held on favourable tenure ..	3,76,955	3,79,817	+ 2,859
5. Revenue from lands held on ryotwari system including water-rate and miscellaneous revenue.	5,82,14,880	5.87.62,073	+ 5,47,193
6. Cess on ryotwari and miscellaneous revenue	47,54,439	47.82,117	+ 27,678
Total Land Revenue (items 1, 3 and 5 above) ..	6,39,49,740	6,45,08,841	+ 5,59,101
Total cesses (items 2, 4 and 6 above) ..	64,20,071	64,97,943	+ 77,872

5. The settled assessment on ryotwari holdings amounted to Rs. 498·4 lakhs against Rs. 494·00 lakhs in the preceding year. The increase was chiefly due to resettlement in the Chingleput, Tinnevelly and Ganjám districts and to an increase in the area under occupation. The revenue derived from water-rate and from the charge on second crop was Rs. 29·63 lakhs against Rs. 30·37 lakhs in the previous year. This decrease was the net result of an increase of Rs. ·88 lakh in the water-rate on dry lands and a decrease of 1·62 lakhs in the second crop charge on wet

lands. Under both heads together, the increase was large in the districts of North Arcot and Anantapur, but this was counterbalanced by decreases in Nellore, Chingleput and South Arcot. The amount of season remissions granted in the year was Rs. 12·53 lakhs or Rs. ·38 lakh less than in the preceding year.

6. The extent of poramboke occupied for cultivation during the year was 125,795 acres or 1,232 acres less than in the preceding year. An extent of 29,080 acres out of this area was subjected to a penal assessment of Rs. 3·08 lakhs which gives an average of Rs. 11 per acre against Rs. 7 in the preceding year. The Government observe that the area of poramboke encroachments charged with penal assessment fell from 36,909 acres in fasli 1318 to 29,080 acres in fasli 1319. In so far as this indicates a decrease in objectionable encroachments upon poramboke proper it is a matter for gratification but the figures in statement 9-A include unassessed waste also and it would be convenient if the figures relating to poramboke proper could be given separately. The Board will be requested to report on this point.

7. *Collections.*—The work of collection was satisfactory, Rs. 6,95,58,665 or 97·9 per cent. of the gross current demand being collected within the fasli. The arrear balance at the beginning of the fasli was Rs. 14,11,992. Of this amount, a sum of Rs. 11,75,779 or 83·3 per cent. was collected within the fasli and Rs. 1,53,117 or 10·8 per cent. written off the accounts. The total balance, arrears and current, at the end of the fasli was Rs. 15,67,029 including the balance under the Proprietary Estates Village Service Fund and the revenue from the Kurnool-Cuddapah canal. Up to the end of October 1910, Rs. 10,77,139 or 68·7 per cent had been collected, Rs. 15,191 written off the accounts and Rs. 4,131 ascertained to be irrecoverable. Of the remainder Rs. 1·59 lakhs represent the amounts the collection of which had been postponed on account of the unfavourable character of the season in Guntúr, Bellary and Gódávari.

8. *Coercion.*—The Government are glad to note that there was a decrease in the total number of coercive processes issued in connection with the collection of land revenue. The total number in the year under review was 1,811,263 against 2,226,944 in the preceding year. The decrease occurred in all kinds of processes except in sales in which there was a small increase. Demand notices which are in the nature of reminders rather than coercive processes formed about 84·9 per cent. of the total number of processes and numbered 1,538,087 against 1,912,339 in the preceding year. The percentage of distraints and attachments to the number of demand notices was 10·8 in the case of personal property and 1·23 in the case of real property against 9·3 and 1 per cent. respectively in the preceding year. More than half the defaulters whose property was attached paid the arrear before sale notices were issued and it was necessary to proceed to the actual sale of property in 3,564 cases only out of 184,581 cases of distraint and attachment. The number of defaulters whose property was sold for arrears of revenue formed only 0·1 per cent. of the total number of pattas held against 0·08 per cent in the preceding year and the extent of land actually sold, 13,591 acres, amounted to 0·05 per cent. of the total extent of holdings in the Presidency. Three thousand two hundred and eighty-six acres or 0·01 per cent. of the total holdings were bought in by Government for want of bidders against 2,549 acres or 0·01 per cent. of the holdings in the preceding year. Out of lands bought in during this and previous years and remaining at the disposal of Government the extent resold for occupation during the year was 2,612 acres against 2,497 acres in the preceding year. The amount of the sale proceeds realised was nearly six times the assessment.

9. *Transfer of Registry.*—In G.O., No. 807, dated 15th March 1910, the Government pointed out that except in districts where special Revenue staffs were making preparation for resettlement the work of transfer of registry showed no improvement. The Board of Revenue was requested to impress upon Collectors and Divisional Officers the importance of correct registry and the necessity for bestowing greater personal attention on the matter. Excluding the districts where special Revenue staffs are employed the total number of cases reported declined and the number disposed of decreased still more noticeably. In Kistna the number of transfer cases disposed of fell from 6,904 in fasli 1318 to 5,831 in fasli 1319. The Board will

be requested again to impress on Collectors and Divisional Officers the need for paying more attention to the bringing of the land registry into closer accordance with facts.

10. *Loans.*—The amount of advance under both the Loans Acts fell from 9·94 lakhs to 6·51 lakhs. The decrease occurred chiefly in the districts of Bellary, Anantapur, Cuddapah and Coimbatore and is attributed mainly to the favourable character of the early part of the season.

Editors' Table.

PROCEEDINGS OF THE BOARD OF REVENUE

(REVENUE SETTLEMENT, SURVEY, LAND RECORDS AND AGRICULTURE).

The Hon'ble Mr. W. O. HORNE,
Commissioner of Land Revenue and Forests.

The Hon'ble Mr. R. B. CLEGG,
Commissioner of Land Revenue.

The Hon'ble Mr. A. BUTTERWORTH,
Commissioner of Revenue Settlement, Survey, Land Records and Agriculture.

Resolution—No. 672, dated 26th December 1910.

The Board begs to submit its report on the settlement of land revenue in this Presidency for fasli 1319 (1909–1910) together with the prescribed statements. There was considerable delay in the submission of reports from several districts, especially from Kistna and Salem which were received only on the 6th December, *i.e.*, two months and five days after the prescribed date.

2. The principal territorial change carried out in the fasli was the creation under G.O., No. 399, Public, dated 22rd May 1910, of the new district of Ramnad with effect from 1st June 1910. The district comprises the taluks of Srívilliputtúr and Sáttúr (excluding the Koilpatti strip containing 21 ryotwari villages) of the Tinnevelly district, the entire zamindaris of Ramnad and Sivaganga, and four resumed villages in Paramagudi of the Madura district.

3. *Season, rainfall and prices.*—The south-west monsoon was on the whole very good and fairly distributed, but the north-east monsoon was deficient in most of the districts. Both the dry and hot weather rains were below the average. The average annual retail prices of the staple food-grains were lower than in the preceding year but were everywhere above the normal rates. Prices were above the warning rate for rice in the districts of Vizagapatam, Nellore, South Arcot and North Arcot, for ragi, in thirteen districts, for cholam, in all districts except Kurnool, Madura, Ramnad and Tinnevelly and for cumbu, in nine districts. The "warning" rates here referred to are those fixed by Government in their order Nos. 1524, Revenue, dated 30th May 1908, and 3803, Revenue, dated 1st December 1910.

Statement No. 1.

4. *Cropped area.*—The total crop area of the year under report (36,389,000 acres) fell short of the normal area (36,687,000 acres) by 298,000 acres. Paddy, cumbu, ground-nut, cotton and tobacco showed an increase, and the other crops, a decrease. As compared with the previous year, the cultivation under paddy, cumbu, gingelly, cotton, indigo and tobacco showed an increase, but the outturn of crops was in no case above the normal. The outturn of paddy in Coimbatore, that of sugarcane in Kistna and Coimbatore and that of indigo in Bellary was normal. The outturn of paddy was 58 per cent. of the normal in Vizagapatam, Nellore and Chingleput, 66 per cent. in Tanjore and 67 per cent. in Ramnad, while in the remaining districts

it ranged from 75 to 91 per cent. The yield of cholam, varagu, cotton, castors and other oil-seeds in Nellore, of castors in Guntúr and Cuddapah, of varagu and ground-nut in Chingleput, and of varagu in Guntúr was below 50 per cent. of the normal and in the remaining districts as well as under the remaining crops, the outturn ranged between 50 and 92 per cent.

5. *Condition of cattle.*—The total number of deaths from diseases among horned cattle was 96,576 or 104,491 less than last year; rinderpest alone showed a decrease of 91,939. A cattle census was taken by karnams during the year under report, and tested by Revenue Inspectors and Tahsildars, and in a few cases by Divisional-officers also. The enumeration was on the whole fairly correct.

6. *Number of villages.*—There was an addition of 65 villages to the total number in the Presidency, 62 having been added to the Gódávari district by reason of the transfer to that district of Nugur taluk from the Central Provinces during the year. Of the remaining additions, two were in Chingleput and one in Vizagapatam. The increase in Chingleput was due to the sub-division of Uttaramarur village in the Madurántakam taluk into three villages and that in Vizagapatam to the resumption of Lingamvalasa, a whole inam village in the Bobbili taluk. Vengampalli, a village of the Jammalamadugu taluk, Cuddapah district, was transferred from that district to Kurnool. Of the 153 villages which go to make up the new Ramnad district, four were transferred from Madura and 149 from Tinnevelly.

Statement No. 3, column 2.

7. The land revenue of the Presidency is derived from the undermentioned sources:—

(*a*) peshkash or revenue from permanently-settled estates,

(*b*) shrotriem jodi or quit-rent levied on inam villages,

(*c*) assessment including water-rate on lands held under the ryotwari system,

(*d*) miscellaneous revenue.

8. *Peshkash or revenue from permanently-settled estates.*—The total amount of peshkash payable during the fasli was Rs. 49,91,632 against Rs. 49,79,233 in the preceding year. The difference is due chiefly to the following causes:—

		Rs.
(*a*) Addition of peshkash on the estates in Nugur taluk, Gódávari district	+	12,393
(*b*) Addition of assessment on resumed inams	+	1,802
(*c*) Reduction of peshkash consequent on the acquisition of land for public purposes	—	113
(*d*) Reduction of peshkash in compensation for the loss of jodi on resumed inams	—	1,815

9. *Shrotriem jodi.*—The quit-rent payable to Government on villages held on shrotriem or favourable tenure was Rs. 7,55,136 or Rs. 491 less than in the previous year. The decrease is due chiefly to the following causes:—

		Rs.
(*a*) Amount of arrears of previous fasli included in the demand of fasli 1318	—	303
(*b*) Reduction of quit-rent consequent on the acquisition of land for public purposes	—	30
(*c*) Rectification of error in calculating the demand of fasli 1318 on Narikallapalli Khandriga in the Nellore district	—	122

10. *Holdings.*—The total extent of ryotwari holdings during the year, namely, 24·75 million acres, exceeded that of the previous year by about 174,000 acres. The increase was contributed by all districts except Gódávari and the Nilgiris where there were small decreases. There were large increases in Bellary and Kurnool, due, in the former district, to a fall in areas relinquished and bought in by Government and, in the latter, to lands being taken up in expectation of a good monsoon.

Statement No. 4, columns 19, 20 and 21.

11. The total assessment of holdings was Rs. 498·4 lakhs against Rs. 494·0 lakhs in the previous year. More than half of the increase occurred in the Chingleput and Tinnevelly districts, and is to be accounted for by the operations of Resurvey or Revision survey and Resettlement in these districts. In other districts the increase in the revenue demand was due partly to expansion of cultivation and in part, as will be seen from the next paragraph, to an increase in the area occupied without corresponding increase in cultivation.

Statement No. 4, columns 23, 24 and 25.
Statement No. 5, columns 3, 5, 7, and 13.

12. *Cultivation.*—Compared with the previous year, the area cropped on ryotwari holdings showed a decrease of 464,188 acres or about 2 *per cent.* of the total holdings, while an increase of nearly 700,000 acres occurred under "waste charged", the net result, so far as assessment was concerned, being an increase of revenue in some of the very districts where there was less cultivation. Large decreases in the cropped area occurred in the districts of Guntúr, Nellore and Cuddapah owing to the failure of the north-east monsoon. Including the area under miscellaneous cultivation, the total area cropped amounted to 20·76 million acres against 21·37 million acres in the previous fasli.

Statement No. 3, column 49.

13. *Water-rate and second-crop charge.*—The revenue from these sources amounted to Rs. 29·63 lakhs against Rs. 30·37 lakhs or nearly Rs. 74,000 less than in the preceding year. Under "water-rate on dry land" there was an increase of about Rs. 88,000, while under "second-crop charge" there was a large decrease of about Rs. 1,62,000. The bulk of the increase under "water-rate" occurred in Kistna, Guntúr, Anantapur and North Arcot; and in the two last-named districts there was also an increase under "second-crop charge," indicating a locally favourable season. Decreases due to a deficient north-east monsoon occurred under "water-rate" in South Arcot and under "second-crop charge," in the districts of Nellore, Chingleput, Tinnevelly, Kistna and Gódávari.

Statement No. 3, columns 43, 48 and 53.
Statement No. 4, columns 26, 27, 28 and 29.

14. *Remissions.*—As compared with the previous year, there was a net decrease of Rs. 2·22 lakhs. The decrease occurred under all the three major heads "Season" "Fixed" and "Beriz deductions".

Statement No. 6.
Statement No. 4, columns 47, 48 and 49.

(i) *Season remissions.*—The remission under this head showed a net decrease of Rs. 37,979. The decrease occurred under all the sub-heads except "shavi or short crop", "remission of water-rate" and "others".

(*a*) *Waste remitted.*—The remission under this head amounted to Rs. 3·27 lakhs, or Rs. 1·4 lakhs less than that remitted in the previous year. Excepting a sum of Rs. 38 remitted on 30 acres of dry land in Kistna under G.O., No. 626, Revenue, dated 25th July 1901, the whole amount remitted related to 71,950 acres of wet land. Wet remissions were granted in almost all districts, the largest amounts being in the districts of Nellore, Cuddapah, Tinnevelly and Chingleput. These districts alone contributed 71 per cent. of the total remissions under this head.

(*b*) *Shavi or short crop.*—The total amount remitted under this head was Rs. 6·65 lakhs against Rs. 2·71 lakhs in the previous year. The increase of Rs. 3·94 lakhs was chiefly contributed by Nellore (increase, Rs. 2,34,711) and Chingleput (increase, Rs. 1,42,604), two of the districts badly affected by failure of the north-east monsoon. Of the total shavi remissions during the year, Rs. 6·64 lakhs related to wet land and Rs. 1,448 to dry land. The largest amounts were granted in Nellore (Rs. 2,43,784), Chingleput (Rs. 1,43,379), Tanjore (Rs. 52,507), Vizagapatam (Rs. 43,675), Guntúr (Rs. 37,059), Tinnevelly (Rs. 31,206), Kistna (Rs. 24,622) and South Arcot (Rs. 24,185).

(*c*) *Injury by floods.*—The amount remitted under this head was Rs. 16,963 against Rs. 34,931 in the previous year, Tanjore, Kistna and Malabar alone contributing Rs. 13,673.

(*d*) *Tirvakammi remission.*—(*i.e.* remission of the difference between wet and dry assessment on wet land cultivated with dry crops owing to insufficiency or failure of water) amounted to Rs. 2·05 lakhs against Rs. 4·70 lakhs in the previous year and was large in Cuddapah, Vizagapatam and Tinnevelly. These districts together contributed Rs. 1,21,171 or 59 per cent. of the total remission under this head. The total amount, as noted above, was less than half of the remission granted in the previous year, the districts of Salem, North Arcot, Anantapur and Cuddapah accounting among them for a fall of Rs. 2·52 lakhs :—

		Rs.
Decreases, as compared with last year.	Cuddapah	28,552
	Anantapur	69,966
	North Arcot	73,865
	Salem	79,576
	Total ...	2,51,959

(*e*) *Other remissions.*—The sum of Rs. 3,052 shown under this head was granted for reclamation of land in Nellore.

(ii) *Fixed remissions*—(or abatements of the demand granted for reasons unconnected with the season) amounted to Rs. 6·15 lakhs or about Rs. 1·62 lakhs less than in the previous year, the decrease being traceable to a fall of Rs. 1·43 lakhs under increment remissions chiefly in Malabar and South Canara. A sum of Rs. 80,177 was remitted for irrigation by lift, Rs. 32,920 as remuneration for the maintenance of irrigation works and Rs. 82,486 on lands irrigated by the Kurnool-Cuddapah canal in the Kurnool district. The last item appears as a remission because it is deducted from land revenue and credited to canal revenue. The largest item under this head is "increment remissions", that is, abatements allowed on the introduction of settlement or resettlement in cases where the increase over the old assessment is in excess of 25 per cent., the rule being that such excess should be imposed gradually under the new settlement in instalments increasing every year in amount. These remissions amounted to Rs. 3·85 lakhs and were granted in Gódávari, Kistna, Guntúr, Nellore, Cuddapah, Kurnool, Chingleput, North Arcot, Tinnevelly, Coimbatore, Salem, South Canara and Malabar. South Canara and Malabar alone contributed about Rs. 3·55 lakhs under this head.

(iii) *Beriz deductions*—(*i.e.*, deductions made from village collections in favour of inamdars and religious institutions) amounted to Rs. 8·51 lakhs or Rs. 22,096 less than in the previous year.

Statement No. 6.

15. *Miscellaneous revenue.*—The revenue under this head amounted to Rs. 86·74 lakhs or about half a lakh of rupees less than in the preceding year. There were, however, large increases under items 4 (penal charge for water on land irrigated without permission) and 7 (occupation of poramboke land) but these increases were more than counterbalanced by large decreases under items 5 (land occupied without patta) and 11 (other items). The largest decrease under item 5 was in Nellore (Rs. 29,495), and was due to the unfavourable season. Items (1) Jodi and quit-rent on minor inams, (6) concealed cultivation, (8) revenue from tree pattas, (9) commission on estates under Court of Wards management, and (10) process service fees, do not call for any special remarks.

Statement No. 9.

Items 2 *and* 3—*Water-rate on minor inams in ryotwari villages and on land in proprietary villages* amounted to Rs. 32·89 lakhs or Rs. 0·22 lakh more than in the previous year, Anantapur alone contributing Rs. 0·14 lakh towards the increase.

Item 4—*Penal charge for water on land irrigated without permission.*—The demand under this item was Rs. 4·09 lakhs or Rs. 0·84 lakh more than in the previous year. The bulk of this revenue was levied in Kistna, Madura, Coimbatore, South Arcot, Gódávari, Salem, Guntúr and Tinnevelly. These districts together contributed Rs. 3·32 lakhs.

Item 5.—The revenue on land cultivated without patta amounted to Rs. 7·96 lakhs or Rs. 0·82 lakh less than in the previous year, Nellore, Cuddapah, Guntúr and Trichinopoly alone contributing Rs. 0·57 lakh towards the decrease.

Item 7.—The revenue from poramboke cultivation, including penal charge amounted to Rs. 4·77 lakhs or Rs. 0·47 lakh more than in the previous year. The extent thus occupied or cultivated fell from 127,027 acres to 125,795 acres and thus showed a small net decrease of 1,232 acres. The largest decrease was in Anantapur and was due to the strict observance of the provisions of the Madras Land Encroachment Act III of 1905 in all objectionable cases. There was a noticeable increase in South Arcot. The Collector reports that, owing to the non-completion of remeasurement work, it was not possible to effect to any large extent the sub-division and transfer to "assessed" of poramboke lands the occupation of which was unobjectionable, but that measures are now being carried out. Out of the revenue from poramboke cultivation, penal charges alone amounted to Rs. 3·08 lakhs or Rs. 0·48 lakh more than in the previous year. This latter charge was levied on 29,080 acres of land, which gives an average rate of Rs. 11 per acre or Rs. 4 more than in the previous year. Malabar, South Canara and Tanjore show the highest rates, viz., Rs. 55, Rs. 43 and Rs. 34, respectively. The high rate in Tanjore was imposed in consequence of the orders to secure eviction and forfeiture of crop not having been promptly carried out by subordinate officers, and that in South Canara was due to encroachments being individually small in extent so that penalties had to be imposed with reference to the nature of the land encroached upon rather than its extent. In Malabar, the penal assessment aggregated to Rs. 1,038 over 19 acres involving 341 cases of encroachment, working out to Rs. 3 a case. Most of the encroachments in this district are reported to be objectionable.

Statement No. 9-A.

Item 11.—The following are the more important heads grouped under "other items":—

Items.	Revenue.
	RS.
(1) Sale-proceeds of assessed and unassessed waste lands including holdings previously bought in on behalf of Government mostly in Kistna, Madras and Madura	3,66,983
(2) Rent from lankas or islands situated in rivers chiefly in Gódávari and Guntúr	2,15,562
(3) Quit-rent and ground rent chiefly in Madras	1,04,922
(4) Assessment, quit-rent and water-charge of previous years now first brought to account	34,716
(5) Quit-rent on escheat lands in Malabar	24,922
(6) Janmabhogam on Government land in Malabar	22,365
(7) Revenue from coir, the produce of Amindivi islands in the South Canara district	15,055
(8) Collection on account of shell-rent in Chingleput	12,650
(9) Receipts on account of Konde and other escheated estates mostly in the South Canara district	10,103
(10) Twenty and thirty years' assessment on missing palmyras mostly in Tinnevelly	8,948

16. The net ryotwari demand *less* remissions and including water-rate, second-crop charge and miscellaneous revenue, amounted to Rs. 587·61 lakhs against Rs. 582·20 lakhs in the previous year. The increase of Rs. 5·41 lakhs is made up as shown below :—

Statement No. 4, columns 24, 29, 49, 57, 59 and 60.

	LAKHS OF RUPEES.
Increase in the assessment of holdings	4·43
Decrease under second-crop charge and water-rate	0·74
Do. under remissions	2·22
Do. under miscellaneous revenue	0·50
Total ...	5·41

17. *Total land revenue demand (current).*—The demands under the several heads are compared below with the figures for the previous year :—

	Fasli 1318.	Fasli 1319.
	RS.	RS.
Peishkash on permanently-settled estates ...	49,79,233	49,91,632
Shrotriyam jodi	7,55,627	7,55,136
Ryotwar and Miscellaneous	5,82,14,880	5,87,62,073
Total ...	6,39,49,740	6,45,08,841

The increase under " Peishkash on permanently-settled estates " and " Ryotwar and Miscellaneous " has been explained in the preceding paragraphs.

18. *Total demand under cesses (current).*—The current demand under cesses is as follows :—

	Fasli 1318.	Fasli 1319.
	RS.	RS.
(i) Land-cess on permanently-settled estates ...	12,88,674	13,36,009
(ii) Land-cess on whole-inam villages	3,76,958	3,79,817
(iii) Cess on ryotwar and miscellaneous	47,54,439	47,82,117
Total ...	64,20,071	64,97,943

The increase under item (i) was mainly in the districts of Vizagapatam, Gódávari, Kistna and North Arcot. It was chiefly due to the revision of the demand under land cess in Vizagapatam during the year, to the addition of estates to the Gódávari district in consequence of the transfer of the Nugur taluk from the Central Provinces, to the increase of revenue under water-rate owing to the season being favourable in the greater part of the North Arcot district and to the extension of irrigation under the Divi Pumping system in Kistna. The increase under item (iii) follows the increase in the revenue.

19. *Demand and collection under land revenue and cesses (current).*—The current demand under land revenue and cesses was Rs. 7,10,06,784 ; Rs. 6,95,58,665 or 97·9 per cent. was collected within the fasli and a small sum of Rs. 93 was written off the accounts.

20. *Demand and collection of arrears.*—The total arrear demand under all heads was Rs. 14,11,992 ; Rs. 11,75,779 or 83·3 per cent. was collected within the fasli and Rs. 1,53,117 or 10·8 per cent. was written off the accounts.

21. *Total balance of land revenue and cesses.*—The balance outstanding at the end of the fasli, including both arrears and current, was Rs. 15,31,122. Including the balance under (1) the Proprietary Estates Village Service Fund and (2) the revenue from the Kurnool-Cuddapah canal which are dealt with in the monthly demand, collection and balance statements of land revenue and cesses, the total balance on 1st July 1910 was Rs. 15,67,029. Up to the end of October 1910, Rs. 10,77,139 or 68·7 per cent. had been collected ; Rs. 15,191 had been written off the accounts and Rs. 4,131 had been ascertained to be irrecoverable. The net recoverable balance on 1st November 1910 was Rs. 4,70,568. About 1·59 lakhs of rupees represent the amount of which the collection had been postponed on account of unfavourable season in Guntúr, Bellary and Gódávari. Steps have been taken to collect the remainder.

22. *Reconciliation of differences between the collections of land revenue and cesses as shown in the Jamabandi and the Accountant-General's statements and excess collections.*—Information on these points has not yet been received from 13 Collectors. They will be dealt with in a separate report.

23. *Distribution of collections between land revenue and cesses.*—Land revenue and cesses are not collected separately and no attempt is made to exhibit the collections separately under these heads in the village accounts. The total collections are distributed between land revenue and the several cesses in the Collector's office. The process consists of two stages, of which the first or the provisional distribution

is effected by crediting to each head, month by month, such portion of the lump collections as will bear the same proportion to the demand under the head, as the total collection bears to the total demand under all the heads. The second stage is the final adjustment which consists in correcting the provisional credits by transfer from one head to another where necessary, after the entire demand for the year under all the heads has been collected or written off.

The statements of distribution for fasli 1319 received from Collectors show that except in the five districts of Ganjám, Nellore, Anantapur, South Arcot and Tanjore, the variations between the amounts due to the cesses in fasli 1319 and the amount actually credited were inconsiderable. The accounts of fasli 1315 remained unadjusted in four districts, those of 1316 in five, those of 1317 in nine and those of 1318 in fifteen.

24. *Charges debitable to land revenue.*—The charges of district administration including salaries of Revenue Inspectors, but excluding those of village establishments, were Rs. 51,90,344 or 7·3 per cent. of the land revenue and cesses realized against 7·2 per cent. in the preceding fasli. The village service charges during the fasli were Rs. 54,47,682. Including this sum, which is met from Provincial Funds, the total charges were Rs. 1,06,38,026 or 15·0 per cent. of the collections of land revenue and cesses.

25. *Process under Act II of* 1864.—Statement No. 12 shows the particulars of the coercive processes issued for the realization of Government dues under Act II of 1864. The following abstract compares the number of processes of each kind issued during the year with the figures for the three preceding faslis :—

Coercive processes.	Fasli 1316.	Fasli 1317.	Fasli 1318.	Fasli 1319.
Demand notices	2,141,560	1,926,330	1,912,339	1,538,087
Distraint and attachment notices	240,254	192,731	198,325	184,884
Sale notices	140,412	122,279	113,680	84,728
Sales (number of defaulters)	7,411	3,230	2,600	3,564
Total ..	2,529,637	2,244,570	2,226,944	1,811,263

There has been a progressive decrease in recent years in the total number of processes issued and the number in the year under report shows a further decline.

26. *Demand notices.*—The instructions that these notices should only be issued when absolutely necessary has been kept in view. Their number decreased in 14 districts especially in the districts of Chingleput, North Arcot, Tinnevelly and Salem. On the other hand there was a large increase in the districts noted in the margin. The Collectors * attribute the increase to the unfavourable character of the season.

Districts.	Fasli 1318.	Fasli 1319.	Increase.
Guntúr ..	30,703	70,750	40,047
Nellore ..	186,853	221,882	35,029
Anantapur ..	57,799	77,457	19,658

27. *Distraint or attachment.*—The number of processes under this head was 184,884 in the year under report against 198,325 in fasli 1318 and 192,731 in fasli 1317. There was a decrease in 14 districts; but as in the case of demand notices, there was an increase in the districts of Gúntur, Nellore and Anantapur.

28. There was a slight increase in the percentage borne by the number of distraints and attachments to that of demand notices as compared with the previous faslis. The number of defaulters whose immovable property was attached in the year was 19,019 against 19,973 in fasli 1318. The large disproportion noticed in the Madura district in previous years between the number of defaulters whose personal property was distrained

Faslis.	Percentage of attachment to the total number of demand notices.		
	Personal property.	Real property.	Total.
1317	8·9	1·0	9·9
1318	9·3	1·0	10·3
1319	10·8	1·23	12·03

* The season was unfavourable in Anantapur in the latter half of the fasli.

(361) and the number of those whose real property was attached (5,040) is again noticeable and is due, as stated in previous reports, to the large number of absentee pattadars in the area irrigated by the Periyar and to the fact that the Kallar pattadars in the Tirumangalam taluk have no movable property.

29. *Sale notices.*—Out of the 184,884 defaulters whose property was attached 100,156 or 54·1 per cent. paid the arrears before sale notices were issued. The percentage was 42·7 in fasli 1318, 36·5 in fasli 1317 and 41·5 in fasli 1316.

30. *Sales.*—The number of defaulters whose property was sold was greater than in fasli 1318. The increase was large in the districts specified in the margin. The increase in Nellore and Anantapur* was due to the unfavourable character of the season. The Collector of Kistna states that the increase was due to large areas of land of a poor quality having been taken on patta in recent years and the Collector of Bellary attributes it to the fact that in fasli 1318 processes against land were suspended owing to the unfavourable character of the season

Districts.	Fasli 1319.	Fasli 1318.	Increase.
Kistna	395	75	320
Nellore	766	184	582
Anantapur	229	122	107
Bellary	342	204	128

The percentage of actual sales to sale notices was 4·2 against 2·28 in fasli 1318 and that of the number of defaulters whose property was actually sold to the total number of pattas was 0·1 against 0·08 in the previous fasli.

The subjoined statement compares the particulars of sales in fasli 1319 with the figures for the three previous faslis :—

—	Personal property.				Real property.				Total.			
	Fasli 1316.	Fasli 1317.	Fasli 1318.	Fasli 1319.	Fasli 1316.	Fasli 1317.	Fasli 1318.	Fasli 1319.	Fasli 1316.	Fasli 1317.	Fasli 1318.	Fasli 1319.
1	2	3	4	5	6	7	8	9	10	11	12	13

(3) The number of sale notices.	Figures relating to sale notices do not distinguish between personal and real property.								5·28	2·6	2·28	4·2
Arrears at the beginning of the fasli under ryotwar and miscellaneous.	In lakhs of rupees.								9·38	5·64	10·25	9·41
Arrear balance at the end of the fasli.									0·43	0·36	1·05	0·73
Percentage of current collections to current demands.									98·9	98·4	98·4	97·9

Value of lands sold.—Immoveable property of the estimated value of Rupees 100,464 was sold for the recovery of arrears amounting to Rs. 34,491 and realized Rs. 59,793. The price fetched by lands sold to private individuals was on the average 3·6 times the assessment in the case of dry lands and 6·1 times the assessment in the case of wet lands. In fasli 1318 land of the estimated value of Rupees 87,003 was sold for arrears amounting to Rs. 30,834 and the average prices obtained were 5·3 times the assessment for dry lands and 7·4 times the assessment for wet lands.

Extent of land sold.—The extent of land sold during the year was 11,696 acres under dry and 1,895 acres under wet, against 5,743 acres under dry and 1,349 acres under wet in fasli 1318. The corresponding figures for fasli 1317 were 11,908 acres under dry and 2,712 acres under wet.

* The season was unfavourable in Anantapur in the latter half of the fasli.

Lands bought in by Government.—The total area of lands bought in for want of bidders was 2,895 acres of dry and 391 acres of wet against 2,265 acres of dry and 284 acres of wet in fasli 1318 Three-fourths of the total area bought in was in Kistna and the four Deccan districts.

31. *Process-service establishments.*—Statement No. 13 gives the particulars of processes served by the ordinary village agency or by special establishment and the fees realized during the year. The total number of processes served was 1,669,907 or 435,968 less than in fasli 1318. The number of processes served by the special agency (82,182) was also slightly less than in the previous fasli (86,296). The special establishment was employed in the same districts as in fasli 1318; its cost was covered by the fees realized except in Vizagapatam, Gódávari and Chingleput.

32. *Costs in civil suits.*—Rs. 23,885 were awarded to Government as costs in suits during the year. Including Rs. 7,371, the opening balance, the total demand was Rs. 31,256 of which Rs. 16,414 were collected, Rs. 466 were written off the accounts, and Rs. 30 were reported to be irrecoverable as the parties had no property. The net recoverable balance at the end of the year is Rs. 14,346 made up as follows:—

	Rs.
(1) Amount collected after the close of the fasli	4,945
(2) Amount remaining uncollected pending the decision of appeals by Civil Courts	1,732
(3) Amount involved in execution proceedings taken or pending ...	3,874
(4) Amount for not collecting which no special reason is assigned ...	3,795

33. *Interest on arrears of land revenue—(Statement No.* 14).—The total demand on account of interest on arrears of land revenue, including the balance at the beginning of the year, was Rs. 44,143, of which Rs. 16,284 were collected and Rs. 17,303 remitted, leaving a balance of Rs. 26,840 against Rs. 22,065 at the end of the previous year. More than half the arrears at the end of the fasli relate to North Arcot and were due mainly from the Karvetnagar estate under the Court of Wards. Rupees 4,087 is the interest on the overdue instalments of the purchase money of lands sold under the Iskapalle project in Guntúr and is being recovered by suits. The only other districts in which the arrears under this head are large are Ganjám, Cuddapah and Chingleput. Steps are being taken for the recovery of the arrears.

34. *Sales of land under Standing Orders Nos.* 15, 16, 21 *and* 45.—Under the rules for the sale of occupancy rights in assessed waste lands (Standing Order No. 15) 4,053 acres assessed at Rs. 5,749 were sold for Rs. 1 38,604; 147 acres of tank-bed land assessed at Rs. 239 were sold for Rs. 5,726 under Standing Order 16, and 21 acres of house-sites in towns were sold for Rs. 5,245 under Standing Order No. 21; 2,612 acres assessed at Rs. 3,349 which had been bought in by Government at sales for arrears of revenue were resold under Standing Order No. 45 for Rs. 19,791.

35. *Sub-division of quit-rent.*—No applications were received during the year under Standing Order No. 58 for the sub-division of the joint liability of shareholders in whole inam villages or minor inams in any of the districts in the Presidency.

36. *Transfer of registration of holding (Statement No.* 15).—Transfers of Revenue registration fall under one or other of the following three heads: —

(1) Transfers applied for through Registration officers.

(2) Transfers applied for direct to the Revenue officers.

(3) Transfers proposed by the Revenue officers *suo motu.*

(1) Under the first head 50,581 applications were received during the year against 60,429 in the previous year. The decrease of 9,848 applications or 16·3 per cent. is the net result of a decrease of 11,613 in 19 districts and an increase of 1,765 in five districts. The decrease was large in four districts (South Arcot, Tinnevelly, Coimbatore and Salem), the largest being in Tinnevelly (2,829) as in the last year.

(2) The number of applications presented direct to the Revenue officers was 3,16,107 against 1,74,659 in fasli 1318—an increase of 1,41,448 or 80·99 per cent. The bulk of the increase was in Cuddapah (98,575), Chingleput (24,927) and Trichinopoly (18,292) and is due to the re-settlement at which special efforts are made to secure agreement between the revenue registers and occupation. The Collectors of Cuddapah and Trichinopoly report that the special Revenue staff working in connection with the survey and settlement operations disposed of 98,338 cases.

(3) The number of transfers which Revenue officers dealt with on their own initiative under paragraphs 5 and 7 of Board's Standing Order No. 31 rose from 22,353 in fasli 1318 to 38,414 in fasli 1319. The increase was mainly in Coimbatore where re-settlement operations are in progress.

The total number of cases of all kinds to be dealt with in the year including the number pending disposal at its beginning was 4,26,371. Of these 4,00,908 were disposed of during the fasli leaving a balance of 25,463 pending at the end of the fasli, of which 1,394 have since been disposed of. The percentage of pending cases was high in Ganjám (33·97) and South Arcot (26·50). In Ganjám the bulk of the cases are pending with the Special Settlement-officer, No. V Party, who received them after the completion of the preliminary work and will dispose of them during the final check of the villages. The Collector of South Arcot states that the bulk of the pending cases were received in the last quarter of the fasli and that they are pending verification by village officers.

37. *Ruined tanks.*—No tank was handed over to private individuals for repair under Board's Standing Order No. 8.

38. *Settlement by Collectors.*—The rule laid down in paragraph 3 of Board's Standing Order No. 12, that the settlement of each taluk should be conducted by the Collector himself once in five years, was complied with except as regards Udayagiri in Ganjám, Ponnéri in Chingleput, Tanjore in Tanjore, Tirumangalam in Madura, Paramagudi in Ramnad and Atur in Salem.

39. *Loans and advances.*—The advances made under the Land Improvement Loans Act during fasli 1319 amounted to Rs. 2·91 lakhs and those under the Agriculturists' Loans Act to Rs. 3·60 lakhs. The aggregate amount advanced under both Acts was thus Rs. 6·51 lakhs as against Rs. 9·94 lakhs in the previous year. The decrease occurred chiefly in the districts of Bellary (Rs. 2,08,612), Anantapur (Rs. 90,187), Cuddapah (Rs. 33,044) and Coimbatore (Rs. 28,197) and was due mainly to the generally favourable character of the season in these districts.

40. *Objects to which loans were applied.*—Of the advances made under the Land Improvement Loans Act, Rs. 1,35,775 or 46·66 *per cent.* were for sinking new wells, the bulk of the disbursements having been made in Tinnevelly, Madura, Anantapur, Trichinopoly, Coimbatore, Bellary, Cuddapah and Chingleput; Rs. 84,627 were for repairing old wells chiefly in Anantapur, Coimbatore, Salem, Cuddapah and Madura, and Rs. 36,674 for the reclamation of land, a large portion of this amount having been taken up by the ryots of Bellary, Cuddapah and Madura. The loans for other purposes amounted to Rs. 33,942. Under the Agriculturists' Loans Act a sum of Rs. 3,33,389 or 92·60 *per cent.* was advanced for the purchase of cattle, chiefly in the districts of Madura, Chingleput, Cuddapah, Trichinopoly, Guntúr, Anantapur, North Arcot, Coimbatore, Tanjore, Nellore, Bellary and Salem; Rs. 3,681 for the purchase of fodder, the bulk of the amount having been spent in Kurnool and Anantapur; Rs 4,465 for the purchase of seed grain; and Rs. 18,484 for other purposes.

41. *Recoveries.*—Out of the demand of Rs. 3 22 lakhs and Rs. 3·69 lakhs repayable during the year under the Land Improvement and the Agriculturists' Loans Acts respectively, Rs. 2·85 lakhs or 88·51 *per cent.* were collected under the former and Rs. 2·95 lakhs or 79·95 *per cent.* under the latter. Advances to the amount of Rs. 16,962 under the Land Improvement Loans Act and Rs. 7,393 under the

Agriculturists' Loans Act were provisionally repaid during the year, although their repayment was not then due, while sums aggregating Rs. 757 and Rs. 278 respectively were written off the accounts as irrecoverable.

42. *Coercive process.*—The aggregate amount of principal and interest repayable during the year under both Acts was Rs. 9,45,321, of which Rs. 2,34,472 or 25 *per cent.* was collected without resort to coercive process and Rs. 5,36,626 or 57 *per cent.* after the issue of demands; Rs. 29,755 or 3 *per cent.* was realised after attachment but before sale, Rs. 369 by the sale of moveable property and Rs. 1,419 by the sale of land. The balance outstanding at the end of the year was Rs. 1,42,396, the arrears being heaviest in Anantapur, Bellary, Ganjám, Madura and Cuddapah.

43. The following statement shows the amount of interest payable by the Local Government to the Government of India for fasli 1319:—

Amount advanced to the Local Government by the Government of India.				Interest payable for the year by the Local Government to the Government of India at 3½ per cent. on the mean outstanding.
Acts.	Outstanding at the beginning of the year.	Outstanding at the close of the year.	Mean outstanding.	
	RS.	RS.	RS.	RS.
Land Improvement Loans Act	32,64,947	32,53,381	32,59,164	1,14,071
Agriculturists' Loans Act	13,14,460	13,72,102	13,43,281	47,015
Total ..	45,79,407	46,25,483	46,02,445	1,61,086

44. The subjoined statement shows the financial results of the operations under the Loans Acts:—

Items.	Land Improvement Loans Act.	Agriculturists' Loans Act.	Total.

7. Expenditure on free grants in aid towards the construction of private protective works or on establishments for well-boring or other outlay incurred from current revenue in connection with *takkavi* transactions.	12,528	15,411	* 27,939

* Represents the cost of special establishments entertained in certain districts and the cost of time devoted to loans work by the ordinary Land Revenue establishment at 3½ per cent. on the amount advanced during the year.

45. With the aid of loans under the Land Improvement Loans Act, 552 wells, capable of irrigating 2,438 acres of land, were constructed during the year at an aggregate cost of Rs. 1,01,172 and 546 wells designed to benefit 2,828 acres of land were repaired at a cost of Rs. 76,066; Rs. 21,872 were expended on the reclamation of 868 acres of land and Rs. 46,092 on other improvements benefiting 3,362 acres of land. The Anantapur district shows the largest number of wells (182) constructed and repaired, and it is followed by Cuddapah (173), Madura (152) and Tinnevelly (108). Under the Agriculturists' Loans Act 7,218 head of cattle were purchased at an aggregate cost of Rs. 3,36,089 and 367 houses were rebuilt at a cost of Rs. 12,300. Fodder was purchased for Rs. 8,432 chiefly in Bellary and seed grain for Rs. 3,135 mostly in the Nilgiris. A sum of Rs. 7,270 was spent on other purposes.

46. *Survey Advances.*—The advances made during the year under "Revenue Survey Advances—Collectors" amounted to Rs. 96,367. Of this sum—

	Rs.
Guntúr spent	18,525
South Canara	14,945
South Arcot	10,204
Kistna	9,164
Bellary	7,011
Gódávari	6,503
Malabar	5,776
Salem	5,667

The total amount which had to be accounted for during the year was Rs. 3,39,377, of which a sum of Rs. 55,885 was credited to accounts, leaving a balance of Rs. 2,83,492. Of the total amount so credited, Rs. 23,775 related to the operations of the Land Records staff. The recoveries during the year from the ryots or Municipalities on account of these operations amounted to Rs. 18,694.

Landholders' bills to the amount of Rs. 2,27,533 were received from Survey officers during the year in the districts of Ganjám, Vizagapatam, Cuddapah, Chingleput, Coimbatore and Tinnevelly. The arrears outstanding at the beginning of the year being Rs. 2,91,390, the total amount recoverable during the year was Rs. 5,18,923. Of this sum Rs. 2,63,208 was collected during the year, leaving a balance of Rs. 2,55,715.

47. *Junior Civilians—Knowledge of Vernaculars.*—The reports of the Collectors generally show that, with a few exceptions, their Civilian Assistants have a fair knowledge of the vernacular and are able to dispose of vernacular papers without abstracts.

48. *The relations between landlords and tenants in larger Zamindaris.*—These relations were on the whole fairly satisfactory. The friction between the landholders and tenants in the Mandasa zamindari of the Ganjám district continues for want of a proper Manager. Friction still exists between the zamindars of Dévárakóta and Mirzapuram in the Kistna district and their tenants, but it is not so pronounced as it was Strained feelings exist also between the landlords and tenants in Kárvetnagar of North Arcot, where the mortgagees having little interest in the welfare of the estate find their interests opposed to those of the tenants. Things are not much better in Bangaripalayam of the Chittoor taluk and in the Kálahasti zamindari. The affairs of Kadavur in the Trichinopoly district and of Ayakudi in the Madura district are in an unsatisfactory state. In Udaiyárpálaiyam of the Trichinopoly district difficulties in the matter of the exchange of pattas and muchilikas continue. There appears to be some tension between certain of the landlords and their tenants in the Ramnad and Madura districts owing to rent suits.

49. *Growth of subletting in ryotwari tracts.*—Subletting is as usual chiefly resorted to by the non-agricultural classes, by those engaged in professions other than agriculture and by the owners of large landed property. This practice is not reported to be on the increase except in Ganjám and in the parts of Guntúr which are irrigated by Kistna water. In Ganjám the increase seems to be due to a belief among capitalists that investment in land is the safest and most profitable course. From Bellary it is reported that the increase in the prices of food-grains and cotton appears to have created a tendency in Adóni division to avoid subletting as far as possible.

50. *Effect of recent legislation on the people.*—There was no special legislation during the year that affected the people generally. The Madras Land Encroachment Act is reported to be working smoothly except in Salem where the faultiness of the

resurvey (a matter already brought to the notice of the Board) is reported to have given rise to trouble. The difficulties in the working of the Madras Estates Land Act are gradually settling down as suits are decided by Law Courts. One feature in connection with the working of this Act is brought to notice in the Vizagapatam district where many ryots are reported to be selling their lands to capitalists for the value of their occupancy rights.

During the year under report, 198 societies were registered under the Co-operative Credit Societies Act X of 1904—5 urban and 193 rural—and one urban society in Guntúr was dissolved. Including three central, 24 urban and 153 rural societies formed up to the end of the previous year, the total number established in twenty-four districts of the Presidency up to the close of the year 1909–1910 was 377.

(True Extract.)

L. D. SWAMIKANNU,
Secretary.

To the Secretary to Government (Revenue Department),
with extracts from Collectors' reports.

* Includes railway-cess.

Note.—(1) Variations between the arrear demand entered in column 2 of this statement and the closing balance given in column 12 of the corresponding statement for fasli 1318, are due to the following causes:—

(*a*) revision of the land-cess demand on some of the estates in Vizagapatam,
(*b*) rectification of errors.

(2) This statement does not include the village-cess levied under the Madras Proprietary Estates Village Service Act II of 1894.

* Includes railway-cess.

Note.—(1) Variations between the arrear demand shown in column 2 of this statement and the amount shown in column 12 of the corresponding statement for fasli 1318 are chiefly due to the following causes:—

(*a*) imposition of assessment and cesses in cases not previously brought to account;
(*b*) rectification of errors.

(2) The current ryotwar demand shown in column 3 of this statement against Vizagapatam, Anantapur, Kurnool and Tanjore differ from the amount shown in column 59 of statement No. 4. The variation in Vizagapatam is due to the exclusion from this statement of assessment on resumed service inams which should be credited to the Proprietary Estates Village Service Fund. The Collectors of Anantapur, Kurnool and Tanjore have not explained the variations in their districts.

No. 10.—Statement showing the demand, collection and balance of land revenue and cesses, etc.—*cont.*

* Revised figures.

NOTE.—(1) The amount of assessment in column 93 differs from that given in column 32 of statement No. 3 in Kurnool and Chingleput. In Kurnool, it is due to the exclusion from this statement of the cesses included in the wet assessment of holdings in Kurnool proper into which new rates were not introduced during the fasli and that in Chingleput to the exclusion of the demand in Izara villages which is included in statement No. 3.

(2) The dry and wet extents given in this statement differ from those given in columns 27 and 29 of statement No. 3 against Chingleput. The difference is due to the exclusion of the extent of the Izara villages from this statement.

EXTRACTS FROM THE DISTRICT REPORTS.

GANJAM.

(N. MACMICHAEL, Esq., I.C.S., *Acting Collector.*)

17. COERCIVE PROCESS AND SALES FOR ARREARS OF REVENUE.—In the number of demand notices and sale notices issued there was an increase of 714 and 42 respectively; while there was a decrease of 19 in the number of distraint or attachment notices issued. The increase in the issue of demand notices is due to prompter action taken by the Revenue Inspectors. Though distraint had to be made in the case of 370 defaulters for an arrear of Rs. 18,730, personal property had to be sold only in the case of 2 defaulters for arrears of Rs. 66. Real property of 4 defaulters was sold in Goomsur and Chicacole taluks for an arrear of Rs. 280, the extent involved being 100 acres of dry and 1 acre of wet. Of the 100 acres of dry a single holding consisting of acres 90·20 cents with an assessment of Rs. 22–9–0 of Goomsur taluk was unfertile and not useful for cultivation. No lands were bought in by Government for want of bidders.

26. VERNACULAR CORRESPONDENCE IN THE ASSISTANT AND SUB COLLECTORS' OFFICES.—Messrs. Turing, Braidwood, Huggins, Bhore, Duff and Todd know Telugu well. They disposed of vernacular petitions as they are presented and get abstracts made only when the petitions are received by post or require previous papers to be put up. Messrs. Duff and Todd passed in Uriya. They can dispose of petitions without abstracts. Mr. Duff also knows Khond sufficiently well not to require an interpreter.

32. RELATION OF LANDLORD AND TENANT IN LARGE ZAMINDARIS.—There is a general desire on the part of the ryots to substitute money for grain rents. In consequence of this the relations between the ryots and landholders are somewhat strained in some parts of the district. In Mandasa the difficulties have not yet been settled for want of a proper manager. A few applications for survey and settlement of rights were received from the ryots of Mandasa.

33. GROWTH OF SUBLETTING IN RYOTWARI TRACTS.—This appears to be on the increase as the popular belief among capitalists is that investment in land is the safest and most profitable course.

34. EFFECT OF RECENT LEGISLATION.—No Acts were passed during the fasli affecting the people in general. Act I of 1908 is being freely used over most of the district with the result that it has added considerably to the work of the Divisional Officers. It has been welcomed more by the ryots than by the zamindars. The Land Encroachment Act is working smoothly.

VIZAGAPATAM.

(F. C. PARSONS, Esq., I.C.S., *Collector.*)

7. RYOTWARI SETTLEMENT.—The total number of ryotwari villages was 510 against 509 in the preceding year. The increase was due to the resumption of Lingamvalsa, a subsequent whole inam village in the Bobbili taluk.

17. PROCESSES UNDER ACT II OF 1864.—Statement No. 8-A contains details of coercive processes employed in the realization of the Government dues under Act II of 1864. The following table compares the processes of each kind issued during the fasli with those of the previous fasli :—

	Fasli 1318.	Fasli 1319.
Demand notices	5,125	4,339
Distraint and attachment notices	229	344

The variations under the above two heads were respectively due to the less number of cases in which demand notices were issued and to the greater number of cases in which attachment of property was resorted to.

18. SALE NOTICES.—The number of sale notices issued during the year was 100 against 8 in the previous year and the increase was due to the unfavourable character of the season.

27. VERNACULAR CORRESPONDENCE IN ASSISTANT AND HEAD ASSISTANT COLLECTORS' OFFICES.—Messrs. P. C. Dutt, S. H. Slater, J. C. H. Fowler. J. I. Smith and E. Graham worked in the district during the year. They are able to conduct their work in the vernacular.

36. GROWTH OF SUBLETTING IN RYOTWARI TRACTS.—No appreciable increase occurred in the subletting of lands in ryotwari villages during the year.

38. EFFECT OF RECENT LEGISLATION ON PEOPLE.—The only new legislation during the year under report was the passing of the Legislative Councils Act, the Seditious Meetings Act and the Press Act This has had no appreciable influence on the people at large. The disturbing effect produced by the Madras Estates Land Act I of 1908 still continues as landlords

and tenants have not yet fully come to understand the practical effects of its working. An unpleasant feature of a permanent nature in connection with the said Act has come to my knowledge. It is that many ryots are selling their lands for the value of their occupancy rights therein and in most cases to non-cultivating classes either through improvidence or through pressure of debt. The standing ryot population are thus degrading themselves to the position of farm servants under capitalists instead of being themselves the land-owners. It seems impossible to check this process though it is opposed to the intentions of the legislature.

GODAVARI.

(E. B. ELWIN, Esq., I.C.S., *Collector*.)

7. RYOTWAR SETTLEMENT.—The number of ryotwari villages in the district is 550 against 488 of the previous year, 62 settled villages of Nugur taluk having been transferred to this district from Central Provinces during the year under report.

19. COERCIVE PROCESS.—The processes of all kinds issued numbered 67 against 84 of the previous year. The fall is due to the strict observance of the orders of the Board and to the issue of demand notices only in cases in which it was found to be absolutely necessary. The attachments and sales of moveable and immoveable property under Act II of 1864 during the current and previous faslis are compared below :—

Fasli.	Moveable property.						Immoveable property.						
	Attached.			Sold.			Attached.			Sold.			
	Number of cases.	Amount of arrear.	Value of property distrained.	Number of cases.	Amount of arrear.	Value of property distrained.	Number of cases.	Amount of arrear.	Value of property distrained.	Number of cases.	Amount of arrear.	Extent.	Amount realized by sale.
		Rs.	Rs.		Rs.	Rs.		Rs.	Rs.		Rs.	Rs.	Rs.
1318	16	993	1,124	2	135	148	10	153	185	..	..	..	..
1319	6	321	356	1	10	16	..	..	..	..	..	..	18*

* Represents amount realized by sale of moveable property.

There was no land bought in by Government as there were no land sales for the arrears of revenue during the fasli. There was a marked fall in the number of distraints during the year under report as compared with that in the preceding year.

28. VERNACULAR CORRESPONDENCE IN ASSISTANT AND HEAD ASSISTANT COLLECTORS' OFFICES.—Mr. Fowler was in charge of Rajahmundry division from 1st July 1909 to 29th August 1909. Mr. Robertson was in charge of Rajahmundry from 30th August 1909 to the end of June 1910. Mr. Tampoe was in charge of Bhadráchalam division from 1st July 1909 to 5th December 1909. Mr. Glasson was in charge of Bhadráchlam division from 6th December 1909 to the end of June 1910. Mr. Harvey was Assistant to the Collector from 16th December 1909 to the end of year.

The first three of these officers have a sufficient colloquial knowledge of Telugu. Mr. Glasson knows more Tamil and Hindustani, but is picking up Telugu, and Mr. Harvey is learning it for his examinations.

34. The additional information called for in B.P., No. 321, dated 24th August 1904, is dealt with below :—

(1) THE RELATION BETWEEN THE LANDLORDS AND TENANTS IN LARGE ZAMINDARI AREAS.—In this district the large zamindaris are Pithápuram, Kottam, Bhadráchalam and Gopalpuram. Act I of 1908 has given rise to much litigation between the landlords and tenants; but the relation existing between the two is on the whole satisfactory as the majority of the suits filed by the landlords under the Act is merely for the recovery of rent.

(2) GROWTH OF SUBLETTING IN RYOTWARI TRACTS.—The growth of subletting is steady. The Agricultural classes, viz., Kshatriyas and Sudras cultivate their lands while the non-agricultural classes, such as Brahmins and Vaisyas and also absentee land-owners and those engaged in professions other than agriculture, continue to sublet their holdings, but there appears to be some anxiety on the part of these classes also to give some personal attention to agriculture and to introduce improved methods.

(3) THE EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—The introduction of Act I of 1908 shook for a time the harmonious relationship between landlords and their tenants in zamindari tracts to some extent, but they are settling down again now that the first batches of suits are decided.

KISTNA.

(E. Scott, Esq., I.C.S., *Collector.*)

16. Coercive processes.—The number of processes of each kind issued during the fasli is shown below :—

	Fasli 1318.	Fasli 1319.	Difference.
Demand notices	50,208	58,421	+ 8,213
Attachment notices	6,778	(*a*) 10,370 (*b*)	+ 3,592
Sale notices	1,778	3,062	+ 1,284

The increase in the number of notices of all kinds is due to the increasing tendency on the part of the ryots to evade payment as long as possible. The increase was to some extent also due to ryots deferring payment in the expectation of getting remission. An extent of 1,639 acres was sold in 138 cases for an arrear of Rs. 7,394. Of the extent sold 462 acres were bought in by Government. The increase in the land sales was due to many lands of a poor quality having been taken on patta in recent years. Rs. 1,277 were realised as process fees against Rs. 1,197 in the previous fasli. The actual cost of the process establishment during the fasli was Rs. 860 against Rs. 891 in fasli 1318.

25. The relation between landlords and tenants.—Friction still exists between the Zamindars of Devarakota and Mirzapuram and their tenants but it is not so pronounced as it was. Otherwise there is nothing that calls for special notice.

27. The effect of recent legislation on the people.—The Estates Land Act is still responsible for a good deal of ill feeling between landlords and their tenants but this will no doubt disappear before long as these disputes get settled in Court.

28. Growth of subletting in ryotwari tracts.—There are no signs that subletting is on the increase.

30. Vernacular knowledge of Civilian Assistants.—The following Civilian Sub-Collectors and Assistants served in the district during the fasli—

1. Mr. R. F. B. L. Guppy, I.C.S.
2. Mr. E. A. Davis, I.C.S.
3. Mr. F. A. Coleridge, I.C.S.
4. Mr. G. F. Paddison, I.C.S.
5. Mr. H. M. Hood, I.C.S.

With the exception of Mr. Hood all have a fair knowledge of Telugu. Mr. Hood who has a service of less than a year is studying Telugu but so far has not made great progress.

GUNTUR.

(S. W. G. I. MacIver, Esq., I.C.S., *Acting Collector.*)

23. Particulars of the coercive processes employed in the realization of the Government demand under Act II of 1864.—The subjoined abstract shows the number of processes of each kind issued during the fasli :—

	Fasli 1318.	Fasli 1319.
Coercive processes—		
Demand notices	30,703	70,750
Attachment notices	773	1,428
Sale notices	9	26
Sales	3	17

The increase in the number of coercive processes is due to the unfavourable character of the season.

24. Sales.—In the year under report sale notices were issued in 26 cases out of which 17 only have been followed by sales.

25. Value of the lands sold.—Moveable property of the estimated value of Rupees 263–12–0 and immoveable property of the estimated value of Rs. 665 were sold for the recovery of the arrears aggregating to Rs. 236–4–0 and Rs. 320–11–4 respectively, the amount thereby realized being Rs. 290–2–3 and Rs. 785–10–0. The sales fetched on the average 10 times the assessment in the cases of dry lands and 14 times the assessment in the case of wet lands.

26. EXTENT OF LANDS SOLD.—The actual extent of lands sold during the fasli was 73·77 acres against 7·38 acres of the previous fasli, of which 22·86 acres was bought in by Government for a sum of two annas.

36. VERNACULAR KNOWLEDGE OF CIVILIANS.—Messrs. Fotheringham and Panduranga Rao have a satisfactory knowledge of Telugu and make use of the language.

37. THE RELATION BETWEEN LANDLORDS AND TENANTS IN THE LARGER ZAMINDARIS.—There are no zamindari estates in the district except one taluk of the Venkatagiri estate situated in Ongole taluk. I have heard nothing tending to show that the relations between the tenants and the Raja are unsatisfactory. The number of suits under the Estates Land Act also has not been large.

38. GROWTH OF SUBLETTING IN RYOTWARI VILLAGES.—As remarked last year, this occurs to a large, and probably growing, extent in the tracts irrigated by Kistna water but is less frequent elsewhere.

40. EFFECT OF RECENT LEGISLATION.—Act I of 1908 has not yet led to any marked changes in the small part of the Venkatagiri zamindari included in this district; the recent legislation relating to the right of election to the Councils and to the Taluk Boards does not seem to have aroused very much interest except, of course, among educated townsmen; nor does any other recent measure appear to have effected any great change.

NELLORE.

(Khan Bahadur KHADIR NAVAZ KHAN, Esq., *Collector.*)

8. RYOTWARI SETTLEMENT.—In consequence of the introduction of resettlement, pattas were issued in all cases in fasli 1316. In the year under report fresh pattas were issued, as in last year, for new assignments and modifications were made in old ones whenever produced.

20. COERCIVE PROCESSES.—The increase in the number of processes issued in the year under report is, attributable to the inability of the average ryot to discharge circar dues voluntarily in consequence of the bad year. Steps were however taken to discourage indiscriminate issue of processes. The above reason also applies for the rise in the number of demand notices followed by sales, 839 against 184 in the previous year.

30. THE RELATION BETWEEN THE LANDLORD AND TENANT IN THE LARGER ZAMINDARIS.—The larger zamindaris of this district are those of Venkatagiri and Kalahasti. The Venkatagiri zamindari is contained in the three taluks of Gudur, Kandukur and Kanigiri and in the four divisions of Sulurpet, Venkatagiri, Darsi, and Podili in charge of independent Deputy Tahsildars. The Pamur and Sitaramapuram taluks of Kalahasti estate are situated in the five taluks of Kávali, Kandukur, Atmakur, Udayagiri and Kanigiri. The relationship between landlord and tenant in the two zamindaris mentioned above continues to be satisfactory. There is no unusual increase in litigation.

31. GROWTH OF SUBLETTING IN RYOTWARI VILLAGES.—Landholders are not resorting to subletting on any considerable scale. People belonging to the agricultural class who own lands prefer to occupy their lands themselves for fear of losing the advantages of direct cultivation and involving themselves unnecessarily in litigation. Pleaders, officials, merchants and Brahmins do, however, sublet their lands, but they form a small minority of the class of landholders.

33. THE EFFECTS OF RECENT LEGISLATION.—Madras Act I of 1908 must be said to be still in its infancy. Some of its provisions are still unknown to the masses who are mostly illiterate. No suits were instituted by the tenants in the larger zamindaris to claim the privileges they are entitled to under the Act. The few that were filed by the landlords were for the realisation of arrears of rent. Act III of 1905 has been sufficiently familiar to the people who seem to be satisfied with its provisions. There have been, however, stray obstinate cases which were repressed by the levy of heavy penal assessment under the Act, and this is the reason for increase in the revenue derived from poramboke cultivation. In regard to the more recent legislation of a political character such as the Seditious Meetings Act, the Explosive Act, there is nothing worth mentioning about their effects on the masses. No prosecutions were instituted under the Press Act in the year under report.

34. VERNACULAR LANGUAGE OF CIVILIANS.—The only Civilian division in this district is Gudur. During the major portion of the year Mr. H. G. Gharpurey was in charge of the division. He has a fair knowledge of Telugu.

CUDDAPAH.

(R. A. JENKINS, Esq., B.A., I.C.S., *Collector.*)

6. OCCUPATION AND CHANGES.—In the current fasli one village of Jammalamadugu taluk, Vengampalli, was transferred to the Koilkuntla taluk of Kurnool district—*vide* G.O., No. 817, Revenue, dated 24th March 1909.

14. PROCESSES UNDER ACT II OF 1864.—Statement No. 8 shows the particulars of processes issued. The figures of the year are compared with those of the 3 preceding years:—

——	Fasli 1316.	Fasli 1317.	Fasli 1318.	Fasli 1319.
Demand notices	78,763	88,600	63,828	66,645
Distraint and attachment notices	5,418	6,081	3,404	4,768
Sale notices	1,301	747	798	1,770
Sales	784	267	388	356

DEMAND NOTICES.—When compared with the preceding year there was slight increase in the number of these notices which occurred in the taluks of Sidhout, Cuddapah, Rayachoti and Jammalamadugu but it was less than the number issued in 1316 and 1317.

ATTACHMENTS AND SALES.—There was increase in the number of cases of attachment of moveable and immoveable property when compared with the preceding year. This occurred chiefly in Pullampet taluk where on account of the failure of the north-east monsoon resort to processes on a larger scale was found necessary. Sales of personal property have slightly diminished while those of immovable property slightly increased. The properties of 4,768 defaulters were attached for the recovery of Rs. 43,136 and those of 356 defaulters for Rs. 2,660 were brought to sale. Sales have a proportion of 7 per cent. to attachments against 8 per cent. last year.

Two hundred and ninety-nine acres of land were purchased by private individuals and 588 acres by Government for want of bidders against 272 and 396 acres in 1318 and 489 and 431 acres respectively in 1317. The increase in the area of land sold and bought in by Government occurred chiefly in Rayachoti and Pullampet taluks and related to dry lands of small value assessed on an average at As. 11 an acre.

The total amount realized by sale of property was Rs 2,143 against the estimated value of Rs. 3,860. The price for acre of dry land sold was Rs. 3-1-0 per acre and that of wet land was Rs. 11-1-0.

No special agency was employed for the service of processes.

Of the land sold for arrears of revenue and bought in by Government in the year and in the previous years 141 acres were resold and fetched Rs. 1,391.

20. VERNACULAR KNOWLEDGE OF CIVILIANS.—I was Sub-Collector, in charge of the Madanapalle division for a little over half the year. Telugu is my second language but I have a practical working knowledge of Telugu and do not require an interpreter or translator. As the work was heavy and I am still a little slow at reading chain or indifferent writing, petitions were generally read over to me in the vernacular.

21. RELATIONS BETWEEN LANDLORDS AND TENANTS.—Continued to be satisfactory.

22. SUBLETTING.—The practice is not on the increase in this district.

23. EFFECT OF RECENT LEGISLATION.—The Land Estate Act is rarely availed of in this district and the Land Encroachment Act is being worked without hardship.

The rules issued in respect of charging penal water-rates for irregular irrigation have been worked with moderation.

ANANTAPUR.

(R. MORRIS, Esq., I.C.S., *Collector.*)

17. VERNACULAR CORRESPONDENCE IN THE SUB-COLLECTOR'S OFFICE.—Mr. A. C. Duff and Mr. M. G. Sykes, who were in charge of the Penukonda division during the year, were acquainted with Telugu and Telugu petitions, etc., were being read aloud to them. Generally there is no vernacular official correspondence—the correspondence to and from Taluk offices—continued to be carried on in English as usual.

18. COERCIVE PROCESSES.—The prescribed jamabandi statements 8-A and B have already been submitted to the Board with explanation for variations. No process fees were collected and no process establishment was employed during the year.

23. RELATION OF LANDLORD AND TENANT IN THE LARGER ZAMINDARI AREAS.—There are no such zamindaris in this district.

24. THE GROWTH OF SUBLETTING IN RYOTWARI TRACTS.—For the reasons stated in the report for fasli 1318 the practice is not on the increase in this district.

25. EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—Act I of 1910 (Press Act) hardly affects this district at all, as there are no newspapers or other periodicals published in it. Of the Acts passed in previous years, that which most affects the people is Madras Act I of 1909, amending the Revenue Recovery Act by allowing a defaulter on certain conditions to pay arrears even after the sale of his property and to have the sale cancelled. But little advantage has been taken of this amendment in this district.

BELLARY.

(J. A. CUMMING, Esq., I.C.S., *Collector*.)

11. COERCIVE PROCESSES.—Enclosure A to statement No. 8 exhibits particulars of processes issued. There was a decrease in the number of defaulters whose personal properties were attached and sold. The number of defaulters whose real property had to be sold however rose from 116 to 294. This is due to the fact that in fasli 1318 processes against lands were suspended as explained in paragraph 11 of this office Jamabandi Report R. Dis. No. 343, dated 2nd October 1909, owing to the unfavourable character of the season. But for this, the figures of fasli 1319 would have appeared more favourable.

21. EXTENT TO WHICH ASSISTANT AND SUB-COLLECTORS PASSED ORDERS ON ENGLISH ABSTRACTS PREPARED BY CLERKS.—The Civilian's division was mostly in charge of Mr. Smith. Mr. Tasker was in temporary charge of Hospet division, when I was on a month's privilege leave. Their knowledge of the vernaculars was reported in my report D. Dis. No. 2790, dated 27th July 1910, in reply to Board's Reference No. 1272/Gl.' 10–1, dated 23rd June 1910 (Land Revenue Department).

22. CONDUCT OF PUBLIC SERVANTS.—One Revenue Inspector was reduced from Rs. 35 to 30, and his appeal was rejected as out of time. One clerk was suspended for 3 months for purchasing lands at land sales, but the Board upset the order on appeal. The Divisional officer, Adóni, suspended for one month two clerks for mislaying some papers, but in one case the punishment was, on appeal, modified to one of a black mark. One clerk of the Adóni Taluk office was suspended for loss of certain records and one clerk of my office was fined Rs. 5. The staff is not up to the level of other districts I have served in, and Tahsildars as a general rule have not sufficient control over their village officers.

23. RELATION OF LANDLORD AND TENANTS.—There are no zamindaris in the district. The relations between the landlords and tenants in whole inam villages were quite harmonious except that the ryots of shrotriem Kodihalli, Harpanahalli taluk, complained to the Revenue Officers that the shrotriemdar has not been respecting their rights, and that they are not allowed to enjoy their lands according to well-established usage. They want their lands to be surveyed. The matter is under correspondence.

24. GROWTH OF SUBLETTING IN RYOTWARI VILLAGES.—There is no noticeable increase in subletting. The classes among whom it has been prevalent are as usual Brahmin land-owners, public servants, lawyers and traders. The rise in the prices of food-grains and cotton appears to have created a tendency in Adoni division to avoid subletting as far as possible.

27. EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—A report on the working of the Madras Land Estates Act I of 1908 was submitted with my D. Dis. No. 2965, dated 11th August 1910. The executive rules regarding the refund of excess collections and of the levy of water-rate for irregular irrigation have not had a fair trial. A sum of Rs. 2–11–0 was refunded by the Jamabandi officer at Alúr, but none appeared before me. The new rules regarding the penal water-rates have tended to increase the penalty considerably and I anticipate that irregular irrigation will be considerably reduced in fasli 1320. The ryot population have not understood the advantages afforded by Government by the rules allowing them access to village accounts and facilitating the remittances of revenue by postal money order system. I had occasion to notice that many Revenue officials had no knowledge of these rules, and during jamabandi I instructed Inspecting Officers to explain the rules both to the village officers and the ryots. The Madras Land Encroachment Act has been in force in the district and a report in connection with it was submitted with my letter D. Dis. No. 2452, dated 7th July 1910. The extent of sivoyjama occupation fell from 72,191 to 68,145 acres, but the poramboke occupation rose from 5,528 to 7,145 acres. The remeasurement operations have been instrumental in bringing to light some cases of encroachment. The greater vigilance exercised in the practical working of the Act together with the extension of cultivation noticed already accounts also for the increase. This large extent might however have been reduced if attachment of crops and evictions had been freely resorted to, but Tahsildars generally are exceedingly dilatory in making collections in such cases. I have issued instructions in this matter.

KURNOOL.

(J. M. TURING, Esq., I.C.S., *Ag. Collector.*)

5. NUMBER OF VILLAGES.—In the year under report a village called Vengampalli of Cuddapah district was added to Koilkuntla taluk of this district.

26. PROCESSES UNDER ACT II OF 1864.—Statement 8 gives particulars of the coercive processes issued for the realization of the Government dues under Act II of 1864.

The following abstract compares the number of processes of each kind issued during the year with the figures of two preceding years:—

Coercive processes.	Fasli 1317.	Fasli 1318.	Fasli 1319.
Demand notices	15,935	1,692	2,211
Distraint and attachment notices	642	362	230
Sale notices	431	334	138
Sales	91	116	57
Total ..	17,079	2,504	2,636

There has been a slight increase in the total number of processes issued during the year. The increase is entirely in the number of demand notices. More than two-thirds of the total number of such processes were issued in Nandyal and Koilkuntla taluks and was probably in excess of what was necessary. The attention of these Tahsildars will again be drawn to the necessity of issuing demand notices only when attachment should immediately follow. On the other hand there was a decrease in attachment, sale notices and sales.

41. VERNACULAR LANGUAGE OF CIVILIANS.—The only Civilian Assistant who was working in the district during the fasli 1319 was Mr. Glasson. He left the district in November last. It was already reported that he has a good knowledge of the vernacular.

42. RELATIONS BETWEEN LANDLORD AND TENANT.—No cases of friction have come to my notice. There are no large landholders in this district.

43. GROWTH OF SUBLETTING IN RYOTWARI VILLAGES.—Subletting is chiefly resorted to as usual by non-agricultural classes, traders, Brahmins, Komaties, and absentee land-owners. The practice does not seem to be on the increase so far as my information goes.

45. THE EFFECT OF THE RECENT LEGISLATION ON THE PEOPLE.—There was no special legislation during the year that affected the people generally.

MADRAS.

(A. R. CUMMING, Esq., I.C.S., *Collector.*)

8. COERCIVE PROCESS AND SALES FOR ARREARS OF REVENUE.—The number of first demands (or notices requiring parties to pay quit rent under section 4 of Act VI of 1867) issued during the fasli was 28,264 against 28,665 in the preceding fasli. The number of distraint warrants issued was 26,891 against 25,275 in the previous fasli. Distraints of personal property were made in 7 cases for arrears amounting to Rs. 43 as against 59 cases for arrears of Rs. 523 in the previous fasli. The number of cases in which distrained property was actually sold was one for an arrear of Rs. 3 against two for arrears of Rs. 12 in the previous fasli. Lands were attached in 22 cases against 126 in the previous fasli, but in no case within the fasli was the land attached brought to sale.

14. ON THE RELATION OF LANDLORD AND TENANT IN THE LARGER ZAMINDARI TRACTS IN THIS DISTRICT.—There are no zamindari tracts in this district.

15. ON THE GROWTH OF SUBLETTING IN RYOTWARI TRACTS.—The major portion of the area of this district being house-sites no remarks under this head are called for.

CHINGLEPUT.

(L. VIBERT, Esq., I.C.S., *Acting Collector.*)

7. RYOTWAR SETTLEMENT.—The increase of two villages in the number of Ryotwari villages is due to the sub-division of Uttiramerur village in the Madurantakam taluk into three villages.

	Fasli 1319.	Fasli 1318.
	NO.	NO.
1. Demand notices	90,399	350,750
2. Distraint and attachment notices	24,724	57,781
3. Sale notices	24,564	57,718
4. Sales	147	318

18. COERCIVE PROCESSES.—The marginal abstract compares the processes issued during the year under report with those of the previous year. The decrease which occurs under all the four items is due to the issue of stringent instructions to reduce the number of processes.

22. MAINTENANCE OF A KNOWLEDGE OF THE VERNACULAR BY CIVILIANS.—The only Civilian Divisional Officer is the Sub-Collector at Chingleput. Mr. Booty is referred to in last year's report. Mr. Jackson joined during the year and has an adequate knowledge of colloquial Tamil.

23. (1) As regards the relation of landlord and tenant there has been no material change during the year.

(2) The Madras Estates Land Act I of 1908 has so far undoubtedly had the effect of increasing litigation. The number of suits under the Act has multiplied and a special clerk for suit work has been entertained in the Sub-Collector's office and an application has been made to the Board for the appointment of a Special Deputy Collector for the suit work in the district.

NORTH ARCOT.

(N. S. BRODIE, Esq., I.C.S., *Collector.*)

9. PROCESSES UNDER ACT II OF 1864.—The figures relating to the processes issued during the fasli are compared below with those relating to the preceding fasli.

Number of ryotwari pattadars 238,406.

	In fasli 1318.	In fasli 1319.	Increase or decrease.
A. Number of demand notices issued	501,548	363,104	— 138,444
B. Do. attachment notices issued	34,326	18,939	— 15,387
C. Do. sale notices issued	27,306	13,312	— 13,994

There was a marked decrease under all the three heads, the reason being that owing to the comparatively good season the ryots paid their dues without difficulty. Care was also taken to impress upon Tahsildars the necessity of collecting revenue promptly and without waiting for arrears to mount up. Processes were limited as far as possible to cases where without them collection would have been impossible. The figures showing the extent to which sales were actually resorted to during the fasli are compared below with those of the previous fasli. The greater number of these cases occurred in the Arcot and Chittoor taluks.

Particulars.	Personal or real.	Fasli 1318.	Fasli 1319.	Difference.
1. Number of defaulters whose property was sold	Personal.	59	95	+ 36
	Real.	15	23	+ 8
2. Amount of arrears for which property was sold	Personal.	1,097	573	— 524
	Real.	130	228	+ 98
3. Amount realized by sale of property	Personal.	995	504	491
	Real.	646	342	— 304
4. Extent of lands sold	..	65	165	+ 100
5. Do. bought in by Government	..	19	30	+ 11

13. KNOWLEDGE OF VERNACULARS BY CIVILIANS.—Mr. Stodart, Acting Sub-Collector at Ranipet, reports that he reads a small percentage of Tamil petitions himself and passes orders; in the remaining cases, on the précis put up by the office. He states that he cannot read Telugu petitions as quickly as Tamil ones. His colloquial knowledge of Tamil is good. Mr. Matheson, Acting Sub-Collector at Vellore, reports that he can dispose of Tamil papers without abstracts, and that he does so partly, and that as the work of the division is very heavy he disposes of the rest of the petitions on abstracts and translations put up by the office.

17. RELATIONS BETWEEN LANDLORDS AND TENANTS IN ZAMINDARIS.—There is little or no sympathy between the landlords and tenants in Kárvetnagar zamindari. The landlords, or rather mortgagees, having little interest in the welfare of the estate, try to get as much out of the tenants as they can, and the tenants naturally resist as far as they can Things are not much better in Bangaripalaiyam of Chittoor taluk and in Kálahasti zamindari. Elsewhere the relations of the parties appear to be more or less satisfactory.

18. GROWTH OF SUBLETTING IN RYOTWARI TRACTS.—Subletting is as usual confined to the non-agricultural classes such as Brahmans, Vaisyas and absentee land-owners generally. My information, so far as it goes, does not show that there has been any noticeable increase in this direction.

19. EFFECT OF RECENT LEGISLATION.—I have nothing to add to what I have said in my last year's report, Dis No. 4347/D., dated 20th November 1909, about the working of Act III of 1905. The sections of this Act relating to eviction have been rarely resorted to yet in this district, though they will probably have to be employed in order to get rid of really objectionable encroachments. When the encroachment is profitable, or is otherwise advantageous to the ryots, the levy of even the maximum penal assessment under the Act seems to have little effect. As ordered by Government in its review on the last Jamabandi report, necessary instructions have been issued to all the officers concerned to enforce the provisions of the Act relating to eviction wherever possible. The result will probably be a good deal of litigation and great care has to be taken to make sure of each case before resorting to this extreme step.

SOUTH ARCOT.

(A. R. KNAPP, Esq., I.C.S., *Collector.*)

Items.	Fasli 1318.	Fasli 1319.
	NO.	NO.
1. Demand notices	37,253	17,458
2. Attachment notices	707	519
3. Sale notices	423	280
4. Sales	19	41

13. COERCIVE PROCESSES. — The total number of processes of each kind issued in faslis 1318 and 1319 is shown in the margin. There was a considerable decrease under the first three items during the year.

14. PROCESS ESTABLISHMENT.—The total number of processes served by special agency was 4,569 against 4,260 in the previous year, and a sum of Rs. 529 was realized as fees. The actual cost of the establishment amounted to Rs. 330.

27. VERNACULAR CORRESPONDENCE OF THE OFFICES OF COVENANTED DIVISIONAL OFFICERS.—The Covenanted Civilians who worked in this district during the fasli were (1) Mr. R. Narayana Aiyar, Acting Sub-Collector in charge of the Tindivanam division, from 13th October 1909 till the end of the fasli, and (2) Mr. G. T. Boag, Assistant Collector, who was in charge of the Cuddalore division from 6th January 1910 till the end of the fasli, and (3) Mr. T. H. Hill, Assistant Collector, who joined on 23rd December 1909. Mr. Narayana Aiyar used freely his knowledge of Tamil. Mr. Boag acquired a useful working knowledge of the vernacular, which he took as his Second Language in the Higher Standard Examination. Mr. Hill pursued the usual course of study in Tamil but failed to pass by the Lower Standard at the July examination.

28. RELATIONS OF LANDLORD AND TENANT IN THE LARGER ZAMINDARI AREAS.—There are no large zamindaris in this district. The relations between the landlords and the tenants in the other estates continued to be amicable.

29. GROWTH OF SUBLETTING IN RYOTWARI TRACTS.—Subletting continued to be resorted to by absentee owners, but there was no special increase in the practice.

30. EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—The Estates Land Act of 1908 has not materially affected this district as there are few estates and there is not much litigation in them.

TANJORE.

(R. F. AUSTIN, Esq., B.A., I.C.S., *Acting Collector.*)

16. COERCIVE PROCESSES.—Statement 8-A shows the particulars of coercive processes employed for the realization of Government revenue during the fasli. The following extract shows the total number of processes issued under each head :—

	Fasli 1318.	Fasli 1319.	Difference.
1. Number of demand notices issued	274,631	268,196	— 6,435
2 ,, of attachment notices	14,084	17,290	+ 3,206
3. ,, of sale notices ..	13,021	15,451	+ 2,430
4. ,, of property sold .	206	137	— 69

The number of demand notices showed a decrease of more than 2 per cent., while the attachment and sale notices increased by 23 and 18 per cent. respectively. The number of sales however decreased by 33 per cent. The following table shows the number of demand notices issued in each taluk in faslis 1318 and 1319 :—

Taluks.	Number of demand notices issued.		Difference.		Percentage of column 4 to column 2.
	Fasli 1318.	Fasli 1319.			
1	2	3	4		5
Tanjore	89,868	47,746	—	42,122	47
Kumbakónam	62,574	52,174	—	10,400	16
Máyavaram	4,414	4,958	+	544	12
Shiyali	8,643	9,789	+	1,146	14
Nannilam	10,830	8,132	—	2,698	25
Negapatam	7,456	9,195	+	1,739	10
Tirutturaippúndi	65,664	70,598	+	4,934	7
Mannárgudi	9,757	48,597	+	38,840	408
Pattukkóttai	15,425	17,007	+	1,582	9
Total ..	274,631	268,196	—	6,435	2

The decrease in Tanjore, Kumbakónam and Nannilam is attributed to close scrutiny exercised before the issue of demands and to the high prices of food-grains which facilitated prompt payment of Government dues. The increase in demands followed the season being especially marked in Mannárgudi, Tirutturaippúndi and Pattukkóttai.

26. VERNACULAR CORRESPONDENCE IN THE HEAD ASSISTANT AND ASSISTANT COLLECTORS' OFFICES.—There is no vernacular official correspondence. Petitions in the vernacular are, as a rule, read to the presiding officers when presented in person; petitions received by post are submitted with an English abstract prepared in the office. No Assistant Collectors were posted to this district during the fasli.

29. RELATIONS OF LANDLORD AND TENANT IN THE LARGER ZAMINDARI AREAS.—These were generally satisfactory.

30. GROWTH OF SUBLETTING IN RYOTWARI TRACTS.—No increase has been reported.

31. EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—The Estates Land Act I of 1908 came into force in the beginning of fasli 1318. Landlords and tenants do not seem to have thoroughly understood its provisions yet. I submit a copy of this office report on the subject to the Board (Land Revenue), D. Dis. No. 3188/Rev., dated 27th August 1910. The effect of the Press Act of 1910 was very slight during the fasli.

32. THE WORKING OF THE MADRAS LAND ENCROACHMENT ACT, III OF 1905.—In fasli 1319, encroachers were ordered to be evicted in 2,000 cases roundly. A statement is enclosed showing the amount of sivoijama and penal assessment levied during faslis 1318 and 1319. The amount under sivoijama has decreased in spite of the increase in the extent so charged. This is partly due to levy of single dry rate in cases of unobjectionable occupation of seed-bed tanks by grounding seedlings instead of wet rate levied in the previous year. There was a slight increase in the amount of penalty imposed during the fasli as compared with the previous year. This is chiefly due to the eviction orders not being promptly carried out and to forfeiture of crops not being resorted to sufficiently in time before the crops are off the ground. Instructions have been issued to the Divisional Officers to strictly follow the orders contained in Board's Proceedings, No. 370 (Revenue Settlement), dated 21st October 1909.

TRICHINOPOLY.

(M. YOUNG, Esq., I.C.S., *Acting Collector.*)

15. COERCIVE PROCESSES AND SALES FOR ARREARS OF REVENUE.—There was a considerable decrease in the number of processes of each kind issued during the year. The statistics for the last three faslis are compared below :—

	Fasli 1317.	Fasli 1318.	Fasli 1319.
	Rs.	Rs.	Rs.
Demand notice	1,53,286	1,36,522	1,15,688
Attachment notice	3,653	3,959	3,413
Sale notice	3,653	3,928	3,378

The steady decline under "Notice of demand" was due to stringent orders issued from time to time to the Tahsildars requiring them to exercise great care, and to see that such notices are issued only in cases where they are really necessary. The actual area sold for arrears of revenue was 38 acres dry and 8 acres wet against 72 acres dry and 8 acres wet, respectively, in last year. The percentage of the number of defaulters, whose personal and real property was sold to the number of those whose personal and real property was attached, was very small, leaving only 6.

22. VERNACULAR CORRESPONDENCE OF THE ASSISTANT COLLECTOR.—Mr. H. S. Shield has been Assistant Collector of this district from 10th December 1909. He was principally engaged in the trial of magisterial cases and was occasionally deputed to special works such as—

(1) Waste and shavi inspection in the Udaiyárpálaiyam taluk.

(2) Enquiry into the irregularities noticed in the collection accounts of Advathur village, Trichinopoly taluk.

He also attended the Collector's jamabandi in the Udaiyárpálaiyam taluk. He is now able to read and dispose of Tamil correspondence.

23. RELATION BETWEEN LANDLORDS AND TENANTS IN THE LARGER ZAMINDARIS.—The Márungápuri zamindar is assisted by his manager, whose services have been lent to the zamindar with the special sanction of the Government. The relations between the landholders and tenants continue to be fairly satisfactory in all the zamindaris except Udaiyárpálaiyam where they are strained in the matter of the exchange of pattas and muchilikas after the introduction of Act I of 1908. The zamindar has introduced some new clauses and conditions into the pattas which the tenants refused to accept. The matter is now before the District Court on appeal from the decisions of the Divisional Officer, Ariyalúr, in favour of the tenants in suits filed under Act I of 1908. The affairs of the Kadavur zamindari are still in an unsatisfactory state. The zamindar has since applied for his estate to be taken under the Court's management, and the Court of Wards has been addressed in this office R.C. No. 56 (Confdl.), dated 15th September 1910, on the subject.

24. GROWTH OF SUBLETTING IN RYOTWARI TRACT.—This is resorted to by the absentee landholders and those who follow professions other than agriculture. Some of the well-to-do landholders, especially the Brahmans, sublet their lands and get a share of the produce either in kind or in money. There is nothing particular to note under this head this year.

25. THE EFFECT OF RECENT LEGISLATION.—The ryots have not yet completely understood the provisions of Act III of 1905 which has been introduced. There has been no case of eviction during the year except the few cases carried out under the Collector's orders during the jamabandi of the Udaiyárpálaiyam taluk. Every opportunity is given to the ryots to vacate objectionable encroachments before resorting to the penal provisions of the Act. Frequent orders have been issued to the Divisional Officers to enforce the provisions of the Act as regards eviction in objectionable cases of poramboke occupation.

The Madras Estates Land Act was introduced from 1st July 1908 and, after its introduction, the zamindar of Udaiyárpálaiyam and his tenants are disputing, as regards the right of the zamindar, to collect assessment on waste lands under occupation. As stated above in paragraph 23, the matter is now before the District Court on appeal, whose decision is expected in a few days.

MADURA.

(A. BUTTERWORTH, Esq., I.C.S., *Collector.*)

4. NUMBER OF VILLAGES.—The partition of the old Madura district, sanctioned in G.O., No. 399, Public, dated 23rd May 1910, was given effect to from 1st June 1910, and the four ryotwari villages attached to the Paramagudi division forms part of the new Ramnad district. Consequently the number of ryotwari villages in the new Madura district, at the close of the year under report, was 731 against 735 in the previous fasli.

14. PROCESSES.—The following table compares the number of processes issued under Act II of 1864 in fasli 1319 with that of the previous fasli :—

Items.	Fasli 1319.	Fasli 1318.
(*a*) Demand notices	24,227	31,175
(*b*) Distraint and attachment notices	5,401	8,759
(*c*) Sale notices	5,285	8,421

Item (*a*).—The decrease under this head is, perhaps, generally due to greater attention being paid by Tahsildars to the instructions issued in G.O., No. 458, Revenue, dated 4th May 1904. There was a decrease in the number of demand notices in all the taluks except Periyakulam, where the number rose from 4,957 to 6,541. The Tahsildar of Periyakulam explains that, as the jamabundi was over late in the fasli, a large balance remained uncollected and that for collecting the same within the fasli a larger number of processes had to be issued.

Item (*b*).—There was a decrease under this head also; but the disproportion between the number of defaulters (361) whose personal property was distrained and the number of those (5,040) whose real property was attached is marked and is ascribed to a large number of non-resident pattadars chiefly in the area irrigated by the Periyár and to the absence of moveable property worth attaching in the possession of Kallar pattadars.

Item (*c*).—Out of 5,040 defaulters whose property was attached, 4,836 defaulters paid their arrears before sale. Out of 468 acres (dry) and 114 acres (wet) sold for the recovery of the arrears, 205 acres (dry) and 17 acres (wet) respectively were purchased by Government for want of bidders and the remaining extent was purchased by other individuals. The amount realized by the sales was Rs. 7,396.

20. Relation of landlords and tenants in large zamindaris.—The relation continued to be harmonious except in Ayakudi zamindari where it is reported by the Divisional Officer, Dindigul, that the bad management of the estate by the zamindar has given rise to friction. There was also a good deal of litigation in Kannivadi estate owing to an attempt to raise rates.

21. Growth of sub-letting in ryotwari tracts.—Sub-letting is resorted to chiefly by vakils and traders who have invested money in the purchase of lands in the Periyar area and by the absentee land-owners.

24. Effect of recent Legislation on the people—(1) *Working of Act III of* 1905.—There were 19 cases of eviction in the Dindigul taluk during the year under report. It is reported that encroachments are generally vacated after the imposition of penalty. The working of the Act was on the whole satisfactory.

(2) *Working of Act I of* 1908.—Litigation fell off markedly. The Act appears to be working satisfactorily though some of its provisions are not yet clearly understood. There were several applications to enforce repairs of irrigation works by holders of estates. A report on the working of the Act was submitted in this office D. Dis. No. 3538 of 1910, dated 22nd September 1910.

RAMNAD.

(J. F. Bryant, Esq., m.a., I.C.S., *Acting Collector.*)

2. The district of Ramnad was formed on the 1st June. It comprises portions of the Madura and Tinnevelly districts. The taluks of Srívilliputtúr and Sáttúr, excluding the Koilpatti strip, containing 21 ayan villages, were transferred from the Tinnevelly district, and the entire zamindaris of Ramnad and Sivaganga, with all the sub-divisions and the four resumed villages in Paramagudi, were transferred from the Madura district. The two zamindaris are under the charge of two Revenue Divisional officers—one at Ramnad and the other at Devakotta. The two ayan taluks are administered by a Divisional Officer whose head-quarters are at Sáttúr.

13. Relations of landlords and tenants in proprietary estates.—The relations were on the whole satisfactory in the Sáttúr division. It is reported, however, that in the village of Nambipuram, in the Sáttúr taluk, the feelings became somewhat strained owing to a dispute regarding the usufruct of the samudayam produce. The Divisional Officer, Ramnad, considers that the fact that both landlords and tenants had recourse to rent suits indicates a state of tension. The tenants, whom I have consulted in Devakóttai division, complained of indebtedness to Chetti landlords. With the extension of subleases to Chettis throughout the Ramnad and Sivaganga zamindaris, a state of affairs may arise which will need careful watching.

14. Growth of subletting in ryotwari tracts.—Subletting is resorted to by Brahmins, traders, pleaders and absentee pattadars in the Sáttúr division. It cannot be said that there has been any noticeable increase in the fasli under report. Subletting is not resorted to in the four villages of Paramagudi firka attached to the Ramnad division as the lands are held by agriculturists in these villages.

17. Working of Act III of 1905.—Judging from the large number of cases of unauthorized occupation of poramboke lands in his division, the Divisional Officer, Sáttúr, considers that the provisions of the Act have not had the effect of preventing encroachments. There were six cases of eviction under section 6 of the Act in the Ramnad division. Eviction was rarely resorted to in the Sáttúr division. Consequently there is an increase of revenue in that division on that account. The Divisional Officer reports that he has issued strict orders to Tahsildars that steps should be taken to assign on patta all cases of unobjectionable occupations and that objectionable cases should be dealt with by eviction and forfeiture of crops to a greater extent than hitherto. The people generally understand the provisions of the Act.

18. Act I of 1908.—The Divisional Officer, Sáttúr division, reports that the ryots are just beginning to understand the provisions of the Act, and it is too soon for him to express any opinion regarding their effect on the people. Sixty suits were instituted in the Sáttúr division, of which 51 were for recovery of arrears of rent whilst the rest were under section 112 calling in question the landholders' right to bring to sale the tenants' lands. A Special Deputy Collector was appointed to try suits in the two zamindaris of Ramnad and Sivaganga where the work has been increasing. The retention of the Special Deputy Collector till the end of December 1910 has been sanctioned.

TINNEVELLY.

(R. Ashe, Esq., I.C.S., *Collector.*)

4. Number of villages.—Consequent on the transfer of the Srívilliputtúr and Sáttúr taluks to the new Ramnad district there has been a change in the total number of ryotwari, zamindari and whole inam villages. The ryotwari, zamin and inam villages of the district now number 736, 375 and 186 respectively.

23. Processes under Madras Act II of 1864.—(*a*) Statement No. 8-A shows the particulars of coercive processes employed towards the realization of Government demand during the year under report, and the following table compares the number of processes issued during the year with the figures for 1908–1909 excluding the portion of the district transferred to Ramnad :—

Description of processes.	Fasli 1318.	Fasli 1319.
1. Demand notices	53,179	48,202
2. Distraint and attachment notices ..	3,766	3,031
3. Sale notices	2,570	2,145
4. Sales	179	203
Total ..	59,694	53,581

There has been a decrease in the number of demand notices of every description issued during the year which is due to the efforts made to secure voluntary payments as far as possible and to refrain from resorting too readily to coercive methods. Revenue Inspectors in all the taluks have been empowered to issue demand notices and the system has continued to work satisfactorily.

(*b*) Distraint and attachment and sales.—The number of defaulters whose property was attached and sold during the year is compared below with the figures of the previous fasli :—

Fasli.	Attached.		Sold.		Realized by sale.		
	Number of defaulters.	Amount for which property was attached.	Number of defaulters.	Amount for which property was sold.	Personal property.	Real property.	Total.
		Rs.		Rs.	Rs.	Rs.	Rs.
Fasli 1318	3,766	34,144	187	3,376	304	* 6,807	* 7,111
Fasli 1319	3,031	26,630	203	1,875	112	3,678	3,790

* Excludes particulars for the portion of the district transferred to Ramnad.

The percentage of distraints and attachments to the number of demand notices was 6 per cent. during the year against 7 per cent. in 1908–1909, and the percentage of actual sales to sale notices was 9 per cent. against 7 in the preceding year. The figures show that attachments in many cases were merely stimulative. The subjoined statement shows the particulars for each taluk, of the number of sales and their percentage to the number of pattas :—

Taluks.	Fasli 1318.		Fasli 1319.		Number of pattas.	Percentage of the number of sales to the number of pattas.	
	Number of sales.	Arrears.	Number of sales.	Arrears.		Fasli 1318.	Fasli 1319.
Ambásamudram	2	99	..	..	27,018	0·007	..
Nárgunéri	17	648	20	580	34,340	0·05	0·06
Ottapidáram	9	84	14	70	27,035	0·03	0·05
Sankaranáyinárkóyil ..	6	19	1	168	21,316	0·03	0·005
Srívaikuntam	126	2,285	66	665	63,198	0·2	0·1
Tenkási	3	15	9	55	19,477	0·01	0·05
Tinnevelly	24	226	93	337	32,967	0·07	0·3
Total ..	187	3,376	203	1,875	225,351	0·08	0·09

The number of sales was less than that in the previous year in the taluks of Ambásamudram, Sankaranayinárkóyil and Srívaikuntam, and there was a slight increase in Nángunéri. In Tinnevelly, Ottappidaram and Tenkási the difference was more appreciable. A small extent of dry land sold for arrears was bought in by Government for want of bidders in the Tinnevelly taluk.

24. SERVICE OF PROCESSES.—Statement No. 8-B shows particulars of processes served by the ordinary village agency and by special establishments and the fees collected during the year. The number of processes served by the specially-paid agency was 1,328 against 710 in fasli 1318, and the fees collected amounted to Rs. 250 against Rs. 170. The special agency was employed only in the Srívaikuntam taluk.

34. BOARD'S PROCEEDINGS NO. 321 (SETTLEMENT), DATED 24TH AUGUST 1904.—(1) The relations between landholders and tenants in larger zamindaris continued to be generally harmonious and satisfactory during the year and the working of the new Madras Estates Land Act of 1908, has not generally affected the existing relationship.

(2) GROWTH OF SUBLETTING IN RYOTWARI VILLAGES.—Subletting is chiefly resorted to, as usual, by persons engaged in professions other than agriculture and by owners of large landed property. There is nothing to indicate that this practice is on the increase.

(4) THE EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—The Madras Land Encroachment Act, 1905, has been working without hardship. The average penal rate per acre during the year under report was only Rs. 14 against Rs. 45 in 1908–1909 and Rs. 58 in 1907–1908. The Madras Estates Land Act, 1908, has been in force since 1st July 1908 and the operation of the Act has been dealt with in detail in my report to the Board, D. Dis. No. 1662-Ver., dated 13th August 1910.

35. VERNACULAR KNOWLEDGE OF THE CIVILIANS.—The Civilian Assistants working in this district possess a fair knowledge of Tamil.

COIMBATORE.

(H. F. W. GILLMAN, Esq., I.C.S., *Collector.*)

15. COERCIVE PROCESSES AND SALES FOR ARREARS OF REVENUE.—Enclosure to No. 8 exhibits particulars of coercive processes employed for the realization of the Government demand under Act II of 1864. The subjoined statement compares the processes issued during the fasli with those of the two preceding faslis :—

Items.	Fasli.		
	1317.	1318.	1319.
Number of demand notices	718	404	780
Do. of attachment notices	26	45	14
Do. of sale notices	10	32	12

DEMAND NOTICES.—There was an increase of 376 in the number of notices issued which was chiefly in Satyamangalam and Palládam taluks on account of penalty imposed on irregular irrigation cases. In unavoidable cases, property, moveable and immoveable, had to be attached. Such cases were 21 in number or 2·7 per cent. of the cases in which demand notices were issued as against 11·1 per cent. in the previous year. The proportion of the number of defaulters whose property was attached to the total number of pattadars was ·007 per cent. as against ·02 in the previous year and ·01 in fasli 1317. The number of cases in which moveable property was distrained was 2 for an arrear of Rs. 41 as against 13 for Rs. 66 in fasli 1318 and 12 for Rs. 324 in fasli 1317. The immoveable properties of 12 defaulters was attached for Rs. 93 as against 32 for Rs. 94 in fasli 1318 and 14 for Rs. 87 in fasli 1317. In Satyamangalam taluk lands sold for arrears of revenue were bought in by Government for want of bidders as they were of inferior quality. Out of 2 cases in which moveable property was attached, in no case was the property sold.

27. There were no material changes during the fasli in respect of the points referred to in paragraph 4 of Board's Proceedings, No 321 (Settlement), dated 28th April 1904.

NILGIRIS.

(L. DAVIDSON, Esq., I.C.S., *Collector.*)

5. VERNACULAR CORRESPONDENCE IN THE REVENUE DIVISIONAL OFFICE.—Mr. E. W. Legh, I.C.S., continued during the major part of the year to be the Revenue Divisional Officer, Coonoor. He proceeded on leave on the 12th May 1910 and Mr. C. G. Mackay, I.C.S., assumed charge of the division on the 3rd June 1910. They are conversant with Tamil, but the correspondence with the taluk offices continued to be carried on in English as usual.

6. RELATIONS OF LANDLORD AND TENANT IN LARGER ZAMINDARIS.—There are no such areas in this district.

7. GROWTH OF SUBLETTING IN RYOTWARI TRACTS.—The practice of subletting continues to prevail to a small extent in the private janmam tracts of the Gúdalúr taluk.

9. THE EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—There was no special legislation during the year affecting the general populace. The Madras Land Encroachment Act, 1905, has continued to work satisfactorily. The provisions of the Madras Estates Land Act, I of 1908, were not resorted to. The Ootacamund Urban Co-operative Stores, Limited, was registered during the year under report under section 29 of the Co-operative Credit Societies Act, X of 1904.

SALEM.

(L. E. BUCKLEY, Esq., I.C.S., *Collector.*)

15. PROCESSES UNDER ACT 2 OF 1864.—The total number of processes of each kind issued during the year under report is compared in the *subjoined* statement with that of the previous year:—

Fasli.	Number of processes issued.				Number of defaulters whose property was sold.		Extent of land sold.		Amount realised by the sale of			
	Demand notices.	Attachment notices.	Sale notices.	Total.	Moveable.	Real.	Dry.	Wet.	Real property.	Moveable property.	Other property.	Total.
							ACS.	ACS.	RS.	RS.	RS.	RS.
1319	13,717	554	375	14,583	16	67	108	4	9,610	155	1	9,766
1318	21,954	453	378	22,785	10	51	443	12	482	71	13	566

The numbers of demand and sale notices issued fell from 21,954 and 378 to 13,717 and 375 respectively but the number of cases in which attachment notices were issued was slightly larger than in the previous year. There was a decrease in the number of cases in which landed property was sold for arrears of revenue and the extent of land sold for arrears of revenue and bought in by Government was 112 acres against 184 acres of last year.

It was only in the Hosúr taluk that special process-servers were entertained as in the last year. In other taluks the processes were served by the village agency as usual. The number of processes served by special agency was 234 against 275 in the previous year.

21. VERNACULAR CORRESPONDENCE IN DIVISIONAL OFFICES.—During the year under report the following officers were in charge of the Hosúr and Tiruppattúr divisions:—

1. Mr. P. A. Booty.	Hosúr.	3. Mr. J. F. Hall.	Tiruppattúr.
2. Mr. H. A. Watson.		4. Mr. H. A. Watson.	

Mr. Booty knew Canarese, and had some knowledge of Tamil. Mr. Watson has a fair knowledge of Tamil and is learning Telugu. Mr. Hall knows Tamil.

25. EFFECTS OF RECENT LEGISLATION ON THE PEOPLE.—Madras Act I of 1908, which came into force in July 1908 is the only recent legislation of any special importance and the working of the Act has already been reported upon in this office, Dis. No. 3383/D, dated 9th September 1910, and I have nothing further to add to it. The Madras Land Encroachment Act III of 1905 is also working satisfactorily. Mr. Hall reports that "the provisions of the "Land Encroachment Act III of 1905 seem to work well from the point of view of Govern- "ment; but I am inclined to think that the ryots find it something of a burden owing to the "faulty survey". In this I do not agree with him entirely. The Act works well but both Government officers and the people suffer from the grave defects of the resurvey. The amount of work—generally useless—which is created owing to the faultiness of the resurvey is enormous.

26. RELATIONSHIP BETWEEN LANDLORDS AND TENANTS IN LARGE ZAMINDARIS.—There are no large zamindaris in the district. The relations between the landlords and tenants in Palaiyams and mittas are, on the whole, satisfactory. In the Komaramangalam mitta in the Tiruchengódu taluk there is some dispute with regard to the payment of tree-tax and in the Námakkal mitta in the Námakkal taluk, the ryots of some villages have refused as a body to pay rent owing to the introduction of survey areas.

27. GROWTH OF SUBLETTING IN RYOTWARI VILLAGES.—There is no marked tendency either way. As usual, the wet lands are generally sublet, and the dry lands are cultivated by the actual pattadars.

SOUTH CANARA.

(M. AZIZ-UD-DIN SAHIB BAHADUR, Khan Bahadur, *Collector*.)

13. COERCIVE PROCESSES.—There was a decrease, as noted in the margin, under all kinds of processes as well as under lands sold for arrears of revenue, which is mainly due to the personal exertions on the part of the collecting officers. The disputes between the Mulgeni tenants and their landlords as to who should pay the increased settlement assessment, which were the cause of withholding payment of assessment in many cases in past years, have also been probably settled by this time.

Fasli.	Demand notices.	Distraint or attachment notices.	Sale notices.
1318	8,412	336	244
1319	7,322	223	153

Fasli.	Lands sold and bought in by Government.		Lands sold and purchased by others.	
	Dry.	Wet.	Dry.	Wet.
	ACS.	ACS. C.	ACS. C.	ACS.
1318	8	6 0	15 0	29
1319	..	0 27	0 2	4·51

20. VERNACULAR CORRESPONDENCE IN THE HEAD ASSISTANT COLLECTOR'S OFFICE.—The following extract from Mr. Hemingway's report will show how far English translations have been used in disposing of the vernacular correspondence in his office. "During the greater portion of the fasli, Mr. Doig was in charge of the division. His practice was, I learn, as follows: (*a*) petitions presented in person were read out to him and no abstracts were used; (*b*) petitions received by post were dealt with in the first instance by the office and were put up for disposal with abstracts. These abstracts were ordinarily very brief, such as 'Darkhast application', 'Application for shanbhogue's appointment', and so on. Longer abstracts were used where necessary; (*c*) vernacular enclosures to general correspondence were read over to the officer when a personal reference to them was necessary. I have followed the above procedure with some modifications . . . ."

26. POINTS REFERRED TO IN PARAGRAPH 4 OF BOARD'S PROCEEDINGS, NO. 321, DATED 24TH AUGUST 1904.—There has been no increase in subletting during the year under report.

MALABAR.

(R. B. Wood, Esq., I.C.S., *Acting Collector.*)

11. Processes under Act II of 1864.—Statement 8-A gives particulars of the processes issued.

The increase of 969 in the number of processes issued in the year as compared with that of the previous year calls for no special remarks.

15. Relation between landlord and tenants in zamindari tracts.—There are no zamindaris in this district.

16. Growth of subletting in ryotwari tracts.—There is no change of any importance in the situation already reported to the Board in this office letter No. D. 1487/R., dated 4th November 1904.

19. The effect of recent Legislation.—The only recent legislation of importance affecting the agricultural population of the district is the Madras Land Encroachment Act, III of 1905, which has worked smoothly. The Indian Councils Act has proved especially interesting to the leading janmis and to the Local and Municipal members as there is a large electorate in the district, but it scarcely touches the agricultural population.

24. Vernacular attainments of passed Assistants, Head Assistant Collector and Sub-Collector.—The Indian Civilian officers posted to this district during the year have been Messrs. Reilly, Ellis, Thomas and Pate. Mr. Reilly's mastery of the language was weak, and vernacular petitions were usually abstracted. The other officers have a good working knowledge of Malayalam, and the vernacular petitions presented to them were usually read out and orders passed upon them. Of the Deputy Collectors, Rao Bahadur Gopalan Nair, Mr. Jacques and Chantan are Malayalam men, so was Mr. Eapen, whose unfortunate death deprived Government of a good officer. Mr. Panduranga Kini at first passed orders on hearing the petitions read out and subsequently read them himself.

Petitions brought to me are either read out, or the petitioners tell me the contents.

ANJENGO.

(R. C. C. Carr, Esq., I.C.S., *Collector.*)

13. There were no signs of disaffection or ill-feeling between classes, and recent legislation provoked no noteworthy comment or criticism.

15. Vernacular attainments.—The Assistant Resident, Captain W. M. Fenning, I.A. did not know Malayalam and Malayalam petitions were translated to him. The present Assistant Resident, Lieutenant R. E. G. Berkeley, knows Tamil.

PROCEEDINGS OF MADRAS GOVERNMENT.

Proceedings of the Board of Revenue (Revenue Settlement, Survey, Land Records and Agriculture).

Settlement of Land Revenue (Jamabandi)—Submitting to Government report on the—for fasli 1320 (1910-1911). } (Here enter No. 80, dated 3rd February 1912.)

Order—No. 1188, Revenue, dated 23rd April 1912.

Miscellaneous.

With its Proceedings read above the Board of Revenue submits the report on the land revenue settlement of the Presidency for fasli 1320, the agricultural year ending 30th June 1911.

2. Both the south-west and north-east monsoon were on the whole favourable for agriculture throughout the Presidency. The average annual retail prices of the staple food-grains were in most districts lower than in the previous year, but in all districts they still stood above the normal rates.

3. The total extent of ryotwari holdings in the Presidency, viz., 24·88 million acres, showed an increase of 125,000 acres over that of the previous year. 20·13 million acres or 80·88 *per cent.* of the holdings were cropped against 19·45 millions or 78·6 *per cent.* in the previous year.

4. The following statement exhibits the land revenue and cess which accrued in the year under review and in the previous year:—

—	Fasli 1319.	Fasli 1320.	Difference.
	Rs.	Rs.	Rs.
1. Peshkash or revenue from permanently-settled estates ..	49,91,632	49,90,013	— 1,619
2. Land cess on permanently-settled estates	13,36,009	14,04,133	+ 68,124
3. Quit-rent on inam villages held on favourable tenure ..	7,55,136	7,53,490	— 1,646
4. Land cess on inam village held on favourable tenure ..	3,79,817	3,83,338	+ 3,521
5. Revenue from lands held on ryotwari system including water-rate and miscellaneous revenue.	5,87,62,073	6,07,83,230	+ 30,21,157
6. Cess on ryotwari and miscellaneous revenue	47,82,117	48,49,806	+ 67,689
Total land revenue (items 1, 3 and 5 above) ..	6,45,08,841	6,65,26,733	+ 20,17,892
Total cesses (items 2, 4 and 6 above ..	64,97,943	66,37,277	+ 1,39,334

5. The settled assessment on ryotwari holdings amounted to Rs. 504·4 lakhs against Rs. 498·4 lakhs in the preceding year. The increase was the result of the introduction of resettlement rates of assessment in Ganjām, Chingleput and Coimbatore districts and the expansion of cultivation due to a favourable season. The revenue derived from water-rate on dry lands and from the charge on second crop on wet lands was Rs. 32·50 lakhs against Rs. 29·63 lakhs in the preceding year. The increase occurred under both heads and was due chiefly to the favourable season. The apparent increase in the districts of Cuddapah and Kurnool was mainly due to the imposition of water-rate on lands transferred from wet to irrigable dry in the resettled taluks of Cuddapah and to the fact that the water-rate on lands irrigated from the Kurnool-Cuddapah canal in the Kurnool district was, for the first time, shown under this head in the accounts under the sanction of the Government of India conveyed in letter No. 285 I., dated 20th April 1910. Season remissions in fasli 1320 amounted to only Rs. 2·80 lakhs as against Rs. 12·50 lakhs in the preceding fasli.

6. The extent of poramboke and unassessed waste lands occupied for cultivation during the year was 126,652 acres or 788 acres more than in the preceding year. On more than three-quarters of the extent thus occupied, assessment was levied at the usual rates as the occupation though unauthorised was unobjectionable. On the remaining extent of 32,945 acres, penal assessments were imposed with a view to inducing the encroachers to vacate lands reserved for the State and communal purposes.

The area thus charged with penal assessment in the year under review shows an increase on the figures for the previous year. This is probably largely due to the increased temptations to encroachment which a favourable season offers though it is none the less unsatisfactory; but until the distinction between genuine porambokes, encroachment on which is objectionable, and those unassessed waste lands, loosely termed poramboke as a rule on the assumption that they are uncultivable, is established, and recognised in the village accounts, these figures can only be regarded as approximately correct.

The Board has been requested to have the lands now known as poramboke divided into two classes " unassessed " and " poramboke," only those lands which are required for State or communal purposes being placed in the latter class. The Government trust that no delay will be allowed to take place in introducing this necessary reform in terminology into the village accounts and they take this opportunity again to remind the Board that occupants of unassessed waste land should be encouraged to take permanent pattas for the extents which they cultivate.

7. *Collections.*—The work of collection was, as in the previous year, satisfactory. Rs. 7,18,25,902 or 98·1 *per cent.* of gross current demand being collected within the fasli. The arrear balance at the beginning of the fasli was Rs. 15,38,449. Of this amount a sum of Rs. 14,43,020 or 93·8 *per cent.* was collected in the fasli and Rs. 31,102 or 2·02 *per cent.* was written off the accounts. The total balance, arrears and current, at the end of the fasli including the balance under the Proprietary Estates Village Service Fund and the revenue from the Kurnool-Cuddappah canal was Rs. 15,49,311. Up to the end of November 1911, Rs. 13,30,866 or 85·9 *per cent.* had been collected, Rs. 9,193 written off the accounts and Rs. 295 ascertained to be irrecoverable.

8. *Coercion.*—A further decrease in the total number of coercive processes issued in connection with the collection of land revenue took place during the year under review, 1,716,316 processes having issued against 1,811,263 in the preceding year. The decrease occurred in all kinds of processes except under sale notices in which there was a small increase. Demand notices, which are in the nature of reminders rather than coercive processes, formed about 85·3 *per cent.* of the total number of processes and numbered 1,463,605 against 1,538,087 in the preceding year. The percentage of distraints and attachments to the total number of demand notices was 9·99 in the case of personal property and 1 22 *per cent.* in the case of real property against 10·8 and 1·23 *per cent.* respectively in the preceding year. Nearly half the defaulters, whose property was attached, paid the arrear before the sale notices were issued and it was necessary to proceed to actual sale of property in only 2,747 cases out of 164,313 cases of attachment. The number of defaulters whose property was sold for arrears of revenue formed 0·07 *per cent.* of the total number of pattas held against 0·1 *per cent.* in the preceding year and the extent of land actually sold, 10,313 acres, amounted to 0·04 *per cent.* of the total extent of holdings in the Presidency. Three thousand and four hundred acres or 0·01 *per cent.* of the total holdings were bought in by Government for want of bidders against 3,236 acres or 0·01 *per cent.* of the holdings in the preceding year. Out of lands bought in during this and previous years and remaining at the disposal of Government, the extent resold for occupation during the year was 1,395 acres against 2,612 acres in the preceding year. The amount of the sale-proceeds realized exceeded four times the assessment

9. *Transfer of registry.*—The large decline recorded in the number of applications for transfer of pattas disposed of during the fasli is apparently due in part at least to the omission to obtain statistics for the applications made to the special staffs working in certain districts. In G.O. No. 3125, Revenue, dated 18th October 1911, the Board of Revenue has been requested to examine the existing rules relating to the transfer of pattas and the manner in which these rules are administered with a view to see what improvement is possible.

10. *Loans.*—The amount of advances under the Land Improvement Loans Act and the Agriculturists' Loans Act fell from Rs. 6·51 lakhs to Rs. 6·04 lakhs. There was a marked increase in the districts of Trichinopoly, Madura, Coimbatore, Chingleput and Kistna, while the districts of Cuddapah, Anantapur, Guntūr and Bellary showed a large decrease. With the development of the co-operative societies the demand for State loans may be expected to show a tendency to decline.

11. *Irrigation works.*—The Board has also submitted a quinquennial statement showing the number and condition of the irrigation works in the Presidency. Exclusive of wells the number is returned as 48,184 against 47,246 reported for fasli 1315. The increase is attributed partly to the construction of new works during the quinquennium and partly to increased accuracy in the returns. The number of wells with separate ayakats or irrigable areas was 428,754 or 83,168 less than the number reported five years ago. Against this decrease has to be set an increase of 48,181 in the number of wells which supplement the irrigation from other sources. It is possible that more accurate classification has resulted in wells formerly shown under the first class being now included in the second class and it would appear also that mere temporary pits were returned as wells in fasli 1315. But these causes do not appear sufficient explanation for the remarkable decrease which the Board is requested to examine and explain in greater detail. The figure given as the estimated cost of the new works in Coimbatore in paragraph 2 of the Board's Proceedings No. 186, dated 5th March 1912, is obviously wrong. The correct figure should be reported. The Government are also unable to believe that new wells were constructed in only six districts of the Presidency during the past quinquennium.

12. *Pattas.*—Compared with the last quinquennial year, fasli 1315, there was an increase of nearly 10 *per cent.* in the number of pattas. The increase is to be attributed to expansion of cultivation and to a more accurate registry of the ownership of land in some of the districts resettled during the quinquennium.

PROCEEDINGS OF THE BOARD OF REVENUE

(REVENUE SETTLEMENT, SURVEY, LAND RECORDS AND AGRICULTURE).

The Hon'ble MR. R. B. CLEGG,

Commissioner of Land Revenue.

N. S. BRODIE, Esq.,

Commissioner of Revenue Settlement, Survey, Land Records and Agriculture.

Resolution—No. 80, dated 3rd February 1912.

The Board begs to submit its report on the settlement of land revenue in this Presidency for fasli 1320 (1910–1911) together with the prescribed statements. There was considerable delay in the submission of reports from several districts and of returns also from some districts. The reports from Kistna and Chittoor were received on 21st December 1911 and those from North Arcot and Salem on 23rd December 1911, after repeated reminders, *i.e.*, two months and twenty days and two months and twenty-two days, respectively, after the prescribed date, viz., 1st October 1911. Statement of irrigation works in and out of repair (No. 19) relating to the quinquennium ending fasli 1320 (1910–1911) has not yet been received from the Collector of Kistna. As regards the delay in the submission of the report, the Collector of Kistna ascribes it to the delay in obtaining accurate information consequent on the territorial changes resulting from the formation of the new Kykalur taluk and reconstitution of the Gudivada and Ellore taluks, the Collector of North Arcot attributes it to the postponement of the jamabandi of the several taluks of the district to a somewhat late period of the fasli owing to the work connected with the bifurcation and census operations and to the changes of *personnel* in most of the taluk offices necessitated by the re-distribution and augmentation of establishments, the Collector of Chittoor states that the returns were received late from Tahsildars, that they were defective and that they had to be returned for rectification, and the Collector of Salem explains that it was due partly to variation in the figures entailed by the transfer of the taluks of Namakkal and Tiruppattūr to Trichinopoly and North Arcot, respectively, partly to the formation of the Omalur taluk and the re-constitution of the Salem taluk which gave a good deal of trouble in the matter of obtaining correct figures, and partly to the prevalence of plague. In his letter, No. D. Dis. 83-Revenue, dated 11th January 1912, the Collector of Gōdāvari states that the delay in the submission of the statement of pattas was due to the receipt of incorrect statistics from the Deputy Tahsildars of Chodavaram, Yellavaram and Polavaram and to the time occupied in correcting them after the receipt of the explanations offered by the taluk officers. The Collector of Chingleput explains that the delay in the submission of the report and returns was due to the jamabandi of the Ponnēri and Tiruvallūr taluks not being completed till the end of September and October respectively owing to the late completion of the re-settlement work in those taluks.

2. The principal territorial change carried out in the fasli was the creation under G.O. No. 237, Public, dated 7th March 1911, of the new district of Chittoor with effect from 1st April 1911. The district comprises the taluks of Chittoor, Palmaner and Chandragiri transferred from the old North Arcot district, and of Madanapalle and Vayalpad transferred from Cuddapah. The districts of Cuddapah, Anantapur, North

Arcot, South Arcot, Trichinopoly, Coimbatore and Salem were also re-constituted during the fasli. From Cuddapah, the Kadiri taluk was transferred to Anantapur; and Madanapalle and Vayalpad were transferred to the new district of Chittoor. To the reduced North Arcot district, Tiruvannāmalai from South Arcot and Tiruppattūr from Salem were added; the three old taluks of Wallaja, Arcot and Wandiwash were formed into four new taluks, viz., Arkonam, Wallaja, Wandiwash and Cheyar. In the reduced South Arcot district, a new taluk, Gingi, was carved out of the old Tindivanam and Villupuram taluks. Karur from Coimbatore and Nāmakkal (exclusive of ten ryotwari and two whole inam villages) from Salem were tacked on to Trichinopoly. In the reduced Coimbatore district, a new taluk, Avanashi, was formed out of portions of old Coimbatore and Palladam taluks; small villages were amalgamated and a few unwieldy villages were sub-divided in Coimbatore, Palladam and Avanashi. In the reduced Salem district, a new taluk (Omalur) was formed out of the old Salem taluk.

3. *Season, rainfall and prices.*—On the whole, both the South-west and the North-east monsoons might be regarded as favourable, but the dry and hot weather rains were below the average.

Statement No. 1.

The average annual retail prices of the staple food-grains were generally lower than in the preceding year, but everywhere dearer than the normal rates. The price of rice was above the warning rate in the district of Nellore, of ragi, in the districts of Ganjām, Anantapur, Nellore, Madras, South Arcot, Chittoor, North Arcot and Tanjore, of cholam, in the districts of Guntūr and Nellore and of cumbu, in the districts of Vizagapatam, Nellore, South Arcot, Trichinopoly and Rāmnād; the prices of all the principal grains were below the scarcity rates everywhere.

4. *Cropped area.*—The total crop area of the year under report (38,085,000 acres) exceeded the revised normal area (36,868,000 acres) by 1,217,000 acres. Cholam, gingelly, castor-oil and indigo showed a decrease and the other crops an increase. As compared with the previous year, the cultivation under paddy, cholam cumbu, ragi, groundnut, sugarcane, cotton and tobacco showed an increase, but the outturn of crops was in no case reported to be above the normal. The outturn of paddy and sugarcane in Coimbatore and that of cholam in Ganjām was normal. The outturn of paddy was from 67 to 75 *per cent.* of the normal in Cuddapah, Chingleput, Madura, Rāmnād and Tinnevelly; 92 *per cent.* of the normal in Bellary; and ranged between 83 and 86 *per cent.* of the normal in the remaining districts. The yield of horsegram in Kistna, of "other oil-seeds" in Nellore, Vizagapatam and Rāmnād, of indigo in Coimbatore and Madura, of groundnut in Rāmnād, of tobacco in Malabar, and of cumbu, horsegram, "other food-grains," indigo, gingelly and groundnut in Tinnevelly, was below 50 *per cent.* of the normal, while, in the remaining districts and under the remaining crops, it was above 50 *per cent.* of the normal. The probability is, however, that these estimates are somewhat pessimistic, having regard to the great increase in cultivation in several districts.

5. *Condition of cattle.*—The total number of deaths from diseases among horned cattle showed a further decrease of 30,611 as compared with last year the total number being 65,965; as in last year, rinderpest showed the largest decrease, viz., 24,617. The returns of the last two years show, therefore, a very great improvement in this respect.

6. *Number of villages.*—In the year under report, there was a decrease of 1,250 villages and an increase of 965 villages resulting in a net decrease of 285 villages. For the most part these changes were due to the transfer of villages from one district to another in consequence of the territorial changes referred to in paragraph 2 *supra*. Apart from these, two villages in the Vizagapatam district, viz., Yarada and Devada were restored to the mokhasadars concerned and ceased to be ryotwari, seven villages in the Cumbum taluk of Kurnool were amalgamated with other villages during the re-settlement, 129 in the Nāngunēri taluk of Tinnevelly were included in other villages at the resurvey and the villages of the Coimbatore, Palladam and Avanashi taluks were re-organized in order to facilitate the keeping of accounts, the net result being a reduction of 194 villages in these taluks. On the other hand, 23 additional villages were formed in the Cuddapah

Statement No. 3, column 2.

district, four new villages were formed at the re-settlement in the Chingleput district, of which three were transferred to Nellore and twenty additional villages were formed in North Arcot during the re-constitution of the district.

7. The land revenue of the Presidency is derived from the undermentioned sources :—

(*a*) Peshkash or revenue from permanently settled-estates.
(*b*) Shrotriem jodi or quit-rent levied on inam villages.
(*c*) Assessment including water-rate on lands held under ryotwari system.
(*d*) Miscellaneous revenue.

8. *Peshkash or revenue from permanently-settled estates.*—The total amount of peshkash payable during the fasli was Rs. 49,90,013 against Rs. 49,91,632 in the preceding year. The difference of Rs. 1,619 is chiefly due to the following causes :—

	Rs.
(*a*) Addition of peshkash on account of unlocalizable inams handed over to proprietors	+ 149
(*b*) Elimination of peshkash of previous faslis on certain estates in Bhadrachalam and Nugur taluks which was included in the peshkash of fasli 1319	—1,200
(*c*) Reduction of peshkash made in fasli 1320 in lieu of compensation for land acquired for public purposes	— 562
Total ...	—1,613

9. *Shrotriyam-jodi.*—The quit-rent payable to Government on villages held on shrotriyam or favourable tenure was Rs. 7,53,490 or Rs. 1,646 less than in the previous year. The following are the main reasons for the decrease of Rs. 1,306 :—

	Rs.
(*a*) Addition of quit-rent on account of unlocalizable service inams handed over to the Agraharamdars	+ 123
(*b*) Addition of quit-rent due to the transfer of certain minor inams to major inams	+ 44
(*c*) Redemption of quit-rent on enfranchised personal inams ...	— 597
(*d*) Resumption of Pentapad shrotriyam in Gudur taluk, Nellore district	— 214
(*e*) Rectification of errors in Tanjore district	— 311
(*f*) Reduction of quit-rent consequent on the acquisition of land for public purposes	— 351
Total ...	1,306

10. *Holdings.*—The total extent of ryotwari holdings during the year, namely, 24·88 million acres, exceeded that of the previous year by about 125,000 acres. The increase was contributed by all districts except Cuddapah, Trichinopoly and the Nilgiris, Trichinopoly alone showing a decrease of 6,970 acres. This decrease was due to the North-east monsoon rains having held off at the end. The increases in Anantapur and Kurnool were large and were the result of the expansion of cultivation, the season having been exceptionally favourable.

Statement No. 4, columns 18, 19 and 20.
Statement No. 5, column 18.

11. The total assessment on holdings was Rs. 504·4 lakhs against Rs. 498·4 lakhs in the previous year. More than half the increase occurred in Ganjām, Chingleput and Coimbatore and was mainly due to the introduction of re-settlement rates in these districts. In other districts, the increase in the revenue demand was due chiefly to the expansion of cultivation consequent on a favourable season. There was, however, a large decrease in Cuddapah, due to the transfer of doravu well lands to dry in Pullampet and to the introduction of resettlement in Pulivendla, Badvel and Sidhout in which wet ayakats were revised, doravu well lands were transferred to dry and, where the inamdars consented, well dasabandham inams were resumed and wet ayakats converted to dry, the wells having been made over to the inamdars according to the orders of Government on the Settlement scheme report.

Statement No. 4, columns 22, 23 and 24.
Statement No. 5, column 19.

12. *Cultivation.*—Compared with the previous year, the area cropped on ryotwari holdings showed an increase of 680,247 acres or about 3 *per cent.* of the total holdings, while the area under "waste charged" showed a decrease of 497,492 acres, due to the generally favourable character of the season. Large increases under cultivation occurred in Guntūr, Nellore, Cuddapah, Anantapur, Kurnool and North Arcot. The increase in these districts was due to the favourable character of the season. There was, however, a large decrease under this head in Coimbatore where the North-east monsoon rains were not seasonable and evenly distributed. Including the area under miscellaneous cultivation, the total area cropped amounted to 21·40 million acres against 20·76 million acres in the previous year.

Statement No. 3, column 49.

13. *Water-rate and second crop charge.*—The revenue from these sources amounted to Rs. 32·50 lakhs against Rs. 29·63 lakhs or nearly Rs. 2,87,000 more than in the preceding year. This increase was made up of about Rs. 1,40,000 under "water-rate on dry lands" and of about Rs. 1,47,000 under "second crop charge." There were large increases in the districts of Nellore (Rs. 91,243), Cuddapah (Rs. 28,934), Anantapur (Rs. 52,653), Kurnool (Rs. 49,611), North Arcot (Rs. 61,057) and South Arcot (Rs. 24,678), but there were also large decreases in the districts of Ganjām (Rs. 33,542) and Madura (Rs. 22,659). The increase where it occurred was generally due to the favourable season, in Cuddapah it was due also to the imposition of water-rate on lands transferred in the resettled taluks from "wet" to "irrigable dry" and in Kurnool, mainly to the water-rate on lands commanded by the Kurnool-Cuddapah canal formerly excluded having been included under this head, in accordance with G.O. No. 187-I, dated 14th June 1910 (B.P. Mis. No. 2620, dated 25th July 1910). The decrease in Ganjām is more apparent than real, being due to large extents in the Berhampur taluk paying water-rate in previous years having been transferred to wet by the Settlement Department. In Madura the decrease is attributed to the uneven distribution of the North-east monsoon rain.

Statement No. 3, columns 43, 48 and 53.
Statement No. 4, columns 26, 27 and 28.

14. *Remissions.*—As compared with the previous year, there was a net decrease of Rs. 10·86 lakhs, "season" and "fixed" remissions showing a decrease and beriz deductions, an increase.

Statement No. 6.
Statement No. 4, columns 46, 47 and 49.

(i) *Season remissions.*—The remission under this head showed a decrease of Rs. 9·70 lakhs, the decrease occurring under all the sub-heads—

(*a*) *Waste remitted.*—The remission under this head amounted to Rs. 90,682 or Rs. 2·36 lakhs less than that remitted in the previous year. Excepting a sum of Rs. 19 remitted on 8 acres of dry land in Kistna under G.O. No. 626, Revenue, dated 25th July 1901, the whole amount remitted related to 19,523 acres of wet land. Wet remissions were granted in almost all districts, the largest amounts being in the districts of Nellore and Tinnevelly. These districts alone contributed Rs. 54,132 or about 60 *per cent.* of the total remissions under this head.

(*b*) *Shavi or short crop.*—The total amount remitted under this head was Rs. 89,199 against Rs. 6·64 lakhs in the previous year showing a net decrease of Rs. 5·74 lakhs; Nellore, Chingleput and Tanjore show a decrease of Rs. 4·26 lakhs. These decreases were due to the generally favourable character of the season. There was however a large increase of Rs. 23,828 under this head in Tinnevelly which was due to deficiency of rain in the latter part of the North-east monsoon. Of the total shavi remissions during the year, Rs. 89,045 related to wet land and Rs. 154, to dry land. The largest amount was granted in Tinnevelly (Rs. 55,034). No remissions were granted during the year for "short crop."

(*c*) *Injury by floods.*—The amount remitted under this head was Rs. 13,271 against Rs. 16,963 in the previous year, Ganjām and Kistna alone contributing Rs. 10,104.

(*d*) *Tirvakammi remission.*—(*i.e.*, remission of the difference between wet and dry assessment on wet land cultivated with dry crops owing to insufficiency or failure of water) amounted to Rs. 75,008 against Rs. 2·04 lakhs in the previous year, showing a decrease of Rs. 1·29 lakhs. The remission under this head was large in the districts of Cuddapah, Anantapur and Tinnevelly and these districts contributed Rs. 48,043 or 64 *per cent.* of the total remission. The decrease was large in the districts of Vizagapatam (Rs. 27,593) and Chittoor (Rs. 30,419) and was due to the more favourable season.

(*e*) *Other remissions.*—The sum of Rs. 2,569 shown under this head was granted for reclamation of land in Nellore as in the previous year.

(ii) *Fixed remissions.*—(or abatements of the demand granted for reasons unconnected with the season) amounted to Rs 4·42 lakhs or Rs. 1·72 lakhs less than in the previous year, the decrease being due to a fall of Rs. 0·83 lakh under increment remissions chiefly in Malabar and South Canara and of Rs. 0·82 lakh under remission of assessment on land irrigated by the Kurnool-Cuddapah canal owing to the revenue on these lands for fasli 1320 having been shown under water-rate as stated in paragraph 13 *supra*. The largest item under this head is "increment remissions" that is, abatements allowed on the introduction of settlement or re-settlement in cases where the increase over the old assessment is in excess of 25 *per cent.* the rule being that such excess should be imposed in instalments increasing every year in amount. These remissions amounted to Rs. 3·02 lakhs and were granted in Ganjām, Kistna, Guntūr, Nellore, Cuddapah, Kurnool, Chingleput, North Arcot, Trichinopoly, Tinnevelly, Coimbatore, Salem, South Canara and Malabar. South Canara and Malabar contributed about Rs. 2·50 lakhs under this head.

(iii) *Beriz deductions.*—(*i.e.*, deductions made from village collections in favour of inamdars and religious institutions) amounted to Rs. 9·07 lakhs or about Rs. 0·56 lakh more than in the previous year.

15. *Miscellaneous revenue.*—The revenue under this head amounted to Rs. 87·24 lakhs or Rs. 0·37 lakh more than in the previous year. This small increase is the net result of large decreases in the districts of Ganjām (Rs. 26,675), Kistna (Rs. 94,992), Madras (Rs. 82,554) and Tinnevelly (Rs. 29,824), and large increases in the districts of Vizagapatam (Rs. 31,748), Guntūr (Rs. 1,23,360), Nellore (Rs. 38,183) and Kurnool (Rs. 26,475). The decreases under item (4)—"Penal charge for water on land irrigated without permission" (Rs. 8,454) and item (10) "Revenue from process-service fees" (Rs. 319) and the increases under item (1) "Jodi and quit-rent on minor inams, (Rs. 11,350), item (5) "Land occupied with or without application" (Rs. 520), item (6) "concealed cultivation" (Rs. 121), and item (9) "commission on estates" (Rs. 6,930) were small and call for no remarks.

Statement No. 9.

Item 7.—"Occupation of poramboke land" and item (8) "Revenue derived from tree pattas" showed large decreases, while item (2) "Water-rate on minor inams in ryotwari villages" and item (3) "Water-rate in zamindari and inam villages" showed large increases. These will be dealt with below :—

Items 2 and 3.—Water-rate on minor inams in ryotwari villages and on land in proprietary villages amounted to Rs. 34·01 lakhs or Rs. 1·05 lakhs more than in the previous year, a result attributable in great part to the more plentiful supply of water in the tanks. Nellore and Kurnool contributed Rs. 0·63 lakh of this increase.

Item 7.—*Occupation of poramboke land.*—The revenue from poramboke cultivation, including penal charge amounted to Rs. 4·80 lakhs or Rs. 0·16 lakh less than in the previous year. The extent occupied or cultivated, however, rose from 125,864 acres to 126,652 acres, showing an increase of 788 acres. The increase was again large in South Arcot and was due to the exceptionally good rains in October 1910. As in the previous year, the district staff was unable to cope with the remeasurement work, with the result that it was not found possible to transfer to "assessed" to any appreciable extent poramboke lands the occupation of which was unobjectionable. Out of the revenue from poramboke cultivation, penal charges alone amounted to Rs. 3·17 lakhs or Rs. 0·09 lakh more than in the previous year. This charge was levied on 32,945 acres of land, which gives an average rate of Rs. 10 per acre. Tanjore, South Canara and Gōdāvari show the highest rates, viz., Rs. 67, Rs. 42 and Rs. 33, respectively. The high rates in

Statement No. 9-A.

Tanjore and Gōdāvari were due to the imposition of heavy penalties on persistent encroachments on objectionable porambokes, while the rate in South Canara is explained to be due to the number of encroachments being smaller. The real explanation, however, seems to be what was given last year, viz., that penalties had to be imposed with reference rather to the nature of the land encroached upon than its extent. In Tanjore, the encroachers were ordered to be evicted in 2,183 cases during the year. Figures relating to "poramboke proper" and "unassessed waste" were not given separately in the return of miscellaneous revenue received from most of the districts of the Presidency, and the information received is given at the foot of statement No. 9-A. It is clear that the instructions of Government in their Order No. 978, Revenue, dated 3rd April 1911, communicated with Board's Proceedings No. 169, dated 5th May 1911, have not been properly understood. Government in their Memorandum No. 1620-B/11, dated 30th October 1911, suggested a revision of the return relating to miscellaneous revenue so as to ensure separate information as regards "poramboke proper" and "unassessed waste". This memorandum has been referred to Collectors for remarks.

Item 8—*Revenue derived from tree pattas.*—The revenue under this head amounted to Rs. 2·37 lakhs against Rs. 2·59 lakhs in the previous year, showing a net decrease of Rs. 0·22 lakh, Tinnevelly alone contributing a decrease of Rupees 0·18 lakh. This decrease occurred in the Nāngunēri taluk and was the result of re-settlement operations which did away with the system of tree pattas in patta lands in which trees were held on patta by persons other than the land pattadars.

Item 11.—The following are the more important heads grouped under "other items":—

Item.	Revenue. Rs.
(1) Sale-proceeds of assessed and unassessed waste lands including holdings previously bought in on behalf of Government mostly in Kistna, Guntūr and Madura	3,35,990
(2) Rent from lankas or islands situated in rivers chiefly in Gōdāvari and Guntūr	2,41,577
(3) Quit-rent and ground-rent chiefly in Madras	1,23,296
(4) Assessment, quit-rent and water charge of previous years now first brought to account	40,174
(5) Revenue from coir, the produce of Amindivi islands in the South Canara district	25,238
(6) Quit-rent on escheat lands chiefly in Malabar	24,987
(7) Janmabhogam on Government land in Malabar	23,360
(8) Collection on account of shell rent in Chingleput	16,266

16. The net ryotwari demand deducting remissions and including water-rate, second crop charge and miscellaneous revenue amounted to Rs. 607·95 lakhs against Rs. 587·85 lakhs in the previous year. The increase of Rs. 20·10 lakhs is made up as shown below:—

Statement No. 4, columns 24, 28, 49, 56, 58, 59 and 60.

	LAKHS OF RUPEES.
Increase in the assessment of holdings	6·01
Increase under second-crop charge and water-rate	2·86
Decrease under remissions	10·86
Increase under miscellaneous revenue...	0·37
Total ...	20·10

17. *Total land revenue demand (current).*—The demands under the several heads are compared below with the figures for the previous year:—

	Fasli 1319. Rs.	Fasli 1320. Rs.
Peshkash on permanently-settled estates ...	49,91,632	49,90,013
Shrotriem jodi	7,55,136	7,53,490
Ryotwar and miscellaneous	5,87,62,073	6,07,83,230
Total ...	6,45,08,841	6,65,26,733

The decrease under "Peshkash on permanently-settled estates" and the increase under "Ryotwar and miscellaneous" have been explained in the preceding paragraphs.

18. *Total demand under cesses (current).*—The current demand under cesses is as follows:—

	Fasli 1319.	Fasli 1320.
	RS.	RS.
(i) Land-cess on permanently-settled estates.	13,36,009	14,04,133
(ii) Land-cess on whole inam villages ...	3,79,817	3,83,338
(iii) Cess on ryotwar and miscellaneous ...	47,82,117	48,49,806
Total ...	64,97,943	66,37,277

The increase under item (i) was mainly in the districts of Vizagapatam, Nellore and Rāmnād. It was principally due to the revision of the demand under land cess in Vizagapatam during the year and to the increase of revenue under water-rate owing to the favourable character of the season in the Nellore and Vizagapatam districts. The increase in Rāmnād was due mainly to the enhanced rates of rentals adopted for calculating the cess in the Sivaganga zamindari with reference to G.Os. No. 2530, Revenue, dated 2nd August 1910 and No. 3723, Revenue, dated 20th December 1911. The increase under item (iii) follows the increase in the revenue.

19. *Demand and collection under land revenue and cesses (current).*—The current demand under land revenue and cesses was Rs. 7,31,64,010; Rs. 7,18,25,902 or 98·0 per cent. was collected within the fasli and a sum of Rs. 555 was written off the accounts.

20. *Demand and collection of arrears.*—The total arrear demand under all heads was Rs. 15,38,449; Rs. 14,43,020 or 93·8 per cent. was collected within the fasli and Rs. 31,102 or 2·02 per cent. was written off the accounts.

21. *Total balance of land revenue and cesses.*—The balance outstanding at the end of the fasli including both arrears and current, was Rs. 14,01,880. Including the balance under (1) Proprietary Estates, Village Service Fund and (2) the revenue from the Kurnool-Cuddapah canal which are dealt with in the monthly demand, collection and balance statements of land revenue and cesses, the total balance on 1st July 1911 was Rs. 15,49,311. Up to the end of November 1911, Rs. 13,30,866 or 85·9 per cent. had been collected, Rs. 9,193 had been written off the accounts and Rs. 295 had been ascertained to be irrecoverable. The net recoverable balance on 1st December 1911 was Rs. 2,08,957. Rs. 74,583 were collected in the month of December and steps have been taken to collect the remainder.

22. *Reconciliation of differences between the collections of land revenue and cesses as shown in the Jamabandi and the Accountant-General's statements and over payments.*—Information on these points has not yet been received from five Collectors. The subject will be dealt with in a separate report.

23. *Distribution of collections between land revenue and cesses.*—Land revenue and cesses are not collected separately and no attempt is made to exhibit the collections separately under these heads in the village accounts. The total collections are distributed between land revenue and the several cesses in the Collector's office. The process consists of two stages, of which the first or the provisional distribution is effected by crediting to each head, month by month such portion of the lump collections as will bear the same proportion to the demand under the head, as the total collection bears to the total demand under all the heads. The second stage is the final adjustment which consists in correcting the provisional credits by transfer from one head to another where necessary, after the entire demand for the year under all the heads has been collected or written off.

The statements of distribution for fasli 1320 received from Collectors show that except in the six districts of Ganjām, Gōdāvari, Anantapur, Chingleput, South Arcot and Tinnevelly, the variations between the amounts due to the cesses in fasli 1320 and the amount actually credited were inconsiderable. The accounts of fasli 1315 remained unadjusted in one district, those of 1316 in two, those of 1317 in three those of 1318 in five and those of 1319 in fourteen.

24. *Charges debitable to land revenue.*—The charges of district administration including salaries of Revenue Inspectors, but excluding those of village establishments, were Rs. 54,70,990 or 7·5 per cent. of the land revenue and cesses realised against 7·3 per cent. in the preceding fasli. The village service charges during the fasli were Rs. 54,26,247. Including this sum, which is met from Provincial funds, the total charges were Rs. 1,08,97,237 or 14·9 per cent. of the collections of land revenue and cesses.

25. *Processes under Act II of* 1864.—Statement No. 12 shows the particulars of the coercive processes issued for the realization of Government dues under Act II of 1864. The following abstract compares the number of processes of each kind issued during the year with the figures for the three preceding faslis :—

Coercive processes.	Fasli 1317.	Fasli 1318.	Fasli 1319.	Fasli 1320.
Demand notices	1,926,330	1,912,339	1,538,087	1,463,605
Distraint and attachment notices .	192,731	198,325	184,884	164,313
Sale notices	122,279	113,630	84,728	85,651
Sales (number of defaulters) ..	3,230	2,600	3,564	2,747
Total ..	2,244,570	2,226,944	1,811,263	1,716,316

There has been a progressive decrease in recent years in the total number of processes issued and the number in the year under report shows a further decline.

26. *Demand notices.*—The instruction that these notices should only be issued when absolutely necessary has been kept in view. Their number decreased in 16 districts, especially in the districts of Guntūr, Cuddapah, Chingleput, Tanjore and Trichinopoly. On the other hand there was a large increase in the districts noted in the margin. The Collector of Nellore states that the increase in his district was due to the fact that fasli 1319 being an unfavourable year, the ryots were not punctual in the payment of Government dues. The Collectors of Anantapur and Madras have offered no explanation.

Districts.	Fasli 1319.	Fasli 1320.	Increase.
Nellore . ..	221,882	253,438	31,556
Anantapur ..	77,457	111,794	34,337
Madras	28,494	57,253	28,759

27. *Distraint or attachment.*—The number of processes under this head was 164,313 in the year under report against 184,884 in fasli 1319 and 198,325 in fasli 1318. There was a decrease in 15 districts, and an increase in Guntūr and Chingleput.

28. There was a decrease in the percentage borne by the number of distraints and attachments to that of demand notices as compared with the previous fasli, but a slight increase as compared with fasli 1318. The number of defaulters whose immoveable property was attached in the year was 17,976 against 19,019 in fasli 1319. The large disproportion noticed in the Madura district in previous years between the number of defaulters whose personal property was distrained (210) and the number of those whose real property was attached (4,485) is again noticeable and is due, as stated in previous reports, to the large number of absentee pattadars in the area irrigated by the Periyar.

Faslis.	Percentage of attachment to the total number of demand notices.		
	Personal property.	Real property.	Total.
1318	9·3	1·0	10·3
1319	10·8	1·23	12·03
1320	9·99	1·22	11·22

29. *Sale notices.*—Out of 164,313 defaulters whose property was attached 78,662 or 47·8 per cent. paid the arrears before sale notices were issued. The percentage was 54·1 in fasli 1319, 42·7 in fasli 1318 and 36·5 in fasli 1317.

30. *Sales.*—The number of defaulters whose property was sold was less than in fasli 1319. The percentage of actual sales to sale notices was 3·2 against 4·2 in fasli 1319 and that of the number of defaulters whose property was actually sold, to the total number of pattas, was 0·07 against 0·10 in the previous fasli. The subjoined statement compares the particulars of sales in fasli 1320, with the figures for the three previous faslis :—

	Personal property.				Real property.				Total.			
	Fasli 1317.	Fasli 1318.	Fasli 1319.	Fasli 1320.	Fasli 1317.	Fasli 1318.	Fasli 1319.	Fasli 1320.	Fasli 1317.	Fasli 1318.	Fasli 1319.	Fasli 1320.
1	2	3	4	5	6	7	8	9	10	11	12	13

Arrear balances at the end of the fasli.									0·36	1·05	0·73	0·21
Percentage of current collections to current demands.									98·4	98·4	97·9	98·5

Value of lands sold.—Immoveable property of the estimated value of Rupees 72,782 was sold for the recovery of arrears amounting to Rs. 28,270 and realized Rs. 53,390. The price fetched by lands sold to private individuals was on the average 5·2 times the assessment in the case of dry lands and 5·8 times the assessment in the case of wet lands. In fasli 1319 land of the estimated value of Rupees 1,00,464 was sold for arrears amounting to Rs. 34,491 and the average prices obtained were 3·6 times the assessment for dry lands and 6·1 times the assessment in the case of wet lands.

Extent of land sold.—The extent of land sold during the year was 8,333 acres under dry and 1,980 acres under wet against 11,696 under dry and 1,895 acres under wet in fasli 1319. The corresponding figures for fasli 1318 were 5,743 acres under dry and 1,349 acres under wet.

Lands bought in by Government.—The total area of lands bought in for want of bidders was 3,075 acres of dry and 325 acres of wet against 2,895 acres of dry and 391 acres of wet in fasli 1319. More than three-fourths of the total area bought in was in Nellore, the Nilgiris, Salem and the four Deccan districts.

31. *Process service establishments.*—Statement No. 13 gives the particulars of processes served by the ordinary village agency or by special establishment, and the fees realised during the year. The total number of processes served was 1,620,267 or 49,640 less than in fasli 1319. The number of processes served by the special agency (90,016) was however greater than in the previous fasli (82,182).

The special establishment was employed in the same districts as in fasli 1319, except Chingleput and Rāmnād ; its cost was covered by the fees realised except in Vizagapatam, Gōdāvari and Tanjore.

32. *Costs in civil suits.*—Rupees 14,145 were awarded to Government as costs in suits during the year. Including Rs. 13,544, the revised opening balance, the total demand was Rs. 27,689, of which Rs. 16,456 were collected, Rs. 723 were written off the accounts and Rs. 75 were reported to be irrecoverable. The net recoverable balance at the end of the year was Rs. 10,435 made up as follows :—

	Rs.
(1) Amount collected after the close of the fasli	1,676
(2) Amount remaining uncollected pending decision of appeals by civil courts	1,138
(3) Amount involved in execution proceedings	3,958
(4) Amount for not collecting which no reason is assigned	3,663
Total ...	10,435

33. *Interest on arrears of land revenue — (Statement No. 14).*—The total demand on account of interest on arrears of land revenue, including the balance at the beginning of the year, was Rs. 44,543, of which Rs. 26,325 were collected and Rs. 206 remitted leaving a balance of Rs. 18,012, against Rs. 26,352 at the end of the previous fasli. More than half the arrears at the end of the fasli relates to Chittoor and Chingleput and were due mainly from the Karvetnagar and Kalahasti estates. Rupees 1,159 is the interest on the overdue instalments of the purchase money of lands under the Iskapalle project in Guntūr and is being recovered by suits. The only other districts in which the arrears under this head are large are Ganjām and Nellore. Steps are being taken for the recovery of the arrears.

34. *Sales of land under Standing Orders Nos.* 15, 16, 21 *and* 45.—Under the rules for the sale of occupancy rights in assessed waste lands (Standing Order No. 15) 4,536 acres assessed at Rs. 2,575 were sold for Rs. 1,27,135, eighty-six acres of tank-bed land assessed at Rs. 320 were sold for Rs. 6,570 under Standing Order No. 16, and 27 acres of house-sites in towns were sold for Rs. 10,215 under Standing Order No. 21, 1,395 acres assessed at Rs. 1,626 which had been bought in by Government at sales for arrears of revenue were re-sold under Board's Standing Order No. 45 for Rs. 6,737.

35. *Sub-division of quit-rent.*—No applications were received during the year under Standing Order No. 58 for the sub-division of the joint liability of shareholders in whole inam villages or minor inams in any of the districts in the Presidency.

36. *Transfer of registration of holding (statement No.* 15).—Transfers of revenue registration fall under one or other of the following three heads:—

(1) Transfers applied for through Registration officers.
(2) Transfers applied for direct to Revenue officers.
(3) Transfers proposed by Revenue officers *suo motu.*

(1) Under the first head 56,120 applications were received during the fasli against 50,581 in the previous fasli. The increase of 5,539 or 10·9 *per cent.* is the net result of the increase of 11,225 in 11 districts and a decrease of 5686 in 14 districts. The decrease, however, was large in four districts, Salem, Rāmnād, South Arcot and Guntūr, the largest being in Salem (1,763). Tinnevelly where the decrease was the largest last year shows the largest increase (9,239) this year.

(2) The number of applications presented direct to the Revenue officers was 91,170 as against 316,107 in fasli 1319—a decrease of 224,937, or 71·15 *per cent.* The bulk of the decrease was in Chingleput (100,463), Tinnevelly (41,268) and Trichinopoly (5,421). In Chingleput a large number of cases which were disposed of in the course of re-settlement operations in fasli 1319 were included in the statement of that year. In Trichinopoly the special staff working in connection with the survey and settlement operations disposed of a large number of cases last year.

(3) The number of cases which Revenue officers dealt with on their own initiative under paragraphs 5 and 7 of Board's Standing Order No. 31 fell from 38,414 in fasli 1319 to 17,412 in fasli 1320. The largest decrease was in Coimbatore (19,198). The Collector of Coimbatore reports that a large number of cases has been disposed of by the special staff in the course of the re-settlement operations in the district and the figures relating to them have not been included in the statement. Collectors report generally that steps are being taken to bring land registry into closer accordance with facts.

The total number of cases of all kinds to be dealt with in the fasli under report including the number pending disposal at its beginning was 190,233; of these 175,715 were disposed of during the fasli leaving a balance of 14,518 pending at the close of the fasli of which 1,750 have since been disposed of. The percentage of pending cases was high in South Arcot (27·08). The Collector reports that 1,208 applications which were received in the last quarter of the fasli are under enquiry.

37. *Ruined tanks.*—No tank was handed over to private individuals for repair under Board's Standing Order No. 8.

38. *Settlement by Collectors.*—The rule laid down in paragraph 2 of Board's Standing Order No. 12 that the settlement of each taluk should be conducted by the Collector himself once in five years, was complied with, except as regards Udayagiri in Ganjām, Razole and Bhadrāchalam in Gōdāvari, Periyakulam in Madura, Sankaranāinarkōvil in Tinnevelly and Attur in Salem. The Collectors of these districts are requested to see that these taluks are taken up, at an early date, for settlement by themselves.

39. *Loans and advances.*—The advances made under the Land Improvement Loans Act during fasli 1320 amounted to Rs. 2·74 lakhs, and those under the Agriculturists' Loans Act to Rs. 3·30 lakhs. The aggregate amount advanced under both the Acts was thus Rs. 6·04 lakhs as against Rs. 6·51 lakhs in the previous year. The decrease though small is the net result of a large increase in the districts of Trichinopoly, Madura, Coimbatore, Chingleput and Kistna, and of a large decrease in the districts of Cuddapah, Anantapur, Guntūr and Bellary, and is due generally to the favourable character of the season.

40. *Objects to which loans were applied.*—Of the advances made under the Land Improvement Loans Act, Rs. 1,34,188 or about 49 *per cent.* were for sinking new wells, a large portion of the amount having been taken up by the ryots of Madura, Chingleput, Coimbatore, Trichinopoly and Tinnevelly; Rs. 58,989 were for repairing old wells mostly in Coimbatore and Madura, and Rs. 31,994 for the reclamation of land, the bulk of which was expended in Kistna, Madura, Kurnool, Trichinopoly and Bellary. The loans for other purposes amounted to Rs. 48,897. Under the Agriculturists' Loans Act, a sum of Rs. 3,12,554 or 94·7 *per cent.* was advanced for the purchase of cattle, chiefly in the districts of Trichinopoly, Madura, Chingleput, Anantapur, Salem, North Arcot, Cuddapah, Coimbatore and Bellary; about Rs. 3,995 for the purchase of fodder, over half of it having been granted in Coimbatore; Rs. 1,331 for the purchase of seedgrain and Rs. 12,155 for other purposes.

41. *Recoveries.*—Out of the demand of Rs. 3·35 lakhs and 4·01 lakhs repayable during the year under the Land Improvement and Agriculturists' Loans Acts, respectively, Rs. 2·88 lakhs or 86 *per cent.* were collected under the former Act and Rs. 3·26 lakhs or 81 *per cent.* under the latter Act. Advances to the amount of Rs. 21,429 under the Land Improvement Loans Act and Rs. 9,965 under the Agriculturists' Loans Act were re-paid by borrowers on account of advances, the re-payment of which had not fallen due; while sums amounting to Rs. 1,031 and Rs. 179, respectively, were written off the accounts as irrecoverable.

42. *Coercive process.*—The aggregate amount of principal and interest re-payable during the year under both Acts was Rs. 10,09,296, of which a sum of Rs. 3,09,446 or 30·6 *per cent.* was collected without resort to coercive processes and a sum of Rs. 5,26,530 or 52·1 *per cent.* after the issue of demands; a sum of Rs. 15,923 or 1·5 *per cent.* was realized after attachment but before sale, Rs. 122 by sale of moveable property and Rs. 749 by the sale of land. The balance outstanding at the end of the year was Rs. 1,56,514, the arrears being heaviest in Anantapur (Rs. 46,680), Bellary (Rs. 24,323), Madura (Rs. 16,530), Chingleput (Rs. 14,061) and Ganjām (Rs. 10,220).

43. The following statement shows the amount of interest payable by the Local Government to the Government of India for fasli 1320 :—

Acts.	Amount advanced to the Local Government by the Government of India.			Interest payable for the year by the Local Government to the Government of India at 3½ per cent. on the mean outstanding.
	Outstanding at the beginning of the year.	Outstanding at the close of the year.	Mean outstanding.	
	Rs.	Rs.	Rs.	Rs.
Land Improvement Loans Act	32,22,311	31,85 636	32,03,974	1,12,139
Agriculturists' Loans Act	13,64,673	13,58,804	13,61,738	47,661
Total ..	45,86,984	45,44,440	45,65,712	1,59,800

44. The subjoined statement shows the financial results of the operations under the Loans Acts :—

Items.	Land Improvement Loans Act.	Agriculturists' Loans Act.	Total.
	Rs.	Rs.	Rs.
1. Interest payable for fasli 1320 by the Local Government to the Government of India.	1,12,139	47,661	1,59,800
2. Interest collected during the year	1,51,651	85,208	2,36,859
3. Balance of interest accruing to the Local Government, *i.e.*, difference of items 1 and 2.	+ 39,612	+ 37,547	+ 77,059
4. Remissions of principal	1,031	179	1,210
5. Net result for 1910–1911	+ 38,481	+ 37,368	+ 75,849
6. Net result for previous years .. 1905–1906	+ 20,271	+ 6,338	+ 26,609
1906–1907	+ 31,225	+ 13,867	+ 45,092
1907–1908	+ 18,040	+ 9,044	+ 27,084
1908–1909	+ 20 499	+ 12,242	+ 32,741
1909–1910	+ 29,365	+ 30,726	+ 60,091
7. Expenditure on free grants in aid towards the construction of private protective works or on establishments for well-boring or other outlay incurred from current revenue in connection with takkavi transactions.	12,303	14,863	27,166*

* Represents the cost of special establishments entertained in certain districts and the cost of time devoted to loans work by the ordinary Land Revenue establishment at 3½ *per cent.* on the amount advanced during the year.

45. With the aid of loans under the Land Improvement Loans Act, 561 wells capable of irrigating 2,540 acres of land were constructed during the year at an aggregate cost of Rs. 1,08,551, and 443 wells designed to benefit 2,870 acres of land were repaired at a cost of Rs. 66,496 ; Rs. 21,118 were spent on the reclamation of about 857 acres of land, and Rs. 55,864 on other improvements benefiting about 2,700 acres of land. The Anantapur district shows the largest number of wells (235) constructed and repaired, and it is followed by Madura (194). Under the Agriculturists' Loans Act, 5,476 head of cattle were purchased at an aggregate cost of Rupees 2,81,845 and 45 houses were rebuilt at a cost of Rs. 10,174. Fodder was purchased for Rs. 1,980 chiefly in Kurnool and Nellore, and seed-grain for Rs. 1,727 mostly in the Nilgiris. A sum of Rs. 3,460 was spent on other purposes.

46. *Survey advances.*—The advances made during the year under "Revenue Survey advances—Collectors" amounted to Rs. 58,398. Of this sum—

	RS.
Kistna spent	19,660
Guntūr „	6,368
South Arcot spent	5,007
Nellore „	3,663
South Canara „	3,458
Gōdāvari „	3,411
Coimbatore „	2,456
Bellary „	2,391
Salem „	2,243
Madura „	2,181

The total amount which had to be accounted for during the year was Rupees 3,46,657, of which a sum of Rs. 51,430 was credited to accounts, leaving a balance of Rs. 2,95,227.

The sum debited to "Cost of survey marks—Collectors" was Rs. 21,386 and of this amount, Rs. 17,460 was recovered during the year from the ryots or municipalities.

Landholders' bills to the amount of Rs. 4,01,475 were received from survey officers during the year in the districts of Ganjām, Kistna, Guntūr, Cuddapah, Nellore, Chingleput, Chittoor, Coimbatore, Trichinopoly, Rāmnād and Tinnevelly. The arrears outstanding at the beginning of the year being Rs. 2,43,346, the total amount recoverable during the year was Rs. 6,44,821. Of this sum, Rs. 3,73,342 was collected during the year leaving a balance of Rs. 3,71,479.

47. *Junior civilians—Knowledge of Vernaculars.*—The reports of the Collectors generally show that, with a few exceptions, their civilian assistants have a fair knowledge of the vernacular and are able to dispose of vernacular papers without abstracts.

48. *The relations between landlords and tenants in larger Zamindaris.*—These relations were on the whole fairly satisfactory. In some parts of the Ganjām district, their relations were somewhat strained owing to a general desire among ryots to substitute money for grain rents. In Kistna, friction still subsists between the Zamindar of Devarakota and his tenants, but appears to be abating. In the Venkatagiri Zamindari of the Nellore district, the tanks are said to be badly neglected and there is a general impression that the landlord shows little regard for the rights of his tenants. In that portion of the Pamur taluk of the Kalahasti Zamindari which has been alienated in favour of a sowcar of Hyderabad, it is said that the sowcar's subordinates are harassing the ryots and that illegal exactions are believed to have been levied. The Revenue Divisional officer has been instructed by the Collector to tour in that tract and gauge the situation. Suits under Act I of 1908 multiplied in the Chingleput district and a special clerk for suit work was entertained in the Sub-Collector's office last year. In Chittoor, the relationship between the landlords and tenants was again far from amicable. The landlords are in the majority of cases mortgagees and having little interest in the welfare of the estate no other result can be expected. In the case of Udayarpalayam in Trichinopoly, there is still some tension of feeling between the Zamindar and his tenants. Owing to bad management, there was some friction in the Ayakudi zamindari in the Palni taluk of Madura till the latter part of the year, when the management passed into the hands of the lessees. The friction was also due to a dispute between the zamindar and the lessees about the possession of the estate which is reported to have been

finally settled by Proceedings under the Criminal Procedure Code. In the Guntamanaikkanur zamindari, the feelings between the landlord and tenants were somewhat strained owing to the levy of enhanced rates of assessment on garden crops. In the Seithur zamindari of Rāmnād, there was a dispute as to the rights of the tenants in the forest of the estate. In this district, there were many disputes over the division of the crops and these are reported to have been serious in Poolangurichi where there is a Chetti sub-lessee.

49. *Growth of subletting in ryotwari tracts.*—Subletting is, as usual, chiefly resorted to by the non-agricultural classes, by those engaged in professions other than agriculture and by the owners of large landed property. It is most prevalent in the delta districts and wherever the value of land is high and is reported to be on the increase in Ganjām, Kistna and Guntūr. In Kistna there was a widely prevalent rumour during the fasli that Government intended to bring in an Act to give occupancy rights to tenants under ryotwari landholders. This rumour checked subletting for a time till it was discredited. In Nellore and Bellary, on the other hand, the tendency appears to be rather against subletting, the reasons assigned being the increase in prices of agricultural produce and fear of litigation with sub-tenants. The reason probably is that the districts are backward and in the case of Bellary infected with plague so that capitalists prefer to invest their money elsewhere.

50. *Effect of recent legislation on the people.*—There was no special legislation during the year that affected the people generally. The Madras Land Encroachment Act (Act III of 1905) and the Madras Estates Land Act (Act I of 1908) worked smoothly during the year. No special difficulties of any kind have been reported.

51. *Co-operative credit societies.*—During the year under report 220 societies were registered under the Co-operative Credit Societies Act X of 1904—2 central, 3 urban, 214 rural and 1 union—and one urban society in Madras was dissolved. Including 3 central, 27 urban and 346 rural societies formed up to the end of the previous year, the total number established in 25 districts of the Presidency up to the close of the year 1910–1911 was 596.

52. *Irrigation works and pattas.*—The statements of irrigation works and pattas are usually revised once in five years, and as they were last prepared for fasli 1315 (1905–06), they are due for the fasli under report. The Collector of Kistna has not yet furnished the statement of irrigation works for his district. He has reported that it is being revised and that it will be submitted soon. The statement of pattas (No. 20) relating to the quinquennium ending fasli 1320 was received from Kistna on 30th January 1912. On receipt of the statement of irrigation works, the statements for the Presidency will be brought up to fasli 1320 and submitted to Government separately.

53. With reference to the orders of Government noted in the margin the Board submits that the *quinquennial* roll for fasli 1320 showing the distribution of *arable* land among the different castes and classes of the population will be submitted separately.

G.O. No. 768, Revenue, dated 11th November 1899.

* Revised figure. (a) Paragraph 6 of the report. (b) Includes Rs. 6,002, the assessment of rented villages for which particulars of dry and wet are not available.

† Excludes figures relating to Rustumbada village, Narasapur taluk, which could not be settled as the demand of the village could not be determined until the disposal of the case against the karnam who was committed to the sessions for criminal misappropriation and falsification of accounts.

‡ Inserted this year.

§ Formed in fasli 1320.

several districts of the Madras Presidency for fasli 1320 (1910–1911).

Note.—(1) Variations between the arrear demand shown in column 2 of this statement and the amount shown in column 12 of the corresponding statement for fasli 1319 are due to the following causes :—

(*a*) imposition of assessment and cesses in cases not previously brought to account.
(*b*) rectification of errors.

(2) The current ryotwar demand shown in column 3 of this statement against Vizagapatam, Kistna and Anantapur, differ from the amount shown in column 59 of statement No. 4. The variation in Vizagapatam is due to the exclusion from this statement of assessment on resumed service inams which should be credited to the Proprietary Estates Village Service Fund and in Kistna to the exclusion of the commission on private estates under the management of the Court of Wards. The Collector of Anantapur has not explained the variation in his district.

* Does not include area relating to certain transfers appertaining to ryotwari holders in the Karur taluk because re-settlement was going on in that taluk during the fasli and the transfers were made by the Settlement Department.

† 0·132 acre.

EXTRACTS FROM THE DISTRICT REPORTS.

1. GANJAM.

(J. M. TURING, Esq., I.C.S., *Acting Collector.*)

17. COERCIVE PROCESS AND SALES FOR ARREARS OF REVENUE.—In the number of demand, distraint and sale notices issued, there was an increase of 1,993, 564 and 126 respectively. The increase in the issue of demand notices is due to the prompt action taken by the Revenue Subordinates in the collection of revenue. Though distraint had to be made in the case of 668 defaulters for an arrear of Rs. 32,887, personal property had to be sold in one case only for arrears of Rs. 137. Real property of seven defaulters was sold in the three Government taluks for an arrear of Rs. 251, the extent involved being 316 acres dry and 2 acres wet. Of the 316 acres of dry extent sold, acres 304 bearing an assessment of Rs. 76, relates to the Goomsur taluk. The land is not fertile. No lands were bought in by Government for want of bidders.

26. VERNACULAR CORRESPONDENCE IN THE ASSISTANT AND THE SUB-COLLECTOR'S OFFICES.—Messrs. J. W. Bhore, Duff and Todd know Telugu well. They dispose of vernacular petitions as they are presented and get abstracts made only when the petitions are received by post or require previous papers to be put up. Messrs. Bhore, Duff and Todd know Uriya. Mr. Duff knows Khond sufficiently well not to require an interpreter.

32. RELATION OF LANDLORD AND TENANT IN LARGER ZAMINDARIS.—(*a*) There is a general desire on the part of the ryots to substitute money for grain rents. In consequence of this, the relations between the ryots and land-holders are somewhat strained in some parts of the district. Applications for survey and settlement of record of rights were received from certain zamindaris as reported in my letter D. Dis. No. 1960-Ver. 11, dated 5th August 1911.

(*b*) SELLING OF OCCUPANCY RIGHT TO NON-CULTIVATING CLASSES.—There is no tendency on the part of the ryots to sell their occupancy rights, but ryots in Chicacole Division and elsewhere are mortgaging their lands to meet their expenses in suits filed by them under section 40 of the Act. The only instance of alienation of the occupancy right which deserves any mention is in the case of Jarapadra, a village in the Biridi estate, which was separately registered in the name of the Hon'ble Mr. G. Raghava Rao. In this village, owing to the general impoverishment of the ryots by constant failure of crops during the past four or five years, more than 50 per cent. of the ryots, it is reported, either sold or mortgaged their occupancy rights to the proprietor himself, but this, I understand, took place before the introduction of Act I of 1908.

33. GROWTH OF SUBLETTING IN RYOTWARI TRACTS.—This appears to be on the increase but I have very little information about it. The Special Settlement-officer is enquiring, I understand, under the Board's instructions.

34. EFFECT OF RECENT LEGISLATION.—No Acts were passed during the fasli affecting the people in general. Act I of 1908 is being freely used over most of the district with the result that it has added considerably to the work of the Divisional officers. It has been welcomed more by the ryots than by the zamindars. The Land Encroachment Act is working smoothly.

---

2. VIZAGAPATAM.

(F. C. PARSONS, Esq., I.C.S., *Collector.*)

7. RYOTWARI SETTLEMENT.—The total number of ryotwari villages was 508 against 510 in the preceding year. The decrease was due to the restoration of the villages of Yarada and Devada in the Vizagapatam taluk to the Mokhasadars concerned.

17. PROCESSES UNDER ACT II OF 1864.—Statement No. 8-A contains details of coercive processes employed in the realization of the Government dues under Act II of 1864. The following table compares the processes of each kind issued during the fasli, with those of the previous fasli:—

	Fasli 1319.	Fasli 1320.
Demand notices	4,339	4,450
Destraint and attachment notices	366	283

The variations are slight and call for no remarks.

18. SALE NOTICES.—The number of sale notices during the year was 74 against 100 in the previous year. The decrease was due to the favourable character of the season.

27. VERNACULAR CORRESPONDENCE IN THE ASSISTANT AND HEAD ASSISTANT COLLECTOR'S OFFICES.—Messrs. P. C. Dutt, J. C. H. Fowler, R. F. B. L. Guppy, E. Graham, J. M. Turing, H. H. Burkitt and J. I. Smith worked in the district during the year. They all dealt with their office work in a competent manner and have a fair knowledge of the vernacular. Mr. Graham has still to pass the Higher Standard in Telugu.

36. GROWTH OF SUBLETTING IN RYOTWARI TRACTS.—Subletting is generally resorted to by non-agricultural pattadars. The practice does not seem to be on the increase.

38. EFFECT OF RECENT LEGISLATION UPON THE PEOPLE.—There was no special legislation during the year that affected the people generally. The Madras Land Encroachment Act (III of 1905) worked smoothly during the year. The provisions of the Madras Estates Land Act I of 1908 are now better understood by the people and it is, on the whole, working smoothly.

3. GODAVARI.

(E. A. DAVIS, Esq., I.C.S., *Collector.*)

19. COERCIVE PROCESS.—The processes of all kinds issued numbered 231 against 67 of the previous year. The attachments and sales of moveable and immoveable property under Act II of 1864 during the current and previous faslis are compared below :—

Fasli.	Moveable property.						Immoveable property.						
	Attached.			Sold.			Attached.			Sold.			
	Number of cases.	Amount of arrear.	Value of property distrained.	Number of cases.	Amount of arrear	Value of property sold.	Number of cases.	Amount of arrear.	Value of property distrained.	Number of cases.	Amount of arrear.	Extent.	Amount realized by sale.
		Rs.	Rs.		Rs.	Rs.							Rs.
1319	6	321	356	1	10	16	..	..	..	..	..	..	* 18
1320	25	3,589	5,282	2	2,644	2,649	..	..	..	..	..	..	* 2,651

* Represents amount realized by sale of moveable property.

There was no land bought in by Government as there were no land sales for the arrears of revenue during the fasli. There was an increase in the number of distraints during the year under report as compared with that in the preceding year and it was contributed chiefly by the Tahsildars of Amalápur whose attention has been drawn to the necessity of issuing notices only in cases where it is absolutely necessary.

27. VERNACULAR KNOWLEDGE OF CIVILIAN ASSISTANTS.—Mr. F. W. R. Robertson was in charge of Rajahmundry division from July 10 to 23rd March 1911 and Mr. T. E. Moir from 15th June 1911. Mr. J. W. Glasson was in charge of Bhadráchalam division from July 1910 to 24th June 1911. Mr. E. A. Harvey was Assistant to the Collector from August 1910 to the end of June 1911. Mr. Harvey passed the Lower and Higher Standards in Telugu during the year and has a sufficient colloquial knowled e of the language. As I came to the district after the other officers had left, I am unable to offer any remarks.

33. The additional information called for in Board's Proceedings No. 321, dated 24th August 1904, is dealt with below :—

(1) THE RELATION BETWEEN THE LANDLORDS AND TENANTS IN LARGER ZAMINDARI AREAS.—In this district the large zamindaris are Pithapuram, Kottam, Bhadráchalam and Gopalapuram. The relations existing between the landlords and tenants is on the whole satisfactory. Landlords do not generally resort to coercive processes except in a few cases. Most of the suits filed by the landlords are for the recovery of arrears of rent.

(2) GROWTH OF SUBLETTING IN RYOTWARI TRACTS.—The growth of subletting is steady and is resorted to by non-agricultural landowners, such as, Brahmans and Vaisyas, absentee landowners, landowners engaged in professions other than agriculture. A few may perhaps take a direct interest in agriculture; but the interest of the majority is confined to leasing out the land to suitable tenants. The agricultural classes, viz., Kshatriyas and Sduras, cultivate their own lands.

(3) THE EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—The year under report was not eventful for any legislation affecting the people generally. Act I of 1908 was extended to Bhadráchelam taluk and eight suits were filed during the fasli. The vast majority of the population is quite alive to the benefits derived from the British rule.

(4) RELATIONS OF PEOPLE TO GOVERNMENT AND OF THE DIFFERENT CLASSES OF THE PEOPLE TO ONE ANOTHER.—The relation between the people and Government was satisfactory. There were no political disturbances. As regards the relationship of the different classes with one another there is a tendency for them to be more sympathetic in large towns. In rural areas village politics absorb most minds and the usual factions are prevalent.

4. KISTNA.

(H. L. BRAIDWOOD, Esq., I.C.S., *Collector.*)

2. The principal territorial change was the formation of the new Kykalur taluk from 1st October 1910 in obedience to G.O. No. 359, Revenue, dated 2nd June 1910. Details of the change are noted in the margin. The district at present comprises twelve taluks and one independent Deputy Tahsildar's division.

—	Government.	Non-Government.	Total.
Old Gudivada taluk	170	50	220
Deduct those formed into Kykalur taluk	85	15	100
	85	35	120
Deduct villages transferred to Ellore taluk	1	..	1
	84	35	119
Add villages transferred from Nuzvid taluk ..	..	62	62
Present Gudivada taluk ..	84	97	181

27. THE RELATIONS BETWEEN LANDLORDS AND TENANTS.—Friction still exists to some extent between the zamindar of Devarakota and his tenants but to a considerably smaller extent than in the previous year. The zamindar of Mirzapuram having died, his estate has been taken under the management of Court of Wards.

29. THE EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—There was no special legislation during the year that affected the people generally. The Madras Estates Land Act and the Madras Land Encroachments Act are working smoothly. There has been a good deal of unnecessary litigation under the former which is believed to be fostered by touts.

30. GROWTH OF SUBLETTING IN RYOTWARI TRACTS.—The subletting is chiefly resorted to by absentee landlords engaged in professions other than agriculture and by the owners of large landed property and is not noticeably on the increase. There was a widely prevalent rumour during the fasli that Government intended to bring in an Act to give occupancy rights to tenants under ryotwari landholders. This rumour checked subletting for a time, till it was discredited.

32. VERNACULAR KNOWLEDGE OF CIVILIAN ASSISTANTS.—All the Sub-Collectors who worked in the district during the fasli had an adequate knowledge of Telugu. The Assistant Collector Mr. Hood has not yet passed his lower standard, but is making fair progress in the language.

5. GUNTUR.

(S. W. G. I. MACIVER, Esq., I.C.S., *Collector.*)

23. PARTICULARS OF COERCIVE PROCESSES EMPLOYED IN THE REALIZATION OF THE GOVERNMENT DEMAND UNDER ACT II OF 1864.—The subjoined abstract shows the number of processes of each kind issued during the fasli :—

	Fasli 1319.	Fasli 1320.
Demand notices	70,750	55,566
Attachment notices	1,428	4,121
Sale notices	26	132
Sales	17	37

The increase in the number of attachment and sale notices was chiefly in Répalle taluk, which was attributed to the confusion brought about by excessive joint pattas and to promptness in the issue of processes.

23-A. SALES.—In the year under report, sale notices were issued in 132 cases, out of which 37 only have been followed by sales.

24. VALUE OF THE LANDS SOLD.—Moveable property of the estimated value of Rs. 968-4-6 and immoveable property of the estimated value of Rs. 4,765 were sold for the recovery of the arrears of Rs. 725-0-1 and Rs. 1,168-8-0, respectively, the amount thereby realised being Rs. 1,437-14-0 and Rs. 3,869-10-0. The sales fetched on the average eight times the assessment in the case of dry lands and four times the assessment in the case of wet lands.

25. EXTENT OF LANDS SOLD.—The actual extent of lands sold for arrears of revenue during the fasli was 399·32 acres against 73·77 acres of the previous fasli, of which 71·38 acres was bought in by Government for a sum of eight annas.

35. VERNACULAR KNOWLEDGE OF CIVILIANS.—Messrs. Fotheringham and Panduranga Rao have a satisfactory knowledge of Telugu and make use of that language.

36. THE RELATIONS BETWEEN LANDLORDS AND TENANTS IN THE LARGER ZAMINDARIS.—There are no zamindari estates in the district except one taluk of the Venkatagiri Estate situated in Ongole taluk. I have heard nothing tending to show that the relations between the tenants and the Raja are unsatisfactory. There were 450 suits and four miscellaneous applications under the Act during the year against 198 of last year.

37. GROWTH OF SUBLETTING IN RYOTWARI VILLAGES.—This occurs to a large, and probably to a growing, extent in the tracts irrigated by the Kistna water, but is less frequent elsewhere.

39. EFFECT OF RECENT LEGISLATION.—No important changes have been brought about by recent legislation.

---

6. NELLORE.

(Diwan Bahadur R. RAMACHANDRA RAO, Esq., B.A., *Collector.*)

5. NUMBER OF VILLAGES.—Three ryotwar villages having been transferred to this district from Chingleput district, the total number of villages comes to 508.

20. COERCIVE PROCESSES.—Fasli 1319 being an unfavourable year, the ryots were not punctual in the payment of Government dues and there was therefore an increase in the number of processes issued. The number of demand notices followed by sales was 801 against 839 in the previous year.

Fasli.	Number of processes.	Number of processes served by		Value of property sold.		
		Village agency.	Special paid agency.	Personal.	Real.	Total.
				RS.	RS.	RS.
1319	299,506	292,804	6,702	3,995	7,087	11,082

30. THE RELATION BETWEEN THE LANDLORD AND TENANT IN THE LARGER ZAMINDARIS.—The larger zamindaris in this district are those of Venkatagiri and Kalahasti. The Venkatagiri zamindari is contained in the taluks of Gudur, Kandukur and Kanigiri and in the four divisions of Sulurpet, Venkatagiri, Podili and Darsi in charge of independent Deputy Tahsildars. The work in the zamindari is being done business-like, but the general reputation is that the landlord's rights are being fully exacted without any favour. The tanks are badly neglected and the tenants have not yet understood the provisions of the Act on the subject of repair of

tanks. The Pamur and Sitarampuram taluks of Kalahasti estate are situated in the five taluks of Kavali, Kandukur, Atmakur, Udyagiri and Kanigiri. The changes which the Kalahasti zamindari underwent have been referred to in paragraph 6 *supra*. Complaints have recently been received from some ryots of that portion of Pamur taluk which has been alienated in favour of the Sowcar of Hyderabad to the effect that the ryots are being harassed by the Sowcar's subordinates and illegal exactions are also levied. From the reports that I have received from the Inam Deputy Collector and the Revenue Divisional Officer, Kandukur, I understand that the complaints are not quite unfounded. I have suggested to the Sowcar that in his own interests as well as in the interests of administration, the present Tahsildar and the Deputy Tahsildar may be replaced by men of greater integrity and better administrative talent. I have also instructed the Revenue Divisional Officer, Kandukur, to tour in that tract as early as possible and gauge the situation. The other two zamindaris in the district are (*a*) Chundi under the Court of Wards, (*b*) Mutyalpad where a new zamindar has just taken charge.

31. GROWTH OF SUBLETTING IN RYOTWARI VILLAGES.—Landholders are not resorting to subletting on any considerable scale. People of agricultural classes who own lands prefer to occupy their lands themselves for fear of losing the advantages of direct cultivation and involving themselves unnecessarily in litigation. Pleaders, officials, merchants and brahmans do, however, sublet their lands, but they form a small minority of the class of landholders.

33. THE EFFECT OF THE RECENT LEGISLATION.—It will be some time before the provisions of the Madras Estates Land Act, I of 1908 are widely known. The tenants are generally illiterate and have not been freely exercising the privileges allowed to them in the Act. I have submitted a report on this working of the Act to the Board (Land Revenue) in my letter No. 3586-D/Cor., dated 12th August 1911. People have generally become sufficiently familiar with the provisions of Act III of 1905 and they are being improved. In regard to the more recent legislation of a political character such as the Seditious Meetings Act, the Explosive Acts, there is nothing worth mentioning about their effects on the masses. No prosecutions were instituted under the Press Act in the year under report.

34. VERNACULAR LANGUAGE OF CIVILIANS.—The only civil division in this district is Gudur. During the first ten months of the year Mr. H. G. Gharpurey was in charge of the division. He had a fair knowledge of Telugu.

---

7. CUDDAPAH.

(J. G. D. PARTRIDGE, Esq., I.C.S., *Collector*.)

2. ADMINISTRATIVE CHANGES.—During the fasli, the taluk of Kadiri was transferred to the Anantapur district with effect from the 1st October 1910 and the taluks of Vayalpad and Madanapalle were transferred to Chittoor from the 1st April 1911.

14. PROCESSES UNDER ACT II OF 1864.—Statement No. 8 shows the particulars of coercive processes issued. The following abstract compares the number of processes of each kind issued during the years 1319 and 1320 :—

	Fasli 1319.	Fasli 1320.
Demand notices	49,499	48,462
Distraint and attachment notices	4,129	5,229
Sale notices	1,359	3,083
Sales (number of defaulters)	312	454

The demand notices decreased slightly, but processes of other kinds were resorted to to a larger extent than in the past year. The increase occurred chiefly in Pullampet taluk.

Out of 5,229 defaulters whose property was attached, 2,146 or 41 per cent. paid the arrears before sale notices were issued. The percentage was 67 in fasli 1319. The number of defaulters whose personal property was sold was about the same as in the preceding year, but the number whose real property was sold increased from 208 to 339. The bulk of the increase was in Pullampet taluk, where collection is generally difficult and coercive processes are more frequently carried to the stage of sales than in the other taluks. Immoveable property of the estimated value of Rs. 5,286 was sold for the recovery of arrears amounting to Rs. 2,063 against Rs. 2,474 and Rs. 1,491 respectively in the previous year. Dry lands purchased by private individuals fetched on an average Rs. 1-4-0 per acre and wet lands Rs. 6-10-0 an acre against Rs. 3 and Rs. 8-4-0 respectively in fasli 1319. The extent of land sold was 1,608 acres dry and 421 acres wet, which were in excess of the previous year's figures by 802 acres and 356 acres. The bulk of the increase relates to Pullampet taluk and is ascribable to the reasons already stated. Out of 1,608 acres of dry and 421 acres of wet land sold, 849 acres of dry and 42 acres of wet land were purchased by Government owing to want of bidders. The greater part of the area so purchased relates to the taluks of Pullampet and Rayachóti, where there is a large tract of poor land for which there is no demand. No special agency was employed for the service of processes. Of the land sold for arrears of revenue and bought in by Government in the year and in the previous years, 92 acres were resold and fetched Rs. 157.

20. VERNACULAR KNOWLEDGE OF CIVILIAN DIVISIONAL OFFICERS.—Since 1st April 1911 there has been no Civilian Divisional officer in this district. Mr. Jenkins was in charge of Madanapalle division when that division was included in this district. He had a practical working knowledge of Telugu and could understand petitions read out to him.

21. RELATIONS BETWEEN LAND LORDS AND TENANTS.—Call for no special remarks.

22. SUBLETTING.—The practice is not on the increase.

23. EFFECT OF RECENT LEGISLATION.—There is nothing to be mentioned in particular in this connection.

The Estate Land Act is rarely availed of in this district.

The Land Encroachment Act is being worked without great hardship.

The rules relating to "irregular" irrigation are being worked with moderation. With the reduction of wet assessments by a proper classification of irrigation sources and lands at the resettlement and with the grant of concessions to holders of lands under the "precarious" sources, much has been done in aid of the ryot classes in the district.

---

8. ANANTAPUR.

(G. F. PADDISON, Esq., I.C.S., *Collector.*)

7. RYOTWARI SETTLEMENT.—The total number of ryotwari villages including those of Kadiri taluk is 750.

17. VERNACULAR CORRESPONDENCE IN THE SUB-COLLECTOR'S OFFICE.—Mr. H. T. Reilly who was in charge of the Penukonda division during part of the year is well acquainted with Telugu and Telugu petitions are being read aloud to him. As already reported last year the correspondence to and from taluk offices continued to be carried on in English as usual.

18. The prescribed jamabandi statements 8 A and B have been separately submitted to the Board with explanation for variations. No process fees were collected and no process establishment was employed during the year.

23. RELATION OF LANDLORD AND TENANT IN THE LARGER ZAMINDARIS.—There are no such zamindaris in this district.

24. THE GROWTH OF SUBLETTING IN RYOTWARI TRACTS.—The practice is not on the increase in this district.

EFFECT OF RECENT LEGISLATION ON THE PEOPLE.

26. No enactment passed during the year had any special effect on the people of this district.

---

9. BELLARY.

(J. A. CUMMING, Esq., I.C.S., *Collector.*)

11. COERCIVE PROCESSES.—Enclosure A to statement No. 8 exhibits particulars of processes issued. There was a decrease in the number of defaulters whose personal properties were attached and sold. The number of defaulters whose real property had to be sold also fell from 1,997 to 1,947. This is due to the favourable character of the year.

20. EXTENT TO WHICH ASSISTANT AND SUB-COLLECTORS PASSED ORDERS ON ENGLISH ABSTRACTS PREPARED BY CLERKS.—The Civilians' division was mostly in charge of Mr. Smith. Mr. Tasker was in charge of Hospet division for some time. Their knowledge of the vernaculars was reported in my reports D. Dis. No. 2790, dated 27th July 1910, and D. Dis. No. 3286, dated 6th September 1911. The latter was in reply to Board's Reference No. 1545 Gt./11-1, dated 1st August 1911 (Land Revenue department).

22. RELATION OF LANDLORDS AND TENANTS.—There are no zamindaris in the district. The relations between the landlords and tenants in whole Inam villages were quite harmonious, except that the ryots of Shrotriem Kodihalli, Harpanahalli taluk, complained to the Revenue officers that the shrotriemdar has not been respecting their rights, and that they are not allowed to enjoy their lands according to well-established usage. They want their lands to be surveyed. The matter is awaiting the organization of a party for surveying shrotriem villages generally—vide G.O. No. 824, Revenue, dated 21st March 1911, communicated with B.P. No. 135, dated 30th March 1911.

23. GROWTH OF SUBLETTING IN RYOTWARI VILLAGES.—There is no noticeable increase in subletting. The classes among whom it has been prevalent are brahman landowners, public servants, lawyers and traders. The Divisional-officer, Adoni, reports that there is no perceptible growth of this subletting as the merchant and brahman classes who generally sublet have of late been resuming possession of their lands being tempted by the rise in price of food grains and cotton.

26. EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—A report on the working of the Madras Land Estates Act I of 1908 was submitted with my D. Dis. No. 2955, dated 11th August 1911. The executive rules regarding the refund of excess collections and of the levy of water-rate for irregular irrigation have not had a fair trial. In the case of the former, action is taken by the Tahsildars themselves. There were no applications at Jamabandi for refund of the amounts. The new rules regarding penal water rates have tended to increase the penalty considerably, and, as anticipated by me last year, irregular irrigation was reduced though not to an appreciable extent in fasli 1320 as will be evidenced from the fall of penal charge from Rs. 6,182 to Rs. 5,577. The ryot population have not yet understood the advantages afforded by Government by the rules allowing them access to village accounts and facilitating the remittances of revenue by postal money orders. During jamabandi I instructed Inspecting Officers to explain the rules both to the village officers and the ryots. The Madras Land Encroachment Act has been in force in the district. The extent of Sivoyjama occupation rose from 68,145 to 70,903 acres and the poramboke occupation from 7,145 to 7,933 acres. The remeasurement operations have been instrumental in bringing to light some cases of encroachment. The great vigilance exercised in the practical working of the Act together with the extension of cultivation noticed already accounts for the increase. The ryots, in their desire to extend cultivation, bring under the plough every bit of land accessible to them without respecting the reasons for which the tracts encroached upon are reserved and in many cases in ignorance of the limits of their patta lands. Most of these might have been reduced if attachment of crops and evictions had been freely resorted to and the karnams and Revenue Inspectors by timely inspections at the time of ploughing the lands had pointed out the limits of their fields. But Tahsildars, Revenue Inspectors and karnams are generally dilatory in such matters.

10. KURNOOL.

(E. S. LLOYD, Esq., I.C.S., *Acting Collector.*)

2. The principal territorial change carried out in the fasli was the creation of a new taluk called Dhone with a portion of villages of Pattikonda, old Ramallakota and Nandyal taluks and the formation of a new taluk called Kurnool with a portion of old Ramallakota, Pattikonda, Nandikotkur and Nandyal. The old Ramallakota taluk completely disappeared. The taluks of Sirvel, Koilkuntla, Markapur and Cumbum underwent no changes. The Revenue divisions were also changed as noted below. The Head-quarter Deputy Collector's division which formerly consisted of Nandikotkur taluk now consists of the new Kurnool taluk. The Sub-Collector's division which consisted of Nandyal, Sirvel and Koilkuntla now comprises Nandyal and Nandikotkur taluks. Kurnool division consisting of Pattikonda and old Ramallakota taluks was abolished and a new division called Dhone division was created with the taluks of new Dhone and Pattikonda. A new division called Koilkuntla division was also formed with the taluks of Koilkuntla and Sirvel. There were no changes in the Markapur division. The Deputy Tahsildar's divisions of Kalwa and Dhone were abolished and a new Deputy Tahsildar's division called Gudur was created in the new Kurnool taluk. A Stationary Sub-Magistrate's Court was established at Allagadda. These changes were due to the introduction of the redistribution of taluks and divisions sanctioned in Government Order No. 1078, Revenue, dated 4th April 1910.

6. NUMBER OF VILLAGES.—The number of ryotwari villages was, in the year under report, 695 against 702 in the preceding year. The difference is due to 7 villages in the Cumbum taluk having been clubbed with other villages at the resettlement.

26. PROCESSES UNDER ACT II OF 1864.—Statement 8 gives particulars of the coercive processes issued for the realization of the Government dues under Act II of 1864.

The following abstract compares the number of processes of each kind issued during the year with the figures of the two preceding years :—

Coercive processes.	Fasli 1318.	Fasli 1319.	Fasli 1320.
Demand notices	1,692	2,211	1,976
Distraint and attachment notices ..	362	269	240
Sale notices	334	138	133
Sales	116	57	57
Total ...	2,504	2,675	2,406

Nearly two-thirds of the demand notices were issued in the taluks of Koilkuntla, Nandyal and Markapur. The attention of these Tahsildars will be drawn to the necessity of issuing demand notices only when attachment should immediately follow.

42. JUNIOR CIVILIANS' KNOWLEDGE OF VERNACULAR.—No Junior Civilian Assistant worked in the district during the year under report.

43. RELATION BETWEEN LANDLORD AND TENANT.—There was no sort of tension between landlord and tenant.

44. GROWTH OF SUBLETTING IN RYOTWARI VILLAGES.—Subletting is chiefly resorted to by the non-agricultural classes, such as, traders, Brahmans, Komaties and absentee landowners. The practice does not seem to be materially on the increase.

46. THE EFFECT OF THE RECENT LEGISLATION ON THE PEOPLE.—There was no special legislation during the year that affected the people generally. During the year under report 14 rural societies have been registered under the Co-operative Credit Societies Act of 1904 in addition to 3 societies already existed.

11. MADRAS.

(A. R. CUMMING, Esq., I.C.S., *Collector.*)

8. COERCIVE PROCESSES AND SALE FOR ARREARS OF REVENUE.—The number of first demands (or notices requiring parties to pay quit-rent under section 4 of Act VI of 1867) issued during the fasli was 28,456 against 28,264 in the preceding fasli. The number of distraint warrants issued was 28,714 against 26,891 in the preceding fasli. Distraint of personal property was made in 11 cases for arrears amounting to Rs. 844 as against 7 cases for arrears of Rs. 43 in the previous fasli. The number of cases in which distrained property was actually sold was one for an arrear of Rs. 8 against the same number for an arrear of Rs. 3 in the previous fasli. Lands were attached in 26 cases against 22 in the previous fasli, but in only one case was land brought to sale within the fasli; the amount involved being As. 11-3. The land was purchased by Government for want of bidders, being liable to erosion by sea.

14. ON THE RELATION OF LANDLORD AND TENANT IN THE LARGER ZAMINDARI TRACTS IN THIS DISTRICT.—There are NO zamindari tracts in this district.

15. ON THE GROWTH OF SUBLETTING IN RYOTWARI TRACTS.—The major portion of the area of this district being house-sites no remarks under the head are called for.

12. CHINGLEPUT.

(L. VIBERT, Esq., I.C.S., *Collector.*)

7. RYOTWARI SETTLEMENT.—Three villages were transferred to Nellore in the redistribution scheme and four new villages were created in the course of the resettlement. The net result is the increase of one village over the figure for the last fasli.

	Fasli 1320.	Fasli 1319.
1. Demand notice	61,032	90,399
2. Distrained and attachment notices	30,473	24,724
3. Sale notices	30,380	24,564
4. Sales	114	147

18. COERCIVE PROCESSES.—The marginal abstract compares the processes issued during the year under report with those of the previous year. The increase under items 2 and 3 is due to the failure of crops in the previous fasli.

22. MAINTENANCE OF A KNOWLEDGE OF THE VERNACULAR BY CIVILIANS.—The only civilian Divisional Officer throughout the year was the Sub-Collector at Chingleput, Mr. Jackson. He has an adequate knowledge of colloquial Tamil. The Assistant Collector, Mr. Stewart, has already got a very fair knowledge of Tamil and is also giving his attention to colloquial Telugu.

23. (1) As regards the relation of landlord and tenant there has been no material change during the year.

(2) The Madras Estates Land Act I of 1908 has undoubtedly had the effect of increasing litigation. The number of suits under the Act has multiplied and a special clerk for suit work has been entertained in the Sub-Collector's office from last year.

13. CHITTOOR.

(A. FOTHERINGHAM, Esq., I.C.S., *Acting Collector.*)

13. KNOWLEDGE OF VERNACULARS BY CIVILIANS.—Mr. Jenkins who was the Sub-Collector of the Madanapalli Division for the major portion of the year left the district before the close of the fasli. Mr. Leach who was in charge of the division reports that he can read Telugu petitions pretty well and that his practice is to look to all petitions as they are received and pass orders on such of them as he can read clearly, while those for which he can only make out the general purport by reading is read or translated to him by a clerk before he passes orders.

Mr. Stodart, Acting Sub-Collector, Chendragiri Division, reports that the vernacular correspondence is read out to him when there is time, that occasionally he reads one or two petitions himself and that more often a precis is made by his camp clerk on such of the petitions as he cannot read. He hopes to devote more time to petitions in future and adds that all petitions presented in person are discussed in the vernacular in the first instance.

17. RELATIONS BETWEEN LANDLORDS AND TENANTS IN ZAMINDARIS.—These are not amicable. The landlords who are in the majority of cases, mortgagees having little interest in the welfare of the estate, try to get as much out of the tenants as they can and the tenants naturally

resist as far as they can. It is seldom that a landlord attempts to meet his tenants half-way in the settlement of disputes. They employ low-paid and inefficient establishment and try to evade their responsibilities in regard to the repairs of irrigation works as much as possible. They contribute nothing to the welfare of their tenants and do not even take the trouble to see that the accuracy of their accounts is tested before suits are filed on such accounts.

18. GROWTH OF SUBLETTING IN RYOTWARI TRACTS.—Subletting is as usual confined to the non-agricultural classes, such as, Brahmans, Vaisyas and absentee landowners generally. There has been no noticeable increase in this direction.

14. ARCOT, NORTH.

(N. E. MARJORIBANKS, Esq., I.C.S., *Collector.*)

2. During the fasli under report the district has undergone territorial change. On 1st April 1911, the three old taluks of Wallajah, Arcot and Wandiwash were formed into four new taluks, viz., Arkonam, Wallajah, Wandiwash and Cheyar. These taluks together with Gudiyāttam, Polur and Vellore taluks which remain unaffected and Tirupattūr and Tiruvannāmalai transferred from Salem and South Arcot districts respectively and the zamindari divisions of Kangundi and Arni form the new North Arcot district. The district now consists of nine taluks and two zamindari divisions distributed in five Revenue divisions, viz., Tiruvannāmalai, Tirupattūr, Vellore, Ranipet and Cheyar. The first two are Civilian divisions and the remaining three are Deputy Collectors' divisions. The firka charges in the first four newly, reconstituted taluks also underwent material change. The district as a whole in respect of Revenue work is as heavy as the Old North Arcot district, if not heavier, and the constitution of the district into five divisions (instead of four as in the Old North Arcot district) is not calculated to lessen the work at head-quarters.

14. KNOWLEDGE OF VERNACULARS BY CIVILIANS.—Mr. Hall, acting Sub-Collector, Tiruppattūr, reports that the only vernacular correspondence in his office consists of petitions and certain minor police reports and that the former when presented in person are disposed of at once with the aid of a clerk and the latter on abstracts put up by the office.

Mr. Sykes reports that he disposes of petitions by reading them himself if decently written and questioning the petitioners. In other cases he passes orders on the *precis* made by the office after verification if necessary.

18. RELATIONS BETWEEN LANDLORD AND TENANTS IN ZAMINDARIS.—Kangundi and Arni are the only considerable estates in the district and the former is under the management of the Court of Wards. There are some mittas in Tirupattūr and Wallajah taluks. The relations between landlords and tenants in all these estates call for no special remarks. There have been no complaints on either side.

19. GROWTH OF SUBLETTING IN RYOTWARI TRACTS.—Subletting is as usual confined to non-agricultural classes such as Brahmans, Vaisyas and absentee landowners generally. In the absence of a record of rights it is not possible to do more than guess at the extent of development of such holdings. The general idea is that investment in land has increased in favour among the monied classes since the Arbuthnot failure and that the number of non-cultivating landholders has increased and is increasing.

20. EFFECT OF RECENT LEGISLATION.—The chief difficulty noticed in working the provisions of Act III of 1905 was the general ignorance among Revenue officers of all grades as to the relevance of the survey record in deciding whether any particular occupation was encroachment or not. This uncertainty as to how an encroachment could be established and the lack of confidence in the discretion of subordinates probably explain why the provisions of the Act relating to eviction were little used.

15. ARCOT, SOUTH.

(M. AZIZ-UD-DIN SAHIB BAHADUR, Khan Bahadur, *Collector.*)

3. NUMBER OF VILLAGES.—The taluk of Tiruvannāmalai was transferred to the North Arcot district and a new taluk, Gingee, was carved out of the old Tindivanam and Villupuram taluks as per G.O. No. 237 Public, dated 7th March 1911, from 1st of April 1911. The total number of villages excluding the 372 villages of the Tiruvannāmalai taluk was the same as in the previous year.

13. COERCIVE PROCESSES.—The total number of processes of each kind issued in faslis 1319 and 1320 is shown in the margin. There was considerable decrease under the first two items during the fasli.

Item.	Fasli 1319.	Fasli 1320.
1. Demand notices	17,475	14,542
2. Attachment notices	509	303
3. Sale notices	280	295
4. Sales	41	214

14. PROCESS ESTABLISHMENT.—The total number of processes served by special agency was 5,034 against 4,569 in the previous fasli and a sum of Rs. 635 was realized as fees. The actual cost of the establishment amount to Rs. 441.

27. VERNACULAR CORRESPONDENCES OF THE OFFICES OF COVENANTED DIVISIONAL OFFICERS.—The Covenanted Civilians who worked in this district during the fasli were (1) Mr. R. Narayana Aiyar, Sub-Collector in charge of the Tindivanam division went on leave on 26th October 1910 and was afterwards transferred from the district, (2) Mr. A. F. G. Moscardi, who relieved him, was in charge of the division from 26th October 1910 till 5th December 1910, (3) Mr. E. H. Wallace was in charge of the division from 5th December 1910 till 31st May 1911, (4) Mr. G. T. Boag, Assistant Collector, who was in charge of the Cuddalore division, was relieved on 31st August 1910, (5) Mr. T. H. Hill was in this district from 23rd December 1909 and transferred from it on 22nd March 1911.

Mr. Narayana Aiyar used his knowledge of Tamil freely. The other European Civilian officers possessed a fair knowledge of the local vernacular—Tamil—used their knowledge to a fair extent in conversing with the ryots. The office note system was however in vogue in the Sub-Collector's office.

28. RELATIONS OF LANDLORD AND TENANTS IN THE LARGER ZAMINDARI AREAS.—There are no no large zamindaris in this district. The relations between the landlord and the tenants in other estates continued to be amicable.

29. GROWTH OF SUBLETTING IN RYOTWARI TRACTS.—Subletting continued to be resorted to by absentee owners but there was no special increase in the practice.

30. EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—The Estates Land Act of 1908 has not produced any appreciable effect in this district as there are only a few estates and there is not much litigation in any of them.

---

16. TANJORE.

(R. F. AUSTIN, Esq., B.A., I.C.S., *Acting Collector.*)

2. The principal territorial change carried out in the fasli was the creation under G.O. No. 2038, Revenue, dated 16th June 1910, contained in Board's reference No. 1970-10-2, dated 21st June 1910, of the two new taluks of Papanasam and Arantangi and the readjustment of the taluks of Tanjore, Kumbakónam and Pattukkóttai with effect from the 15th November 1910.

16. COERCIVE PORCESSES.—Statement 8-A shows the particulars of coercive processes employed for the realization of Government revenue during the fasli (1320). The following extract shows the total number of processes issued under each head :—

	Fasli 1319.	Fasli 1320.	Difference.
Number of demand notice issued ..	268,196	229,269	— 38,927
,, of attachment notices ..	17,290	13,297	— 3,993
,, of sale notices	15,451	11,974	— 3,477
,, of property sold	137	105	— 32

There is a decrease under all the items—(1) 14 per cent; (2) 23 per cent.; (3) 22 per cent.; (4) 23 per cent. This is ascribed to the more favourable character of the season and to the exercise of vigilance on the part of the collecting agency. Efforts have been made during the last two faslis to improve the village staff by allowing less indulgenece in the appointment of unpassed village munsifs and kurnams.

The following table shows the number of demand notices issued in each taluk in faslis 1319 and 1320 :—

Taluk.	Number of demand notices issued.		Difference.	Percentage of column 4 to column 2.
	Fasli 1319.	Fasli 1320.		
1	2	3	4	5
Tanjore *	47,746	69,111	21,365	+ 44
Pápanasam †	..	29,841	29,841	..
Kumbakónam	52,174	21,267	30,907	— 59
Máyavaram	4,958	2,826	2,132	— 43
Shiyali	9,789	7,533	2,256	— 23
Nannilam	8,132	2,046	6,086	— 74
Negapatam	9,195	4,769	4,426	— 48
Tirutturaippúndi	70,598	27,633	42,965	— 61
Mannárgudi	48,597	38,009	10,588	— 22
Pattukkóttai *	17,007	20,142	3,135	+ 18
Arantangi †	..	6,092	6,092	..
Total ..	268,196	229,269	— 38,927	— 15

* Affected by redistribution during the fasli.

† Taluks newly formed.

The decrease in Máyavaram, Nannilam and Tirutturaippundi taluks is marked and due to the reasons already explained.

26. VERNACULAR CORRESPONDENCE IN THE HEAD ASSISTANT AND THE ASSISTANT COLLECTOR'S OFFICERS.—There is no official vernacular correspondence. Petitions in vernacular are, as a rule, read to the presiding officers when presented in person; petitions received by post, if not read in original by the addressee are submitted with an English abstract prepared in the office. No Assistant Collectors were posted during the fasli to this district, although it contains six divisions and eleven taluks.

29. RELATION BETWEEN LANDLORD AND TENANT IN LARGER ZAMINDARIS.—The largest zamin Chandarvakottai, is hopelessly encumbered, and most of the others except Pappanad are more or less so, with the result that the *defacto* landlords are largely money-lenders. Few instances of dissatisfaction however are brought to notice between these and the tenants.

30. GROWTH OF SUB LETTING IN RYOTWARI TRACTS.—No noticeable variation as compared with the previous years is apparent.

31. EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—The Madras Estates Land Act I of 1908 has been in force from fasli 1318. Landlords and tenants do not yet seem to have thoroughly understood its provisions. I submit a copy of the report on the subject to the Board of Revenue, Land Revenue (D. Dis. 3627, Rev., dated 17th August 1911).

The Indian Press Act I of 1910 has worked effectually but without hardship or complaint.

32. THE WORKING OF THE MADRAS LAND ENCROACHMENT ACT III OF 1905.—A statement is enclosed showing the amount of sivoyjama and penal assessments levied during faslis 1319 and 1320. There is noticeable reduction in the extent penalised and assessment charged.

Heavier penalty has been imposed on persistent encroachments on poramboke proper. Encroachers were ordered to be evicted in 2,183 cases in the fasli against 2,067 in fasli 1319. My jamabandi of Tanjore, Pattukkottai and Arantangi taluks disclosed many infructuous orders of eviction. Steps have been taken to ensure that these are enforced and that unauthorised occupation is not made a source of income to Government.

One noticeable feature in the working of the Act is the increase in the number of suits against Government in street encroachment cases, as the result of recent decisions of the Madras High Court shifting the onus of proof of sixty years possession on Government where the encroacher proves possession for twelve years or more.

---

17. TRICHINOPOLY.

(E. W. LEGH, Esq., I.C.S., *Acting Collector.*)

2. The principal change carried out in the limits of the district was the inclusion of Karur and Namakkal taluks of the old Coimbatore and Salem districts, respectively, to this district with effect from 15th November 1910 under orders conveyed in G.O. No. 2993, Revenue, dated 10th September 1910. The principal feature of the change was the formation of a Civilian division consisting of Karur and Kulittalai taluks with Trichinopoly as temporary headquarters till an office building is constructed at Karur.

9. RYOTWARI VILLAGES.—The total number of ryotwari villages now number 761 against 579 in the previous year.

19. COERCIVE PROCESSES AND SALES FOR ARREARS OF REVENUE.—There was considerable decrease in the number of processes of each kind issued during the year. The statistics of the last three faslis are compared below. The figures for the current fasli include those of Karur and Namakkal taluks :—

	Fasli 1318.	Fasli 1319.	Fasli 1320.
Demand notice	1,36,622	1,155,688	75,770
Attachment notice	3,959	3,389	2,375
Sale notice	3,928	3,373	2,363

The number of demand notices issued in Karur, Musiri, Kulittalai and Namakkal taluks was respectively 98, 254, 422 and 503, and that in Perambalur, Trichinopoly, and Udaiyarpalaiyam taluks was 16,995, 26,593, 30,905, respectively. The number of attachment notices issued is considerably small when compared with number of demand notices issued, as the arrears were paid by the defaulters on demand. The actual area sold during the year was only 15 acres of dry with an assessment of Rs. 17. The number of defaulters whose personal and real property was attached and sold was 2,424 and 6, respectively.

26. VERNACULAR CORRESPONDENCE OF THE ASSISTANT COLLECTOR.—Mr. H. S. Shield has been Assistant Collector of the district from 10th December 1909. He is able to read and dispose of Tamil correspondence. He appeared for the Telugu examination in July last but failed. He was in charge of the head-quarters division for the periods noted in the margin. He was also invested with the powers of a first-class Magistrate during the current year and put in charge of the magisterial work in the division. He was placed in charge of census work and went round the district to give instructions to supervisors and to check the census house-lists.

From 1st October 1910 to 20th April 1911.
From 8th July 1911 to 13th August 1911.

27. THE RELATION BETWEEN LANDLORDS AND TENANTS IN THE LARGER ZAMINDARIS.—The zamindar of Marungapuri is assisted by his manager whose services have been lent to the zamindar with the sanction of the Government. The relations between landlords and the tenants continue to be fairly satisfactory in the majority of cases. In the case of Udaiyarpalaiyam the District Court has reversed the decision of the Deputy Collector in respect of the charge of full assessment for grass lands. This has made the zamindar's position stronger, but there is still some tension of feeling and large arrears were outstanding at my recent visit there. I am not convinced that the fault is all on the side of the tenants.

The Kadavur zamindari was taken up under the management of the Court of Wards in March 1911 and is gradually being got into order.

28. GROWTH OF SUBLETTING IN RYOTWARI TRACTS.—Subletting is, as usual, resorted to by the non-agricultural classes, by those engaged in profession other than agriculture and by the owners of large landed property.

29. THE EFFECT OF RECENT LEGISLATION.—It is reported that the ryots have better understood the provisions of Madras Act III of 1905. Many cases had been evicted in the Udaiyarpalaiyam taluk. It is also said that there have been many cases of vacation during the year in the Námakkal division by the parties themselves. The Madras Estates Land Act I of 1908 was resorted to this year more largely than in the previous year. On the working of this Act a separate report was submitted to the Board in this office letter, D. Dis. No. 2619-Rev., dated 7th August 1911.

---

18. MADURA.

(J. R. HUGGINS, Esq., I.C.S., *Acting Collector.*)

4. NUMBER OF VILLAGES.—The new Nilakottai taluk was formed from 1st July 1910 under G.O. No. 2057, Revenue, dated 18th June 1910. This taluk consists of 111 villages, of which 49 were transferred from the Dindigul taluk and 62 from the Madura taluk. The total number of ryotwari villages was 731 as in the previous year.

14. PROCESSES.—The following table compares the number of processes issued under Act II of 1864 in fasli 1320 with that in the previous fasli :—

Items.	Fasli 1320.	Fasli 1319.
(*a*) Demand notices	19,460	24,227
(*b*) Distraint or attachment notices	4,691	5,375
(*c*) Sale notices	3,832	5,285

Item (*a*).—The decrease under this head is generally due to greater attention paid by the Tahsildars to the instructions issued in G.O. No. 458, Revenue, dated 4th May 1904. There was a decrease in the number of demand notices in all the taluks except Madura, Melur and Dindigul. The increase in Madura and Melur is small and calls for no remarks. In Dindigul the number of demand notices rose from 4,508 to 8,453. The Tahsildar of Dindigul explains that as plague prevailed in Dindigul town, the ryots could not go to the weekly market there to dispose of their produce and pay the kists and as arrears of revenue thus accumulated, coercive processes had to be largely resorted to during the fasli. It is at least doubtful whether this explanation is correct as the Palni taluk suffered more severely than Dindigul from plague and yet there was no increase in that taluk.

Item (*b*).—The number of distraint or attachment notices fell from 5,375 to 4,691 ; but the disproportion between the number of defaulters (210) whose personal property was distrained and the number of those (4,485) whose real property was attached is still large and is ascribed to the large number of non-resident pattadars chiefly in the area irrigated by the Periyar.

Item (*c*).—Out of 4,485 defaulters whose real property was attached, 4,324 defaulters paid their arrears before sale. Out of 214 acres (dry) and 75 acres (wet) sold for the recovery of arrears, 44 acres (dry) and 3 acres (wet) were purchased by Government for want of bidders and the remaining extents were purchased by other individuals. The amount realized by the sales was Rs. 6,803.

22. Relation of landlords and tenants in larger zamindaris.—The relationship between landlords and tenants in the zamindaris in this district continued to be harmonious. In Ayakudi zamindari in Palni taluk, it is reported by the Divisional Officer, Dindigul, that the bad management of the estate by the zamindar gave rise to friction till the latter part of the year when the management passed into the hands of the lessees. The friction was also due to a dispute between the zamindar and lessee about the possession of the estate, which was finally settled by proceedings under the Criminal Procedure Code. In Guntamanaickanur zamindari the feelings between the landlord and tenants were somewhat strained owing to the levy of enhanced rate of assessment on the garden crops.

23. Growth of sub-letting in ryotwari tracts.—Sub-letting is resorted to chiefly by vakils and traders who have invested money in the purchase of lands in the Periyár area and by absentee land-owners.

25. Effects of recent legislation on the people—(1) *Working of Act III of* 1905.—There were five cases of eviction in the Dindigul taluk and 107 cases in the Palni taluk. It is reported by the Divisional Officer, Dindigul, that evictions in some cases in the Palni taluk might have been avoided by the infliction of heavy penalty or by the repetition of maximum penalty and that this course is being adopted during the current fasli. The Act on the whole has worked smoothly.

(2) *Working of Act I of* 1908.—A large number of suits and applications were received during the year under report than in the previous year. The increase occurred mainly in Guntamanaickanur zamindari owing to the levy of enhanced rate of assessment in respect of garden crops. The Act on the whole worked smoothly and a report on its working has been submitted in this office D. Dis. No. 3155, dated 11th September 1911.

28. Junior Civilians—Knowledge of vernaculars.—Mr. R. H. Courtenay, Assistant Collector, joined the district in December 1910. He appeared for the language examination—Tamil—by the lower standard in July last and passed.

---

19. RAMNAD.

(J. F. Bryant, Esq., I.C.S., m.a., *Acting Collector.*)

2. During the fasli, 24 ryotwari villages and two inam villages were transferred from Srivilliputtúr taluk to Sattur taluk, while four zamin villages were added to Srivilliputtúr taluk from Sankaranayinárkóyil taluk. During the same period, 32 inam and zamin villages of Ottápidaram taluk and 26 of Sankaranayinárkóyil taluk were transferred to Sattur taluk, while five villages were transferred from it to Tinnevelly district (two to Ottápidaram and three to Sankaranayinárkóyil, respectively).

13. Relations of landlords and tenants in proprietary estates.—The relations are reported to have been, on the whole, satisfactory in the Sattur division, except in the Seithur zamin where there is a dispute as to the rights of the tenants in the forest of the estate. Both in Sivaganga and in Rámnád Act I of 1908 has had the effect of raising new questions to be settled by the revenue courts. In villages sub-leased to Chetties (and most of the Rámnád zamindari and a portion of Sivaganga come within this category) suits and applications for division of crops have been numerous, but there has been no instance of actual breach of the peace. The tension is most marked in Poolanguruchi where the Chetti sub-lessee and the tenants are quarrelling very seriously.

14. Growth of subletting in ryotwari tracts.—There are no ryotwari tracts in the Devakottai division. In the four villages of Paramakudi firka in Rámnád division, the pattadars themselves cultivate their lands and there are therefore no cases of sub-letting. As regards Sattur division, the Divisional Officer reports that the practice is not on the increase and is, as usual, chiefly resorted to by the non-agricultural classes and by the owners of large landed estates.

17. Working of Act III of 1905.—There were 19 cases of eviction under section 6 of the Act in the Rámnád division against six in the previous fasli. Two suit notices in respect of evictions in fasli 1319 were received. In one the threatened suit is awaited, while a regular suit in respect of the other is pending disposal in the District Munsif's Court at Paramakudi. The Divisional Officer, Sattur, reports that the Act is being worked with as little hardship as possible. He adds that the number of B memorandums is on the increase owing to a wish on the part of the ryots to get their encroachments recognized at the ensuing resettlement. He further states that unauthorized and objectionable cases of occupation are being heavily penalized or evicted and that the provisions of the Act are being strictly observed. The people generally understand the provisions of the Act.

18. Act I of 1908.—The Divisional Officer, Sattur, reports that the tenants are becoming acquainted with the provisions of the Act and do assert their rights when they are infringed by proprietors. There have been no complaints of any unauthorized and illegal conduct on the part of the proprietors in the Sattur division. The number of suits under the Act more than doubled itself during fasli 1320 in the Rámnád and Dévakottai divisions as compared

with last year, the number of suits instituted in the fasli being 4,567 against 2,168 in the previous fasli. The Special Deputy Collector appointed in G.O. Mis. No. 737, Revenue, dated 8th March 1910, to give relief to the Rámnád Divisional-officer by disposing of suits and applications under Act I of 1908 continued to work during the whole of the fasli, and his services were dispensed with by the end of June 1911 under G.O. Mis. No. 1045, Revenue, dated 10th April 1911.

20. TINNEVELLY.

(W. FRANCIS, Esq., I.C.S., *Collector.*)

4. NUMBER OF VILLAGES.—Consequent on the amalgamation of several villages at the re-survey in the Nánguneri taluk and on the transfer of some zamin and other villages to the new Rámnád district, there has been a change in the total number of villages during the year. The ryotwari, zamin and inam villages of the district now number 607, 326 and 183 respectively.

23. PROCESS UNDER MADRAS ACT II OF 1864.—(*a*) Statement No. 8-A shows particulars of these. The following table compares them with the figures for 1909–1910 :—

Description of processes.	Fasli 1319.	Fasli 1320.
(1) Demand notices	48,202	42,637
(2) Distraint and attachment notices	3,031	3,343
(3) Sale notices	2,145	3,236
(4) Sales	203	50
Total ...	53,581	49,266

The decrease in demand notices is due to the efforts made to secure voluntary payments. The number of sales was notably low. Revenue Inspectors in all the taluks have been empowered to issue notices No. 1 and the system has continued to work satisfactorily.

(*b*) DISTRAINT, ATTACHMENT AND SALES.—The last two years' figures are as under :—

Fasli.	Attached.		Sold.		Realized by sale.		
	Number of defaulters.	Amount for which property was allowed.	Number of defaulters.	Amount for which property was sold.	Personal property.	Real property.	Total.
		Rs.		Rs.	Rs.	Rs.	Rs.
Fasli 1319	3,031	26,630	203	1,875	112	3,678	3,790
,, 1320	3,367	22,444	50	242	113	1,138	1,251

The percentage of distraints and attachments to the number of demand notices was 7·8 as against 6 per cent. in 1909–1910 ; and that of actual sales to sale notices was 1·5 per cent. against 9. This shows that attachments in most cases were merely stimulative. The following statement shows particulars of sales by taluks :—

Taluk.	Fasli 1319.		Fasli 1320.		Number of pattas.	Percentage of the number of sales to the number of pattas.	
	Number of sales.	Arrears.	Number of sales.	Arrears.		Fasli 1319.	Fasli 1320.
Ambasamudram	..	..	1	61	27,544	..	0·03
Koilpatti	14	70	9	28	27,035	0·05	0·03
Nángunéri	20	580	1	21	39,938	0·06	0·002
Sankaranayinárkoil	1	168	..	..	23,476	0·005	..
Tenkasi	9	55	3	13	19,791	0·05	0·01
Tinnevelly	93	337	20	31	29,660	0·3	0·06
Srivaikuntam	66	665	1	18	33,110	0·1	0·003
Tiruchendur			15	70	35,689		0·04
Total ..	203	1,875	50	242	2,36,243	0·09	0·02

The number declined all round. No land was bought in by Government for want of bidders

24. SERVICE OF PROCESSES.—Statement No. 8B gives details. The number of processes served by the specially paid agency, which worked only in Srivaikuntam and Tiruchendur taluks was 981 against 1328 in fasli 1,319 and the fees collected Rs. 184 against Rs. 250.

34. BOARD'S PROCEEDINGS No. 321 (SETTLEMENT), DATED 24TH AUGUST 1904.—The relations between landlords and tenants in the larger zamindaris and mittahs continued to be harmonious. The working of the Land Estates Act does not seem to have affected them.

(2) GROWTH OF SUBLETTING IN RYOTWARI VILLAGES.—The practice of subletting is more or less general in this district, but there is nothing to indicate that it is on the increase.

(4) THE EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—The Madras Land Encroachment Act, 1905, and the Madras Estates Land Act, 1908, have so far been working satisfactorily.

35. VERNACULAR KNOWLEDGE OF THE CIVILIANS.—The Civilian officers working in this district possess a fair knowledge of Tamil.

---

21. COIMBATORE.

(F. R. HEMINGWAY, Esq., I.C.S., *Acting Collector.*)

7. RYOTWARI SETTLEMENT.—In the redistribution of districts introduced in the middle of November 1910 the whole of Karúr taluk was transferred from this district and the remaining area was constituted into the taluks by forming a new taluk named Avanashi out of portions of the old Coimbatore and Palladam taluks. For facilitating the keeping of accounts, small villages were amalgamated and few unwieldy villages subdivided in Coimbatore, Palladam and Avanashi; the net result is that the total number of ryotwari villages in the district is 1,204 as against 1,486 in the last fasli.

15. COERCIVE PROCESSES AND SALES FOR ARREARS OF REVENUE.—Enclosure to No. 8 exhibits the particulars of coercive processes for the realization of the Government demand under Act II of 1864. In the subjoined table the processes issued during the fasli are compared with those of the preceding fasli:—

Item.	Fasli 1318.	Fasli 1319.	Fasli 1320.
Number of demand notices.. ..	404	780	369
Number of attachment notices ..	45	21	12
Number of sale notices	32	12	11

DEMAND NOTICES.—There was a decrease in the number of processes of all kinds as compared with the last two years. The proportion of the number of pattadars whose property was attached to the total number of pattadars was 0·004 as against 0·007 in last fasli and ·02 in fasli 1318. Moveable property was attached in four cases for an arrear of Rs. 72 as against two for an arrear of Rs. 41 in last fasli and 13 for an arrear of Rs. 66 in fasli 1318. The immoveable property of nine defaulters was attached for Rs. 62 as against 12 for Rs. 93 and 32 for Rs. 94 in fasli 1319 and 1318 respectively. In two cases the moveable property attached had to be sold and immoveable property was sold in all the cases attached. In Gobichettipálaiyam taluk there was an extent of 91 acres bought in by Government for want of bidders owing to the inferior quality of the soil.

27. There were no material changes during the fasli in respect of the points referred to in paragraph 4 of Board's Proceedings No. 321, Settlement, dated 28th April 1904.

---

22. THE NILGIRIS.

(S. P. RICE, Esq., I.C.S., *Collector.*)

5. VERNACULAR CORRESPONDENCE IN THE REVENUE DIVISIONAL OFFICE.—Mr. C. G. Mackay, I.C.S., continued to be in charge of the Coonoor division throughout the fasli. He is conversent with Tamil, but the correspondence with the taluk officers continued to be carried on in English as usual.

6. RELATIONS BETWEEN LANDLORD AND TENANT IN LARGER ZAMINDARIS.—There are no zamindari tracts in this district.

7. SUBLETTING IN RYOTWARI AREAS.—The practice of subletting continues to prevail in the Gúdalúr taluk and to a very limited extent in the municipal towns of Ootacamund and Coonoor.

9. THE EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—No special enactment affecting the general people was passed during the fasli. The Madras Land Encroachment Act, 1905, continued to work satisfactorily and there was no necessity for a reclassification of porambokes In no case were the provisions of the Madras Estates Land Act, 1908, resorted to. No fresh societies were registered in this district under the Co-operative Credit Societies Act, 1904.

23. SALEM.

(J. P. BEDFORD, Esq., I.C.S., *Collector.*)

15. PROCESS UNDER ACT II OF 1864.—The total number of processes of each kind issued during the year under report is compared in the sub-joined statement with those issued in the previous year:—

Fasli.	Number of process issued.				Number of defaulters whose property was sold.		Extent of land sold.		Amount realized by the sale of			
	Demand notices.	Attachment notices.	Sale notices.	Total.	Moveable.	Real.	Dry.	Wet.	Real property.	Moveable property.	Other property.	Total.
							ACS.	ACS.	RS.	RS.	RS.	RS.
1320	11,169	338	269	11,776	11	83	546	46	1,088	62	17	1,167
1319	12,783	439	340	13,562	14	64	3,799	303	9,607	144	1	9,752

The number of demand, attachment and sale notices fell from 12,783, 439, and 340 to 11,169, 338 and 269, respectively. There was also a decrease under all the other heads, except in the number of defaulters whose real property was sold. Special process servers were entertained in the Hosur taluk only as in the previous year. In the other taluks, the processes were served by the village agency as usual. The number of processes served by the special agency was 886 against 234 in the previous year.

21. VERNACULAR CORRESPONDENCE IN DIVISIONAL OFFICES.—During the year under report, the following officers were in charge of the Hosur and Tirupattur Divisions:—

Hosur ... ... { 1. Mr. H. A. Watson. 2. Mr. D. G. Waller.
Tiruppattur ... ... Mr. J. F. Hall.

These officers possessed a fair knowledge of Tamil and Telugu.

25. EFFECTS OF RECENT LEGISLATION ON THE PEOPLE.—Madras Act III of 1905 and Act I of 1908 are working satisfactorily. A report on the working of the latter Act was submitted to the Board of Revenue (Land Revenue) in this office Dis. 2954/D, dated 7th August 1911. The importance of the recent enactment for the extension of the legislative council, and the rules framed under the Local Boards Act for the extension of the elective franchise in District and Taluk Boards will doubtless be realised by the bulk of the population in course of time.

26. RELATIONSHIP BETWEEN LANDLORD AND TENANT IN LARGER ZAMINDARIS.—There are no larger zamindaris in the district. The relations between landlords and tenants in palaiyams and mittas are on the whole satisfactory.

27. GROWTH OF SUBLETTING IN RYOTWARI VILLAGES.—There is no appreciable increase in subletting. The system is not resorted to to any considerable extent, except in the case of pattadars, who have other avocations, and also in the case of pattadars, who own extensive lands, which they find it impossible to keep under direct cultivation.

---

24. SOUTH CANARA.

(R. A. GRAHAM, Esq., I.C.S., *Collector.*)

4. VILLAGES.—The number of villages (799) was the same as in the previous year. Effect was given during the year to Sir William Meyer's scheme for the redistribution of taluks and the new taluk of Mudabidri was formed from the 1st of October 1910, which involved a redistribution of the villages of two of the taluks, viz., Mangalore and Uppinangadi.

13. COERCIVE PROCESSES.—The number of demand notices (5,968) issued in the year was much smaller than that (7,322) issued in the previous year, but there was a slight increase under notices of distraint or attachment and sale. No real property was, however, sold in the year and the amount of arrears (Rs. 512) for which personal property was sold was only half that of fasli 1319.

20. VERNACULAR CORRESPONDENCE IN THE HEAD ASSISTANT COLLECTOR'S OFFICE.—The following extract from the Coondapoor Divisional Officer's *report will show how far English translations have been used in disposing of the vernacular correspondence in his office :—

* M.R.Ry. P. Krishnan Nambiyar Avargal.

"I was in charge of this division only from the 5th April up to the 8th June last. . . . . I was disposing of vernacular petitions mostly without translations by getting them read over to me. In some cases, however, I had to get translations also made. From the report submitted last year I learn that Mr. Hemingway who was in charge of the division during the greater portion of the fasli was also following the same procedure."

26. POINTS REFERRED TO IN PARAGRAPH 4 OF B.P. No. 321, DATED 24TH AUGUST 1904. —The reports from Tahsildars show that there has been no increase in subletting during the year under report and there has been no recent legislation affecting the people of this district.

---

25. MALABAR.

(C. A. INNES, Esq., I.C.S., *Acting Collector.*)

11. PROCESS UNDER ACT II OF 1864.—Statement No. 8-A gives particulars of the processes issued. The decrease of 628 in the number of processes issued in the year as compared with the previous year calls for no special remarks.

15. RELATION BETWEEN LANDLORD AND TENANTS IN ZAMINDARI TRACTS.—There are no zamindaris in this district.

16. GROWTH OF SUBLETTING IN RYOTWARI TRACTS.—There is no change of any importance in the situation already reported to the Board in this office letter No. D-1487/R., dated 4th November 1904.

19. THE EFFECT OF RECENT LEGISLATION.—There is no recent legislation of much importance to the agricultural population of Malabar.

24. VERNACULAR ATTAINMENTS OF PASSED ASSISTANTS, HEAD ASSISTANT COLLECTOR AND SUB-COLLECTOR.—Mr. Thomas who was in charge of the Palghat division throughout the year has a good working knowledge of Malayalam. He can talk it. Vernacular papers received in Court are read out to him : those received in office are usually abstracted. The same procedure was followed by Mr. Pate who was in charge of the Malappuram division for the greater part of the year. Mr. Pate had also a good knowledge of the vernacular and spoke it with some fluency. Mr. Macqueen who held the Tellicherry division from July 1910 worked hard at the language and by the time he left the district could read it and write it well. He was somewhat diffident about speaking it and required more practice in talking Malayalam.

---

26. ANJENGO.

(A. T. FORBES, Esq., I.C.S., *Collector.*)

13. There were no signs of disaffection or ill-feeling between classes and recent legislation provoked no noteworthy comment or criticism.

15. VERNACULAR ATTAINMENTS.—The Assistant Resident Captain R. E. G. Berkeley does not know Malayalam, and Malayalam petitions are translated to him, but he knows Tamil.

Proceedings of the Board of Revenue (R.S., Sur., L. Rds. and Agri.), No. 186, dated 5th March 1912.

N. S. BRODIE, Esq.

In continuation of Board's Proceedings, No. 80, dated 3rd February 1912, the Board begs to submit the statements of irrigation works and pattas brought up to fasli 1320 (1910–1911).

2. *Irrigation works.*—Statement No. 19 shows the number of irrigation works of each kind, tanks, river channels, spring channels, anikats and wells, in and out of repair, classified according to the area irrigable by each in each district of the Madras Presidency for fasli 1320. The total number of irrigation works in and out of repair other than wells amounted to 48,184 against 47,246 or 938 more than in the previous quinquennium ending fasli 1315 (1905–1906). The number of tanks shows a decrease, while that of river and spring channels and anikats shows an increase. The increase is reported to be generally due to rectification of errors in the previously reported figures and to the construction of new works. The decrease under tanks appears to be chiefly due to the abandonment of tanks affected by projects and to the digging of new channels as in the case of the Nagavalli project in Vizagapatam and the Periyār project in Madura. The large majority of sources, however, are tanks, mostly maintained by Government, but in several districts chiefly in Anantapur, Cuddapah and Chittoor, there is a large number of Dasabandam sources, *i.e.*, works for the maintenance of which inams have been granted. The number of private tanks is small, viz., 3,457, or about 10 *per cent.* of the total number of tanks. The largest number of river channels is reported to exist in Tanjore, Kistna and Chittoor, and of spring channels in Anantapur, Guntūr, Chittoor and Salem, and of anikats in Guntūr.

Kind.	Fasli 1315.	Fasli 1320.
Tanks	33,675	33,653
River channels ...	5,977	6,454
Spring channels ...	6,576	6,586
Anikats	1,018	1,491
Total ...	47,246	48,184

The total number of wells with separate ayakats or irrigable areas amounted to 428,754 or 83,168 less than in the previous quinquennium; of this number 418,026 were private sources. There was a large number of dasabandam wells in Cuddapah (3,035), Chittoor (2,448) and Anantapur (1,732). The decrease of 83,168 in the number of wells was due to the rectification of errors in the previously reported figures; it was also due to many temporary pits sunk in fasli 1315 having been abandoned on account of the facilities afforded by project irrigation. About 9 *per cent.* of these wells was out of repair, the proportion being larger in Chingleput and Gōdāvari than elsewhere. There were besides 227,510 wells which supplemented the irrigation from Government sources against 179,329 in fasli 1315. The largest number of such wells is reported to exist in the districts of North Arcot (84,197), South Arcot (28,199), Salem (26,422) and Madura (22,008). Taking the works in repair, viz., 434,224, and excluding wells (391,659, none of which irrigate more than 5 or 6 acres), it will be observed from the abstract in the margin that 70 *per cent.* of the tanks and 58 *per cent.* of other works (channels and anikats) irrigate below 50 acres each. The number of works irrigating from 50 to 100 acres is 5,169, from 100 to 200 acres 4,122, and over 200 acres 5,018.

Kind.	Total number in repair.	Number irrigating less than 50 acres.
Tanks	28,896	20,271
River channels ...	6,164	1,927
Spring channels ...	6,114	5,474
Anikats	1,391	584

The following abstract shows the number of new works constructed during the quinquennium and their estimated cost:—

District.	Government or private.	Name of work constructed.	Number.	Amount of estimated cost.
				Rs.
1. Gānjam	Private.	Tank.	37	7,500
2. Gōdāvari	Nature and name of works not given.		7	22,948
3. Guntūr	Private.	Tank.	20	Not given.
	Government.	River channel.	14	Do.
	Do.	Anikat.	119	Do.
	Do.	Well.	15	Do.
	Private.	Do.	4	Do.
4. Kurnool	Government.	Tank.	11	16,105
5. Nellore	Private.	Well.	293	40,222
6. Coimbatore	Do.	Do.	1,395	300
7. Madura	Do.	Do.	1,251	2,77,750
8. Tinnevelly	Do.	Tank.	37	6,000
	Do.	Well.	818	1,22,700

3. *Pattas.*—Statement No. 20 shows the number of pattas of various values held in the several districts of the Madras Presidency for fasli 1320. Excluding the district of Madras where the revenue derived consists chiefly of quit-rent imposed on house-sites, the total number of pattas held during the fasli amounted to 3,859,407 or 361,648 more than in the quinquennium ending fasli 1315. The increase occurred in all districts except Cuddapah, South Arcot, Madura, Tinnevelly and Salem and was large in the five districts noted in the margin; these districts together contributed an increase of 204,047 or about 56 *per cent.* of the total increase. In Ganjām, Chingleput and Coimbatore the increase was due to the introduction of re-settlement; in Anantapur it was due to a large number of darkhasts and to the addition of the Kadiri taluk in fasli 1320; and in Trichinopoly it was due to the addition of the Karur and Namakkal taluks in fasli 1320 and to the splitting up of joint pattas, especially in the Trichinopoly taluk, by the Special Revenue staff. Of the total increase 186,063 relate to single pattas and 175,585 relate to joint pattas. The bulk of the increase under single and joint pattas is confined to pattas paying Rs. 10 and less a year, which amount to 253,153 or about 70 *per cent.* of the total increase. Of the total number of pattas held more than two-thirds (2,607,910) were assessed each at Rs. 10 and less, the gross assessment being Rs. 95,72,521 which gives an average of less than Rs. 4 a patta. The bulk of these petty holdings consists of dry land (6,600,253 acres) and the average area of a patta paying Rs. 10 and less comes to about 2·8 acres.

Ganjām	30,277
Anantapur	35,161
Chingleput	41,034
Trichinopoly	72,104
Coimbatore	25,471
Total ...	204,047

NOTE.—(1) The dry and wet extents given in this statement differ from those given in columns 27 and 29 of statement No. 3 against Kistna, Chingleput, North Arcot, Trichinopoly and Anjengo. In Kistna, the variation is due to the inclusion of the extent relating to Rustambada village of Narasapur taluk excluded from statement No. 3 owing to its non-settlement by the time it was sent; in Chingleput, it is due to the exclusion of the extent for rented villages from this statement; in North Arcot, it is due to the exclusion of the extent relating to Arni Jaghir and Kangundi Zamindari from this statement as they are not in the ryotwari villages of the district; and in Anjengo, it is due to the fact that garden and occupied dry lands are shown as dry in this statement. The Collector of Trichinopoly has not explained the variation.

(2) The amount of assessment in column 93 differs from that given in column 32 of statement No. 3 in Kistna, Chingleput, North Arcot, Trichinopoly and Malabar. The variation in the first three districts is due to the causes mentioned in note (1). The Collectors of Trichinopoly and Malabar have not explained the variation.

PROCEEDINGS OF MADRAS GOVERNMENT.

Proceedings of the Board of Revenue (Revenue Settlement, Survey, Land Records and Agriculture).

Settlement of Land Revenue (Jamabandi)—Submitting to Government report on the—for fasli 1321 (1911-1912). } (Here enter No. 7, dated 7th January 1913.)

Order—No. 919, Revenue, dated 29th March 1913.

Miscellaneous.

With its proceedings read above the Board of Revenue submits the report on the land revenue settlement of the Presidency for fasli 1321, the agricultural year ending with 30th June 1912.

2. The rainfall during the south-west monsoon was below the average except in Ganjām, Vizagapatam, Gōdāvari, South Arcot, Tinnevelly and the Nilgiris and was either untimely or insufficient.

But on the whole the north-east monsoon was favourable. The average annual retail prices of the staple food grains were generally higher than in the preceding year and in all districts stood above the normal rates.

3. The total extent of ryotwari holdings in the Presidency, which amounted to almost 25 million acres exceeded that of the previous year by about 112,000 acres. Of this extent 19,860,000 acres or 79·49 per cent. of the holdings were cropped against 20,130,000 acres or 80·88 per cent. in the previous year.

4. The following statement exhibits the land revenue and cesses which accrued in the year under review and in the previous year:—

—	Fasli 1320.	Fasli 1321.	Difference.
	Rs.	Rs.	Rs.
1. Peshkash or revenue from permanently settled estates ..	49,90,013	49,90,568	+ 555
2. Land-cess on permanently settled estates	14,04,133	14,15,513	+ 11,380
3. Quit-rent on inam villages held on favourable tenure	7,53,490	7,53,026	— 464
4. Land-cess on inam villages held on favourable tenure	3,83,338	3,82,271	— 1,067
5. Revenue from lands held on ryotwari system including water-rate and miscellaneous revenue.	6,07,82,230	6,05,64,722	— 2,18,508
6. Cess on ryotwari and miscellaneous revenue	48,49,806	48,39,836	— 9,970
Total land revenue (items 1, 3 and 5 above) ..	6,65,26,733	6,68,08,316	— 2,18,417
Total cesses (items 2, 4 and 6 above) ..	66,37,277	66,37,620	+ 343

5. The settled assessment on ryotwari holdings amounted to Rs. 506·6 lakhs against Rs. 504·7 lakhs in the previous year. The increase occurs mainly in the Tinnevelly and Coimbatore districts, while there was a decrease in Cuddapah due to the transfer to dry of the dasabandham well lands in two of the taluks, the revision of the wet ayakats and the grouping of irrigation sources. The increase was due to the enhancement of assessment at resettlement and to the composition of palmyra tax with the land assessment in the Tinnevelly district and to the introduction of resettlement rates in two taluks of the Coimbatore district. The revenue derived from

water-rate on dry lands and from the charge on second crop on wet lands amounted to Rs. 30·77 lakhs against Rs. 32·50 lakhs in the preceding year. The decrease occurred under both heads and was the result of large decreases in five districts. The decrease is ascribed generally to the unfavourable character of the season during the year. On the other hand there was an increase in Kistna due partly to unauthorised irrigation having been charged with enhanced water-cess and partly to an increase in second crop irrigation under certain channels which had been closed against such irrigation in the previous years. In Gōdāvari also an increase occurred both under tirvajasti and fasaljasti owing to the copious rainfall in the delta tracts during the months of November and December 1911. Season remissions in fasli 1321 amounted to Rs. 10·60 lakhs against 2·80 lakhs in the preceding fasli.

6. The extent of poramboke occupied during the year, which also includes unassessed waste lands in seven districts for which separate figures have not been furnished was 1,24,320 acres or 2,332 acres less than in the previous year. On about 77 per cent. of this extent assessment was levied at the usual rates. Even in the districts for which separate figures are available, the amount of poramboke land on which assessment at the ordinary rates was levied, is still large. Where transfer to assessed waste, and grant on patta is unobjectionable, Collectors should see that such transfer is effected. The remaining area of 29,163 acres was subjected to a penalty of Rs 3,71,490 which gives an average of Rs. 13 an acre. No useful comparison can be made with the results of the previous year until the extent of unassessed waste is altogether eliminated from this head. The Board of Revenue has already drawn the attention of the Collectors of the districts who have not furnished separate figures for poramboke to G.O. No. 1681, Revenue, dated 6th June 1912, and the Government trust that in the report for the current fasli the reform in terminology which has been already adopted in many districts will be completely effected in all districts, and that the returns will show that efforts have been made to get unassessed waste land wherever it has been occupied included in the ryots' pattas.

7. *Collections.*—The work of collection was satisfactory, Rs. 7,20,17,780 or 98·7 per cent. of the gross current demand having been collected within the fasli against 98·1 per cent. in the previous year. The arrear balance at the beginning of the fasli was Rs. 14,41,464. Of this amount a sum of Rs. 13,50,821 or 93·7 per cent. was collected within the fasli, and Rs. 23,132 or 1·6 per cent. was written off the accounts. The total balance, arrears and current, outstanding at the end of the fasli which includes the balance under (1) the revenue from the proprietary estates village service and (2) the revenue from the Kurnool-Cuddapah canal was Rs. 12,65,852. Up to the end of October 1912 Rs. 8,00,400 or 63·2 per cent. had been collected, Rs. 3,924 written off the accounts and Rs. 234 ascertained to be irrecoverable.

8. *Coercion.*—The Government note with satisfaction that there has been a progressive decrease in the total number of coercive processes issued in connection with the collection of land revenue. The total number issued in the year under report was 1,448,613 against 1,716,316 in the preceding year. The decrease occurred chiefly under demand notices, there was some increase under sale notices and sales. Demand notices which are in the nature of reminders rather than coercive processes formed about 82·7 per cent. of the total number of processes and numbered 1,198,222 against 1,463,605 in the preceding year. The percentage of distraints and attachments to the total number of demand notices was 11·07 in the case of personal property and 2·09 in the case of real property against 9·99 and 1·22 per cent. respectively in the previous year. Out of 157,710 defaulters whose property was attached 68,520 or 43·45 per cent. paid the arrears before sale notices were issued against 47·8 per cent. in fasli 1320. It was, however, necessary to proceed to actual sale of property only in 3,491 cases out of 89,190 cases of attachment. The number of defaulters whose property was sold for arrears of revenue formed 0·09 per cent. of the total number of pattas held against 0·07 in the previous fasli. The extent of land actually sold, 13,843 acres, amounted to 0·06 per cent. of the total extent of holdings in the Presidency. 6,391 acres or 0·03 per cent. of the total holdings were bought in by Government for want of bidders against 3,400 acres or 0·01 per cent. of the holdings in the preceding year. Out of the land bought in during this and previous years and held at the disposal of Government, the extent re-sold for private occupation during the year was 1,172 acres against 1,395 acres in the preceding year. The amount of the sale-proceeds realized was nearly eight times the assessment.

9. *Transfer of registry.*—No useful purpose will be served by comparing the number of applications for transfer of pattas received during the fasli with the figures returned for the previous year as it is reported that the cases dealt with by the special staff have been included by some Collectors and excluded by others. The Board of Revenue will be requested to issue instructions to Collectors so as to have these statements prepared on a uniform principle. In G.O. No. 3125, Revenue, dated 18th October 1911, the Board of Revenue was requested to examine the existing rules relating to the transfer of pattas and the manner in which these rules were administered with a view to see what improvement was possible. In its Proceedings No. 3, dated 7th January 1913, the Board has submitted a report on the question which is under the consideration of Government.

10. *Loans.*—There is a slight increase in the amount of advances made under both the Loans Acts. The total amount was Rs. 6·76 lakhs against 6·04 lakhs in the preceding fasli. The districts of Kurnool, Bellary, Chingleput, South Arcot, Chittoor, Tanjore and Tinnevelly contributed towards the increase.

11. The statement showing the financial results of the operations under these acts subjoined to paragraph 43 of the Board's report indicates a steadily increasing surplus of net receipts of interest over interest payable by the Local Government to the Government of India.

The attention of Government has been drawn to these figures and the Government consider that the method hitherto adopted for estimating the cost of time devoted to loans work by the ordinary Land Revenue establishment, viz., $3\frac{1}{2}$ per cent. on the amount advanced during the year should be replaced by some other method based on sounder principles for the time of the ordinary staff is taken up not only in dealing with applications for new loans but also in inspection of works constructed by means of loans advanced in previous years, and in recovery of instalments of loans so advanced. It would appear to be more correct therefore to take the mean amount outstanding as the basis of calculation rather than the amount advanced in the year. The Board will be requested to report what would be a fair percentage to take.

12. *Irrigation works.*—In reviewing the report for the previous fasli Government called attention to apparent inaccuracies in the quinquennial statement of irrigation works so far as wells were concerned. The accuracy of the statement as regards tanks has since been called in question and the Board has been asked to report on what basis the figures are compiled. It is observed that while the total number of tanks, Government, private and dasabandam, remains very much the same the distribution of them amongst the three classes referred to differs considerably from that reported in the returns for the previous quinquennium. The statement is also apt to cause misapprehension as containing an authoritative return of irrigation works out of repair. It is not known on what authority works are classed as "in" or "out of" repair but if any reliance at all can be placed on them the percentage of works "out of repair" to the total number of irrigation works is unduly high in the case of tanks. The Board of Revenue will be requested to consider and report what changes should be introduced in order to make the statement more trustworthy.

PROCEEDINGS OF THE BOARD OF REVENUE

(REVENUE SETTLEMENT, SURVEY, LAND RECORDS AND AGRICULTURE).

The Hon'ble Mr. R. B. CLEGG,
Commissioner of Land Revenue.

The Hon'ble Mr. A. BUTTERWORTH,
Commissioner of Revenue Settlement, Survey, Land Records and Agriculture.

Resolution—No. 7, dated 7th January 1913.

The Board submits its report on the settlement of land revenue in this Presidency for fasli 1321 (1911–12) together with the prescribed statements. In the extracts from the district reports appended to this resolution there is a paragraph dealing with the subject of agricultural wages as directed in G.O. No. 93, Revenue, dated 16th February 1898. There was considerable delay in the submission of the reports or returns from some districts. The reports from Chingleput and Tinnevelly were received on 27th November 1912, that from Tanjore on 29th November 1912, and that from Salem on 13th December 1912 after repeated reminders. Statement No. 7 showing the demand, collection and balance was received from the Collector of Anantapur on 23rd December 1912 after the issue of two telegraphic reminders. The Collector of Tanjore ascribes the delay in the submission of his report to the non-completion of the supplemental jamabandi in four out of the six divisions until two months after the close of the fasli and to the late receipt of returns from Tahsildars which returns were then found to be incomplete and inaccurate ; the Collector of Salem attributes the delay partly to the fact that many of the orders passed at the jamabandi in village account No. 5 had to be revised and partly to the fact that returns from some Tahsildars had to be returned for alteration. The Collectors of Anantapur, Chingleput and Tinnevelly have not offered any explanation for delay. The reports from Madras, South Canara and the Nilgiris alone were received on or before the due date, viz., 1st October 1912.

2. *Season, rainfall and prices.*—On the whole, the south-west monsoon was not favourable, while the north-east monsoon was favourable. The rainfall in the dry season and in the hot season was below the average in almost all districts. The average annual retail prices of the staple food-grains were generally higher than in the preceding year and everywhere dearer than the normal rates. The price of cumbu alone was above the warning rate in Salem ; the prices of all the principal grains were below the warning rates elsewhere. The warning rates here referred to are those fixed by Government in G.O. No. 1977, Revenue, dated 3rd July 1912.

Statement No. 1.

3. *Cropped area.*—The total crop area of the year under report (37,380,000 acres) exceeded the normal area (36,686,000 acres) by 694,000 acres. Paddy, ground-nut, sugarcane, cotton and tobacco showed an increase and the other crops a decrease. As compared with the previous year, the cultivation under gingelly, ground-nut, castor, sugarcane, cotton and indigo showed an increase, but in no case did the outturn reach the normal. The outturn of paddy was 58 *per cent.* of the normal in Vizagapatam, 85 *per cent.* in South Arcot, 87 *per cent.* in Trichinopoly and 92 *per cent.* in Coimbatore, while in the remaining districts it ranged from 67 to 83 *per cent.* The yield of cholam, cumbu and ragi in Vizagapatam was 50 *per cent.* and it was below 50 *per cent.* in the case of varagu in Tinnevelly, of castor, other oil-seeds and horse-gram in Vizagapatam, of indigo and ground-nut in Vizagapatam and Tinnevelly, of cumbu

in Anantapur, of other cereals in Chingleput, of other oil-seeds in Kurnool and Chingleput and of gingelly in Tinnevelly. In the remaining districts and under the remaining crops the outturn ranged from 50 to 94 *per cent.*

* 4. *Condition of cattle.*—The total number of deaths from disease among horned cattle showed a decrease of 24,703 as compared with last year, the total for the year being 51,354; rinderpest showed the largest decrease, viz., 13,863. Last year, too, there was a considerable decrease as compared with the preceding year.

* *Note.*—The figures in this paragraph relate to the official year 1911–1912.

5. *Number of villages.*—In the year under report, there was a nett decrease of 96 villages. There was an increase in Nellore (1) and Chingleput (2). The increase in Nellore was due to the Pentapad shrotriem in the Gudur taluk having reverted to Government and that in Chingleput to certain minor inams in the zamindari villages of Adyar and Mambalam measuring about 99 acres having been resumed, surveyed and settled as two separate villages. The decrease occurred in Ganjām (13), Cuddapah (11), Rāmnād (16), Tinnevelly (33) and Coimbatore (26); the decrease in Ganjām was due to 14 villages having been clubbed with other villages and one village (Pithala) having been treated as a separate Government village at the resettlement of the Berhampur taluk; that in Cuddapah, to the exclusion of 11 whole inam villages relating to the Kamalapuram taluk included erroneously last year under ryotwar villages; that in Rāmnād, to the reconstitution of the 84 ryotwar villages of the Sattur taluk into 68; that in Tinnevelly, to the amalgamation of several villages at the resurvey in Sankaranayinarkōvil and Koilpatti taluks; and that in Coimbatore, to the regrouping of the villages in the Talavadi firka of the Kollegal taluk.

Statement No. 3, column 2.

6. The land revenue of the Presidency is derived from the undermentioned sources:—

(*a*) Peshkash or revenue from permanently-settled estates.
(*b*) Shrotriem jodi or quit-rent levied on inam villages.
(*c*) Assessment including water-rate on lands held under the ryotwari system.
(*d*) Miscellaneous revenue.

7. *Peshkash or revenue from permanently-settled estates.*—The total amount of peshkash payable during the fasli was Rs. 49,90,568 against Rs. 49,90,013 in the preceding year. The increase of Rs. 555 is the nett result of—

	Rs.
(*a*) Addition on account of unlocalisable service inams handed over to proprietors	253
(*b*) Addition on account of land relinquished by the Public Works Department and made over to proprietors	45
(*c*) Addition of peshkash temporarily reduced in the previous year in lieu of compensation for lands taken up	352
Total ...	650
(*d*) Reduction in lieu of compensation for lands taken up for public purposes	—95
	555

8. *Shrotriem jodi.*—The quit-rent payable to Government on villages held on shrotriem or favourable tenure was Rs. 7,53,026 or Rs. 464 less than in the previous fasli. The following are the main reasons for this difference:—

	Rs.
(*a*) Addition on account of unlocalisable service inams handed over to proprietors	+ 120
(*b*) Additions on account of transfer of minor inams to major inams.	+ 241
(*c*) Collection of back revenue	+ 104
(*d*) Rectification of errors	+ 21
(*e*) Redemption of quit-rent on enfranchised personal inams ...	— 432
(*f*) Resumption of inams	— 450
(*g*) Reduction on account of acquisition of land for public purposes.	— 68

9. *Holdings.*—The total extent of the ryotwar holdings during the year, viz., 25·00 million acres exceeded that of the previous year by about 112,000 acres. The increase was contributed to by all the districts except Tinnevelly and Malabar which showed a decrease of 9,437 acres. The decrease in Tinnevelly was due to changes resulting from resurvey and resettlement while that in Malabar was mainly due to remeasurement. The increase was marked in the districts of Guntūr, Anantapur, Bellary and Madura.

Statement No. 4, columns 18, 19 and 20.
Statement No. 5, column 18.

10. The total assessment on holdings was Rs. 506·6 lakhs against Rs. 504·7 lakhs in the previous year. More than half the increase occurred in Tinnevelly and Coimbatore; in the former district, it was due to the enhancement at resettlement and to the composition of palmyra tax with the land assessment and in the latter to the introduction of resettlement rates in the Erode taluk and in the Talavadi firka of the Kollegal taluk. There was a large decrease in Cuddapah (Rs. 41,096) due to the transfer to dry at the resettlement of dasabandam well lands in the Pullampet and Rayachoti taluks, to the revision of wet ayakats and to the grouping of irrigation sources.

Statement No. 4, columns 22, 23 and 24.
Statement No. 5, column 19.

11. *Cultivation.*—Compared with the previous year, the area cropped on ryotwar holdings showed a decrease of 257,418 acres or about 1 per cent. of the total holdings, while an increase of 280,753 acres, occurred under "waste charged", the nett result so far as assessment was concerned being an increase of revenue in several districts in which there was a decrease in cultivation. Large decreases in the cropped area occurred in the districts of Anantapur, Bellary, Chittoor, Madura, Coimbatore and Salem owing to the unfavourable character of the season. Including the area under miscellaneous cultivation the total area cropped amounted to 21·04 million acres against 21·40 million acres in the previous year.

Statement No. 3, column 49.

12. *Water-rate and second-crop charge.*—The revenue from these sources amounted to Rs. 30·77 lakhs against 32·50 lakhs or about Rs. 1,73,000 less than in the preceding year. This decrease was made up of about Rs. 1,05,000 under "water-rate on dry lands" and of about Rs. 68,000 under "second crop charge". There were large decreases in the districts of Nellore (Rs. 46,668), Cuddapah (Rs. 36,262), Anantapur (Rs. 1,16,875) Chittoor (Rs. 57,164) and North Arcot (Rs. 50,431) but there were large increases in the districts of Gōdāvari (Rs. 73,619) and Kistna (Rs. 1,25,044). The decrease where it occurred was due generally to the unfavourable character of the season during the year under report. The increase in revenue in Kistna was due partly to unauthorized irrigation having been charged with a heavier penalty and partly to an increase in second-crop irrigation under certain channels which had been closed against such irrigation in the previous year. The increase in Gōdāvari is made up of an increase of Rs. 19,559 under "tirwajasti" and of Rs. 54,060 under "fasaljasti". This was due to the abundant rains in the delta tracts during the months of November and December 1911.

Statement No. 4, columns 26, 27 and 29.
Statement No. 3, columns, 43, 48 and 53.

13. *Remissions.*—As compared with the previous year there was a nett increase of Rs. 6,14,753, "season remissions" showing an increase and "fixed remissions" and "beriz deductions", a decrease.

Statement No. 6.
Statement No. 4, columns 46 to 49.

(i) *Season remissions.*—The remission under this head showed a nett increase of Rs. 7,80,232. The increase occurred under all the sub-heads except 'land injured by water', 'remission of water-rate' and 'others'.

(*a*) *Waste remitted.*—The remission under this head amounted to Rs. 4·87 lakhs or Rs. 3·96 lakhs more than that remitted in the previous year. A sum of Rs. 25 was remitted on 9 acres of dry land in Kistna under G.O. No. 626, Revenue, dated 25th July 1901. The rest of the remission related to 108,397 acres of wet land. Wet remissions (Rs. 4,86,663) were granted in almost all the districts, the largest amounts being in the districts of Anantapur (Rs. 1,18,672) and Chittoor (Rs. 1,01,343). The increase was due to the failure of rain

in the proper season. On the other hand, Tinnevelly showed a large decrease (Rs. 24,942) which is ascribed to the favourable character of the season there.

(*b*) *Shavi and short crop.*—The total amount remitted under this head was Rs. 1,82,263 against Rs. 89,199 in the previous year. The nett increase of Rs. 93,064 was chiefly contributed by Ganjām (Rs. 38,851), Vizagapatam (Rs. 26,111) and Kurnool (Rs. 27,600), the season having been unfavourable in these districts. There was on the other hand a large decrease (Rs. 53,126) in Tinnevelly attributable to the favourable character of the season there.

(*c*) *Injury by floods.*—The amount remitted under this head was Rs. 7,017 against Rs. 13,271 in the previous year, Kistna, Nellore and Malabar contributing Rs. 5,151 to the total.

(*d*) *Tirvakammi remission* (*i.e.* remission of the difference between wet and dry assessment on wet land cultivated with dry crops owing to insufficiency or failure of water) amounted to Rs. 3,67,015 against Rs. 75,008 in the previous year and was large in Vizagapatam, Cuddapah, Anantapur, Kurnool, Chittoor and Salem. These districts alone account for Rs. 2,85,004 or about 78 per cent. of the total remission under the head. The increase was very large in the districts of Cuddapah, Anantapur and Salem and was due to the unfavourable character of the season.

(*e*) *Other remissions.*—A sum of Rs. 2,258 was granted under this head; of this amount, Rs. 1,779 related to reclamation of land in Nellore.

(ii) *Fixed remissions* (or abatements of the demand granted for reasons unconnected with the season) amounted to Rs. 3·07 lakhs or Rs. 1·35 lakhs less than in the previous year, the decrease being mainly due to a reduction of Rs. 1·07 lakhs under increment remissions chiefly in South Canara and Malabar. The largest item under this head is "increment remissions", that is to say, abatements allowed on the introduction of settlement or resettlement in cases where the increase over the old assessment is in excess of 25 per cent., the rule being that such increase should be imposed in instalments increasing every year in amount. These remissions amounted to Rs. 1·95 lakhs and were granted in Ganjām, Guntūr, Nellore, Cuddapah, Kurnool, Chingleput, North Arcot, Trichinopoly, Rāmnād, Tinnevelly, Coimbatore, Salem, South Canara and Malabar. South Canara and Malabar alone contributed about Rs. 1·59 lakhs.

(iii) *Beriz deductions* (*i.e.*, deductions made from village collections in favour of inamdars and religious institutions) amounted to Rs. 8·76 lakhs or about Rs. 0·31 lakh less than in the previous year. In Tinnevelly alone there was a decrease of Rs. 27,219 due to some of the allowances not having been claimed by the inamdars during the year under report.

14. *Miscellaneous revenue.*—The revenue under this head amounted to Rs. 90·60 lakhs or 3·35 lakhs more than in the previous year. This increase is the nett result of large increases in the districts of Ganjām (Rs. 81,231), Gōdāvari (Rs. 1,74,412), Kistna (Rs. 1,37,941), Tinnevelly (Rs. 33,567), South Canara (Rs. 20,325) and Malabar (Rs. 41,258), and of large decreases in the districts of Guntūr (Rs. 67,419), Cuddapah (Rs. 20,979), Anantapur (Rs. 42,856) and Chittoor (Rs. 22,258). The decreases under item (1) "Jodi and quit-rent on minor inams" (Rs. 2,965) and item (9) "Revenue from process-service fees" (Rs. 1,648) and the increases under item (7) "Revenue derived from tree pattas" (Rs. 13,021) and item (12) "Quit-rent and ground-rent" (Rs. 12,409) were small and call for no remarks. Items (2) and (3) "Water-rate on minor inams in ryotwar villages and on land in proprietary villages," item (4) "Enhanced water-rate on lands irregularly irrigated," item (6) "Occupation of poramboke land," item (8) "Commission on Estates," item (11) "Rent of lankas" and item (13) "Other items," showed large increases, while item (5) "Land occupied with or without application" and item (10) "Sale-proceeds of lands sold" showed large decreases. These items will be dealt with below :—

Statement No. 9.

Items (2) *and* (3).—The water-rate on minor inams in ryotwar villages and on land in proprietary villages amounted Rs. 35·71 lakhs showing a nett increase of Rs. 1·70 lakhs over the revenue under this head in the previous year; Gōdāvari and

Kistna alone contributed an increase of Rs. 2·37 lakhs which was due, in Gōdāvari, to the heavy rains in November and December 1911 and in Kistna, to the opening of certain channels this year which were closed during the second crop season last year.

Items (4).—The enhanced water-rate on lands irregularly irrigated amounted to Rs. 4·35 lakhs or Rs. 0·31 lakh more than in the previous year. Kistna alone contributed an increase of Rs. 0·33 lakh which was due to an increase in unauthorized irrigation and to the imposition of heavier penalties.

Items (5)—*Land occupied with or without application.*—The revenue under this head amounted to Rs. 7·42 lakhs or Rs. 0·36 lakh less than in the previous year. Anantapur and Madura showed a decrease of Rs. 0·33 lakh owing to the bad season.

Items (6).—The revenue under occupation of poramboke land amounted to Rs. 5·68 lakhs. Particulars relating to "poramboke" and "unassessed waste" are separately available in the returns for fasli 1321 for all the districts except Anantapur, Bellary, North Arcot, South Arcot, Rāmnād, Tinnevelly and Salem. In these excepted districts, the returns have not been prepared according to the instructions conveyed in G.O. No. 1681, Revenue, dated 6th June 1912, and the attention of the Collectors will now be particularly drawn to these instructions. For fasli 1320, information regarding "poramboke" and "unassessed waste" is not separately available as the returns were prepared before the issue of the Government Order referred to. No useful comparison is therefore possible between the poramboke cultivation of the year under report and that of the preceding year. The revenue under this head for fasli 1321 showed an increase of Rs. 0·88 lakh as compared with that for fasli 1320 even though the latter included the whole and the former only a portion of the charge on assessed waste. Gōdāvari alone contributed an increase of Rs. 0·71 lakh and this was due mainly to the levy of enhanced charge on encroachments on the valuable re-formed land in the Sanapalli lanka of the Amalapur taluk by the Raja of Vizianagram for 11 faslis from fasli 1310 to fasli 1320. The extent occupied or cultivated measured 124,320 acres. Of the revenue from poramboke cultivation, Rs. 3·71 lakhs represent enhanced charge, and this was levied on 29,163 acres of land, which gives an average rate of Rs. 13 per acre. Gōdāvari, Tanjore and South Canara show (as in last year) the highest average rates, viz., Rs. 115, Rs. 34 and Rs. 40, respectively. The large figure in Gōdāvari is ascribed to the imposition of heavy assessment on the lanka land referred to above, and in Tanjore to the strict application of the provisions of the Act. In this latter district the encroachers were ordered to be evicted in 2,249 cases.

Statement No. 9-A.

Item (8).—Commission on estates showed a nett increase of Rs. 0·22 lakh. Ganjām alone contributed an increase of Rs. 0·30 lakh.

Item (10).—Sale proceeds of lands sold showed a nett decrease of Rs. 0·32 lakh. In Guntūr alone there was a heavy fall of Rs. 0·57 lakh.

Item (11).—Rent of lankas showed a nett increase of Rs. 0·40 lakh.

Item (13).—Other items showed a nett increase of Rs. 0·32 lakh. The largest increase was in Ganjām and it was mainly due to the increase in the sale-proceeds of the waste lands under the Rushikulya system.

15. The nett ryotwar demand, excluding remissions but including water-rate, second-crop charge and miscellaneous revenue amounted to Rs. 605·59 lakhs against Rs. 608·23 lakhs in the previous year. The details for this decrease of Rs. 2·64 lakhs are given below:—

Statement No. 4, columns 24, 29, 48, 56, 58, 59 and 61.

	Lakhs of rupees.
Increase in the assessment of holdings	+ 1·88
Decrease under second-crop charge and water-rate	— 1·72
Increase under remissions	— 6·15
Increase under miscellaneous revenue	+ 3·35
Total ...	— 2·64

16. *Total land revenue demand (current).*—The demands under the several heads are compared below with the figures for the previous year:—

	Fasli 1320.	Fasli 1321.
	RS.	RS.
Peshkash on permanently-settled estates ...	49,90,013	49,90,568
Shrotriem jodi	7,53,490	7,53,026
Ryotwar and miscellaneous	6,07,83,230	6,05,64,722
Total ...	6,65,26,733	6,63,08,316

The increase under "Peshkash on permanently-settled estates" and the decrease under "Ryotwar and miscellaneous" have been explained in the preceding paragraphs.

17. *Total demand under cesses (current).*—The current demand under cesses is as follows:—

	Fasli 1320.	Fasli 1321.
	RS.	RS.
(i) Land-cess on permanently-settled estates.	14,04,133	14,15,513
(ii) Land-cess on whole inam villages ...	3,83,338	3,82,271
(iii) Cess on ryotwar and miscellaneous ...	48,49,806	48,39,836
Total ...	66,37,277	66,37,620

The increase under item (i) was mainly in the districts of Ganjām, Kistna and Chittoor. In Ganjām it was due to the revision of demand under land-cess, in Kistna to increased irrigation and in Chittoor to the levy of land-cess on the rental of fasli 1320, which was an exceptionally favourable year. The decrease under item (iii) follows the decrease in the revenue.

18. *Demand and collection under land revenue and cesses (current).*—The current demand under land revenue and cesses was Rs. 7,29,45,936; Rs. 7,20,17,780 or 98·7 per cent. was collected within the fasli, and a sum of Rs. 311 was written off the accounts.

19. *Demand and collection of arrears.*—The total arrear demand under all heads was Rs. 14,41,464, Rs. 13,50,821 or 93·7 per cent. was collected within the fasli, and Rs. 23,132 or 1·6 per cent. was written off the accounts.

20. *Total balance of land revenue and cesses.*—The balance outstanding at the end of the fasli including both arrears and current was Rs. 9,95,356.

Including the balance under (1) the revenue from the proprietary estates village service and (2) the revenue from the Kurnool-Cuddapah canal, which are dealt with in the monthly demand, collection and balance statements of land revenue and cesses, the total balance on 1st July 1912 was Rs. 12,65,852. Up to the end of October 1912, Rs. 8,00,400 or 63·2 per cent. had been collected. Rupees 3,924 had been written off the accounts and Rs. 234 had been ascertained to be irrecoverable. The nett recoverable balance on 1st November 1912 was Rs. 4,61,294. Rupees 1,26,902 were collected in the month of November and steps have been taken to collect the remainder.

21. *Reconciliation of differences between the collections of land revenue and cesses as shown in the Jamabandi and the Accountant-General's statements and over-payments.*—Information on these points has not yet been received from 13 Collectors. The subject will be dealt with in a separate report.

22. *Distribution of collections between land revenue and cesses.*—Land revenue and cesses are not collected separately and no attempt is made to exhibit the collections separately under these heads in the village accounts. The total collections are distributed between land revenue and the several cesses in the Collector's office. The process consists of two stages, of which the first or the provisional distribution is effected by crediting to each head, month by month, such portion of the lump collections as will bear the same proportion to the demand under the head as the total collection bears to the total demand under all the heads. The second stage is the final adjustment which consists in correcting the provisional credits by transfer from one head to another, where necessary, after the entire demand for the year under all the heads has been collected or written off.

The statements of distribution for fasli 1321, received from Collectors show that, except in the eight districts of Ganjām, Nellore, Chingleput, Chittoor, South Arcot, Tanjore, Madura and Tinnevelly, the variations between the amounts due to the cesses in fasli 1321 and the amount actually credited were inconsiderable. The accounts of fasli 1317 remained unadjusted in one district, those of 1318 in three, those of 1319 in three, and those and of 1320 in ten.

23. *Charges debitable to land revenue.*—The charges of district administration including salaries, etc., of revenue inspectors but excluding those of village establishment were Rs. 56,14,350 or 7·6 per cent. of the land revenue and cesses realised, against 7·5 per cent. in the preceding fasli. The village service charges including proprietary estates during the fasli were Rs. 59,17,913. Including this sum which is met from Provincial funds, the total charges were Rs. 1,15,32,263 or 15·7 per cent. of the collections of land revenue and cesses.

24. *Processes under Act II of* 1864.—Statement No. 12 shows the particulars of the coercive processes issued for the realization of Government dues under Act II of 1864. The following abstract compares the number of processes of each kind issued during the year with the figures for the three preceding faslis :—

Coercive processes.	Fasli 1318.	Fasli 1319.	Fasli 1320.	Fasli 1321.
Demand notices	1,912,339	1,538,087	1,463,605	1,198,222
Distraint and attachment notices ..	198,325	184,884	164,313	157,710
Sale notices	113,680	84,728	85,651	89,190
Sales (number of defaulters)	2,600	3,564	2,747	3,491
Total ..	2,226,944	1,811,263	1,716,316	1,448,613

There has been a progressive decrease in recent years in the total number of processes issued and the number in the year under report shows a further decline.

25. *Demand notices.*—The instruction that these notices should only be issued when absolutely necessary has been kept in view. The number decreased in 15 districts, especially in the districts of Kistna, Nellore, Cuddapah, Anantapur, Bellary, Madras, South Arcot, Tanjore, Trichinopoly, Rāmnād and Tinnevelly. On the other hand there was an increase in the districts noted in the margin. The Collector of North Arcot has offered no explanation for the increase in his district. The Collector of Madura states that the increase in his district was due to unfavourable season.

Districts.	Fasli 1320.	Fasli 1321.	Increase.
North Arcot ..	305,953	311,322	5,369
Madura	19,460	30,936	11,476

26. *Distraint or attachment.*—The number of processes under this head was 157,710 in the year under report against 164,313 in fasli 1320 and 184,884 in fasli 1319. There was a decrease in 16 districts and a marked increase in Chingleput.

27. There was an increase in the percentage borne by the number of distraints and attachments to that of demand notices as compared with the previous two faslis. The number of defaulters whose immoveable property was attached in the year was 25,096 against 17,976 in fasli 1320. The large disproportion noticed in the Madura district in previous years between the number of defaulters whose personal property was distrained (612) and the number of those whose real property was attached (5064) is again noticeable and is due, as stated in previous reports to the large number of absentee pattadars in the area irrigated by the Periyar.

Faslis.	Percentage of attachment to the total number of demand notices.		
	Personal property.	Real property.	Total.
1319	10·80	1·23	12·03
1320	9·99	1·22	11·22
1321	11·07	2·09	13·16

28. *Sale notices.*—Out of 157,710 defaulters whose property was attached 68,520 or 43·45 per cent. paid the arrears before sale notices were issued. The percentage was 47·8 in fasli 1320, 54·1 in fasli 1319 and 42·7 in fasli 1318.

29. *Sales.*—The number of defaulters whose property was sold was more than in fasli 1320. The percentage of actual sales to sale notices was 3·91 against 3·2 in fasli 1320 and that of the number of defaulters whose property was actually sold to the

total number of pattas was 0·09 against 0·07 in the previous fasli. The subjoined statement compares the particulars of sales in fasli 1321 with the figures for the previous three faslis :—

	Personal property.				Real property.				Total.			
	Fasli 1318.	Fasli 1319.	Fasli 1320.	Fasli 1321.	Fasli 1318.	Fasli 1319.	Fasli 1320.	Fasli 1321.	Fasli 1318.	Fasli 1319.	Fasli 1320.	Fasli 1321.
1	2	3	4	5	6	7	8	9	10	11	12	13
Percentage of sales of property to—												
(1) The number of pattas ..	0·03	0·04	0·03	0·04	0·05	0·06	0·04	0·05	0·08	0.10	0·07	0·09
(2) The number of attachments.	0·46	0·91	0·80	1·09	8·19	9·70	8·42	8·16	1·30	1·90	1·67	2·21
(3) The number of sale notices.	Figures relating to sale notices do not distinguish between personal and real property.								2·28	4·2	3·2	3·91
Arrears at the beginning of the fasli under ryotwari and miscellaneous.	In lakhs of rupees.								10·25	9·41	11·71	9·99
Arrear balances at the end of the fasli.									1·05	0·73	0·21	0·32
Percentage of current collections to current demands.									98·4	97·7	98·5	99·03

Value of lands sold.—Immoveable property of the estimated value of Rs. 92,844 was sold for the recovery of arrears amounting to Rs. 36,088 and realized Rs. 60,679. The price fetched by lands sold to private individuals was on the average 4·8 times the assessment in the case of dry lands and 4·9 times the assessment in the case of wet lands. In fasli 1320 land of the estimated value of Rs. 72,782 was sold for arrears amounting to Rs. 28,270 and the average prices obtained were 5·2 times the assessment for dry lands and 5·8 times the assessment in the case of wet lands.

Extent of land sold.—The extent of land sold during the year was 10,158 acres under dry and 3,685 acres under wet against 8,333 acres under dry and 1,980 acres under wet in fasli 1320. The corresponding figures for fasli 1319 were 11,696 acres under dry and 1,895 acres under wet.

Lands bought in by Government.—The total area of lands bought in by Government for want of bidders was 4,617 acres of dry and 1,774 acres of wet against 3,075 acres of dry and 325 acres of wet in fasli 1320. More than three-fourths of the total area bought in was in Kistna, Cuddapah, Anantapur and Malabar.

30. *Process service Establishments.*—Statement No. 13 gives the particulars of processes served by the ordinary village agency or by special establishment and the fees realized during the year. The total number of processes served was 1,374,247 or 246,020 less than in fasli 1320. The number of processes served by the Special Agency (56,415) was also less than in the previous fasli (90,016).

The special establishment was employed in the same districts as in fasli 1320 except Nellore. Its cost was covered by the fees realized except in Gōdāvari, Kistna, South Arcot and Salem.

31. *Costs in civil suits.*—Rs. 17,877 were awarded to Government as costs during the year. Including Rs. 10,393, the revised opening balance, the total demand was Rs. 28,270, of which Rs. 15,893 were collected, Rs. 1,028 were written off the accounts and Rs. 70 were reported to be irrecoverable. The nett recoverable balance at the end of the year was Rs. 11,279, made up as follows :—

	Rs.
(1) Amount collected after the close of the fasli	3,869
(2) Amount remaining uncollected pending decision of appeals by Civil Courts	1,345
(3) Amount involved in execution proceedings	2,791
(4) Amount for not collecting which no reason is assigned ...	3,274
	11,279

32. *Interest on arrears of land revenue (Statement No. 14).*—The total demand on account of interest on arrears of land revenue, including the balance at the beginning of the year was Rs. 39,345, of which Rs. 15,062 were collected and Rs. 1,672 remitted,

leaving a balance of Rs. 22,611, against Rs. 17,974, the revised balance at the end of the previous fasli. More than half the arrears at the end of the fasli relates to Chittoor and Chingleput and was due mainly from the Karvetnagar and Kālahāsti estates. The only other districts in which the arrears under this head are large are Ganjām and Nellore. Steps are being taken for recovery. Rs. 1,142 out of Rs. 1,159 due under the Iskapalli project in Guntūr have been written off the accounts under the orders of the Board contained in Board's Proceedings No. 802, dated 29th February 1912.

33. *Sales of land under Standing Orders Nos.* 15, 16, 21 *and* 45.—Under the rules for the sale of occupancy rights in assessed waste lands (Standing Order No. 15), 11,126 acres, assessed at Rs. 10,629 were sold for Rs. 3,97,272; 142 acres of tank-bed lands assessed at Rs. 352 were sold for Rs. 26,394 under Standing Order No. 16; 382 acres of house-sites in towns were sold for Rs. 11,808 under Standing Order No. 21; 1,172 acres assessed at Rs. 1,165 which had been bought in by Government at sales for arrears of revenue were re-sold under Board's Standing Order No. 45 for Rs. 9,293.

34. *Sub-division of quit-rent.*—No applications were received during the year under Standing Order No. 58 for the sub-division of the joint liability of shareholders in whole inam villages or minor inams in any of the districts in the Presidency.

35. *Transfer of registration of holdings (Statement No.* 15).—Transfers of revenue registration fall under one or other of the following three heads:—

(1) Transfers applied for through Registration officers.
(2) Transfers applied for direct to Revenue officers.
(3) Transfers proposed by Revenue officers *suo motu.*

Under the first head 55,519 applications were received during the fasli against 56,120 in the previous fasli. The variation is small and calls for no remark.

The number of applications presented direct to Revenue officers was 55,980 and the number of cases which Revenue officers dealt with on their own initiative under paragraphs 5 and 7 of Board's Standing Order No. 31 was 13,676. No useful comparison can be effected between these figures and the corresponding ones of the previous year for want of uniformity in the preparation of statement No. 15. In some districts the cases dealt with by the special staff are included in the statement while in others they are not.

The total number of cases of all kinds to be dealt with in the fasli under report including the number pending disposal at its beginning was 139,681; of these 124,786 were disposed of during the fasli, leaving a balance of 14,895 pending at the close of the fasli, of which 2,150 have since been disposed of. The percentage of pendency was high in South Arcot.

36. *Ruined tanks.*—No tanks were handed over to private individuals for repair under Board's Standing Order No. 8.

37. *Settlement by Collectors.*—The rule laid down in paragraph 2 of Board's Standing Order No. 12 that the settlement of each taluk should be conducted by the Collector himself once in five years was complied with except as regards Gumsur-Udayagiri (Chokkapad khandam) in Ganjām, Razole and Yellavaram in Gōdāvari, Tiruvannāmalai and Wandiwash in North Arcot, Palni in Madura, Ambāsamudram and Sankaranayinārkōil in Tinnevelly and Dharmapuri in Salem. The Collectors of Ganjām, North Arcot, Tinnevelly and Salem intend to take up in the current year, the settlement of the taluks not settled by them. The Collectors of Gōdāvari and Madura are requested to adopt the same course in respect of the taluks not settled by them within five years.

38. *Loans and advances.*—The advances made under the Land Improvement Loans Act during fasli 1321 amounted to Rs. 3·08 lakhs and those under the Agriculturists' Loans Act to Rs. 3·68 lakhs. The aggregate amount advanced under both the Acts was thus Rs. 6·76 lakhs as against Rs. 6·04 lakhs in the preceding fasli. The increase which is small is the nett result of a decrease in seven districts and of an increase in the remaining districts. The increase is noticeable in the districts of Kurnool, Bellary, Chingleput, South Arcot, Chittoor, Tanjore and Tinnevelly, while the decrease was large in the districts of Salem and Trichinopoly. Where an increase occurred it was generally due to the unfavourable character of the season during the fasli under review.

39. *Objects to which loans were applied.*—In regard to the amounts advanced under the Land Improvement Loans Act, Rs. 1,63,791 or about 53 *per cent.* were for

sinking new wells, the bulk of the amount having been taken up by the ryots of Madura, Coimbatore, Tinnevelly, Chingleput and Trichinopoly; Rs. 50,903 were for repairing old wells, mostly in Coimbatore, Madura and Trichinopoly, and Rs. 38,250 for the reclamation of land, a large portion of which was expended in Bellary, Trichinopoly and Kistna. The loans, granted for other purposes amounted to Rs. 55,255. Under the Agriculturists' Loans Act, a sum of Rs. 3,09,380 or 84 *per cent.* was advanced for the purchase of cattle, chiefly in the districts of Chingleput, Madura, Trichinopoly, Anantapur, Bellary, Chittoor, Salem and North Arcot; Rs. 25,376 were lent for the purchase of fodder, over half being granted in Kurnool; Rs. 13,015 were lent for the purchase of seed-grain and Rs. 20,592 for other purposes.

40. *Recoveries.*—A sum of Rs. 3·41 lakhs under the Land Improvement Loans Act and of Rs. 3·58 lakhs under the Agriculturists' Loans Act became repayable during the fasli; of these sums Rs. 3·006 lakhs or 88 *per cent.* under the former Act and Rs. 3·059 lakhs or 85 *per cent.* under the latter were collected. Advances amounting to Rs. 24,412 under the former Act and Rs. 12,241 under the latter Act, were repaid by borrowers on account of loans the repayment of which had not fallen due, while sums amounting to Rs. 735 under the former Act and Rs. 83 under the latter Act were written off the accounts as irrecoverable.

41. *Coercive process.*—The aggregate amount of principal and interest repayable during the year under both the Acts was Rs 9,84,790, of which a sum of Rs. 3,01,642 or about 31 *per cent.* was collected without resort to coercive processes, and a sum of Rs. 5,33,909 or 54 *per cent.*, after the issue of demands; a sum of Rs. 22,132 was realized after attachment but before sale, a sum of Rs 111 by the sale of moveable property and a sum of Rs 833 by the sale of land. The balance outstanding at the end of the year was Rs 1,26,163, the arrears being heaviest in Anantapur (Rs. 29,766), Chingleput (Rs. 16,008), Madura (Rs. 14,408), Bellary (Rs. 13,266) and Ganjām (Rs. 12,596).

42. The following statement shows the amount of interest payable by the Local Government to the Government of India for fasli 1321:—

Acts.	Amount advanced to the Local Government by the Government of India.			Interest payable for the year by the Local Government to the Government of India at 3½ *per cent.* on the mean outstanding.
	Outstanding at the beginning of the year.	Outstanding at the close of the year.	Mean outstanding.	
	RS.	RS.	RS.	RS.
Land Improvement Loans Act	32,09,382	31,91,804	32,00,593	1,12,021
Agriculturists' Loans Act	13,75,242	14,25,369	14,00,306	49,010
Total ..	45,84,624	46,17,173	46,00,899	1,61,031

43. The subjoined statement shows the financial results of the operations under the Loans Acts:—

Items.	Land improvement Loans Act.	Agriculturists' Loans Act.	Total.
	RS.	RS.	RS.
1. Interest payable for fasli 1321 by the Local Government to the Government of India.	1,12,021	49,010	1,61,031
2. Interest collected during the year	1,62,847	88,098	2,50,945
3. Balance of interest accruing to the Local Government, *i.e.*, difference of items 1 and 2.	+ 50,826	+ 39,088	+ 89,914
4. Remissions of Principal	735	83	818
5. Nett result for 1911–1912	+ 50,091	+ 39,005	+ 89,096
6. Nett result for previous years 1906–07	+ 31,225	+ 13,867	+ 45,092
1907–08	+ 18,040	+ 9,044	+ 27,084
1908–09	+ 20,499	+ 12,242	+ 32,741

1910–11	+ 38,481	+ 37,368	+ 75,849
7. Expenditure on free grants in aid towards the construction of private protective works or on establishments for well-boring or other outlay incurred from current revenue in connection with Takkavi transactions.	12,812	15,368	* 28,180

* Represents the cost of special establishments entertained in certain districts and the cost of time devoted to loans work by the ordinary Land Revenue establishment at 3½ *per cent.* on the amount advanced during the year.

44. With the aid of loans under the Land Improvement Loans Act, 589 wells capable of irrigating 2,814 acres of land were constructed during the fasli at an aggregate cost of Rs. 1,29,574 and 310 wells designed to benefit 1,496 acres were repaired at a cost of Rs. 53,505; Rs. 19,418 were spent on the reclamation of 2,018 acres of land and Rs. 67,470 on other improvements benefiting about 2,452 acres of land. The Madura district shows the largest number of wells (176) constructed and repaired and it is followed by Coimbatore (147). Under the Agriculturists' Loans Act 5,216 head of cattle were purchased at an aggregate cost of Rs. 2,81,537, and 127 houses were rebuilt at a cost of Rs. 13,505. Seed-grain was purchased to the amount of Rs. 1,391 and Rs. 1,485 were expended on sugarcane mills. A sum of Rs. 9,680 was spent for other purposes.

* 45. *Survey advances.*—The advances made during the year under "Revenue Survey advances—Collectors" amounted to Rs. 83,539. Of this sum—

	Rs.
Kistna spent	22,041
Tanjore spent	20,100
Guntūr spent	9,309
South Canara spent	3,793
Cuddapah „	2,976
South Arcot „	2,953
Gōdāvari „	2,829
Coimbatore „	2,620
Kurnool „	2,582
Nellore „	2,279
Salem „	2,209

The total amount which had to be accounted for during the year was Rs. 3,78,297, of which a sum of Rs. 63,735 was credited to accounts leaving a balance of Rs. 3,14,562.

The sum which remained to the debit of "cost of survey marks—Collectors" was Rs. 28,466 and of this amount Rs. 25,083 was recovered during the year from the ryots or municipalities concerned.

Landholders' bills to the amount of Rs. 3,99,973 were received from survey officers during the year in the districts of Ganjām, Anantapur, Cuddapah, Nellore, Chingleput, North Arcot, Chittoor, Coimbatore, Trichinopoly, Madura, Rāmnād, Tinnevelly and the Nilgiris. The arrears outstanding at the beginning of the year being Rs. 3,18,854, the total amount recoverable during the year was Rs. 7,18,827. Of this, a sum of Rs. 5,16,336 was collected during the year, the balance outstanding being Rs. 2,02,491.

46. *Junior Civilians—Knowledge of vernaculars.*—The reports of the Collectors generally show that with a few exceptions, their Civilian Assistants have a fair knowledge of the vernaculars and are able to dispose of vernacular papers without abstracts.

47. *The relations between landlords and tenants in larger zamindaries.*—These relations were, with a few exceptions, fairly satisfactory. In some parts of the Ganjām district, their relations were still strained owing to a general desire on the part of the ryots to substitute money for grain rents. There has been much litigation in the Mandasa estate of the same district. The friction which existed between the Zamindar of Devarakōta in the Kistna district and his tenants is reported to have abated to a considerable extent. The management of the Pamur estate in the Nellore district continued to be unsatisfactory. In the Karvetnagar and Kālahāsti estates of the Chittoor district many summary suits were filed by the landlords and tenants and their relations were not altogether amicable. The Collector considers that the new proprietors are likely to feel a more abiding interest in their estates than the present mortgagees and to get on better with the ryots. The strained relations between the Zamindar of Udaiyārpālaiyam and his tenants in the Trichinopoly district has led to numerous proceedings under the Estates Land Act. In the Kannivādi zamindari in the Dindigul taluk of Madura, the tenants are reported to have strongly resented and obstructed the survey of their holdings and to have complained that their irrigation

* *Note.*—The figures in this paragraph relate to the official year 1911-12.

sources were not kept in efficient repair and that communal lands had been diverted from their legitimate use. There has been some friction between the zamindars and tenants in the Periyakulam taluk of the same district owing to irregularity in the issue of pattas and to the levy of enhanced charge for garden crops raised on dry lands with the aid of wells. In the Seithur zamindari of the Rāmnād district there was a dispute about forest rights, and in the Devakkōttai division there was a certain amount of friction between Chetties and their tenants.

48. *Growth of sub-letting in ryotwar tracts.*—Sub-letting is chiefly resorted to by those engaged in professions other than agriculture and by large landholders. It is reported to be on the increase in Ganjām, Gōdāvari, the delta taluks of Guntūr and North Arcot while in Tinnevelly sub-letting is described as "the general practice." In parts of Bellary, on the other hand, there appears to be a tendency on the part of landholders to take back land from tenants and cultivate it themselves owing to the tempting prices of food-grains and cotton.

49. *Effect of recent legislation on the people.*—In the year under report there was no legislation affecting the people generally. The Madras Estates Land Act, 1908, has, no doubt, largely increased the work of Revenue officers in some districts. Its provisions are becoming better known by the people and it appears to be working smoothly on the whole. The Limited Proprietors' Act, 1911, is said to be finding favour with the managers and mortagagees of estates in the Nellore district.

50. *Co-operative societies.*—During the year under report 376 societies were registered under the Co-operative Societies Act, namely, one Central, 16 Urban, 357 rural and 2 unions. The total number of societies established in 25 districts of the Presidency amounted to 972 at the end of the year 1911–12.

11. Rent of lankas	2,41,577	2,81,185	39,608	..
12. Quit-rent and groundrent	1,23,296	1,35,705	12,409	..
13. Other items	† 4,49,181	4,81,360	32,179	..
Total ..	87,24,543	90,59,970	4,07,314	71,887
Nett ..	..	..	3,35,427	..

* For fasli 1320, figures relating to "poramboke proper" and "unassessed waste" are not separately available. The returns for fasli 1321 relating to a few districts were not prepared according to G.O. No. 1681 Revenue, dated 6th June 1912 ; hence the revenue relating to poramboke alone in those districts are not separately available.

† Revised figure.

No. 9-A.—Statement showing the extent of poramboke cultivation, the revenue derived therefrom and that portion of it which is due to enhanced assessment in fasli 1321 (1911–1912).

District.	Total area cultivated.	Total assessment.	Portion of the area on which enhanced assessment was charged.	Enhanced assessment.	Average rate of enhanced charge per acre.	Remarks.

* Includes railway cess.

Note.—(1) Variations between the arrear demand shown in column 2 of this statement and the amount shown in column 12 of the corresponding statement for fasli 1320 are due to the following causes:—

(*a*) Imposition of assessment and cesses in cases not previously brought to account.
(*b*) Remission granted after the Jamabandi of the fasli.
(*c*) Rectification of errors.

(2) The current ryotwar demand shown in column 3 of this statement against Tanjore, Vizagapatam and Anantapur, differs from the amount shown in column 59 of statement No. 4. The variation in Tanjore is due to the inclusion of Rs. 13 collected for fasli 1319 under demand and collection of fasli 1321. The variation in Vizagapatam is due to the exclusion from this statement of assessment on resumed service inams. The Collector of Anantapur has not explained the variation in his district.

No. 10.—Statement showing the demand, collection and balance of land revenue and cesses, etc.—*cont.*

NOTE.—(1) The dry and wet extents given in this statement differ from those given in columns 27 and 29 of statement No. 3 against Kistna, Chingleput, North Arcot and Anjengo. In Kistna, the variation is due to the inclusion of the extent relating to Rustambada village of Narasapur taluk excluded from statement No. 3 owing to its non-settlement by the time it was sent; in Chingleput, it is due to the exclusion of the extent for rented villages from this statement; in North Arcot, it is due to the exclusion of the extent relating to Arni Jaghir and Kangundi Zamindari from this statement as they are not in the ryotwar villages of the district; and in Anjengo, it is due to the fact that garden and occupied dry lands are shown as dry in this statement.

(2) The amount of assessment in column 93 differs from that given in column 32 of statement No. 3 in Kistna, Chingleput, North Arcot and Malabar. The variation in the first three districts is due to the causes mentioned in note (1). The Collector of Malabar has not explained the variation.

TABLE C

QUINQUENNIAL.

INCIDENCE of the Land Revenue on area and population in each district in the Madras Presidency in the agricultural year ending 30th June 1909.

District.	Total area by survey less feudatories table A_1 (1) *minus* table A_1 (2).	Deduct.		Balance (*i.e.*) fully-assessed area for which returns are available.		Total revenue from land (exclusive of cesses) of district (column 2).	Population of district (column 2).
		Area not fully assessed.	Area for which returns so far as required for this table are not available.	Total.	Cultivated.

* 0·18 acre.

EXTRACTS FROM THE DISTRICT REPORTS.

1. GANJAM.

(N. MACMICHAEL, Esq., I.C.S., *Acting Collector.*)

7. (*a*) RYOTWAR SETTLEMENT.—The villages for settlement were 1,261 against 1,274 in the previous year; the decrease in the number of villages is explained in the margin.

Number of villages as per last year	1,274
Deduct number of villages which have been clubbed with other villages at the re-settlement of the Berhampur taluk	14
	1,260
Add Pithala village treated as separate Government ryotwar village at re-settlement of Berhampur taluk	1
	1,261

17. COERCIVE PROCESSES AND SALES FOR ARREARS OF REVENUE.—In the number of demand, distraint and sale notices issued there was an increase of 2,967, 776 and 566 respectively. Prompt action in the issue of demand notices had to be taken as the ryots did not voluntarily pay the kists owing to loss of crop during the year. This accounts for the increase of demand notices. Though distraint had to be made in the case of 1,029 defaulters for an arrear of Rs. 32,943, no personal property was sold during the year. Real property of 5 defaulters was sold for an arrear of Rs. 168, the extent involved being 31 acres dry and 2 acres wet. Of this area, the wet land belongs to Goomsur taluk and the dry land belongs to Goomsur and Chicacole taluks. No lands were bought in by Government for want of bidders.

26. VERNACULAR CORRESPONDENCE IN THE ASSISTANT AND SUB-COLLECTOR OFFICES.—Messrs. Bhore, Duff and Todd knew Telugu and Uriya well. Mr. Duff knew Khond sufficiently well not to require an interpreter. Messrs. Graham and Rutherford also know Telugu and Uriya well. Vernacular petitions presented in person are read over to them and orders are usually passed then and there.

32. (*a*) RELATION OF LANDLORD AND TENANT IN LARGE ZAMINDARIS.—There is a general desire on the part of the ryots to substitute money for grain rents. In consequence of this the relations between the ryots and landholders are somewhat strained in some parts of the district. In the Mandasa estate the relations between the Zamindar and the ryots are not satisfactory and there has been much litigation.

(*b*) SELLING OF OCCUPANCY RIGHT TO NON-CULTIVATING CLASSES.—No tendency has been noticed on the part of the ryots to sell their occupancy rights, but it is reported that ryots in the Chicacole division mortgage their lands to meet their requirements.

33. GROWTH OF SUBLETTING IN RYOTWAR TRACTS.—This appears to be on the increase.

34. EFFECT OF RECENT LEGISLATION.—Act I of 1908 is being freely used all over the district with the result that it has considerably added to the work of the divisional officers. It has been welcomed more by the ryots than by the zamindars. The Land Encroachment Act is working smoothly.

36. AGRICULTURAL WAGES.—Wages to agricultural labourers are generally paid in kind. There has been no material change either in the condition of agricultural labourers or in the system of paying wages to them during the last three years. Grain wages are preferred to wages in cash by the labourers and the system of paying in kind has not been superseded by the system of wages in cash.

---

2. VIZAGAPATAM.

(J. R. HUGGINS, Esq., I.C.S., *Acting Collector.*)

17. PROCESSES UNDER ACT II OF 1864.—Jamabandi statement No. 8-A gives details of the coercive processes employed in the realization of the Government dues under Act II of 1864 The following table compares the processes of each kind issued during the fasli with those in the previous fasli :—

	Fasli 1320.	Fasli 1321.
Demand notices	4,450	4,460
Distraint or attachment notices	283	315

The variations are slight and call for no remarks.

18. SALE NOTICES.—The number of sale notices issued during the year was 111 against 74 in the previous year. The increase was due to the unfavourable character of the season.

27. VERNACULAR CORRESPONDENCE IN THE ASSISTANT AND HEAD ASSISTANT COLLECTORS' OFFICES.—Messrs. P. C. Dutt, F. W. R. Robertson, R. F. B. L. Guppy, J. I. Smith and E. Graham, worked in the district during the year. All of them disposed of their office work in a competent manner and have a fair knowledge of the vernaculars.

35. RELATIONS BETWEEN LANDLORD AND TENANT.—The relations between land-holders and ryots were on the whole fairly satisfactory.

36. GROWTH OF SUBLETTING IN RYOTWAR TRACTS.—Subletting is generally resorted to by non-agricultural pattadars. The practice is not on the increase.

38. EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—During the year there was no special legislation that affected the people generally. The Madras Land Encroachment Act and the Estates Land Act are better understood by the people and are now working more smoothly.

AGRICULTURAL WAGES.—Farm servants in the district are generally paid their wages in kind and that only the occasional labourers employed at the time of transplantation and harvest are paid their wages in cash. The system of paying wages in kind still finds favour with farmers, being more convenient than the system of paying wages in cash.

3. GODAVARI.

(E. B. ELWIN, Esq., I.C.S., *Collector.*)

3. The river Godavari began to rise on the 7th June 1911 and the highest flood was 12·5 feet over the crest of the anikat on the 27th September 1911. This was higher than that of the previous year which was 11·1 feet on 7th July 1910 and was about 4·5 feet below the maximum flood level of 17 feet over the anikat crest on 2nd October 1891.

19. COERCIVE PROCESS.—The processes of all kinds issued numbered 275 against 231 of the previous year. The attachments and sales of moveable and immoveable property under Act II of 1864 during the current and previous faslis are compared below.

Fasli.	Moveable property.						Immoveable property.						
	Attached.			Sold.			Attached.			Sold.			
	Number of cases.	Amount of arrear.	Value of property distrained.	Number of cases.	Amount of arrear.	Value of property distrained.	Number of cases.	Amount of arrear.	Value of property distrained.	Number of cases.	Amount of arrear.	Value of property distrained.	Amount realized by sale.
		Rs.	Rs.		Rs.	Rs.							Rs.
1320	25	3,589	5,282	2	2,644	2,649	..	..	..	..	..	..	* 2,651
1321	20	624	734	3	51	360	..	.	..	..	..	..	* 247

* Represents the amount realized by sale of moveable property.

There was no land bought in by Government as there were no land sales for arrears of revenue during the fasli. The number of processes issued during the year was 275 against 231 of the previous year. The increase was contributed chiefly by the Tahsildar of Ramachandrapur whose attention has been drawn to the necessity of issuing notices only in cases where it is absolutely necessary.

27. VERNACULAR KNOWLEDGE OF CIVILIAN ASSISTANTS.—Mr. T. E. Moir was in charge of Rajahmundry Division from 15th June 1911 to 4th July 1911 and Mr. E. P. Walsh from 5th August 1911 to 4th June 1912. Mr. Walsh has a sufficient colloquial knowledge of Telugu. Mr. E. A. Harvey was in charge of Bhadrachalam Division from 13th October 1911 to the end of the fasli. Mr. F. G. Butler was Assistant to the Collector from 4th January 1912 to the end of the fasli. Mr. Harvey passed the higher standard in the Telugu in July 1911, and has an adequate knowledge of the language, while Mr. Butler has not passed any tests yet, but has acquired some knowledge of Telugu.

33. The additional information called for in Board's Proceedings No. 321, dated 24th August 1904, is dealt with below :—

(1) THE RELATIONS BETWEEN THE LANDLORDS AND TENANTS IN LARGE ZAMINDARI AREAS.—In this district the large zamindaris are Pittapur, Kottam, Bhadrachelam and Gopalapur. The relations existing between the landlords and tenants continued to be satisfactory on the whole. The Proprietor of Bhadrachelam never goes near his estate and lives in the plains, but has a fairly efficient manager. The Proprietrix of Kottam takes considerable interest in her tenants. Landlords do not generally resort to coercive processes, and most of the suits filed by them are for the recovery of arrears of rent.

(2) GROWTH OF SUBLETTING IN RYOTWAR TRACTS.—The growth of subletting is steady and is resorted to by non-agricultural landowners such as Brahmins and Vaisyas, absentee landowners and landowners engaged in professions other than agriculture, whose interest in the land is confined to leasing it out to suitable tenants. The agricultural classes, viz., Kshatriyas and Sudras cultivate their own lands.

(3) THE EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—The year under report was not eventful for any legislation

AGRICULTURAL WAGES.—Agricultural wages are divided into two kinds (1) wages in kind and (2) wages in money, while labourers are divided into two classes, viz., permanent farm labourers and casual daily labourers. In rural tracts the permanent farm labourers are generally paid in kind and get all sorts of perquisites, and the casual labourers are paid in money. In towns and in some villages adjoining towns the practice obtaining is to pay wages in money only.

4. KISTNA.

(H. L. BRAIDWOOD, Esq., I.C.S., *Collector.*)

15. COERCIVE PROCESSES.—The number of processes of each kind issued during the fasli is shown below :—

—	Fasli 1320.	Fasli 1321.	Difference.
1. Demand notices	51,475	16,035	— 35,440
2. Attachment notices	6,684	6,184	— 500
3. Sale notices	3,409	4,638	+ 1,229

The decrease in items 1 and 2 was due to more care being taken to collect the revenue without unnecessarily issuing processes. The increase under item 3 is 1,229 and this mostly relates to Kaikalur taluk and was due to the prompt steps taken for the realization of arrears of non-resident cultivators. An extent of 4,222 acres was sold in 213 cases for an arrear of Rs. 9,765. Of this extent 3,035 acres were bought in by Government for want of bidders and 1,187 acres were purchased by others.

24. THE RELATIONS BETWEEN LANDLORDS AND TENANTS.—The relations are satisfactory in general. The friction between the Zamindar of Devarakota estate and his tenants seems to have abated to a considerable extent.

26. THE EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—There was no special legislation during the year that affected the people generally. The Estates Land Act of 1908 is working satisfactorily.

27. GROWTH OF SUBLETTING IN RYOTWAR TRACTS.—The subletting is chiefly resorted to by non-agriculturists such as pleaders, merchants and by the owners of large landed property but is not on the increase.

28. AGRICULTURAL WAGES.—Payment of wages in kind is gradually disappearing though it has not completely died out.

29. VERNACULAR KNOWLEDGE OF CIVILIAN ASSISTANTS.—All the Sub-Collectors who worked in the district during the fasli had an adequate knowledge of Telugu. The Assistant Collector, Mr. Hood, has passed the lower standard in Telugu and is appearing for the next higher standard examination.

5. GUNTUR.

(J. N. ROY, Esq., I.C.S., *Ag. Collector.*)

23. PARTICULARS OF COERCIVE PROCESSES EMPLOYED IN THE REALIZATION OF GOVERNMENT DEMAND UNDER ACT II OF 1864.—The subjoined abstract shows the number of processes of each kind issued during the fasli :—

	Fasli 1320.	Fasli 1321.
Demand notices	55,566	54,066
Attachment notices	4,121	3,788
Sale notices	132	110
Sales	37	58

There was a decrease in the number of coercive processes issued, which was due to the prompt payment of land revenue dues.

23-A. SALES.—In the year under report sale notices were issued in 110 cases. In only 58 cases was the distrained property brought to sale.

24. VALUE OF THE LANDS, ETC., SOLD.—Moveable property of the estimated value of Rs. 621-12-4, and immoveable property of the value of Rs. 3,128-4-0 were sold for the recovery of the arrears of Rs. 596-0-9 and Rs. 850-3-4, the amount thereby realized being Rs. 728-1-2 and Rs. 2,056-9-0 respectively. The sales fetched on the average twice the assessment in the case of dry lands and three times in the case of wet lands.

25. EXTENT OF LANDS SOLD.—The actual extent of lands sold for arrears was 484·50 acres against 393·32 acres of the previous year. An extent of 252·29 acres was bought in by Government for a sum of Rs. 3-2-0.

35. VERNACULAR KNOWLEDGE OF CIVILIANS.—Messrs. V. P. Rao, Gharpurey and Fotheringam know Telugu and can talk fairly fluently.

36. THE RELATION BETWEEN LANDLORDS AND TENANTS IN THE LARGER ZAMINDARIS.—There are no Zamindari estates in the district, except one taluk of the Venkatagiri estate situated in the Ongole division. There were 385 suits and 47 miscellaneous applications under the Estates Land Act against 450 suits and 4 miscellaneous applications of last year. I have received no complaints against the Zamindar and the relation between him and his tenants continues to be friendly.

37. GROWTH OF SUBLETTING IN RYOTWAR VILLAGES.—The practice of subletting seems to be on the increase in the deltaic taluks. It does not prevail to the same extent in the upland taluks.

39. EFFECTS OF RECENT LEGISLATION.—Act 3 of 1905 is working satisfactorily. There has been no other recent legislation, which calls for any remarks on my part.

AGRICULTURAL WAGES.—Wages are mostly paid in money, though the system of payment in kind is still in vogue in the uplands.

6. NELLORE.

(Khan Bahadur S. M. V. OOSMAN SAHIB, Esq., B.A., B.L., M.R.S.A., *Ag. Collector.*)

5. NUMBER OF VILLAGES.—The whole inam village of Pentapad of Gudur taluk having been resumed, the number of ryotwar villages comes to 509 against 508 in the previous year.

20. COERCIVE PROCESSES.—The number of demand notices followed by sales was 281 against 801 in the previous year. The fall is due to easy collection on account of high prices at harvests.

Fasli.	Number of processes.	Number of process served by		Value of property sold.

30. THE RELATION BETWEEN LANDLORD AND TENANT IN THE LARGER ZAMINDARIS.—I have very little to add to the remarks contained in the report of the previous year. The management of the Venkatagiri estate continues to be business like. The proprietor, I learn, has become more sympathetic now and has begun to settle the disputes with his tenants amicably and out of Court. The management of the Pamur estate by the Raja Narasingirji Gayangarji continues to be unsatisfactory. It is too early to comment on the attitude of the holders of the minor estates detached from this estate by court sale towards their tenants. They are trying to win over the tenants to their side.

31. GROWTH OF SUBLETTING IN RYOTWAR VILLAGES.—The subletting is not on the increase. The landholders of the agricultural classes continue to cultivate their lands, but the more extensive land owners among them have of necessity to sublet portions of their holdings. This tendency is perceptible in the deltaic tracts of Nellore and Kovvur taluks where tenants are not wanting. Non-agricultural landholders continue to sublet their holdings where tenants are available. Even among them, and especially in upland taluks, many are forced to turn to cultivation for want of tenants.

33. THE EFFECT OF THE RECENT LEGISLATION ON THE PEOPLE.—The provisions of the Madras Estates Land Act, and the Land Encroachment Act, which alone of the recent Acts affect the masses, are being understood. The Limited Proprietors' Act of 1911 finds favour with Managers and Mortgagees of Estates. With the recent legislation of a political character such as the Seditious Meetings Act, the Explosives Act and the Press Act the masses in the district are not concerned. No prosecutions were instituted under the Press Act in the year under report.

34. VERNACULAR LANGUAGE OF CIVILIANS.—The only Civilian division in this district is Gudūr and it was in charge of a Deputy Collector throughout the year.

AGRICULTURAL WAGES.—The system of payment of agricultural wages has not undergone any material change. In rural areas wages are invariably paid in kind but in towns and in their vicinity there is a tendency to substitute cash payments at three to four annas per diem. The casual labourers in rural areas get $1\frac{3}{4}$ seers (a manika) to 2 seers a day, but at harvests when the demand for labour is great, the wages are sometimes doubled to a muntha ($3\frac{1}{2}$ seers). In the deltaic tracts of Nellore and Kovvur taluks and the adjoining Kavali and Gudur taluks breakfast is also given in addition to grain wages. The permanent farm servants continue to be fed and clothed at the expense of their masters with an addition of an annual payment in cash in the case of grazing boys and in kind in the case of farm labourers supplemented by gift of grain at the harvest. The rates of these annual wages have not increased. The village carpenters and blacksmiths and cobblers continue to get their meras in kind at a varying rate of 37 to 56 seers of grain per plough. They are also allowed doles of grain at harvest.

7. CUDDAPAH.

(J. F. BRYANT, Esq., M.A. I.C.S., *Acting Collector.*)

13. PROCESSES UNDER ACT II OF 1864.—Statement No. 8 shows the particulars of coercive processes issued. The following abstract compares the number of processes of each kind issued during the years 1320 and 1321.

	Fasli. 1320	Fasli. 1321
Demand notices	48,462	43,835
Distraint and attachment notices	5,229	5,414
Sale notices	3,083	2,161
Sales (number of defaulters)	454	458

The demand and sale notices decreased. Distraint notices increased chiefly in Cuddapah and Pullampet taluks. The increase in the number of sales was inappreciable.

Out of 5,414 defaulters whose property was attached, 3,253 or 60 per cent. paid the arrears before sale notices were issued. The percentage was 41 in 1,320. The number of defaulters whose property was sold was 63 against 115 in the preceding year, but the number whose real property was sold increased from 339 to 395. The bulk of the increase was in Royachoti where the number of sales increased from 64 to 160. In this taluk, sales of lands have to be resorted to in an unfavourable year.

Immoveable property of the estimated value of Rs. 10,864 was sold for the recovery of arrears amounting to Rs. 3,555 against Rs. 5,286 and Rs. 2,063, respectively, in the previous year. Dry lands purchased by private individuals fetched on an average 14 annas per acre and wet lands Rs. 16 an acre against Rs. 1-4-0, and Rs. 6-10-0, respectively, in fasli 1320. The extent of land sold was 2,203 acres dry and 183 acres wet against 1,608 acres dry and 421 acres wet in the preceding fasli. Out of 2,203 acres of dry and 183 acres of wet land sold 726 acres of dry and 55 acres of wet land were purchased by Government owing to want of bidders. The greater part of the area so purchased relates to the taluk of Royachoti where there is a large area of poor land for which there is no demand. No special agency was employed for the service of processes. Of the lands sold for arrears of revenue and bought in by Government in the year and in the previous years 132 acres were resold and fetched Rs. 68.

18. VERNACULAR KNOWLEDGE OF CIVILIAN DIVISIONAL OFFICERS.—There was no Civilian Divisional officer in this district during the year.

19. RELATIONS BETWEEN LANDLORDS AND TENANTS.—Call for no special remarks.

20. SUBLETTING.—The practice is not on the increase.

21. EFFECT OF RECENT LEGISLATION.—The Estates Land Act is rarely applied in this district. The Land Encroachment Act is being worked without great hardship. The rules relating to "Irregular Irrigation" are being applied with moderation. The re-settlement has resulted in decrease of wet assessment in this district. The special concessions granted in respect of lands under precarious sources have also benefited the ryots.

AGRICULTURAL WAGES.—In parts of the district, there has been in recent years a tendency to substitute money for grain wages. The system most commonly in use, however, is that of paying wages in grain, which has not been supplanted by the system of money wages to any appreciable extent. Where wages are paid in cash, the amount is so fixed as not to cause loss to the labourers.

---

8. ANANTAPUR.

(P. S. P. RICE, Esq., I.C.S., *Collector.*)

17. VERNACULAR CORRESPONDENCE IN THE SUB-COLLECTOR'S OFFICE.—Mr. H. T. Reilly who was in charge of the Penukonda division during the major portion of the year was well acquainted with Telugu, and Mr. Wells, his successor, also knows Telugu and Telugu petitions are being read aloud to him. The correspondence to and from the talulk offices continued to be carried on in English.

23. RELATION OF LANDLORD AND TENANT IN THE LARGER ZAMINDARIS.—There are no such zamindaris in this district.

24. THE GROWTH OF SUB-LETTING IN RYOTWAR TRACTS.—This practice is not on the increase in this district.

25. EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—No enactment passed during the year had any special effect on the people of the district.

AGRICULTURAL WAGES.—There has been no material change in the system in Fasli 1321.

---

9. BELLARY.

(J. H. ROBERTSON, Esq., I.C.S., *Collector.*)

11. COERCIVE PROCESSES.—Enclosure A to statement No. 8 exhibits particulars of processes issued. There was a decrease in the number of defaulters whose personal properties were attached and sold. The number of defaulters whose real property had to be sold also fell from 138 to 81 in the fasli. This was due to the fact that owing to the exceptionally favourable character of the season during the previous year, the bulk of the revenue due was easily and readily paid.

20. EXTENT TO WHICH ASSISTANT AND SUB-COLLECTORS PASSED ORDERS ON ENGLISH ABSTRACTS PREPARED BY CLERKS.—The Civilian's division was mostly in charge of Mr. T. J. Tasker. Mr. G. W. Wells was in charge of the head-quarters division for some time. Mr. Tasker's knowledge of vernaculars was reported in my report D. Dis. No. 3423, dated 29th August 1912, in reply to Board's Reference (Land Revenue), No. 1488-Gt./12-1, dated 29th July 1912.

22. RELATIONS OF LANDLORD AND TENANT.—There are no zamindaris in this district. The relations between landlords and tenants in whole inam villages were quite harmonious except that the ryots of shrotriem Kodihalli, Harpanahalli taluk, complained to the Revenue officers that the shrotriemdar has not been respecting their rights and allowing them to enjoy their lands according to well-established usage. They want their lands to be surveyed. The matter is awaiting the organization of a party for surveying shrotriem villages generally.

23. GROWTH OF SUBLETTING IN RYOTWAR VILLAGES.—There was no noticeable increase in subletting. The classes among whom this practice has been prevalent are Brahman land-owners, public servants, lawyers and traders. The Divisional Officers of Adōni and Bellary report that there was no perceptible growth of subletting as Brahman and merchant classes who generally sublet have of late been resuming possession of their lands being tempted by the rise in the price of food-grains and cotton. But where the system still continues the rentals have risen high owing to competition among tenants.

26. EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—There was no special legislature during the year except the abolition of the proprietary estates village service cess with effect from 1st April 1912.

AGRICULTURAL WAGES.—In the Hospet division, the system of paying wages in cash has become more general owing to the high prices of grain and the system of payment in kind is rare. In the Bellary division comprising Bellary and Sirnguppa taluks, payment in kind continues to be in vogue in all rural tracts and payment in cash obtains only in the towns of Bellary and Siruguppa, the chief centres of trade and in a few big villages. In almost the whole of Adōni division, except in Adōni town, agricultural labourers are paid in kind. In a few village around Adōni wages for cotton-picking alone are paid in cash. In the newly formed Rayadrug division which comprises Rayadrug and Kudligi taluks, wages are paid in cash in the towns and some big villages and in kind in the remaining parts. In all cases where wages are paid in kind the quantity paid depends on the market price of the grain distributed and is fixed on the basis of cash wages.

10. KURNOOL.

(E. S. LLOYD, Esq., I.C.S., *Collector.*)

26. PROCESSES UNDER ACT II OF 1864.—Statement 8 gives particulars of the coercive processes issued for the realization of the Government dues under Act II of 1864.

The following abstract compares the number of processes of each kind issued during the year with the two preceding years:—

Coercive processes.	Fasli 1319.	Fasli 1320.	Fasli 1321.
Demand notices	2,211	1,976	1,440
Distraint and attachment notices	269	240	282
Sale notices	138	133	116
Sales	57	57	35
Total ..	2,675	2,406	1,873

Nearly half the demand notices were issued in the taluk of Nandyal. The attention of this Tahsildar will be drawn to the necessity of issuing demand notices only when attachment should immediately follow.

37. COERCIVE PROCESSES.—The total amount of principal and interest payable during the year under the two Acts was Rs. 50,670-8-9, of which Rs. 20,613-4-5 were collected without resorting to coercive processes and Rs. 31,297-15-6 after issue of demands. Rs. 148-14-5 were realized after attachment but before sale. The balance outstanding at the end of the year was Rs. 830-13-11.

42. JUNIOR CIVILIANS' KNOWLEDGE OF VERNACULARS.—No junior Civilian Assistant worked in the district during the year under report.

43. RELATION BETWEEN LANDLORD AND TENANT.—There is no tension between the landlord and the tenants.

44. GROWTH OF SUBLETTING IN RYOTWAR VILLAGES.—In this district subletting as usual is chiefly resorted to by the non-agricultural classes, such as Brahmans, Komatis, traders and absentee landowners. No noticeable variation as compared with the previous years is apparent.

46. THE EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—There was no special legislation during the year that affected the people in general. During the year under report five rural societies have been registered under the Co-operative Societies Act in addition to fourteen societies already existed.

47. AGRICULTURAL WAGES.—The most common system of paying wages to agricultural labourers is still in kind, and it is not yet replaced by the payment in coin except in some places near towns where in consequence of the high prices of grain there is a tendency to pay in money.

11. MADRAS.

(F. HANNYNGTON, Esq., I.C.S., *Acting Collector.*)

7. COERCIVE PROCESSES AND SALES FOR ARREARS OF REVENUE.—The number of distraint warrants issued was 25,419 against 28,714 in the previous fasli. Personal property was distrained in 71 cases for arrears amounting to Rs. 1,007 as against 11 cases for arrears of Rs. 844 in the previous fasli. Distrained property was actually sold in two cases for an arrear of Rs. 23. Lands were attached in 13 cases against 26 in the previous fasli, but in all these cases except one in which the property was brought to sale after the close of the fasli, the arrears due were paid before the properties were brought to sale.

12. EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—There has not been during the fasli under report any important legislation affecting the population of this district.

12. CHINGLEPUT.

(C. G. TODHUNTER, Esq., I.C.S., *Collector.*)

7. RYOTWAR SETTLEMENT.—There were 1,479 ryotwar villages in fasli 1320. Certain minor inams in zamin Adyar and Mambalam measuring about 99 acres were resumed and surveyed and settled as two separate villages. The total number of ryotwar villages for fasli 1321 numbered 1,481.

18. COERCIVE PROCESSES.—The following abstract compares the processes issued during the year under report with those of the previous year :—

	Fasli 1321.	Fasli 1320.
(1) Demand notices	62,044	61,032
(2) Distraint and attachment notices	41,713	30,473
(3) Sale notices	41,030	30,380
(4) Sales	360	114

The increase in the number of processes is contributed chiefly by the Ponneri, Tiruvallur and Chingleput taluks. The ryots in these taluks are generally poor and a considerable number of them are absentee pattadars.

29. JUNIOR CIVILIANS' KNOWLEDGE OF VERNACULARS.—Mr. G. H. B. Jackson and Mr. F. W. Stewart have a working knowledge of Tamil. Mr. Stewart has not yet passed in Telugu, but has made fair progress with it.

30. THE RELATIONS BETWEEN LANDLORDS AND TENANTS IN LARGER ZAMINDARIS.—There has been no material change in the relations between landlords and tenants during the year under report. The relations of the people with the Government have been cordial. Under the Madras Land Estates Act 1 of 1908, 927 suits were instituted during the year under report against 1,208 in the previous year. Several applications have been made to enforce repairs of tanks by landlords, but none of the enquiries instituted has yet resulted in anything practical.

AGRICULTURAL WAGES.—There has been no material change in the rates of wages paid to padials or farm servants who are paid in kind. Their wages vary from 35 to 40 measures of paddy per month with meals or about 50 measures without meals. Casual labourers employed for ploughing, transplanting, etc., are paid 2 annas a day with one meal or 3 annas a day without meals. The condition of the labouring classes is good in this district as they get employment and high wages in Madras whenever agricultural operations are slack.

---

13. CHITTOOR.

(A. Y. G. CAMPBELL, Esq., C.I.E., I.C.S., *Acting Collector.*)

8. *Coercive processes.*—The figures relating to the processes issued during the fasli are compared below with those relating to the preceding fasli :—

	Fasli 1320.	Fasli 1321.	Increase or decrease.
1. Number of demand notices issued	47,705	49,166	+ 1,461
2. Number of attachment notices	1,629	1,026	— 603
3 Number of sale notices	589	507	— 82

There was an increase of 1,461 demand notices issued, while there was slight decrease in the other two items. This is due to the adverse character of the season and to the growing tendency on the part of the ryots to postpone payment till demands are shown to them.

The issue of processes was limited as far as possible to cases where without them, collection was considered to be difficult. The particulars showing the extent to which sales were actually resorted to during the fasli are compared below with those of the previous fasli ; a large number of these cases relate to Madanapalle taluk :—

Particulars.	Personal or real.	Fasli 1321.	Fasli 1320.	Difference.
1. Number of defaulters whose property was sold	Personal	20	39	— 19
	Real.	43	13	+ 30
2. Do. Amount of arrears for which property was sold	Personal	668	103	+ 565
	Real.	111	77	+ 34
3. Do. Amount realised by sale of property	Personal	538	109	+ 429
	Real.	62	49	+ 13
		ACS.	ACS.	ACS.
4. Do. Extent in acres of land sold and purchased by others.	..	61·48	42·48	+ 19
5. Do. Extent of lands bought in by Government.. ..	..	134·33	65·16	+ 69·17

13. KNOWLEDGE OF VERNACULARS OF CIVILIANS.—Mr. Souter, Acting Sub-Collector, Madanapalle, reports that he is unable to dispose of vernacular correspondence himself. Mr. A. G. Leach who was acting Sub-Collector at Chandragiri in fasli 1321 reports that when petitions in vernacular are presented in person the petitioners state what they want in person and orders are passed thereon. As regards other petitions he glanced at them and occasionally passed orders thereon but generally he was sending petitions to office for reference. He can read both Tamil and Telugu. The Assistant Collector Mr. Bles is able to translate Telugu to English and *vice versa*.

17. RELATIONS BETWEEN LANDLORDS AND TENANTS IN ZAMINDARIS.—That these are not altogether amicable may be seen from the number of summary suits filed by the landlords and tenants, especially in the Kalahasti and Karvetnagar Estates. They are not likely to be improved until the desintegration of these two estates is complete. The new proprietors will feel a more abiding interest in their Estates than the present mortgagees and may find it worthwhile to get on better terms with their ryots. During the year under report many villages of Kalahasti Estate have been sold in public auction by the Civil Courts and applications have been received from the purchasers for the apportionment of peshkash.

18. GROWTH OF SUB-LETTING IN RYOTWAR TRACTS.—There has been no noticeable change in this direction.

19. ACT III OF 1905 (LAND ENCROACHMENT ACT).—The provisions of the Act are enforced whenever possible and as yet there has been only one suit against eviction; it has been pending on the District Munsif's Court, Chittoor, from the last year. There was another suit in the District Munsif's Court of Sholinghur, and it was withdrawn by the party after he was told that the portion encroached on would be assigned to him.

20. ACT I OF 1908 ESTATES LAND ACT.—My predecessor already reported in his letter Reference on current number 281, Periodical, dated 17th September 1912, to the Secretary to the Commissioner of Land Revenue that there have been no special features calling for remarks on the effect of the Act on the relation between landlords and tenants.

21. AGRICULTURAL WAGES.—A regular census of agricultural wages was taken last year and the results have been communicated to the Board. As no changes of any importance appear to have taken place since then I have no special remarks to offer on this matter in the present report on the rates of wages. In ryotwar tracts the old system of paying agricultural labourers in kind has not been superseded by money payments except in towns and in unfavourable seasons when employees of labour have no grain to spare, while in the zamindari tracts of this district it is reported that recently payment in money has been more common than payments in kind especially in Karvetnagar and in Punganur zamindaris.

22. The delay in the submission of this report is regreted The jamabandi returns due from the taluks were received late and as they were found defective they had to be returned with check slip for the rectification of errors and for the supply of omissions. The last revised return was received from the Tahsildar of Chittoor on the 14th October and the revised demand, collection and balance was received from the Deputy Tahsildar, Punganur, on the 22nd October 1912 and I am taking steps to minimise such delays.

---

14. NORTH ARCOT.

(N. E. MARJORIBANKS, Esq., I.C.S., *Collector*.)

3. RYOTWAR VILLAGES.—The number of ryotwar villages in the district has increased by one, which increase is due to the fact that the inam settlement of Kondapalliem village of Wallajah taluk included among inam villages in the last year's report, has been ordered to be kept in abeyance pending disposal of the civil suit regarding the reversionary right of Government to the village. The number of ryotwar villages in the district is thus 1,731.

9. The figures relating to the processes issued during the year are compared below with those relating to the preceding fasli:—

Number of ryotwar pattadārs—247,957.

Items.	Fasli 1320.	Fasli 1321.	Increase or decrease.
Number of demand notices issued	3,05,953	311,322	+ 5,369
,, attachment notices issued	11,301	9,569	— 1,732
,, sale notices issued	50	24	— 26

The figures showing the extent to which sales were actually resorted to are compared below with those of the previous fasli. There has been a total decrease as compared with the past year.

Number.	Particulars.	Personal or real.	Fasli 1320.	Fasli 1321.	Difference.
1	Number of defaulter's whose property was sold.	Personal	12	9	— 3
2	Amount of arrears for which property was sold.	Personal	38	15	— 23
		Real.	84	76	— 8
3	Amount realised by sale of property ..	Personal	124	121	— 3
		Real.	110	91	— 19
		Personal	395	317	— 78
		Real.	ACS.	ACS.	ACS.
4	Extent of land sold	..	50	39	— 11
5	Extent of lands bought in by Government.	..	11	17	+ 6

13. KNOWLEDGE OF VERNACULARS OF CIVILIANS.—Mr. Hall, Acting Sub-Collector, Tiruppattūr, was transferred from the district before the close of the year. Mr. Sykes continued in the district throughout the year, having been transferred to Tiruppattur from Tiruvannamalai on the transfer of Mr. Hall from the district. As regards the knowledge of vernaculars, reference is solicited to paragraph 14 of the last year's report.

17. RELATIONS BETWEEN LANDLORD AND TENANT.—Kangundi and Arni are the only considerable estates in the district and the former continued under the management of the Court of Wards. There are some mittas in Tirupattur and Wallajah taluks. The relations between landlord and tenant in these estates call for no special notice.

18. GROWTH OF SUBLETTING IN RYOTWAR TRACTS.—Subletting is as usual confined to non-agricultural classes, such as Brahmans and Vaisyas, and absentee land-owners, most of whom are merchants, vakils or officials. As observed in the jamabandi report of last year investments in land have increased of late tending to a gradual rise in the value of agricultural land.

19. EFFECT OF RECENT LEGISLATION.—There has been nothing noteworthy in the administration of Act I of 1908 (the Madras Estates Land Act) on which a separate report has already been submitted to the Board—*vide* this office Dis. No. 2809, dated 25th August 1912. Some improvement has been effected in the working of Act III of 1905 (the Madras Land Encroachment Act) by the issue of repeated instructions on particular cases and general district circulars pointing out the necessity of confining notice and action to real encroachments established with reference to the survey record of measurements. During the jamabandi of Cheyar and Wallajah taluks it was found that whatever the karnams had reported as encroachments was accepted as correct without the least attempt at check. The futility and harmfulness of such procedure was explained in a circular issued from this office on 20th July 1912 in which the submission of plotted sketches was ordered in all cases of alleged encroachment.

Agricultural wages.—Agricultural labourers employed in the harvest of food crops generally and of groundnut are paid their wages in the respective crops harvested. The wages of those employed in all other agricultural operations such as ploughing, sowing, transplating, weeding, &c., are as a rule paid in money. Regular farm servants continue to be paid their wages in kind throughout the year.

15. SOUTH ARCOT.

(Khan Bahadur M. AZIZ-UD-DIN SAHIB BAHADUR, *Collector.*)

13. COERCIVE PROCESSES.—The total number of processes of each kind issued in faslis 1320 and 1321 is given in the margin. There was decrease under all the heads.

Items.	Fasli 1320.	Fasli 1321.
1. Demand notices	14,542	6,545
2. Attachment notices	303	221
3. Sale notices	295	108
4. Sales	214	36

27. VERNACULAR CORRESPONDENCE OF COVENANTED DIVISIONAL OFFICERS.—No covenanted civilian officer was in charge of the subdivision during the fasli year under report.

28. RELATIONS OF LANDLORD AND TENANT IN THE LARGE ZAMINDARI AREAS.—There are no large zamindaris in this district. The relations between landlord and tenants in other estates continued to be satisfactory.

29. GROWTH OF SUBLETTING IN RYOTWAR TRACTS.—The subletting continued to be resorted to by absentee owners. Ryots who own large extent of lands find it necessary to sublet portions of their holdings owing to the prohibitive cost of labour.

30. EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—No remarks.

AGRICULTURAL WAGES.—During the triennium ending fasli 1321 (1911-1912), the wages of the permanent farm servants were as usual paid in kind while casual or day labourers were paid either in money or in kind during the cultivation season. The monthly wages of permanent labourers ranged from 22 to 36 measures of grain with the addition of midday meal in

most of the cases. In some places there were also cash payments varying from Rs. 2-8-0 to Rs. 7-8-0 a month. These permanent labourers were also given clothes and presents at festivals and on occasions of marriage. The system of payment of advance as an inducement to continue in service still exists in some places. Daily labourers were paid at the rate varying from 2 to 5½ annas *per diem* or in kind equal in value to that amount. Women and boys were paid at half or even three-fourths of the rates.

16. TANJORE.

(R. B. Wood, Esq., I.C.S., *Collector*.)

16. Coercive processes.—Statement 8-A shows the particulars of coercive processes employed for the realization of Government revenue during the fasli 1321. The following extract shows the total number of processes issued under each head:—

		Fasli 1320.	Fasli 1321.
(1)	Number of demand notices issued	229,269	191,567
(2)	,, attachment notices	13,297	11,108
(3)	,, sale notices	11,974	10,079
(4)	,, property sold	105	107

There is a decrease under items (1) to (3), which is due generally to the exercise of effective supervision, and vigilance on the part of the collecting agency.

The following table shows the number of demand notices issued in each taluk in faslis 1320 and 1321:—

Taluks.	Number of demand notices issued in.		Difference.		Percentage of cloumns 4 to 2.
	Fasli 1320.	Fasli 1321.			
1	2	3	4		5
1. Tanjore	69,111	71,566	+	2,455	+ 3·55
2. Papanasam	29,841	26,409	—	3,432	— 11·50
3. Kumbakonam	21,267	23,693	+	2,426	+ 11·40
4. Mayavaram	2,826	2,734	—	92	— 3·25
5. Shiyali	7,533	7,749	+	216	+ 2·86
6. Nannilam	2,046	1,098	—	948	— 46·38
7. Negapatam	4,769	9,398	+	4,629	+ 97·06
8. Tirutturappundi	27,633	33,060	+	5,427	+ 19·64
9. Mannargudi	38,009	8,648	—	29,361	— 77·02
10. Pattukkottai	20,142	1,875	—	18,267	— 90·69
11. Arantangi	6,092	5,337	—	755	— 12·39
Total ..	229,269	191,567	—	37,702	— 16·45

The decrease is noticeable in the taluks of Papanasam, Mannargudi and Pattukkōttai. The increase in Negapatam is abnormal and the Tahsildar explains that the figure reported for fasli 1320 was not correct

17. Distraint or attachment.—The annexed statement shows the number of defaulters whose property was attached in fasli 1321 and the number of cases in which it was found necessary to issue sale notices as compared with the previous fasli:—

Taluks.	Number of ryotwari pattadars.	Number of defaulters whose property was attached in			Percentage of cloumn 4 to 2.	Number of sale notices.	Percentage of cloumn 7 to 4.
		Fasli 1320.	Fasli 1321.	Difference.			
1	2	3	4	5	6	7	8
1. Tanjore	40,522	7,404	6,507	— 897	16·05	6,507	100
2. Papanasam	25,326	1,465	1,011	— 454	3·99	1,011	100
3. Kumbakonam ..	20,909	579	343	— 236	1·64	343	100
4. Mayavaram	25,408	278	225	— 53	·88	204	90·6
5. Shiyali	10,092	284	189	— 95	1·87	185	97·08
6. Nannilam	29,425	436	326	— 110	1·10	286	87·83
7. Negapatam	20,806	333	281	— 52	1·35	235	83·62
8. Tirutturaippundi ..	24,492	966	728	— 238	2·97	720	98·90
9. Mannargudi	27,032	574	241	— 333	·89	239	99·02
10. Pattukkottai	14,970	686	969	+ 283	6·47	61	6·29
11. Arantangi	4,401	292	288	— 4	6·54	288	100
Total ..	243,383	13,297	11,108	— 2,189	4·56	10,079	90 73

The ratio of attachment to demand notices was the same as in the previous year, viz., 5·79. The proportion of pattadars whose property was attached was 4·56 against 6 in the previous year. The percentage of sale notices to attachment fell from 97 to 90·73.

Particulars as to the number of sale notices and the defaulters whose property was sold in fasli 1321 are given in the statement appended :—

Taluks.	Number of ryotwari pattadars.	Number of sale notices in			Number of defaulters whose property was sold in			Percentage of column 7 to 2.	Percentage of column 7 to 4.
		Fasli 1320.	Fasli 1321.	Difference.	Fasli 1320.	Fasli 1321.	Difference.		
1	2	3	4	5	6	7	8	9	10
1. Tanjore	40,522	7,130	6,507	— 623	..	22	+ 22	·054	·338
2. Papanasam ..	25,326	1465	1,011	— 454	7	8	+ 1	·032	·791
3. Kumbakōnam ..	20,909	476	343	— 133	8	13	+ 5	·062	3·790
4. Māyavaram ..	25,408	237	204	— 33	1	8	+ 7	·032	3·921
5. Shiyali	10,092	274	185	— 89	9	5	— 4	·049	2·702
6. Nannilam ..	29,425	415	286	— 129	11	15	+ 4	·051	5·244
7. Negapatam ..	20,806	94	235	+ 141	6	2	— 4	·009	·851
8. Tirutturaippundi.	24,492	950	720	— 230	39	10	— 29	·041	1·388
9. Mannārgudi ..	27,032	574	239	— 335	2	5	+ 3	·018	2·094
10. Pattukkōttai ..	14,970	67	61	— 6	19	16	— 3	·106	26·229
11. Arantangi ..	4,401	292	288	— 4	3	3	..	·068	1·041
Total ..	243,383	11,974	10,079	— 1,895	105	107	+ 2	·004	1·062

The extent of land sold and bought in by Government during the fasli 1321 is compared in the subjoined statement with the corresponding figures for the previous fasli :—

Taluks.	Extent of land sold in			Extent bought in by Government in			Extent bought by private persons.	Percentage of columns 6 to 3.
	Fasli 1320.	Fasli 1321.	Difference.	Fasli 1320.	Fasli 1321.	Difference.		
1	2	3	4	5	6	7	8	9
	ACS.	ACS.	ACS.	ACS.	ACS.	ACS.	ACS.	
1. Tanjore	97	56	— 41	3	..	— 3	56	No land in column 3 was bought in by Government during the year.
2. Papanasam	7	4	— 3	..	..	..	4	
3. Kumbakōnam	3	7	+ 4	..	..	..	7	
4. Māyavaram	3	2	— 1	..	..	..	2	
5. Shiyali	33	..	— 33	..	..	..	..	
6. Nannilam	2	2	..	..	..	..	2	
7. Negapatam	..	..	..	..	..	..	..	
8. Tirutturaippundi	8	..	— 8	1	..	— 1	..	
9. Mannargudi	4	6	+ 2	..	..	..	6	
10. Pattukkōttai	43	6	— 37	1	..	— 1	6	
11. Arantangi	1	..	— 1	..	..	..	..	
Total ..	201	83	— 118	5	..	— 5	83	

Land of an aggregate estimated value of Rs. 2,571 was sold for arrears of Rs. 1,133, the amount realised being Rs. 6,936. The sale-proceeds represent 17 times the taram assessment in the case of ' dry " and 59 times in respect of " wet " lands. The bulk of the land sold was in the Tanjore taluk.

25. Vernacular correspondence in the Head Assistant and the Assistant Collectors' offices.—There is no vernacular official correspondence. Petitions were, as a rule, read to the presiding officers when presented in person; petitions received by post, if not read in original by the addressee, are submitted with an English abstract prepared in the office. One Assistant Collector was posted to this district during the year and he joined on 4th January 1912.

28. Relations between landlord and tenant in larger zamindaris.—The Divisional Officer, Pattukkōttai, reports that in many cases the ryots try to delay payment of their dues as long as possible and that consequently relations between landlords and tenants are not as good as they might be, and in a large number of cases landlords are obliged to take legal steps. Such cases are of course always fairly common, but generally speaking I should describe the relations as good.

29. Growth of subletting in ryotwar tracts.—There is nothing particular to note under this head this year. Subletting is resorted to by the absentee landholders and those who follow professions other than agriculture. No indications have been brought to my notice of any increase of such subletting.

30. EFFECT OF RECENT LEGISLATURE ON THE PEOPLE.—The Madras Estates Land Act has been in force from fasli 1318. Landlords and tenants seem to understand the provisions now fairly well.

32. I regret the delay in the submission of this report which was due to the supplemental jamabandi not having been completed in four out of six divisions till two months after the close of the fasli. The returns were not submitted by Tahsildars in time and many were found to be incomplete and inaccurate. Further references had therefore to be made in order to reconcile the several accounts. I have issued instructions to the Divisional Officers and Tahsildars with a view to avoid such discrepancies and delays in future.

AGRICULTURAL WAGES.—The old system of paying agricultural labourers in kind according to a prescribed scale irrespective of prices continues in force and has not been superseded by payment in cash to any appreciable degree.

---

17. TRICHINOPOLY.

(R. NARAYANA AIYAR, Esq., I.C.S., *Acting Collector.*)

15. COERCIVE PROCESSES AND SALES FOR ARREARS OF REVENUE.—There was considerable decrease in the number of processes of each kind issued during the year. The figures of the last three faslis are compared below:—

	Fasli 1319.	Fasli 1320.	Fasli 1321.
Demand notices	115,688	75,770	55,708
Attachment notices	3,389	2,375	1,911
Sale notices	3,373	2,363	1,906

The number of demand notices issued in the Karūr, Musiri, Kulittalai and Nāmakkal taluks was very small being 46, 83, 168 and 408 respectively. The extent of land sold during the year for arrears was 61 acres of dry land (assessed at Rs. 64) and 1·35 acres of wet land (assessed at Rs. 7). The number of defaulters whose personal and real property was attached was 1,763 and 148 respectively. Personal property was sold in two cases and real property in nine cases.

19. VERNACULAR CORRESPONDENCE OF THE ASSISTANT COLLECTORS.—Mr. H. S. Shield and Mr. A. J. King were Assistant Collectors of the district during the year. Mr. Shield has since been transferred. He had a good knowledge of Tamil. Mr. King has passed the Lower Standard in Tamil.

20. RELATIONS BETWEEN LANDLORDS AND TENANTS IN LARGER ZAMINDARIS.—The Zamindar of Marungapuri is assisted by his manager whose services have been lent to him with the sanction of the Government. The relations between the landlords and the tenants continue to be fairly satisfactory although they continue to be strained in Udaiyārpālaiyam as reported last year. This has led to numerous proceedings under the Estates Land Act necessitating the entertainment of a special establishment to deal with them. The Kadavur zamindari continues under the management of the Court of Wards. It is a very heavily encumbered estate, but the relationship between the Court of Wards and the tenants is fairly satisfactory.

21. GROWTH OF SUBLETTING IN RYOTWAR TRACTS.—Subletting is, as usual, resorted to by the non-agricultural classes, by those engaged in professions, other than agricultural, and by the owners of large landed property.

22. THE EFFECT OF RECENT LEGISLATION.—Madras Act III of 1905 worked smoothly. A report on the working of the Madras Estates Land Act I of 1908 was submitted to the Board in this office R.C. No. 427-Pol., dated 16th August 1912.

AGRICULTURAL WAGES.—Report not received.

---

18. MADURA.

(W. A. DOIG, Esq., I.C.S., *Acting Collector.*)

14. PROCESSES UNDER ACT II OF 1864.—Statement No. 8-A shows the particulars of coercive processes issued for the realization of Government dues under Act II of 1864. The following abstract compares the number of processes of each kind issued during the fasli with the figures of the preceding fasli:—

Items.	Fasli 1320.	Fasli 1321.
(*a*) Demand notices	19,460	30,936
(*b*) Distraint or attachment notices	4,691	5,631
(*c*) Sale notices	3,832	5,505

Item (*a*).—The increase is due to the issue of a larger number of notices for the realization of arrears of revenue which remained unpaid owing to unfavourable season. Of the eight taluks in the district, Kodaikānal alone showed a decrease of 851. The increase was large in Dindigul (10,115), Periyakulam (7,385), Madura (4,478), Mēlūr (3,730) and Palni (2,650).

Item (*b*).—The number of distraint or attachment notices rose from 4,691 to 5,631; but the number of defaulters (612) whose personal property was distrained was not proportionate to the number of those (5,064) whose real property was attached and this disproportion is ascribed to a large number of non-resident pattadars chiefly in the tracts affected by the Periyar.

Item (*c*).—Out of 5,064 defaulters whose real property was attached 4,837 defaulters paid their arrears before sale. Out of 525 acres (dry) and 169 acres (wet) sold for the recovery of arrears, 166 acres (dry) and 48 acres (wet) were purchased by Government for want of bidders and the remaining extents were purchased by other persons. The amount realised by the sales of real property was Rs. 9,545. The number of defaulters whose property was sold was 331 against 168 in the previous fasli. The percentage of actual sales to sale notices was 5·8 against 3·5 in fasli 1320 and that of the number of defaulters whose property was actually sold to the total number of pattas was 0·15 against 0·07 in the previous fasli. The percentage of the extent of lands bought in by Government to the extent of lands sold was 30·83 against 16·26 in the preceding fasli.

22. Relation of landlords and tenants in large zamindaris.—The relationship between landlords and tenants in the zamindaris in this district continued on the whole to be harmonious. In the Kannivadi zamindari in the Dindigul taluk it is reported by the Tahsildar that the relationship between the landlords and tenants were not very cordial, that the tenants strongly resented and obstructed the survey of their holdings, and that there have been complaints that irrigation sources are not kept in efficient repair and that communal lands have been diverted from their legitimate use. The Divisional Officer, Usilampatti, reports that there is friction between the zamindars and tenants in the zamindaris of the Periyakulam taluk on account of the irregularity in the issue of pattas and of the levy of enhanced charge for garden crops raised on dry lands with the aid of wells.

23. Growth of subletting in ryotwar tracts.—Subletting is chiefly resorted to by vakils and traders who have invested money in the purchase of lands in the Periyar area and by the absentee landowners.

25. Effect of recent legislation on the people—(*a*) *Working of Act III of* 1905.—Notices of eviction (No. 6) under Act III of 1905 were issued in 47 cases in the Tirumangalam taluk, 13 in Mēlūr and 20 in Periyakulam during the fasli and the encroachments were vacated after the issue of notices. The Act has worked smoothly.

(*b*) *Working of Act I of* 1908.—The number of suits and applications received during the year under report was 6,024 against 4,856 in the previous year resulting in an increase of 1,168. The increase was in the number of applications for attachment of immoveable properties for arrears of rent under section 112 of the Act. The ryots appreciate the provisions of the Act. A detailed report on the working of the Act has been submitted in this office D. Dis. No. 3127, dated 11th September 1912.

28. Agricultural wages.—There are two classes of agricultural labourers—farm labourers and casual labourers. Farm labourers are paid in cash and grain and are also given cloths. Casual labourers employed at the harvests, etc., are generally paid in kind. The average wage of an adult agricultural labourer ranges from 4 to 8 annas per diem and that of a female labourer is half of that rate.

30. Junior civilians.—*Knowledge of vernaculars*—Mr. R. H. Courtenay, Assistant Collector, joined the district in December 1910. He has passed in "first language (Tamil)" and has yet to pass in "second language." He has since been transferred to a Telugu district.

19. RAMNAD.

(A. R. Loftus-Tottenham, Esq., M.A., I.C.S., *Collector.*)

13. Relation of landlords and tenants in proprietary estates.—There is a dispute in Seithur zamin about forest rights, and a certain amount of friction and faction between Chetties and their tenants especially in the Devakkottai division. Otherwise relations—if not exactly cordial—are not seriously strained. Owing to the large number of rent suits pending, especially in the Rāmnād division, the Government have recently sanctioned in G.O. Mis. No. 3055, dated 9th October 1912, the appointment of a Special Deputy Collector to dispose of them.

14. Growth of subletting in the ryotwar tracts.—I have nothing new to report on this subject.

17. Working of Act III of 1905.—The working of the Act was not calculated to cause any hardship to the ryots.

18. Working of Act I of 1908.—I have nothing particular to report except that the Act is responsible for an immense volume of business.

22. Agricultural wages.—Wages continued to be high and the condition of the labouring classes was satisfactory.

23. I regret the delay in the submission of this report which is due to the late submission of the taluk returns in spite of frequent reminders. Some of the accounts were received from the Deputy Tahsildar of Sivaganga so late as 19th October 1912. I am making every effort to enforce punctuality in the submission of returns by my subordinates.

20. TINNEVELLY.

(J. C. MOLONY, Esq., I.C.S., *Collector.*)

4. NUMBER OF VILLAGES.—The ryotwar, Zamin and inam villages of the district now number 574,314 and 190 respectively against 607,326 and 183 in the previous fasli. The change in the number is due to the amalgamation of several villages at the resurvey in Sankaranainarkoil and Koilpatti taluks and to the transfer of certain minor inams into whole inam villages.

23. PROCESSES UNDER MADRAS ACT II OF 1864.—(*a*) A comparative statement of the figures with those of the preceding year is given below:—

Description of processes.	Fasli 1320.	Fasli 1321.
(1) Demand notices...	42,637	37,299
(2) Distraint and attachment notices	3,343	2,388
(3) Sale notices	3,236	2,388
(4) Sales	50	67
Total ...	49,266	42,132

The decrease was due to the vigilance of the Revenue subordinates in securing voluntary payments. The small difference in the number of sales requires no explanation.

(*b*) DISTRAINT, ATTACHMENT AND SALES.—The table below compares the figures of the last two years :—

Fasli.	Attached.		Realized by sale.				
	Number of defaulters.	Amount for which property was attached.	Number of defaulters.	Amount for which property was sold.	Personal property.	Real property.	Total.
		RS.		RS.	RS.	RS.	RS.
Fasli 1320	3,367	22,444	50	242	113	1,138	1,251
„ 1321	2,544	21,426	67	1,237	698	1,694	2,392

Distraint and attachment were made only in 6·8 per cent. of the cases for which demand notices were issued as against 7·8 per cent. in 1910–1911. The percentage of actual sales to sale notices was 2·8 against 1·5. Particulars of sales are given below by taluks.—

Taluk.	Fasli 1320.		Fasli 1321.		Number of pattas	Percentage of the number of sales to the number of pattas.	
	Number of sales.	Arrears.	Number of sales.	Arrears.		Fasli 1320.	Fasli 1321.
Ambasamudram	1	61	2	22	28,064	0·03	0·008
Koilpatti	9	28	3	3	20,762	0·03	0·01
Nanguneri	1	21	6	131	36,711	0·002	0·02
Sankaranainarkoil	..	..	9	404	30,494	..	0·03
Tenkasi	3	13	2	10	19,738	0·01	0·01
Tinnevelly	20	31	11	111	30,402	0·06	0·04
Srivaikuntam	1	18	12	415	31,752	0·003	0·04
Tiruchendur	15	70	22	141	35,700	0·04	0·06
Total ..	50	242	67	1,237	2,33,623	0·02	0·03

The variations are not noticeable. No land was bought in by Government for want of bidders.

32. AGRICULTURAL WAGES.—The triennial census of agricultural wages was taken in August 1911 during the fasli in accordance with the instructions issued in Board's Proceedings No. 332 (Settlement), dated 11th July 1910. The result was reported already. The average rates of wages reported in the rural tracts were as follows :—

	Unskilled labour by day. Ordinary.		Carpenter by day.	Blacksmith by day.	Farm servant by month.
	Cash.	Grain (its value).			
	RS. A. P.	RS. A. P.	RS. A. P.	RS. A. P.	RS. A. P.
From	0 2 0	0 1 9	0 7 0	0 7 0	5 0 5
To	0 5 9	0 5 6	0 11 0	8 4 0	10 8 0

The grain wages were above the normal during the recent wages census on account of scarcity of water for irrigation purposes and the consequent demand for labourers for baling water from wells, tanks, etc.

35. Board's Proceedings No. 321, (Settlement), dated 24th August 1904.—(1) No complaints against the working of the Estates Land Act were brought to notice. The relations between landlords and tenants in the larger zamindaris and mittas continued to be harmonious.

(2) Growth of subletting in ryotwar villages.—The general practice in the district is to sublet; there is nothing to show that this tendency is on the increase.

(4) The effect of recent legislation on the people.—The Madras Land encroachment Act III of 1905 and the Madras Estates Land Act I of 1908 continue to work satisfactorily.

36. Vernacular knowledge of the Civilians.—The Civilian officers working in the district possess a fair knowledge of Tamil.

21. COIMBATORE.

(F. R. Hemingway, Esq., I.C.S., *Acting Collector.*)

7. Ryotwar Settlement.—The total number of ryotwar villages is 1,178 as against 1,204 during the preceding year. The decrease of 26 villages is due to the regrouping of the villages in the Talavadi firka of the Kollegal taluk.

15. Coercive processes and sales for arrears of revenue.—Enclosure to statement No. 8 exhibits the details of coercive processes employed in the realization of Government demand under Act II of 1864. The processes issued during the fasli are compared with those of the preceding two faslis in the subjoined table :—

Items.	Fasli 1319.	Fasli 1320.	Fasli 1321.
Number of demand notices ..	780	369	757
Number of attachment notices ..	21	12	24
Number of sale notices	12	11	16

There is an increase in the number of processes of all kinds when compared with the previous year. Compared with fasli 1319 there is a small decrease in the number of demand notices and an increase in attachment and sale notices. The increase is due to the fact that the year under report was rather unfavourable for cultivation. The percentage borne by the number of defaulters to that of pattadars is 0·01 as against 0·004 in the last fasli and 0·007 in fasli 1319. Personal property was attached in 8 cases for an arrear of Rs. 92 as against 4 for an arrear of Rs. 72 in last fasli and 2 for an arrear of Rs. 41 in fasli 1319. The real property of 16 defaulters was attached for an arrear of Rs. 150 as against 9 for Rs. 62 in fasli 1320 and 32 for Rs. 94 in fasli 1319. While the personal property attached was not sold even in a single case real property had to be sold in ten cases for an aggregate arrear of Rs. 75. For want of bidders 23 acres were bought in by Government in Gopichettipalayam, Bhavani and Erode taluks.

26. General.—There is nothing special to record on any of the points referred to in paragraph 4 of Board's Proceedings, No. 321, (Settlement), dated 24th August 1904. . . . .

Agricultural wages.—During the triennium ending Fasli 1321 (1911–1912), the system of paying agricultural labourers in kind has not been superseded by money payments to any appreciable extent.

22. THE NILGIRIS.

(M. Young, Esq., I.C.S., *Collector.*)

5. Vernacular correspondence in the Revenue Divisional office.—Mr. C. G. Mackay, I.C.S., continued to be in charge of the Coonoor division up to the end of April 1912. He was succeeded in office by Mr. W. A. Doig, I.C.S., who remained in charge of the division up to the end of the fasli. Both these officers were conversant with Tamil, but the correspondence with the Taluk officers continued to be carried on in English as usual.

6. Relations between landlord and tenant in larger zamindaris.—There are no zamindari tracts in this district.

7. Subletting in ryotwar areas.—The practice of subletting continues to prevail in the Gudalur taluk and to a very limited extent in the municipal towns of Ootacamund and Coonoor.

9. EFFECTS OF RECENT LEGISLATION ON THE PEOPLE.—There was no special legislation during the year which affected the people of this district. The Madras Land Encroachment Act, 1905, worked smoothly. The Madras Estates Land Act, 1908, was not resorted to. During the year under report, five societies as detailed in the margin were registered under the Co-operative Societies Act.

10. AGRICULTURAL WAGES.—The agricultural labourers in the plateau taluks are mostly paid in cash except in the case of the Badagas who work for grain wages during harvest time.

The paniya farm servants in the Gudalur taluk are paid in grain in addition to a daily meal. They are also given presents of clothes at festivals and a small portion of the paddy crop at harvest time.

---

23. SALEM.

(J. P. BEDFORD, Esq., I.C.S., *Collector*.)

14. PROCESSES UNDER ACT II OF 1864.—The appended statement shows the total number of processes issued during the year as compared with the previous year :—

Fasli.	Number of processes issued.				Number of defaulters whose property was sold.		Extent of land sold.		Amount realized by the sale of			
	Demand notice.	Notice of attachment.	Notice of sale.	Total.	Moveable.	Real.	Dry	Wet.	Real property.	Moveable property.	Other property.	Total.
							ACS.	ACS.	RS.	RS.	RS.	RS.
1320	11,169	338	269	1,176	11	83	546	46	1,088	62	17	1,167
1321	8,931	226	268	9,425	3	81	460	24	954	8	..	962

Processes were as usual served partly by a special agency in the Hosur taluk and by the village agency alone in the other taluks. The number of processes served by the special agency was 367 against 886 in the previous year. The extent of land sold for arrears of revenue and bought in by Government was 182 acres against 341 in the previous year.

20. VERNACULAR CORRESPONDENCE IN DIVISIONAL OFFICES.—During the year under report, the following officers were in charge of the Hosur and Salem divisions :—

Hosur ... ... Mr. S. Burn.
Salem ... ... Mr. F. L. Brigstocke for about a month.

Mr. Burn knows Tamil, Malayalam and Telugu but has had no recent occasion to make use of the last two languages. Mr. Brigstocke's language is Tamil. He was transferred to Tinnevelly last March.

24. EFFECTS OF RECENT LEGISLATION ON THE PEOPLE.—Madras Act III of 1905 and Act I of 1908 seem to be working satisfactorily. A report on the working of the latter Act was submitted to the Board of Revenue (Land Revenue) in this office disposal No. 3367/D, dated 28th September 1912. The recent enactments and rules in regard to the extension of the elective franchise in the Legislative Council and in the Local Boards seem to be appreciated.

25. RELATIONSHIP BETWEEN LANDLORD AND TENANTS IN LARGER ZAMINDARIS.—There are no larger Zamindaris in the district. In palayams and mittas, the relationship is, on the whole, satisfactory.

26. GROWTH OF SUB-LETTING IN RYOTWARI VILLAGES.—There is no marked tendency one way or the other. The system prevails only in the cases of large landowners, absentee pattadars and tenants having other professions.

28. I regret the delay in the submission of this report; it is partly due to the fact that many of the orders passed at the jamabandi in village account 5 had to be revised with reference to Board's Proceedings No. 291, Revenue Settlement, dated 10th May 1912. Returns submitted by some Tahsildars have also had to be returned for rectification.

AGRICULTURAL WAGES.—Farm servants who form the majority of agricultural labourers are paid in kind, their wages varying from 30 (Madras) measures to 40 measures of ragi or cumbu per mensem, with an annual additional payment of Rs. 2 to 4 at the time of Pongal. Other labourers are paid Rs. 3 to 6 a month. Farm servants are generally given an advance of about Rs. 40 or 50 to meet marriage and other expenses, which they have to return when they quit the service of their employers. The practice of paying agricultural labourers in kind has not been superseded by a system of cash payment.

24. SOUTH CANARA.

(A. FOTHERINGHAM, Esq., I.C.S., *Acting Collector.*)

Fasli.	Demand notices.	Notices of distraint or attachment.	Notices of sale.
Fasli 1320	5,968	295	169
,, 1321	6,458	240	141
Total ..	+ 490	— 55	— 28

Fasli.	Amount realized by the sale of moveable property.
	Rs.
* Fasli 1320	578
,, 1321	307

13. COERCIVE PROCESSES.—There was a slight increase in the number of demand notices issued in the year; but there was a decrease both under notices of distraint or attachment and notices of sale. Less * moveable property was sold in the year under report; but 4 acres of wet land were sold in the Uppinangadi taluk and were bought in by Government for want of bidders, while 10 cents were sold in Kasaragod taluk and were bought by private individuals.

20. VERNACULAR CORRESPONDENCE IN THE SUB-COLLECTOR'S OFFICE.—The Deputy Collector in charge of Coondapur division reports that Mr. Macqueen was disposing of vernacular petitions mostly without getting them translated into English.

24. AGRICULTURAL WAGES.—Agricultural wages are paid in kind as before and the rates are reported to be unaltered, except in the Coondapoor taluk where it is said they have risen a little on account of the dearness of rice and other food stuffs.

26. POINTS REFERRED TO IN PARAGRAPH 4 OF THE BOARD'S PROCEEDINGS No. 321, DATED 24TH AUGUST 1904.—The reports from the Tahsildars and Deputy Collectors in charge of divisions show that there has been no appreciable increase in sub-letting during the year under report, but that the tendency is the other way.

There has been no recent legislation affecting the people of this district.

---

25. MALABAR.

(C. A. INNES, Esq., I.C.S., *Acting Collector.*)

11. PROCESSES UNDER ACT II OF 1864.—Statement No. 8-A gives particulars of the processes issued. The increase of 714 in the number of processes issued during the year as compared with the previous year is less than 10 per cent. and calls for no special remarks.

15. RELATION BETWEEN LANDLORD AND TENANTS IN ZAMINDARI TRACTS.—There are no Zamindaris in this district.

16. GROWTH OF SUB-LETTING IN RYOTWAR TRACTS.—There is no change of any importance in the situation already reported to the Board in this office letter No. D-1487/R., dated 4th November 1904.

19. THE EFFECT OF RECENT LEGISLATION.—There is no recent legislation of much importance to the agricultural population in this district.

24. AGRICULTURAL WAGES.—In Cannanore, Tellicherry, Calicut, Ponnani and Cochin, the system of paying wages in money is in vogue. But elsewhere there is little or no tendency for the system of payment in kind being superseded by payment in money.

25. VERNACULAR ATTAINMENTS OF PASSED ASSISTANTS, HEAD ASSISTANT COLLECTOR AND SUB-COLLECTOR.—Mr. V. P. Row, Sub-Collector, Tellicherry, disposes of vernacular petitions himself and can talk the language. Mr. Hall, Sub-Collector, Palghat, has only recently returned to the district. Vernacular petitions are either read out to him or if received by post are put up to him with abstracts. Mr. Thomas and Mr. Evans who held charge of the Palghat division for part of the year both knew Malayalam and the same remark applies to Mr. Macqueen who held charge of the Tellicherry division up to the 1st September 1911.

---

26. ANJENGO.

(R. A. GRAHAM, Esq., *Collector.*)

11. SUB-LETTING IN RYOTWARI TRACTS.—There is little or no sub-letting.

13. COERCIVE PROCESS.—No coercive process was issued during the year.

15. VERNACULAR ATTAINMENTS.—The Assistant Collector Captain R. E. G. Berkeley, I.A., does not know Malayalam and Malayalam petitions are translated to him. He knows tamil.

16. EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—There were no special difficulties of any kind to be reported during the year, and there were no cases of disaffection or illfeeling between classes.

AGRICULTURAL WAGES.—There is practically no such thing as agricultural wages in the Anjengo district. The only industries are the growing of cocoanut trees and the manufacture of the products of those trees. The cost of labour is rising and a cooly can earn as much as 8 annas a day.

Proceedings of the Board of Revenue (Land Revenue), Mis. No. 768-H., dated 17th February 1913.

The Hon'ble Mr. R. B. CLEGG.

Read—the following paper :—

Revised Jamabandi statement No. 7 *A-D-C-B of interest on arrears of Land Revenue for fasli* 1321, *received from H. L. BRAIDWOOD, Esq., I.C.S., Collector of Kistna, to the Secretary to the Commissioners of Land Revenue, Madras, D. Dis. No.* 537-*Gl.*/1913, *dated the* 3*rd February* 1913.

Resolution—Mis. No. 768-*H., dated* 17*th February* 1913.

With reference to the letter of the Collector of Kistna read above, the Board submits to Government the following alterations in Board's Proceedings No. 7 (Settlement), dated the 7th January 1913 :—

(i) *Pages* 8 *and* 9—*paragraph* 32—

In line 3 for 34,863 read 39,345.
„ 3 „ 10,577 „ 15,062.
„ 4 „ 22,614 „ 22,611.

(ii) *Page* 38, *Statement No.* 14.—(*a*) For the figures 647, 850, 254, 506 and 344 in columns 3, 4, 5, 8 and 9 respectively against "Kistna," read 5,129, 5,332, 4739, 4,991 and 341.

(*b*) For the figures 16,889, 34,863, 10,577, 12,249 and 22,614 in columns 3, 4, 5, 8 and 9 respectively against "Total" read 21,371, 39,345, 15,062, 16,734 and 22,611.

(True Extract.)

W. G. MCFARLAND,
Secretary.

To the Secretary to Government, Revenue Department.
Copy to the Board of Revenue (Settlement Department).

ENCLOSURE.

REVISED statement showing the demand, collection and balance of interest charged on the arrears of land revenue in the Kistna district for fasli 1321.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Proceedings of the Board of Revenue (Revenue Settlement, Survey, Land Records and Agriculture).

Settlement of Land Revenue (Jamabandi)—Submitting to Government report on the—for fasli 1312 (1912–1913). } (Here enter No. 1, dated 6th January 1914).

Order—No. 736, Revenue, dated 9th March 1914.

Miscellaneous.

With its Proceedings read above the Board of Revenue submits the report on the land revenue settlement of the Presidency for fasli 1322, the agricultural year ending with 30th June 1913.

2. Both the south-west and the north-east monsoons were on the whole favourable for agriculture though in the Northern Circars the latter was much below the average. Prices continued high and the staple food-grains were dearer than in the preceding year, the average retail prices exceeding the normal rates in all districts.

3. The total extent of ryotwari holdings in the Presidency amounted to 25·17 million acres and showed an increase of about 157,000 acres over the previous year. Out of the occupied extent, 20,539,384 acres, or 81·62 per cent., were cropped against 19,868,835 acres or 79·49 per cent. in the previous year.

4. The following statement exhibits under the principal heads the land revenue and cesses which accrued in the year under review and in the previous year :—

—	Fasli 1321.	Fasli 1322.	Difference.
	Rs.	Rs.	Rs.
1. Peshkash or revenue from permanently-settled estates ..	49,90,568	49,85,345	— 5,223
2. Land-cess on permanently-settled estates	14,15,513	14,07,297	— 8,216
3. Quit-rent on inam villages held on favourable tenure	7,53,026	7,52,019	— 1,007
4. Land-cess on inam villages held on favourable tenure. ..	3,82,271	3,86,060	+ 3,789
5. Revenue from lands held on the ryotwari system including water-rate and miscellaneous revenue.	6,05,64,722	6,20,87,398	+ 15,22,676
6. Cess on ryotwari and miscellaneous revenue	48,39,836	49,32,175	+ 92,339
Total land revenue (items 1, 3 and 5 above) ..	6,63,08,316	6,78,24,762	+ 15,16,446
Total cesses (items 2, 4 and 6 above) ..	66,37,620	67,25,532	+ 87,912

5. The settled assessment on ryotwari holdings amounted to Rs. 508·9 lakhs against Rs. 506·9 lakhs in the previous year. The excess was partly due to the character of the season and the increase in the extent under occupation but also to the introduction of resettlement rates in two taluks and a part of a third taluk of the Coimbatore district. The revenue derived from water-rates on dry lands and from the charge for second crop on wet lands amounted to Rs. 34·31 lakhs against Rs. 30·77 lakhs in the preceding year. The increase occurred under both heads and was large in the districts of Kistna, Nellore, Anantapur and Madura, where it is

attributed generally to the favourable character of the season. There was a large decrease in South Arcot under fasaljasti which was due to seasonal causes. Season remissions in fasli 1322 amounted to Rs. 3·27 lakhs against Rs. 10·60 lakhs in the preceding year—an indication of marked improvement in the rainfall.

6. The extent of poramboke land occupied during the year was 105,166 acres or 18,854 acres less than in the previous year, but it appears that, owing to neglect of orders in four districts, the above area includes a certain amount of unassessed waste land. On about 68·0 per cent. of the occupied poramboke assessment was levied at the ordinary rates; on the remaining extent of 33,249 acres enhanced assessment amounting to about Rs. 3½ lakhs was levied, the average rate of the enhanced charge being Rs. 11 an acre against Rs. 13 in the previous year in which however only 29,163 acres were subjected to penalty. In North Arcot, Coimbatore and Tanjore the area on which enhanced assessment was levied was disproportionately small but in the last of these districts a large number of orders for eviction was issued.

7. *Collections.*—The collection work was satisfactory, Rs. 7,42,60,845 or 98·8 per cent. of the gross current demand were collected within the fasli against 98·7 per cent. in the previous year. The arrear balance at the beginning of the fasli was Rs. 12,72,691. Of this amount a sum of Rs. 11,52,523 or 90·5 per cent. was collected within the fasli and Rs. 14,767 or 1·16 per cent. were written off the accounts. The total balance, arrears and current, outstanding at the end of the fasli was Rs. 9,49,722. The Board will be requested to enquire into the cause of the delay in effecting adjustment in the case of the seven districts referred to at the end of paragraph 22 of the report as showing accounts unadjusted from before fasli 1321.

8. *Coercion.*—The Government are glad to note a continuance of the progressive decrease in the total number of coercive processes issued in connection with the collection of land revenue which has been observable for several years. The total number issued in the year under report was 1,259,236 against 1,448,613 in the preceding year. The decrease occurred in every class of coercive process. Demand notices which are really reminders and not true coercive processes formed about 88·4 per cent. of the total number of processes and numbered 1,113,240 against 1,198,222 in the previous year. The percentage of distraints and attachments to the total number of demand notices was 6·89 in the case of personal property and 1·59 in the case of real property against 11·07 and 2·09, respectively, in the previous year. About 48 per cent. of the defaulters whose property was attached paid the arrears before sale notices were issued. Actual sale of property was resorted to in only 1,973 cases out of 49,527 cases of attachment. The number of defaulters whose property was attached for arrears of revenue formed 0·05 per cent. of the total number of pattas and the extent of the land sold, 7,829 acres, amounted to 0·03 per cent. of the total extent of holdings in the Presidency. 2,509 acres, or nearly 0·01 per cent. of the total holdings in the Presidency, were bought in by Government for want of bidders against 6,391 acres or 0·03 per cent. of the holdings in the preceding year. The immoveable property sold realized more than twice the amount of the arrears for the recovery of which sale was effected. Such excess was particularly noticeable in Madura where, for arrears amounting to Rs. 2,605, land valued at Rs. 17,605 was brought to sale and realized Rs. 14,553. In this district, and perhaps elsewhere, it would seem that sufficient attention was not paid to section 44 of the Revenue Recovery Act. A closer approximation between the amount of the arrears and the value of the land brought to sale should be aimed at.

9. *Transfer of registry.*—The total number of applications for transfers of registry to be dealt with in the fasli under report including the number brought forward for disposal from the previous year was 126,801, of which 111,389 were disposed of during the fasli, leaving a balance of 15,051. The number of applications pending disposal is large in South Arcot, Tanjore and Trichinopoly. In G.O. No. 2305, Revenue, dated 1st August 1913, the Government have ordered the amendment of the rules relating to the transfer of registry with a view to bring registry into closer accordance with facts.

10. *Loans.*—The amounts advanced under both the Loans Acts increased from Rs. 6·76 lakhs in fasli 1321 to Rs. 7·70 lakhs. The amounts advanced for outlay upon wells aggregated over Rs. 2 lakhs, and 954 wells were sunk or repaired against

899 in the previous year by means of money advanced by Government. A sum of Rs. 26,850 was devoted to the purchase and installation of oil-engines and pumps. There was a marked increase in loans in the districts of Bellary, Chingleput, Chittoor, Coimbatore, Trichinopoly, North Arcot and Tinnevelly. This was partly due to the employment of special establishments in the last two districts.

The statement given in paragraph 43 of the Board's report shows a considerable gain to the Local Government from the transactions in loans. The figures depend, however, upon an arbitrary calculation of the value of the work done by revenue establishments in connection with the grant and recovery of loans and the resulting profit is certainly not of the dimensions given in the statement. In view, nevertheless, of the possibility that some profit is at present made, the Government have been considering whether the rules relating to loans may not be relaxed in some respects at the risk of an increase in the number of bad debts and it is expected that orders will soon be issued on the subject.

(True Extract.)

A. BUTTERWORTH,
Ag. Secretary to Government.

To the Board of Revenue (Revenue Settlement).
„ Board of Revenue (Land Revenue).
Editors' Table (abridged).

PROCEEDINGS OF THE BOARD OF REVENUE

(REVENUE SETTLEMENT, SURVEY, LAND RECORDS AND AGRICULTURE).

The Hon'ble Mr. R. B. CLEGG, I.C.S.,

Commissioner of Land Revenue.

The Hon'ble Mr. LL. E. BUCKLEY, I.C.S.,

Commissioner of Revenue Settlement, Survey, Land Records and Agriculture.

Resolution—No. 1, dated 6th January 1914.

The Board submits its report on the settlement of land revenue in this Presidency for fasli 1322 (1912–13) together with the prescribed statements. The usual extracts from the district reports are appended. There was considerable delay in the receipt of the reports or returns from some districts. The reports from Chingleput and Chittoor were received on the 29th November and 12th December 1913, respectively, after repeated reminders. The Collector of Chingleput has not offered any explanation for the delay, while the Collector of Chittoor ascribes the delay to resettlement in consequence of which the jamabandi of the Vayalpad taluk was completed only in September.

2. *Season, rainfall and prices.*—The south-west monsoon was on the whole favourable, the total rainfall being above the average in the majority of districts. With the exception of the Circars, the total rainfall was above the average everywhere during the north-east monsoon which was also, on the whole, favourable. The rainfall in the dry weather was below the average in all the districts and the hot weather rains were also generally slightly in defect. The average annual retail prices of the staple food-grains were generally higher than in the preceding year and everywhere dearer than the normal rates. The price of rice and cholam was even dearer than the warning rates in eight districts, that of ragi in five districts and that of cumbu in nine districts. The warning rates here referred to are those fixed by Government in G.O. No. 1977, Revenue, dated 3rd July 1912.

3. *Cropped area.*—The total cropped area of the year under report (39,120,000 acres) exceeded the normal area (36,686,000 acres) by 2,434,000 acres. Cholam, gingelly, castor and indigo showed a decrease and the other crops an increase. As compared with the previous year, the cultivation under paddy, cholam, cumbu, ragi, ground-nut and tobacco showed an increase while that under castor, sugarcane, cotton and indigo showed a decrease. In no case is the outturn reported to have exceeded the normal. Paddy, indigo and sugarcane yielded a normal outturn in Coimbatore, and the yield of paddy is reported to have ranged from 67 to 92 per cent. of the normal in the remaining districts. The yield of cholam in the Nilgiris, of cumbu in Malabar, of bengalgram in Ganjām, of horsegram in Anantapur, of indigo in Madura, of other oil-seeds in Vizagapatam, Nellore, North Arcot and Rāmnād and of "all other crops including topes" in South Arcot is reported to have been below 50 per cent. of the normal. In the remaining districts the yield of crops is generally said to have ranged from 50 to 92 per cent. The Board has no doubt the outturns reported are understatements of the realities.

4. *Condition of cattle.*—The total number of deaths from disease among horned cattle showed a decrease of 1,246 as compared with the previous year, the total for the year being 50,108. Rinderpest showed a considerable decrease as compared with the previous year, while there was an increase in malignant sore-throat.

Note.—The figures in this paragraph relate to the official year 1912–13.

5. *Number of villages.*—In the year under report there was a nett decrease of 120 villages. There was an increase it Chingleput (1), North Arcot (3) and Tinnevelly (5). The increase in Chingleput was due to certain minor inams having been resumed, surveyed and settled as a separate village; that in North Arcot, to the resumption of one inam and two jaghir villages; and that in Tinnevelly, to the sub-division of villages. The decrease occurred in Cuddapah (12), Trichinopoly (29), Rāmnād (10) and Coimbatore (78). The decrease in Cuddapah was due to the exclusion of 12 shrotriem villages of the Pulivendla taluk which were wrongly included under raiyatwari in fasli 1321; that in Trichinopoly to the exclusion, for the same reason, of four inam villages of the Karūr taluk and to the reconstitution of the 94 villages of the Nāmakkal taluk into 69; that in Rāmnād, to the clubbing of villages at the resettlement; and that in Coimbatore, to the amalgamation and regrouping of villages in the Gōbichettipālaiyam and Pollachi taluks.

Statement No. 3, column 2.

6. The land revenue of the Presidency is derived from the undermentioned sources:—

(*a*) Peishcush or revenue from permanently-settled estates.

(*b*) Shrotriem jodi or quit-rent levied on inam villages.

(*c*) Assessment including water-rate on lands held under the raiyatwari system.

(*d*) Miscellaneous revenue.

(*e*) Proprietary estates village service.

7. *Peishcush or revenue from permanently-settled estates.*—The total amount of peishcush payable during the fasli was Rs. 49,85,345 against Rs. 49,90,568 in the preceding year. The decrease of Rs. 5,223 is the nett result of—

	Rs.
(*a*) Addition on account of unlocalisable service inams handed over to proprietors	145
(*b*) Addition due to cancellation of the resumption of a panchangam inam	6
Total ...	151
(*c*) Reduction on account of arrears of previous six faslis due in respect of three villages in Mannarkottai zamin (Rāmnād), included in the demand of the previous fasli	96
(*d*) Reduction on account of jodi lost by the resumption of inams ...	15
(*e*) Reduction on account of lands taken up for public purposes ...	248
(*f*) Reduction on account of the non-inclusion in the current demand of Rs. 5,015 due from the Arni jaghir which in G.O. No. 261, Revenue, dated 28th January 1913, was ordered to be collected in July 1913	5,015
Total ...	—5,374
	151
	—5,223

8. *Shrotriem jodi.*—The quit-rent payable to Government on villages held on shrotriem or favourable tenure was Rs. 7,52,019 or Rs. 1,007 less than in the previous fasli. The following are the reasons for the difference :—

	Rs.
(*a*) Addition on account of unlocalisable service inams handed over to proprietors	279
(*b*) Addition on account of transfer of minor inams to major inams...	8
Total ...	287
(*c*) Reduction on account of major inams treated as minor inams ...	331
(*d*) Rectification of errors	26
(*e*) Reduction due to certain back assessment included in the last year's demand	85
(*f*) Reduction on account of resumption	704
(*g*) Reduction on account of acquisition of land for public purposes...	26
(*h*) Reasons not given	122
Total ...	—1,294
	287
	—1,007

9. *Holdings.*—The total extent of the raiyatwari holdings during the year was 25·16 million acres and exceeded that of the previous year by about 157,000 acres. The increase was contributed by all the districts except Kistna and Tanjore which together showed a decrease of 3,056 acres. The decrease in Kistna was due to the extent of land relinquished during the year having been larger than that taken up on darkhast, while that in Tanjore, was chiefly due to the transfer of patta land to poramboke in the Mannārgudi taluk in connection with the acquisition of lands for the Tanjore District Board Railway extensions. The increase was marked in the districts of Guntūr, Anantapur, Bellary, Kurnool and North Arcot and it was generally due to the expansion of cultivation owing to the favourable character of the season.

Statement No. 4, columns 18, 19 and 20.
Statement No. 5, column 18.

10. *Assessment.*—The total assessment on holdings was Rs. 508·91 lakhs against Rs. 506·94 lakhs in the previous year. More than half the increase occurred in North Arcot (Rs. 18,570) and Coimbatore (Rs. 91,679); in the former district, it was mainly due to the favourable character of the season and in the latter it was mostly due to the introduction of the resettlement rates in Pollachi, Udamalet and in three firkas of the Kollegal taluk.

Statement No. 4, columns 22, 23 and 24.
Statement No. 5, column 19.

11. *Cultivation.*—Compared with the previous year, the area cropped on raiyatwari holdings showed an increase of 670,549 acres, a result of the generally favourable character of the season. There was a decrease of 418,964 acres under waste charged. The increase of cultivation was marked in the districts of Cuddapah, Anantapur, Bellary, Kurnool, Chittoor, Trichinopoly, Madura, Tinnevelly, Salem and Coimbatore. Including the area under miscellaneous cultivation, the total area cropped amounted to 21·86 million acres against 21·04 million acres in the previous year.

Statement No. 3, column 49

12. *Water-rate and second-crop charge.*—The revenue from these sources amounted to Rs. 34·31 lakhs against Rs. 30·77 lakhs, or nearly Rs. 3,54,000 more than in the preceding year. This increase was made up of about Rs. 1,75,000 under "water-rate on dry lands" and of about Rs. 1,79,000 under "second-crop charge." There were large increases in the districts of Kistna (Rs. 47,957), Nellore (Rs. 59,111), Anantapur (Rs. 83,483) and Madura (Rs. 38,954), but there was a large decrease in South Arcot (Rs. 22,685). The increase, where it occurred, was generally due to the favourable character of the season; in Kistna it

Statement No. 3, columns 43, 48 and 53.
Statement No. 4, columns 26, 27 and 28.

was also due to unauthorized irrigation being charged with heavier penalties. The decrease in South Arcot occurred under fasaljasti and was due to late rains and the scanty rainfall after November.

13. *Remissions.*—As compared with the previous year, there was a nett decrease of Rs. 7·92 lakhs, "season" and "fixed" remissions showing a decrease and "beriz" deductions an increase.

Statement No. 6.
Statement No. 4, columns 46, 47, and 49.

(i) *Season remissions.*—The remission under this head showed a nett decrease of Rs. 7·33 lakhs. The decrease occurred under all the sub-heads except "land injured by water" and "second-crop charge"—

(*a*) *Waste remitted.*—The remission under this head amounted to Rs. 1·11 lakhs or Rs. 3·76 lakhs less than that remitted in the previous year. A sum of Rs. 30 was remitted on 11 acres of dry land in Kistna under G.O. No. 626, Revenue, dated 25th July 1901. The rest of the remission related to 25,096 acres of wet land. Wet remissions were granted in almost all the districts, the largest amounts being in the districts of Cuddapah, Anantapur, Kurnool and Chittoor. These districts were responsible for more than half the remission granted under this head.

(*b*) *Shavi or short crop.*—The total amount remitted under this head was Rs. 59,599 against Rs. 1,82,263 in the previous year showing a nett decrease of Rs. 1,22,664, the bulk of the decrease (Rs. 1,00,943) being in Ganjām, Vizagapatam, Kurnool and Madura; of the total shavi remissions, Rs. 58,468 related to wet lands and Rs. 1,131 to dry lands. A sum of Rs. 565 was granted under "short crop" during the year under report.

(*c*) *Injury by floods.*—The amount remitted under this head was Rs. 11,979 against Rs. 7,017 in the previous year, showing an increase of Rs. 4,962, Ganjām, Guntūr, and Chingleput alone contributing Rs. 4,906 towards the increase. In Ganjām, crops on certain areas in the Berhampur and Chicacole taluks were submerged. In Guntūr, damage was caused by the floods in the Kistna river, while in Chingleput submergence was caused by the heavy rainfall during the north-east monsoon.

(*d*) *Tirvakammi remission* (*i.e.*, remission of the difference between wet and dry assessment on wet land cultivated with dry crops owing to insufficiency or failure of the water-supply) amounted to Rs. 1,25,677 against Rs. 3,67,015 in the previous year, showing a decrease of Rs. 2,41,338. The decrease was large in the districts of Cuddapah, Anantapur, Kurnool, Chittoor and Salem; these districts together account for Rs. 1,62,815 or about 70 per cent. of the total decrease under this head.

(*e*) *Other remissions.*—A sum of Rs. 943 was granted under this head, of which Rs. 918 related to reclamation of land in Nellore.

(ii) *Fixed remissions*—(or abatements of the demand granted for reasons unconnected with the season) amounted to Rs. 2·44 lakhs or 0·63 lakh less than in the previous year. The decrease occurred under all the sub-heads except "dasabandam remissions" "cowle remissions" and "other items." "*Increment remissions*" amounted to Rs. 1,26,121. These remissions are allowed on the introduction of settlement or resettlement in cases where the increase over the old assessment is in excess of 25 per cent., the rule being that such increase should be imposed in instalments increasing every year in amount. Such remissions were granted in Ganjām, Guntūr, Nellore, Cuddapah, Bellary, Kurnool, Chingleput, North Arcot, Trichinopoly, Rāmnād, Tinnevelly, Coimbatore, Salem, South Canara and Malabar. In the last two districts the amounts granted aggregated to as much as Rs. 0·98 lakh.

(iii) *Beriz deductions* (deductions made from village collections in favour of inamdars and religious institutions) amounted to Rs. 8·79 lakhs against Rs. 8·76 lakhs in the previous year showing a small increase of Rs. 3,418. There was, however, a large decrease in Tanjore (Rs. 11,302) mainly due to the arrear payments of Rs. 11,062 due to Sri Sankaracharier's Mutt made during the previous year.

14. *Miscellaneous revenue.*—The revenue under this head amounted to Rs. 92·16 lakhs or Rs. 1·56 lakhs more than in the previous year. This increase is the nett result of large increases in the districts of Kistna (Rs. 76,981), Guntūr (Rs. 40,994), Cuddapah (Rs. 23,320), Tinnevelly (Rs. 59,192) and Salem (Rs. 24,065) and of large decreases in the districts of Ganjām (Rs. 21,388), Gōdāvari (Rs. 68,551) and Tanjore (Rs. 19,809). The decreases under item 1—"Jodi and quit-rent on minor inams" (Rs. 2,405), item 7—"Revenue derived from tree pattas" (Rs. 7,022), item 8—"Commission on estates under Court of Wards' Management" (Rs. 6,000), item 9—"Revenue from process-service fees" (Rs. 272), item 11—"Rent of lankas" (Rs. 9,260) and item 13—"Other items" (Rs. 5,438) and the increases under item 3—"Charge for water in zamindari and inam villages" (Rs. 6,777) and item 10—"Sale-proceeds of land sold" (Rs. 2,266) were small and call for no remarks. Item 2—"Water-rate on minor inams in raiyatwari villages," item 5—"Occupation (with or without application of assessed and unassessed lands" and item 12—"Quit-rent and ground-rent", showed large increases, while item 4—"Enhanced water-rate on lands irregularly irrigated" and item 6—"Occupation of poramboke land" showed large decreases. These items will be dealt with below :—

Statement No. 9.
Statement No. 4, columns 54 to 57.

Item (2)—The water-rate on minor inams in raiyatwari villages amounted to Rs. 15·38 lakhs showing a nett increase of Rs. 1·24 lakhs over the revenue under this head in the previous year. Gōdāvari and Kistna alone contributed an increase of Rs. 0·84 lakh.

Item (4)—The enhanced water-rate on lands irregularly irrigated amounted to Rs. 4·07 lakhs or Rs. 0·28 lakh less than in the previous year. Madura and Tinnevelly together showed a decrease of Rs. 0·30 lakh: the decrease in Madura was due to the decrease in the number of cases of irregular irrigation during the fasli as the result of imposition of heavy penalties in the previous fasli and that, in Tinnevelly, was due to remission during the fasli of a major portion of the prescribed enhanced rates in consideration of the more favourable character of the season.

Enhanced water-cess for irregular irrigation.—In G.O. No. 684, Revenue, dated 7th March 1913, Government directed that a system should be tried in each district whereby previous notice should be given to the raiyats concerned that they have been reported to have used Government water irregularly and that they have thereby rendered themselves liable to the imposition of enhanced water-cess. The experiment was not introduced in most of the districts in the year under report as the details of the system best suited for each district could not be settled till very late in the year. In Cuddapah and Kurnool, the system though introduced in the fasli was not given sufficient trial. The Collector of South Arcot reports that 650 objection petitions were received in response to special notices, but only in one case was the original order found to require modification. The system will be given a more extended trial in the current fasli.

Item (5)—*Land occupied with or without application.*—The revenue under this head amounted to Rs. 8·64 lakhs or Rs. 1·22 lakhs more than in the previous year due evidently to the favourable character of the season.

Item (6)—*Poramboke occupation.*—The revenue under this head amounted to Rs. 5·11 lakhs, but it includes the revenue on "unassessed waste" in a few districts. Particulars relating to "poramboke" and "unassessed waste" were not supplied separately in the returns for fasli 1321 for the districts of Anantapur, Bellary, North Arcot, South Arcot, Rāmnād, Tinnevelly and Salem, and in spite of a special direction to this matter last year, it is observed that the returns furnished by the Collectors of Anantapur, Bellary, Rāmnād and Salem have not been prepared according to the instructions conveyed in G.O. No. 1681, Revenue, dated 6th June 1912. The attention of the Collectors will again be drawn to this matter. Owing to this defective information, no comparison can be made between the poramboke cultivation of the year under report and that of the preceding year. The total extent occupied measured 105,466 acres. Of the revenue of Rs. 5·11 lakhs, Rs. 3·59 lakhs represent enhanced charges levied on 33,249 acres of land giving an average rate of Rs. 11 per acre. Tanjore, Rāmnād and South Canara show the highest average

Statement No. 9-A.

rates, viz., 34, 36 and 52 respectively. The heavy incidence in these districts has not been explained. In Tanjore, the encroachers were ordered to be evicted in 1,474 cases against 2,249 in the previous year.

Item (12).—The revenue from quit-rent and ground-rent amounted to Rs. 1·59 lakhs or Rs. 0·20 lakh more than in the previous year. Bellary and Tinnevelly together accounted for an increase of Rs. 0·18 lakh; the increase, in the former district, was mainly due to the collection of 20 years' quit-rent for conversion into freehold of shrotriem Bannihatti village of the Hospet taluk and to the rent collected from the South Indian Manganese Company, and that in the latter was chiefly due to the revision of the ground-rent rates in Tuticorin.

15. The nett raiyatwari demand, excluding remissions but including water-rate, second-crop charge and miscellaneous revenue amounted to Rs. 620·88 lakhs against Rs. 605·89 lakhs in the previous year. The details for this increase of Rs. 14·99 lakhs are given below:—

Statement No. 4, columns 24, 28, 49, 56, 58, 59 and 60.

	Lakhs of Rupees.
Increase in the assessment of holdings	1·97
Do. under second-crop charge ...	3·54
Decrease under remissions	7·92
Increase under miscellaneous revenue	1·56
	14·99

16. *Total land revenue demand* (*current*).—The demands under the several heads are compared below with the figures for the previous year:—

	Fasli 1321.	Fasli 1322.
	Rs.	Rs.
Peishcush on permanently-settled estates ...	49,90,568	49,85,345
Shrotriem jodi	7,53,026	7,52,019
Raiyatwar and miscellaneous	6,05,64,722	6,20,87,398
Total ...	6,63,08,316	6,78,24,762

The decrease under "Peishcush on permanently-settled estates" and "Shrotriem jodi" and the increase under "Raiyatwar and miscellaneous" have been explained the preceding paragraphs.

17. *Total demand under cesses* (*current*).—The current demand under cesses is as follows:—

	Fasli 1321.	Fasli 1322.
	Rs.	Rs.
(1) Land-cess on permanently-settled estates ...	14,15,513	14,07,297
(2) Land-cess on whole inam villages	3,82,271	3,86,060
(3) Cess on raiyatwar and miscellaneous	48,39,836	49,32,175
Total ...	66,37,620	67,25,532

The decrease under item 1 is very large in Chittoor and North Arcot. The Collector of Chittoor explains it to be due to the fact that cesses were calculated on the rental of fasli 1321 which was not a favourable year. The decrease in North Arcot is attributed to the fact that in G.O. No. 261, Revenue, dated 28th January 1913, Government ordered that the peishcush on Arni Jaghir should be collected in the month of July. The increase under item 3 follows the increase in the revenue.

18. *Demand and collection of land revenue and cesses* (*current*).—The current demand under land revenue and cesses was Rs. 7,51,04,192; Rs. 7,42,60,845 or 98·8 per cent. was collected within the fasli and a sum of Rs. 904 was written off the accounts.

19. *Demand and collection of arrears*.—The total arrear demand under all heads was Rs. 12,72,691; Rs. 11,52,523 or 90·5 per cent. was collected within the fasli and Rs. 14,767 or 1·16 per cent. was written off the accounts.

20. *Total balance of land revenue and cesses.*—The balance outstanding at the end of the fasli including both arrears and current was Rs. 9,47,844. Including the revenue from the Kurnool-Cuddapah canal which is dealt with in the monthly demand, collection and balance statements the balance on 1st July 1913 was Rs. 9,49,722. Up to the end of October 1913, Rs. 7,26,285 or 76·5 per cent. have been collected. Rs. 18,377 have been written off the accounts and Rs. 3,658 are considered to be irrecoverable. The nett recoverable balance on 1st November 1913 was Rs. 2,01,402. Steps have been taken to collect this amount.

21. *Reconciliation of differences between the collections of land revenue and cesses as shown in the Jamabandi and the Accountant-General's statements and over payments.*—Information on these points has not yet been received from eleven Collectors. The subject will be dealt with in a separate report.

22. *Distribution of collections between land revenue and cesses.*—Land revenue and cesses are not collected separately and no attempt is made to exhibit the collections separately under these heads in the village accounts. The total collections are distributed between land revenue and the several cesses in the Collector's office. The process consists of two stages, of which the first or the provisional distribution is effected by crediting to each head month by month, such portion of the lump collections as will bear the same proportion to the demand under the head as the total collection bears to the total demand under all the heads. The second stage is the final adjustment which consists in correcting the provisional credit by transfer from one head to another, where necessary, after the entire demand for the year under all the heads has been collected or written off.

The statements of distribution for fasli 1322, received from Collectors, show that, except in the districts of Ganjām, Nellore, Gōdāvari, Anantapur, Chittoor, Chingleput, South Arcot, Tanjore and Madura, the variations between the amounts due to the cesses in fasli 1322 and the amounts actually credited were inconsiderable. The accounts of fasli 1318 remained unadjusted in one district, those of 1319 in three, those of 1320 in three and those of 1321 in eleven.

23. *Charges debitable to land revenue.*—The charges of district administration including salaries, etc., of Revenue Inspectors, but excluding those of village establishment were Rs. 58,23,400 or 7·7 per cent. of the land revenue and cesses realised against 7·6 per cent. in the preceding fasli. The village service charges including proprietary estates during the fasli were Rs. 67,02,004. Including this sum which is met from Provincial funds, the total charges were Rs. 1,25,25,404 or 16·6 per cent. of the collections of land revenue and cesses

24. *Processes under Act II of* 1864.—Statement No. 12 shows the particulars of the coercive processes issued for the realization of Government dues under Act II of 1864. The following abstract compares the number of processes of each kind issued during the year with the figures for the three preceding faslis :—

Coercive processes.	Fasli 1319.	Fasli 1320.	Fasli 1321.	Fasli 1322.
Demand notices	1,538,087	1,463,605	1,198,222	1,113,240
Distraint and attachment notices.	184,884	164,313	157,710	94,496
Sale Notices	84,728	85,651	89,190	49,527
Sales (number of defaulters) ..	3,564	2,747	3,491	1,973
Total ..	1,811,263	1,716 316	1,448,613	1,259 ,236

There has been a progressive decrease in recent years in the total number of processes issued and the number in the year under report shows a further decline.

25. *Demand notices.*—The instruction that these notices should only be issued when absolutely necessary has been kept in view. The number decreased in 16 districts especially in the districts of Kistna, Cuddapah, Bellary, Kurnool, Chingleput, North Arcot, Tanjore, Tinnevelly and the Nilgiris. On the other hand, there was a marked increase in the districts noted in the margin The Collector of Chittoor states that the increase

Districts.	Fasli 1321.	Fasli 1322.	Increase.
Chittoor ..	49,166	53,941	4,775
South Arcot ..	6,545	7,774	1,229
Trichinopoly ..	55,708	79,155	23,447

in his district is chiefly due to the growing tendency among the raiyats to defer payment of kist till demands are actually brought to their doors. The Collector of South Arcot reports that the increase in his district is observed chiefly in the Cuddalore taluk and that the Tahsildar has been called upon to state the cause. The Collector of Trichinopoly states that the increase in his district was due to the season being not wholly favourable.

26. *Distraint or attachment.*—The number of processes under this head was 94,496 in the year under report against 157,710 in fasli 1321 and 164,313 in fasli 1320. There was a decrease in 17 districts.

27. There was a decrease in the percentage borne by the number of distraints and attachments to that of demand notices as compared with the previous fasli. The number of defaulters, whose immoveable property was attached in the year, was 17,755 against 25,096 in fasli 1321. The large disproportion noticed in the Madura district in previous years between the number of defaulters whose personal property was distrained (373) and the number of those whose real property was attached (4,452) is again noticeable and is due, as stated in previous reports, to the large number of absentee pattadars in the area irrigated by the Periyār.

Faslis.	Percentage of attachment to the total number of demand notices.		
	Personal property.	Real property.	Total.
1320	9·99	1·22	11·22
1321	11·07	2 09	13·16
1322 .. .	6·89	1·59	8·49

28. *Sale notices.*—Out of 94,496 defaulters whose property was attached, 44,969 or 47·58 per cent. paid the arrears before sale notices were issued. The percentage was 43·45 in fasli 1321, 47·8 in fasli 1320 and 54·1 in fasli 1319.

29. *Sales.*—The number of defaulters whose property was sold was less than in fasli 1321. The percentage of actual sales to sale notices was 3·98 against 3·91 in fasli 1321 and that of the number of defaulters whose property was actually sold to the total number of pattas was ·05 against ·09 in the previous fasli. The subjoined statement compares the particulars of sales in fasli 1322 with the figures for the three previous faslis :—

—	Personal property.				Real property.				Total.			
	Fasli 1319.	Fasli 1320.	Fasli 1321.	Fasli 1322.	Fasli 1319.	Fasli 1320.	Fasli 1321.	Fasli 1322	Fasli 1319.	Fasli 1320.	Fasli 1321	Fasli 1322.
Percentage of sales of property to—												
(1) the number of pattas	·04	·03	0·4	·01	·06	·04	·05	·04	·10	·07	·09	·05
(2) the number of attachments.	·91	·80	1·09	·69	9·70	8·42	8·10	8·10	1·90	1·67	2·21	2·09
(3) the number of sale notices.	Figures relating to sale notices do not distinguish between personal and real property.								4·2	3·2	3·91	3·38
Arrears at the beginning of the fasli under report under raiyatwar and miscellaneous.	In lakhs of rupees.								9·41	11·71	9·99	6·65
Arrear balances at the end of the fasli.									·73	·21	·32	1·01
Percentage of current collections to current demand.									97·7	98·5	99·03	99·08

Value of lands sold.—Immoveable property of the estimated value of Rs. 90,776 was sold for the recovery of arrears amounting to Rs. 23,577 and realized Rs. 51,204. The price fetched by lands sold to private individuals was on the average 6 times the assessment in the case of dry lands and 5·8 times the assessment in the case of wet lands. In fasli 1321, immoveable property of the estimated value of Rs. 92,844 was sold for arrears amounting to Rs. 36,088 and the average prices fetched by lands sold to private individuals were 4·8 times the assessment in the case of dry lands and 4·9 times the assessment in the case of wet lands.

Extent of land sold.—The extent of land sold during the year was 6,169 acres under dry and 1,660 acres under wet against 10,158 acres under dry and 3,685 acres under wet in fasli 1321. The corresponding figures for fasli 1320 were 8,333 acres under dry and 1,980 acres under wet.

Lands bought in by Government—The total area of lands bought in by Government for want of bidders was 1,931 acres of dry and 578 acres of wet against 4,617 acres of dry and 1,774 acres of wet in fasli 1321. More than one-half of the total area bought in was in Kistna, Cuddapah, Bellary and Madura.

30. *Process service establishments.*—Statement No. 13 gives the particulars of processes served by the ordinary village agency or by special establishment and the fees realized during the year. The total number of processes served was 1,207,58 or 16,649 less than in fasli 1321. The number of processes served by the special agency (53,152) was also less than in the previous fasli (56,415).

The special establishment was employed in the same districts as in fasli 1321. Its cost was covered by the fees realized except in Kistna where there was a small deficit.

31. *Costs in civil suits.*—Rupees 17,232 were awarded to Government as costs during the year. Including Rs. 12,225 the revised opening balance, the total demand was Rs. 29,457 of which Rs. 14,281 were collected, Rs. 221 were written off the accounts and Rs. 796 were reported to be irrecoverable. The nett recoverable balance at the end of the year was Rs. 14,159 made up as follows:—

	Rs.
(1) Amount collected after the close of the fasli	2,016
(2) Amount remaining uncollected pending decision of appeals by Civil Courts	1,757
(3) Amount involved in execution proceedings	2,066
(4) Amount for not collecting which no reason is assigned	8,320

32. *Interest on arrears of land revenue (Statement No. 14).*—The total demand on account of interest on arrears of land revenue, including the balance at the beginning of the fasli, was Rs. 33,482, of which Rs. 19,708 were collected, and Rs. 579 remitted, leaving a balance of Rs. 13,195 against Rs. 22,592 (revised figure) at the end of the previous fasli. More than half the arrears at the end of the fasli relates to Chittoor. The only other districts in which the arrears under this head are large are Ganjām and Chingleput. Steps are being taken for recovery.

33. *Sale of land under Standing Orders Nos.* 15, 16, 20, 21, 45 *and* 90.—Under the rules for the sale of occupancy rights in assessed waste lands (Standing Order No. 15), 2,188 acres, assessed at Rs 3 056. were sold for Rs 1,35,939; 125 acres of tank-bed lands, assessed at Rs 161, were sold for Rs. 4,484 under Standing Order No. 16; 268 acres of waste lands in the Nilgiris and other special tracts, assessed at Rs. 229, were sold for Rs. 2,787 under Standing Order No. 20; 23 acres of house sites in towns were sold for Rs. 13,488 under Standing Order No. 21; 627 acres, assessed at Rs. 667, which had been bought in by Government at sales for arrears of revenue, were re-sold under Board's Standing Order No. 45 for Rs. 3,642; 61 acres, assessed at Rs. 104, which had been acquired for public purposes and subsequently relinquished, were sold under Standing Order No. 90 for Rs. 3,114.

34. *Sub-division of quit-rent.*—No applications were received during the year under Standing Order No. 58 for the sub-division of the joint liability of shareholders in whole inam villages or minor inams in any of the districts in the Presidency.

35. *Transfer of registration of holdings (Statement No. 15).*—Transfers of revenue registration fall under one or other of the following three heads:—

(1) Transfers applied for through Registration officers.
(2) Transfers applied for direct to Revenue officers.
(3) Transfers proposed by Revenue officers *suo motu.*

(1) Under the first head, 53,810 applications were received during the fasli against 55,412 (revised figure excluding cases dealt with by the special staff) in the previous fasli. The variation is small and calls for no remark.

(2) The number of applications presented direct to the Revenue officers was 40,968 as against 44,194 (revised figure excluding cases dealt with by special staff) in fasli 1321—a decrease of 3,526 or 7·9 per cent. The bulk of the decrease was in Kistna (475), Chittoor (328), Tanjore 773), Madura (752) and Tinnevelly (3,102).

(3) The number of cases, which Revenue officers dealt with on their own initiative under paragraphs 5 and 7 of Board's Standing Order No. 31, rose from 13,676 in fasli 1321 to 16,605 in fasli 1322. The largest increase was in Tanjore (2,014).

The total number of cases of all kinds to be dealt with in the fasli under report including the number pending disposal at its beginning was 126.801; of these 111,389 were disposed of during the fasli, leaving a balance of 15,412 pending at the close of the fasli, of which 1,768 have since been disposed of.

36. *Ruined tanks.*—No tanks were handed over to private individuals for repair under Board's Standing Order No 8 anywhere except in Tinnevelly where a single tank was so assigned and repaired at a cost of Rs. 2,500. The ayakat of 42·31 acres is subject to the payment of assessment at a special rate of Rs. 3 per acre.

37. *Settlement by Collectors.*—The rule laid down in paragraph 2 of Board's Standing Order No. 12 that the settlement of each taluk should be conducted by the Collector himself once in five years, was complied with except as regards Polavaram and Nugur in Gōdāvari, Kaikalur in Kistna, Kamalapuram in Cuddapah, Madanapalle in Chittoor, Tiruvannāmalai in North Arcot, Papanasam in Tanjore and Tiruchengode in Salem. The Collectors of North Arcot and Salem intend to take up, in the current year, the settlement of the taluks not settled by them. The Collectors of Gōdāvari, Kistna, Cuddapah, Chittoor and Tanjore are requested to adopt the same course in respect of the taluks not settled by them within five years.

38. *Loans and Advances.*—The advances made under the Land Improvement Loans Act during fasli 1322 amounted to Rs. 3·11 lakhs and those under the Agriculturists' Loans Act to Rs. 4·59 lakhs. The aggregate amount advanced under both the Acts was thus Rs. 7·70 lakhs as against Rs. 6·76 lakhs in the preceding fasli. The increase is the nett result of a decrease in nine districts and of an increase in the remaining districts in which advances were made. The increase occurred chiefly in the districts of Bellary, Chingleput, North Arcot, Chittoor, Coimbatore, Trichinopoly and Tinnevelly, while the decrease was large in the district of Madura. The increase in North Arcot and Tinnevelly was due to the efforts of the Special Deputy Collector who was employed in these districts to popularize State loans

39. *Objects to which loans were applied.*—In regard to the amounts advanced under the Land Improvement Loans Act, Rs. 1,45,477 or about 47 per cent. were for sinking new wells, the bulk of the disbursements having been made in Coimbatore, Tinnevelly, Madura, Trichinopoly and Chingleput; Rs. 62,870 were for repairing old wells, mostly in Coimbatore, Madura, Trichinopoly and Tinnevelly and Rs. 32,847 for the reclamation of land, the bulk of which was expended in Madura, Bellary and Kurnool The loans granted for other purposes amounted to Rs. 70,091. Under the Agriculturists' Loans Act, a sum of Rs. 4,06,503 or 88 per cent. was advanced for the purchase of cattle, chiefly in the districts of Chingleput, Trichinopoly, Madura, Bellary, Anantapur, North Arcot, Chittoor, Tanjore, Kurnool, Salem and South Arcot; Rs 33,553 were lent for the purchase of fodder, a large portion of the amount having been spent in Bellary, Cuddapah and Kurnool; Rs. 3,007 were lent for the purchase of seed-grain and Rs. 16,348 for other purposes.

40. *Recoveries.*—Of the sums of Rs. 3·33 lakhs and Rs. 3·35 lakhs repayable during the year under the Land Improvement and the Agriculturists' Loans Acts respectively on account of principal, Rs. 3 03 lakhs or 91 per cent. under the former Act and Rs. 3·0 lakhs or 90 per cent. under the latter were collected. Advances amounting to Rs. 34,348 under the former Act and Rs. 12,444 under the latter Act were repaid by borrowers on account of loans the repayment of which had not fallen due, while sums amounting to Rs. 506 under the former Act and Rs. 2,682 under the latter Act were written off the accounts as irrecoverable.

41. *Coercive processes.*—The aggregate amount of principal and interest repayable during the year under both the Acts was Rs. 9,46,775; of which a sum of Rs. 2,69.267 or about 28 per cent. was collected without resort to coercive processes and a sum of Rs. 5,60,923 or 59 per cent. after the issue of demands; a sum of Rs. 28,302 was realized after attachment but before sale, a sum of Rs. 767 by the sale of moveable property and a sum of Rs. 2,459 by the sale of immoveable property. The balance outstanding at the end of the year was Rs. 85,057, the arrear being heaviest in Madura (Rs. 15.257), Trichinopoly (Rs. 14,819), Bellary (Rs. 11,422), Anantapur (Rs. 10,3 0) and Chingleput (Rs. 7,788).

42. The following statement shows the amount of interest payable by the Local Government to the Government of India for fasli 1322:—

Acts.	Amount advanced to the Local Government by the Government of India.			Interest payable for the year by the Local Government to the Government of India at 3½ *per cent.* on the mean outstanding.
	Outstanding at the beginning of the year.	Outstanding at the end of the year.	Mean outstanding.	
	RS.	RS.	RS.	RS.
Land Improvement Loans Act	31,97,930	31,70,921	31,84,425	1,11,455
Agriculturists' Loans Act	14,21,141	15,65,470	14,93,305	52,266
Total ..	46,19,071	47,36,391	46,77,730	1,63,721

43. The subjoined statement shows the financial results of the operations under the Loans Acts:—

Items.	Land Improvement Loans Act.	Agriculturists' Loans Act.	Total.
	RS.	RS.	RS.
1. Interest payable for fasli 1322 by the Local Government to the Government of India.	1,11,455	52,266	1,63,721
2. Interest collected during the year	1,64,579	90,229	2,54,808
3. Balance of interest accruing to the Local Government, *i.e.*, difference of items 1 and 2.	+ 53,124	+ 37,963	+ 91,087
4. Remissions of principal	506	2,682	3,188
5. Nett result for 1912–13	+ 52,618	+ 35,281	+ 87,899
6. Nett result for previous years. 1907–08	+ 18,040	+ 9,044	+ 27,084
1908–09	+ 20,499	+ 12,242	+ 32,741
1909–10	+ 29,365	+ 30,726	+ 60,091
1910–11	+ 38,481	+ 37,368	+ 75,849
1911–12	+ 50,091	+ 39,005	+ 89,096
7. Expenditure on free grants in aid towards the construction of private protective works or on establishments for well boring or other outlay incurred from current revenue in connection with Takkavi transactions.	14,489	22,099	* 36,588

* Represents the cost of special establishments entertained in certain districts and the cost of time devoted to loans work by the ordinary Land Revenue establishment at 3½ *per cent.* on the amount advanced during the year.

44. With the aid of loans under the Land Improvement Loans Act, 631 wells capable of irrigating 2,348 acres of land were constructed during the fasli at an aggregate cost of Rs. 1,45,345 and 823 wells designed to benefit 1,261 acres were repaired at a cost of Rs. 56,948; Rs. 18,960 were spent on the reclamation of 1,132 acres of land; Rs. 26,850 on the purchase and installation of oil engines and pumps in the districts of Anantapur, Chingleput, South Arcot and Coimbatore; and Rupees 41,399 on other improvements benefiting about 2,220 acres of land. The Madura district shows the largest number of wells constructed and repaired (327) and it is followed by Chingleput (124) and Coimbatore (123). Under the Agriculturists' Loans Act, 6,300 head of cattle were purchased at an aggregate cost of Rs. 3,54,473 and 18 houses were rebuilt at a cost of Rs. 3,000. Seed-grain was purchased to the amount of Rs. 2,235 and Rs. 1,275 were expended on sugarcane mills. A sum of Rs. 21,884 was spent for other purposes.

45. * *Survey advances.*—The advances made during the year under "Revenue survey advances—Collectors" amounted to Rs. 78,595. Of this sum—

	RS.		RS.
Kistna spent .	21,931	Tinnevelly spent ...	3,030
Guntūr „ ...	13,915	South Arcot „ ...	2,991
South Canara „ ...	5,322	Gōdāvari „ ...	2,852
Chingleput „ ...	4,796	Coimbatore „ ...	2,800
Kurnool „ ...	4,174	Bellary „ ...	2,240
Ganjām „ ...	4,010	Malabar „ ...	2,132
Salem „ ...	3,094		

* *Note.*—The figures in this paragraph relate to the official year 1912–13.

The total amount which had to be accounted for during the year was Rupees 3,92,133 of which a sum of Rs. 62,155 was credited to "Revenue survey advances—Collectors", leaving a balance of Rs. 3,29,978.

The sum to the debit of "Cost of survey marks—Collectors" was Rs. 36,298, and of this amount Rs. 30,630 were recovered during the year from the concerned raiyats or municipalities.

Land-holders' bills to the amount of Rs. 2,08,176 were received from survey officers during the year in the districts of Vizagapatam, Kistna, Anantapur, Cuddapah, Nellore, Chingleput, North Arcot, Chittoor, Coimbatore, Trichinopoly, Rāmnād and Tinnevelly. The arrears outstanding at the beginning of the year being Rs. 2,24,513 the total amount recoverable during the year was Rs. 4,32,719. Of this a sum of Rs. 2,76,054, was collected during the year, leaving a balance of Rs. 1,56,665.

46. *Junior Civilians—Knowledge of vernaculars.*—The reports of the Collectors generally show that, with a few exceptions, their Civilian Assistants have a fair knowledge of the vernaculars and are able to dispose of vernacular papers without abstracts.

47. *The relations between the landlords and tenants in larger zamindaris.*—These relations were, with a few exceptions, fairly satisfactory. In Mandasa, Biridi and Palur estates of the Ganjām district where there had been friction before, there was some change for the better during the fasli. In the Kistna district, there was continual litigation between many tenants and their landlords, and this state of things is likely to continue for some years to come In the zamindaris of North Vallur and Chellapalli the relations are decidedly strained. In the Chittoor district their relations were not altogether amicable. Large numbers of summary suits were filed and the Collector considers that the situation is not likely to be improved so long as the main estates are being bought up by petty landholders who are not looked up to by the raiyats with the same regard as their hereditary zamindar. Friction continues between the Zamindar of Udaiyarpalaiyam and his tenants in the Trichinopoly district. Under the Estates Land Act the Zamindar has been claiming rent on uncultivated occupied lands which were hitherto exempt from such payment and in consequence there have been numerous suits. In the Kannivadi zamindari in the Dindigul taluk of Madura, the relation was anything but cordial, but there was less strain during this fasli than in the previous one. The friction that existed between the zamindars and the tenants in the Periyakulam taluk of the same district owing to irregularity in the issue of pattas and to the levy of enhanced charges for garden crops raised on dry lands with the aid of private wells did not abate The relationship continued to be strained in the Settur Zamindari of the Rāmnād district. The feelings between the Raja of Rāmnād and his raiyats were strained because the Raja wished to charge rents on waste land and on palmyras that were not actually tapped. The dispute had been simmering for some time. In the Sivaganga zamindari of the same district, the relations between the European lessees and their tenants were generally cordial though there was an important point in dispute in some of the villages bordering on the Vaigai in regard to the correct charge on Vanpayir lands, *i.e.*, wet lands cultivated with garden crops. In the zamindari of Pulur in the Tinnevelly district the landlord and the tenants were not friendly.

48. *Growth of subletting in raiyatwari tracts.*—Subletting is chiefly resorted to by those engaged in professions other than agriculture and by large landholders. It is reported to be on the increase in Ganjām, the delta taluks of Guntūr, the delta tracts of Nellore and the Tiruppattur taluk of North Arcot, while, in Tinnevelly, subletting is described as the general practice. In parts of Bellary on the other hand, there appears to be a tendency on the part of landholders to prefer to cultivate lands themselves owing to the tempting prices of food-grains and cotton.

49. *Effect of recent legislation on the people.*—In the year under report, there was no legislation affecting the people generally. The Madras Estates Land Act, 1908, has largely increased the work of Revenue officers in some districts. Its provisions are becoming better known to the people, and the Act appears to be working smoothly on the whole. The Limited Proprietors Act, 1904, is said to be finding favour with the managers and mortgagees of estates in the Nellore district.

50. *Co-operative Societies.*—During the year under report 106 societies were registered under the Co-operative Societies Act, of which, two were central, 12 non-agricultural and 92 agricultural. The total number of societies established in 25 districts of the Presidency was 1,078 at the end of the year 1912–13.

51. *Tank-bed cultivation.*—There was not much demand for tank-bed cultivation in most districts apparently owing to the favourable character of the season. Such cultivation existed to a small extent in seven districts only, North Arcot, Trichinopoly, Madura, Tinnevelly, Kurnool, Salem and Coimbatore. In the first named district, permission was accorded by the Collector in respect of three tanks in the Cheyyar taluk. There was, however, unauthorized cultivation in one tank in the Walaja taluk and in one other in the Tiruvannāmalai taluk. In these two cases the crop was either destroyed by village officers or the cultivation was penalized. In Trichinopoly, there were five applications for such cultivation. Two of them were rejected for the reason that cultivation had preceded sanction. In Madura, permission was given in three cases involving the cultivation of 10·81 acres with cucumber. In Tinnevelly, permission was granted in a single case where 33·45 acres were cultivated by 131 persons with cucumber and *pagal* (bitter gourd). Before the crops yielded, supply was received in the tank and the yield was consequently poor. In none of the above cases were the tanks found to be injuriously affected.

In the districts of Kurnool, Salem and Coimbatore unauthorized cultivation was resorted to. In the first two districts it was penalized while, in Coimbatore, the crops were ordered to be removed on pain of destruction. An experiment was however tried in Coimbatore with cucumber on 4·26 acres in three tanks with the beneficial result that weeds and obnoxious vegetation were removed to a certain extent.

Note.—(1) Variations between the arrear demand as shown in column 2 of this statement and the amount shown in column 12 of the corresponding statement for fasli 1321 are due to (1) Imposition of cesses in certain cases not previously brought to account; (2) Rectification of errors; and (3) Rounding. The Collector of Nellore has not explained the variation in his district.

(2) The current raiyatwar demand shown in column 3 of this statement against Vizagapatam Anantapur and Chittoor differs from the amount shown in column 59 of statement No. 4. The variation in Vizagapatam is due to the exclusion from this statement of assessment on resumed service inams. The other Collectors have not explained the variations in their districts.

No. 10.—Statement showing the demand, collection and balance of land revenue and cesses, etc.—*cont.*

NOTE.—(1) The dry and wet extents given in this statement differ from those given in columns 27 and 29 of statement No. 3 against Kistna, Chingleput, North Arcot and Anjengo. In Kistna, the variation is due to the inclusion of the extent relating to Rustambada village of Narasapur taluk excluded from statement No. 3 owing to its non-settlement by the time it was sent; in Chingleput, it is due to the exclusion of the extent for rented villages from this statement; in North Arcot, it is due to the exclusion of the extent relating to Arni Jaghir and Kangundi Zamindari from this statement as they are not in the ryotwar villages of the district; and in Anjengo, it is due to the fact that garden and occupied dry lands are shown as dry in this statement.

(2) The amount of assessment in column 93 differs from that given in column 32 of statement No. 3 in Kistna, Chingleput, North Arcot and Malabar. The variation in the first three districts is due to the causes mentioned in note (1). The Collector of Malabar has not explained the variation.

TABLE C.

QUINQUENNIAL.

INCIDENCE of the Land Revenue on area and population in each district in the Madras Presidency in the agricultural year ending 30th June 1909.

District.	Total area by survey less feudatories table A_1 (1) *minus* table A_1 (2).	Deduct.		Balance (*i.e.*) fully-assessed area for which returns are available.		Total revenue from land (exclusive of cesses) of district (column 2).	Population of district (column 2).
		Area not fully assessed.	Area for which returns so far as required for this table are not available.	Total.	Cultivated.

* 0·39 acre.

EXTRACTS FROM THE DISTRICT REPORTS.

1. GANJAM.

(N. MACMICHAEL, Esq., I.C.S., *Collector.*)

17. COERCIVE PROCESS AND SALE FOR ARREARS OF REVENUE.—In the number of demand and sale notices issued there was a decrease of 251 and 338 respectively. There was an increase of 212 in the case of distraint notices The decrease in the demand and sale notices was due to the favourable character of the season. The slight increase in distraint notices was due to prompt action on the part of the taluk officers in the collection of revenue. Though distraint had to be made in the case of 1,316 defaulters for an arrear of Rs. 32,159 no personal property was sold during the year. Real property of 11 defaulters was sold for an arrear of Rs. 1,190, the extent involved being 53 acres dry and 36 acres wet. Of the area sold, acres 4, 10, 21 and 1, of wet land, and acres 1, 16, 32 and 4, of dry land belong to Berhampur, Chatrapur, Chicacole and Goomsur taluks respectively. No lands were bought in by Government for want of bidders.

26. VERNACULAR CORRESPONDENCE IN THE ASSISTANT AND SUB-COLLECTOR OFFICES.—Messrs. Bhore, Rutherford and Graham knew Telugu and Uriya well. Vernacular petitions presented in person are read over to them and orders are usually passed then and there. Endorsements on petitions are generally given in the language of the petition. The Sub-Collector, Berhampur, has been insisting on Uriya being used to a greater extent than it was before. The Assistant Collector Mr. Arndt appeared in July for the Telugu lower standard examination and the results have not yet been announced.

32. (*a*) RELATION OF LANDLORD AND TENANT IN LARGE ZAMINDARIS.—The relations between the zamindars and tenants are on the whole satisfactory except in Mandasa, Biridi, and Palur. Even in these three estates the relations are not so strained as before and there has been some change for the better during the fasli.

(*b*) SELLING OF OCCUPANCY RIGHT TO NON-CULTIVATING CLASSES.—No general tendency has been noticed on the part of the ryots to sell their occupancy rights to non-cultivating classes but there is a tendency for those who have made their money in trade to invest it in land. In the Berhampur, Chicacole and Chatrapur taluks, in very few cases, occupancy rights were purchased by capitalists but these alienations are not proceeding on any considerable scale.

33. GROWTH OF SUB-LETTING IN RAIYATWARI TRACTS.—Sub-letting is chiefly resorted to by the non-agricultural classes, by those engaged in professions other than agriculture, and by the owners of large landed property. It is reported to be on the increase.

34. EFFECT OF RECENT LEGISLATION.—There was no special legislation during the year that affected the people generally. The Madras Land Encroachment Act (Act III of 1905) and the Madras Estates Land Act (Act I of 1908) worked smoothly during the year. No special difficulties of any kind have been reported.

---

2. VIZAGAPATAM.

(L. T. HARRIS, Esq., I.C.S., *Collector.*)

17. PROCESSES UNDER ACT II OF 1864.—Jamabandi statement No. 8-A gives details of the coercive processes employed in the realization of the Government dues under Act II of 1864. The following table compares the processes of each kind issued during the fasli with those of the previous fasli:—

	Fasli 1321.	Fasli 1322.
Demand notices	4,460	5,071
Distraint or attachment notices	315	152

The increase under demand notices is comparatively slight and calls for no remarks. The decrease in the distraint or attachment notices is due to favourable character of the year.

18. SALE NOTICES.—The number of sale notices issued during the year was 103 against 111 in the previous year The decrease was very small.

27. VERNACULAR CORRESPONDENCE IN THE ASSISTANT AND HEAD ASSISTANT COLLECTORS' OFFICES.—Messrs. F. W. R. Robertson, R. F. B. L. Guppy, J. I. Smith, A. C. Duff and D. G. Bles worked in the district during the year. All of them disposed of their office work in a competent manner and have a fair knowledge of the vernaculars.

34. RELATIONS BETWEEN LANDLORD AND TENANT.—The relations between landholders and ryots were satisfactory.

35. GROWTH OF SUB-LETTING IN RAIYATWARI TRACTS.—Sub-letting is generally resorted to by non-agricultural pattadars. The practice is not on the increase.

37. EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—During the year there was no special legislation that affected the people generally. The Madras Land Encroachment Act and the Estates Land Act are better understood by the people and are working smoothly.

---

3. GODAVARI.

(E. B. ELWIN, Esq., I.C.S., *Collector.*)

3. The river Gōdāvari began to rise on the 1st July 1912 and the highest flood was 14·2 feet over the crest of the anikat on the 9th August 1912. This was higher than that of previous year which was 12·5 feet on 27th September 1911 and was about 2·5 feet below the maximum flood level of 17 feet over the anikat crest on 2nd October 1891.

19. COERCIVE PROCESS.—The processes of all kinds issued numbered 229 against 275 of the previous year. The attachments and sales of moveable and immoveable property under Act II of 1864 during the current and previous faslis are compared below :—

Fasli.	Moveable property.						Immoveable property.					
	Attached.			Sold.			Attached.			Sold.			
	Number of cases.	Amount of arrear.	Value of property distrained.	Number of cases.	Amount of arrear.	Value of property distrained.	Number of cases.	Amount of arrear.	Value of property distrained.	Number of cases.	Amount of arrear.	Value of property distrained.	Amount realized by sale.
		Rs.	Rs.		Rs.	Rs.		Rs.	Rs.				Rs.
1321	20	624	734	3	51	360	..	..	..	..	..	..	*247
1322	28	21,067	10,393	6	15,669	7,525	1	134	400	..	..	..	*8,323

*Represents the amount realized by sale of moveable property.

There was no land bought in by Government as there were no land sales for arrears of revenue during the fasli. There is a slight improvement in the number of processes issued. The major portion of this number was contributed by the Tahsildar of Amalapur whose attention has been drawn to the necessity of issuing notices only in those cases where it is absolutely necessary.

27. VERNACULAR KNOWLEDGE OF CIVILIAN ASSISTANTS.—Mr. E. A. Harvey was in charge of Bhadrachelam division during the whole of the fasli under report. He passed the higher standard in Telugu in July 1911 and has an adequate knowledge of the language. Mr. F. G. Butler was Assistant to the Collector until 23rd April 1913, the date on which he proceeded on leave. He passed the lower standard in Telugu in January 1913 and had acquired a fair knowledge of the language. Mr. H. S. Shield was in charge of Rajahmundry division from 24th June 1912 to 21st October 1912. He passed the higher standard in Telugu in July 1912.

33. The additional information called for in Board's Proceedings No. 321, dated 24th August 1904, is given below ;—

(*a*) THE RELATIONS BETWEEN LANDLORDS AND TENANTS IN LARGE ZAMINDARI AREAS.—In this district, the large zamindaris are Pittapur, Kottam, Bhadrachelam, and Gopalpur. The relations existing between the landlords and tenants continued to be satisfactory on the whole. The proprietor of Bhadrachelam did not visit his estate which is regrettable. The superior proprietor of Nugur also continued to be an absentee landlord. Landlords do not generally resort to coercive processes and most of the suits filed by them are for the recovery of arrears of rent.

(*b*) GROWTH OF SUB-LETTING IN RAIYATWARI TRACTS.—The growth of sub-letting continues to be steady and is resorted to by non-agricultural landowners such as Brahmans, Vaisyas, absentee landowners and landowners engaged in professions other than agriculture, whose interest in the land is confined to leasing it out to suitable tenants. The agricultural classes, viz., Kshatriyas and Sudras, cultivate their own lands.

(*c*) THE EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—In the year under report there was no new legislation affecting the people generally.

4. KISTNA.

(J. M. Turing, Esq., I.C.S., *Collector*.)

15. Coercive processes.—The number of coercive processes of each kind issued during the year under report is shown below :—

	Fasli 1321.	Fasli 1322.	Difference.
Demand notices	16,035	6,480	9,555
Attachment notices	6,184	1,871	4,313
Sale notices	4,638	887	3,751

The large decrease is due to prompter steps having been taken to collect the revenue without unnecessarily issuing processes and in part no doubt to a favourable season. Out of an extent of 1,434 acres sold for arrears of revenue an extent of 440 acres was purchased by Government for want of bidders and the rest was purchased by private individuals.

25. Relations between the landlords and tenants.—I do not regard these relations as fully satisfactory at present. Act I of 1908 has destroyed the subservience of the tenants to their landlords, an inevitable result and one by no means to be deplored. Temporarily, however, there is continual litigation between a certain percentage of tenants and their landlords and this condition of things is likely to continue for some years to come. In the zamindaris of North Vallūr and Challapalli, I believe, the relations between landlord and tenant to be decidedly strained.

27. The effect of recent legislation on the people.—There was no special legislation during the year that affected the people generally. The Estates Land Act of 1908 is working fairly satisfactorily but it will be several years before the many doubtful points arising out of it are satisfactorily settled.

28. Growth of sub-letting in raiyatwari tracts.—It is believed that there is no marked increase in sub-letting.

30. Vernacular knowledge of Civilian Assistants.—All the Sub-Collectors who worked in the district during the fasli had an adequate knowledge of Telugu. Mr. F. H. Senneck, Assistant Collector, joined the district only in January 1913 and he has not yet passed the vernacular test.

---

5. GUNTUR.

(J. N. Roy, Esq., I.C.S., *Collector*.)

23. Particulars of coercive processes employed in the realization of Government demand under Act II of 1864.—The subjoined statement shows the number of processes of each kind issued during the fasli under report and the previous fasli :—

	Fasli 1321.	Fasli 1322.
Demand notices	54,066	52,354
Attachment notices	3,788	3,401
Sale notices	110	40
Sales	58	40

There has been a progressive decrease in recent years in the total number of processes issued and the number in the year under report shows a further decline.

36. Vernacular knowledge of the Civilians.—Mr. Gharpurey can talk fairly fluently in Telugu.

37. The relation between landlords and tenants.—There are no zamindari estates in the district except a portion of the Venkatagiri estate situated in the Ongole division. The relation between the zamindar and his tenants in these villages continues satisfactory.

38. Growth of sub-letting in raiyatwari villages.—The practice of sub-letting seems to be on the increase in the delta taluks. It does not prevail to the same extent in the upland taluks.

40. Effects of recent legislation.—Act III of 1905 is working smoothly and there have been no other recent enactments calling for notice.

---

6. NELLORE.

(Rao Bahadur T. Raghaviah, Esq., B.A., *Collector*.)

20. Coercive processes.—The number of demand notices followed by sales was 170 against 281 in the previous year. The fall is due to greater ease in collection which is the result of the high prices fetched by agricultural produce which in this district consists mostly of food-grains. Further details are furnished in the enclosed statements (M) and (N).

30. THE RELATION BETWEEN LANDLORD AND TENANT IN THE LARGER ZAMINDARIS.—The management of the Venkatagiri estate continued to be on the whole efficient and the relations between the Maharaja and his tenants were not less cordial than in the previous years. A Government official was appointed Tahsildar of the Pamur estate now under the management of the Raja Narasingarji of Hyderabad, and the administration of the estate is improving. The relation between the landlords and tenants in that estate is reported to be amicable. Chundi is under the management of an Estate Collector and Muthyalapad is being managed well.

31. GROWTH OF SUB-LETTING IN RAIYATWARI VILLAGES.—The petty landholders among the agricultural classes continue to cultivate their lands themselves but the larger ones among them have of necessity to sub-let portions of their holdings. This tendency is perceptibly growing in the delta tracts of Nellore and Kovur taluks where tenants are not wanting. Non-agricultural landholders continue to sub-let their holdings. In the upland taluks, many landholders of the latter class are forced to cultivate their lands themselves for want of tenants or to finance farm servants and share the produce with them. Sub-letting is not in the increase except in the delta tracts.

33. THE EFFECT OF THE RECENT LEGISLATION ON THE PEOPLE.—The provisions of the Madras Estates Land Act which alone of the recent Acts affects the masses, are being understood more and more. The Limited Proprietors' Act of 1911 finds favour with managers and mortgagees of estates. With the recent legislation of a political character such as the Seditious Meetings Act, the Explosives Act and the Press Act, the masses in this district do not concern themselves. No prosecutions under the Press Act were instituted during the year.

34. VERNACULAR LANGUAGE OF CIVILIANS.—The only Civilian division in the district is Gudur. It was presided over by a Civilian Officer during the second half of the year. He passed the prescribed test in Telugu and was able to converse with the ryots in that language.

7. CUDDAPAH.

(J. F. BRYANT, Esq., M.A., I.C.S., *Collector.*)

13. PROCESSES UNDER ACT II OF 1864.—Statement No. 8 shows the particulars of coercive processes issued. The following abstract compares the number of processes of each kind issued during the years 1321 and 1322 :—

	Fasli 1321.	Fasli 1322.
Demand notices	43,835	32,856
Distraint and attachment notices	5,414	4,497
Sale notices	2,161	1,943
Sales (number of defaulters)	458	320

There was appreciable decrease under all heads during the year under report. Out of 4,497 defaulters whose property was attached, 2,554 or 57 per cent. paid the arrears before sale notices were issued. The percentage in fasli 1321 was 60. The number of persons whose personal property was sold was 60 against 63 in the previous year, while those whose real property was sold fell from 395 in the previous year to 260 in the current year, a noticeable decrease occurring in Rayachoti taluk on account of the favourable season. Immoveable property of the estimated value of Rs. 5,491 was sold for the recovery of arrears amounting to Rs. 1,863 against Rs. 10,864 and 3,555 respectively in the preceding year. Dry lands purchased by private individuals fetched on an average Rs. 2–11–0 per acre while the wet ones fetched Rs. 13–4–0 against As. 14 and Rs. 16 respectively of last year. One thousand three hundred and thirty acres of dry and 130 acres of wet lands were sold during the year against 2,203 and 183 respectively in the preceding fasli. Out of 1,330 acres of dry land, 443 acres were bought in by Government for want of bidders. The greater part of the area relates to Pullampet, Jammalamadugu and Rayachoti where there is a large area of land for which there is no demand on account of the poverty of the soil. Of the land sold and bought in by Government in this and in the previous years, 145 acres were resold and fetched Rs. 79.

17. VERNACULAR KNOWLEDGE OF CIVILIAN DIVISIONAL OFFICERS.—There was no Civilian Divisional Officer in the district during the year.

18. RELATIONS BETWEEN THE LANDLORDS AND TENANTS:—Call for no special remarks.

19. SUB-LETTING.—The practice is not on the increase.

20. EFFECT OF RECENT LEGISLATION.—There is nothing to be mentioned in particular in this connection.

The Estates Land Act is not extensively applied in this district. The Land Encroachment Act is being worked without hardship. The rules relating to " Irregular Irrigation " are being worked with moderation.

8. ANANTAPUR.

(I. MacIver, Esq., I.C.S., *Collector.*)

17. Vernacular correspondence in the Sub-Collector's office.—Mr. R. H. Courtenay, who is in charge of the Penukonda division, is well acquainted with Telugu, and Telugu petitions were read aloud to him. The correspondence to and from the taluk offices continues to be carried on in English.

23. Relation of landlord and tenant in the larger zamindaris.—There are no such zamindaris in this district.

24. The growth of the sub-letting in the raiyatwari tracts.—This practice is not on the increase in this district.

25. Effect of recent legislation on the people and the relations of the people to Government.—No enactment passed during the year under report had any marked effect on the people of the district.

---

9. BELLARY.

(A. F. G. Moscardi, Esq., I.C.S., *Collector.*)

11. Coercive processes.—Enclosure A to statement No. 8 exhibits the particulars of processes issued. There was a decrease in the number of defaulters whose personal property was attached and sold while the number of defaulters whose real property had to be sold rose from 81 to 143. The increase was mainly in Hospet taluk and the Tahsildar has been called upon to explain this.

21. Extent to which Assistant and Sub-Collectors passed orders on English abstracts prepared by clerks.—The Civilian's division was mostly in charge of Mr. T. J. Tasker. Mr. G. H. Jackson was in charge of the head-quarters division for sometime and passed the lower standard in Telugu. He has since passed the higher standard in the same language.

23. Relation of landlord and tenant.—There are no zamindaris in this district. The relations between landlord and tenants in whole inam villages were quite harmonious except that the ryots of shrotriem Kodihalli village in Harpanahalli taluk complained to the Revenue officers that the shrotriemdar has not been respecting their rights and allowing them to enjoy their lands according to well-established usage. They want their lands to be surveyed. The matter is awaiting the organization of a party for surveying shrotriem villages—*vide* B.P. No. 135, dated 30th March 1911. But final orders have not yet been received.

24. Growth of sub-letting in raiyatwari villages.—There was no noticeable increase in sub-letting. The Divisional officers of Bellary and Adōni report that landholders prefer to cultivate the lands themselves in view of the increased income on account of the rise in the price of food-grains and cotton. But where the system still continues the rentals have risen.

27. Effect of recent legislation on the people.—There were no special legislative measures during the year except that Government in their order No. 684, Revenue, dated 7th March 1913, communicated with B.P. No. 71, dated 17th March 1913, ordered that the question of the feasibility or necessity of giving previous intimation of the intention to levy enhanced water-cess for the irregular use of Government water to ryots should be given a practical trial.

---

10. KURNOOL.

(E. S. Lloyd, Esq., I.C.S., *Collector.*)

27. Process under Act II of 1864.—Statement No. 8 gives the particulars of the coercive processes issued under Act II of 1864.

The following abstract compares the number of processes of each kind issued during the year with the two preceding years:—

Coercive processes.	Fasli 1320.	Fasli 1321	Fasli 1322.
1. Demand notices	1,976	1,440	248
2. Distraint and attachment notices	240	282	101
3. Sale notices	133	116	37
4. Sales	57	35	14

The above abstract shows that there has been perceptible decrease under all items.

43. JUNIOR CIVILIAN'S KNOWLEDGE OF VERNACULAR.—No junior Civilian worked in the district during the year under report.

44. RELATION BETWEEN LANDLORD AND TENANT.—There is no tension between landlord and tenants.

45. GROWTH OF SUB-LETTING IN RAIYATWARI VILLAGES.—As usual this is resorted to by non-agricultural classes, viz., Brahmans, Komities, traders and absentee landowners. No marked variation as compared with the previous years is apparent.

47. THE EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—There was no special legislation during the year that affected the people in general. The Criminal Tribes Act has been extended to three classes of criminal tribes in the district, viz., Donga Waddars, Donga Erikalas and Donga Dasaries, and this has relieved the people of much anxiety. No new rural societies have been registered during the year under Co-operative Societies Act.

---

11. MADRAS.

(R. F. AUSTIN, Esq., I.C.S., *Collector*.)

7. COERCIVE PROCESSES AND SALES FOR ARREARS OF REVENUE.—The number of distraint warrants issued was 26,537 against 25,419 in the previous fasli. Personal property was distrained in 43 cases for arrears amounting to Rs. 394 as against 71 cases for an arrear of Rs. 1,007 in the previous fasli. Distrained property was sold in four cases only for an arrear of Rs. 27. Lands were attached in 50 cases against 13 in the previous fasli, but in all except one the arrears due were paid before the property was brought to sale.

12. EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—There has not been during the fasli under report any important legislation affecting the population of the district.

---

12. CHINGLEPUT.

(S. P. RICE, Esq., I.C.S., *Collector*.)

18. COERCIVE PROCESSES.—The following abstract compares the processes issued during the year under report with those of the previous year:—

	Fasli 1322.	Fasli 1321.
(1) Demand notices	35,727	62,044
(2) Distraint and attachment notices	17,825	41,713
(3) Sale notices	16,642	41,030
(4) Sales	239	360

The decrease in the number of processes issued is due to the greater scrutiny exercised over the lists of defaulters prepared by the village officers and to the adoption of coercion only in such cases in which difficulties were anticipated in the matter of collection.

29. JUNIOR CIVILIANS—KNOWLEDGE OF VERNACULARS.—Mr. F. W. Stewart was in the district until December 1912. Mr. Todhunter reported on his progress up to 30th June 1912. As I have never seen this officer I regret I can give no opinion of his attainments.

30. THE RELATIONS BETWEEN LANDLORDS AND TENANTS IN LARGER ZAMINDARIS.—There has been no material change in the relations between landlords and tenants during the year under report. Under the Madras Estates Land Act I of 1908, 909 suits were instituted during the year under report against 927 in the previous year.

---

13. CHITTOOR.

(A. FOTHERINGHAM, Esq., I.C.S., *Acting Collector*.)

8. COERCIVE PROCESSES.—The figures showing the number of processes issued during the fasli are compared below with those relating to the preceding fasli:—

—	Fasli 1321.	Fasli 1322.	Increase.
Number of demand notices issued	49,166	53,941	4,775
Do. attachment notices issued	1,026	1,280	254
Do. sale notices	507	629	122

The increase in the number of processes issued is chiefly due to the growing tendency among the ryots to defer payments of kist till demands are actually brought to their doors. The issue of processes was limited, as far as possible, to cases where, without them, collection was considered difficult. The particulars showing the extents to which land sales were actually resorted to during the fasli are compared below with those of the preceding year—the bulk of them relates to Madanapalle and Vayalpad taluks :—

Particulars.	Personal or real.	Fasli 1322.	Fasli 1321.	Difference.
Number of defaulters whose property was sold	Personal	37	20	+ 17
	Real	29	43	— 14
Amount of arrears for which property was sold ..	Personal	736	668	+ 68
	Real	220	111	+ 109
Amount realized by sale of property	Personal ..	611	538	+ 73
Extent of land sold and purchased by others	Real	72	62	+ 10
Extent of land sold and purchased by Government ..	....	10	61	— 51
		73	134	— 61

13. KNOWLEDGE OF VERNACULAR BY CIVILIANS.—Mr. Souter, Acting Sub-Collector of Madanapalle sub-division, reports that he is able to dispose of the vernacular correspondence himself. Chandragiri division was in charge of an officer of the Provincial service since Mr. Leach's transfer to the Settlement Party at Madanapalle.

17. LANDLORDS AND TENANTS IN ZAMINDARIS.—That the relation between the landlords and tenants in zamindaris is not altogether amicable, may be seen from the large number of summary suits filed, and it is not likely to be improved so long as the main estates are being bought up by petty landholders who are not looked up to by the ryots as their hereditary zamindar. It cannot be said, however, that the mortgagees are more favourably regarded. During the year under report, one village of the Kālahasti estate was sold for realization of arrears of peshkash.

18. GROWTH OF SUB-LETTING IN RAIYATWARI TRACTS.—There was no noticeable change in this direction.

19. ACT III OF 1905.—The provisions of the Act were enforced as occasion arose. As yet there has only been one suit filed against eviction, and this was dismissed.

---

14. ARCOT, NORTH.

(N. E. MARJORIBANKS, Esq., I.C.S., *Collector.*)

13. KNOWLEDGE OF VERNACULAR BY CIVILIANS.—Mr. Sykes continued in the district throughout the year and in charge of Tiruppattūr division. He reports that every petitioner is required when he presents his petition to state his request orally and that the contents of the petition are verified with the oral statement by a clerk if one is at hand or by himself if none is present. If an order can be passed at once it is done and communicated to the petitioner before he leaves and if the petition is unimportant it is lodged. If, however, the petition is important or if a reference to previous papers is required, it is sent into the office with an order or with an office-note by the Divisional officer written on it.

18. RELATION BETWEEN LANDLORD AND TENANT.—Kangundi and Arni are the only considerable estates in the district: the former continued under the management of the Court of Wards. Besides these there are some mittas in Tiruppattūr and Arkonam taluks. The relations between landlord and tenants in these estates call for no special notice.

19. GROWTH OF SUB-LETTING IN RAIYATWARI TRACTS.—Sub-letting is as usual confined to non-agricultural classes such as Brahmans and Vaisyas and absentee land-owners, most of whom are merchants, vakils or officials. Large landholders also sub-let portions of their holdings in some cases and the tendency is said to be on the increase particularly in Tiruppattūr taluk. As observed in the report of last year, investments in land are steadily increasing of late tending to a gradual rise in the value of agricultural land.

20. EFFECT OF RECENT LEGISLATION.—There has been nothing noteworthy in the administration of Act I of 1908 (the Madras Estates Land Act). The general circulars issued last year pointing out the necessity of confining notice and action under Act III of 1905 (the Madras Land Encroachment Act) to real encroachments established with reference to the survey record of measurements are being followed by the subordinate revenue officers and the practice of accepting as encroachments whatever the karnams reported as such is gradually disappearing as is evident from the large reduction both in the extent and the amount of penal charge levied for such occupation during the year.

15. ARCOT, SOUTH.

(M. Aziz-ud-din Sahib Bahadur, I.S.O., *Collector*.)

13. Coercive processes.—Total number of processes of each kind issued in faslis 1321 and 1322 is given below. There was decrease both under attachment and sales; but the increase under No. 1 demand notices is rather large. The increase is observed chiefly in the Cuddalore taluk. I have called on the Tahsildar to explain the increase and will report the result on receipt.

Items.	Fasli 1321.	Fasli 1322.
(1) Demand notices	6,545	7,774
(2) Attachment notices	221	203
(3) Sale notices	108	110
(4) Sales	36	5

22. Vernacular correspondence of Covenanted Divisional Officers.—The Covenanted Civilian who worked in this district was Mr. Alexander Fotheringham. He was in charge of the Tindivanam sub-division from 22nd October 1912 to 3rd February 1913. He was able to speak Tamil fairly well and could read Tamil petitions written legibly.

29. Relation of landlord and tenant in large zamindari areas.—There are no large zamindaris in this district. The relation between landlord and tenants in other estates continued to be satisfactory.

30. Growth of sub-letting in raiyatwari tract.—The sub-letting continued to be resorted to by absentee owners as usual. Resident ryots who own large extent of lands find it necessary to sub-let portions of their lands owing to the prohibitive cost of labour.

31. Effect of recent legislation on the people.—No remarks.

---

16. TANJORE.

(R. B. Wood, Esq., I.C.S., *Collector*.)

16. Coercive processes.—Statement 8-A shows the particulars of coercive processes employed for the realisation of the Government revenue during the fasli 1322. The following extract shows the total number of processes issued under each head:—

	Fasli 1321.	Fasli 1322.
(1) Number of demand notices issued	191,567	171,679
(2) Attachment notices	11,108	11,789
(3) Sale notices	10,079	11,097
(4) Property sold	107	67

The following table shows the number of demand notices issued in each taluk in faslis 1321 and 1322:—

Taluks.	Number of demand notices issued.		Difference.	Percentage of columns 4 to 2.
	Fasli 1321.	Fasli 1322.		
1	2	3	4	5
Tanjore	71,566	70,916	— 650	— 0·90
Papanāsam	26,409	26,029	— 380	— 1·44
Kumbakōnam	23,693	15,597	— 8,096	— 34·17
Māyavaram	2,734	2,266	— 468	— 17·11
Shiyāli	7,749	6,729	— 1,020	— 13·16
Nannilam	1,098	2,936	+ 1,838	+ 167·39
Negapatam	9,398	4,583	— 4,815	— 51·23
Tirutturaippūndi	33,060	11,526	— 21,534	— 65·13
Mannārgudi	8,648	24,592	+ 15,944	+ 184·36
Pattukkōttai	1,875	3,709	+ 1,834	+ 97·90
Arantāngi	5,337	2,796	— 2,541	— 47·61
Total ..	191,567	171,679	— 19,888	— 10·38

There has been a decrease in all the taluks except Nannilam, Mannārgudi and Pattukkōttai. The increase in these taluks is explained to be due to the general inclination on the part of the ryots to postpone payment till the date of the second remittance of each kist month. But I do not accept this explanation, as this tendency is not peculiar to these three taluks. As a matter of fact, the increase in Pattukkōttai and Nannilam is very moderate. The large increase in Mannārgudi is probably due to the new Tahsildar who has been away from revenue work for some years. His attention is being called to the point.

17. DISTRAINT OR ATTACHMENT.—The annexed statement shows the number of defaulters whose property was attached in fasli 1322 and the number of cases in which it was found necessary to issue sale notices as compared with the previous fasli :—

Taluks.	Number of raiyatwari pattadars.	Number of defaulters whose property was attached.			Percentage of columns 4 to 2.	Number of sale notices.	Percentage of columns 7 to 4.
		Fasli 1321.	Fasli 1322.	Difference.			
1	2	3	4	5	6	7	8
Tanjore	40,522	6,507	8,664	+ 2,157	+ 21·38	8,664	100
Pāpanāsam	25,326	1,011	489	— 522	— 1·93	462	94·47
Kumbakōnam	20,909	343	340	— 3	— 1·62	340	100
Māyavaram	25,408	225	136	— 89	— 0·53	136	100
Shiyali	10,092	189	166	— 23	— 1·64	165	99
Nannilam	29,425	326	159	— 167	— 0·54	122	72·95
Negapatam	20,806	281	182	— 99	— 0·87	135	74·17
Tirutturaippūndi	24,492	728	229	— 499	— 0·93	229	100
Mannārgudi	27,032	241	619	+ 378	+ 2·28	615	99
Pattukkōttai	14,970	969	631	— 338	— 4·21	62	9·82
Arantangi	4,401	288	174	— 114	— 3·95	167	95·97
Total ..	243,383	11,108	11,789	+ 681	+ 4·84	11,097	94·19

The ratio of attachment to demand notices is 6·86 against 5·79 in the previous year. The proportion of pattadars whose property was attached is 4·84 against 4·56 in the previous year. The percentage of sale notices to attachment has risen from 90·73 to 94·13. Particulars as to the number of sale notices and the defaulters whose property was sold in fasli 1322 are given in the statement appended :—

Taluks.	Number of raiyatwari pattadars.	Number of sale notices in			Number of defaulters whose property was sold in			Percentage of columns 7 to 2.	Percentage of columns 7 to 4.
		Fasli 1321.	Fasli 1322.	Difference.	Fasli 1321.	Fasli 1322	Difference.		
1	2	3	4	5	6	7	8	9	10
Tanjore	40,522	6,507	8,664	+ 2,157	22	10	— 12	0·02	0·12
Pāpanāsam	25,326	1,011	462	— 549	8	5	— 3	0·02	1·08
Kumbakōnam	20,909	343	340	— 3	13	5	— 8	0·02	1·47
Māyavaram	25,408	204	136	— 68	8	14	+ 6	0·05	10·29
Shiyali	10,092	185	165	— 20	5	2	— 3	0·02	1·21
Nannilam	29,425	286	122	— 164	15	7	— 8	0·02	5·74
Negapatam	20,806	235	135	— 100	2	5	+ 3	0·02	3·70
Tirutturaippūndi ..	24,492	720	229	— 491	10	1	— 9	..	0·43
Mannārgudi	27,032	239	615	+ 376	5	7	+ 2	0·02	1·13
Pattukkōttai	14,970	61	62	+ 1	16	6	— 10	0·04	9·67
Arantangi	4,401	288	167	— 121	3	5	+ 2	0·11	2·99
Total ..	243,383	10,079	11,097	+ 1,018	107	67	— 40	0·02	0·60

The extent of land sold and the extent bought in by Government during the fasli 1322 are compared in the subjoined statement with the corresponding figures for the previous fasli :—

Taluks.	Extent of land sold in			Extent bought in by Government.			Extent bought by private persons.	Percentage of columns 6 to 3.
	Fasli 1321.	Fasli 1322.	Difference.	Fasli 1321.	Fasli 1322.	Difference.		
1	2	3	4	5	6	7	8	9
	ACS.	ACS.	ACS.				ACS.	
Tanjore	56	4	— 52	..	..	..	4	No land was bought in by Government.
Pāpanāsam	4	2	— 2	..	..	..	2	
Kumbakōnam	7	1	— 6	..	..	..	1	
Māyavaram	2	..	— 2	..	..	..	..	
Shiyali	..	..	..	..	..	..	..	
Nannilam	2	1	— 1	..	..	..	1	
Negapatam	..	..	..	..	..	..	..	
Tirutturaippūndi	..	..	..	..	..	..	..	
Mannārgudi	6	..	— 6	..	..	..	..	
Pattukkōttai	6	2	— 4	..	..	..	2	
Arantangi	..	..	..	..	..	..	..	
Total ..	83	10	— 73	..	..	..	10	

Land of an aggregate estimated value of Rs. 219 was sold for arrears of Rs. 141, the amount realised being Rs. 288. The sale-proceeds represent thirty times the taram assessment in the case of "dry" and eight times in respect of "wet" lands.

25. VERNACULAR CORRESPONDENCE IN THE HEAD ASSISTANT AND THE ASSISTANT COLLECTORS' OFFICES.—There is no vernacular official correspondence and during most of the year there were no European Divisional officers. Messrs. C. G. Austin and G. T. Boag and B. C. Smith were at Kumbakōnam and Negapatam for parts of the fasli and Mr. T. Austin was Assistant Collector all the fasli. Petitions were as a rule read to the officers when presented in person. Petitions received by post, if not read in original by the addressee, are submitted with an English abstract prepared in the office.

28. RELATIONSHIP BETWEEN LANDLORD AND TENANT IN LARGE ZAMINDARIS.—Generally good. There has been no noticeable feature of any strained relationship between them.

29. GROWTH OF SUB-LETTING IN RAIYATWAR TRACTS.—Sub-letting is widely resorted to in this district by absentee pattadars and large landholders who are tending to prefer residence in the large towns, instead of living on their own lands in their villages. Even so, many of them continue to cultivate their lands by their farm agents, though it is probable that the renting of lands is increasing.

30. EFFECT OF RECENT LEGISLATURE ON THE PEOPLE.—The Madras Estates' Land Act has been in force from fasli 1314. Landlords and tenants seem to understand the provisions fairly well.

---

17. TRICHINOPOLY.

(L. E. BUCKLEY, Esq., I.C.S., *Collector.*)

14. COERCIVE PROCESSES AND SALES FOR ARREARS OF REVENUE.—There was a considerable increase in the number of demand notices issued, though there was an appreciable decrease in the other kinds of notices issued during the year. The figures of the last three faslis are compared below :—

—	Fasli 1320.	Fasli 1321.	Fasli 1322.
Demand notice	75,770	55,708	79,155
Attachment notice	2,375	1,911	1,631
Sale notice	2,363	1,906	1,608

The increase in the number of demand notices is large in Ariyalur and Trichinopoly divisions. This is due to the fact that, owing to the season, being not wholly favourable the ryots were not punctual in the payment of Government dues. The issue of a large number of notices has resulted in the reduction of arrears at the end of the fasli. The extent sold during the year for arrears of revenue was 72 acres of dry land assessed at Rs. 61. The number of defaulters whose personal and real property was attached was 1,494 and 122, respectively. Personal property was sold in six cases and real property in 12 cases.

18. VERNACULAR CORRESPONDENCE OF THE ASSISTANT COLLECTOR.—Mr. A. J. King was Assistant Collector of the district during the fasli. He has since been transferred from this district. He has passed the lower standard in tamil and has a fair knowledge of that language. He was placed in charge of the Trichinopoly division in January last.

19. RELATIONS BETWEEN LANDHOLDERS AND TENANTS IN LARGE ZAMINDARIS.—The Zamindar of Marungapuri is assisted by a manager whose services have been lent to him with the sanction of Government. He and his tenants are generally on good terms. The relationship between landlord and tenant in Udaiyarpalaiyam is very strained. Under the Estates Land Act, the Zamindar is claiming rent on uncultivated occupied lands on which payment has not hitherto been paid; in consequence there have been innumerable suits. The Kadavur Zamindar continues under the management of the Court of Wards. It is a very heavily encumbered estate. The relationship between the Court of Wards and the tenants is on the whole satisfactory.

20. GROWTH OF SUB-LETTING IN RAIYATWAR TRACT.—Sub-letting is as usual chiefly resorted to by the non-agricultural classes, by those engaged in professions other than agriculture and by the owners of large landed property.

21. THE EFFECT OF RECENT LEGISLATION.—There was no legislation during the year that affected the people generally. There is much litigation under the Estates Land Act in Udaiyarpalaiyam.

18. MADURA.

(A. R. KNAPP, Esq., I.C.S., *Collector.*)

14. PROCESSES UNDER ACT II OF 1864.—Statement No. 8-A shows the particulars of coercive processes issued for the realization of Government dues under Act II of 1864. The following abstract compares the number of processes of each kind issued during the fasli with the figures of the preceding fasli :—

Items.	Fasli 1321.	Fasli 1322.
(*a*) Demand notices	30,936	31,704 + 768
(*b*) Distraint or attachment notices	5,631	4,826 — 805
(*c*) Sale notices	5,505	4,708 — 797

Item (*a*).—No explanation of the increase in the number of demands is forthcoming. The point will be further investigated.

Item (*b*).—The number of attachment notices decreased from 5,631 to 4,826, but the number of defaulters (373), whose personal property was distrained, was not proportionate to the number of those (4,452), whose real property was attached. The disproportion is ascribed to the large number of non-resident pattadars chiefly in the tracts affected by the Periyar.

Item (*c*).—Of 4,452 defaulters whose real property was attached, 4,204 paid their arrears before sale. Of 532 acres (dry) and 149 acres (wet) sold for the recovery of arrears, 205 acres (dry) and 24 acres (wet) were purchased by Government for want of bidders. The amount realized by the sale of the real property was Rs. 14,553 and that by sale of personal property was Rs. 24. The number of defaulters whose property, personal and real, was sold, was 251 against 331 in the previous fasli. The percentage of actual sales to sale notices was 5·3 against 5·8 in fasli 1321 and that of the number of defaulters whose property was actually sold to the total number of pattas was 0·11 against 0·15 in the previous fasli. The percentage of the extent of lands bought in by Government to the extent of lands sold was 34 against 30·83 in the preceding fasli.

22. RELATIONSHIP OF LANDLORDS AND TENANTS IN LARGE ZAMINDARIS.—The relationship between landlords and tenants in the zamindaris in the district continued, on the whole, to be harmonious. The Divisional Officer, Usilampatti, states that the friction reported last year as existing between the zamindars and tenants in the zamindaris in the Periyakulam taluk on account of irregularity in the issue of pattas and of the levy of enhanced charge for garden crops raised on dry lands with the aid of water from private wells cannot be said to have subsided ; the suits filed under the Estates Land Act have not been finally disposed of by the Appellate Courts. It is reported that the relationship between the proprietors and tenants in Kannivadi zamindari, Dindigul taluk, is anything but cordial, but that there was less friction between them during the fasli under report than in the previous fasli.

23. GROWTH OF SUB-LETTING IN RAIYATWAR TRACTS.—Sub-letting is, chiefly, resorted to by vakils and traders who have invested money in the purchase of lands in the Periyar area and by the absentee landowners. No indications have been brought to notice of any increase of sub-letting in the year under report.

25. EFFECT OF RECENT LEGISLATION ON THE PEOPLE—WORKING OF ACT I OF 1908.—The number of suits and applications received during the year under report was 2,134 and 10,104 against 1,886 and 4,138 respectively in the previous year.

32. JUNIOR CIVILIANS—KNOWLEDGE OF VERNACULARS.—Mr. M. McGilligan, Assistant Collector, joined the district on 1st January 1913. He has passed the Lower Standard with Tamil as his first language, in July last.

---

19. RAMNAD.

(A. R. LOFTUS-TOTTENHAM, Esq., I.C.S., *Collector.*)

2. WORKING OF ACT I of 1908.—There was a large increase in the number of suits and applications filed and disposed of during the fasli as compared with the previous fasli. The increase was mainly in the Rāmnād division and it is attributed to the large number of suits under section 77 of the Act filed by the lessees of the Rāmnād zamindari who have surrendered their leases to the Raja but retained the right to realise arrears of rent. The increase in the number of suits disposed of is due to the employment of a Special Deputy Collector from 5th December 1912. He had disposed of 2,745 suits up to 30th June 1913.

3. RELATIONS BETWEEN LANDLORDS AND TENANTS.—The Divisional Officer, Rāmnād reports that feelings are strained between the Raja of Rāmnād and his ryots because the Raja wishes to charge rent on waste lands and on palmyrahs that are not actually tapped. This dispute has been simmering for some time. The Divisional Officer, Sattur, reports that the relations between the zamindars and their tenants in his division were not cordial. The Divisional Officer, Devakottai, is silent on the subject. From my personal experience I offer

the following remarks: "The relations between the European lessees of Sivaganga zamindari and their tenants are generally cordial though there is an important point in dispute in some of the villages bordering on the Vaigai in regard to the correct charge on Vanpayir lands, *i.e.*, wet lands cultivated with garden crops."

16. GROWTH OF SUB-LETTING IN THE RAIYATWAR TRACTS.—I have nothing new to report on this subject.

19. WORKING OF ACT III OF 1905.—I have inspected a large number of encroachments. Whether the working of the Act causes hardship to the ryots or not depends on the manner in which it is worked. In my opinion it is often worked with very little discrimination and on hard and fast red-tape principles. I think it was a great mistake to demarcate so many paths and odais passing through patta land which were only marked in the plan before. Neither streams nor bandies will keep to the demarcated course, and usually it does not matter a bit where the path or odai is within a chain or so.

20. TINNEVELLY.

(G. H. B. JACKSON, Esq., I.C.S., *Collector*.)

23. PROCESS UNDER MADRAS ACT II OF 1864.—(*a*) The table below compares the figures with those of the previous year:—

Description of process.	Fasli 1321.	Fasli 1322.
(1) Demand notices	37,299	12,945
(2) Distraint and attachment notices	2,3×8	997
(3) Sale notices	2,388	996
(4) Sales	67	25

The decrease was due to prompt collection and better supervision.

(*b*) DISTRAINT, ATTACHMENT AND SALES.—A comparative statement of the figures with those of the preceding year is given below:—

Fasli.	Attachment.		Sold.		Realized by sale.		
	Number of defaulters.	Amount for which property was attached.	Number of defaulters.	Amount of arrears for which property was sold.	Personal property.	Real property.	Total.
		Rs.		Rs.	Rs.	Rs.	Rs.
Fasli 1321	2,544	21,426	67	1,237	698	1,694	2,392
„ 1322	997	7,981	25	741	583	749	1,332

There were attachments only in 7·7 per cent. of the cases for which demand notices were issued as against 6·8 per cent. in the previous year. The percentage of sales to sale notices was 2·5 against 2 8. Talukwar particulars of sales are given below:—

Taluk.	Fasli 1321.		Fasli 1322.		Number of pattas.	Percentage of the number of sales to the number of pattas.	
	Number of sales.	Arrears.	Number of sales.	Arrears.		Fasli 1321.	Fasli 1322.
Ambasamudram . ..	2	22	1	43	29,506	0·008	0·004
Koilpatti	3	3	..	..	20,788	0·01	..
Nānguneri	6	131	3	428	40,252	0·02	0·007
Sankaranainārkōil	9	404	..	..	30,494	0·03	..
Tenkasi	2	10	1	53	20,207	0·01	0·005
Tinnevelly	11	111	.. ..	..	30,880	0 04	..
Srivaikuntam	12	415	12	103	34,400	0 04	0·035
Tiruchendur	22	141	8	114	36,178	0·06	0·022
Total ..	67	1,237	25	741	242,705	0 02	0·01

The variations are slight. No land was bought in by Government for want of bidders.

37. BOARD'S PROCEEDINGS No. 321 (SETT.), DATED 24TH AUGUST 1904.—(1) No complaints against the working of the Estates Land Act have been brought to notice. The relation between landlords and tenants in the larger zamindaris continued to be harmonious. In the zamindari of Pudur, the Tahsildar reports, the landlord and the tenants are not friendly.

(2) GROWTH OF SUB-LETTING IN RAIYATWAR VILLAGES.—The general practice in the district is to sublet.

(4) THE EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—Act III of 1905 and Act I of 1908 continue to work satisfactorily.

28. VERNACULAR KNOWLEDGE OF THE CIVILIANS.—The Civilian officers in the district possess a fair knowledge of Tamil.

---

21. COIMBATORE.

(F. R. HEMINGWAY, Esq., I.C.S., *Collector.*)

13. COERCIVE PROCESSES AND SALES FOR ARREARS OF REVENUE.—Full particulars of the coercive processes employed for the realization of the Government demand under Act II of 1864 are given in the enclosure to statement No. 8. The subjoined table compares the processes issued during the year under report with those of the preceding two faslis :—

Items.	Fasli 1320.	Fasli 1321.	Fasli 1322.
Number of demand notices ..	369	757	725
Number of attachment notices ..	12	24	32
Number of sale notices	11	16	28
Total ..	392	797	785

As compared with the previous year, there is a decrease in the number of demand notices and an increase in the other two kinds of notices. There is however an increase in the number of processes of all kinds when compared with fasli 1320. The taluk of Kollegal accounts for a large number of attachment and sale notices. The percentage borne by the number of defaulters to that of pattadars is 0·03 against 0·01 in the previous year and 0·004 in fasli 1320. In 16 cases, personal property for an arrear of Rs. 164 was attached against eight for an arrear of Rs. 92 in the last fasli and 4 for an arrear of Rs. 72 in fasli 1320. The real property of 22 defaulters for an arrear of Rs. 221 was attached against 16 for an arrear of Rs. 150 in the last fasli and 9 for Rs. 62 in fasli 1320. In no case was the personal property sold, while the real property of 16 defaulters for an arrear of Rs. 66 was sold. The sale in one case has been cancelled. The other sales all occurred in Kollegal taluk. Out of the lands sold 14 acres in Kollegal were bought in by Government for want of bidders, the remaining extent of 59 acres having been purchased by private individuals.

27. GENERAL.—There is nothing special to record on any of the points referred to in paragraph 4 of Board's Proceedings No. 321-Sett., dated 24th August 1904.

---

22. THE NILGIRIS.

(M. YOUNG, Esq., I.C.S., *Collector.*)

6. VERNACLUAR CORRESPONDENCE IN THE REVENUE DIVISIONAL OFFICE.—Mr. H. H. Burkitt, I.C.S., was in charge of the Coonoor division during the fasli from 6th July 1912. He is not very conversant with Tamil, but the correspondence with the taluk officers continued to be carried on in English, as usual.

7. RELATIONS BETWEEN LANDLORD AND TENANT IN LARGER ZAMINDARIS.—There are no zamindari tracts in this district.

8. SUB-LETTING IN RAIYATWAR AREAS.—The practice of sub-letting continues to prevail in the Gudalur taluk, and to a very limited extent in the Municipal towns of Ootacamund and Coonoor.

10. EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—There was no special legislation during the year which affected the people of the district. The Madras Land Encroachment Act III of 1905 worked smoothly. The provisions of the Madras Estates Land Act of 1908 were not resorted to.

Coonoor taluk—
(1) Thenilai in Keti village.
(2) Salamur.

During the year under report, two societies, as detailed in the margin, were registered under the Co-operative Societies' Act.

23. SALEM.

(J. P. Bedford, Esq., I.C.S., *Collector.*)

14. Process under Act II of 1864.—The appended statement shows the total number of processes issued during the year, as compared with the previous year:—

Fasli.	Number of processes issued.				Number of defaulters whose property was sold.		Extent of land sold.		Amount realized by the sale of			
	Demand notice.	Notice of attachment.	Notice of sale.	Total.	Moveable.	Real.	Dry.	Wet.	Real property.	Moveable property.	Other property.	Total.
							ACS.	ACS.	RS.	RS.	RS.	RS.
1321	8,931	226	268	9,425	3	81	460	24	954	8	..	962
1322	22,320	341	299	22,960	8	..	226	16	..	72	..	72

Processes were as usual served partly by a special agency in the Hōsūr taluk and by the village agency alone in the other taluks. The large increase in the demand notice is chiefly due to an abnormal increase in the Atur taluk from 405 to 13,472. The Tahsildar has been called on to explain this. On receipt of the reply a further report will be submitted. The number of processes served by the special agency was 375 against 367 in the preceding year. The extent of lands sold for arrears of revenue and bought in by Government was 86 acres against 182 acres in the previous year.

20. Vernacular correspondence in Divisional offices.—During the year under report, Mr. S. Burn was in charge of the Hōsūr Division. He can read, write and speak Tamil, in which he has passed the Higher Standard, and he understands Telugu fairly well. Malayalam is his third language, but he reports that he has had no occasion to use it for the last four years.

24. Effects of recent legislation on the people.—Madras Act III of 1905 and Act I of 1908 seem to be working satisfactorily. The recent enactments in regard to the extension of the elective franchise in the Legislative Council seem to be appreciated.

25. Relationship between landlords and tenants in large zamindaris.—There are no large zamindaris in the district. In Palaiyams and Mittas, the relationship is, on the whole, satisfactory.

26. Growth of sub-letting in raiyatwar villages.—There is no marked tendency, one way or the other. The system is useful for large land owners, absentee pattadars and landholders with other professions.

---

24. SOUTH CANARA.

(M. E. Couchman, Esq., I.C.S., *Collector.*)

Fasli.	Demand notices.	Notices of distraint or attachment.	Notices of sale.
1321	6,458	240	141
1322	5,811	158	100
Decrease ..	647	82	41

Fasli.	Value of moveable property sold.	Extent of real property sold.
	RS.	ACS.
1321	307	4·10
1322	202	79·24

13. Coercive processes.—There was a decrease under all kinds of coercive processes issued during the year. Less moveable property was sold in the year under report, but the extent of real property sold was greater. Real property was only sold when the defaulter possessed no moveable property to be proceeded against, or when they were absent from the district. The greater portion (58·20 acres) of the extent sold was purchased by Government as the lands were situated in a village at the foot of the Western Ghauts and had lain fallow for some time.

20. VERNACULAR CORRESPONDENCE IN THE SUB-COLLECTOR'S OFFICE.—Sub-Collector Mr. G. W. Wells reports that he, as well as his predecessor M.R.Ry. S. Srinivasa Rao Pantulu Garu, generally disposed of petitions and other papers in vernacular on being read over, but that petitions received by post which contained intricate and important matters were put up with abstracts in English.

26. POINTS REFERRED TO IN PARAGRAPH 4 OF THE BOARD'S PROCEEDINGS No. 321, DATED 24TH AUGUST 1904.—The reports from the Tahsildars and Divisional Officers show that there has been no appreciable increase in sub-letting during the year under report, but the tendency is in the other direction.

There has been no recent legislation affecting the people of this district.

---

25. MALABAR.

(C. A. INNES, Esq., I.C.S., *Collector.*)

11. PROCESSES UNDER ACT II OF 1864.—Statement No. 8-A gives particulars of the processes issued. The increase of 493 in the number of processes issued during the year as compared with the previous year is less than 10 *per cent.* and calls for no special remarks.

15. RELATION BETWEEN LANDLORD AND TENANTS IN ZAMINDARI TRACTS.—There are no zamindaris in this district.

16. GROWTH OF SUB-LETTING IN RAIYATWAR TRACTS.—There is no change of any importance to report. A very large proportion of the cultivable lands in the district are owned by non-cultivating landlords.

19. THE EFFECT OF RECENT LEGISLATIONS.—There has been recently no legislation of importance to the agricultural population of this district.

25. VERNACULAR ATTAINMENTS OF PASSED ASSISTANTS, HEAD ASSISTANT COLLECTOR AND SUB-COLLECTOR.—Mr. V. P. Rão, the Sub-Collector, Tellicherry Division, is well acquainted with the vernacular and reads and disposes of vernacular petitions himself. Mr. Hall, the Sub-Collector of Palghat, is not, I think, fluent in talking. Petitions presented to him in Court are read out to him for orders. Those received by post are abstracted in English. The same practice is observed in the Malāppuram Division, but Mr. Rabjohns, the Sub-Collector, can understand and make himself understood in conversation.

---

26. ANJENGO.

(A. T. FORBES, Esq., I.C.S., *Collector.*)

13. COERCIVE PROCESSES.—No process was issued for the recovery of Government dues.

15. VERNACULAR ATTAINMENTS.—The Assistant Collector Captain R. E. G. Berkeley, I.A., knows Tamil and Malayalam petitions are translated to him.

16. EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—There were no special difficulties of any kind to be reported during the year.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Proceedings of the Board of Revenue (Revenue Settlement, Survey, Land Records and Agriculture.)

Settlement of Land Revenue (Jamabandi)—Submitting to Government report on the—for fasli 1323 (1913–1914). } (Here enter No. 6, dated 9th January 1915.

Order—No. 683, Revenue, dated 15th March 1915.

Miscellaneous.

With its proceedings read above, the Board of Revenue submits the report on the land revenue settlement of the Presidency for fasli 1323, the agricultural year ending with 30th June 1914.

2. The south-west monsoon was below the average in all districts except Ganjām, the Vizagapatam agency, Salem, Trichinopoly and the Nilgiris. The north-east monsoon was generally favourable, though in South Arcot abnormally heavy rains caused much damage to the crops. The staple food-grains were generally cheaper than in the preceding year, but the average retail prices continued to exceed the rates classed as "normal."

3. The total extent of ryotwari holdings in the Presidency, viz., 25·34 million acres, advanced by about 172,000 acres; the area cropped, however, was only 20,246,091 acres or 79·90 per cent. of the holdings as compared with 20,539,384 acres or 81·62 per cent. in the previous year, when the character of the season was more favourable.

4. The following statement exhibits under the principal heads the income from land revenue and cesses which accrued in the period under review and indicates the variations from the receipts of the year preceding :—

—	Fasli 1322.	Fasli 1323.	Difference.
	Rs.	Rs.	Rs.
1. Peshkash or revenue from permanently settled estates.	49,85,345	49,90,138	+ 4,793
2. Land cess on permanently settled estates	14,07,297	14,66,170	+ 58,873
3. Quit-rent on inam villages held on favourable tenure ..	7,52,019	7,51,114	— 905
4. Land cess on inam villages held on favourable tenure ..	3,86,060	3,87,701	+ 1,641
5. Revenue from lands held on the ryotwari system including water-rate and miscellaneous revenue.	6,20,87,398	6,16,59,070	— 4,28,328
6. Cess on ryotwari and miscellaneous revenue	49,32,175	49,95,793	+ 63,618
Total land revenue (items 1, 3 and 5 above) ..	6,78,24,762	6,74,00,322	— 4,24,440
Total cesses (items 2, 4 and 6 above) ..	67,25,532	68,49,664	+ 1,24,132

5. The settled assessment on ryotwari holdings rose from 508·92 to 512·64 lakhs, an increase chiefly due to the introduction of new (re-settlement) rates in five taluks of the North Arcot district and two taluks of the Ganjām district.

On the other hand the seasonal conditions led to a fall from 34·31 to 31·55 lakhs in the revenue from water-rates on dry land and from the charge for second crop on wet land and the same cause raised the season remissions from 3·27 to 10·59 lakhs.

6. The extent of land classed as poramboke or reserved for State or communal purposes, which was irregularly occupied during the year, showed some reduction, viz., from 102,539 acres in fasli 1322 to 97,704 acres in fasli 1323, but it is still doubtful whether these figures do not include areas of unassessed waste which are not poramboke proper. No explanation has been offered of the large increase in poramboke cultivation in North Arcot and Trichinopoly, an increase which has been unaccompanied by any proportionate rise in the enhanced assessment levied and the Government will be glad to receive the Board's remarks on this point. They are aware that the difficulty of separating poramboke occupation from occupation of unassessed waste, and in both cases of determining whether the occupation is unobjectionable and can be recognized and whether it is objectionable and should be penalized is very great owing to the immense number of petty encroachments which are involved, amounting sometimes to many thousand cases in a single taluk. It must be a long process to investigate and decide all these cases, especially as new ones are continually occurring. The Government hope, however, that improvement will be gradually effected. In the year under report only 34 per cent. of the area irregularly occupied was subjected to enhanced charge and the average charge was at the rate of Rs. 11 per acre as in the previous year.

7. *Collections.*—The work of collection was again satisfactorily conducted, Rs. 7,38,14,726 or 98·8 per cent. of the gross current demand being realized within the fasli, while of the initial arrear balance (Rs. 9,27,509), a sum of Rs. 8,10,924 or 87·4 per cent. was recovered and Rs. 25,194 or 2·7 per cent. were written off the accounts. The balance outstanding at the end of the fasli, including both arrears and current, was thus, Rs. 9,24,008 of which Rs. 7,07,026 or 76·5 per cent. had been collected by the end of October 1914.

8. *Coercion.*—There was a further small decrease during the period under review—from 1,259,236 to 1,161,568—in the number of coercive processes issued in connection with the collection of land revenue. Demand notices, which are in the nature of reminders rather than of coercive process, formed about 88 per cent. of the total, and the percentage of actual distraints and attachments as compared with the number of demand notices was only 7·08 in the case of personal property and 1·45 in that of real property against 6·89 and 1·59 in the previous year. Some 45 per cent. of the defaulters whose property was attached paid the arrears before sale notices were issued and there were only 1,724 actual sales covering 7,114 acres of land. figures representing, respectively, 0·04 per cent. of the total number of pattas and 0·028 per cent. of the total area under holdings. Of the extent sold, only 1,538 acres were bought in by Government for want of bidders, an average of only 59 acres per district. Of the land thus bought in 1,213 acres were classed as dry. The statistics show that of the total land revenue collections (current and arrears) of 746½ lakhs, the amount in respect of which property was sold as a method of recovery was only Rs. 36,646 equal to about one-twentieth per cent. The price realized by the land sold to private individuals for arrears was on the average equal to nine times the assessment in the case of dry lands and six times the assessment in the case of wet lands.

9. *Transfer of registry.*—The total number of applications for transfer of registry to be dealt with in the period under report including the number brought forward for disposal from the previous year was 121,169, of which 103,409 were disposed of leaving a balance of 17,760. Since the close of the fasli, the Government have in certain respects revised the rules governing such transfers and the possibility of further amendment is now engaging their attention.

10. *Loans.*—The aggregate amount advanced under both the Land Improvement and the Agriculturists' Loans Acts was 7·58 lakhs against 7·70 lakhs in the previous year. The advances relating to outlay upon wells amounted to over Rs. 1,93,000 for 897 wells and a sum of Rs. 26,000 was spent on the purchase and installation of oil engines and pumps. The development of State loans was assisted by the employment of special officers for certain periods during the year in the

districts of Chittoor, North Arcot, Rāmnād and Tinnevelly. The question of the amendment of the Loan Rules, to which reference was made in last year's report, is still under consideration and the Government are also examining a proposal to introduce special rules for the advance of loans for pumping installations by the Director of Industries.

PROCEEDINGS OF THE BOARD OF REVENUE

(REVENUE SETTLEMENT, SURVEY, LAND RECORDS AND AGRICULTURE).

The Hon'ble Mr. R. B. CLEGG, I.C.S.,
Commissioner of Land Revenue.

The Hon'ble Mr. LL. E. BUCKLEY, I.C.S.,
Commissioner of Revenue Settlement, Survey, Land Records and Agriculture.

Resolution—No. 6, dated 9th January 1915.

The Board submits its report on the settlement of land revenue in the Presidency for fasli 1323 (1913–14) together with the prescribed statements. The usual extracts from the district reports are appended. There was considerable delay in the receipt of the reports or returns from some districts. The reports from Guntūr, Rāmnād and North Arcot were received on the 11th, 16th and 23rd December 1914, respectively, after repeated reminders. The Collectors of Guntūr and Rāmnād attribute the delay to the late receipt of the returns from their Tahsildars, while the Collector of North Arcot ascribes it to the introduction of resettlement rates in the taluks of Arkonam, Walajapet, Cheyyar, Vellore and Gudiyāttam in consequence of which the final demand of these taluks could not be settled till after the fair accounts had been handed over to the taluks concerned and the necessary jamabandi village statements had been prepared.

2. *Season, rainfall and prices.*—The total rainfall during the south-west monsoon was below the average in all the districts except Ganjām, Vizagapatam Agency Salem, Trichinoply and the Nilgiris and the season was not as favourable as that of the preceding year. The north-east monsoon may be said to have been on the whole more favourable than its predecessor, though considerable damage was done to crops in South Arcot by a fall of unusual heaviness. Fairly good showers fell in April and continued with varying strength up to the end of May. The hot weather rains were inadequate in Tinnevelly and resulted in the withering of the kar crop especially in the Srivaikuntam taluk. The average annual retail prices of the staple food-grains were generally lower than those in the preceding year but everywhere dearer than the normal rates. The price of ragi and cholam was dearer than the warning rates in two districts, that of cumbu, in five districts, and that of rice, in six districts. The warning rates referred to are those fixed by Government in their order No. 1977, Revenue, dated 3rd July 1912.

3. *Cropped area.*—The total cropped area of the year under report (38,344,000 acres) exceeded the normal area (36,686,000 acres) by 1,658,000 acres. Cumbu, gingelly, castor, sugarcane and indigo showed a decrease and the other crops, an increase. As compared with the previous year, the cultivation under cholam, ground-nut, cotton and tobacco showed an increase while that under paddy, cumbu, ragi, gingelly, castor, sugarcane and indigo showed a decrease. In no case is the outturn reported to have exceeded the normal. Paddy, sugarcane and "other oil-seeds" yielded a normal outturn in Coimbatore, and the yield of paddy ranged from 75 to 89 *per cent.* of the normal in the remaining districts except Rāmnād where it was 41 *per cent.* The yield of "other oil-seeds" in Vizagapatam, of ground-nut in Kistna, of indigo in Bellary, of cumbu, "other cereals specified" and "all other food-grains including pulses" and gingelly in Anantapur, and of bengal-gram and "other oil-seeds" in Rāmnād was below 50 *per cent.* In all other cases, the outturn ranged from 50 to 92 *per cent.*

4. *Condition of cattle.*—The total number of deaths from disease among horned cattle showed an increase of 620 as compared with the previous year, the total for the year being 50,728. Rinderpest showed a considerable increase of 45 *per cent.*, while there was a decrease of 10 *per cent.* in anthrax. At the beginning of the year, rinderpest broke out in a severe form in Bellary and Kurnool and subsequently spread to

Anantapur. It wa not possible to move the rinderpest mobile corps to Kurnool till July 1913 as it was working in Kistna. Inoculation was hampered as anti-rinderpest serum was not available for about a month and a half towards the end of the year.

5. *Number of villages.*—In the year under report, there was a nett decrease of 219 villages as a result of decreases in Ganjām (239) and North Arcot (38) and increases in Gōdāvari (42), Nellore (5), Chittoor (1), Trichinopoly (4), Coimbatore (5) and Salem (1). The decreases in Ganjām and North Arcot were due mainly to the clubbing of villages at the resettlement. The increase in Gōdāvari was due to the settlement of certain rented villages as separate villages; that in Nellore and Coimbatore, to the splitting up of villages; that in Chittoor and Salem to the resumption of whole inam or zamin villages; and that in Trichinopoly, to the incorrect exclusion of four raiyatwar villages from the Karur taluk last year.

Statement No. 3, column 2.

6. The land revenue of the Presidency is derived from the undermentioned sources:—

(*a*) Peshkash or revenue from permanently-settled estates;
(*b*) Shrotriem jodi or quit-rent levied on inam villages;
(*c*) Assessment including water-rate on lands held under the raiyatwar system;
(*d*) Miscellaneous revenue; and
(*e*) Proprietary estates' village service.

7. *Peshkash or revenue from permanently-settled estates.*—The total amount of peshkash payable during the fasli was Rs. 49,90,138 against Rs. 49,85,345 in the preceding year. The increase of Rs. 4,793 is the net result of—

	Rs.	
(*a*) Addition on account of the inclusion in the current demand of the sum of Rs. 5,015 due from the Arni jaghir which in G.O. No. 261, Revenue, dated 28th January 1913, was ordered to be collected in July	5,015	
(*b*) Addition on account of the inclusion in the current demand of a sum of Rs. 5 being the peshkash on Srinivasapuram agraharam, Nugur taluk, Gōdāvari district	5	
(*c*) Addition on account of the restoration of the old abandoned Kistna flood bank	185	
(*d*) Addition on account of resumed inams handed over to proprietors	60	
(*e*) Addition on account of the re-assignment of lands originally acquired for public purposes but subsequently relinquished ...	6	
(*f*) Rectification of errors	3	
Total ...	5,274	
(*a*) Reduction on account of jodi lost by the resumption of inams...	12	
(*b*) Reduction on account of lands taken up for public purposes ...	396	
(*c*) Amount of fasli 1321 included in the demand of fasli 1322 ...	5	
(*d*) Reasons not given	68	
Total ...	— 481	
	+ 5,274	
	+ 4,793	

8. *Shrotriem jodi.*—The quit-rent payable to Government on villages held on shrotriem or favourable tenure was Rs. 7,51,114 or Rs. 905 less than in the previous fasli. The following are the reasons for the difference:—

	Rs.
(*a*) Addition on account of resumed inams handed over to proprietors	602
(*b*) Addition on account of the grant of fresh lands in lieu of those taken up for public purposes	7
(*c*) Addition on account of the levy of back assessment (kaval fees) on the whole inam village of Sundaranayakipuram in the Tanjore district	12
Total ...	621

		Rs.
(*a*)	Reduction due to the exclusion from the current demand of half the jodi due on the resumed jaghir villages of Vellakuttai and Gollankuttai, North Arcot district	702
(*b*)	Reduction of jodi on account of the conversion into freehold in fasli 1322 of the shrotriem village of Bannihatti, Hospet taluk	351
(*c*)	Reduction of jodi on account of the treatment of the resumed village of Kilangulam in the Madura district as raiyatwar ...	320
(*d*)	Reduction on account of acquisition of land for public purposes	30
(*e*)	Decrease due to the reduction of quit rent on Agraharam title deeds in the course of the verification of B registers ...	23
(*f*)	Rectification of errors	2
(*g*)	Reasons not given	98
	Total ...	— 1,526
		+ 621
		— 905

9. *Holdings.*—The total extent of the raiyatwar holdings during the year was 25·34 million acres and exceeded that of the previous year by about 172,000 acres. The increase was contributed by all the districts except Gōdāvari and the Nilgiris which together showed a decrease of 1,923 acres due to the extent of land relinquished during the year having been larger than that taken up on darkhast. The increase was marked in the districts of Anantapur, Bellary, Kurnool and North Arcot.

Statement No. 4, columns 18, 19 and 20.
Statement No. 5, column 18.

10. *Assessment.*—The total assessment on holdings was Rs. 512·64 lakhs against Rs. 508·92 lakhs in the previous year. North Arcot contributed an increase of Rs. 2,20,314 due to the introduction of the resettlement rates in the taluks of Arkonam, Walajapet, Cheyyar, Vellore and Gudiyattam. In Ganjām also, there was an increase of Rs. 46,178 due mainly to the introduction of revision survey and resettlement in the Aska and Gumsur taluks.

Statement No. 4, columns 22, 23 and 24.
Statement No. 5, column 19.

11. *Cultivation.*—Compared with the previous year, the area cropped on raiyatwar holdings showed a nett decrease of 293,293 acres owing to the generally unfavourable character of the season. For the same reason, the area under "waste charged" and "waste remitted" showed an increase of 397,049 and 67,971 acres respectively. The decrease of cultivation was marked in the districts of Anantapur, Bellary, Chittoor, Madura, Tinnevelly and Coimbatore. Including the area under "miscellaneous cultivation", the total area cropped amounted to 21·46 million acres against 21·85 million acres in the previous year.

Statement No. 3, column 49.

12. *Water-rate and second crop charge.*—The revenue from these sources amounted to Rs. 31·55 lakhs against Rs. 34·31 lakhs or nearly Rs. 2,76,000 less than in the preceding year. This decrease was made up of about Rs. 62,000 under "water-rate on dry lands" and of about Rs. 2,14,000 under "second crop charge." There were large decreases in the districts of Gōdāvari (Rs. 27,423), Nellore (Rs. 57,351), Anantapur (Rs. 34,559), Chittoor (Rs. 31,343), North Arcot (Rs. 52,994) and Madura (Rs. 31,267), but there was a large increase in South Arcot (Rs. 24,909). The decrease, where it occurred, was generally due to the unfavourable character of the season. The increase in South Arcot is attributed to ample rainfall during the latter part of the fasli.

Statement No. 3, columns 43, 48 and 53.
Statement No. 4, columns 26 to 29.

13. *Remission.*—As compared with the previous year, there was a nett increase of Rs. 6·57 lakhs, "Season" remissions and "beriz" deductions showing an increase and "fixed remissions" a decrease.

Statement No. 6.
Statement No. 4, columns 46 to 49.

(i) *Season remissions.*—The remission under this head showed a nett increase of Rs. 7·32 lakhs. The increase occurred under all the sub-heads except "other remissions":—

(*a*) *Waste remitted.*—The remission under this head amounted to Rs. 4·37 lakhs or Rs. 3·26 lakhs more than that remitted in the previous year. A sum of Rs. 14 was remitted on 13 acres of dry land in Kistna under G.O. No. 2380, Revenue, dated 27th August 1908. The rest of the remission related to 93,065 acres of wet land. Wet remissions were granted in almost all the districts, the largest amounts being in the districts of Cuddapah, Anantapur, Chittoor, North Arcot, Madura and Rāmnād. These districts together contributed more than three-fourths of the remission granted under this head.

Statement No. 4, columns 34 to 37.

(*b*) *Shavi or short crop.*—The total amount remitted under this head was Rs. 1,95,084 against Rs. 59,599 in the previous year showing a nett increase of Rs. 1,35,485, the bulk of the increase (Rs. 1,30,306) being in Vizagapatam, Gōdāvari, Kistna, Anantapur, North Arcot, Tanjore, Madura, Rāmnād, Tinnevelly and Salem; of the total shavi remissions, Rs. 1,94,512 related to wet lands and Rs. 623, to dry lands. A remission of Rs. 1,693 was granted under "Short Crop" during the year under report.

(*c*) *Injury by floods.*—The amount remitted under this head was Rs. 39,020 against Rs. 11,979 in the previous year showing a nett increase of Rs. 27,041, South Arcot and Tanjore alone showing an increase of Rs. 33,689.

(*d*) *Tirvakammi remission*—(*i.e.*, remission of the difference between wet and dry assessment on wet land cultivated with dry crops owing to insufficiency or failure of the water-supply) amounted to Rs. 3,55,141 against Rs. 1,25,677 in the previous year, showing an increase of Rs. 2,29,464. The increase was large in the districts of Vizagapatam, Gōdāvari, Cuddapah, Anantapur, North Arcot, Chittoor, Madura and Rāmnād, these districts together account for Rs. 1,95,579 or more than three-fourths of the total increase under this head.

(*e*) *Other remissions.*—A sum of Rs. 333 against Rs. 918 in the previous year, was granted for reclamation of land in Nellore.

(ii) *Fixed remissions* (or abatements of the demand granted for reasons unconnected with the season) amounted to Rs. 1·63 lakhs or 0·81 lakh less than in the previous year. The decrease occurred under all the sub-heads except "other items"; "increment remissions" (remissions allowed on the introduction of settlement or resettlement in cases where the increase over the old assessment is in excess of 25 *per cent.*) showed the largest decrease, Rs. 62,067; the greater portion of the decrease (Rs. 54,905) was accounted for by South Canara and Malabar owing to the reduction of the increment remissions in the usual course. Such remissions were granted in all the districts except Vizagapatam, Kistna, Anantapur, Bellary, Chittoor, South Arcot, Tanjore, Madura, the Nilgiris and Anjengo. Under the head of "fixed remissions" Anantapur and Chittoor also showed a large decrease. In the former district, it was due to the transfer of dasabandam inams and wells to Government during the resettlement of the Kadiri taluk; the decrease in Chittoor has not been explained.

(iii) *Beriz deductions* (deductions made from village collections in favour of inamdars and religious institutions) amounted to Rs. 8·85 lakhs or Rs. 5,434 more than in the previous year. Tinnevelly showed the largest increase Rs. 14,423, and South Arcot, the largest decrease Rs. 13,057. The increase in the former district was due to the payment of arrears of beriz deduction allowances, while the decrease in the latter was mainly due to a sum of Rs. 11,266 being undisbursed owing to the non-appearance of parties and to the postponement of kists in the Chidambaram taluk.

14. *Miscellaneous revenue.*—The revenue under this head amounted to Rs. 92·32 lakhs against Rs. 92·16 lakhs in the previous year showing a nett increase of about Rs. 17,000. Kistna showed the

Statement No. 9.
Statement No. 4, columns 54 to 57.

largest increase, viz., Rs. 1,44,378, and Tinnevelly, the largest decrease, viz., Rupees 62,376. Item 2 "water-rate on Minor Inams in raiyatwar villages" and item 8 "commission on estates under Court of Wards' management" showed the largest decreases Rs. 88,660 and Rs. 24,937, respectively, while item 10 "sale-proceeds of lands sold" and item 13 "other items" showed the largest increases, Rs. 81,524 and Rs. 57,956, respectively. These items will be dealt with below. The increase or decrease in the remaining items was small and calls for no remarks:—

Item 2.—The water-rate on minor inams in raiyatwar villages amounted to Rs. 14·49 lakhs showing a nett decrease of Rs. 88,660 over the revenue under this head in the previous year. Gōdāvari and Kistna showed a decrease of Rs. 38,102 and Rs. 14,807, respectively. In the former district, the decrease was due to the unfavourable character of the season, while in the latter, it was due to the failure of the supply of canal water towards the latter part of the season, particularly in some tail-end villages, resulting in some loss of crop.

Item (8).—The revenue under the head "Commission on Estates under Court of Wards' management" amounted to Rs. 54,430 or Rs. 24,937 less than in the previous year. Ganjām and Rāmnād together account for a decrease of Rupees 20,845. The Collectors of these districts have not accounted for the decrease.

Item 10.—The sale-proceeds of lands sold amounted to Rs. 3,01,036 against Rs. 2,19,512 or Rs. 81,524 more than in the previous year. Kistna alone showed an increase of Rs. 1,16,561, and this was due to the sale of a large extent of tank-bed lands in Divi taluk.

Item 13.—The revenue under unspecified items of miscellaneous revenue showed a nett increase of Rs. 57,956 over that of last year. Kistna, Guntūr and South Canara showed large increases of Rs. 39,597, Rs. 22,093 and Rs. 35,603, respectively, while Ganjām showed a large decrease of Rs. 30,797. The Collector of Kistna has not explained the increase. In Guntūr, the increase was due to the capitalized value of the abatement of land revenue on lands acquired by the Special Deputy Collector for the Guntūr-Tenali-Repalli Railway and in South Canara to the sale of almost the whole stock of coir produced in the Amindivi islands and to the sale-proceeds of the coir of the Malabar islands having been credited in the accounts of this district. The decrease in Ganjām was due mainly to the decreases in the sale-proceeds of Rushikulya waste lands.

Poramboke occuption (*Item* 6).—The revenue under this head amounted to Rs. 5·17 lakhs or about Rs. 8,000 more than in the previous year. The total extent occupied measured 97,704 acres against 102,539 acres in the previous year. On 33,009 acres enhanced charges of Rs. 3,59,560 were levied during the year under report, giving an average rate of Rs. 11 per acre as in last year. Rāmnād showed the highest average rate of Rs. 38 per acre, this heavy incidence being due to the increased penalty imposed on persistent cases of objectionable encroachments on porambokes. In accordance with the instructions conveyed in G.O. No. 813, Revenue, dated 16th March 1910, unobjectionable porambokes are being sub-divided and assigned on patta wherever they exist; occupation of objectionable porambokes is being dealt with severely and persistent encroachers are being evicted. General instructions have been issued to Collectors in regard to the treatment of encroachments on "porambokes" proper in Board's Proceedings No. 166, Land Revenue, dated 25th April 1914.

Statement No. 9-A.

15. The nett raiyatwar demand, excluding remissions but including water-rate, second-crop charge and miscellaneous revenue amounted to Rs. 615·44 lakhs against Rs. 620·88 lakhs in the previous year. The details for this decrease of Rs. 5·44 lakhs are given below:—

Statement No. 4, columns 24, 29, 48, 56, 58, 59 and 61.

	Lakhs of rupees.
Increase in the assessment of holdings	3·72
Decrease under water-rate and second-crop charge	2·76
Increase under remissions	6·57
Increase under miscellaneous revenue	0·17
Total ...	—5·44

16. *Total Land Revenue Demand (Current).*—The demands under the several heads are compared below with the figures for the previous year :—

	Fasli 1322.	Fasli 1323.
	RS.	RS.
Peshkash on permanently-settled estates ...	49,85,345	49,90,138
Shrotriem jodi	7,52,019	7,51,114
Raiyatwar and Miscellaneous	6,20,87,398	6,16,59,070 *
Total ...	6,78,24,762	6,74,00,322

* *Vide* remarks at the foot of Statement No. 10.

The increase under "Peshkash on permanently-settled estates" and the decrease under "Shrotriem jodi" and "Raiyatwar and Miscellaneous" have been explained in the preceding paragraphs.

17. *Total demand under cesses (Current).*—The current demand under cesses is as follows :—

	Fasli 1322.	Fasli 1323.
	RS.	RS.
(1) Land-cess on permanently-settled estates ...	14,07,297	14,66,170
(2) Land-cess on whole inam villages	3,86,060	3,87,701
(3) Cess on raiyatwar and miscellaneous	49,32,175	49,95,793
Total ...	67,25,532	68,49,664

There is a nett increase under item (1). The increase is marked in Nellore, Chittoor and North Arcot. The Collector of Chittoor attributes the increase to the provisional demand for fasli 1323 being calculated on the rental of fasli 1322, which was a favourable year. The Collectors of Nellore and North Arcot have not explained the cause for the increase in their districts. Kistna and Guntūr show a large decrease. The Collector of Guntūr explains it to be due to the inclusion in the demand of the previous year of arrears of cesses of back faslis. The Collector of Kistna has not explained the decrease in his district. The variation under item (2) is slight and calls for no remarks. There is an increase under item (3) in spite of the decrease in the demand under "Ryotwar and Miscellaneous," as there was a large increase in season remissions in comparison with the previous year, and remission of land revenue does not carry with it remission of cesses.

18. *Demand and Collection of Land Revenue and Cesses (Current).*—The current demand under Land Revenue and Cesses was Rs. 7,46,74,181; Rs. 7,38,14,726 or 98·8 *per cent.* was collected within the fasli and a sum of Rs. 360 was written off the accounts.

19. *Demand and Collection of arrears.*—The total arrear demand under all heads was Rs. 9,27,509; Rs 8,10,924 or 87·4 *per cent.* was collected within the fasli and Rs. 25,194 or 2·7 *per cent.* was written off the accounts.

20. *Total balance of Land Revenue and Cesses.*—The balance outstanding at the end of the fasli, including both arrears and current, was Rs. 9,50,486. Including the revenue from the Kurnool-Cuddapah canal, which is dealt with in the monthly demand, collection and balance statements, the balance on 1st July 1914 was Rs. 9,24,008. Up to the end of October 1914, Rs. 7,07,026 or 76·5 *per cent.* had been collected, Rs. 1,823 written off the accounts, while Rs. 282 are considered to be irrecoverable. The nett recoverable balance on 1st November 1914 was Rs. 2,14,877. Steps have been taken to collect this amount.

21. *Reconciliation of differences between the collections of land revenue and cesses as shown in the jamabandi and the Accountant-General's statements and over-payments.*—Information on these points has not yet been received from ten Collectors. The subject will be dealt with in a separate report.

22. *Distribution of collections between land revenue and cesses.*—Land revenue and cesses are not collected separately and no attempt is made to exhibit the collections separately under these heads in the village accounts. The total collections are distributed between land revenue and the several cesses in the Collector's office. The process consists of two stages of which the first or the provisional distribution is effected by crediting to each head month by month such portion of the lump collections as will bear the same proportion to the demand under the head as the total collection bears

to the total demand under all the heads. The second stage is the final adjustment which consists in correcting the provisional credit by transfer from one head to another, where necessary, after the entire demand for the year under all the heads has been collected or written off.

The statements of distribution for fasli 1323 received from Collectors, show that, except in the districts of Ganjām, Gōdāvari, Nellore, Anantapur, Chingleput, Chittoor, South Arcot, Tanjore, Madura, Rāmnād and Coimbatore, the variations between the amounts due to the cesses in fasli 1323 and the amounts actually credited were inconsiderable. The accounts of fasli 1322 remained unadjusted in six districts.

23. *Charges debitable to Land Revenue.*—The charges of district administration including salaries, etc., of Revenue Inspectors but excluding those of village establishments were Rs. 61,08,340 or 8·2 *per cent.* of the land revenue and cesses realised against 7·7 *per cent.* in the preceding fasli. The village service charges including proprietary estates during the fasli were Rs. 69,18,625. Including this sum which is met from Provincial funds, the total charges were Rs. 1,30,26,965 or 17·5 *per cent.* of the collections of land revenue and cesses.

24. *Processes under Act II of* 1864.—Statement No. 12 shows the particulars of the coercive processes issued for the realization of Government dues under Act II of 1864. The following abstract compares the number of processes of each kind issued during the year with the figures for the three preceding faslis :—

Coercive processes.	Faslis.			
	1320.	1321.	1322.	1323.
Demand notices	1,463,605	1,198,222	1,113,240	1,024,281
Distraint and attachment notices	164,313	157,710	94,496	87,461
Sale notices	85,651	89,190	49,527	48,102
Sales (number of defaulters)	2,747	3,491	1,973	1,724
Total ..	1,716,316	1,448,613	1,259,236	1,161,568

There has been a progressive decrease in recent years in the total number of processes issued and the number in the year under report shows a further decline.

25. *Demand notices.*—The instruction that these notices should only be issued when absolutely necessary has been kept in view. The number decreased in 19 districts, especially in the districts of Vizagapatam, Kistna, Cuddapah, Anantapur, Chittoor, Tanjore, Trichinopoly, Madura, Tinnevelly and Salem. On the other hand there was a marked increase in the districts noted in the margin. The Collector of Ganjām reports that the increase was due to the prompt action taken by the taluk officers in the collection of revenue, particularly the enhanced water-rate levied for irregular irrigation and the penal assessment charged for unauthorised occupation of Government land. The Collector of Guntūr states that the increase in his district was mainly contributed by the taluks of Repalle and Bapatla, where special establishments were employed for the service of processes. The Collector of Nellore has not reported the reasons for the increase in his district.

Districts.	Fasli.		Increase.
	1322.	1323.	
Ganjām	23,169	28,755	5,586
Guntūr	52,354	63,792	11,438
Nellore	157,411	173,258	15,847

26. *Distraint or attachment.*—The number of processes under this head was 87,461 in the year under report, against 94,496 in fasli 1322 and 157,710 in fasli 1321. There was a decrease in twelve districts.

27. There was a slight increase in the percentage borne by the number of distraints and attachments to that of demand notices as compared with the previous fasli. The number of defaulters whose immovable property was attached in the year was 14,880 against 17,755 in fasli 1322. The large disproportion noticed in the Madura district in previous years between the number of defaulters whose personal property was

Percentage of the attachment to the total number of demand notices.

Faslis.	Personal.	Real.	Total.
1321	11·07	2·09	13·16
1322	6·89	1·59	8·49
1323	7·08	1·46	8·54

distrained (330) and the number of those whose real property was attached (5,294) is again noticeable and is due, as stated in previous reports, to the large number of absentee pattadars in the area irrigated by the Periyar.

28. *Sale notices.*—Out of 87,461 defaulters whose property was attached, 39,359 or 45 *per cent.* paid the arrears before sale notices were issued. The percentage was 47·58 in fasli 1322, 43·45 in fasli 1321 and 47·8 in fasli 1320.

29. *Sales.*—The number of defaulters whose property was sold was less than in fasli 1322. The percentage of actual sales to sale notices was 3·58 against 3·98 in fasli 1322 and that of the number of defaulters whose property was actually sold to the total number of pattas was ·04 against ·05 in the previous fasli. The subjoined statement compares the particulars of sales in fasli 1323 with the figures for the three preceding faslis :—

	Personal property.				Real property.				Total.			
	Fasli 1320.	Fasli 1321.	Fasli 1322.	Fasli 1323.	Fasli 1320.	Fasli 1321.	Fasli 1322.	Fasli 1323.	Fasli 1320.	Fasli 1321.	Fasli 1322.	Fasli 1323.
Percentage of sales of property to—												
(1) the number of pattas ..	·03	·04	·01	·01	·04	·05	·04	·03	·07	·09	·05	·04
(2) the number of attachments.	·80	1·09	·69	·53	8·42	8·10	8·10	9·01	1·67	2·21	2·09	1·97
(3) the number of sale notices.	Figures relating to sale notices do not distinguish between personal and real property.								3·2	3·91	3·98	3·58
Arrears at the beginning of the fasli under report under raiyatwar and miscellaneous ..	In lakhs of rupees								11·71	9·99	6·65	6·92
Arrear balance at the end of the fasli	Do.								·21	·32	1·01	·90
Percentage of current collections to current demand	Do								98·5	99 03	99·08	98·85

Value of lands sold.—Immoveable property of the estimated value of Rs. 1,10,357 was sold for the recovery of arrears amounting to Rs. 25,423 and realized Rs 51,964. The price fetched by lands sold to private individuals was on the average nine times the assessment in the case of dry lands and six times the assessment in the case of wet lands. In fasli 1322, immoveable property of the estimated value of Rs. 90,776 was sold for the recovery of arrears amounting to Rs. 23,577 and the average prices fetched by lands sold to private individuals were six times the assessment in the case of dry lands and 5·8 times the assessment in the case of wet lands.

Extent of lands sold.—The extent of lands sold during the year was 5,783 acres under "dry" and 1,331 acres under "wet" against 6,169 acres under "dry" and 1,660 acres under "wet" in fasli 1322. The corresponding figures for fasli 1321 were 10,158 acres under "dry" and 3,685 acres under "wet".

Lands bought in by Government.—The total area of lands bought in by Government for want of bidders was 1,213 acres of dry and 325 acres of wet against 1,931 acres of dry and 578 acres of wet in fasli 1,322. More than one-half of the total area bought in was in Guntūr, Nellore, Cuddapah, Bellary and Malabar.

30. *Process service establishment.*—Statement No. 13 gives the particulars of processes served by the ordinary village agency or by special establishments and the fees realised during the year. The total number of processes served was 10,87,263 or 1,20,335 less than in fasli 1322. The number of processes served by the special agency (52,014) was also less than in the previous fasli (53,152).

The special establishment was employed in the same districts as in fasli 1322. Its cost was covered by the fees realised except in Gōdāvari, Tanjore and Rāmnād where there were small deficits.

31. *Costs in Civil suits.*—Rupees 14,901 were awarded to Government as costs during the year. Including Rs. 13,457, the revised opening balance, the total demand was Rs. 28,358 of which Rs. 12,822 were collected, Rs. 353 were written off the

accounts and Rs. 221 were reported to be irrecoverable. The nett recoverable balance at the end of the year was Rs. 14,962 made up as follows :—

	RS.
(1) Amount collected after the close of the fasli	2,247
(2) Amount remaining uncollected pending decision of appeals by civil courts	3,721
(3) Amount involved in execution proceedings	1,217
(4) Amount for not collecting which no reason is assigned	7,777

32. *Interest on arrears of Land Revenue* (*Statement No.* 14).—The total demand on account of interest on arrears of Land Revenue, including the balance at the beginning of the fasli, was Rs. 23,723, of which Rs. 14,524 were collected and Rs. 285 remitted, leaving a balance of Rs. 8,914 against Rs. 12,980 (revised figure) at the end of the previous fasli. More than half the arrears at the end of the fasli relates to Chittoor. The only other district in which the arrears under this head are large is Chingleput. Steps are being taken for recovery.

33. *Sale of land under Standing Orders Nos.* 15, 16, 20, 21, 45 *and* 90.—Under the rules for the sale of occupancy rights in assessed waste lands (Standing Order No. 15), 1,546 acres, assessed at Rs. 2,954, were sold for Rs. 1,50,545; 688 acres of tank bed lands, assessed at Rs. 1,708, were sold for Rs. 1,26,005 under Standing Order No. 16; 341 acres of waste lands in the Nilgiris, assessed at Rs. 384, were sold for Rs. 2,044 under Standing Order No. 20; 39 acres of house-sites in towns were sold for Rs. 18,347 under Standing Order No. 21; 1,507 acres, assessed at Rs. 1,375, which had been bought in by Government at sales for arrears of revenue were re-sold under Standing Order No. 45 for Rs. 7,886; 30 acres, assessed at Rs. 108, which had been acquired for public purposes and subsequently relinquished, were sold under Standing Order No. 90 for Rs. 3,187.

34. *Sub-division of quit-rent.*—No applications were received during the year under Standing Order No. 58 for the sub-division of the joint liability of shareholders in whole inam villages or minor inams in any of the districts of the Presidency.

35. *Transfer of registration of holdings* (*Statement No.* 15).—Transfers of revenue registration fall under one or the other of the following three heads :—

(1) Transfers applied for through officers of the Registration department.

(2) Transfers applied for direct to Revenue officers.

(3) Transfers proposed by Revenue officers *suo motu.*

(1) Under the first head 49,723 applications were received during the fasli against 53,810 in the previous fasli, a decrease of 4,087 or 7·6 *per cent.* The bulk of the decrease was in Guntūr (359), Chingleput (756), South Arcot (1,031), Tanjore (746), Trichinopoly (442), Madura (915) and Tinnevelly (1,656).

(2) The number of applications presented direct to Revenue officers was 38,065 as against 40,968 in fasli 1322, a decrease of 2,903 or 7·08 *per cent.* The bulk of decrease was in South Arcot (883), Tanjore (793), Madura (1,154) and Tinnevelly (3,060).

(3) The number of cases which Revenue officers dealt with on their own initiative under paragraphs 5 and 7 of Board's Standing Order No. 31 rose from 16,605 in fasli 1322 to 17,969 in fasli 1323. The largest increase was in Tinnevelly (1,868), and the largest decrease in Tanjore (1,682). The decrease in Tanjore is explained as due to the exclusion of the cases disposed of by the special staff. The Collector should not have included such cases in the previous year's statement in view of the instructions issued in Board's Proceedings No. 126, dated 22nd May 1913, with reference to paragraph 9 of G.O. No. 919, Revenue, dated 29th March 1913.

The total number of cases of all kinds to be dealt with in the fasli under report including the number pending disposal at its beginning was 121,169; of these 103,409 were disposed of during the fasli leaving a balance of 17,760 pending at the close of the fasli of which 1,458 have since been disposed of.

36. *Ruined tanks.*—In each of the districts of Chittoor and Salem, a tank was handed over to private individuals for repair under Board's Standing Order No. 8. The ayakat of 6·11 acres in the former and of 14·79 in the latter was assessed at special rates of Rs. 2 and Rs. 2–12–0 per acre respectively.

37. *Settlement by Collectors.*—The rule laid down in paragraph 2 of Board's Standing Order No. 12 that the settlement of each taluk should be conducted by the Collector himself once in five years, was complied with except as regards Nugur in Gōdāvari, Arkonam in North Arcot, Gingee in South Arcot and the Tinnevelly taluk. The Collectors of North Arcot and Tinnevelly intend to take up, in the current year, the settlement of the taluks referred to. The Collector of Gōdāvari states that he found it impracticable to go to Nugur as the river Gōdāvari was so low after December that a steamer could not run far up the river, while the Collector of South Arcot states that under the orders of the Board he had to take up the settlement of the flood-affected taluk of Chidambaram, during the fasli in preference to Gingee. The Collectors of these two districts are requested to take these taluks up for settlement during the current fasli.

38. *Loans and advances.*—The advances made under the Land Improvement Loans Act during fasli 1323 amounted to Rs. 3·41 lakhs, and those under the Agriculturists' Loans Act to Rs. 4·17 lakhs. The aggregate amount advanced under both the Acts was thus Rs. 7·58 lakhs as against Rs. 7·70 lakhs in the previous year. The decrease, though small, is the nett result of an increase in twelve districts and of a decrease in eleven districts. The increase is noticeable in Kistna, Cuddapah, North Arcot, Chittoor, Coimbatore, Tanjore, Rāmnād and Tinnevelly and the decrease in the districts of Vizagapatam, Guntūr, Bellary, Chingleput, South Arcot, Trichinopoly and Madura. In order to popularize State loans, a special officer was employed for about five months in Chittoor and North Arcot and another officer in each of the districts of Rāmnād and Tinnevelly for five and three months respectively. The increases were large in North Arcot and Rāmnād. There was also an increase in Coimbatore and Tanjore, although no special officers were employed.

39. *Recoveries.*—Of the sums of Rs. 3·48 lakhs and Rs. 3·42 lakhs repayable during the year under the Land Improvement and the Agriculturists' Loans Acts, respectively, on account of principal, Rs. 3·17 lakhs or 91 *per cent.* under the former Act and Rs. 3 02 lakhs or 88 *per cent.* under the latter were collected. Advances amounting to Rs. 37,128 under the former Act and Rs. 20,100 under the latter Act were repaid by borrowers on account of loans the repayment of which had not fallen due, while sums amounting to Rs. 2,927 under the former Act and Rs. 162 under the latter Act were written off the accounts as irrecoverable.

40. *Coercive processes.*—The aggregate amount of principal and interest repayable during the year under both the Acts was Rs. 9,84,604 of which a sum of Rs. 2,41,274 or about 24 *per cent.* was collected without resort to coercive processes and a sum of Rs. 6,24,254 or 63 *per cent.* after the issue of demands; a sum of Rs. 22,071 was realized after attachment but before sale, a sum of Rs. 3,822 by the sale of moveable property and a sum of Rs. 3,639 by the sale of immoveable property. The balance outstanding at the end of the year was Rs. 89,544, the arrears being heaviest in Madura (Rs. 33,599), Bellary (Rs. 12,552), Anantapur (Rs. 7,947) and Tanjore (Rs. 7,295).

41. The following statement shows the amount of interest payable by the Local Government to the Government of India for fasli 1323 :—

Acts.	Amount advanced to the Local Government by the Government of India.			Interest payable for the year by the Local Government to the Government of India at 3½ *per cent.* on the mean outstanding.
	Outstanding at the beginning of the year.	Outstanding at the end of the year.	Mean outstanding.	
	RS.	RS.	RS.	RS.
Land Improvement Loans Act	31,71,333	31,55,683	31,63,508	1,10,723
Agriculturists' Loans Act	15,65,686	16,60,694	16,13,190	56,461
Total ..	47,37,019	48,16,377	47,76,698	1,67,184

42. The subjoined statement shows the financial results of the operations under the Loans Acts:—

Items.		Land Improvement Loans Act.	Agriculturists' Loans Act.	Total.
		RS.	RS.	RS.
1. Interest payable for fasli 1323 by the Local Government to the Government of India.		1,10,723	56,461	1,67,184
2. Interest collected during the year		1,66,019	1,06,666	2,72,685
3. Balance of interest accruing to the Local Government, *i.e.*, difference of items 1 and 2.		55,296	50,205	1,05,501
4. Remissions of principal		2,927	162	3,089
5. Nett result for 1913–14		+ 52,369	+ 50,043	+ 1,02,412
6. Nett result for previous years	1908–09	+ 20,499	+ 12,242	+ 32,741
	1909–10	+ 29,365	+ 30,726	+ 60,091

	1912–13 .. .	+ 52,618	+ 35,281	+ 87,899
7. Expenditure on free grants-in-aid towards the construction of private protective works or on establishments for well-boring or other outlay incurred from current revenue in connection with Takkavi transactions.		14,901	18,234	* 33,135

* Represents the cost of special establishments entertained in certain districts and the cost of time devoted to loans work by the ordinary Land Revenue establishment at 3½ *per cent.* on the amount advanced during the year.

43. With the aid of loans under the Land Improvement Loans Act, 563 wells capable of irrigating 2,613 acres of land were constructed during the fasli at an aggregate cost of Rs. 1,30,778 and 334 wells designed to benefit 1,609 acres were repaired at a cost of Rs. 62,950; Rs 40,772 were spent on the reclamation of 1,882 acres of land; Rs. 26,000 on the purchase and installation of oil-engines and pumps in the districts of Guntūr, Cuddapah, Chingleput, Coimbatore, Trichinopoly and Tinnevelly; and Rs. 28,247 on other improvements benefiting about 2,665 acres. The Coimbatore district shows the largest number of wells constructed and repaired (148) and it is followed by Madura (144), Tinnevelly (135) and Trichinopoly (101). Under the Agriculturists' Loans Act, 6,791 head of cattle were purchased at an aggregate cost of Rs. 4,04,154 and 67 houses were rebuilt at a cost of Rs. 14,830. Seed-grain was purchased to the amount of Rs. 1,830 and Rs. 1,900 were expended on sugarcane mills. A sum of Rs. 11,440 was spent for other purposes.

44. *Survey Advances.*† —The advances drawn by Collectors during the year under the head "Revenue Survey advances — Collectors" amounted to Rs. 83,106. Of this sum—

		RS.
Kistna	spent	15,041
Ganjām	„	11,179
Tanjore	„	8,884
Guntūr	„	8,464
South Canara	„	5,803
Chingleput	„	5,287
Cuddapah	„	4,627
Tinnevelly	„	4,627
Coimbatore	„	3,193
Gōdāvari	„	2,817
Salem	„	2,509
Nellore	„	2,427
Kurnool	„	2,039

† The figures relate to the official year 1913–14.

Of the total amount of advances outstanding against Collectors under this head, a sum of Rs. 52,488 was adjusted during the year leaving the nett debit under "Revenue Survey advances—Collectors" at Rs. 3,60,588.

Under the head "Cost of survey marks—Collectors", Rs. 25,875 were collected during the year, leaving a balance of Rs. 6,225 to be realized.

The arrears outstanding at the beginning of the year uner the head "Cost of survey marks—Survey Officers" were Rs. 1,30,947. Landholders' bills to the amount of Rs. 2,11,302 were received from Survey Officers during the year. Of the total demand of Rs. 3,42,249 under this head, Rs. 2,14,722 were collected during the year and a sum of Rs. 1,27,527 remained as balance to be collected at the end of the year.

45. *Junior Civilians—Knowledge of Vernaculars.*—The reports of the Collectors generally show that their Civilian Divisional Officers possess an adequate knowledge of the Vernaculars and are able to dispose of Vernacular papers without abstracts, and that the progress of Assistant Collectors in this respect is satisfactory.

46. *The relations between the landlords and tenants in larger zamindaris.*—These relations were, with a few exceptions, fairly satisfactory. In Mandasa and Biridi estates of the Ganjām district, the relations improved. In Devarakota estate and in some portions of Valluru of Kistna district, the relations continued to be strained. As in fasli 1321, the management of the Pamur estate in Nellore was again in confusion. There was no improvement in the relations between the landlords and tenants in the zamindaris of the Chittoor district. The number of summary suits in the Chandragiri division became so large as to necessitate the appointment of a Special Deputy Collector for their disposal. In the Virapperumānallur estate in South Arcot, there was some rupture with reference to the collection of irrigation cess. The relations between the landlord and tenants in Udaiyarpalaiyam in the Trichinopoly district were very strained. Under the Estates Land Act, the Zamindar claimed rent on uncultivated occupied lands which were hitherto exempt from such payment and in consequence there were numerous suits. The friction that formerly existed in the Kannivadi zamindari in the Dindigul taluk of Madura, is reported to be gradually subsiding. There was, however, no improvement in the relations which existed between the zamindar and the tenants in the Periyakulam taluk of the same district; and in consequence large numbers of suits are now pending in the High Court and before the Privy Council. In some of the villages of the Saptur estate, Tirumangalam taluk, there was considerable litigation owing to the introduction of the system of money rents. In the Ayakudi zamindari, Palni taluk, there was a dispute between rival lessees, each of whom had his own supporters among the tenantry. The feelings between the Raja of Rāmnād and his raiyats continued to be strained; nor was there improvement in the relations between the zamindar of Settur and his raiyats, there being disputes (1) relating to certain forest privileges, (2) regarding the settlement of money-rents on varam lands, and (3) about the claim of the zamindar to fix rent on plantations of cocoanuts and other trees according to the number of yielding trees.

47. *Growth of sub-letting in raiyatwar tracts.*—Sub-letting is chiefly resorted to by those engaged in professions other than agriculture and by large landholders. It is reported to be on the increase in Ganjām, the delta tracts of Guntūr and Nellore and the Tiruppattūr taluk of North Arcot, in the Periyar area of Madura and in parts of South Canara, while, in South Arcot and Tinnevelly, sub-letting is described as the general practice. As in previous years, the landlords in parts of Bellary preferred to cultivate lands themselves in order that they might benefit by the rise in the prices of food-grains and cotton, while in parts of Kistna, a tendency was noticed among landowners to decrease sub-letting as they apprehended the initiation of legislation similar to the Estates Land Act conferring occupancy rights on the tenants, but the variation was not marked.

48. *Effect of recent legislation on the people.*—No legislation affecting the people generally was introduced during the year under report. The Madras Estates Land Act, 1908, has largely increased the work of Revenue officers in some districts. Its provisions are becoming better known to the people and this Act and the Madras Land Encroachment Act (Act III of 1905) appear to be working smoothly on the whole.

49. *Co-operative societies.*—Excluding those dissolved, 255 societies were registered under the Co-operative Societies Act during the year under report; of these, three were central, seven non-agricultural and 245 agricultural. The total number of societies established in 25 districts of the Presidency was 1,331 at the end of the year 1913–14.

50. *Enhanced water-cess for irregular irrigation.*—G.O. No. 684, Revenue, dated 7th March 1913, directed that raiyats who had rendered themselves liable to the imposition of enhanced water-cess for the irregular use of Government water, should be given previous notice of their liability. The system was tried in only 17 districts during the year. It is not applicable to the districts of Madras, the Nilgiris, South Canara, Malabar and Anjengo and its introduction in Kistna and Salem was not possible as the subject was under correspondence till nearly the end

of the fasli. The Collectors of South Arcot and Tanjore have not reported on the subject. In Ganjām, Vizagapatam, Gōdāvari, Guntūr, Anantapur, Chingleput, Madura, Rāmnād, Tinnevelly and Coimbatore, the experiment has apparently been satisfactory, but the system has not been in force sufficiently long to justify the expression of an opinion on its merits. The Collector of Madura reports that difficulty is sometimes experienced, owing to want of correct addresses, in serving notices to non-resident pattadars of whom a large number hold lands in the Periyar area. In order to save time he proposes to entrust in future, the signing and issue of notices to Revenue Inspectors instead of to Tahsildars. In Kurnool, the original orders imposing enhanced water-rate were subsequently revised in some cases on representations made by the affected parties. The result of the experiment in Nellore, Cuddapah, Bellary, Chittoor and Trichinopoly is tabulated below :—

District.	Number of cases in which enhanced charge was levied.	Number of cases for which notices were issued.	Number of cases in which objection petitions were received.	Remarks.
Nellore	*	1,883	124	The Divisional officer, Kandukur, modified the orders in deserving cases. This was done by other Jamabandi officers also.
Cuddapah	*	926	..	As the right of the raiyats under their respective channels to take water from certain portions of the river bed was in dispute, Mr. Davies directed that no enhanced water-rate should be levied and ordered an enquiry in respect of 286 notices relating to the Kamalapuram taluk. The Divisional officers are reported to have enquired into 78 of these cases.
Bellary	1,431	1,145	242	In some cases the enhanced charge was remitted.
Chittoor	6	6	1	The Jamabandi officer (Collector) confirmed the Divisional officer's charge.
Trichinopoly	3,384	3,333	636	The original order was revised in most of these and other analogous cases numbering 660 in all.

* Not reported.

In Nellore, owing to the late submission of water-rate accounts by the Revenue Inspectors, timely notices were not issued to the raiyats who in some cases had no time to make representations before orders were passed. On the whole, the Collectors are of opinion that the system is advantageous to the raiyats as it serves to inform them in time of their liability to pay the enhanced charge and gives them facility for making such representations as they may consider necessary and consider that the experiment may be continued.

51. *Tank-bed cultivation.*—During the year under report, the concession to cultivate tank-beds was not sought for in 14 districts. No report on the subject has been received from Rāmnād and South Canara. In the remaining 10 districts, there was demand for such cultivation. In the districts of South Arcot and Trichinopoly, permission was not accorded to cultivate tank-bed lands as the Public Works Department objected and as the season was favourable. In the latter district, however, there was unauthorised cultivation on an extent of 301·25 acres and this area was charged an enhanced assessment of Rs. 1,170–2–0. In the Royachoti taluk of Cuddapah, permission was accorded to cultivate an extent of 49·74 acres of tank-bed with melons and cucumbers. In Kurnool, permission was given to cultivate the beds of four tanks, but it was availed of only in two cases. Dry crops such as, bengal-gram, mustard-seed and cumbu were cultivated on an extent of 179·63 acres subject to an assessment of Rs. 180. There were also some cases of unauthorised occupation of tank-beds and enhanced charge was levied for such cultivation. Permission was granted for the cultivation of melons in two cases, one in the Vellore taluk and the other in the Arkonam taluk of the North Arcot district. There were also six cases of unauthorised cultivation, two in Gudiyāttam and four in Polur. Enhanced charge was levied in all the cases. The raiyats in three villages of the Tirumangalam taluk, Madura district, were allowed to raise cucumbers in tank-beds. An extent of 192·72 acres in the beds of seven tanks in the Coimbatore taluk was cultivated with cucumber. In the Omalur taluk of Salem, on an extent of 8·80 acres, cucumber was cultivated without permission and a taram assessment with an enhanced charge of

Rs. 70 was charged. The concession was also granted in 28 cases in Anantapur and in 16 villages of Chittoor. It is reported that in no case the cultivation caused any injury to the tanks.

52. *Examination of village and taluk accounts.*—According to the instructions conveyed in B.P. No. 337, dated 19th December 1913, communicating G.O. No. 3363, Revenue, dated 19th November 1913, the Collectors of all districts except Madras, where no such accounts are maintained, have submitted reports on the examination of village and taluk accounts and of the village statistical register for fasli 1323 (1913–14). The accounts in these districts were found to have been fairly well maintained and disclosed generally no serious errors. The defects noticed were generally pointed out or rectified then and there.

53. *The village statistical register.*—The subjoined statement shows the progress made in the writing up and checking of the village statistical register during fasli 1323 (1913–14):—

District.	Numbers of villages.	Number of villages for which				Remarks.
		Village registers have been		Village registers remain to be		
		Prepared	Checked	Prepared	Checked	
		For fasli 1323.		Up to fasli 1323.		
1	2	3		4		5
1. Ganjām	1,086	814	727	272	359	
2. Vizagapatam	* 278	275	270	3	8	
3. Gōdāvari	944	..	..	944	944	Registers of 106 villages for fasli 1322 also remained to be prepared and checked.

The difference in peshkash between the figures entered in column 2 of the statement and column 12 of the statement of the previous fasli is due in Vizagaptam to the enfranchisement of certain sub-divided estates in Bobbili and in Salem to correct rounding.

Note.—Variations in cases between the arrear demand entered in column 2 of this statement and the closing balance in column 12 of the statement for fasli 1323 are due in Vizagapatam to the arrear land cess payable on Kota Uratla and Chowduvada estates in the Golgonda taluk and in Coimbatore to the revision of demand.

* Includes Railway cess.

Note.—The current ryotwar demand shown in column 3 of this statement against Vizagapatam, Cuddapah, Trichinopoly, Tinnevelly and Coimbatore differs from the amount shown in column 59 of statement No. 4. The variation in Vizagapatam is due to the inclusion of quit-rent of Proprietary Estates' Village Service inams enfranchised under Act II of 1894, and that in Cuddapah to the rectification of errors. The variation in Trichinopoly is due to the exclusion of Rs. 14,144 being the receipts on account of Proprietary Estates' Village Service. The other Collectors have not explained the variations in their districts.

No. 10.—Statement showing the demand, collection and balance of land revenue and cesses, etc.—*cont.*

NOTE.—(1) The dry and wet extents given in this statement differ from those given in columns 27 and 29 of statement No. 3 against Kistna, Chingleput, North Arcot and Anjengo. In Kistna, the variation is due to the inclusion of the extent relating to Rustambada village of Narasapur taluk excluded from statement No. 3 owing to its non-settlement by the time it was sent; in Chingleput, it is due to the exclusion of the extent for rented villages from this statement; in North Arcot, it is due to the exclusion of the extent relating to Arni Jaghir and Kangundi Zamindari from this statement as they are not in the ryotwar villages of the district; and in Anjengo, it is due to the fact that garden and occupied dry lands are shown as dry in this statement.

(2) The amount of assessment in column 93 differs from that given in column 32 of statement No. 3 in Kistna, Chingleput, North Arcot and Malabar. The variation in the first three districts is due to the causes mentioned in note (1). The Collector of Malabar has not explained the variation.

EXTRACTS FROM THE DISTRICT REPORTS.

1. GANJAM.

(N. MACMICHAEL, Esq., I.C.S., *Collector.*)

7. (*a*) RAIYATWAR SETTLEMENT.—In consequence of the introduction of resettlement in Gumsur and Aska taluks there was a decrease in the total number of villages settled. One hundred and seventy-two villages in Gumsur taluk and 68 villages in Aska taluk were clubbed with the other villages of these taluks and one new village Dowgam was created by the sale of Public Works Department lands in Aska taluk. Thus there is a decrease of 239 villages.

17. COERCIVE PROCESS AND SALE FOR ARREARS OF REVENUE.—There was an increase of 5,586 in the demand notices and a decrease of 1,150 and 544 in the distraint and sale notices respectively. The increase in the demand notice was due to the prompt action taken by the Taluk officers in the collection of revenue and of penal charges levied for irregular irrigation and unauthorized occupation of Government land. The decrease in the other two cases was due to the fact that the raiyats paid up their dues soon after they were served with demand notices. Though distraint had to be made in the case of 715 defaulters, personal property was sold in the case of twelve defaulters only for an arrear of Rs. 92. Real property of fifteen defaulters was sold for an arrear of Rs. 1,392, the extent involved being 63 acres dry and 46 acres wet. Of this area 57 acres of dry and 40 acres of wet land relate to the Chicacole taluk. An extent of 1 cent of land in Berhampur taluk was bought in by Government for want of bidders for Re. 1.

26. VERNACULAR CORRESPONDENCE IN THE ASSISTANT AND SUB-COLLECTORS' OFFICES.—Messrs. Davies, Rutherford and Arndt know Telugu and Uriya well. Mr. King has passed in Telugu as his second language. Orders were passed then and there on vernacular petitions presented to them. Endorsements on petitions were generally given in the language in which they were presented.

32. (*a*) RELATION OF LANDLORD AND TENANT IN LARGE ZAMINDARIS.—The relations between zamindars and tenants were on the whole satisfactory except in Mandasa and Biridi estates. Even in these estates the relations were not so strained as before. In the latter estate there were some slight disputes between the zamindar and tenants which were amicably settled. Of the estates noted in the margin the survey of which was sanctioned by Government in the last fasli, the survey of the two villages in Chikati estate and of Nandigam was completed within the fasli. The suit which was pending last year between the two proprietors of Urlam estate was decided in this fasli. One of them, the proprietor of Devadi (a sub-division of Urlam), applied for the survey of his estate, but as he did not pay up the required deposit his application was rejected. The proprietrix of Humma also applied for the survey and record of rights of her estate but not yet paid the required amount of deposit.

Kallikota and Atagada, Biridi, Dharakota, Tarla (four villages), Chikati (two villages), Nandigam, Baruva village.

(*b*) SELLING OF OCCUPANCY RIGHT TO NON-CULTIVATING CLASSES.—There has been no general tendency on the part of the raiyats to sell their occupancy right to non-cultivating classes. In Chatrapur and Chicacole divisions there were alienations in a few cases of occupancy right to the non-agricultural classes.

33. GROWTH OF SUB-LETTING IN RAIYATWAR TRACTS.—Sub-letting is chiefly resorted to by non-agricultural classes, by those who are engaged in professions other than agriculture and by owners of large landed property. It is reported to be on the increase. The increase is attributed to the fact that the capitalists prefer to invest their money in land rather than to undergo the risk of investing in trade.

34. EFFECT OF RECENT LEGISLATION.—No special legislation affecting the people generally was passed during the fasli. The Madras Land Encroachment Act (Act III of 1905) and the Estates Land Act (Act I of 1908) worked smoothly during the year. No special difficulties have been reported.

---

2. VIZAGAPATAM.

(R. W. DAVIES, Esq., I.C.S., *Acting Collector.*)

4. VERNACULAR CORRESPONDENCE IN THE ASSISTANT AND HEAD ASSISTANT COLLECTORS' OFFICES.—Messrs. F. W. R. Robertson, R. F. B. L. Guppy, J. I. Smith, A. C. Duff, D. G. Bles and A. R. Wolbrom worked in the district during the year. Mr. Guppy and Mr. Duff are acquainted with the languages with which they have to deal. Of the others I am unable to speak.

8. GROWTH OF SUB-LETTING IN RAIYATWAR TRACTS.—Sub-letting is not on the increase.

10. EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—During the year under report, no new legislation affecting the people in general was passed. The Irrigation Bill is looked forward to with considerable apprehension.

3. GODAVARI.

(E. B. Elwin, Esq., I.C.S., *Collector.*)

3. The Godavari and its Floods.—The river began to rise on the 25th June 1913 and the highest flood was 11·5 feet over the crest of the anaikat on the 22nd July 1913. This was lower than that of the previous year which was 14·2 feet on 9th August 1912 and was 5·5 feet below the maximum flood level of 17 feet recorded on 2nd October 1891. The river fell earlier than usual, and the supply of water for second crop was inadequate.

5. Raiyatwar settlement.—The number of raiyatwar villages in the district is 592 as against 550 of the last year, the increase being due to the settlement of 42 rented villages of Polavaram division as raiyatwar villages.

17. Coercive processes.—The number of processes of all kinds issued was 391 against 229 of the previous year. The attachments and sales of movable and immovable property under Act II of 1864 during the current and previous faslis are compared below :—

Fasli.	Movable property.						Immovable property.					
	Attached.			Sold.			Attached.			Sold.		
	Number of cases.	Amount of arrears.	Value of property distrained.	Number of cases.	Amount of arrears.	Value of property distrained.	Number of cases.	Amount of arrears.	Value of property distrained.	Number of cases.	Amount of arrears.	Value of property distrained.
		Rs.	Rs.		Rs.	Rs.		Rs.	Rs.			
1322	28	21,067	10,293	6	15,669	7,525	1	134	400	..	..	..
1323	44	7,589	6,925	15	1,497	2,259	4	1,316	1,982	..	..	..

Since there were no land sales at all during the fasli for arrears of revenue, there was no land bought in by Government. The number of processes issued was large in the Amalapuram taluk. The Tahsildar of the taluk will be directed to issue notices hereafter in cases where it is absolutely necessary to do so.

25. Vernacular knowledge of certain Assistant Collectors.—Mr. A. J. King and Mr. B. Rama Rao were Assistants to the Collector, the former from 13th November 1913 to 3rd March 1914 and the latter from 18th December 1913. Mr. A. J. King passed the higher standard in Telugu in January 1914. Mr. B. Rama Rao has not yet appeared for examination in Telugu, but is beginning to acquire a knowledge of it. He appeared for Tamil in July last, but failed.

32. Relations between landlord and tenant in larger zamindaris.—Pittapur, Kottam, Bhadrachalam and Gopalpur are the large zamindaris in this district. The relations existing between the landlord and tenant were mostly amicable. The landlords do not generally resort to coercive processes except under unavoidable circumstances. Most of the suits filed by the zamindars were for the recovery of rent from their tenants.

33. Growth of sub-letting in raiyatwar tracts.—The system of sub-letting is going on as usual and is chiefly resorted to by (1) big landholders, (2) non-resident landholders, (3) non-agricultural landowners such as vakils, merchants and officials. The agricultural classes such as Kshatriyas and Sudras do not sub-let their lands but cultivate them.

34. The effect of recent legislation on the people.—In the year under report there was no legislation affecting the people generally. Act II of 1894 was to some extent amended by Act III of 1914 which has been recently passed and it relieves the zamindar from the duty of collecting the quit-rent due to Government from the holders of enfranchised service inams.

---

4. KISTNA.

(J. M. Turing, Esq., I.C.S., *Acting Collector.*)

15. Coercive processes.—The number of coercive processes of each kind issued during the year under report is shown below :—

—	1322.	1323.	Difference.
Demand notices	6,480	4,916	— 1,564
Attachment notices	1,871	2,243	+ 372
Sale notices	887	1,198	+ 311

The decrease in the number of demand notices issued was due to the fact that the instructions "that these notices should be issued only when absolutely necessary" was kept in view. Out of an extent of 513 acres sold for arrears of revenue, an extent of 29 acres was purchased by Government for want of bidders and the rest was purchased by private individuals.

23. RELATIONS BETWEEN LANDLORDS AND TENANTS.—The relations between the landlords and the tenants continued to be strained in Devarakota estate and in some portions of North Valluru.

24. GROWTH OF SUB-LETTING IN RAIYATWAR TRACTS.—There is reported to be a tendency visible here and there among the land-owners to decrease sub-letting as they apprehended some legislation similar to the Estate Land Act conferring occupancy rights on the tenants but as yet there is no marked variation.

25. EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—There was no legislation of importance in fasli 1323 directly affecting the agricultural classes. The Estates Land Act I of 1908 is working fairly satisfactorily but is capable, I think, of considerable improvement.

27. VERNACULAR KNOWLEDGE OF CIVILIAN ASSISTANTS.—All the Sub-Collectors that worked in this district during the fasli had an adequate knowledge of Telugu. Both the Assistant Collectors, Messrs. F. H. Senneck and Hilton Brown, have passed the vernacular tests by the lower standard.

---

5. GUNTUR.

(N. E. MARJORIBANKS, Esq., I.C.S., *Collector*.)

23. COERCIVE PROCESSES.—The subjoined statement shows the number of processes of each kind issued during the fasli under report and the previous fasli :—

	Fasli 1322.	Fasli 1323.
(1) Demand notices	52,354	63,792
(2) Attachment notices	3,401	2,794
(3) Sale notices	40	517
(4) Sales	40	58

Except under item (2) above, there has been an increase in the number of coercive processes in the fasli mainly contributed by taluks of Repalle and Bāpatla. Detailed reasons therefor are not reported, but it may be due to the employment of a special establishment of process-servers.

36. VERNACULAR KNOWLEDGE OF THE CIVILIANS.—Mr. Gharpurey, who was in charge of the Ongole division for a major portion of the year, has already been reported to possess a sufficient colloquial knowledge of Telugu.

37. THE RELATIONS BETWEEN LANDLORDS AND TENANTS.—There are no zamindaris or estates in the district except a portion of the Venkatagiri estate situated in the Ongole taluk. The relations between the zamindar and his tenants there are said to be satisfactory.

38. GROWTH OF SUB-LETTING IN RAIYATWAR VILLAGES.—The sub-letting of holdings prevails on the lands of large holders and those engaged in professions other than agriculture and is the usual tenure in the deltaic taluks. It is more limited in the upland taluks.

39. EFFECTS OF RECENT LEGISLATION.—There is nothing noteworthy to report.

---

6. NELLORE.

(Diwan Bahadur R. RAMACHANDRA RAO, Esq., B.A., *Collector*.)

5. NUMBER OF VILLAGES.—The number of raiyatwar villages has risen from 509 to 514 owing to the splitting up of Survepalli, Gandavaram and Allur into 3, 2 and 3 respectively.

20. COERCIVE PROCESSES.—The number of demand notices followed by sales was 118 against 170 in the previous year. The fall calls for no special explanation. Of these cases, 87 relate to sale of real property. Many of these cases relate to lands held jointly which the resident pattadars wish to get rid off to escape the assessment which is being collected from them.

30. THE RELATIONS BETWEEN LANDLORD AND TENANT IN THE LARGER ZAMINDARIS.—The management of Venkatagiri estate continued to be on the whole efficient and the relations between the Maharaja and his tenants remained as in previous years. Portions of the northern khandam of this estate were surveyed and the areas of holdings increased. The proprietor charged higher garden rates for the excess found in gardens. The tenants protested, but got no redress. The annual sale of kanchas is another cause of complaint in the administration of this and the Pamur estate. With the increasing demand for ploughing cattle, the value of the kanchas has considerably gone up especially in the southern portion of the district. The competition at sales is keen, and is begetting factions, leading to breach of peace in some localities. The tenants demand annual leases for fixed rents, but the proprietor would not give up the sales. The irrigation works are not receiving adequate attention. But withal the relation

between the proprietor and his tenants is generally harmonious. There are numerous complaints that the zamindar's subordinates are not straight forward in making recommendations for the village offices at revision.

The Pamur estate is again in confusion. The administration is conducted as before. The term of the lease or sale to the present proprietor has run and he should have rendered back the estate to the Raja of Kālahasti, but he did not do so, and still remains in possession of it. Recently the entire estate was sold in the civil court and was purchased by a native of Hyderabad, presumably on behalf of the present proprietor. He did not credit the entire purchase money. This matter and the future management of the estate are now before civil courts. Owing to this state of confusion no improvement is possible.

Chundi is under the management of the Court of Wards and Muthyalapad is being managed well. Among the minor proprietors of the Kālahasti estate, the proprietor of Vinjamur and Utukur finds it difficult to control the tenants.

31. GROWTH OF SUB-LETTING IN THE RAIYATWAR VILLAGES.—I have nothing to add to the remarks contained in the last year's report.

33. THE EFFECT OF THE RECENT LEGISLATION ON THE PEOPLE.—The provisions of the Madras Estates Land Act are being understood more and more. The Irrigation Cess Act has in no way affected the district. The Hackney Carriage Act, which has recently been extended to the Nellore town, is at present disliked by the jutkawallas. They struck work, but are gradually coming to their senses. The various ordinances and notifications issued recently as the result of the European war did not affect this district which is purely an agricultural area. The mica mines have been affected, and they do not employ many now. But the men thrown out find work elsewhere. With the recent legislation of a political character such as the Seditious Meetings Act, the Explosives Act and the Press Act, the masses in the district do not concern themselves. No prosecution under the Press Act was instituted during the year.

34. VERNACULAR LANGUAGE OF CIVILIANS.—The only civilian division in the district was in charge of a Deputy Collector.

7. CUDDAPAH.

(T. E. MOIR, Esq., I.C.S., *Acting Collector.*)

20. PROCESS UNDER ACT II OF 1864.—Statement No. 8 shows the particulars of the coercive processes issued for the realisation of Government dues under Act II of 1864. The following abstract compares the number of processes of each kind issued during the year with the figures for the two preceding faslis :—

Coercive processes.	Fasli 1321.	Fasli 1322.	Fasli 1323.
1. Demand notices	43,835	32,856	28,380
2. Distraint and attachment notices	5,414	4,497	4,175
3. Sale notices	2,161	1,943	1,832
4. Sales (number of defaulters)	458	320	156

There has been a gradual decrease in the total number of processes issued in recent years and the number in the year under report shows a further decline in spite of the unfavourable character of the season.

40. JUNIOR CIVILIANS—*Knowledge of vernaculars.*—Only one Civilian Divisional Officer served in the district—Mr. L. J. P. Jolly. I am unable to report as to his knowledge of the vernacular.

41. RELATIONS BETWEEN THE LANDLORDS AND TENANTS.—Call for no special remarks.

42. GROWTH OF SUB-LETTING IN RAIYATWAR TRACTS.—The practice is not on the increase.

43. EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—There is nothing requiring special mention in this connection.

8. ANANTAPUR.

(I. MACIVER, Esq., I.C.S., *Collector.*)

17. VERNACULAR CORRESPONDENCE IN THE SUB-COLLECTOR'S OFFICE.—Mr. R. H. Courtenay, who is in charge of the Penukonda division is well acquainted with Telugu, and Telugu petitions were read aloud to him. The correspondence to and from the taluk offices continues to be carried on in English.

23. RELATION OF LANDLORD AND TENANT IN THE LARGER ZAMINDARIS.—There are no such zamindaris in this district.

24. THE GROWTH OF SUB-LETTING IN RAIYATWAR TRACTS.—This practice is not on the increase in this district.

25. EFFECTS OF RECENT LEGISLATION ON THE PEOPLE.—No enactment passed during the year under report had any marked effect on the people of the district.

9. BELLARY.

(A. F. G. Moscardi, Esq., I.C.S., *Collector.*)

11. Coercive processes.—Enclosure A to Statement No. 8 exhibits the particulars of processes issued. The number of defaulters whose personal property was attached and sold rose from 4 to 21 while that of the defaulters whose real property had to be sold fell from 81 to 76. The increase in the former was due to the less favourable character of the season.

21. Extent to which Assistant and Sub-Collectors passed orders on English abstracts prepared by clerks.—The Civilians' Division was mostly in charge of Mr. H. T. Reilly and Mr. G. H. Jackson was in charge of the head-quarter division in the months of August and September 1913 and of the Hospet division in November and December 1913. The two Assistant Collectors, Messrs. G. M. Robertson and R. C. Callander, were not in charge of any division during the fasli. The former officer passed the Higher Standard in Malayalam and the latter the Lower Standard in Telugu.

23. Relation of landlords and tenants.—There are no zamindaris in this district. The relations between landlords and tenants in whole inam villages were quite harmonious except that the raiyats of shrotriem Kodihalli village in Harpanahalli taluk complained to the Revenue officers that the shrotriemdar had not been respecting their rights and allowing them to enjoy their lands according to well established usage. They want their lands to be surveyed. The matter is awaiting the organization of a party to survey shrotriem villages—*vide* Board's Proceedings No. 135, dated 30th March 1911. Final orders have not yet been received.

24. Growth of sub-letting in raiyatwar villages.—There was no noticeable increase in sub-letting. The Divisional Officers of Bellary and Adōni report, as in the previous year, that landholders prefer to cultivate the lands themselves in view of the increased income on account of the rise in the price of food-grains and cotton.

27. Effect of recent legislation on the people.—There were no special legislative measures during the year.

---

10. KURNOOL.

(H. A. B. Vernon, Esq., I.C.S., *Collector.*)

23. Processes under Act II of 1864.—Statement 8-A gives the particulars of the coercive processes issued under Act II of 1864.

The following abstract compares the number of process of each kind issued during the year with the number issued in the two preceding years.—

Coercive processes.	Fasli 1321.	Fasli 1322.	Fasli 1323.
1. Demand notices	1,440	248	463
2. Distraint and attachment notices	282	101	137
3. Sale notices	133	116	86
4. Sales	35	14	22

40. Junior Civilian's knowledge of vernacular.—My Assistant Mr. F. J. Nobes has a fair knowledge of Telugu and is able to dispose of vernacular papers without abstract.

41. Relations between the landlords and tenants.—The relation between landlords and tenants has continued to be harmonious.

42. Growth of sub-letting in raiyatwar villages.—Non-resident raiyats and non-agriculturist classes, such as Brahmins, Komaties, traders, etc., generally sub-let the lands. This tendency is not on the increase.

44. The effect of recent legislation on the people.—There was no special legislation during the year, affecting the people generally.

No new co-operative societies were registered during the year.

---

11. MADRAS.

(D. W. G. Cowie, Esq., M.A., I.C.S., *Collector.*)

7. Coercive process and sales for arrears of revenue.—The number of distraint warrants issued was 26,533 against 26,537 in the previous fasli. Personal property was distrained in 38 cases for arrears amounting to Rs. 245 as against 43 cases for arrears of Rs. 394 in the previous fasli. Distrained property was actually sold in a single case for an arrear of Rs. 280. Lands were attached in 61 cases against 50 in the previous fasli; but land was brought to sale in only two cases, the amount involved being Rs. 3.

13. Effect of recent legislation on the people.—There has not been during the fasli under report any important legislation affecting the population of the district.

12. CHINGLEPUT.

(S. P. Rice, Esq., I.C.S., *Collector*.)

18. Coercive processes.—The following abstract compares the processes issued during the year under report with those of the previous year:—

	Fasli 1323.	Fasli 1322.
(1) Demand notices	34,349	35,727
(2) Distraint and attachment notices	13,678	17,825
(3) Sale notices	12,344	16,642
(4) Sales	226	239

The decrease in the number of processes issued is due to the greater scrutiny exercised over the list of defaulters prepared by the village officers and to the adoption of coercion only in cases in which difficulties were anticipated in the matter of collection.

29. Junior Civilians; Knowledge of Vernaculars.—There were no junior civilians in the district during the year under report.

30. The relations between landlords and tenants in larger zamindaris.—There is nothing special to note regarding the relations between the landlords and the tenants. As the district contains many small estates the owners of which live in Madras, complaints are sometimes made of the neglect of tanks and other irrigation works, and there is doubtless some truth in most of them. Under the Madras Land Estates Act I of 1908, 1,309 suits were filed in the year against 909 in the previous year. The increase is chiefly due to the increased activity in the Kachinad portion of the Kālahasti Zamindari.

---

13. CHITTOOR.

(H. L. Braidwood, Esq., I.C.S., *Acting Collector*.)

3. Raiyatwar villages.—(i).—There was an addition of a single village to the total number of raiyatwar villages in the district. The whole inam village of Hanumepalle in Palmaner taluk, was resumed and added to raiyatwar.

6. The figures showing the number of processes issued during the fasli are compared below with those of the preceding fasli.

—	Fasli 1322.	Fasli 1323.	Decrease.
Number of demand notices issued	53,941	33,670	20,271
Do. attached notices issued	1,280	476	804
Do. sale notices	629	461	168

The decrease in the number of processes issued is noticeable and it is in a great measure due to the personal efforts of the subordinate revenue officials in collecting the revenue and issuing demands only when absolutely necessary. The particulars showing the extents to which land sales were actually resorted to during the fasli are compared below with those of the preceding year.

Particulars.	Personal or real.	Fasli 1322.	Fasli 1323.	Difference.
1. Number of defaulters whose property was sold ..	Personal	37	4	— 33
	Real	29	10	— 19
2. Amount of arrears for which property was sold ..	Personal	736	34	— 702
	Real	220	218	— 2
3. Amount realized by sale of property .. .	Personal	611	18	— 593
	Real	72	214	+ 142
4. Extent of land sold and purchased by others ..	....	40	60	+ 20
5. Extent of land sold and purchased by Government..	....	159	44	— 115

13. Knowledge of vernaculars by junior Civilians.—There was no junior Civilian working in this district during the fasli.

16. Landlords and tenants in Zamindaris.—There has been no improvement in the relation between landlords and tenants in Zamindaris. As reported last year, the petty landholders who now hold portions of the old estates do not command the respect formerly paid to the ancient Zamindars. The number of summary suits in Chandragiri division has become so large as to necessitate the appointment of a Special Deputy Collector for their disposal.

17. Growth of sub-letting in raiyatwar tracts.—There was no noticeable change in this direction.

18. Act III of 1905.—The provisions of the Act were enforced whenever found necessary. No suits were filed in this connection.

14. NORTH ARCOT.

(F. J. RICHARDS, Esq., I.C.S., *Collector.*)

4. RAIYATWAR VILLAGES.—There was a net decrease of 38 in the number of raiyatwar villages in the district. In Arkonam taluk several groups of villages were clubbed into single villages at the resettlement. As against 167 raiyatwar villages as per last year's accounts, there are at present 131 resettled raiyatwar villages including Dharmanadhi (resumed inam village); but as the appeal to the High Court on behalf of Government against the order of the Lower Courts cancelling the order of resumption has since been withdrawn: *vide* B.P. Mis. No. 2914, Land Revenue, dated 24th July 1914. This village will be removed from the list of the raiyatwar villages in the accounts to be submitted for fasli 1324. There was also decrease of three villages in Vellore taluk, two in consequence of the reconstitution of the villages comprising the Vellore municipality and one due to the clubbing of Kothur village Bit No. 1 with Kilkothur village at the resettlement. Similarly the clubbing of Mangadu Ayan and resumed inam village into one led to a decrease of one village in Walajapet taluk. The transfer of Kil Arni to Arni Deputy Tahsildar's division, sanctioned in G.O. No. 3434, Revenue, dated 25th November 1913, communicated in B.P. Mis. No. 4649, Land Revenue, dated 3rd December 1913, led to the decrease of one village in Polur taluk, and to the addition of a raiyatwar village to the charge of the independent Deputy Tahsildar of Arni. The number of villages in Gudiyattam taluk was increased by two, owing to the transfer of the two entire villages Charagallu and Mordana from Palmaner taluk of Chittoor district. The number of raiyatwar villages in the district at the end of the fasli under report is 1,695.

10. COERCIVE PROCESSES.—The figures relating to the processes issued during the year are compared below with those relating to the preceding fasli.

Number of raiyatwar pattadars:—300,580.

Items.	In fasli 1322.	In fasli 1323.	Increase or decrease.
Number of demand notices issued	293,365	287,563	— 5,802
Do. of attachment notices issued ..	1,981	3,145	+ 1,164
Do. of Sale notices issued	23	24	+ 1

Arkonam shows a considerable decrease in the number of demand notices issued, viz., 26,961 against 67,839 in the previous year, while Cheyar, Wandiwash, Gudiyattam and Polur show a general increase over the number of demand notices issued in the previous year. The increase in the number of attachment notices issued occurs mainly in Arkonam, viz., 1,952 against 612 in last year. The figures showing the number of cases in which sales for default of payment were actually resorted to are compared below with those of the previous fasli.

The differences call for no special remarks, as the figures themselves are of very little consequence when the district as a whole is considered. The forty acres of land bought in by Government are inferior land, and relate to Tiruppattūr taluk assessed at Rs. 9-4-9.

Particulars.	Personal or real.	Fasli 1322.	Fasli 1323.	Difference.
Number of defaulters whose property was sold	Personal	21	15	— 6
	Real	2	9	+ 7
Amount of arrears for which property was sold	Personal	123	286	+ 163
	Real	31	49	+ 18
Amount realized by sale of property	Personal . ..	194	274	+ 80
	Real	30	101	+ 71
Extent of land sold	....	10	57	+ 47
Extent of land bought in by Government	....	7	40	+ 33

14. KNOWLEDGE OF VERNACULAR BY CIVILIANS.—Mr. Sykes continued in the district throughout the year, and in charge of Tiruppattūr division. The practice of disposing vernacular correspondence was the same as in last year. Mr. S. Wadsworth, who joined the district as Assistant Collector in December 1913, passed the examination for junior civilians in Tamil (Lower Standard).

19. RELATION BETWEEN LANDLORD AND TENANT.—Kangundi and Arni are the only considerable estates in the district. The former continued under the management of the Court of Wards. Besides there are some mittas in Tiruppattūr and Arkonam taluks. The relations between landlord and tenant in these estates call for no special notice.

20. GROWTH OF SUB-LETTING IN RAIYATWAR TRACTS.—Sub-letting is, as usual, confined to non-agricultural classes, and Vaisyas and absentee land-owners, most of whom are merchants, vakils, or officials. Large landholders also sub-let portions of their holdings in some cases, and

the tendency is said to be on the increase, particularly in Tiruppattūr taluk. As observed in the report of last year, investments in land were on the increase, tending to gradual rise in the value of agricultural land.

21. EFFECT OF RECENT LEGISLATION.—There has been nothing noteworthy in the administration of Act I of 1908 (the Madras Estates Land Act). The system of confining notice and action under Act III of 1905 (the Madras Land Encroachment Act) to real encroachments, established with reference to the survey record of measurements, is being insisted on. It is hoped that a strict observance of the orders contained in Board's Proceedings No. 166, Land Revenue, dated 25th April 1914, will improve matters considerably.

---

15. ARCOT, SOUTH.

(M. AZIZ-UD-DIN SAHIB BAHADUR KHAN BAHADUR, I.S.O., *Collector.*)

3. NUMBER OF VILLAGES.—The total number of villages was the same as in the previous fasli, but by the formation of a new village called "Aziz Nagar", in Vriddhachalam taluk, the number of *hamlets* in that taluk was increased by one.

13. COERCIVE PROCESS.—The total number of processes of each kind issued in faslis 1322 and 1323 is noted below. There was decrease both under attachment and sale notices. The increase under No. 1 demand notices was due to the difficulty in realizing the arrear in the taluks affected by floods.

Items.	Fasli 1322.	Fasli 1323.
1. Demand notices	7,774	8,569
2. Attachment notices	203	147
3. Sale notices	110	102
4. Sales	5	6

PROCESS ESTABLISHMENT.—The total number of processes served by special agency was 5,111 against 4,101. The increase was due to the reasons given in the previous paragraph. A sum of Rs. 629 including the arrear was realized as fees. The actual cost of the process establishment amounted to Rs. 592.

22. VERNACULAR CORRESPONDENCE BY COVENANTED DIVISIONAL OFFICER.—No Covenanted civilian worked in the district during the fasli under report.

29. RELATION OF LANDLORD AND TENANT IN LARGE ZAMINDARI AREAS.—There are no big zamindaris in this district. The relation between the two in other estates except Shrotriem Virapperumanallur continues to be satisfactory. In the excepted estate, there has been of late some rupture with regard to the collection of irrigation cess.

30. GROWTH OF SUB-LETTING IN RAIYATWAR TRACTS.—The sub-letting continued to be resorted to as usual by the absentee owners and owners of extensive lands.

31. EFFECT OF RECENT LEGISLATION ON THE PEOPLE. The Irrigation Cess Act was only recently passed and it is too early to pronounce any opinion on the working of the Act.

---

16. TANJORE.

(R. B. WOOD, Esq., I.C.S., *Collector.*)

16. COERCIVE PROCESSES.—Statement No. "8-A" shows the particulars of coercive processes employed for the realization of Government revenue during fasli 1323. The demand notices issued fell from 171,679 to 151,857: the talukwar changes call for no comment.

17. DISTRAINT OR ATTACHMENT.—The total number of defaulters whose property was attached in fasli 1323 and the total number of cases in which it was found necessary to issue sale notices as compared with the previous fasli are noted below:—

Number of raiyatwar pattadars.	Number of defaulters whose property was attached.			Percentage of column 3 to column 1.	Number of sale notices.	Percentage of column 6 to column 3.
	Fasli 1322.	Fasli 1323.	Difference.			
243,383	11,789	11,805	+ 16	4·85	11,548	97·8

The ratio of attachment to demand notices is 7·4 against 6·86 in the previous year The proportion of pattadars whose property was attached was 4·85 against 4·84 in the previous year. The percentage of sale notices to attachment has risen from 94·13 to 97·8.

The total number of sale notices issued and of cases in which the property was actually sold in fasli 1323 are noted hereunder:—

Number of raiyatwar pattadars.	Number of sale notices issued in			Number of cases in which the property was sold.			Percentage of column 6 to column 1.	Percentage of column 6 to column 3.
	Fasli 1322.	Fasli 1323.	Difference.	Fasli 1322.	Fasli 1323.	Difference.		
243,383	11,097	48	+ 451	67	84	+ 17	·03	·7

The total extent of lands sold and the extent of lands bought in by the Government for want of bids during the fasli 1323 as compared with the previous fasli are noted below:—

Extent of lands sold.			Extent bought in by Government.			Extent bought by private persons.	Percentage of column 5 to column 2.
Fasli 1322.	Fasli 1323.	Difference.	Fasli 1322.	Fasli 1323.	Difference.		
ACS.	ACS.	ACS.	ACS.	ACS.	ACS.	ACS.	
10	40	+ 30	..	5	+ 5	35	12·5

Lands of an aggregate estimated value of Rs. 2,377 were sold for the arrears of Rs. 567, the amount realized being Rs. 1,309.

25. JUNIOR CIVILIANS—KNOWLEDGE OF VERNACULARS.—There is no Vernacular official correspondence. Mr. T. Austin and Mr. G. H. B. Jackson were in charge of Negapatam Division during the year. Mr. C. G. Austin was the Divisional Officer at Kumbakonam for four months of the year. Mr. Brown was the Assistant Collector since November 1913. Petitions were, as a rule, read to the officers when presented in person. Petitions received by post, if not read in original by the addressee are submitted with an English abstract prepared in the office. Messrs. Jackson and C. G. Austin have a good knowledge of the Vernacular: and Mr. T. Austin knows it very fairly.

28. THE RELATIONSHIP BETWEEN LANDLORDS AND TENANTS IN LARGE ZAMINDARIS.—The relationship between the landlords and the tenants is on the whole satisfactory.

29. GROWTH OF SUB-LETTING IN RAIYATWAR TRACTS.—Sub-letting is chiefly resorted to by absentee landlords, by those engaged in professions other than agriculture and by large landholders. I cannot say, however, that there are any indications of this increasing.

30. EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—The Madras Estates Land Act has been in force from fasli 1314. Landlords and tenants seem to understand the provisions fairly well. Increasing advantage is being taken of the provisions of the Act to get appraisements of crops made by Revenue Officers, and the extra work thus thrown on the Revenue Inspector is becoming a matter for serious consideration.

---

17. TRICHINOPOLY.

(L. VIBERT, Esq., I.C.S., *Collector.*)

14. COERCIVE PROCESSES AND SALES FOR ARREARS OF REVENUE.—The instruction that these notices should only be issued when absolutely necessary has been kept in view. There was a considerable decrease in the number of demand notices issued though there was an increase in the other kinds of notices issued during the year. The figures of the last four faslis are compared below:—

Coercive processes.	Fasli 1320.	Fasli 1321.	Fasli 1322.	Fasli 1323.
Demand notices	75,770	55,708	79,155	53,471
Distraint and attachment notices ..	2,375	1,911	1,631	2,107
Sale notices	2.363	1,906	1,608	1,857
Total ..	80,508	59,525	82,394	57,435

The decrease in the number of demand notices issued was marked in the taluks of Trichinopoly, Perambalūr and Udaiyārpālaiyam. It was due to the prompt payment of Government dues by the raiyats owing to the general favourable character of the season. The extent sold during the year for arrears of revenue was 119 acres of dry land, mostly in the Perambalur taluk, assessed at Rs. 140 and one acre of wet, assessed at Rs. 7 in the Udaiyārpālaiyam taluk. The number

of defaulters whose personal and real property was attached was 1,934 and 64 respectively. Personal property was sold in 12 cases and real property in 10 cases.

18. VERNACULAR CORRESPONDENCE OF THE ASSISTANT COLLECTOR.—Mr. E. M. Gawne was Assistant Collector of the district during the fasli. He has already passed the lower standard in Tamil and has a fair knowledge of that language which he has taken considerable pains to study.

19. RELATIONS BETWEEN LANDHOLDERS AND TENANTS IN LARGE ZAMINDARIS.—The zamindar of Marungapuri is assisted by a manager, a pensioned Government servant. He and his tenants are generally in good terms. The relationship between landlord and tenants in Udaiyārpālaiyam is very strained. Under the Estates Land Act, the zamindar has been claiming rent on uncultivated occupied lands which were hitherto exempt from such payment and in consequence there have been numerous suits. The Kadavur zamindari continues under the management of the Court of Wards. The Sub-Collector, Karūr division, has been appointed Estate Collector under section 46 of the Court of Wards Act. The zamindari is heavily encumbered. The relationship between the Court of Wards and tenants is on the whole satisfactory.

20. GROWTH OF SUB-LETTING IN RAIYATWAR TRACTS.—Sub-letting is, as usual, chiefly resorted to by the non-agricultural classes, by those engaged in professions other than agriculture and by the owners of large landed property.

21. THE EFFECT OF RECENT LEGISLATION.—In the year under report, there was no legislation affecting the people generally. There is much litigation under the Estates Land Act in Udaiyārpālaiyam. The provisions of the Act are becoming better known to the people and the Act appears to be working smoothly on the whole.

---

18. MADURA.

(A. R. KNAPP, Esq., I.C.S., *Collector.*)

14. PROCESS UNDER ACT II OF 1864.—The following abstract compares the number of processes of each kind issued during the fasli with those of the previous fasli:—

Items.	Fasli 1322.	Fasli 1323.	Difference.
(*a*) Demand notices	31,704	28,544	—3,160
(*b*) Distraint notices	4,826	5,624	+ 798
(*c*) Sale notices	4,708	5,606	+ 898

The increase under the last two items was due to the unfavourable character of the season. The disproportion between the number of defaulters (330) whose personal property was attached and the number of defaulters (5,096) whose real property was attached is explained by the existence of a large number of non-resident pattadars chiefly in the Periyār area. Among the latter class, 4,699 however paid the arrears due by them before the lands were brought to sale. Out of the 346 acres of dry and 228 acres wet sold, 57 acres dry and 19 acres wet were purchased by Government for want of bidders. The amounts realised by the sale of personal and real property were Rs. 5 and 16,141 respectively. The total number of defaulters whose property (personal and real) was sold was 398 against 251 in the previous fasli. The percentage of the actual sales to sale notices was 7·9 against 5·3 in the previous fasli while the number of defaulters whose property was actually sold was ·17 of the total number of pattas against ·11 in the previous fasli. The percentage of lands bought in by Government to the extent of land sold was 13 against 34 in the previous fasli.

22. RELATIONS BETWEEN THE LANDLORDS AND TENANTS IN LARGER ZAMINDARIS.—There was a want of harmony in the zamindaris of the Periyakulam taluk owing to the irregular issue of pattas and the institution of a large number of suits, appeals in regard to several of which are now pending in the High Court and before the Privy Council. In some of the villages of the Sāptūr estate, Tirumangalam taluk, a good deal of litigation has come about owing to the introduction of the money-rent system. In the Ayakudi zamindari, Palni taluk, there was a dispute between rival lessees each of whom had his own supporters among the tenantry. The friction in the Kannivadi zamindari in Dindigul taluk is said to be gradually subsiding. The relations in the other zamindaris continued to be harmonious.

23. GROWTH OF SUB-LETTING IN RAIYATWAR TRACTS.—Sub-letting is growing in the Periyār area where the owners are generally vakils or men exercising other professions in towns.

25. EFFECT OF RECENT LEGISLATION ON THE PEOPLE—ACT I OF 1908.—The number of suits and applications received during the year under report was 1,878 and 11,615 against 2,134 and 10,104 respectively in the previous year. In Madura taluk there are complaints that inamdars are giving away foreshore lands for cultivation to the detriment of irrigation and grazing. In one village, a dispute likely to cause a breach of the peace arose and was dealt with under section 144, Criminal Procedure Code.

ACT I OF 1909.—Very few of the sales under Act II of 1864 were confirmed almost all being cancelled under section 37-A of the Act. It is reported by the Divisional officer, Melur, that many rich raiyats have taken advantage of the Act to delay payment of kist until their lands have been sold.

35. JUNIOR CIVILIANS—KNOWLEDGE OF VERNACULARS.—Mr. M. McGilligan, Assistant Collector, had a fair knowledge of Tamil and was able to dispose of petitions in that language when read by a clerk. Mr. Glasson appeared to have but small acquaintance with Tamil but frequently made use of his knowledge of Hindustani. Mr. Stodart possesses a fair working knowledge of Tamil.

19. RAMNAD.

(A. R. LOFTUS-TOTTENHAM, Esq., M.A., I.C.S., *Collector*.)

12. RELATION OF LANDLORDS AND TENANTS IN PROPRIETARY ESTATES.—In the Devakkōttai division, the relation between Chetti landlords and tenants are, as usual, not very satisfactory in some cases.

In the Rāmnād division, the feelings between the Raja and the raiyats are somewhat strained owing to the Raja's attempt to charge wastes and untapped palmyras and also owing, it is said, to his not maintaining irrigation tanks properly. The estate was allowed to get into a thorough mess before the Raja succeeded to it and he cannot do everything at once, especially as his own financial position leaves much to be desired.

In Sattur division, the relation between the Zamindar of Sattur and his raiyats are strained owing to (1) dispute relating to certain forest privileges, (2) disputes in regard to the settlement of money rents on varm lands, and (3) disputes as to the right of the zamindar to fix rent on plantations of cocoanut and other trees according to the number of trees that yield.

13. GROWTH OF SUB-LETTING IN RAIYATWAR TRACTS.—I have nothing new to report on this subject.

16. WORKING OF ACT III OF 1905.—I have personally inspected about 128 alleged encroachments. I consider that the Act is too often worked without common sense. I had taken up the question of remedying this state of affairs even before the Board called for suggestions. I believe the correct solution of the problem lies in realising that to classify every encroachment as "objectionable or unobjectionable" is impossible; and that a large percentage should simply be treated as negligible.

20. TINNEVELLY.

(C. G. TODHUNTER, Esq., I.C.S., *Collector*.)

15. PROCESS UNDER MADRAS ACT II OF 1864.—(*a*) The table below compares the figures with those of the previous year :—

Description of processes.	Fasli 1322.	Fasli 1323.
(1) Demand notices	12,945	7,867
(2) Distraint and attachment notices	997	1,069
(3) Sale notices	996	1,067
(4) Sales	25	5

Th edecrease under heads (1) and (4) was due to prompt collections and better supervision.

(*b*) DISTRAINT, ATTACHMENT AND SALES.—A comparison of the figures with those of the preceding year is given below :—

—	Attached.		Sold.		Realized by sale.	
	Number of defaulters.	Amount for which property was attached.	Number of defaulters.	Amount of arrears for which property was sold.	Personal property.	Real property.
		RS.		RS.	RS.	RS.
Fasli 1322	997	7,981	25	741	583	749
„ 1323	1,069	5,466	5	164	..	638

There were attachments in 13·5 *per cent.* of the cases for which demand notices were issued as against 7·7 *per cent.* in the previous year. The percentage of sales to sale notices was only 0·5 against 2·5. No land was bought in by Government for want of bidders.

25. BOARD'S PROCEEDINGS No. 321 (SETT.), DATED 24TH AUGUST 1904.—(1) The relation between landholders and tenants continues to be harmonious on the whole.

(2) GROWTH OF SUB-LETTING IN RAIYATWAR VILLAGES.—Sub-letting by the richer pattadars is usual.

(3) THE EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—No remarks.

26. VERNACULAR KNOWLEDGE OF CIVILIAN OFFICERS.—The Civilian officers in the district possess a fair knowledge of Tamil.

21. COIMBATORE.

(A. R. CUMMING, Esq., I.C.S., *Collector.*)

4. NUMBER OF VILLAGES.—During the year, five villages in the Erode taluk were in the interests of efficient administration split up into two each. The number of raiyatwar villages in the district was thereby increased from 1,100 to 1,105. The number of zamin and inam villages remained as in the previous year.

13. COERCIVE PROCESSES AND SALES FOR ARREARS OF REVENUE.—(*a*) Detailed particulars of the processes employed for the realization of the Government demand under Act II of 1864 are furnished in the enclosure A to return No. 8. The processes issued during the last three faslis are compared below :—

Items.	Fasli 1321.	Fasli 1322.	Fasli 1323.
Number of demand notices	757	725	299
Number of attachment notices	24	32	30
Number of sale notices	16	28	13
Total ..	797	785	342

As compared with fasli 1322 there was a decrease in the number of all the three kinds of notices issued, while a comparison with fasli 1321 shows a similar decrease except in the case of attachment notices. The decrease in the number of demand notices as compared with the last two faslis is specially noteworthy.

(*b*) In the fasli under report personal property was attached in three cases for an arrear of Rs. 38 against 16 for an arrear of Rs. 164 in the previous year and eight for an arrear of Rs. 92 in fasli 1321. Real property was attached in the case of 24 defaulters for arrears of Rs. 661 against 22 persons for arrears of Rs. 221 in the previous year and 16 for Rs. 150 in fasli 1321. In no case was the personal property sold. Particulars of the disposal of the 13 notices for the sale of land are given below :—

(*c*) Notices for the sale of land were issued in 13 cases. In five of these no sale was held as the arrears were realised before sale and in two others sales were held but were cancelled as the arrears were paid before confirmation of the sales. Four cases of sales were adjourned beyond the fasli, two in Erode and two in Coimbatore. In the former taluk, they were wrongly notified for a date in June and had therefore to be adjourned to August and in the latter taluk the sales were posted to September as the required formalities under the Revenue Recovery Act were completed only in August. The remaining two cases relate to Bhavāni taluk where the Revenue Divisional officer has ordered resales as the original sales were cancelled owing to some irregularity in procedure.

27. GENERAL.—There is nothing special to record on any of the points referred to in paragraph 4 of Board's Proceedings No. 321, Settlement, dated 24th August 1904.

---

22. THE NILGIRIS.

(M. YOUNG, Esq., I.C.S., *Collector.*)

6. VERNACULAR CORRESPONDENCE IN THE REVENUE DIVISIONAL OFFICE.—Mr. H. H. Burkitt, I.C.S., was in charge of the Coonoor division till 4th March 1914 when he was relieved by Mr. J. Gray, I.C.S. Both of them are conversant with Tamil, but the correspondence with the Taluk officers continued to be carried on in English, as usual.

8. RELATIONS BETWEEN LANDLORD AND TENANT IN LARGER ZAMINDARIS.—There are no zamindari tracts in the district.

9. SUB-LETTING IN RAIYATWAR AREAS.—The practice of sub-letting continued to prevail to a very small extent in the Gudalur taluk, and in the Municipal towns of Ootacamund and Coonoor.

11. EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—There was no special legislation during the year which affected the people of the district. The Madras Land Encroachment Act III of 1905 worked smoothly. The provisions of the Madras Estates Land Act of 1908 were not resorted to.

---

23. SALEM.

(E. W. LEGH, Esq., I.C.S., *Collector.*)

2. (*c*) RAIYATWAR VILLAGES.—During the fasli under report, the Jarugumalai hill village of the Salem zamin came under amani (raiyatwar) in pursuance of the compromise decree in Original Suit No. 11 of 1908 on the file of the District Court, Salem, with reference to the correspondence ending with Government Order 3143 (Confidential), Revenue, dated 22nd September 1910.

14. PROCESS UNDER ACT II OF 1864.—The appended statement shows the total number of processes issued during the year as compared with the previous year:—

Fasli.	Number of processes issued.				Number of defaulters whose property was sold.		Extent of land sold.		Amount realised by the sale of			
	Demand notice.	Notice of attachment.	Notice of sale.	Total.	Moveable.	Real.	Dry.	Wet.	Real property.	Moveable property.	Other property.	Total.
							ACS.	ACS	RS.	RS.	RS.	RS.
1322	22,320	341	299	22,960	8	..	226	16	..	72	..	72
1323	5,767	171	151	6,089	10	26	88	13	280	91	13	384

Processes were as usual served partly by a special agency in the Hosur taluk and by the village agency alone in the other taluks. The number of processes served by the special agency was 555, against 375 in the preceding year. The extent of land sold for arrears of revenue and bought in by Government was 28 acres against 86 acres in the previous year.

20. VERNACULAR CORRESPONDENCE IN DIVISIONAL OFFICES.—During the year under report Messrs. S. Burn and C. G. Austin were in charge of the Hosur Division. Mr. Burn can read, write and speak Tamil in which he has passed in the Higher Standard, and he understands Telugu fairly well. Malayalam is his third language, but he had no occasion to use it. Mr. Austin can speak, read and understand Malayalam fairly well and he has passed Higher Standard Tamil. His second language is Malayalam, but he reports that his knowledge of Malayalam is very slight.

24. EFFECTS OF RECENT LEGISLATION ON THE PEOPLE.—Madras Act III of 1905 and Act I of 1908 seem to be working satisfactorily. The recent enactments in regard to the extension of the elective franchise in the Legislative Council seem to be appreciated.

25. RELATIONSHIP BETWEEN LANDLORDS AND TENANTS IN LARGE ZAMINDARIS.—There are no large zamindaris in the district. In Palayams and Mittas, the relationship is on the whole satisfactory.

26. GROWTH OF SUB-LETTING IN RAIYATWAR VILLAGES.—There is no marked tendency one way or the other. The system is useful for large land owners, absentee pattadars and land holders with other professions.

24. SOUTH CANARA.

(M. E. COUCHMAN, Esq., I.C.S., *Collector.*)

Fasli.	Demand notices.	Notices of distraint or attachment.	Notices of sale.
1322	5,811	158	100
1323	4,998	186	85
	— 813	+ 28	— 15

Fasli.	Value of moveable property sold.	Extent of real property sold.
	RS.	ACS.
1322	202	79·24
1323	286	12·29

13. COERCIVE PROCESSES.—There was a decrease in the number of demand notices and notices of sale issued during the year, and in the extent of real property sold, while there was an increase in the number of notices of distraint or attachment, and in the amount of moveable property sold. These variations are due to ordinary fluctuations. All the real property sold was purchased by private individuals.

20. VERNACULAR CORRESPONDENCE IN THE SUB-COLLECTOR'S OFFICE.—Sub-Collector Mr. G. W Wells reports that he generally disposed of vernacular petitions presented in person or received by post without the aid of English translations or abstracts, though he got some one to read them to him, unless they were simple petitions like the copy applications, and that it was only when he was busy with other work, that he asked short abstracts in English to be put up.

26. POINTS REFERRED TO IN PARAGRAPH 4 OF BOARD'S PROCEEDINGS No. 321, DATED 24TH AUGUST 1904.—The system of sub-letting is reported to be rather on the decrease in the Udipi taluk, while there appears to have been a noticeable increase in the Hosdrug division of the Kasaragod taluk on account of an increased demand for land for cultivation of pepper vines. There was no appreciable increase in sub-letting in the remaining parts of the district.

There has been no recent legislation affecting the people in general.

---

25. MALABAR.

(C. A. INNES, Esq., I.C.S., *Acting Collector.*)

11. PROCESSES UNDER ACT II OF 1864.—Statement No. 8-A gives particulars of the processes issued.

The decrease of 72 in the number of processes issued during the year as compared with the previous year calls for no special remarks.

15. RELATIONS BETWEEN LANDLORD AND TENANTS IN ZAMINDARI TRACTS.—There are no zamindaris in this district.

16. GROWTH OF SUB-LETTING IN RAIYATWAR TRACTS.—There is no change of any importance to report.

19. THE EFFECT OF RECENT LEGISLATIONS.—There has been recently no legislation of importance to the agricultural population of this district.

26. VERNACULAR ATTAINMENTS OF PASSED ASSISTANTS, HEAD ASSISTANT COLLECTOR AND SUB-COLLECTOR.—Mr. Hall is not very conversant with the vernacular. Petitions are either read out to him by his clerks or if received by post abstracted in English. The same procedure as regards petitions was followed by Messrs. Rabjohns, Hill and Thorne. Mr. Rabjohns could speak and understand Malayalam but both Messrs. Hill and Thorne who are new to the district require some practice.

---

26. ANJENGO.

(A. T. FORBES, Esq., I.C.S., *Collector.*)

11. SUB-LETTING IN RAIYATWAR TRACTS.—There is little or no sub-letting.

13. COERCIVE PROCESSES.—No processes of any kind were issued for the recovery of Government dues.

16. VERNACULAR ATTAINMENTS.—The Assistant Collector, Captain R. E. G. Berkeley, I.A. (now on leave) knows Tamil and Urdu (Higher Standard). The Acting Assistant Collector, Captain E. F. Ross, I.A., is conversant with colloquial Tamil and Hindustani (Higher Standard). Malayalam petitions are translated to him.

17. EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—There were no special difficulties of any kind to be reported during the year and there was no case of disaffection or ill-feeling between classes.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Proceedings of the Board of Revenue (Revenue Settlement, Survey, Land Records and Agriculture).

Settlement of Land Revenue (Jamabandi)—Submitting to Government report on the—for fasli 1324 (1914–1915). } (Here enter No. 337, dated 23rd December 1915.

Order—No. 486, Revenue, dated 2nd March 1916.

With its Proceedings read above, the Board of Revenue submits the report on the land revenue settlement of the Madras Presidency for fasli 1324 (ending on 30th June 1915).

Miscellaneous.

2. The south-west monsoon was above the average in all districts except Guntūr, Anantapur, Madura, Tinnevelly, North Arcot, Salem, Coimbatore and Trichinopoly. The north-east monsoon was less favourable than in the preceding year, especially in the Circars, Nellore, Chittoor and the Deccan districts, but the rainfall was nevertheless on the whole sufficient. The staple food grains were generally cheaper than in the preceding year, but the average retail prices continued to exceed the rates classed as normal.

3. Owing to the generally favourable character of the season the total extent of ryotwari holdings in the Presidency, viz., 25·55 million acres rose by about 216,000 acres. The area cropped also increased to 20,597,847 acres or 80·62 per cent of the holdings as compared with 20,246,091 acres and 79·90 per cent in the previous year.

4. The following statement compares the income derived from land revenue and cesses during the period under review with the corresponding figures for the preceding year :—

—	Fasli 1323.	Fasli 1324.	Difference.
	Rs.	Rs.	Rs.
1. Peshkash or revenue from permanently-settled estates . ..	49,90,138	49,87,350	— 2,788
2. Land-cess on permanently-settled estates	14,66,170	14,44,733	— 21,437
3. Quit-rent on inam villages held on favourable tenure	7,51,114	7,56,323	+ 5,209
4. Land-cess on inam villages held on favourable tenure	3,87,701	3,90,204	+ 2,503
5. Revenue from lands held on the ryotwari system including water-rate and miscellaneous revenue.	6,16,59,070	6,18,91,575	+ 2,32,505
6. Cess on ryotwari and miscellaneous revenue	49,95,793	50,57,248	+ 61,455
Total land revenue items 1, 3 and 5 above ..	6,74,00,322	6,76,35,248	+ 2,34,926
Total cesses items 2, 4 and 6 above ..	68,49,664	68,92,185	+ 42,521

5. The settled assessment on ryotwari holdings rose from 512·64 to 515·35 lakhs. The increase was due to the introduction of resettlement rates in one taluk of the North Arcot district and in two taluks of the Chittoor district. The revenue derived from water-rate on dry land and from the charge for second crop on wet land rose from Rs. 31·55 to Rs. 32·72 lakhs; the variation under these two heads was mainly confined to North Arcot, Chingleput and South Arcot and may be attributed to timely and general rainfall. Season remissions rose from 10·59 to 10·94 lakhs; this was due to damage caused by floods.

6. There was an increase in the irregular occupation of poramboke land (land reserved for State or communal purposes), the figure being 97,704 acres in fasli 1323 and 121,956 acres in fasli 1324. The increase was especially marked in four districts. In Anantapur and Kurnool, it is attributed to the favourable character of the season, in North Arcot to the cultivation of lands set apart for grazing-ground poramboke during the resettlement and in South Arcot to the cultivation of lands acquired for the Toludur project. The Government regret to note that their orders as regards the transfer to "assessed waste" of poramboke lands, the occupation of which is unobjectionable have not yet been fully carried out. Though there has been an increase of 24,000 acres in the cultivation of poramboke, the extent penalized has only increased by 6,600 acres, and the rate of penal assessment per acre has decreased. The Government desire to impress once more on the Board of Revenue that assessment on poramboke land is not to be regarded as a source of revenue but simply as a means of securing for the villagers the enjoyment of lands which they require for communal purposes. The best means for the attainment of this object are (1) careful enquiry with a view to ascertaining which lands are or are not required for communal purposes, (2) classification of the former only as poramboke and (3) the imposition of severe penalties in the case of encroachments on such lands. The statistics for the year under review show that these conditions are far from complete fulfilment, and the matter is one which deserves the Board's special attention. It is open to the Board to call for such information as it requires from Collectors as a preliminary to enquiry into the causes of the present state of things. The matter should be dealt with fully in next year's jamabandi report.

7. *Collections.*—The work of collection was as usual satisfactorily carried out. Rupees 7,42,17,587 or 98·7 per cent of the gross current demand was collected within the fasli against 98·8 per cent in the previous year. The arrear balance at the beginning of the fasli was Rs. 9,53,685 ; Rs. 8,48,673 or 89 per cent was collected within the fasli and Rs. 15,545 or 1·6 per cent was written off the accounts. The balance outstanding at the end of the fasli including arrears and current was Rs. 10,49,635 of which Rs. 8,73,263 or 82·9 per cent was collected by the end of October 1915.

8. *Coercion.*—The number of coercive processes which had been steadily decreasing for several years increased from 1,161,568 in fasli 1323 to 1,513,159. The increase was marked in eight districts. The increase in Chingleput, North Arcot and South Arcot is attributed to the stringency of the money market and to a fall in the price of groundnut. In Malabar it is reported to be due to a sudden and heavy fall in the price of cocoanuts, copra, etc., after the outbreak of the war. No special reason is given in regard to other districts, but it has to be observed that demand notices, which may be regarded as reminders rather than as definitely coercive processes, formed about 88 per cent of the total number of processes issued; the percentage of actual distraints and attachments as compared with the total number of demand notices was only 6·86 in the case of personal property and 1·38 in the case of real property against 7·08 and 1·45 in the previous year. 36·41 per cent of the defaulters whose property was attached paid the arrears without need for the issue of sale notices. There were only 2,042 sales covering 10,014 acres of land, figures representing ·05 per cent of the total number of pattas and ·039 per cent of the total area under holdings. Of the extent sold only 2,426 acres had to be bought in by Government for want of bidders, an average of 93 acres per district. Of the land thus bought in 2,136 acres were classed as dry. Out of a total land revenue collection (current and arrears) of over 750½ lakhs the amount in respect of which property had to be sold as a method of recovery was only Rs. 39,727, that is to say about one-nineteenth per cent of the whole amount. The average price realised by the land sold to private persons for arrears was about six times the assessment in the case of dry lands and about ten times the assessment in the case of wet lands.

9. *Transfer of registry.*—The total number of applications for transfer of registry to be dealt with in the period under report including the number brought forward for disposal from the previous year was 172,278, of which 134,651 were disposed of leaving a balance of 37,627. The question of the amendment of the rules governing transfer of registry, to which reference was made in last year's report, is still under the consideration of Government.

10. *Loans.*—The aggregate amount advanced under both the Land Improvement and the Agriculturists' Loans Acts was 8·18 lakhs against 7·58 lakhs in the previous year. Of this amount Rs. 1,97,000 was advanced for 784 wells and a sum of Rs. 20,200 was advanced for the purchase and installation of oil-engines and pumps. The introduction of special rules for loans for pumping installations is still under consideration.

11. The Government will be glad if the Board will give a fuller account in future jamabandi reports of the effect of the orders which came into force during the fasli under report empowering Tahsildars to dispose of cases of unauthorized occupation of land and irregular taking of water for irrigation.

Editors' Table (omitting paragraphs 45 and 46 of Board's Proceedings and extracts from district reports).

PROCEEDINGS OF THE BOARD OF REVENUE

(REVENUE SETTLEMENT, SURVEY, LAND RECORDS AND AGRICULTURE).

The Hon'ble Mr. R. B. CLEGG, I.C.S.,
Commissioner of Land Revenue.

The Hon'ble Mr. LL. E. BUCKLEY, I.C.S.,
Commissioner of Revenue Settlement, Survey, Land Records and Agriculture.

Resolution—No. 337, dated 23rd December 1915.

The Board submits its report on the settlement of land revenue in the Presidency for fasli 1324 (1914–15) together with the prescribed statements. The usual extracts from the district reports are appended.

2. *Season, rainfall and prices.*—The total rainfall during the south-west monsoon was above the average in all the districts except Guntūr, Anantapur, Madura, Tinnevelly, North Arcot, Salem, Coimbatore and Trichinopoly. The north-east monsoon, however, was not so favourable as in the preceding year especially in the Circars, Nellore, Chittoor and the Deccan districts. The dry weather rains were good and beneficial to late crops in Guntūr, Nellore, Chittoor and North Arcot. Fairly good showers fell in April and continued with varying strength up to the end of May. The average annual retail prices of the staple food-grains were generally lower than those in the preceding year but everywhere dearer than the normal rates. The prices of rice in Trichinopoly, Madura and Rāmnād, of cholam in Coimbatore, of cumbu in Vizagapatam, Salem and Trichinopoly and of ragi in Ganjām and Vizagapatam were dearer than the warning rates fixed by Government in their order No. 1977, Revenue, dated 3rd July 1912.

3. *Cropped area.*—The total cropped area of the year under report (39,090,000 acres) exceeded the normal area (38,161,000 acres) by 929,000 acres. Paddy, groundnut, gingelly and tobacco showed an increase and the other crops a decrease. As compared with the previous year, the cultivation under paddy, cumbu, gingelly, groundnut, indigo and tobacco showed an increase while that under cholam, ragi, castor, sugarcane and cotton showed a decrease. In no case is the outturn reported to have exceeded the normal. The yield of paddy was normal in the Nilgiris and Coimbatore and ranged from 63 to 88 per cent thereof in the remaining districts. The yield of cholam in Ganjām, of cumbu in Malabar, of bengalgram, varagu and "other cereals specified" in Tinnevelly, of horsegram in Anantapur and Tinnevelly, of indigo in Anantapur, Chittoor, Madura and Tinnevelly, of groundnut in Kistna, of "other oil-seeds" in Vizagapatam and Rāmnād and of "all others including topes" in Kistna and Guntūr was below 50 per cent of the normal. In all other cases, the outturn ranged from 50 to 98 per cent thereof.

4. *Condition of cattle.*—The total number of deaths from disease among horned cattle showed an increase of 17,297 as compared with the preceding year, the total for the year being 68,025. Unusually severe outbreaks of rinderpest occurred in several districts especially Kurnool, Guntūr, Kistna and Nellore, with the result that the number of deaths from this disease showed a very large increase in spite of vigorous measures taken to combat it. There was also an increase in the number of deaths reported from anthrax. The mobile corps of veterinary assistants was employed during the year in the districts of Kurnool and Nellore. A cattle census was taken by karnams during the year under report and tested by Revenue Inspectors and Tahsildars and in a few cases by Divisional Officers also. The enumeration was on the whole fairly correct.

LIBRA

5. *Number of villages.*—In the year under report there was a net decrease of 45 villages as a result of decreases in Chittoor (2), North Arcot (1), Madura (4) and Coimbatore (60) and increases in Ganjām (8), Vizagapatam (1), Kistna (6), Cuddapah (3) and Rāmnād (4). The decreases in Chittoor and Madura were due to the transfer of villages to adjoining districts and that in North Arcot to the recognition of one village as whole inam. The large decrease in Coimbatore is due to the clubbing of villages in the Kollegal taluk. The increases in Ganjām, Vizagapatam, Kistna and Cuddapah are mainly due to the creation of new villages and to the resumption of certain whole inam villages; that in Rāmnād is due to the transfer of four villages from Madura.

Statement No. 3, column 2.

6. The land revenue of the Presidency is derived from the undermentioned sources:—

(*a*) Peshkash or revenue from permanently settled estates;
(*b*) Shrotriem jodi or quit-rent levied on inam villages;
(*c*) Assessment including water-rate on lands held under the raiyatwar system;
(*d*) Miscellaneous revenue; and
(*e*) Proprietary estates' village service.

7. *Peshkash or revenue from permanently settled estates.*—The total amount of peshkash payable during the fasli was 49,87,350 against 49,90,138 in the preceding year.

The decrease of Rs. 2,788 is the net result of—

	RS.
(*a*) Reduction on account of the orders in G.O. No. 1650, Revenue, dated 15th July 1915, directing the payment of the kattubadi due on some Bissoyi villages in the Parlākimedi estate direct to Government	2,530
(*b*) Reduction on account of lands taken up for public purposes ...	171
(*c*) Reduction on account of jodi lost by the resumption of inams...	6
(*d*) Rectification of errors	3
(*e*) Reasons not given	89
Total ...	2,799
(*a*) Increase due to the reduction effected last year in the peshkash of an estate in Guntūr in lieu of cash payment of a refund.	1
(*b*) Rectification of errors	6
(*c*) Reasons not given	4
Total ...	11
	— 2,799
	— 2,788

8. *Shrotriem jodi.*—The quit-rent payable to Government on villages held on shrotriem or favourable tenure was Rs. 7,56,323 or Rs. 5,209 more than in the previous fasli. The following are the reasons for the increase:—

	RS.
(*a*) Addition on account of the collection direct by Government of the kattubadi on certain Bissoyi villages in the Parlākimedi estate as per G.O. No. 1650, Revenue, dated 15th July 1915	2,530
(*b*) Addition on account of the recognition of the resumed village of Dharmanidhi in the Arkonam taluk as a whole inam village	17
(*c*) Addition on account of the treatment of certain minor inams in the Tinnevelly district as whole inam	3,261
(*d*) Addition as a result of verification of B registers with Huzur Inam registers in Tanjore	32
(*e*) Reasons not given	2
Total ...	+ 5,842

		Rs.
(*a*)	Reduction due to the inclusion in the last year's demand of the Anantasagaram Agraharam in Nuzvid taluk, for which a revised title-deed was issued, of the quit-rent for the previous ten faslis	510
(*b*)	Reduction on account of lands taken up for public purposes ...	46
(*c*)	Reduction of jodi on a village transferred to lease-hold in Chingleput	21
(*d*)	Verification of inam B registers	13
(*e*)	Reduction of quit-rent on account of lands relinquished ...	12
(*f*)	Reduction of quit-rent on account of the separate enfranchisement of minor inams in the whole inam village of Saradapuram, Chatrapur taluk	11
(*g*)	Reasons not given	20
	Total ...	— 633
		+ 5,842
		+ 5,209

9. *Holdings.*—The total extent of raiyatwar holdings during the year was 25·55 million acres and exceeded that of the previous year by 216,000 acres. The increase was contributed by all the districts, notably Ganjām, Anantapur, Bellary and Kurnool.

Statement No. 4, columns 18, 19 and 20.
Statement No. 5, column 18.

10. *Assessment.*—The total assessment on holdings was Rs. 515·35 lakhs against Rs. 512·64 lakhs in the previous year. North Arcot contributed an increase of Rs. 65,276 and Chittoor Rs. 52,249 due to increase in holdings and to the introduction of the resettlement rates in the Polur, Chittoor and Chendragiri taluks.

Statement No. 4, columns 22 to 24.
Statement No. 5, column 19.

11. *Cultivation.*—Compared with the previous year the area cropped on raiyatwar holdings showed a net increase of 351,756 acres owing to the generally favourable character of the season. For the same reason the area under "waste charged" and "waste remitted" showed a decrease of 129,554 and 6,377 acres respectively. Increase of cultivation was marked in the districts of Anantapur, Bellary, North Arcot and Coimbatore. Including the area under "miscellaneous cultivation" the total area cropped amounted to 21·93 million acres against 21·46 million acres in the previous year.

Statement No. 3, column 49.

12. *Water-rate and second crop charge.*—The revenue from these sources amounted to Rs. 32·72 lakhs against Rs. 31·55 lakhs or nearly Rs. 1,17,000 more than in the preceding year. The increase was made up of Rs. 39,000 under "water-rate on dry lands" and of Rs. 78,000 under "second-crop charge". There were large increases in North Arcot, Chingleput and South Arcot. The increase in the last-named district was due to the large increase in the area under paddy cultivation, while the increase in the other two districts was due to the timely and well-distributed rainfall. There was a considerable decrease in Anantapur due to comparatively poor supplies in the irrigation sources and in Tanjore due to late river freshes and heavy rainfall in the north-east monsoon in the eastern parts of the district which prevented second crop cultivation on wet lands.

Statement No. 3, column 53.
Statement No. 4, columns 26 to 29.

13. *Remissions.*—As compared with the previous year, there was a net increase in remissions, amounting to Rs. 9,480. Season remissions and beriz deductions showed an increase, while there was a decrease under fixed remissions.

Statement No. 6.
Statement No. 4, columns 46 to 49.

(i) *Season remissions.*—The remission under this head showed a net increase of Rs. 35,403. The increase occurred under the sub-heads "Injury by floods" and "Tirvakammi remission."

(*a*) *Waste remitted.*—The remission under this head amounted to Rs. 3·97 lakhs or Rs. 40,000 less than that remitted in the preceding year. Decrease was marked

Statement No. 4, columns 34 to 37.

in the districts of North Arcot and Rāmnād which is reported to be due to the favourable character of the season. There was a large increase in Anantapur due to insufficient supply in irrigation sources. No remissions on dry lands were granted during the year under report.

(*b*) *Shavi or short crop.*—The total amount remitted under this head was Rs. 1,59,286 against Rs. 1,95,210 in the previous year, showing a net decrease of Rs. 35,924, decrease being marked in the districts of Gōdāvari, Kistna, North Arcot, Madura and Rāmnād; of the total shavi remissions Rs. 1,51,471 related to wet lands and Rs. 815 to dry lands. A remission of Rs. 4,562 was granted under "short crop" during the year under report.

(*c*) *Injury by floods.*—The amount remitted under this head was Rs. 63,262 against Rs. 38,947 in the previous year, showing a net increase of Rs. 24,315, Kistna alone showing an increase of nearly Rs. 45,000 due to the submersion of lands on account of the Kollair floods.

(*d*) *Tirvakammi remission.*—(i.e., the remission of the difference between wet and dry assessment on wet land cultivated with dry crops owing to the insufficiency or failure of the water-supply) amounted to Rs. 4,50,642 against Rs. 3,55,088, showing an increase of Rs. 95,554. The increase was large in the districts of Guntūr and Anantapur which together account for Rs. 84,545. The increase in Guntūr was mostly due to floods in the delta taluks and that in Anantapur to the insufficient rainfall and the consequent small supplies to irrigation sources.

(*e*) *Other remissions.*—A sum of Rs. 189 against Rs. 333 in the previous year was granted for reclamation of land in Nellore.

(ii) *Fixed remissions.*—(or abatements of the demand granted for reasons unconnected with the season) amounted to Rs. 1·32 lakhs against Rs. 1·63 lakhs or 0·31 lakh less than in the previous year. The decrease occurred mainly under increment remission (remissions allowed on the introduction of settlements or resettlements in cases where the increase over the old assessment is in excess of 25 per cent); this decrease mainly occurred in South Canara and Malabar owing to the reduction of the increment remissions through lapse of time. There was no appreciable variation in the case of other districts.

(iii) *Beriz deductions.*—(deductions made from village collections in favour of inamdars and religious institutions) amounted to Rs. 8·91 lakhs or Rs. 5,849 more than in the previous year. South Arcot showed the largest increase presumably due to the payment of arrears of beriz deduction allowances reported last year as undisbursed owing to the non-appearance of parties.

14. *Miscellaneous revenue.*—The revenue under this head amounted to Rs. 92·15 lakhs against Rs. 92·32 lakhs in the previous year showing a net decrease of Rs. 17,500. Guntūr showed the largest decrease, Rs. 60,744, and South Canara the largest increase, Rs. 64,716. The decrease in Guntūr was mainly due to the inclusion of Rs. 20,715 in the figures of the previous year on account of the capitalized value of the abatement of land revenue on lands acquired for the Gūntūr-Tenali-Rēpalli Railway and to the decrease in the enhanced charge levied on poramboke cultivation. The increase in South Canara occurred mainly under "Sale-proceeds of waste lands" due to the sale of a larger number of valuable river accretions and house sites during the year.

Statement No. 9.
Statement No. 4, columns 54 to 57.

Item 2 "Water-rate on minor inams in raiyatwar villages," item 3 "Charge for water in zamindari and inam villages including tirvajasti and fasaljasti" and item 10 "Sale-proceeds of lands sold" showed the largest decreases, Rs. 78,191, Rs. 45,885 and Rs. 31,023, respectively, while item 11 "Rent of lankas" and item 13 "Other items" showed the largest increases, Rs. 30,035 and Rs. 50,946, respectively. These items will be dealt with below. The increase or decrease in the remaining items except item 6 "Charges levied for occupation of poramboke land or land reserved for State or communal purposes" which is dealt with separately, was small and calls for no remarks.

Item 2.—Water-rate on minor inams in raiyatwar villages amounted to Rs. 13·71 lakhs against Rs. 14·49 lakhs showing a net decrease of Rs. 78,191 in the revenue under this head as compared with the previous year. Gōdāvari showed the largest decrease, Rs. 25,769, due to a smaller area being brought under second

crop irrigation. Cuddapah and Kurnool showed decreases of Rs. 21,618 and Rs. 17,271 respectively which are reported to be due to the unfavourable character of the season and the breach in the Kurnool-Cuddapah Canal.

Item 3.—The revenue under the head "Charge for water in zamindari and inam villages including tirvajasti and fasaljasti" amounted to Rs. 21·06 lakhs against Rs. 21·52 lakhs or Rs. 45,885 less than in the previous year. There was a large decrease (Rs. 24,212) in Gōdāvari due to the decrease in the amount of water-rate on dry crops on account of the favourable character of the season.

Item 10.—The sale-proceeds of lands sold amounted to Rs. 2,70,013 or Rs. 31,023 less than in the previous year. Kistna showed the largest decrease, Rs. 1,07,407. This is reported to be due to the sale of a large extent of tank-bed lands in Divi taluk in fasli 1323.

Item 11.—The revenue under "Rent of lankas" amounted to Rs. 2·90 lakhs against 2·60 lakhs or Rs. 30,000 more than in the previous year. The increase, Rs. 27,545, was mainly contributed by Kistna and is reported to be due to larger receipts by lanka sales.

Item 13.—The revenue under unspecified items of miscellaneous revenue showed a net increase of Rs. 50,946 over that of last year. Kistna showed the largest increase, Rs. 73,915, which is reported to be due to the collection of back assessment for five years on the village of Rustambada. South Canara showed the largest decrease, Rs. 15,579, which was due to the fall both in the price and in the quantity of Laccadive coir sold owing to the outbreak of the war.

Poramboke occupation (item 6).—The revenue under this head amounted to Rs. 5·62 lakhs or Rs. 45,201 more than in the previous year. The total area occupied measured 121,956 acres against 97,704 acres in the previous year. Increase was marked in the districts of Anantapur, Kurnool, North Arcot and South Arcot. The increase in Anantapur and Kurnool was due to the favourable character of the season. In North Arcot, the increase is reported to be due to the cultivation of lands transferred during the resettlement to grazing ground poramboke, before the change in classification was known to the raiyats, while in South Arcot it was mainly due to the cultivation of lands acquired for the Toludur project. The re-classification, as assessed waste, of unobjectionable poramboke lands as ordered in paragraph 2 of G.O. No. 813, Revenue, dated 16th March 1910, does not appear to have been completely carried out in most districts.

Statement No. 9-A.

Enhanced charges amounting to Rs. 3,77,241 were levied on 39,631 acres during the year under report giving an average rate of Rs. 10 per acre against Rs. 11 in the preceding year. South Canara showed the highest average rate of Rs. 61 per acre, this high incidence being due to the imposition of heavy penalties in a large number of cases of objectionable encroachments of small extents.

15. The net raiyatwar demand excluding remissions but including water-rate, second crop charge and miscellaneous revenue amounted to Rs. 619·05 lakhs against Rs. 615·43 lakhs in the previous year. The details for the increase of Rs. 3·62 lakhs are given below :—

Statement No. 4, columns 24, 28, 48, 57, 58, 59 and 60.

	LAKHS OF RUPEES.
Increase in the assessment of holdings	2·72
Increase under water-rate and second crop charge	1·17
Increase under remissions	·09
Decrease under miscellaneous revenue	·18
Total ...	3·62

16. *Total land revenue demand (current).*—The demands under the several heads are compared below with the figures for the previous year :—

	Fasli 1323.	Fasli 1324.
	RS.	RS.
Peshkash on permanently-settled estates ...	49,90,138	49,87,350
Shrotriem jodi	7,51,114	7,56,323
Ryotwar and miscellaneous	6,16,59,070	6,18,91,575
Total ...	6,74,00,322	6,76,35,248

The decrease under "Peshkash on permanently-settled estates" and the increase under "shrotriem jodi" and "ryotwar and miscellaneous" have been explained in the preceding paragraphs.

17. *Total demand under cesses (current.)*—The current demand under cesses is as follows:—

	Fasli 1323.	Fasli 1324.
	RS.	RS.
(1) Land-cess on permanently-settled estates ...	14,66,170	14,44,733
(2) Land-cess on whole inam villages	3,87,701	3,90,204
(3) Cess on ryotwar and miscellaneous	49,95,793	50,57,248
Total ...	68,49,664	68,92,185

There is a net decrease under item (i). The decrease is marked in Vizagapatam and Nellore districts. The decrease in Vizagapatam was chiefly due to the adoption of revised grain commutation rates in the rent value statements of Jeypore and Bobbili estates. In Nellore, the decrease was due to the inclusion in the current demand of fasli 1323, of a sum of Rs. 11,881, the arrears of land and railway cesses due from the Venkatagiri estate for fasli 1321 and fasli 1322. The variation under item (2) is slight and calls for no remarks. The increase under item (3) follows the increase in the revenue.

18. *Demand and collection of land revenue and cesses (current).*—The current demand under land revenue and cesses was Rs. 7,51,79,114; Rs. 7,42,17,587 or 98·7 per cent was collected within the fasli and a sum of Rs. 1,359 was written off the accounts.

19. *Demand and collection of arrears.*—The total arrear demand under all heads was Rs. 9,53,685; Rs. 8,48,673 or 89 per cent was collected within the fasli and Rs. 15,545 or 1·6 per cent was written off the accounts.

20. *Total balance of land revenue and cesses.*—The balance outstanding at the end of the fasli including both arrears and current was Rs. 10,49,635. Including the revenue from the Kurnool-Cuddapah canal which is dealt with in the monthly demand, collection and balance statements, the balance on 1st July 1915 was Rs. 10,53,016. Up to the end of October 1915, Rs. 8,73,263 or 82·9 per cent had been collected, Rs. 3,614 written off the accounts and Rs. 736 were considered to be irrecoverable. The net recoverable balance on 1st November 1915 was Rs. 1,75,403. Steps have been taken to collect this amount.

21. *Reconciliation of differences between the collection of land revenue and cesses as shown in the jamabandi and the Accountant-General's statements, and over-payments.*—Information on these points has not yet been received from the Collectors. The subject will be dealt with in a separate report.

22. *Distribution of collections between land revenue and cesses.*—Land revenue and cesses are not collected separately and no attempt is made to exhibit the collections separately under these heads in the village accounts. The total collections are distributed between land revenue and the several cesses in the Collector's office. The process consists of two stages, of which the first or the provisional distribution is effected by crediting to each head month by month such portion of the lump collections as will bear the same proportion to the demand under the head as the total collection bears to the total demand under all the heads. The second stage is the final adjustment which consists in correcting the provisional credit by transfer from one head to another where necessary after the entire demand for the year under all the heads has been collected or written off.

The statements of distribution for fasli 1324 received from Collectors show that, except in the districts of Ganjām, Gōdāvari, Kistna, Nellore, Cuddapah, Anantapur, South Arcot and Tanjore, the variations between the amounts due to the cesses in fasli 1324 and the amounts actually credited were inconsiderable. The accounts of fasli 1323 remained unadjusted in five districts.

23. *Charges debitable to land revenue.*—The charges of district administration including salaries, etc., of Revenue Inspectors but excluding those of village establishments were Rs. 50,74,971 or 6·8 per cent of the land revenue and cesses realised against 8·2 per cent in the preceding fasli. The village service charges including

proprietary estates during the fasli were Rs. 51,78,435. Including this sum which is met from Provincial funds the total charges were Rs. 1,02,53,406 or 13·7 per cent of the collections of land revenue and cesses.

24. *Processes under Act II of* 1864.—Statement No. 12 shows the particulars of the coercive processes issued for the realization of Government dues under Act II of 1864. The following abstract compares the number of processes of each kind issued during the year with the figures for the three preceding faslis :—

Coercive processes.	Faslis.			
	1321.	1322.	1323.	1324.
Demand notices	1,198,222	1,113,240	1,024,281	1,331,635
Distraint and attachment notices	157,710	94,496	87,461	109,712
Sale notices	89,190	49,527	48,102	69,770
Sales (number of defaulters)	3,491	1,973	1,724	2,042
Total ..	1,448,613	1,259,236	1,161,568	1,513,159

There is an increase in the total number of processes issued in the year under report as compared with the three preceding faslis.

25. *Demand notices.*—The instruction that these notices should only be issued when absolutely necessary has been kept in view. There was a decrease in nine districts and an increase in 16 districts. The increase is marked in the districts noted in the margin. The increase in Chingleput, North Arcot and South Arcot is attributed to the stringency of the money-market and the fall in the price of groundnut, and that in Malabar to the sudden heavy fall in the price of cocoanut, copra, etc., after the outbreak of the war. The Collector of Madura reports that the increase in his district was due to want of seasonal rainfall in some taluks and the prompt action taken by the taluk officers for the collection of revenue. The Collectors of Anantapur, Chittoor and Tanjore have not reported the reasons for the increase in their districts. But the Board presumes that the increase in Anantapur and Chittoor was due to the unfavourable character of the season in those districts.

Districts.	Fasli.		Increase.
	1323.	1324.	
Anantapur ..	57,894	98,322	40,428
Chingleput ..	34,349	41,617	7,268
Chittoor ..	33,670	55,386	21,716
North Arcot ..	287,563	515,860	228,297
South Arcot ..	8,569	25,013	16,444
Tanjore ..	158,857	167,573	8,716
Madura ..	28,544	39,984	11,440
Malabar ..	11,607	17,861	6,254

26. *Distraint or attachment.*—The number of processes under this head was 109,712 in the year under report against 87,461 in fasli 1323 and 94,496 in fasli 1322. There was a decrease in eight districts.

27. There was a slight decrease in the percentage borne by the number of distraints and attachments to that of demand notices as compared with the previous fasli. The number of defaulters whose immoveable property was attached in the year was 18,339, against 14,880 in fasli 1323. The large disproportion noticed in the Madura district in previous years between the number of defaulters whose property was distrained (799) and the number of those whose real property was attached (4,356) is again noticeable and is due as stated in previous reports to the large number of absentee pattadars in the area irrigated by the Periyar.

Percentage of the attachment to the total number of demand notices.

Fasli.	Personal.	Real.	Total.
1322	6·89	1·59	8·49
1323	7·08	1·45	8·54
1324	6·86	1·38	8·24

28. *Sale notices.*—Out of 109,712 defaulters whose property was attached 39,942 or 36·41 per cent paid the arrears before the sale notices were issued. The percentage was 45·00 in fasli 1323, 47·58 in fasli 1322 and 43·45 in fasli 1321.

29. *Sales.*—The number of defaulters whose property was sold was greater than in fasli 1323. The percentage of actual sales to sale notices was 2·92 against 3·58 in fasli 1323 and that of the number of defaulters whose property was actually sold

to the total number of pattas was ·05 against ·04 in the previous fasli. The subjoined statement compares the particulars of sales in fasli 1324 with the figures for the three preceding faslis :—

—	Personal property.				Real property.				Total.			
	Fasli 1321.	Fasli 1322.	Fasli 1323.	Fasli 1324.	Fasli 1321.	Fasli 1322	Fasli 1323.	Fasli 1324.	Fasli 1321.	Fasli 1322.	Fasli 1323.	Fasli 1324.
Percentage of sales of property to												
(1) the number of pattas ..	·04	·01	·01	·01	·05	·04	·03	·04	·09	·05	·04	·05
(2) the number of attachments.	1·09	·69	·53	·57	8·10	8·10	9·01	8·31	2·21	2·09	1·97	1·86
(3) the number of sale notices.	Figures relating to sale notices do not distinguish between personal and real property.								3·91	3·98	3·58	2·92
Arrears at the beginning of the fasli under report under ryotwar and miscellaneous.	In lakhs of rupees								9·99	6·65	6·92	7·24
Arrear balance at the end of the fasli.	Do.								·32	1·01	·90	·88
Percentage of current collections to current demand.	Do.								99·03	99·08	98·85	98·90

Value of lands sold.—Immovable property of the estimated value of Rs. 1,40,604 was sold for the recovery of arrears amounting to Rs. 25,217 and realised Rs. 78,478. The price fetched by lands sold to private individuals was on the average six times the assessment in the case of dry lands and ten times the assessment in the case of wet lands. In fasli 1323 immovable property of the estimated value of Rs. 1,10,357 was sold for the recovery of arrears amounting to Rs. 25,423 and the average prices fetched by lands sold to private individuals were nine times the assessment in the case of dry lands and six times the assessment in the case of wet lands.

Extent of lands sold.—The extent of lands sold during the year was 8,406 acres under "dry" and 1,608 acres under "wet" against 5,783 acres under "dry" and 1,331 acres under "wet" in fasli 1323. The corresponding figures for fasli 1322 were 6,169 acres under "dry" and 1,660 acres under "wet".

Lands bought in by Government.—The total area of lands bought in by Government for want of bidders was 2,136 acres of dry and 290 acres of wet against 1,213 acres of dry and 325 acres of wet in fasli 1323. More than one-half of the total area bought in was in Cuddapah, Anantapur, Bellary and Madura.

30 *Process-service establishment.*—Statement No. 13 gives the particulars of processes served by the ordinary village agency or by special establishments and the fees realised during the year. The total number of processes served was 1,419,744 or 332,481 more than in fasli 1323. The number of processes served by the special agency (57,756) was also more than in the previous fasli (52,014).

The special establishment was employed in the same districts as in fasli 1323. Its cost was covered by the fees realised except in Gōdāvari where there was a small deficit.

31. *Costs in civil suits.*—Rupees 16,901 were awarded to Government as costs during the year. Including Rs. 14,903, the revised opening balance, the total demand was Rs. 31,804, of which Rs. 16,659 were collected, Rs. 620 were written off the accounts and Rs. 247 were reported to be irrecoverable. The net recoverable balance at the end of the year was Rs. 14,278 made up as follows :—

	Rs.
(i) Amount collected after the close of the fasli	4,951
(ii) Amount remaining uncollected pending decision of appeals by civil courts	2,033
(iii) Amount involved in execution proceedings	2,086
(iv) Amount for not collecting which no reason is assigned ...	5,208

32. *Interest on arrears of land revenue (Statement No. 14).*—The total demand on account of interest on arrears of land revenue, including the balance at the beginning of the fasli was Rs. 18,261, of which Rs. 9,786 were collected and Rs. 210 remitted, leaving a balance of Rs. 8,265 against Rs. 8,810 (revised figure) at the end

of the previous fasli. More than half the arrears at the end of the fasli relates to Chittoor. The only other district in which the arrears under this head are large is Chingleput. Steps are being taken for their recovery.

33. *Sale of land under Standing Orders Nos.* 15, 16, 20, 21, 22, 45, 90 *and* 91.—Under the rules for the sale of occupancy rights in assessed waste lands (Standing Order No. 15), 1,434 acres, assessed at Rs. 2,253, were sold for Rs. 1,62,681; 114 acres of tank-bed lands, assessed at Rs. 301, were sold for Rs. 14,074 under Standing Order No. 16; 1,201 acres of waste lands, assessed at Rs. 1,992, were sold for Rs. 5,852 under Standing Order No. 20; 38 acres of house-sites in towns were sold for Rs. 20,116 under Standing Order No. 21; 2 acres of house-sites were sold for Rs. 3,165 under Standing Order No. 22; 692 acres, assessed at Rs. 849, which had been bought in by Government at sales for arrears of revenue were re-sold under Standing Order No. 45 for Rs. 4,748; 43 acres, assessed at Rs. 51, which had been acquired for public purposes and subsequently relinquished, were sold under Standing Order No. 90 for Rs. 3,436; one acre, assessed at Rs. 4–8–0, which had been acquired for railways and subsequently relinquished, was sold under Standing Order No. 91 for Rs. 597; 21 acres of waste lands in Madras, assessed at Rs. 300, were sold for Rs. 14,988 under the rules in G.O. No. 61, Revenue, dated 10th January 1902.

34. *Sub-division of quit-rent.*—No applications were received during the year under Standing Order No. 58 for the sub-division of the joint liability of shareholders in whole inam villages or minor inams in any of the districts of the Presidency.

35. *Transfer of registration of holdings* (*Statement No.* 15).—Transfers of revenue registration fall under the one or the other of the following three heads:—

(1) Transfers applied for through officers of the registration department.

(2) Transfers applied for direct to Revenue officers.

(3) Transfers proposed by Revenue officers *suo motu.*

(1) Under the first head 85,409 applications were received during the fasli against 49,723 in the previous fasli, an increase of 35,686 or 71·77 per cent. The increase which is due to the introduction of the revised rules relating to transfer of revenue registry sanctioned in G.O. No. 3150, Revenue, dated 3rd November 1914, is distributed over all districts and is especially large in Kistna (2,177), North Arcot (3,246), South Arcot (2,949), Tinnevelly (3,320), and Coimbatore (4,091).

(2) The number of applications presented direct to Revenue officers was 49,315 as against 38,065 in fasli 1323 an increase of 11,250 or 29·55 per cent. Here also the increase is due to the introduction of the revised rules relating to transfer of revenue registry. There was an increase in 15 districts, the greater part of which occurred in Ganjām (1,070), North Arcot (1,164), Tanjore (1,152), Tinnevelly (4,971), Coimbatore (1,293) and South Canara (1,433).

(3) The number of cases which Revenue officers dealt with on their own initiative under paragraphs 5 and 7 of Board's Standing Order No. 31 rose from 17,969 in fasli 1323 to 19,794 in fasli 1324. The largest increase was in Tinnevelly (2,195).

The total number of applications of all kinds to be dealt with in the fasli under report including the number pending disposal at its beginning was 172,278; of these 134,651 were disposed of during the fasli leaving a balance of 37,627 pending at the close of the fasli, of which 5,410 have since been disposed of.

36. *Ruined tanks.*—In the district of Anantapur two tanks were handed over to private individuals for repair under Board's Standing Order No. 8. The total ayakat of 17·2 acres was assessed at the special rate of Rs. 2 per acre. One tank was handed over to private individuals in Salem and the ayakat of 12·41 acres charged at the special rate of Rs. 2–12–0 per acre.

37. *Settlement by Collectors.*—The rule laid down in paragraph 2 of Board's Standing Order No. 12 that the settlement of each taluk should be conducted by the Collector himself once in five years was complied with except as regards Gudivada in Kistna and Kumbakōnam in Tanjore. The Collectors of these two districts will be requested to take these taluks up for settlement during the current fasli.

38. *Loans and advances.*—The advances made under the Land Improvement Loans Act during fasli 1324 amounted to Rs. 3·37 lakhs and those under the Agriculturists' Loans Act to Rs. 4·81 lakhs. The aggregate amount advanced under both the Acts was thus 8·18 lakhs as against 7·58 lakhs in the previous year. The increase is the net result of an increase in thirteen districts and of a decrease in eleven districts. The increase occurred chiefly in the districts of Guntūr, Bellary,

Anantapur, Salem, Tanjore, Madura and Rāmnād, and the decrease, in the districts of Kurnool, Chingleput, South Arcot, Coimbatore, Trichinopoly and Tinnevelly. The increases were large in Guntūr, Tanjore and Rāmnād. The increase in the first district was due partly to the grant of a loan of Rs. 10,000 to the Salvation Army for the reclamation of waste lands and partly to the grant of large advances for the purchase of seedlings, fodder and cattle to the raiyats in the portions of the Repalle taluk affected by floods. In Tanjore the increase was the result of the special attention bestowed by the Collector on the subject, and in Rāmnād it was due to the efforts of the special officer who worked in the district during the first five months of the fasli. With a view to increase the popularity of State loans, the rules relating to them were relaxed in some important respects towards the close of the fasli.

39. *Recoveries.*—Of the sums of Rs. 3·35 lakhs and Rs. 3·66 lakhs repayable during the year under the Land Improvement and the Agriculturists' Loans Acts, respectively, on account of principal, Rs. 2·91 lakhs or 86·9 per cent under the former Act and Rs. 3·05 lakhs or 83·2 per cent under the latter were collected. Advances amounting to Rs. 21,990 under the former Act and Rs. 12,356 under the latter Act were repaid by borrowers on account of loans, the repayment of which had not fallen due, while sums amounting to Rs. 246 under the former Act and Rs. 790 under the latter were written off the accounts as irrecoverable.

40. *Coercive processes.*—The aggregate amount of principal and interest repayable during the year under both the Acts was Rs. 9,93,207, of which a sum of Rs. 2,62,672 or about 26 per cent was collected without resort to coercive processes and a sum of Rs. 5,60,897 or 56 per cent after the issue of demands; a sum of Rs. 26,929 was realized after attachment but before sale, a sum of Rs. 302 by the sale of moveable property and a sum of Rs. 1,364 by the sale of immoveable property. The balance outstanding at the end of the year was Rs. 1,41,043, the arrears being heaviest in Madura (Rs. 35,472), Anantapur (Rs. 20,784), Bellary (Rs. 20,511), Chingleput (Rs. 12,131) and Tanjore (Rs. 11,523).

41. The following statement shows the amount of interest payable by the Local Government to the Government of India for fasli 1324 :—

Acts.	Amount advanced to the Local Government by the Government of India.			Interest payable for the year by the Local Government to the Government of India at 3½ per cent on the mean outstanding.
	Outstanding at the beginning of the year.	Outstanding at the end of the year.	Mean outstanding.	
	Rs.	Rs.	Rs.	Rs.
Land Improvement Loans Act	31,52,624	31,76,154	31,64,389	1,10,753
Agriculturists' Loans Act	16,60,915	18,24,498	17,42,706	60,994
Total ..	48,13,539	50,00,652	49,07,095	1 71,747

42. The subjoined statement shows the financial results of the operations under the Loans Acts :—

Items.	Land Improvement Loans Act.	Agriculturists' Loans Act.	Total.
	Rs.	Rs.	Rs
1. Interest payable for fasli 1324 by the Local Government to the Government of India.	1,10,753	60,994	1,71,747
2. Interest collected during the year	1,55,696	99,746	2,55,442
3. Balance of interest accruing to the Local Government, *i.e.*, difference of items 1 and 2.	44,943	38,752	83,695
4. Remissions of principal	246	790	1,036
5. Net result for 1914–15	+ 44,697	+ 37,962	+ 82,659
6. Net result for previous years. 1909–10	+ 29,365	+ 30,726	+ 60,091
1910–11	+ 38,481	+ 37,368	+ 75,849
1911–12	+ 50,091	+ 39,005	+ 89,096
1912–13	+ 52,618	+ 35,281	+ 87,899
1913–14	+ 52,369	+ 50,043	+ 1,02,412
7. Expenditure on free grants-in-aid towards the construction of private protective works or on establishments for well-boring or other outlay incurred from current revenue in connection with Takkavi transactions.	13,465	19,249	* 32,714

* Represents the cost of special establishments entertained in certain districts and the cost of time devoted to loans-work by the ordinary Land Revenue establishment at 3½ per cent on the amount advanced during the year.

43. With the aid of loans under the Land Improvement Loans Act, 435 wells capable of irrigating 2,120 acres of land were constructed during the fasli at an aggregate cost of Rs. 1,21,375 and 349 wells designed to benefit 2,198 acres were repaired at a cost of Rs. 75,567; Rs. 52,157 were spent on the reclamation of 4,029 acres of land; Rs. 20,200 on the purchase and installation of oil-engines and pumps in the districts of Anantapur, Chingleput, South Arcot, Coimbatore, Trichinopoly and Tanjore, and Rs. 22,810 on other improvements benefiting about 1,006 acres. The Coimbatore district shows the largest number of wells constructed and repaired (152) and it is followed by Madura (95) and Trichinopoly (88). Under the Agriculturists' Loans Act, 7,167 head of cattle were purchased at an aggregate cost of Rs. 4,67,671 and 119 houses were rebuilt at a cost of Rs. 22,991. Seed-grain was purchased to the amount of Rs. 2,382 and Rs. 500 were expended on sugarcane mills. A sum of Rs. 25,290 was spent for other purposes.

44. *Survey advances* *.—The advances drawn by Collectors during the year under the head "Revenue Survey advances—Collectors" amounted to Rs. 63,300. Of this sum—

	RS
Guntūr spent	10,719
Kistna ,, ...	7,618
South Canara spent	6,427
Tanjore ,, ...	5,480
Chingleput ,, ...	5,152
North Arcot ,, ...	3,685
Cuddapah ,, ...	2,873
Coimbatore ,, ...	2,299
Tinnevelly ,, ...	2,257

* The figures relate to the official year 1914–15.

Of the total amount of advances outstanding against Collectors under this head, a sum of Rs. 55,980 was adjusted during the year leaving the net debit under "Revenue Survey advances—Collectors" at Rs. 3,66,173.

Under the head "Cost of Survey marks—Collectors," Rs. 29,251 were collected during the year, leaving a balance of Rs. 6,557 to be realized.

The arrears outstanding at the beginning of the year under the head "Cost of survey marks—Survey officers" were Rs. 1,43,959. Landholders' bills to the amount of Rs. 1,72,454 were received from Survey officers during the year. Of the total demand of Rs. 3,16,413 under this head Rs. 1,99,284 were collected during the year and a sum of Rs. 1,17,129 remained as balance to be collected at the end of the year.

45. *Junior Civilians—Knowledge of vernaculars.*—The reports of the Collectors generally show that their Civilian Divisional officers possess an adequate knowledge of the vernaculars and are able to dispose of vernacular papers without abstracts and that the progress of Assistant Collectors is satisfactory.

46. *The relation between the landlords and tenants in larger zamindaris.*—These relations were generally satisfactory. They were not good in Mandāsa, Surangi, Chīkati, Peddakimedi, Pēta, Biridi and Pālūr estates of the Ganjām district and continued to be strained in Devarakota estate, in some portions of the North Vallur estate of the Kistna district and in the Vīraperumanallur estate of the South Arcot district, and in Udaiyarpalaiyam in Trichinopoly district. The management of the Pāmur estate in Nellore did not improve. In the Venkatagiri estate, the sales of kanchās (grazing grounds) have been taken advantage of by the estate officials to coerce the tenants to agree to higher rents. There was no improvement in the relations between the landlords and tenants in the zamindaris of the Chittoor district, and of the Periyakulam taluk of the Madura district. The litigation in the Sāptur estate of the Tirumangalam taluk came to a close. In the Rāmnād district, the relations between the tenants and their Chetti landlords in the Devakkottai division were strained in some villages; the feelings between the Raja of Rāmnād and his raiyats continued to be strained; and the relations between the Zamindar of Settūr and his raiyats did not improve.

47. *Growth of sub-letting in raiyatwar tracts.*—Sub-letting is chiefly resorted to by those engaged in professions other than agriculture and by large landholders. It is reported to be on the increase in Ganjām in the area under the Periyar in Madura

and in parts of South Canara, the explanation for the increase in the last-named district being the reclamation of uncultivated warg kumaris. Sub-letting is the general practice in Tinnevelly and in the delta taluks of Guntūr. Sub-letting was generally on the decrease in Bellary as the landlords preferred to cultivate their lands themselves on account of the rise in the prices of food-grains. In parts of Kistna a tendency though not very marked was noticed among land-owners to decrease sub-letting as they apprehended the initiation of legislation similar to the Estates Land Act conferring occupancy rights on tenants.

48. *Effect of recent legislation on the people.*—No legislation affecting the people generally was introduced during the year under report except the Madras Decentralization Act (Act VIII of 1914) which empowered Tahsildars and Deputy Tahsildars to pass orders on unauthorized occupation and water-rate cases. Its effect on the people is reported to be not yet apparent. The provisions of the Madras Estates Land Act, 1908, are becoming better known to the people and this Act and the Madras Land Encroachment Act (Act III of 1905) appear to be working smoothly on the whole.

49. *Co-operative societies.*—Two hundred and seventy-six societies were registered under the Co-operative Societies Act during the year under report; of these, 14 were central, 60 non-agricultural and 202 agricultural. Nine societies, all agricultural, were dissolved during the year. The total number of societies in the Presidency was 1,600 at the end of the year 1914–15 against 1,333 at the end of 1913–14.

50. *Enhanced water-cess for irregular irrigation.*—G.O. No. 684, Revenue, dated 7th March 1913, directed that raiyats who had rendered themselves liable to the imposition of enhanced water-cess for the irregular use of Government water should be given previous notice of their liability. The system was tried in all the districts except Madras, Malabar, Anjengo, South Canara and the Nilgiris to which it is not applicable. In Ganjām, Vizagapatam, Gōdāvari, Kistna, Bellary, Kurnool, Chingleput, Tanjore, Trichinopoly, Madura, Rāmnād, Coimbatore, South Arcot and Tinnevelly, the system is reported to have worked satisfactorily. The Collector of Guntūr alone considers that the system is of no practical value and serves no useful purpose, as the raiyats do not pay any attention to the notices but wait till the money is collected and then only think of appealing against the order. The Collector of Anantapur reports that the raiyats in parts of his district have not yet understood the benefits of the system and that some more time should elapse before any definite opinion can be formed of its efficacy or utility. On the whole the Collectors are of opinion that the system is advantageous to the raiyats as it serves to inform them in time of their liability to pay the enhanced charge and gives them facilities for making such representations as they may consider necessary and suggest its continuance.

51. *Tank-bed cultivation.*—During the year under report permission was accorded by Collectors for the cultivation of tank-bed lands with cucumbers and melons in the districts of Anantapur, Bellary, North Arcot, Chittoor and Trichinopoly. The raiyats of two villages in Bellary requested permission to cultivate tank-beds with cholam and ragi, but as it was considered objectionable to raise such crops on tank-beds, the permission asked for was refused. In Chittoor, permission was given to cultivate tank-beds in 21 villages of the Madanapalle division on account of the bad state of season. Melons and cholam were cultivated, the sanction of the Board having been obtained for the cultivation of the latter crop. The cultivation was, however, not beneficial to the raiyats as the crops were submerged on account of unexpected rains. There were unauthorized cases of cultivation of tank-bed lands in Trichinopoly which were all penalised with the exception of the cultivation within the limits of Tiruttalaiyur village. In this case, the raiyats applied for permission in time, but action was not taken promptly by the Tahsildar. In Madura there was unauthorized cultivation of tank-bed lands in Tirumangalam and Nilakkottai taluks. It is reported that the cultivation did not in any way affect the tank beds.

52. *Examination of village and taluk accounts.*—The accounts were found to have been fairly well maintained and disclosed generally no serious errors. The defect. noticed were generally pointed out or rectified there and then.

53. *The village statistical register.*—The subjoined statement shows the progress made in the writing up and checking of the village statistical registers during fasli 1324 (1914-15):—

District.	Number of villages (Government and inam).	Number of villages for which			
		Village registers have been		Village registers remain to be	
		Prepared	Checked	Prepared	Checked
		For fasli 1324.		Up to fasli 1324.	
1. Ganjām	1,248	805	750	443	498
2. Vizagapatam	278	278	278	..	..
3. Gōdāvari	944	..	..	944	944
4. Kistna	1,113	758	600	355	513
5. Guntūr	929	787	652	142	277
6. Nellore	797	560	492	237	305
7. Cuddapah	755	263	263	492	492
8. Anantapur	886	426	426	460	460
9. Bellary	962	807	767	155	195
10. Kurnool	784	664	622	120	162
11. Chingleput	1,790	372	283	1,418	1,507
12. Chittoor	469	385	367	84	102
13. North Arcot	1,694	1,669	1,490	125	204
14. South Arcot	2,291	..	..	2,291	2,291
15. Tanjore	2,340	1,704	1,510	636	830
16. Trichinopoly.	869	869	869	..	..
17. Madura	727	..	..	727	727
18. Rāmnād	131	..	..	131	131
19. Tinnevelly	579	579	579	..	..
20. Coimbatore	1,045	1,044	1,044	1	1
21. Salem	1,408	1,399	1,398	9	10

It is observed that in most of the districts, village statistical registers have not been fully prepared. The Collectors concerned are requested to take necessary steps to have these registers prepared and checked as early as possible after the annual jamabandi.

54. *Conference with raiyats.*—In almost all districts conferences with raiyats were held by Collectors and Divisional officers during their tours or at the time of the jamabandi.

(a) The increase of Rs. 6 over the balance at the end of the last fasli represents the amount added to the peshkash on the Peda Buddedi Estate consequent on the reassignment to the estate of a portion of the estate land acquired for the Nagavalli project but subsequently relinquished by the Public Works Department.

(b) The increase of Rs. 1,493 over the balance at the end of the last fasli is due to the arrears of land cess payable on the Andra, Jeypore Godicherla, Srirampuram, Saluru, Vizianagram and Pandrangi estates.

(*a*) The decrease of Rs. 75 is due to subsequent revision of arrear demand. Board's Proceedings No. 2029, Routine, dated 18th August 1915.

(*b*) The increase of Rs. 48 over the balance of last fasli in Madura and the decrease of an equal amount in Rāmnād is due to the readjustment of the boundary between Rāmnād and Madura districts.

(*c*) The increase of Rs. 43 over the balance at the end of the last fasli represents the arrear land cess payable on the Kanamam Agraharam.

(*d*) The difference of Rs. 1 as compared with the balance at the end of the last fasli is due to rounding.

(*e*) The decrease of Rs. 34 in Madura and the increase of Rs. 34 in Rāmnād is due to the readjustment of the boundary between Rāmnād and Madura districts.

(*f*) The increase of Rs. 6 is due to the revision of land cess on inam villages.

* Includes railway cesses.

(*a*) The difference in the figures entered in column 2 of this statement and those entered in column 12 of the statement for the previous fasli is due to the erroneous inclusion of a sum of Rs 103, collected in 1914 in Chicacole taluk in the collection of fasli 1323, and to the addition to the demand of Rs. 2 after submission of Jamabandi returns for fasli 1323.

(*b*) The difference between the figure entered in column 2 of this statement and that entered in column 12 of the statement for the previous fasli is due to the exclusion of Rs. 203, the arrear demand under the Proprietary Estates Village Service and the inclusion of Rs. 332, being the arrears of assessment on resumed inams and of Rs. 26 under "cesses" being the arrears of cess on some resumed inams.

(*c*) The Collector has not explained the decrease of Rs. 721 between this amount and that entered in column 59 of statement No. 4.

(*d*) The increase of Re. 1 over the amount shown in column 12 of the corresponding statement for the previous fasli is due to the rounding of figures.

(*e*) The increase of Rs. 6 over the amount shown in column 59 of statement No. 4 relates to Penukonda taluk and the Collector has called upon the Tahsildar to explain the difference.

(*f*) The decrease in the balance of the last fasli was due to the payment of Rs. 42 as yeomiahs, etc., in Conjeeveram and the arrear demand being reduced by this amount.

(*g*) The difference of Rs. 13 in the amount shown in column 59 of statement No 4 is due to the inclusion of unadjustable overpayments.

(*h*) " " Re. 1 " " " " " " rounding of figures

(*i*) The decrease of Rs. 225 is due to the subsequent revision of arrear demand.

(*j*) The increase of Rs. 14,314 in the figures shown in column 59 of statement No. 4 is due to the inclusion of the current demand under Proprietary Estates Village Service.

(*k*) The decrease of Rs. 714 in Madura is due to the transfer of some villages consequent on the readjustment of boundaries between Rāmnād and Madura.

(*l*) Of the increase, Rs. 714 is due to the cause stated against (*k*), and the remainder to the omission of revenue on a resumed inam village in the last year's demand.

(*m*) Difference due to rectification of errors.

(*n*) The difference between this and the amount shown in column 59 of statement No. 4 is due to the payment direct from the sub-treasury of a sum of Rs. 2,400 which was payable as beriz deduction.

(a) Rs. 203 of this amount was included under ryotwar and cesses in the previous fasli. The balance represents the arrears of cess on Ramavaram, Pandrangi and some other estates.

(b) The decrease of Rs. 44 in Madura and the increase of Rs. 45 in Ramnad is due to the transfer of some villages to and from the Madura district.

(c) The decrease of Re. 1 is due to rounding.

No. 12.—Statement showing the details of coercive processes employed in the realization of the arrears of land revenue in the several districts during fasli 1324 (1914–15).

NOTE.—(1) The dry and wet extents given in this statement differ from those given in columns 27 and 29 of statement No. 3 against Kistna, Chingleput, North Arcot and Anjengo. In Kistna, the variation is due to the inclusion of the extent relating to Rustambada village of Narasapur taluk excluded from statement No. 3 owing to its non-settlement by the time it was sent; in Chingleput, it is due to the exclusion of the extent for rented villages from this statement; in North Arcot, it is due to the exclusion of the extent relating to Arni Jaghir and Kangundi Zamindari from this statement as they are not in the ryotwar villages of the district; and in Anjengo, it is due to the fact that garden and occupied dry lands are shown as dry in this statement.

(2) The amount of assessment in column 93 differs from that given in column 32 of statement No. 3 in Kistna, Chingleput, North Arcot and Malabar. The variation in the first three districts is due to the causes mentioned in note (1). The Collector of Malabar has not explained the variation.

EXTRACTS FROM THE DISTRICT REPORTS.

1. GANJAM.

(N. MACMICHAEL, Esq., I.C.S., *Collector.*)

7. (*a*) RAIYATWARI SETTLEMENT.—Four inam villages of the Goomsur taluk were transferred to jerayati and brought under raiyatwari settlement in the fasli in accordance with the notification published in page 1242 of the *Fort St. George Gazette*, dated 10th December 1912. Two more villages of that taluk have been newly formed and settled. One village in the Chatrapur taluk and another in the Aska were omitted in last year's return. Thus, on the whole, there was an increase of eight villages in the total number of raiyatwari villages. The total number of pattas rose from 99,994 to 107,502. The increase was due to 7,508 fresh pattas having been issued during the fasli in all taluks except Goomsur and Udayagiri. The number of miscellaneous pattas issued was 5,518 against 5,014 of last year. The raiyatwari settlement was introduced in the unsettled villages of the Goomsur taluk and in the Chokkapad Khandam of the Udayagiri taluk in the fasli.

17. COERCIVE PROCESS AND SALES FOR ARREARS OF REVENUE.—There was a decrease of 3,023 in the demand notices and an increase of 302 and 259 in the distraint and sale notices respectively.

During the fasli distraint had to be made in the case of 1,016 defaulters, but personal property was sold in the case of only four defaulters for an arrear of Rs. 384. Real property of nine defaulters was sold for an arrear of Rs. 555 the extent involved being 34 acres of dry and 7 acres of wet. An extent of 16 acres of dry land in Chicacole taluk and 6 acres of wet land in Berhampur taluk was bought in by Government for Rs. 16 for want of bidders.

26. VERNACULAR CORRESPONDENCE IN THE ASSISTANT AND SUB-COLLECTORS' OFFICES.—Messrs. Davies and Arndt know Telugu and Uriya well. Messrs. King and Wells have passed in Telugu as their second language. Orders were passed promptly on the vernacular petitions presented to them, and endorsements on petitions were given in the language in which they were presented.

32. (*a*) RELATION OF LANDLORD AND TENANT IN LARGE ZAMINDARIS.—The relations between landlord and tenant were generally good except in Mandasa, Surangi, Chikati, Peddakimedi and Peta estates of the Berhampur division and in Biridi and Palur estates of the Chatrapur division.

The survey of Biridi and Dharakota estates and of Baruva village was completed within the fasli. The zamindar of Chikati has applied for the survey of the jerayati portion of his estate and the subject is still under correspondence with him in regard to the amount to be deposited by him towards the cost of survey. The survey and record-of-rights of Peddatungam estate, of Nimisula, a village in the Biridi estate, and of Thondipur, a village in the Surangi estate, was sanctioned by Government in the fasli. The proprietrix of Humma also applied for the preparation of a record-of-rights and the application was sanctioned by Government.

32. (*b*) SELLING OF OCCUPANCY RIGHT TO NON-CULTIVATING CLASSES.—There has been no general tendency on the part of the raiyats to sell their occupancy right to non-cultivating classes. In Chatrapur, Berhampur and Chicacole divisions there were alienations in a few cases of occupancy right to the non-agricultural classes.

33. GROWTH OF SUB-LETTING IN RAIYATWARI TRACTS.—Sub-letting is chiefly resorted to by non-agricultural classes, by those who are engaged in professions other than agriculture and by owners of large landed properties. It is reported to be on the increase; capitalists invest their money in land as there is less risk than in investing it in trade and it is considered more respectable.

34. EFFECT OF RECENT LEGISLATION.—The Decentralization Act which delegated powers to Tahsildars regarding the levy of penalties on encroachments came into effect in this fasli. Its effect on the people is not yet apparent. The Madras Land Encroachment Act and Estates Land Act worked smoothly.

2. VIZAGAPATAM.

(L. T. HARRIS, Esq., I.C.S., *Collector.*)

4. VERNACULAR CORRESPONDENCE IN THE ASSISTANT AND THE SUB-COLLECTORS' OFFICES.—Messrs. F. W. R. Robertson, R. F. B. L. Guppy, J. I. Smith, A. C. Duff, F. G. Butler, R. H. Courtenay and H. R. Uzielli worked in the district during the year.

All these officers have a practical working knowledge of the vernacular, especially so in the case of Messrs. Duff and Guppy.

7. RELATIONS BETWEEN LANDLORD AND TENANT.—These are cordial on the whole.

8. GROWTH OF SUB-LETTING IN RAIYATWARI TRACTS.—It is not on the increase.

10. EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—No new enactment affecting the people in general was passed during the year.

3. GODAVARI.

(T. E. MOIR, Esq., I.C.S., *Acting Collector.*)

3. THE GŌDĀVARI AND ITS FLOODS.—The Gōdāvari began to rise over the crest of the anicut on 24th June 1914 and the maximum height over the anicut crest was 12·6 feet on 17th September 1914, the maximum in the previous year having been 11·5 feet and the maximum recorded being 17 feet over the anicut crest on 2nd October 1891.

17. COERCIVE PROCESSES.—The number of processes of all kinds issued was 272 against 391 of the previous year. The attachments and sales of moveable and immoveable property under Act II of 1864 during the fasli under report and previous fasli are compared below :—

Fasli.	Moveable property.						Immoveable property.					
	Attached.			Sold.			Attached.			Sold.		
	Number of cases.	Amount of arrears.	Value of property distrained.	Number of cases.	Amount of arrears.	Value of property distrained.	Number of cases.	Amount of arrears	Value of property distrained.	Number of cases.	Amount of arrears.	Value of property distrained.
		RS.	RS.		RS.	RS.		RS.	RS.		RS.	RS.
1323	44	7,589	6,925	15	1,497	2,259	4	1,316	1,982	..	..	..
1324	43	2,896	3,884	8	617	880	26	812	1,244	5	119	380

An extent of 14·96 acres was sold for arrears of revenue during the fasli. Of this 0·50 acre was bought in by Government for Rs. 5 for want of bidders; the remaining extent was sold for Rs. 114. The number of processes issued was large in the Amalapur taluk but that taluk contains a number of poor villages such as those in the Polavaram island villages where collection work is difficult. I do not think unnecessary harshness was shown.

25. VERNACULAR KNOWLEDGE OF CERTAIN ASSISTANT COLLECTORS.—Mr. B. Rama Rao and Mr. J. H. Davies were Assistants to the Collector; the former from 1st July 1914 to 19th May 1915 and the latter from 18th January 1915. Both of them passed the lower standard in Telugu.

32. RELATION BETWEEN LANDLORDS AND TENANTS IN LARGE ZAMINDARIS.—Pittapur, Kottam, Bhadrachalam and Gopalapur are the largest zamindaris in this district. The relations between landlords and tenants were on the whole amicable. Landlords seldom resort to coercive processes. Most of the suits filed by the zamindars were for the recovery of rent from their tenants. Attempts on the part of Polavaram estate to enhance rentals in Koya villages have been made the subject of complaints. They are being enquired into.

33. GROWTH OF SUB-LETTING IN RAIYATWARI TRACTS.—The system of sub-letting continues as usual and is naturally resorted to by (1) big landholders, (2) non-resident landholders and (3) non-agricultural land owners such as vakils, merchants and officials. Speaking generally the agricultural classes do not sub-let their lands.

34. THE EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—In the year under report there was no legislation affecting the people. The Decentralization Act came into force very late in the fasli.

4. KISTNA.

(J. M. TURING, Esq., I.C.S., *Collector.*)

5. NUMBER OF VILLAGES.—The total number of raiyatwari villages in the district was 776 as against 770 in the previous fasli. The increase of six villages in the fasli under report is due to the division of four villages in Divi taluk into ten villages in G.O. No. 1093, dated 13th April 1914.

16. COERCIVE PROCESS.—The number of coercive processes of each kind issued during the fasli under report is shown below :—

Items.	Fasli 1323.	Fasli 1324.	Difference.
Demand notices	4,916	3,891	— 1,025
Attachment notices	2,243	972	— 1,271
Sale notices	1,198	799	— 399

The decrease is due to the issue of processes only in cases where they are absolutely necessary.

Out of an extent of 1,099 acres sold for arrears of revenue an extent of 215 acres was bought in by Government for want of bidders and the rest was purchased by private individuals.

24. RELATION BETWEEN LANDLORDS AND TENANTS.—The relations between the landlord and their tenants continued to be strained in the Devarakota estate and in some portions of the North Vallur estate.

25. GROWTH OF SUB-LETTING IN RAIYATWARI TRACTS.—In some places there appears to be a tendency among landlords, though not very marked, to decrease subletting, as they apprehend legislation conferring occupancy right on the tenants in raiyatwari tracts.

27. EFFECT OF RECENT LEGISLATION ON PEOPLE.—There was no legislation of importance in fasli 1324 affecting the agricultural classes.

The Estates' Land Act is working fairly well but I think it is ripe for amendment on some points.

29. VERNACULAR KNOWLEDGE OF CIVILIAN ASSISTANTS.—All the Sub-Collectors that worked in this district during the fasli had an adequate knowledge of Telugu.

5. GUNTUR.

(N. E. MARJORIBANKS, Esq., I.C.S., *Collector*.)

23. PARTICULARS OF COERCIVE PROCESSES FOR THE REALISATION OF GOVERNMENT DEMAND UNDER ACT II OF 1864.—The subjoined statement compares the number of processes of each kind issued during the fasli under report and the previous fasli :—

	Fasli 1323.	Fasli 1324.
(1) Demand notices	63,792	67,681
(2) Attachment notices	2,794	3,324
(3) Sale notices	517	937
(4) Sales	58	58

Except under item No. (4) there has been an increase in the number of coercive processes in the fasli mainly contributed by Tenali, Repalli and Bāpatla taluks. No less than 56,515 demand notices are said to have been issued in the Bāpatla taluk alone and in Repalli taluk alone 2,902 attachment notices and 896 sale notices are said to have been issued. Detailed reasons therefor have not been reported. The probability is that the process registers are not properly kept and that these statistics are largely imaginary. The matter is being investigated.

36. VERNACULAR KNOWLEDGE OF THE CIVILIANS.—Mr. Roy was in charge of the Ongole division from December 1914 till about the close of the fasli. He had a sufficient knowledge of Telugu.

37. THE RELATIONS BETWEEN THE LANDLORD AND TENANTS.—The only zamindari area in the district is the portion of the Venkatagiri estate situated in the Ongole taluk. The relations between the landlord and tenants are said to be satisfactory.

38. GROWTH OF SUB-LETTING IN RAIYATWARI VILLAGES.—The sub-letting of holdings prevails on the lands of large holders and those engaged in professions other than agriculture and it is the usual tenure in the deltaic taluks. It is more limited in the upland taluks.

6. NELLORE.

(R. RAMACHANDRA RAO, Esq., B.A., *Collector*.)

20. COERCIVE PROCESSES.—The number of demand notices followed by sales was 96 against 118 in the previous year. This slight fall calls for no explanation. Of these cases, 66 relate to sale of real property. Many of them relate to lands held jointly.

30. THE RELATION BETWEEN THE LANDLORD AND TENANT IN THE LARGER ZAMINDARIS.—I have very little to add to the remarks noted under this head in the report of the previous year. The Sub-Collector brings to notice that the sales of kanchas have been taken advantage of by the estate officers of the Venkatagiri estate, to coerce the tenants to agree to a higher rent on their holdings. The law sufficiently protects the tenants, and they are aware of the provisions.

The Pamur estate continues to be under the management of Raja Narasingirji of Hyderabad. It has been purchased by others at court-sale. The sale has been confirmed but the new purchasers have not taken steps to secure possession of the estate. The management has not improved.

31. GROWTH OF SUB-LETTING IN RAIYATWARI VILLAGES.—I have nothing to add to the remarks contained in the previous reports.

33. THE EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—The provisions of the Madras Estates Land Act are known to the tenants. The Irrigation Cess Act has in no way affected the district. The various ordinances and notifications issued from time to time as the result of the European war did not affect this district which is purely an agricultural area. The mica mines which were closed after the war are now being worked and the output is slowly increasing. No prosecution under the Press Act was instituted during the year.

34. VERNACULAR LANGUAGE OF CIVILIANS.—The only civilian division in the district is Gudur. Mr. E. Graham, who is in charge of it, possesses an adequate knowledge of Telugu. He is able to dispose of Telugu papers without abstracts.

7. CUDDAPAH.

(A. R. BANERJI, Esq., M.A., C.I.E., I.C.S., *Collector.*)

5. NUMBER OF VILLAGES.—In the year under report, there was an increase of three villages (raiyatwar) in Badvel taluk owing to the splitting up of two big villages into five (vide G.O. No. 1852, Revenue, dated 26th June 1914). A portion of the village of Nagarajupalli in Jammalamadugu taluk was transferred to Koilkuntla taluk of the Kurnool district in G.O. No. 38, Revenue, dated 6th January 1915. Fourteen villages were transferred from Pulivendla taluk to Rayachoti taluk.

20. PROCESSES UNDER ACT II OF 1864.—Statement No. 8 shows the particulars of the coercive processes issued for the realisation of Government dues under Act II of 1864. The following abstract compares the number of processes of each kind issued during the year with the figures for the two preceding faslis :—

Coercive processes.	Fasli 1322.	Fasli 1323.	Fasli 1324.
1. Demand notices	32,856	23,830	22,587
2. Distraint and attachment notices	4,497	4,175	2,659
3. Sale notices	1,943	1,832	1,403

The gradual decrease in the number of processes is satisfactory.

40. JUNIOR CIVILIANS—*Knowledge of Vernaculars.*—There was no junior civilian in the district during the year. Mr. Davis who reverted from the post of Acting Collector was in charge of the Sidhout division from 21st September 1914 to 23rd February 1915.

41. RELATIONS BETWEEN THE LANDLORDS AND TENANTS.—Call for no remarks.

42. GROWTH OF SUB-LETTING IN RAIYATWARI TRACTS.—The practice is not on the increase.

43. EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—There is nothing to report under this head. No legislation affecting the people generally was introduced during the year under report.

8. ANANTAPUR.

(J. R. HUGGINS, Esq., I.C.S., *Acting Collector.*)

17. VERNACULAR CORRESPONDENCE IN THE SUB-COLLECTOR'S OFFICE.—It is reported that Mr. R. H. Courtenay and Mr. H. T. Reilly who were in charge of the Penukonda division were acquainted with Telugu and Telugu petitions were read aloud to them. The correspondence to and from the taluk offices continues to be carried on in English.

23. RELATION OF LANDLORD AND TENANT IN THE LARGE ZAMINDARIS.—There are no such zamindaris in the district.

24. THE GROWTH OF SUB-LETTING IN THE RAIYATWARI TRACTS.—The practice is not on the increase in the district.

25. EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—No enactment passed during the year had any marked effect on the people of the district.

9. BELLARY.

(A. F. G. MOSCARDI, Esq., I.C.S., *Collector.*)

11. COERCIVE PROCESSES.—Enclosure A to statement No. 8 exhibits the particulars of process issued. The number of defaulters whose personal property was attached and sold fell from 21 to 20, while that of defaulters whose real property had to be sold rose from 76 to 145. The increase in the latter was mainly due to the unfavourable season in the latter part of the year.

21. EXTENT TO WHICH ASSISTANT AND SUB-COLLECTORS PASSED ORDERS ON ENGLISH ABSTRACTS PREPARED BY CLERKS.—The civilian division was mostly in charge of Mr. H. T. Reilly and Mr. J. K. Lancashire till 7th April 1915 (from 7th April 1915 Mr. S. N. Saldanha, Deputy Collector, held charge). Mr. G. M. Robertson was in charge of the civilian division for the month of September and from 18th January 1915 to 12th February 1915. He was also in charge of the headquarters division from 29th July 1914 to 7th August 1914. The Assistant Collector Mr. R. C. Callander was not in charge of any division. Mr. G. M. Robertson passed the higher standard in Malayalam.

23. RELATIONS OF LANDLORDS AND TENANTS.—There are no zamindaris in this district. The relations between landlords and tenants in whole inam villages were quite harmonious except in the case of shrôtriem Kodihalli in Harpanahalli taluk. The raiyats of this shrotriem complained to the Revenue officers that the shrotriemdar had not been respecting their rights and allowing them to enjoy their lands according to the established usage. They want their lands to be surveyed. The matter is awaiting the organisation of a party to survey shrotriem villages—vide Board's Proceedings No. 135, dated 30th March 1911. Final orders have not yet been received.

24. GROWTH OF SUB-LETTING IN RAIYATWARI VILLAGES.—The practice of sub-letting is generally on the decrease. All the Divisional Officers report that raiyats prefer to cultivate their lands themselves on account of the rise in the price of food-grains.

27. EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—There was no important legislation during the year.

10. KURNOOL.

(H. A. B. VERNON, Esq., I.C.S., *Collector.*)

23. PROCESSES UNDER ACT II OF 1864.—Statement 8-A gives particulars of processes issued under the Act. The following abstract compares the number of processes issued during the year with the number issued in the two preceding years :—

—	Fasli 1322.	Fasli 1323.	Fasli 1324.
(1) Demand notices	248	463	842
(2) Distraint and attachment notices	101	137	191
(3) Sale notices	116	36	77
(4) Sales	14	22	43

There is a slight increase under all the items of process which is due to dull market on account of the war.

40. JUNIOR CIVILIANS—KNOWLEDGE OF VERNACULAR.—My Assistants Mr. F. J. Nobés and Mr. T. G. Rutherford have fair knowledge of Telugu and were able to dispose of vernacular papers without abstracts.

41. RELATION BETWEEN THE LANDLORDS AND TENANTS.—Their relations have continued to be harmonious.

42. GROWTH OF SUB-LETTING IN RAIYATWARI VILLAGES.—Sub-letting is chiefly resorted to by those engaged in professions other than agriculture and by large landholders. This tendency is not on the increase.

44. THE EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—There was no special legislation during the year affecting the people generally. Four new rural co-operative societies were registered in the year.

11. MADRAS.

(S. P. RICE, Esq., I.C.S., *Collector.*)

COERCIVE PROCESSES AND SALES FOR ARREARS OF REVENUE (ENCLOSURES A AND B TO STATEMENT No. 8).—The number of distraint warrants issued was 26,602 against 26,533 in the previous fasli. Personal property was distrained in 37 cases for arrears amounting to Rs. 285 against 38 cases for arrears amounting to Rs. 245 in the previous fasli. Distrained property was actually sold in two cases for arrears of Rs. 3-7-1. Lands were attached in 67 cases against 61 in the previous fasli but land was brought to sale in only four cases, the amount involved being Rs. 57-13-4.

EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—There has not been during the fasli under report any important legislation affecting the population of the district.

12. CHINGLEPUT.

(A. R. KNAPP, Esq., I.C.S., *Collector.*)

18. COERCIVE PROCESSES.—The following abstract compares the processes issued during the year under report with those of the previous year :—

	Fasli 1324.	Fasli 1323.
(1) Demand notices	41,617	34,349
(2) Distraint and attachment notices	13,827	13,678
(3) Sale notices	19,285	12,344
(4) Sales	143	226

The need for a larger number of processes during the year is attributed to the fall in the price of paddy and groundnut and the consequent diminution of the raiyats' profits.

29. JUNIOR CIVILIANS—KNOWLEDGE OF VERNACULARS.—Mr. A. R. Wolbrom was attached to this district for about five months from 14th September 1914 during which period he was learning Telugu.

30. THE RELATIONS BETWEEN LANDLORDS AND TENANTS.—The relations between landlords and tenants are reported to have been good. The district contains many small estates, the owners of which live in Madras, and complaints are sometimes made of the neglect on the part of proprietors to repair tanks and other irrigation works but beyond this there appears to be no special cause of friction. One thousand and twelve suits were filed in the year under Madras Estates Land Act I of 1908 against 1,809 suits in the previous year. The decrease is due to the tendency on the part of the landlords to resort to attachment of lands under section 112 in preference to suits under section 77 of the Act for the recovery of arrears of rent.

13. CHITTOOR.

(H. L. BRAIDWOOD, Esq., I.C.S., *Collector.*)

3. RAIYATWARI VILLAGES.—The total number of raiyatwari villages in the district has been reduced by two owing to the transfer of two villages of the Palmaner taluk to the Gudiyattam taluk of the North Arcot district. One village was eliminated and another formed by the subdivision of a large village in the Chandragiri taluk, the total number remaining unaltered.

8. ISSUE OF PROCESSES.—The figures showing the number of processes issued during the fasli are compared below with those of the preceding fasli :—

—	Fasli 1323.	Fasli 1324.	Increase or decrease.
1. Number of demand notices issued	33,670	55,386	+ 21,716
2. Do. of attachment notices issued	476	458	— 18
3. Do. of sale notices	461	251	— 210

There is a large increase in the number of demand notices issued, while the number of attachment and sale notices showed a falling off. The particulars showing the extents to which land sales were actually resorted to during the fasli are compared below with those of the preceding fasli :—

Particulars.	Personal or real.	Fasli 1323.	Fasli 1324.	Difference.
1. Number of defaulters whose property was sold ..	Personal	4	1	— 3
	Real	10	16	+ 6
2. Amount of arrears for which property was sold ..	Personal	34	5	— 29
	Real	218	129	— 89
3. Amount realized by sale of property	Personal	18	5	— 13
	Real	214	114	— 100
4. Extent of land sold and purchased by others ..	....	60	30	— 30
5. Do. do. by Government..	....	44	41	— 3

13. KNOWLEDGE OF VERNACULARS BY JUNIOR CIVILIANS.—There was no junior Civilian working in the district during the fasli.

15. LANDLORDS AND TENANTS IN ZAMINDARIS.—The relation between the landlords and tenants continues to be the same as reported last year. The Special Deputy Collector appointed for the disposal of old summary suits is still working.

16. GROWTH OF SUB-LETTING IN RAIYATWARI TRACTS.—There was no noticeable change.

17. MADRAS ACT III OF 1905.—The provisions of the Act were enforced whenever necessary. The recent amendment of the Act by which Tahsildars were granted powers to pass orders on B memoranda has minimised to a great extent the trouble and time taken in the disposal of B memorandum.

14. NORTH ARCOT.

(F. J. RICHARDS, Esq., M.A., I.C.S., *Collector.*)

4. RAIYATWARI VILLAGES.—The decrease in the total number of raiyatwari villages in the district by one is due as reported last year to the elimination of the resumed whole inam village of Dharmanidhi in the Arkonam taluk from "Raiyatwar." The total number of raiyatwari villages at the close of the year was 1,694.

10. COERCIVE PROCESSES.—The figures relating to the processes issued during the year are compared below with those relating to the preceding fasli. Number of raiyatwari pattadars—309,381.

Items.	Fasli 1323.	Fasli 1324.	Increase or decrease.
Number of demand notices issued	287,563	515,860	+ 228,297
Do. of attachment notices issued ..	3,145	7,458	+ 4,313
Do. of sale notices issued	24	31	+ 7

With the exception of Vellore taluk there was a general increase in the number of demand notices issued during the year over those issued last year. The increase in the number of attachment notices issued occurs in all but the taluks of Vellore and Wallajah, it having been marked in the taluks of Arkonam and Cheyar, viz., 4,713 and 1,585 against 1,952 and 237 respectively. The increases under both the items are mainly due to the stiffness of the money market and the slackness in the groundnut trade brought about by the war. The figures showing the number of cases in which sales for default of payment were actually resorted to are compared below with those of the previous year:—

Particulars.	Personal or real.	Fasli 1323.	Fasli 1324.	Difference.
Number of defaulters whose property was sold	Personal	15	13	— 2
	Real	9	18	+ 9
Amount of arrears for which property was sold	Personal	Rs. 286	180	— 106
	Real	Rs. 49	229	+ 180
Amount realized by sale of property	Personal	Rs. 274	128	— 146
	Real	Rs. 101	652	+ 551
Extent of lands sold	....	Acs. 57	158	+ 101
Extent of lands bought in by Government	....	Acs. 40	10	— 30

The differences do not call for any special remarks as the figures themselves are of little consequence when the district as a whole is considered.

14. KNOWLEDGE OF VERNACULAR POSSESSED BY CIVILIANS.—Mr. Sykes was in charge of the Tiruppattur division up to 9th October 1914 when he was succeeded by Mr. A. Mc. G. C. Tampoe. The practice of disposing vernacular correspondence was the same as in last year. Mr. Wadsworth, the passed Assistant Collector, left the district on 28th October 1914. When Mr. F. H. Penneck joined the district on 4th December 1914, he had passed the Lower Standard Examination, but he was transferred out of the district in the beginning of April 1915. Mr. C. H. Brown who had also passed the Lower Standard joined as Assistant Collector early in June 1915. He has since completed the Higher Standard.

19. RELATION BETWEEN LANDLORD AND TENANT.—Kangundi and Arni are the only considerable estates in the district: the former continued to be under the management of the Court of Wards. In addition to the above, there are some mittas in Tiruppattur and Arkonam taluks. The relations between the landlords and tenants in these estates call for no special remarks.

20. GROWTH OF SUB-LETTING IN RAIYATWARI TRACTS.—Sub-letting was mostly confined to non-agricultural classes, such as Brahmans and Vaisyas and absentee land-owners, most of whom are merchants, vakils and officials. Big landholders also sub-let portions of their holdings in some cases. Investments in land continued to increase thereby enhancing the value of agricultural land.

21. EFFECT OF RECENT LEGISLATION.—There has been nothing noteworthy in the administration of Act I of 1908 (The Madras Estates Land Act) on which a separate report has already been submitted in this office letter D. Dis. No. 3253, dated 16th August 1915. The system of confining notice and action under Act III of 1905 (The Madras Encroachment Act) to real encroachments, established with reference to the survey record of measurement is being insisted on. Under the provisions of Act VIII of 1914 (The Madras Decentralization Act) which came into operation with effect from the middle of January 1915, Tahsildars and Deputy Tahsildars have been empowered to pass orders on unauthorized occupation. To see that they use their discretion properly, they have been asked to refer to the Divisional Officers for orders cases of encroachments on porambokes when they do not propose to levy penalty and

those on non-porambokes where they do propose to levy a penalty. The powers are reported to have not been abused by the officers concerned, but as the provision was in operation for hardly six months in the fasli, no decisive opinion can be expressed in the matter. The amendments to section 57 of Act II of 1864 (Revenue Recovery Act) and to section 1 (*b*) of Act VII of 1865 (Irrigation Cess Act) sanctioned in Act VIII of 1894 above referred to, facilitate the administration considerably.

15. SOUTH ARCOT.

(M. Aziz-ud-din Sahib Bahadur, Khan Bahadur, I.S.O., *Collector.*)

13. Coercive process.—The total number of processes of each kind issued in faslis 1323 and 1324 is noted in the margin. There was increase under all the heads. The great difficulty in realisation owing to the tightness of money was the main cause of the increase.

Items.	Fasli 1323.	Fasli 1324.
1. Demand notices ..	8,569	25,013
2. Attachment notices.	147	2,219
3. Sale notices ..	102	1,905
4. Sales	6	59

14. Process establishment.—The total number of processes served by Special Agency was 7,072 against 5,111 in the previous fasli. The cause of this increase is the same as that given in the previous paragraph. A sum of Rs. 849 was realised. The actual cost of process establishment amounted to Rs. 401.

22. Vernacular correspondence by covenanted Divisional Officers.—Mr. Burn, I.C.S., was in charge of Tindivanam division, and read the vernacular correspondence easily enough.

29. Relation of landlord and tenant in large zamindari areas.—There are no big zamindaris in this district. The relations between the two in other estates, except shrotriem Virapperumanallur continue to be satisfactory. In the excepted estate feelings between the shrotriemdar and the ryots are not cordial on account of the dispute between them regarding the claim of the former to collect a cess for water on his own account in addition to the water-rate due to Government.

30. Growth of sub-letting in Raiyatwari tracts.—Sub-letting continued to be resorted to as usual by absentee pattadars and holders of extensive lands.

31. Effect of recent legislation on the people.—The working of Act II of 1913 has not been attended with any difficulty in this district.

The notice to raiyats of the intention to levy enhanced water-cess for irregular use of Government water enabled the raiyats to represent their grievances before all the accounts were finally closed and the jamabandi officers to dispose of objections to proposed charges with greater justice and satisfaction to the parties concerned.

16. TANJORE.

(R. B. Wood, Esq., I.C.S., *Collector.*)

15. Coercive processes.—Statement No. 8-A shows the particulars of coercive processes employed for the realisation of Government revenue during fasli 1324. The demand notices issued have slightly risen from 158,857 to 167,573. The talukwar changes call for no comments.

16. Distraint or attachment.—The total number of defaulters whose property was attached in fasli 1324 and the total number of cases in which it was found necessary to issue sale notices as compared with the previous fasli are noted below:—

Number of raiyatwari pattadars.	Number of defaulters whose property was attached.			Percentage of column 3 to column 1.	Number of sale notices.	Percentage of column 6 to column 3.
	Fasli 1323.	Fasli 1324.	Difference.			
243,383	11,805	19,065	+ 7,260	7·8	18,385	96·4

The ratio of attachment to demand notices is 11·3 against 7·4 in the previous year. The proportion of pattadars whose property was attached was 7·8 against 4·85 in the previous year. The percentage of sale notices to attachment has slightly decreased from 97·8 to 96·4. The

total number of sale notices issued and of cases in which the property was actually sold in fasli 1324 are noted hereunder :—

Number of raiyatwari pattadars.	Number of sale notices issued in			Number of cases in which property was sold.			Percentage of column 6 to column 1.	Percentage of column 6 to column 3.
	Fasli 1323.	Fasli 1324.	Difference.	Fasli 1323.	Fasli 1324.	Difference.		
243,383	11,548	18,385	+ 6,837	84	152	+ 68	0·06	0·8

The total extent of lands sold and the extent bought in by the Government for want of bids during the fasli 1324 as compared with the previous fasli are noted below :—

Extent of lands sold.			Extent bought in by Government.			Extent bought by private persons.	Percentage of column 5 to column 2.
Fasli 1323.	Fasli 1324.	Difference.	Fasli 1323.	Fasli 1324.	Difference.		
ACS.	ACS.	ACS.	ACS.	ACS.	ACS.	ACS.	
40	170	+ 130	5	6	+ 1	164	3·5

Lands of an aggregate estimated value of Rs. 3,717, were sold for the arrears of Rs. 1,320, the amount realized being Rs. 3,240.

24. JUNIOR CIVILIANS—KNOWLEDGE OF VERNACULARS.—There is no vernacular official correspondence. Mr. G. H. B. Jackson was in charge of Negapatam division during a major portion of the fasli year. Mr. Brown was Assistant Collector in this district from July 1914 to May 1915. Petitions were, as a rule, read to the officers when presented in person. Petitions received by post, if not read in original by the addressee are submitted with an English abstract prepared in the office. Mr. Jackson has a good knowledge of the vernacular, and Mr. Brown was getting on when he was transferred.

27. THE RELATIONSHIP BETWEEN LANDLORDS AND TENANTS IN LARGER ZAMINDARIS.—The relation between the landlords and tenants is fairly satisfactory.

28. GROWTH OF SUB-LETTING IN RAIYATWARI TRACTS.—Sub-letting is chiefly resorted to by those engaged in professions other than agriculture and by the large landholders. There are no indications of marked increase in this direction.

29. EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—The Madras Estates Land Act has been in force from fasli 1314. Landlords and tenants seem to understand the provisions fairly well. Increasing advantage is being taken of the provisions of the Act to get appraisement of crops made by Revenue Officers and a special establishment was employed in Pattukkōttai division under section 74 of the Act to get this work done. This Act appears to be working smoothly on the whole.

17. TRICHINOPOLY.

(L. VIBERT, Esq., I.C.S., *Collector.*)

14. COERCIVE PROCESSES AND SALES FOR ARREARS OF REVENUE.—The instruction that the notices should be issued only when absolutely necessary has been kept in view. There was a considerable decrease in the number of notices issued during the year. The figures of the last four faslis are compared below :—

Coercive processes.	Fasli 1321.	Fasli 1322.	Fasli 1323.	Fasli 1324.
Demand notices	55,708	79,155	53,471	29,682
Distraint and attachment notices ..	1,911	1,631	2,107	402
Sale notices	1,906	1,608	1,857	241
Total ..	59,525	82,394	57,435	30,325

The decrease in the number of demand notices issued was chiefly due to the issue of consolidated demands for a number of defaulters in each village for execution by the village agency. The extent sold during the year for arrears of revenue was 79 acres of dry land, assessed at Rs. 79 mostly in Perambalūr taluk, and a thatched hut about one cent in extent in

Karūr taluk. The number of defaulters whose personal and real property was attached was 2,523 and 92 respectively. Personal property was sold in eleven cases and real property in eight.

18. Relations between landholders and tenants in larger zamindaris.—The Zamindar of Marungapuri is assisted by a Manager, a pensioned Government servant. He and his tenants are generally on good terms. The relationship between the landlord and the tenants in Udaiyārpālaiyam is rather strained. The Kadavur zamindari continues under the management of the Court of Wards, the Sub-Collector, Karūr, having been appointed Estate Collector. The zamindari is heavily encumbered. The relationship between the Court of Wards and the tenants is, on the whole, satisfactory.

19. Growth of sub-letting in raiyatwari tracts.—As usual sub-letting is chiefly resorted to by the non-agricultural classes by those in professions other than agriculture and by the owners of large landed property.

20. The effect of recent legislation.—There has been no special legislation during the year under report that affected the people generally, except the Madras Decentralization Act which has delegated to the Tahsildars and Deputy Tahsildars the power to pass orders on B Memoranda and water-rate accounts. One important result of this delegation of power will be that orders on the above accounts will be invariably passed sufficiently early before jamabandi, so as to enable the raiyats to know the orders passed and to make any representations they choose before the jamabandi officer. There is much litigation under the Estates Land Act in Udaiyārpālaiyam but the provisions of the Act are becoming better known to the people and the Act appears to be working smoothly on the whole.

18. MADURA.

(G. F. Paddison, Esq., M.A., I.C.S., *Collector.*)

3. Raiyatwari villages.—There was net decrease of four villages during the fasli on account of the readjustment of the district boundaries between Madura and Rāmnād.

15. Processes under Act II of 1864.—The following abstract compares the number of processes of each kind issued during the fasli with those of the previous faslis :—

Coercive processes.	Fasli 1322.	Fasli 1323.	Fasli 1324.
(1) Demand notices	31,704	28,544	39,984
(2) Distraint and attachment notices ..	4,826	5,624	5,184
(3) Sale notices	4,708	5,606	4,949
(4) Sales (number of defaulters)	251	398	526

The increase under items (1) and (2) was noticeable in Tirumangalam, Dindigul and Periyakulam taluks; under item (3) in Tirumangalam and Dindigul taluks; and under item (4) in Mēlūr taluk. Want of seasonal rainfall in portions of these taluks and the prompt action taken by the taluk officers for the collection of revenue led to the increase. As reported last year, the large disproportion between the number of defaulters (799) whose personal property was attached and the number of those (4,356) whose real property was attached was due to the large number of absentee pattadars in the Periyār area and 3,830 of the latter paid the arrears before the date of sale.

Lands bought in by Government.—Out of 1,610 acres of dry and 484 acres of wet land sold, 261 acres of dry and 14 acres of wet land were purchased by Government for want of bidders. Out of the extent bought in by Government, 220 acres (dry) and 2 acres (wet) relate to Tirumangalam and Periyakulam taluks.

Process service establishment.—The total number of processes served during the year was 49,515 against 39,007 in the previous year. The special establishment served 44 per cent. of the processes and its cost was covered by the fees realized. The post of a process amin in Kodaikānal taluk has since been abolished as proposed in the last year's report.

21. The relations between the landlords and tenants.—The friction between the landlords and tenants in zamindaris in the Periyakulam taluk still continues. The litigation in the Saptur Estate has come to a close.

22. Growth of subletting in raiyatwari tracts.—Subletting is on the increase in the Periyār area where the lands are generally owned by persons exercising professions other than agriculture in towns.

28. Junior civilians.—Mr. Gawne, Sub-Collector, is able to read and understand the vernacular well (ordinary Tamil).

Mr. Scott Brown, Assistant Collector, is making substantial progress.

19. RAMNAD.

(A. R. LOFTUS-TOTTENHAM, Esq., M.A., I.C.S., *Collector.*)

2. NUMBER OF VILLAGES.—In the year under report four ayan villages and one inam village were transferred from Sattur taluk in this district to the Tirumangalam taluk in the Madura district and eight ayan and two inam villages were transferred from the Tirumangalam taluk to the Aruppukottai taluk in this district.

13. RELATION OF LANDLORDS AND TENANTS IN PROPRIETARY ESTATES.—In the Devakottai division the relations between the tenants and their Chetti landlords were as usual strained in some villages.

The strained feelings between the Raja of Rāmnād and his tenants referred to in my report for the previous fasli also continued.

In the Seitur estate in Sattur division friction between the zamindar and his tenants led to civil, criminal and revenue proceedings. In the Sivagiri estate the relations between the proprietor and the raiyats cannot be said to be cordial.

14. GROWTH OF SUBLETTING IN RAIYATWARI TRACTS.—I have nothing new to report on this subject.

17. WORKING OF ACT III OF 1905.—I personally inspected a large number of encroachments during jamabandi and at other times. The number of B memoranda has decreased owing to the assignment of many unobjectionable sites and to my general instructions on the subject.

20. TINNEVELLY.

(F. R. HEMINGWAY, Esq., I.C.S., *Collector.*)

15. PROCESSES UNDER MADRAS ACT II OF 1864.—(*a*) The table below compares the figures with those of the previous year:—

Description of processes.	Fasli 1323.	Fasli 1324.
(1) Demand notices	7,867	5,143
(2) Distraint and attachment notices	1,069	459
(3) Sale notices	1,067	440
(4) Sales	5	6

The decrease under heads 1 to 3 was due to prompt collections and better supervision.

(*b*) DISTRAINT, ATTACHMENT AND SALES.—A comparison of the figures under these heads with those of the previous year is given below:—

—	Attached.		Sold.		Realized by sale.	
	Number of defaulters.	Amount for which property was attached.	Number of defaulters.	Amount of arrears for which property was sold.	Personal property.	Real property.
		Rs.		Rs.	Rs.	Rs.
Fasli 1323	1,069	5,466	5	164	..	638
,, 1324	459	3,912	6	61	104	484

There were attachments in 8 per cent. of the cases for which demand notices were issued as against 13·5 per cent. in the previous year. The percentage of sales to sale notices was 1·3 against 0·5 in the previous year. No land was bought in by Government for want of bidders.

24. THE WORKING OF THE MADRAS ESTATES LAND ACT.—The relation between landholders and tenants continue to be harmonious on the whole except in the case of Kulayaneri.

(2) GROWTH OF SUB-LETTING IN RAIYATWARI TRACTS.—Sub-letting by the richer pattadars is the mamool.

25. VERNACULAR KNOWLEDGE OF THE CIVILIAN OFFICERS.—The civilian officers in the district possess a fair knowledge of Tamil.

21. COIMBATORE.

(A. R. CUMMING, Esq., I.C.S., *Collector.*)

4. NUMBER OF VILLAGES.—During the year, the regrouping of the villages in the Kollegal taluk, sanctioned in Board's Proceedings Mis. No. 3148, dated 15th August 1913, was given effect to: 128 villages were regrouped into 68 villages. The number of raiyatwari villages in the district was thereby decreased from 1,105 to 1,045. The Talavadi firka comprising 20 villages

was, with reference to G.O. No. 3709, Revenue, dated 17th December 1913, communicated with Board's Proceedings Mis. No. 319 (L.R.), dated 22nd January 1914, retransferred from the Kollegal taluk to the Gobichettipālaiyam taluk during the fasli.

13. COERCIVE PROCESSES AND SALES FOR ARREARS OF REVENUE.—Detailed particulars of the processes employed for the realization of the Government demand under Act II of 1864 are furnished in enclosure A to return No. 8. The processes issued during the last four faslis are compared below :—

Items.	Fasli 1321.	Fasli 1322.	Fasli 1323.	Fasli 1324.
Number of demand notices ..	757	725	299	278
Number of attachment notices ..	24	32	30	33
Number of sale notices	16	28	13	26
Total ..	797	785	342	337

There has been a progressive decrease in the total number of processes and in the number of demand notices issued. In the year under report personal property was attached in 15 cases for arrears of Rs. 206 as against three cases for arrears of Rs. 38 in the previous year, but in no case was the personal property attached sold. Real property was attached in the case of 18 defaulters for arrears of Rs. 683 against 24 defaulters for arrears of Rs. 661 in the previous year. Out of the six cases of notices of sale of real property, in which the sales were adjourned beyond the fasli as per last year's report the arrears were realized before sales in respect of the two cases in the Erode taluk while the lands were sold in the remaining four cases relating to Coimbatore and Bhavāni taluks. The two cases in the former taluk fetched Rs. 231, while those in the latter taluk fetched Rs. 8-9-0. Of the 26 cases of sale notices issued during the year, two notices relate to the two cases of the Bhavāni taluk referred to above, in which fresh sale notices were issued during the year owing to some irregularity in procedure. Of the remaining 24 cases, arrears were realized in all the cases before the sales except in one case in the Gobichettipālaiyam taluk, in which the land was sold for Rs. 36.

30. GENERAL.—There is nothing special to record on any of the points referred to in paragraph 4 of Board's Proceedings No. 321 (Settlement), dated 24th August 1904.

22. THE NILGIRIS.

(M. YOUNG, Esq., I.C.S., *Collector.*)

6. VERNACULAR CORRESPONDENCE IN THE REVENUE DIVISIONAL OFFICE.—Mr. J. Gray, I.C.S., continued to be in charge of the Coonoor division throughout the year. He is conversant with Tamil, but the correspondence with the taluk officers was carried on in English as usual.

8. RELATIONS BETWEEN LANDLORD AND TENANT IN LARGER ZAMINDARIS.—There are no zamindari tracts in the district.

9. SUBLETTING IN RAIYATWARI AREAS.—The practice of subletting continued to prevail to a very small extent in the Gudalur taluk and in the municipal towns of Coonoor and Ootacamund.

11. EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—There was no special legislation during the year which affected the people of the district. The Madras Land Encroachment Act III of 1905 worked smoothly. The provisions of the Madras Estates Land Act of 1908 were not resorted to.

23. SALEM.

(E. W. LEGH, Esq., I.C.S., *Collector.*)

14. PROCESSES UNDER ACT II OF 1864.—The appended statement shows the total number of processes issued during the year as compared with the previous year :—

Fasli.	Number of processes issued.				Number of defaulters whose property was sold.		Extent of land sold.		Amount realised by the sale of			
	Demand notice.	Notice of attachment.	Notice of sale.	Total.	Moveable.	Real.	Dry.	Wet.	Real property.	Moveable property.	Other property.	Total.
							ACS.	ACS.	RS.	RS.	RS.	RS.
1323	5,767	171	151	6,089	10	26	88	13	280	91	13	384
1324	5,935	304	214	6,453	18	20	114	17	169	201	..	370

Processes were as usual served partly by special agency in the Hōsūr taluk and by the village agency in other taluks. The increase in the number of processes occurs in the taluks of Tiruchengodu, Omalūr, Hōsūr and Krishnagiri and these are reported to be due to one or other of the following reasons :—

(1) Notices of demand having been issued in respect of defaulters on account of other taluks and districts.

(2) Delay in payment on account of expected remissions and the failure of seasonal crops.

The number of processes served by the special agency was 705 against 555 in the preceding year. The extent of land sold for arrears of revenue and bought in by Government was 73 acres against 28 acres in the previous fasli.

20. VERNACULAR KNOWLEDGE OF CIVILIAN DIVISIONAL OFFICERS.—Mr. C. G. Austin continues to be in charge of the Hōsūr division. He has passed the Higher Standard in Tamil and his second language is Malayalam. He has no occasion to use the latter.

26. EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—No legislation affecting the people generally was introduced during the year under report. A report on the working of Act I of 1908 was submitted to the Board of Revenue in this office letter No. 3731-D., dated 26th September 1915. Both this and the Madras Land Encroachment Act (III of 1905) appear to have been working smoothly. The provisions of the Acts are becoming better known to the people.

27. RELATIONSHIP BETWEEN LANDLORD AND TENANT IN LARGE ZAMINDARIS.—There are no large zamindaris in the district. In palayams and mittahs the relationship continues on the whole satisfactory.

28. GROWTH OF SUBLETTING IN RAIYATWARI TRACTS.—This is chiefly resorted to by those who are engaged in professions other than agriculture and by large landholders who are absentee pattadars. In parts where the population is mostly agricultural, the people are generally direct cultivators.

24. SOUTH CANARA.

(A. J. CURGENVEN, Esq., I.C.S., *Acting Collector.*)

Fasli.	Demand notices No. 1.	Notices of distraint or attachment No. 2.	Notices of sale No. 3.
1323	4,998	186	85
..	5,117	105	91
	+ 119	— 81	+ 6

Fasli.	Value of moveable property sold.	Extent of real property sold.
	RS.	ACS.
1323	286	12·29
1324	222	..

13. COERCIVE PROCESSES.—Compared with the last year there was a decrease in the number of notices of distraint or attachment and in the value of moveable property sold, while there was an increase in the number of demand notices and notices of sale. The variations are not remarkable. No real property was sold during the year.

20. VERNACULAR CORRESPONDENCE IN THE SUB-COLLECTOR'S OFFICE.—The marginally-named officers who were in charge of the division during the year disposed of petitions and other vernacular papers on hearing them read over to them.

1. G. W. Wells, Esq., I.C.S.
2. G. W. Priestley, Esq., I.C.S.
3. A. J. Curgenven, Esq., I.C.S.

26. POINTS REFERRED TO IN PARAGRAPH 4 OF BOARD'S PROCEEDINGS No. 321, DATED 24TH AUGUST 1904.—Except in the Hosdrug division of the Kasaragod taluk the system of subletting is reported to be not on the increase anywhere in the district. The reason given is that the ordinary agriculturist finds it more profitable to cultivate in person than to sublet, especially on mulgeni tenure. The increase noticed in the excepted division is due to the reclamation of uncultivated warg Kumries by planting pepper vines and making other improvements. There has been no legislation in the year affecting the people in general.

25. MALABAR.

(J. F. HALL, Esq., I.C.S., *Acting Collector.*)

11. PROCESSES UNDER ACT II OF 1864.—Statement No. 8-A gives particulars of the processes issued.

The increase of 6,254 in the number of processes issued during the year as compared with the previous year is mainly due to the great difficulty which was experienced in making collections in certain parts of the district owing to the sudden heavy fall in the price of cocoanut, copra, etc., after the outbreak of war.

15. RELATION BETWEEN LANDLORD AND TENANTS IN ZAMINDARI TRACTS.—There are no zamindaris in this district.

16. GROWTH OF SUBLETTING IN RAIYATWARI TRACTS.—There is no change of any importance to report.

19. THE EFFECT OF RECENT LEGISLATIONS.—There has been recently no legislation of importance to the agricultural population of this district.

26. VERNACULAR ATTAINMENTS OF SUB-COLLECTORS AND COLLECTOR.—Mr. Hill reports that vernacular papers are disposed of by him without written translations being put up. Mr. Thorne has petitions presented in person read out to him whilst those received by post are read by him. He says that he rarely troubles his clerks for translations or summaries. My own practice in Palghat was to have petitions presented in person read over to me and to have those received by post abstracted and put up for orders.

26. ANJENGO.

(R. A. GRAHAM, Esq., I.C.S., *Collector.*)

10. SUBLETTING IN RAIYATWARI TRACTS.—There is little or no subletting.

12. COERCIVE PROCESSES.—Government dues were all collected without recourse to coercive measures.

16. VERNACULAR ATTAINMENTS.—The Assistant Collector Mr. T. Austin knows Tamil and Telugu. Malayalam petitions are translated to him.

17. EFFECT OF RECENT LEGISLATION ON THE PEOPLE.—There were no special difficulties of any kind during the year, and there was no case of disaffection or ill-feeling between classes.

„ 19.—Statement showing the number of irrigation works in charge of the Revenue Department; the number repaired and the amount spent on them during the official year ending 31st March 1916; and the number proposed for repairs during the official year ending 31st March 1917. 50

„ 20.—Statement showing the number of pattas of various values held in the several districts of the Madras Presidency for fasli 1325 (1915–16). 51–57

TABLE C.—Incidence of land revenue on area and population in each district in the Madras Presidency in the agricultural year ending 30th June. Omitted with reference to G.O. No. 269, Revenue, dated 27th January 1914.

TABLE E.—Transfer of property in land in each district in the Madras Presidency in the agricultural year ending 30th June. Omitted with reference to G.O. No. 269, Revenue, dated 27th January 1914.

PROCEEDINGS OF THE MADRAS GOVERNMENT

Proceedings of the Board of Revenue (Revenue Settlement. Survey Land Records and Agriculture).

Settlement of Land Revenue (Jamabandi)—Submitting to Government report on the—for fasli 1325 (1915–1916). } (Here enter No. 340, dated 28th Dec. 1916.)

Order—No. 764, Revenue, dated 13th March 1917.

With its Proceedings read above, the Board of Revenue submits its report on the settlement of land revenue of the Madras Presidency for fasli 1325 which ended on 30th June 1916.

Miscellaneous

2. *Land revenue and cesses.*—The following statement compares the income derived from land revenue and cesses during the period under review with the corresponding figures for the previous year :—

—	Fasli 1324.	Fasli 1325.	Difference.
	Rs.	Rs.	Rs.
1. Peshkash or revenue from permanently-settled estates ..	49,87,350	49,86,531	— 819
2. Land-cess on permanently-settled estates	14,44,733	15,12,389	+ 67,656
3. Quit-rent on inam villages held on favourable tenure ..	7,56,323	7,56,294	— 29
4. Land-cess on inam villages held on favourable tenure ..	3,90,204	3,97,323	+ 7,119
5. Revenue from lands held on the ryotwari system including water-rate and miscellaneous revenue.	6,18,91,575	6,31,52,536	+ 12,60,961
6. Cess on ryotwari and miscellaneous revenue	50,57,248	52,51,182	+ 1,93,934
Total land revenue (items 1, 3 and 5 above) ..	6,76,35,248	6,88,95,361	+ 12,60,113
Total cesses (items 3, 4 and 6 above) ..	68,92,185	71,60,894	+ 2,68,709

3. *Poramboke occupation.*—While the total area of poramboke land occupied decreased by 4,333 acres, the revenue derived from the occupation of such land increased by Rs. 0·61 lakh, the increase being due to the imposition of heavier penalties to secure the removal of encroachments which were really objectionable. The Government note with satisfaction that the work of reclassifying, as "assessed" or "unassessed", lands not actually required for State or communal purposes, has been completed or nearly completed in most districts. They however agree with the Board of Revenue that a great deal remains to be done and trust that the matter will continue to receive the attention of Collectors and Divisional Officers.

4. *Coercion.*—The statistics of coercive processes given in paragraphs 24–29 of the Board's report show a satisfactory decline in the number of processes issued as compared with the previous year. The proportion of cases in which, after the issue of the demand notice, resort was had to actual distraint of moveable or attachment of immoveable property also fell. Out of a total land revenue collection (current and arrears) of over 768 lakhs of rupees the amount which had ultimately to be recovered by the sale of the defaulter's property was only Rs. 40,600 or about one-twentieth of one per cent of the whole.

5. *Transfer of registry.*—The effect of the new rules regarding the transfer of revenue registry, which is shown by the very considerable rise in the number of applications, is noted with satisfaction as is also the increase in the number of transfers dealt with by Revenue officers on their own initiative. The proportion of applications rejected, namely 8·58 per cent, seems high and the Government desire the Board of Revenue to enquire further into the reasons for these rejections.

6. *Loans.*—The aggregate amount of loans advanced under the Land Improvement and the Agriculturists' Loans Acts was Rs. 7·51 lakhs as against Rs. 8·18 lakhs in the previous year. The favourable character of the season under review tended to diminish the necessity for State loans.

For the purchase and installation of oil engines and pumps Rs. 34,900 was advanced against Rs. 20,200 in the previous year. The special rules to facilitate the grant of loans for the erection of pumping installations referred to in paragraph 10 of G.O. No. 486, Revenue, dated 2nd March 1916, were only introduced towards the close of the fasli under review and had not therefore come into full effect.

(True Extract)

A. R. KNAPP,
Acting Secretary to Government.

PROCEEDINGS OF THE BOARD OF REVENUE

(REVENUE SETTLEMENT, SURVEY, LAND RECORDS AND AGRICULTURE)

The Hon'ble Mr. R. B. CLEGG,

Commissioner of Land Revenue.

The Hon'ble Mr. LL. E. BUCKLEY,

Commissioner of Revenue Settlement, Survey, Land Records and Agriculture.

Resolution—No. 340, dated 28th December 1916.

The Board submits its report on the settlement of land revenue in the Presidency for fasli 1325 (1915–16) together with the prescribed statements.

2. *Season, rainfall and prices.*—The total rainfall during the south-west monsoon was above the average in all the districts except Vizagapatam Agency, Kurnool and South Canara. The heavy rainfall during the monsoon in the Kistna district brought down floods in some of the rivers and necessitated the grant of remissions on a large scale in two taluks. The season as a whole was favourable to agricultural operations except in Chingleput and South Arcot. The rainfall in the north-east monsoon was above the average in all the districts except Anantapur, Chingleput, South Arcot, North Arcot, Trichinopoly and Tanjore. On the whole, the season was favourable and led to an increase in cultivation in many of the districts. But the dry weather rains were a comparative failure throughout the Presidency, there being no showers at all in many of the districts in January and March and only a very light rainfall in February. The hot weather rains were better and exceeded the average in the Vizagapatam Agency, Gōdāvari, Bellary, Anantapur and Madura.

The average annual retail prices of the staple food grains were lower than those of the preceding year but everywhere dearer than the normal rates. The prices of rice in Ganjām, Trichinopoly, Rāmnād and Tinnevelly, of ragi in Ganjām and Vizagapatam and of cumbu in Vizagapatam and Trichinopoly were dearer than the warning rates fixed by Government in their order No. 1977, Revenue, dated 3rd July 1912.

3. *Cropped area.*—The total cropped area of the year under report was 39,175,000 acres against a normal area of 38,160,000 acres, showing an increase of 1,015,000 acres, as against an increase of 929,000 acres in the previous year. As compared with the normal there were large decreases under cotton and ground-nut owing to the difficulties of export, and a small decrease under gingelly, while the increases were large under paddy, cumbu, indigo and cholam. As compared with the previous year, the cultivation of ground-nut showed a further decrease by nearly two-fifths, while gingelly and tobacco fell off by about 5 per cent; there was a relatively trifling fall in cotton. Indigo improved by more than 200 per cent owing to the increased demand as the result of the war. Castors also showed a large relative increase, and there were large actual increases under paddy, cholam, cumbu and ragi.

In no case is the outturn of crops reported to have exceeded the normal. The yield of indigo was normal in the Coimbatore district and ranged from 50 to 91 per cent thereof in the remaining districts. The yield of paddy ranged from 58 to 97 per cent. The yield of cholam in Ganjām, of gingelly and "all other food-grains including pulses" in Tinnevelly, of cotton in Chingleput and North Arcot, of castors in the Nilgiris, of ground-nut in Gōdāvari and of "other oil-seeds" in Vizagapatam and Rāmnād, was below 50 per cent. In all other cases, the outturn ranged from 50 to 97 per cent of the normal. As stated in the season and crop report for 1915–16, district reports of crop outturns can be accepted only with caution.

4. *Condition of cattle.*—The total number of deaths from diseases among horned cattle showed a decrease of 10,553 as compared with the preceding year, the total for the year being 57,472. The decrease occurred under every head, but it was most marked under "foot and mouth disease" and "other contagious diseases." The mortality under rinderpest, however, continued to be high, the districts which were affected most being Gōdāvari, Guntūr, Cuddapah and Nellore. The mobile veterinary corps worked during the year in the Nellore and Gōdāvari districts, and additional veterinary assistants were also at work in Guntūr and Cuddapah.

5. *Number of villages.*—In the year under report, there was a net increase of 38 villages as a result of increases in Vizagapatam (36), Gōdāvari (1), Chingleput (2), North Arcot (3) and Madura (1) and of decreases in Ganjām (1), Chittoor (1), Coimbatore (2) and Salem (1). The highest increase which was in Vizagapatam is reported to be due to the rectification of errors in the figures of the previous fasli and to the re-clubbing of villages during resurvey. The increase in Gōdāvari was due to the inclusion of a village in Rajahmundry which was unsettled in fasli 1324, but settled and included under ryotwari in fasli 1325; that in Chingleput was due to a village in the Chingleput taluk which is partly ryotwari and partly shrotriem having been treated as ryotwari and of another shrotriem village in the Saidapet taluk as Izara; that in North Arcot was due to two hamlets in Polur and the ayan portion of Navalāk village in Walaja having been treated as separate villages at resettlement; and that in Madura was due to the correction of errors in the number of villages reported in fasli 1324. The decrease in Ganjām was due to the exclusion of a village from the Berhampur taluk as it had no ryotwari demand; that in Chittoor was due to the clubbing of two villages in Palmanēr into a single village; while that in Coimbatore was the result of the splitting up of one village in Bhavani into two villages and the exclusion of three jaghir villages in Kollegal at resettlement and that in Salem to the correction of errors.

6. The land revenue of the Presidency is derived from the undermentioned sources:—

(*a*) Peshkash or revenue from permanently-settled estates;
(*b*) Shrotriem jodi or quit-rent levied on inam villages;
(*c*) Assessment, including water-rate, on lands held under the ryotwari system;
(*d*) Miscellaneous revenue and;
(*e*) Proprietary estates' village service.

7. *Peshkash or revenue from permanently-settled estates.*—The total amount of peshkash payable during the fasli was Rs. 49,86,531 against Rs. 49,87,350 in the preceding year.

The decrease of Rs. 819 is the net result of—

		RS.
(*a*) Reduction on account of lands taken up for public purposes	...	— 834
(*b*) Increase due to the inclusion of the assessment of certain resumed inams in the peshkash of the estates concerned	...	+ 15
		— 819

8. The quit-rent payable to Government on villages held on shrotriem or favourable tenure was Rs. 7,56,294 or Rs. 29 less than in the previous fasli. The following are the reasons for the variation:—

		RS.
(*a*)	Addition due to the verification of inam B registers with the Huzur inam registers	14
(*b*)	Addition due to the inclusion in the current year's demand of last year's arrears	20
(*c*)	Rectification of errors	30
(*d*)	Reasons not given	74
	Total ...	+ 138
(*a*)	Reduction on account of lands taken up for public purposes ...	— 107
(*b*)	Rectification of errors	— 39
(*c*)	Reasons not given	— 21
	Total ...	— 167
		+ 138
		— 29

9. *Holdings.*—The total extent of ryotwari holdings during the year was 25·68 million acres and exceeded that of the previous year by 129,447 acres. The increase was contributed by all the districts except the Nilgiris and it was noticeable in Anantapur and South Canara: in the former district, it was due to the growing demand for land and in the latter, to the extensive assignment of waste lands on darkhast.

Statement No. 4, columns 18, 19 and 20.

Statement No. 5, column 18.

10. *Assessment.*—The total assessment on holdings was Rs. 518·17 lakhs against Rs. 515·35 lakhs in the previous year showing an increase of Rs. 2,82,169. The increase was contributed by all the districts except Tinnevelly and Anjengo. It was marked in the districts of Guntūr, North Arcot, Madura and South Canara; these districts together contributing an increase of Rs. 1,93,829 or about 70 per cent of the total increase. The increase in Guntūr was due to the revenue derived from lands newly assigned on patta and to the additional revenue derived from lands transferred from dry to wet; that in North Arcot to the introduction of resettlement rates in the taluks of Wandiwash and Cheyyar; that in Madura to the favourable character of the season and that in South Canara to the extensive assignment of waste lands on darkhast. The decreases are too small to call for any remarks.

Statement No. 4, columns 22 to 24.

Statement No. 5, column 19.

11. *Cultivation.*—The total area cropped on ryotwari holdings during the year was 20·540 million acres against 20·597 million acres in the previous year showing a decrease of about 57,000 acres. This figure is the net result of a decrease of 112,000 acres dry and an increase of 55,000 acres under wet. Under dry the decreases were large in North Arcot, South Arcot and Tinnevelly in which districts one or both monsoons were defective and the increases large in Anantapur and Coimbatore. Under wet the most marked increases were in Guntūr, Anantapur and Chittoor and the largest decrease was in South Arcot. Dry waste charged showed an increase of 230,000 acres, the largest increase being in North Arcot, South Arcot and Tinnevelly. Wet waste charged increased by 5,000 acres, South Arcot showing the largest increase; wet waste remitted fell by 48,000 acres, South Arcot alone showing a considerable increase. Including the area under "Miscellaneous cultivation" the total area cropped amounted to 21·81 million acres against 21·93 million acres in the previous year.

Statement No. 3, column 49.

12. *Water-rate and second-crop charge.*—The revenue from these sources amounted to Rs. 34·78 lakhs against Rs. 32·72 lakhs or nearly Rs. 2,06,000 more than in the preceding year. There were large increases in Gōdāvari, Kistna Nellore, Cuddapah, Anantapur, Kurnool, Chittoor and Madura. The increases were

Statement No. 3, column 53.

Statement No. 4, columns 26 to 29.

generally due to the favourable character of the season in these districts; in Kurnool, the increase was also due to the closure of the breach in the Kurnool-Cuddapah canal in time. There were considerable decreases in Chingleput and South Arcot; in the former district, the decrease was due to the insufficient and uneven distribution of rainfall, while in the latter, it was due to the failure of the monsoons. The net increase, Rs. 2·06 lakhs, was the result of a decrease of Rs. 6,552 under "water-rate on dry lands," and of an increase of Rs. 2,13,113 under "second-crop charge." Under water-rate Guntūr (Rs. 22,538) and South Arcot (Rs. 71,456) showed the largest decreases, while Anantapur (Rs. 21,241) showed the largest increase under second-crop charge; Chingleput (Rs. 49,984) and South Arcot (Rs. 36,521) showed the largest decreases, while Gōdāvari (Rs. 47,057), Kistna (Rs. 49,885), Nellore (Rs. 38,157) and Anantapur (Rs. 32,058) showed the largest increases. In Guntūr the decrease was due to the conversion of bapat wet and other irrigated dry lands to permanent wet by the Special Deputy Collector during the revision of registration in Tenali and Rēpalle taluks. The increase or decrease in the remaining districts was due to the state of the season.

13. *Remissions.*—As compared with the previous year, there was a net decrease of Rs. 5,51,134. Season and fixed remissions showed a decrease, while beriz deductions showed an increase.

Statement No. 6.
Statement No. 4, columns 46 to 49.

(i) *Season remissions.*—The remission under this head showed a net decrease of Rs. 5·69 lakhs. The decrease occurred under all the sub-heads except "Injury by floods" (mostly in Kistna) and "Other remissions."

(*a*) *Waste remitted.*—The remission under this head amounted to Rs. 1·76 lakhs or Rs. 2·22 lakhs less than that remitted in the preceding year. The decrease was marked in the districts of Cuddapah, Anantapur, Bellary and Chittoor and it is reported to be due to the favourable character of the season. These districts together contributed a decrease of Rs. 1·80 lakhs or 81 per cent of the total decrease. There was however a large increase of Rs. 32,286 in South Arcot due to the failure of the monsoons. No remissions on dry lands were granted during the year under report.

Statement No. 4, columns 34 to 37.

(*b*) *Shavi or short crop.*—The total amount remitted under this head was Rs. 85,279 against Rs. 1,59,293 in the previous year showing a net decrease of Rs. 74,014; the decrease was marked in the districts of Cuddapah (Rs. 53,572), and Kurnool (Rs. 19,902), while in South Arcot (Rs. 31,332), there was a noticeable increase. In Cuddapah, the decrease was due to the favourable character of the season, while, in Kurnool, it was due partly to the timely closure of the breach in the Kurnool-Cuddapah canal and partly to copious supply of water in tanks; the increase in South Arcot was due to the failure of the monsoons. Of the total remissions under "Shavi" Rs. 83,951 related to wet lands and Rs. 1,328 to dry lands. A remission of Rs. 4,567 was granted under "Short-crop" during the year under report.

(*c*) *Tirvakammi remission.*—(The remission of the difference between wet and dry assessment on wet land cultivated with dry crops owing to the insufficiency or failure of the water-supply) amounted to Rs. 1,87,469 against Rs. 4,50,642 showing a net decrease of Rs. 2,63,173. The decrease was noticeable in the districts of Guntūr (Rs. 18,692), Cuddapah (Rs. 45,775), Anantapur (Rs. 51,888), Kurnool (Rs 25,300), Chittoor (Rs. 62,630) and Salem (Rs. 13,937) and was due generally to the favourable character of the season in these districts. In South Arcot, there was a remission of Rs. 5,131 under this head owing to the failure of the monsoons, while no such remission was granted in the district in the previous year.

(*d*) *Injury by floods.*—The amount remitted under this head was Rs. 69,190 against Rs. 63,262 in the previous year, showing a net increase of Rs. 5,928, Kistna alone showing an increase of Rs. 6,280 due to crops on larger extents having been damaged by the floods of the Kollēru, Budamēru, etc.

(*e*) *Other remissions.*—A sum of Rs. 197 against Rs. 189 in the previous year was granted during the year under report; of this amount, Rs. 93 related to the reclamation of land in the district of Nellore.

(ii) *Fixed remissions*—(or abatement of the demand granted for reasons unconnected with the season) amounted to Rs. 1·30 lakhs against Rs. 1·32 lakhs in the previous year, showing a net decrease of Rs. 1,289. The decrease occurred

mainly under increment remissions (remissions allowed on the introduction of settlement or resettlement in cases where the increase over the old assessment is in excess of 25 per cent) in the districts of South Canara and Malabar owing to the cessation of these remissions in the former district and the reduction of such remissions in the latter district through lapse of time. Remission of assessment on lands newly assigned on patta on which no crop was raised during the fasli also showed the large decrease of Rs. 4,417, the district of Kurnool alone accounting for a decrease of Rs. 1,097. Remission for the maintenance of irrigation works, however, showed a large increase of Rs. 7,958, the district of Chittoor alone accounting for an increase of Rs. 6,246 owing to the favourable character of the season, the Dasabandhamdars participating in the enhanced revenue derived from the works they maintain under Board's Standing Order No. 56.

(iii) *Beriz deductions*—(deductions made from village collections in favour of inamdars and religious institutions) amounted to Rs. 9·10 lakhs against 8·91 lakhs in the previous year, showing a net increase of Rs. 19,150. The largest increases occurred in the districts of North Arcot (Rs. 10,508) and Tinnevelly (Rs. 26,155). South Arcot district showed a large decrease of Rs. 12,163, as there was at the end of the fasli an undisbursed balance of Rs. 12,923 due to the non-appearance of the *concessionnaires* in time.

14. *Miscellaneous revenue.*—The revenue under this head amounted to Rs. 94·61 lakhs against Rs. 92·15 lakhs in the previous year showing a net increase of Rs. 2·47 lakhs. Gōdāvari showed the largest increase, Rs. 1,65,884 and South Arcot the largest decrease, Rs. 28,978. The increase in Gōdāvari was due mainly to an increase in the revenue from the occupation of poramboke land (item 6) and charges for Government water used for zamindari and inam lands. The decrease in South Arcot occurred mainly under "Enhanced water-rate on lands irregularly irrigated" (item 4), occupation of assessed and unassessed wastes (item 5) and of poramboke lands (item 6) owing to the insufficiency of rain in the early part of the south-west monsoon.

Statement No. 9.
Statement No. 4.
Columns 54 to 57.

Item 2.—"Water-rate on minor inams in ryotwari villages," *item* 3,—"charge for water in zamindari and inam villages including tirvajasti and fasaljasti" *item* 6—"charges levied for occupation of poramboke land, etc.," and *item* 13,—"other *items*," showed the largest increases, Rs. 1,44,513, Rs. 83,677, Rs. 61,104, and Rs. 57,099 respectively, while item 5, "charges levied for occupation (with or without application) of assessed and unassessed lands for which no pattas have been granted", and *item* 10, "sale-proceeds of lands sold", showed the largest decreases, Rs. 42,825 and Rs. 46,975, respectively. These items are dealt with below. The increases or decreases in the remaining items, were small and call for no remarks.

Item 2.—Water-rate on minor inams in ryotwari villages amounted to Rs. 15·16 lakhs against Rs. 13·71 lakhs showing a net increase of Rs. 1·45 lakhs as compared with the previous year. Gōdāvari (Rs. 43,300) and Kistna (Rs. 28,824) showed the largest increases; in the former district, the increase was presumably due to the favourable character of the season, while in the latter, it is reported to be due to the usual fluctuations in the second-crop cultivation and to slight extensions of first-crop irrigation.

Item 3.—The revenue under the head "Charge for water in zamindari and inam villages including tirvajasti and fasaljasti" amounted to Rs. 21·90 lakhs against Rs. 21·06 lakhs or Rs. 0·84 lakh more than in the previous year. Gōdāvari (Rs. 21,658) and Kistna (Rs. 36,430) showed the largest increases for the reasons noted in respect of increases under item 2 above.

Item 5.—The revenue under the head "charges levied for occupation (with or without application) of assessed and unassessed lands for which no pattas have been granted" amounted to Rs. 8·05 lakhs against Rs. 8·48 lakhs or Rs. 0·43 lakh less than in the previous year. North Arcot and South Arcot showed the largest decreases of Rs. 0·17 lakh and Rs. 0·9 lakh respectively. In the former district, the decrease was due to a smaller extent cultivated with groundnut owing to the war, to a larger extent transferred to grazing ground porambokes at re-settlement and to the assignment of about 8,000 acres on patta during the year under report, while in the latter, it was due to the short rainfall in the early part of the south-west monsoon.

Item 6—*Poramboke occupation.*—The revenue under this head amounted to Rs. 6·24 lakhs against Rs. 5·63 lakhs or Rs. 0·61 lakh more than in the previous year but the total area occupied fell to 117,886 acres from 122,219 acres in the previous year showing a net decrease of 4,333 acres. The decrease was marked in the districts of Kurnool, North Arcot, Tanjore and Salem.

Statement No. 9-A.

Enhanced charges amounting to Rs. 4,47,472 were levied on 40,390 acres against Rs. 3,77,393 on 39,837 acres in the previous year yielding an incidence of Rs. 11 per acre against Rs. 10 in the preceding year. Gōdāvari, Tanjore and South Canara showed the highest average rates of charge, namely, 163, 44 and 53 per acre respectively. The high incidence in the Gōdāvari district was due to the imposition of a penalty of Rs. 89,020 on an extent of 247 acres in the Sanapallilanka, Amalapur taluk; that in Tanjore, to heavy penalties imposed on encroachments on real porambokes with reference to the instructions already conveyed and that in South Canara to the imposition of high rates of penalty on a large number of cases of objectionable encroachments of very small extents of poramboke land with a view to secure their removal. The only Collectors who state definitely that they have had recourse to section 6 of Madras Act III of 1905 are those of Ganjām, Cuddapah and Trichinopoly. Other Collectors have not stated what use they have made of the section. All Collectors are requested to refer to the point in future reports.

On receipt of the orders of Government on its report on the land revenue settlement for fasli 1324 (G.O. No. 486, Revenue, dated 2nd March 1916), the Board in paragraph 2 of its Proceedings No. 100, dated 18th April 1916, called for a detailed report on the action taken by Collectors in pursuance of B.P. No. 157, dated 2nd April 1910, towards differentiating between real porambokes and assessed or unassessed wastes and strictly enforcing the provisions of Act III of 1905 as regards eviction in the case of really objectionable encroachments. From the replies to this reference and the information furnished by Collectors on the subject in their jamabandi reports for fasli 1325 it is seen that the work of reclassification as "assessed" or "unassessed" waste of lands not really required for State or communal purposes was completed or nearly completed in all the districts except Ganjām, Gōdāvari, Guntūr, Nellore, South Arcot, Tanjore, Trichinopoly and Madura. The Collector of Ganjām observes that the work cannot be rapidly pushed through as Tahsildars and Divisional Officers are heavily worked. The Collector should see that the work is brought to a speedy completion by the district staff. A decrease in the area penalized, a rise in the incidence of the penal assessment charged for the occupation of objectionable porambokes and the progress which the work of classifying porambokes not really required for State or communal purposes as "assessed" or "unassessed" waste has made in several districts, indicate that some attention has been paid by district officials during the fasli to the repeated orders issued on the subject. But a good deal more remains to be done and until the provisions of section 6 of Act III of 1905 are regularly applied, no real repression of the occupation of objectionable porambokes can be looked for.

Statement No. 9-B.

In this connection Collectors have brought to notice that in several districts there exist certain classes of porambokes or variants thereof which have to be retained as such and cannot be converted to "assessed" or "unassessed", but the occupation of which it is unnecessary and even undesirable to repress. Examples of such porambokes are (1) tank and river beds, (2) vāgu beds, (3) hills, (4) swamps required for drainage, (5) backwater reclamations, (6) Railway and canal B class lands and (7) lands within half a mile of Railway stations. These classes of porambokes are generally permitted to be occupied or cultivated annually on payment of single assessment, so long as they are not required for a definite State or communal purpose. In the Ceded districts and in Chittoor permission to cultivate melons on river tank and vāgu beds are usually granted during unfavourable seasons. Collectors consider that temporary occupation of such lands may be permitted, although their permanent assignment on patta cannot be made. Other important classes of porambokes are (1) attached and detached backyards and (2) village-sites occupied for straw ricks and manure heaps. The former class of cases will be dealt with in future under G.O. No. 2185, Revenue, dated 23rd September 1916, and the entries against this class

will shortly disappear. The latter class may be dealt with on similar lines. The Board agrees with Collectors that the other classes of poramboke land mentioned above cannot be transferred to unassessed but considers that they may be permitted to be occupied temporarily, authorized occupation being charged with single assessment and unauthorized occupation with enhanced assessment as well.

Item 10.—The revenue under the head "sale-proceeds of lands sold" amounted to Rs. 2·23 lakhs against Rs. 2·70 lakhs or Rs. 0·47 lakh less than in the previous year. South Canara showed the largest decrease of Rs. 0·72 lakh and it was due to the sale of a large number of valuable river accretions and reclamations and house sites during the previous year, the proceeds of which were credited to the accounts of that year. Kistna showed the largest increase of Rs. 0·23 lakh and it was due to the collection in the fasli under report of the sale-proceeds of lands in the Divi taluk sold in the previous fasli.

Item 13.—The revenue under "other items" amounted to Rs. 6·21 lakhs against Rs. 5·64 lakhs or Rs. 0·57 lakh more than in the previous year. South Canara showed the largest increase (Rs. 93,272) and Kistna the largest decrease (Rs. 98,376). The increase in South Canara was mainly due to the higher prices realized by the sale of Laccadive coir owing to the very heavy demand for it from the Royal Marine dockyard, Calcutta. The decrease in Kistna was due to the back assessment for four years relating to the village of Rustumbāda in Narasapur, which was not settled until fasli 1324, having been credited to the accounts of that fasli.

15. The net ryotwari demand excluding remissions but including water-rate, second crop charge and miscellaneous revenue amounted to Rs. 631·91 lakhs against Rs. 619·05 lakhs in the previous year. The details for the increase of Rs. 12·86 lakhs are given below :—

	LAKHS OF RUPEES.
Increase in the assessment of holdings	2·82
Increase under water-rate and second crop charge	2·06
Decrease under remissions	5·51
Increase under miscellaneous revenue	2·47
Total ...	12 86

16. *Total land revenue demand* (*current*).—The demands under the several heads are compared below with the figures for the previous year :—

	Fasli 1324.	Fasli 1325.
	RS.	RS.
Peshkash on permanently-settled estates ...	49,87,350	49,86,531
Shrotriem jodi	7,56,323	7,56,294
Ryotwar and miscellaneous	6,18,91,575	6,31,52,536
Total ...	6,76,35,248	6,88,95,361

The decrease under "peshkash on permanently-settled estates" and "shrotriem jodi" and the increase under "ryotwar and miscellaneous" have been explained in the preceding paragraphs.

17. *Total demand under cesses* (*current*).—The current demand under cesses is as follows:—

	Fasli 1324.	Fasli 1325.
	RS.	RS.
(1) Land-cess on permanently-settled estates ...	14,44,733	15,12,389
(2) Do. whole inam villages	3,90,204	3,97,323
(3) Cess on ryotwar and miscellaneous	50,57,248	52,51,182
Total ...	68,92,185	71,60,894

There is a net increase under item (1). The increase is marked in Gōdāvari, Kistna, Trichinopoly and Ganjām districts. The increase in Gōdāvari and Trichinopoly was mainly due to the levy of the railway-cess in the fasli under report. In Kistna and Ganjām districts, the increase was due to the revision of the land-cess due on estates. The increase under item (2) is marked in Trichinopoly and Gōdāvari and

the explanation of the increase in these districts under this item is the same as that given for item (1). The increase under item (3) is due in part to the increase in the revenue and in part to the levy of railway cess in the districts of Gōdāvari, Trichinopoly and Cuddapah.

18. *Demand and collection of land revenue and cesses (current).*—The current demand under land revenue and cesses was Rs. 7,67,09,971; Rs. 7,58,29,261, or 98·9 per cent, were collected within the fasli and a sum of Rs. 1,253 was written off the accounts.

19. *Demand and collection of arrears.*—The total arrear demand under all heads was Rs. 10,61,827; Rs. 10,32,995 or 97·3 per cent were collected within the fasli and Rs. 9,828 or 0·9 per cent were written off the accounts.

20. *Total balance of land revenue and cesses.*—The balance outstanding at the end of the fasli, including both arrears and current, was Rs. 8,98,461. As finally reported in the monthly demand, collection and balance statements for October 1916, the balance on 1st July 1916 was Rs. 8,99,734. Up to the end of October 1916, Rs. 7,60,532 or 84·5 per cent had been collected, Rs. 5,400 written off the accounts, and Rs. 264 were considered to be irrecoverable. The net recoverable balance on 1st November 1916 was Rs. 1,35,538. Steps have been taken to collect this amount.

21. *Reconciliation of differences between the collection of land revenue and cesses as shown in the jamabandi and the Accountant-General's statements and overpayments.*—Information on these points has not yet been received from the Collectors. The subject will be dealt with in a separate report.

22. *Distribution of collections between land revenue and cesses.*—Land revenue and cesses are not collected separately and no attempt is made to exhibit the collections separately under these heads in the village accounts. The total collections are distributed between land revenue and the several cesses in the Collector's office. The process consists of two stages, of which the first, or the provisional distribution, is effected by crediting to each head month by month such portion of the lump collections as will bear the same proportion to the demand under the head as the total collections bear to the total demand under all the heads. The second stage is the final adjustment which consists in correcting the provisional credit by transfer from one head to another, where necessary, after the demand for the year under all the heads has been collected or written off.

The statements of distribution for fasli 1325 received from Collectors show that, except in the districts of Ganjām, Gōdāvari, Kistna, Nellore, Anantapur, Chingleput, Chittoor, South Arcot, Tanjore and Tinnevelly, the variations between the amounts due to the cesses in fasli 1325 and the amounts actually credited were inconsiderable. The accounts of fasli 1324 remained unadjusted in five districts.

23. *Charges debitable to land revenue.*—The charges of district administration, including salaries, etc., of Revenue Inspectors, but excluding those of village establishments, were Rs. 51,94,268, or 6·8 per cent of the land revenue and cesses realised, as was the case in the preceding fasli. The village service charges (including proprietary estates) during the fasli were Rs. 55,45,039. Including this sum the total charges were Rs. 1,07,39,307 or about 14 per cent of the collections of land revenue and cesses.

24. *Processes under Act II of* 1864.—Statement No. 12 shows the particulars of the coercive processes issued for the realisation of Government dues under Act II of 1864. The following abstract compares the number of processes of each kind issued during the year with the figures for the three preceding faslis:—

Coercive processes.	Faslis.			
	1322.	1323.	1324.	1325.
Demand notices	1,113,240	1,024,281	1,331,635	1,160,474
Distraint and attachment notices	94,496	87,461	109,712	79,446
Sale notices	49,527	48,102	69,770	51,313
Sales (number of defaulters)	1,973	1,724	2,042	2,168
Total ..	1,259,236	1,161,568	1,513,159	1,293,401

There is a marked decrease in the total number of processes issued in the year under report as compared with the preceding fasli.

25. *Demand notices.*—The instruction that these notices should only be issued when absolutely necessary has been kept in view. There was a decrease in 19 districts and an increase in six districts. The increase is marked in the districts noted in the margin. The Collector of Guntūr reports that the increase in his district is due to the fact that the demand notices issued by village munsifs were included in the return for the fasli under report while they were not so included in the returns for the previous faslis. The increase in Tinnevelly is attributed to the less favourable character of the season and the consequent inability of the poorer ryots to raise money in the market promptly. The Collector of Malabar states that the increase in his district is due to the fall in the price of cocoanuts owing to the war.

Districts.	Fasli.		Increase.
	1324.	1325.	
Guntūr	67,681	159,452	91,771
Tinnevelly	5,143	7,125	1,982
Malabar	17,861	19,837	1,976

26. *Distraint or attachment.*—The number of processes under this head was 79,446 in the year under report against 109,712 in fasli 1324 and 87,461 in fasli 1323. There was a decrease in 16 districts.

27. There was a decrease in the percentage borne by the number of distraints and attachments to that of demand notices as compared with the previous fasli. The number of defaulters whose immoveable property was attached in the year was 14,871, against 18,339 in fasli 1324. In the Madura district, a large disproportion is noticeable, as in previous years, between the number of defaulters whose personal property was distrained (852) and the number of those whose real property was attached (5,633); it is due as in former years to the large number of absentee pattadars in the area irrigated by the Periyār.

Percentage of the attachment to the total number of demand notices.

Fasli.	Personal.	Real.	Total.
1323	7·08	1·45	8·54
1,324	6·86	1·38	8·24
1,325	5·56	1·28	6·84

28. *Sale notices.*—Out of 79,446 defaulters whose property was attached, 28,133 or 35·41 per cent paid the arrears before the sale notices were issued. The percentage was 36·41 in fasli 1324, 45·00 in fasli 1323 and 47·58 in fasli 1322.

29. *Sales.*—The number of defaulters whose property was sold was greater than in fasli 1324. The percentage of actual sales to sale notices was 4·22, against 2·92 in fasli 1324, and the percentage of defaulters whose property was actually sold to the total number of pattas was 0·05, as in the previous fasli. The subjoined statement compares the particulars of sales in fasli 1325 with the figures for the three preceding faslis:—

	Personal property.				Real property.				Total.			
	Fasli 1322.	Fasli 1323.	Fasli 1324.	Fasli 1325.	Fasli 1322.	Fasli 1323.	Fasli 1324.	Fasli 1325.	Fasli 1322.	Fasli 1323.	Fasli 1324.	Fasli 1325.
Percentage of sales of property to—												
(1) The number of pattas ..	·01	·01	·01	·01	·04	·03	·04	·04	·05	·04	·05	·05
(2) The number of attachments.	·69	·53	·57	·78	8·10	9·01	8·31	11·16	2·09	1·97	1·86	2·73
(3) The number of sale notices.	Figures relating to sale notices do not distinguish between personal and real property.								3·98	3·58	2·92	4·22

Arrear balance at the end of the fasli.									1·01	·90	·58	·17
Percentage of current collections to current demand.									99·08	98·85	98·90	99·01

Value of lands sold.—Immoveable property of the estimated value of Rs. 1,20,235 was sold for the recovery of arrears amounting to Rs. 24,336 and realized Rs. 53,350. The price fetched by lands sold to private individuals was on the average six times the assessment in the case of dry lands and seven times the assessment in the case of wet lands. In fasli 1324, immoveable property of the estimated value of Rs. 1,40,604 was sold for the recovery of arrears amounting to Rs. 25,217 and the average prices fetched by lands sold to private individuals were six times the assessment in the case of dry lands and ten times the assessment in the case of wet lands.

Extent of lands sold.—The extent of lands sold during the year was 7,290 acres under "dry" and 1,337 acres under "wet," against 8,406 acres under "dry" and 1,608 acres under "wet" in fasli 1324. The corresponding figures for fasli 1323 were 5,783 acres under "dry" and 1,331 acres under "wet."

Land bought in by Government.—The total area of lands bought in by Government for want of bidders was 3,025 acres of dry and 361 acres of wet, against 2,136 acres of dry and 290 acres of wet in fasli 1324. More than one-half of the total area bought in was in Cuddapah, Anantapur, Bellary and Madura.

30. *Process-service establishment.*—Statement No. 13 gives the particulars of processes served by the ordinary village agency or by special establishments and the fees realised during the year. The total number of processes served was 1,226,658, or 193,086 less than in fasli 1324. The number of processes served by the special agency (51,971) was also less than in the previous fasli (57,756).

Special establishments were employed in the same districts as in fasli 1324, expect Guntūr. Their cost was covered by the fees realized, except in Vizagapatam and Tinnevelly, where there were small deficits.

31. *Costs in civil suits.*—Rupees 15,233 were awarded to Government as costs during the year. Including Rs. 14,164, the revised opening balance, the total demand was Rs. 29,397, of which Rs. 18,495 were collected, Rs. 932 were written off the accounts and Rs. 1,304 were reported to be irrecoverable. The net recoverable balance at the end of the year was Rs. 8,666 made up as follows:—

	Rs.
(i) Amount collected after the close of the fasli	1,011
(ii) Amount remaining uncollected pending decision of appeals by civil courts	2,216
(iii) Amount involved in execution proceedings	1,101
(iv) Amount for not collecting which no reason is assigned	4,338

32. *Interest on arrears of land revenue (Statement No. 14).*—The total demand on account of interest on arrears of land revenue, including the balance at the beginning of the fasli, was Rs. 35,264, of which Rs. 30,959 were collected and Rs. 91 remitted, leaving a balance of Rs. 4,214, against Rs. 8,264 (revised figure) at the end of the previous fasli. The largest arrears are in Chittoor (Rs. 958) and Chingleput (Rs. 880).

33. *Sale of land under Standing Orders Nos.* 15, 16, 20, 21, 22, 45, 90 *and* 91.—Under the rules for the sale of occupancy rights in assessed waste lands (Standing Order No. 15), 1,141 acres, assessed at Rs. 1,806, were sold for Rs. 95,248; 23 acres of tank-bed lands, assessed at Rs. 103, were sold for Rs. 6,306 under Standing Order No. 16; 437 acres of waste lands assessed at Rs. 224 were sold for Rs. 18,088 under Standing Order No. 20; 28 acres of house-sites in towns were sold for Rs. 14,055 under Standing Order No. 21; 0·24 acre of house-site was sold under Standing Order No. 22 for Rs. 985; 1,337 acres assessed at Rs. 1,600, which had been bought in by Government at sales for arrears of revenue, were resold under Standing Order No. 45 for Rs. 8,114; 61 acres assessed at Rs. 201 which had been acquired for public purposes and were subsequently relinquished were sold under Standing Order No. 90 for Rs. 6,772; 39 acres assessed at Rs. 106 which had been acquired for railways and subsequently relinquished were sold under Standing Order No. 91 for Rs. 10,025; 22 acres of waste lands in Madras assessed at Rs. 157 were sold for Rs. 7,584, under the rules in G.O. No. 61, Revenue, dated 10th January 1902.

34. *Sub-division of quit-rent.*—No applications were received during the year under Standing Order No. 58 for the sub-division of the joint liability of shareholders

in whole inam villages or minor inams in any of the districts except Nellore, where the quit-rent of a shrotriem village of the Rapur taluk was split up and apportioned according to a decree of the District Munsif, Kavali.

35. *Transfer of registration of holdings.*—Transfers of revenue registration fall under the one or the other of the following three heads :—

(1) Transfers applied for through officers of the Registration Department.
(2) Transfers applied for direct to Revenue officers.
(3) Transfers proposed by Revenue officers *suo motu.*

(1) Under the first head, 242,742 applications were received during the fasli against 85,409 in the previous fasli, an increase of 157,334 or 184·21 per cent. The increase, which is due to the introduction of the revised rules relating to transfer of revenue registry sanctioned in G.O. No. 3150, Revenue, dated 3rd November 1914, is distributed over all districts except Madura, and is especially large in Kistna (9,523), Guntūr (17,232), Cuddapah (6,878), Kurnool (6,004), Chingleput (9,976), Chittoor (5,022), North Arcot (10,286), South Arcot (14,041), Tanjore (12,312), Trichinopoly (12,672) and Tinnevelly (12,929). In Madura, the fewness of the applications received is due to the fact that special staffs were working in the district during the fasli. Cases dealt with by the special staffs are excluded from the jamabandi return.

(2) The number of applications presented direct to Revenue officers was 70,372 as against 49,315 in fasli 1324, an increase of 21,057 or 42·69 per cent. Here also the increase is due to the introduction of the revised rules relating to transfer of revenue registry. There was an increase in 19 districts, the greater part of which occurred in Kistna (2,277), Guntūr (1,101), Anantapur (1,109), Kurnool (1,588), North Arcot (2,413) and Malabar (3,715).

(3) The number of cases which revenue officers dealt with on their own initiative under paragraphs 5 and 7 of Board's Standing Order No. 31 rose from 19,794 in fasli 1324 to 27,414 in fasli 1325. The largest increase was in Tanjore (2,700).

The total number of applications of all kinds to be dealt with in the fasli under report including the number pending disposal at its beginning was 379,474 ; of these 297,977 were disposed of during the fasli, leaving a balance of 81,497 pending at the close of the fasli ; of these 4,134 have since been disposed of. Of the total number of applications disposed of during the fasli, 25,576 or 8·58 per cent were rejected and the rest accepted.

36. *Ruined tanks.*—During the year under report, no tanks were handed over to private individuals for repair under Board's Standing Order No. 8.

37. *Settlement by Collectors.*—The rule laid down in paragraph 2 of Board's Standing Order No. 12 that the settlement of each taluk should be conducted by the Collector himself once in five years, was complied with except as regards Narasapur and Nandigama in the Kistna district. The Collector of this district will be requested to take these taluks up for settlement during the current fasli.

38. *Loans and advances.*—The advances made under the Land Improvement Loans Act during fasli 1325 amounted to Rs. 2·40 lakhs and those under the Agriculturists' Loans Act to Rs. 5·11 lakhs. The aggregate amount advanced under both the Acts was thus Rs. 7·51 lakhs as against Rs. 8·18 lakhs in the previous year. The decrease is the net result of decreases in seventeen districts and of increases in seven districts. The decreases were considerable in Guntūr, Bellary, Anantapur, North Arcot, Salem, Trichinopoly, Madura and Rāmnād, while the increases were large in Tanjore and Coimbatore. While the decrease in most of the districts is ascribed by the Collectors to the favourable character of the season, that in Rāmnād is due mainly to the withdrawal of the Special officer to whose work in this district reference was made in the last year's report. The increase in Tanjore is explained to be due to the special attention paid to the subject of loans by the Collector Mr. Wood. The increase in Coimbatore has not been explained.

The effect of the relaxation of the loans rules to which attention was invited in the last year's review has not had time to manifest itself owing to the fact that the favourable character of the season under review tended to diminish the necessity for State loans.

In order to facilitate the erection of pumping installations in this Presidency Government delegated to the Director of Agriculture towards the close of the fasli certain powers with regard to the grant of loans for that purpose. This delegation is independent of the powers to grant loans already possessed by officers of the Revenue Department under the ordinary loans rules. A Special Revenue officer of the rank of Tahsildar has also been attached to the Director of Agriculture as a temporary measure towards the furtherance of this work.

39. *Recoveries.*—Of the sums of Rs. 3·78 lakhs and Rs. 4·22 lakhs repayable during the year under the Land Improvement and Agriculturists' Loans Acts respectively on account of principal, Rs. 3·42 lakhs or 90 per cent under the former Act and Rs. 3·69 lakhs or 87 per cent under the latter Act were collected. Advances amounting to Rs. 19,157 under the former Act and Rs. 18,628 under the latter Act were repaid by borrowers on account of loans, the repayment of which had not fallen due while sums amounting to Rs. 2,573 under the former Act and Rs. 402 under the latter Act were written off the accounts as irrecoverable.

40. *Coercive processes.*—The aggregate amount of principal and interest repayable during the year under both the Acts was Rs. 11,34,708, of which a sum of Rs. 2,69,278 or 24 per cent was collected without resort to coercion and a sum of Rs. 6,89,373 or 61 per cent after the issue of demand; a sum of Rs. 39,294 was realized after attachment but before sale, a sum of Rs. 1,859 by the sale of moveable property and a sum of Rs. 13,466 by the sale of immoveable property. The balance outstanding at the end of the year was Rs. 1,21,438, the arrears being heaviest in Tanjore (Rs. 24,039), Madura (Rs. 19,861), Anantapur (Rs. 16,689) and South Arcot (Rs. 13,577).

41. The following statement shows the amount of interest payable by the Local Government to the Government of India for fasli 1325:—

Acts.	Amount advanced to the Local Government by the Government of India.			Interest payable for the year by the Local Government to the Government of India at 3½ per cent on the mean outstanding.
	Outstanding at the beginning of the year.	Outstanding at the end of the year.	Mean outstanding.	
	Rs.	Rs.	Rs.	Rs.
Land Improvement Loans Act	31,75,645	30,51,538	31,13,591	1,08,976
Agriculturists' Loans Act	18,24,160	19,47,602	18,85,881	66,006
Total ..	49,99,805	49,99,140	49,99,472	1,74,982

42. The subjoined statement shows the financial results of the operations under the Loans Acts:—

Items.	Land Improvement Loans Act.	Agriculturists' Loans Act.	Total.
	Rs.	Rs.	Rs.
1. Interest payable for fasli 1325 by the Local Government to the Government of India.	1,08,976	66,006	1,74,982
2. Interest collected during the year	1,77,617	1,21,327	2,98,944
3. Balance of interest accruing to the Local Government, i.e., difference of items 1 and 2.	68,641	55,321	1,23,962
4. Remissions of principal	2,573	402	2,975
5. Net result for 1915-16	+ 66,068	+ 54,919	+ 1,20,987
6. Net result for previous years. 1910-11	+ 38,481	+ 37,368	+ 75,849
1911-12	+ 50,091	+ 39,005	+ 89,096

1914-15	+ 44,697	+ 37,962	+ 82,659
7. Expenditure on free grants-in-aid towards the construction of private protective works or on establishments for well boring or other outlay incurred from current revenue in connection with Takkavi transactions.	8,990	18,804	* 27,794

* Represents the cost of special establishments entertained in certain districts and the cost of time devoted to loans work by the ordinary Land Revenue establishment at 3½ per cent on the amount advanced during the year.

43. With the aid of loans under the Land Improvement Loans Act, 433 wells capable of irrigating 2,076 acres of land were constructed during the fasli at an aggregate cost of Rs. 1,21,777 against 435 wells costing Rs. 1,21,375 during the

previous year and 326 wells designed to benefit 1,600 acres were repaired at a cost of Rs. 73,490 against 349 wells costing Rs. 75,567 in the preceding year; Rs. 34,595 were spent on the reclamation of 1,200 acres against Rs. 52,157 in the previous year; Rs. 34,900 were expended on the purchase and installation of oil-engines and pumps in the districts of Cuddapah, South Arcot, Coimbatore, Madura and Rāmnād against Rs. 20,200 in the year previous, and Rs. 21,273 were spent on other improvements benefiting about 1,275 acres. The Coimbatore district shows the largest number of wells constructed and repaired (138) and it is followed by Rāmnād (129) and Tinnevelly (108). Under the Agriculturists' Loans Act, 7,871 head of cattle were purchased at an aggregate cost of Rs. 5,14,980 against 7,167 head of cattle at a cost of Rs. 4,67,671 last year while 36 houses were rebuilt at a cost of Rs. 7,585 against 119 houses rebuilt at a cost of Rs. 22,991 in the preceding year. Seed-grain was purchased for Rs. 1,965 against Rs. 2,382 expended last year in the same direction, while Rs. 1,150 were expended on sugarcane mills against Rs. 500 incurred under the same head last year. A sum of Rs. 14,363 was spent for other purposes against Rs. 25,290 under the same head last year.

44. *Survey advances.**—The advances drawn by Collectors during the year under the head "*Revenue Survey advances—Collectors*" amounted to Rs. 54,201 against Rs. 63,300 in the previous year. The decrease in the total amount drawn by Collectors as compared with the previous year was due to the fact that at the beginning of 1915 the Board issued special instructions for the revision of survey advances prescribing at the same time a definite scale for the stocking of stones in depots and requiring Collectors to avoid fresh indents for stones till the stock in depots was brought down to the prescribed scale.

Of the total of Rs. 54,201—

				Rs.					Rs.
Ganjām	spent	...	...	2,062	Nellore	spent	...	...	2,180
Gōdāvari	,,	...	...	3,150	Chingleput	,,	...	...	2,099
Kistna	,,	...	..	7,859	Coimbatore	,,	...	...	3,753
Guntūr	,,	...	...	2,553	Tanjore	,,	..	...	4,123
Bellary	,,	...	...	3,109	Tinnevelly	,,	...	...	2,400
Anantapur	,,	...	...	3,308	South Canara	,,	...	...	4,170
Cuddapah	,,	...	...	2,492	Malabar	,,	...	...	4,094

Of the total amount of advances outstanding against Collectors under this head, a sum of Rs. 64,284 was adjusted during the year leaving the net debit under "Revenue Survey advances—Collectors" at Rs. 3,60,116.

Under the head "*Cost of survey marks—Collectors*" Rs. 40,225 were collected during the year leaving a balance of Rs. 7,448 to be realized.

The arrears outstanding at the beginning of the year under the head "*Cost of Survey marks—Survey Officers*" were Rs. 1,22,054.† Fresh landholders' bills to the amount of Rs. 1,67,500 were received from survey officers during the year. Of the total demand of Rs. 2,89,554 under this head, Rs. 1,91,736 were collected during the year leaving a sum of Rs. 97,818 to be collected at the end of the year.

* * * * * *

47. *Growth of subletting in ryotwari tracts.*—Subletting is chiefly resorted to by those engaged in professions other than agriculture and by large landholders. It is reported to be on the increase in Ganjām, in the area under the Periyār in Madura and in the Hosdrug division of the Kasaragod taluk of the South Canara district where lands are sublet for the cultivation of pepper. In the remaining portions of the South Canara district, the system of subletting is reported to be on the decrease as the landlords find home-farm cultivation more profitable. The tendency to increase the number of subordinate interests in a particular piece of land seemed greater in North Malabar than in South. Subletting is the general practice in Tinnevelly and in the delta taluks of Guntūr. In parts of Kistna, a tendency though not very marked was noticed among land-owners to decrease subletting as they apprehended the initiation of legislation similar to the Estates Land Act conferring occupancy rights on tenants.

* The figures relate to the official year 1915–1916. † Revised figure.

48. *Effect of recent legislation on the people.*—No legislation affecting the people generally was introduced during the year under report. The provisions of the Madras Estates Land Act (I of 1908) are becoming better known to the people and this and the Madras Land Encroachment Act (III of 1905) appear to have been working smoothly on the whole. The Madras Decentralization Act (VIII of 1914) which empowered tahsildars and deputy tahsildars to pass orders on unauthorised occupation and water-rate cases has minimised a large amount of scriptory work both in the divisional and taluk offices and has resulted in the prompt disposal of B. memoranda and water-rate statements. It has also contributed to the speedy collection of revenue and prompt preparation of jamabandi accounts. The system in general has not affected the ryots adversely and there have not been any serious complaints against the orders of tahsildars and deputy tahsildars passed under these powers. It is reported that the Act worked satisfactorily.

49. *Co-operative Societies.*—Two hundred and sixty-three societies were registered under the Co-operative Societies Act during the year under report; of these, 1 was a central bank, 11 were administrative unions, 221 agricultural and 30 non-agricultural societies. During the same period, 63 societies were dissolved; of these 62 were agricultural and 1 was non-agricultural. The total number of societies in the Presidency at the end of the year 1915–16 was 1,800 against 1,600 at the end of 1914–15.

50. *Enhanced water-cess for irregular irrigation.*—G.O. No. 684, Revenue, dated 7th March 1913, directed that ryots who had rendered themselves liable to the imposition of enhanced water-cess for the irregular use of Government water should be given previous notice of their liability. The system was tried in all the districts except Madras, Malabar, Anjengo, South Canara and the Nilgiris to which it is not applicable. The system is reported to have worked well and to have resulted in the prompt investigation of objections and consequent reduction in the number of water-rate appeals. The Collector of Guntūr, however, states that in his experience the notice is an empty formality to which the ryots pay no attention and adds that until the maximum penalty is levied it is usually well worth their while to go on taking the water irregularly if they cannot get it otherwise. The Collector of Anantapur reports that many ryots being illiterate do not profit by the system but it is gradually coming to be understood. On the whole, the Collectors are of opinion that the system is advantageous to the ryot as it serves to inform him in time of his liability to pay the enhanced charge and gives him facilities for making such representations as he may consider necessary, and they suggest its continuance till the average ryot thoroughly understands the necessity to put in his application in time.

51. *Tank-bed cultivation.*—During the year under report, permission was accorded by Collectors for the cultivation of tank-bed lands with dry food crops or cucumbers in the districts of Cuddapah, Anantapur, Trichinopoly, Madura and Tinnevelly. In Cuddapah, the conditions of the permission were transgressed and indigo crops instead of dry food crops were raised with the result that the occupation was heavily penalised. The cultivation was not, however, beneficial to the ryots as the crop was submerged. Unauthorized cases of cultivation of tank-bed lands in Cuddapah, Trichinopoly, Madura and Tinnevelly were all penalised. In North Arcot and Coimbatore also, there were cases of unauthorized occupation of tank-bed lands; in the former district, the occupation was dealt with by eviction and by the imposition of severe penalties. In cases of authorised occupations the highest dry rate of the village was charged. It is reported that the cultivation did not in any way affect the tank-beds.

52. *Examination of village and taluk accounts.*—The accounts were found to have been fairly well maintained and disclosed generally no serious errors. The defects noticed were generally pointed out and rectified at the time.

53. *The Taluk and Village statistical registers.*—Taluk statistical registers prescribed in the manual issued with B.P. No. 475, dated 15th October 1912, are maintained in the districts of Nilgiris, South Canara, Malabar and Anjengo as village statistical registers are inapplicable to them. Village statistical registers have to be

maintained in all the other districts except Madras, which is not a rural district The subjoined statement shows the progress made in the writing up and checking of these registers up to and during fasli 1325 (1915–16) :—

District.	Number of villages (Government and inam.)	Number of villages for which registers have been opened up to fasli 1324.	Number of villages for which		Number of villges for which registers remained to be written up for fasli 1325.

* Revised figure.

The work has been completed or practically completed for fasli 1325 in the districts of Vizagapatam, Guntūr, Cuddapah, Kurnool, Chittoor, South Arcot, Trichinopoly, Rāmnād, Tinnevelly, Coimbatore and Salem. While in the following districts it is still largely in arrears in spite of special attempts made by the Board during the fasli for its completion :—Ganjām, Gōdāvari, Kistna, Anantapur, Chingleput, North Arcot, Tanjore and Madura. Some Collectors seem to be under the impression that the entries in these registers relating to a particular fasli cannot be checked till after the completion of the jamabandi for the next fasli. This impression is erroneous. There is no reason why these registers cannot be fully written up at the time of the final jamabandi and checked by the taluk staff with a view to the result of the check being reported to the Collector simultaneously with the submission of the other jamabandi returns. Necessary instructions will be issued separately on this matter to Collectors.

54. *Minor irrigation.*—Statement No. 19 shows the number of irrigation works in charge of the Revenue Department, the number repaired and the amount spent on them during the official year ending 31st March 1916. It also shows the number proposed for repairs during the official year ending 31st March 1917. This statement was prescribed by Government in paragraph 2 of their Order No. 532, Revenue, dated 8th March 1916, and takes the place of the quinquennial statement of irrigation works, the publication of which in this report was abolished in G.O. No. 2577, Revenue, dated 5th September 1914.

55. *Pattas.*—Statement No. 20 shows the number of pattas of various values held in the several districts of the Presidency for fasli 1325 (1915–16). Excluding Madras where revenue derived consists mainly of quit-rent imposed on house-sites, the total number of pattas held during the fasli amounted to 4,222,543 or 409,722 more than in the quinquennium ending fasli 1320 (1910–11). The increase occurred in all the districts except Nellore and Malabar and was large in the following five districts: (1) Guntūr (39,052), (2) Chittoor (36,150), (3) North Arcot (74,368), (4) South Arcot (39,882) and (5) Madura (29,154). These districts together contributed an increase of 218,606 or 53 per cent of the total increase. In

Chittoor and North Arcot the increase was due to the introduction of resettlement; in Guntūr, South Arcot and Madura it was due to the revision of revenue registry made by the Special Revenue staff working in the districts. The decreases in Nellore and Malabar are too small to call for remarks. Of the total increase, 210,831 relate to single pattas and 198,891 to joint pattas. The bulk of the increase under single and joint pattas is confined to pattas paying Rs. 10 and less a year, which amount to 327,047 or about 80 per cent of the total increase. Of the total number of pattas held, more than two-thirds were assessed each at Rs. 10 and less; the gross assessment thereon being Rs. 1,02,56,846. The average rate for a patta works out to Rs. $3\frac{1}{2}$. The bulk of the lands covered by these petty holdings are dry (7,559,379 acres) and the average area of a patta paying Rs. 10 and less comes to about 2·6 acres.

56. *Conference with ryots.*—In almost all districts conferences with ryots were held by Collectors and Divisional officers during their tours or at the time of the jamabandi.

(True Extract)

T. RAGHAVIAH,
Secretary.

[Statements.

No. 1.—Statement showing the retail and wholesale prices of food-grains, in seers of 80 tolas per rupee compared with the commutation rates of the newly-settled districts, in each district of the Madras Presidency for fasli 1325 (1915–16).

(*Paragraph* 2 *of the report.*)

9-B.—Statement showing the extent of poramboke land transferred to "assessed" or "unassessed" waste in fasli 1325 (1915–16).

District.	Extent transferred			Class of unobjectionable poramboke land which cannot be transferred to "assessed" or "unassessed" waste and assigned on patta.	Remarks.
	To assessed waste.	To unassessed waste.	Total.		
(1)	(2)	(3)	(4)	(5)	(6)
	ACS.	ACS.	ACS.		
1. Ganjam ..	57	..	57	....	Divisional officers and Tahsildars are so much overworked nowadays that a rapid progress in this matter cannot be expected. Steps are being taken to transfer all unobjectionable porambokes to assessed waste wherever practicable. Up to fasli 1324, 141 acres were transferred to assessed waste.
2. Vizagapatam.	*	*	4,078	....	All poramboke lands were transferred to "assessed" or "unassessed" waste in 1912 and 1913, but the alterations were not given effect to in the adangals of some of the villages of Palkonda and Sarvasiddhi taluks in 1914. The remaining unobjectionable porambokes to be so transferred are small.
3. Godavari ..	..	..	..	....	The reclassification of porambokes is being attended to. Up to fasli 1324, 70 acres were converted into ayan and village-site and granted on patta.
4. Kistna ..	*	*	28,472	Attached and detached backyards.	The reclassification has already been completed in the district.
5. Guntur ..	384	9,617	10,001	....	The reclassification is still in progress. Steps are also being taken for the conversion of "assessed" or "unassessed" wastes, the occupation of which is ojectionable, to "poramboke."
6. Nellore ..	44	9,306	9,350	....	The reclassification is being pushed through in several taluks and unobjectionable cases are being transferred to ayan. This will probably be completed in fasli 1326.
7. Cuddapah ..	*	*	140	....	146,352 acres have already been removed from the category of porambokes. Further elimination is expected as steps are being taken to investigate the matter more closely. In Rayachoti and Rajampet, the reclassification was attended to by the Resettlement Party.
8. Anantapur ..	389	6,160	6,549	Tank-beds and railway B class lands.	The reclassification is in progress. Including fasli 1325, 1,874 acres were transferred to "assessed" and 214,659 acres to "unassessed."
9. Bellary ..	406	5,43	5,838	Hills, grazing ground, lands within half a mile from a railway station, rasthas, vankas, river-beds, land occupied by straw stacks, manure heaps and the like.	Up to fasli 1325, an extent of 27,293 acres was transferred to "assessed" and an extent of 118,201 acres to "unassessed" wastes.
10. Kurnool ..	244	431	675	Canal, railway B class lands, village-site occupied by straw ricks, dung heaps, lands in the vicinity of railway stations and jungles or unsurveyed area not required for State or communal purposes.	Steps are being taken to transfer an extent of 1,395 acres to "assessed" or "unassessed" waste. Up to fasli 1324, 4,259 acres and 69,742 acres were transferred to "assessed" and "unassessed" wastes respectively.
11. Chingleput ..	17	158	175	Village-site occupied by compound walls, schools and backyards, lands in the vicinity of railway stations.	Porambokes not required for communal purposes have, as far as possible, been transferred to "assessed" or "unassessed" waste in all the villages.
12. Chittoor ..	1,168	14,575	15,743	*Gayalu* (really unassessed and not poramboke), railway B class lands and lands in the vicinity of railway stations, tank-beds and river-beds.	Railway B class lands and lands in the vicinity of railway stations, tank-beds and river-beds have been left unaltered during resettlement. Instructions have been issued to the Divisional officers for the reclassification of these poramboke lands.

* Particulars of the areas relating to "assessed" and "unassessed" wastes have not been reported.

9-B.—Statement showing the extent of poramboke land, etc.—*cont.*

District.	Extent transferred.			Class of unobjectionable poramboke land which cannot be transferred to "assessed" or "unassessed" waste and assigned on patta.	Remarks.
	To assessed waste.	To unassessed waste.	Total.		
(1)	(2)	(3)	(4)	(5)	(6)
	ACS.	ACS.	ACS.		
13. North Arcot..	*	*	1,328	Reserved forests and other communal porambokes are merged in one survey number with lands whose occupation is unobjectionable and grazing ground.	The reclassification of the lands referred to in column5 has to be retained pending sub-division by the special staff working in the taluk. Tiruvannāmalai is the only taluk in which the final classification is in arrears ; it is being pushed through.
14. South Arcot ..	219	..	219	Lands required for the Toludur project.	The reclassification has been left to the Settlement Party working in the district.
15. Tanjore ..	429	650	1,079	Swamps required for drainage.	Necessary action is being taken in the Collector's office on the proposals regarding the classification of porambokes received from the Divisional officers.
16. Trichinopoly..	998	314	1,312	Stony ground ..	The reclassification work is slow as it involves sub-division. It is often neglected pending survey. Many of the porambokes in Perambalūr and Musiri are unnecessarily large. Nāmakkal and Trichinopoly are under resurvey operations; when the resurvey records are received in the Revenue Department, the reclassification work will be more speedily pushed through.
17. Madura ..	226	47	273	..	The reclassification has been carried out in all the taluks except Madura and Kodaikānal. In Madura, it has been reserved to the Settlement Party and in Kodaikānal it will be completed soon.
18. Ramnad ..	*	*	23	..	The subordinate officers have been directed to take effective steps to put an end to the occupation of porambokes proper and to transfer and assign on patta poramboke lands, the occupation of which is unobjectionable. Up to fasli 1324, 46 acres were transferred to "assessed" waste.
19. Tinnevelly ..	425	70	495	Backyard, lands within half a mile from railway stations, river-beds and lands for location of water works.	The reclassification has been completed in the taluks of Koilpatti and Sankaranayinarkoyil by the Settlement Department. Up to fasli 1324, 3,259 acres were transferred to "assessed", and 12,967 acres to "unassessed", waste in all the taluks except Srivaikuntam. The reclassification work is being pushed through.
20. Coimbatore ..	*	*	297	Grazing ground, sites occupied by liquor shops and similar other temporary occupations.	The reclassification was done partly by the Resettlement Party and partly by the Revenue Department. Necessary instructions are being issued to local officers in order that the area of poramboke occupation under the head "unauthorised" may be reduced to a minimum.
21. The Nilgiris..	148	14	162	..	Up to fasli 1324, 113 acres were transferred to "assessed" and assigned on patta. Subordinate officers have been directed to adopt prompt and effective mesures to reduce the area of occupation of objectionable porambokes.
22. Salem ..	1,168	14,575	15,743	..	The reclassification has been completed. The poramboke area can be further reduced, but as each case has to be considered on its merits, the process is slow.
23. South Canara..	1,106	2,293	3,399	Channels, roads, tanks and river-beds.	The transfer of poramboke lands to "assessed" or "unassessed" waste has been fully carried out.
24. Malabar ..	..	..	..	River-beds or reclamation of backwaters.	Practically all land which is now classed as poramboke is properly so classed. The orders empowering Tahsildars to penalise unauthorised occupation of poramboke lands should expedite the disposal of encroachment cases.
25. Anjengo ..	..	..	..	..	The poramboke lands of this district are all required for communal purposes only and no transfers were effected to the head of "assessed" or "unassessed" waste.

* Particulars of the areas relating to "assessed" and "unassessed" wastes have not been reported.

(*a*) The increase of Rs. 140 over the balance at the end of the last fasli represents the two-thirds assessment on the resumed shrotri inams in Baruva estate for 12 back faslis up to fasli 1324 added to the peshkash of the estate.

(*b*) The increase of Re. 1 over the balance at the end of the last fasli is due to correct rounding.

(*c*) The increase of Rs. 9,456 over the balance at the end of the last fasli represents the cess due on certain estates on account of the revision made in fasli 1325 but ordered to be collected with effect from fasli 1324.

(*d*) Out of the increase of Rs. 30 over the balance at the end of the last fasli, Rs. 29 represent the arrears of cess payable on certain sub-divided estates for faslis 1322 and 1323 and the balance is due from the Vizianagram estate in respect of a subsequent inam for the back ten faslis.

(*e*) The decrease of Rs. 30 from the balance at the end of the last fasli is due to the rectification of an error.

(*a*) The increase of Rs. 511 over the balance at the end of the last fasli is due to the inclusion of the amount omitted in the demand of that fasli.

(*b*) Out of the increase of Rs. 27 over the balance at the end of the last fasli, Rs. 17 represent the enhanced land-cess on Singidi agraharam revised in fasli 1325 with effect from fasli 1324 and the balance is the enhanced land-cess due on Chinnayyavalsa in Chicacole taluk.

(*c*) The decrease of Re. 1 is due to correct rounding.

* Includes railway cesses.

(a) The increase of Rs. 1,078 over the amount shown in column 12 of the corresponding statement of the previous fasli is made up of the following items (1) arrear assessment and quit-rent on certain resumed and enfranchised karnam Jivikas in Parlakimedi taluk brought to demand in the fasli, (2) sale-proceeds of Rushikulya waste lands in Chatrapur taluk collected in fasli 1324 but brought to account in fasli 1325, (3) arrears of land revenue in Kudala taluk and (4) penalty levied in fasli 1324 on certain land encroachments by the Zamindar of Jarla and brought to account in fasli 1325.

(b) Out of an increase of Rs. 46 over the amount shown in column 12 of the corresponding statement of fasli 1324, Rs. 34 represent the amount of assignment of revenue overpaid to the carpenter of Voni in the Palakonda taluk and recovered in fasli 1325 and the balance represents the arrears of revenue brought to demand in the fasli.

(c) The difference of Rs. 4 in the amount shown in column 59 of statement No. 4 is due to rounding.

(d) The increase of Rs. 100 over the amount shown in column 12 of the statement for the previous fasli is due to the rectification of an error.

(e) The difference of Re. 1 is due to rounding of figures.

(f) The increase of Rs. 342 over the amount shown in column 59 of the statement No. 4 relates to Anantapur, Dharmavaram and Hindupur taluks and the Collector has called upon the Tahsildars to explain the variations.

(g) The difference between the figure entered in column 2 of this statement and that shown in column 59 of the statemant No. 4 is due to the exclusion of Rs. 14,814 representing receipts from the proprietary estates village service.

(h) The difference between the figure entered in column 2 of this statement and that shown in column 59 of the statement No. 4 is due to the exclusion of Rs. 24,330 representing the Huzur collections on account of miscellaneous revenue.

(i) The increase of Rs. 659 over the amount shown in column 12 of the statement for the previous fasli is due to the rectification of an error.

(j) The difference between the figure entered in column 2 of this statement and that entered in column 12 of the statement for the previous fasli is due to the exclusion of Rs. 5 which was credited to forests.

(k) The difference of Re. 1 (rounded) in the amount shown in column 59 of statement No. 4 represents an overpayment in Tangasseri taluk.

No. 10.—Statement showing the demand, collection and balance of land revenue and cesses, etc.—*cont.*

(*a*) The increase of Rs. 181 is due to the inclusion of the amount omitted in the demand of the previous fasli.

(*b*) The decrease is due to the exclusion of Re. 1 wrongly included in the demand of the previous fasli.

No. 12.—Statement showing the details of coercive processes employed in the realization of the arrears of land revenue in the several districts during fasli 1325 (1915-16).

* The figures in column 5 represent the allotments made up to date for "original works" and "repairs" costing not more than Rs. 2,500 and over Rs. 2,500 each for the year 1916-17.

(a) Smallness of the amount shown in column 7 is due to the fact that the Collector confined allotment to works of a remunerative character only. Collectors have since been instructed to sanction necessary works up to the full allotment for their districts.

(b) Short allotment in column 7 is due (1) to a Tank Restoration scheme party being at work in certain taluks and (2) to the incomplete and incorrect preparation of estimates in many cases.

(c) Necessary steps have been taken by the Collector to utilize the whole allotment before the close of March 1917, a major portion of the allotment of Rs. 12,950 for works costing over Rs. 2,500 each being required for masonry and silt clearance repairs to Tungabhadra channels for which estimates have since been received by the Collector.

(d) A sum of Rs. 20,130 has since been allotted by the Collector.

(e) Amount in column 7 excludes an allotment of Rs. 8,804 sanctioned on account of Kudimaramat repairs to irrigation works in charge of the Public Works Department, in the Pollachi and Coimbatore taluks.

(f) Amount in column 5 includes a sum of Rs. 5,000 sanctioned for flood damages.

QUINQUENNIAL.

NOTE.—(1) The area and the assessment thereon given in this statement differ from those given in columns 27, 29 and 32 of statement No. 3 against Chingleput, Chittoor, North Arcot, Tinnevelly and Malabar. In Chingleput, the variation is due to the exclusion from this statement of these particulars for rented villages; in Chittoor, it is due to the exclusion from this statement of the particulars relating to the Punganur division; in North Arcot, it is due to the exclusion from this statement of these particulars for Arni and Kuppam divisions; in Malabar, it is due to the exclusion from this statement of these particulars for lease-hold lands in Cochin. The Collector of Tinnevelly has not explained the variation.

(2) The number of ryotwari pattas given in this statement differs from that given in Collector's statement No. 1 against Tinnevelly and Malabar. In Malabar, the variation is due to the cause mentioned in note (1). The Collector of Tinnevelly has not explained the variation.

(3) Columns 83, 84, 87 and 88 against the Nilgiris include 39, 163, 2 and 4, respectively, relating to free-hold lands for which details of classification of holdings are not available.

PROCEEDINGS OF THE BOARD OF REVENUE

(REVENUE SETTLEMENT, SURVEY LAND RECORDS AND AGRICULTURE),

Resolution—No. 292, *dated* 22*nd December* 1917.

The Board begs to submit its report on the settlement of land revenue in the Presidency for fasli 1326 (1916–17), together with the prescribed statements.

As usual there was considerable delay in the receipt of the reports and returns from some districts. None of the reports was received in the Board's Office on the due date, viz., the 1st of October. The report from the Collector of Kurnool and a portion of the report from the Collector of Madura were received so late as 28th of November and 3rd of December, respectively, after repeated reminders. The Collectors of these districts explain that the delay on their part was due to the late receipt of reports from the Divisional officers. The explanation is not satisfactory. Collectors are requested to see that their subordinate officers furnish their reports correctly and in time.

2. *Season rainfall and prices.*—The south-west monsoon commenced earlier than usual about the beginning of June with good showers in the Circars, Deccan, the central group of districts, West coasts and the Hills. The rainfall in July and August was generally above the average throughout the Presidency. The heavy rainfall during the monsoon in Kistna resulted in floods in some of the rivers of the district and necessitated the grant of remissions on a large scale in four taluks. The season was, on the whole, favourable to agricultural operations except in Cuddapah for dry crops and in Tinnevelly for wet crops. The rainfall in the north-east monsoon was above the average in all the districts except Nellore, Trichinopoly, the South and the Hills. The heavy rains in November followed by a cyclone in the tracts bordering on the trijunction of Chingleput, South Arcot and North Arcot districts and the abnormal fall in Salem breached several irrigation sources and caused considerable damage to crops especially in South Arcot. On the whole, the season was favourable and led to an increase in cultivation in many of the districts. The dry weather rains were above the average in the majority of districts, but the hot weather rains were a comparative failure.

The average annual retail prices of the staple food grains were higher than those of the preceding year and everywhere dearer than the normal rates. The prices of rice in Ganjām, Nellore, Madras, South Arcot, Trichinopoly, Tanjore, Madura, Rāmnād, Tinnevelly and South Kanara, of ragi in Cuddapah and Nellore, of cholam in Kurnool, Cuddapah, Nellore, Coimbatore and Tinnevelly and of cumbu in Guntūr, Cuddapah, Nellore, South Arcot, Salem and Trichinopoly were dearer than the warning rates fixed by Government in their Order No. 1977, Revenue, dated 3rd July 1912.

3. *Cropped area.*—The total cropped area of the year under report was 39,052,000 acres against a normal area of 38,166,000 acres, showing an increase of 886,000 acres. As compared with the normal, paddy, groundnut and indigo showed large increases, while cholam, ragi and cotton showed large decreases. The decrease under cholam and ragi was chiefly due to the preference given by the ryots for the cultivation of groundnut and indigo as these two crops were selling at high prices. There was an increased demand for indigo as the result of war. As compared with the previous year, the cultivation of paddy, ground-nut, indigo and cotton showed large increases, while that under cholam, cumbu and ragi showed large decreases. The increase under paddy is on the whole attributed to the generally favourable character of the season. The increase in cotton is attributed to some extent to the increased demand for the Madras longstapled cotton owing to the difficulty of obtaining American longstaples for use in mills in Bombay and other cotton spinning centres.

The outturn was above normal in 163 cases and was normal in 17. It ranged from 75 to 99 per cent of the normal in 150 cases and from 50 to 74 per cent in 12 cases. In only one case, was it below 50 per cent.

4. *Condition of cattle.*—The total number of deaths from diseases among horned cattle showed an increase of 11,116 as compared with the previous year, the total for the year being 68,588. The increase occurred under every head except under

" other contagious diseases." The mortality under " rinderpest " alone was 26,215 against 22,268 in the previous year. The mobile corps was working in Gōdāvari, Guntūr and Kistna owing to the presence of rinderpest in these districts and additional veterinary assistants were also at work in Bellary, South Kanara, Cuddapah, Nellore, Kistna, Guntūr, Chingleput and Salem.

5. *Number of villages.*—In the year under report, there was a net increase of three villages as a result of increases in Nellore (3), Tanjore (1) and Rāmnād (1) and of decreases in Kistna (1) and Guntūr (1). The increase in Nellore is reported to be due to the splitting up of one village in the Kandukur taluk into three and of another in the Gudur taluk into two ; that in Tanjore is attributed to the subdivision of one village in the Shiyali taluk into two karnams' charges with separate establishments and that in Rāmnād is reported to be due to the inclusion in the Sattur taluk of a resumed inam village. The decrease in Kistna is ascribed to the exclusion from the Bandar taluk of an agraharam village the resumption of which was set aside by the temporary Subordinate Judge, Masulipatam, and that in Guntūr, to the incorrect inclusion last year of an agraharam village in the Palnad taluk in the list of ryotwari villages.

6. The land revenue of the Presidency is derived from the undermentioned sources :—

(*a*) Peshkash or revenue from permanently-settled estates ;
(*b*) Shrotriem jodi or quit-rent levied on inam villages ;
(*c*) Assessment, including water-rate, on lands held under the ryotwari system ;
(*d*) Miscellaneous revenue ; and
(*e*) Proprietary estates' village service.

7. *Peshkash or revenue from permanently-settled estates.*—The total amount of peshkash payable during the fasli was Rs. 49,88,219 against Rs. 49,86,531 in the preceding year. The increase of Rs. 1,688 is the net result of

	Rs.
(*a*) the inclusion of the assessment of a resumed inam in the peshkash of the estate concerned.	2
(*b*) the enhancement of peshkash of certain estates in the Coimbatore district under section 27 (2) of Act II of 1894. (Vide G.O. No. 2985, Revenue, dated 22nd December 1916.)	2,015
(*c*) the reassignment of certain lands in the Chingleput district which had been originally acquired for a public purpose.	40
(*d*) the acquisition of lands for public purposes	— 369
	+ 1,688

8. The quit-rent payable to Government on villages held on shrotriem or favourable tenure was Rs. 7,56,840, or Rs. 546 more than in the previous fasli. The following are the reasons for the change :—

	Rs.
(*a*) The raising of the quit-rent of a whole inam village in the Kistna district.	10
(*b*) The inclusion in the current year's demand of last year's arrears.	498
(*c*) The inclusion of the assessment of certain relinquished talaiyari service inams in the quit-rent of the whole inam village concerned.	14
(*d*) The annulment by the High Court of the resumption of a whole inam village in the Kistna district.	141
(*e*) Reasons not given	428
	+ 1,091
(*a*) Lands taken up for public purposes	— 27
(*b*) The transfer of two villages in the Nellore district from the category of whole inam to minor inam.	— 62
(*c*) Rectification of errors	— 456
Total ...	— 545
	+ 1,091
Net increase	+ 546

9. *Holdings.*—The total extent of ryotwari holdings during the year was 25·79 million acres and exceeded that of the previous year by 112,570 acres. The increase was contributed by all the districts except Gōdāvari which showed a decrease of 417 acres. It was marked in Anantapur, South Kanara and Malabar; in the first two districts it was due to the extensive assignment of waste lands on darkhast and in the third to the transfer of "unoccupied dry" lands to "occupied dry".

10. *Assessment.*—The total assessment on holdings was Rs. 519·50 lakhs against Rs. 518·17 lakhs in the previous year showing an increase of Rs. 1,33,487. This increase was contributed by all the districts except Gōdāvari and Anjengo. It was marked in the districts of Madura, South Kanara and Malabar which together contributed Rs. 67,362 or about 50 per cent of the total. The increase in South Kanara and Malabar is attributed to the expansion of cultivation, while that in Madura was due mostly to the introduction of the resettlement rates of assessment in the Periyakulam taluk. The decreases are too small to call for any remarks.

11. *Cultivation.*—The total area cropped on ryotwari holdings during the year was 20·478 million acres against 20·540 million acres in the previous year showing a decrease of 62,639 acres. This figure is the net result of a decrease of 91,346 acres under dry and an increase of 28,707 acres under wet. Under dry, the decreases were large in Guntūr, Cuddapah and Kurnool; in Guntūr it was chiefly due to the increase in the lands kept fallow in several taluks on account of heavy rains and, in some taluks, on account of the prevalence of cattle diseases; in Cuddapah it is put down to the failure of the south-west monsoon and in Kurnool it was due to excess of rain. North Arcot, however, showed the largest increase (27,128 acres) owing to the favourable character of the season. Under wet, Anantapur, Chingleput and South Arcot showed large increases, while Tinnevelly showed a large decrease. Under dry waste charged showed an increase of 197,202 acres, the largest increases being in Guntūr, Cuddapah, Anantapur, Bellary, Kurnool and Coimbatore. The North Arcot district showed the largest decrease. Wet waste charged showed a decrease of 21,280 acres, the districts of Chingleput, North Arcot, South Arcot and Tanjore together contributing 17,149 acres. Wet waste remitted fell by 678 acres. Anantapur (7,252 acres) and South Arcot (5,766 acres) showed a heavy fall, while Tinnevelly (6,165 acres) showed a heavy rise. The increase in Tinnevelly was due to the unfavourable character of the season. Including the area under "Miscellaneous cultivation," the total area cropped amounted to 21·74 million acres against 21·81 million acres in the previous year.

12. *Water-rate and second-crop charge.*—The revenue from these sources amounted to Rs. 38·03 lakhs against Rs. 34·78 lakhs or nearly Rs. 3,25,000 more than in the preceding year. The increase was made up of Rs. 1,74,000 under "water-rate on dry lands" and of Rs. 1,51,000 under "second-crop charge". There were large increases in Cuddapah, Anantapur, North Arcot, South Arcot, Tanjore and Trichinopoly which were generally due to the favourable character of the season. There were considerable decreases in Rāmnād and Tinnevelly due to the unfavourable character of the season in those districts.

13. *Remissions.*—As compared with the previous year there was a net increase in remissions amounting to Rs. 95,510. Season remissions showed an increase, while fixed remissions and beriz deductions showed decreases.

(i) *Season remissions.*—The remission under this head showed a net increase of Rs. 1,18,069. The increase occurred under all the sub-heads except "tirvakammi remission" and "other remissions."

(*a*) *Waste remitted.*—The remission under this head amounted to Rs. 1·80 lakhs or Rs. 0·04 lakh more than that remitted in the previous year. The net increase was the result of large increases in Madura, Rāmnād and Tinnevelly owing to the unfavourable character of the season and of large decreases in Anantapur and South Arcot due to favourable monsoons and sufficient and timely supply in the irrigation sources. A sum of Rs. 42 was remitted on 35 acres of dry land in Salem under G.O. Mis. No. 2939, Revenue, dated 19th September 1917.

(*b*) *Shavi or short crop.*—The total amount remitted under this head was Rs. 1,36,888 against Rs. 85,279 in the previous year showing a net increase of

Rs. 51,609; the increase was marked in the districts of Madura (Rs. 27,584) and Tinnevelly (Rs. 25,997), while in South Arcot (Rs. 30,114) there was a noticeable decrease. In Madura and Tinnevelly the increase was due to the unfavourable character of the season. In South Arcot, the decrease was due to the favourable monsoons. Of the total remissions under this head Rs. 1,36,871 related to wet lands and Rs. 17 to dry lands. A remission of Rs. 1,594 was granted under "short crop" during the year under report.

(*c*) *Tirvakammi remission*—(i.e. the remission of the difference between wet and dry assessment on wet land cultivated with dry crops owing to the insufficiency or failure of the water-supply) amounted to Rs. 1,59,405 against Rs. 1,87,469 showing a net decrease of Rs. 28,064. The decrease was noticeable in Anantapur (Rs. 36.953) and Salem (Rs. 19,003) and was due generally to the favourable character of the season in these districts. In Ramnad (Rs. 28,350) and Tinnevelly (Rs. 37.932) there were noticeable increases owing to the failure of the monsoons.

(*d*) *Injury by floods.*—The amount remitted under this head was Rs. 1,52,774 against Rs. 69,190 in the previous year, showing a net increase of Rs. 83,584. Kistna alone showed an increase of Rs. 98,038 due to crops on larger extents having been damaged by the floods of the Kolleru, Budameru, etc.

(ii) *Fixed remissions*—(i.e., abatement of the demand granted for reasons unconnected with the season) amounted to Rs. 1·21 lakhs against Rs. 1·30 lakhs in the previous year, showing a net decrease of Rs. 9,259. This decrease occurred mainly under increment remissions (remissions allowed on the introduction of settlements or resettlements in cases where the increase over the old assessment was in excess of 25 per cent) in the districts of North Arcot and Malabar owing to reductions in such remissions through lapse of time. The other variations call for no remarks.

(iii) *Beriz deductions*—(deductions made from village collections in favour of inamdars and religious institutions) amounted to Rs. 8·97 lakhs against Rs 9·10 lakhs in the previous year, showing a net decrease of Rs. 13,300. The decrease occurred mainly under the payment for religious institutions in lieu of cash payment. Tinnevelly alone contributed a decrease of Rs. 12,768 owing to the decrease in the payment of tasdik allowance.

14. *Miscellaneous revenue.*—The revenue under this head amounted to Rs. 100·25 lakhs against Rs. 94·61 lakhs in the previous year showing a net increase of Rs. 5·64 lakhs. Madras showed the largest increase, Rs. 2,46,033 and Madura the largest decrease, Rs. 40,542. The increase in Madras was mainly due to the sale of Badsha Sahib's buildings and the decrease in Madura to the fact that no unoccupied lands were sold in Mēlūr taluk during the year under report.

Item 2.—'Water-rate on minor inams in ryotwari villages', *item* 3—'charge for water in zamindari and inam villages including tirvajasti and fasaljasti', *item* 7—'revenue derived from tree pattas', item 10—'sale-proceeds of lands sold', *item* 11—'rent of lankas' and *item* 13—'other items' showed the largest increases, Rs. 52,450, Rs. 36,353, Rs. 78,270, Rs. 3,36,688, Rs. 48,573 and Rs. 55,263 respectively, while *item* 6—'charges levied for occupation of poramboke land or land reserved for state or communal purposes' showed the largest decrease, Rs. 67,797. These items are dealt with below. The increases or decreases in the remaining items were small and call for no remarks.

Item 2.—Water-rate on minor inams in ryotwari villages amounted to Rs. 15·68 lakhs against Rs. 15·16 lakhs in the previous fasli, showing a net increase of Rs. 0·52 lakh. Cuddapah (Rs. 21,961) and Anantapur (Rs. 16,015) showed the largest increase; in both the districts it is reported to be due to the irrigation sources having received good supplies.

Item 3.—The revenue under the head 'charge for water in zamindari and inam villages including tirvajasti and fasaljasti' amounted to Rs. 22·26 lakhs against Rs. 21·90 lakhs in the previous year or an increase of Rs. 0·36 lakh. Gōdāvari (Rs. 22,217) showed the largest increase.

Item 6—*Poramboke occupation.*—The revenue under this head amounted to Rs. 5·56 lakhs against Rs. 6·24 lakhs in the previous year, or a decrease of Rs. 0·68 lakh, Gōdāvari itself contributing a decrease of Rs. 0·87 lakh. The total area occupied was 139,536 acres against 117,886 acres in the previous year, showing a net increase of 21,650 acres. The increase was marked in the district of South Arcot (19,613 acres); and this is reported to be due to the hope entertained by the ryots that they would be able to take advantage of the special staff operations to get unauthorised occupation recognized and brought under patta.

Enhanced charges amounting to Rs. 3,71,631 were levied on 38,691 acres against Rs. 4,47,472 on 40,390 acres in the previous year yielding an incidence of Rs. 10 per acre against Rs. 11 in the preceding year. Tanjore, Madura and South Kanara showed the highest average rates of charge, namely, Rs. 44,123 and Rs. 65 per acre respectively. The high incidence in the Tanjore district was due to heavy penalties imposed on encroachments on real porambokes with reference to the instructions conveyed in B.P. No. 166, Land Revenue, dated 25th April 1914; that in Madura, to the imposition of maximum penalties generally in cases of persistent objectionable occupation in order to compel the occupants to vacate them; and that in South Kanara to the imposition of high rates in a large number of cases of objectionable encroachments of very small extents for the same purpose. The Collectors of Ganjām, Nellore, Cuddapah, Bellary, Kurnool, Chingleput, Chittoor, North Arcot, Trichinopoly, Tinnevelly, Coimbatore, Salem and South Kanara state that they had recourse to section 6 of the Madras Act III of 1905. The Collector of Vizagapatam states that he found no necessity to have recourse to the section. As the reclassification of real porambokes has been almost completed in the districts of Kistna, the Nilgiris, Malabar and Anjengo, the Collectors of these districts have had no occasion to have recourse to the section. The Collectors of the remaining districts do not say what use they had made of the Act. All Collectors are requested to refer to the point in future reports.

The reclassification of porambokes ordered in G.O. No. 813, Revenue, dated 16th March 1910, communicated with B.P. No. 157, dated 2nd April 1910, was completed or nearly completed in all the districts except Ganjām, Vizagapatam, Gōdāvari, Bellary, Chittoor, Tanjore, Trichinopoly, Madura and Coimbatore, where it is reported to be in progress. The Collectors of these districts report that special instructions have been issued to the Divisional Officers and Tahsildars to push on the work and to complete it as soon as possible. The Board hopes that substantial progress will be made in the work during the current year in these districts.

Item 7.—The revenue derived from tree pattas amounted to Rs. 3·30 lakhs against 2·52 lakhs in the previous year or an increase of Re. 0·78 lakh. North Arcot (Rs. 45,114) and South Arcot (Rs. 36,870) together contributed an increase of Rs. 81,984, where a considerable amount was realized by the sale of a large number of trees which were blown down during the cyclone of November 1916.

Item 10.—The revenue derived from the sale-proceeds of lands sold amounted to Rs. 5·60 lakhs against Rs 2·23 lakhs in the previous year or an increase of Rs. 3·37 lakhs. Kistna (Rs. 1,08,556) and Madras (Rs. 2,43,527) together contributed an increase of Rs. 3,52,083. The increase in Kistna is reported to be due to the sale of tank-bed and assessed waste lands under the Divi pumping system in the Divi taluk; that, in Madras, was mainly due to the realization of a sum of Rs. 2,27,000 from the sale of Badsha Sahib's buildings.

Item 11.—The revenue derived from the rent of lankas amounted to Rs. 3·35 lakhs against Rs. 2·87 lakhs or an increase of Rs. 0·48 lakh as compared with the previous year. Gōdāvari showed the largest increase of Rs. 37,631.

Item 13.—The revenue under 'other items' amounted to Rs. 6·76 lakhs against Rs. 6·21 lakhs or Rs. 0·55 lakh more than in the previous year. Gōdāvari again showed the largest increase (Rs. 45,264) and Madura, the largest decrease (Rs. 17,302). The increase in Gōdāvari was due to the abatement of the capitalized value of land revenue on lands made over to railways for low-level sidings; and the decrease in Madura was due to the absence of revenue under the Trust Interest Fund (central and trust charges on land acquisition cases) during the year under report.

15. The net ryotwari demand excluding remissions but including water-rate, second-crop charge and miscellaneous revenue amounted to Rs. 641·18 lakhs against Rs. 631·91 lakhs in the previous year. The details for the increase of Rs. 9·27 lakhs are given below :—

	Lakhs of rupees.
(1) Increase in the assessment of holdings	1·33
(2) Increase under water-rate and second-crop charge	3·25
(3) Increase under remissions	0·95
(4) Increase under miscellaneous revenue	5·64
Total ...	9·27

16. *Total land revenue demand (current).*—The demands under the several heads are compared below with the figures for the previous year :—

	Fasli 1325	Fasli 1326
	Rs.	Rs.
Peshkash on permanently-settled estates ...	49,86,531	49,88,219
Shrotriem jodi	7,56,294	7,56,840
Ryotwar and miscellaneous	6,31,52,536	6,41,01,261
	6,88,95,361	6,98,46,320

There is an increase under all the heads and it has been explained in the preceding paragraphs.

17. *Total demand under cesses (current).*—The current demand under cesses is as follows :—

	Fasli 1325.	Fasli 1326.
	Rs.	Rs.
(1) Cess on permanently-settled estates ...	15,12,389	15,75,374
(2) „ on whole inam villages	3,97,323	4,21,547
(3) „ on ryotwar and miscellaneous ...	52,51,182	53,18,635
Total ...	71,60,894	73,15,556

There is a net increase under all the items. The increase under items (1) and (2) is marked in Vizagapatam and is due to the introduction of a railway-cess during the fasli under report, to the triennial revision of land cess on permanently-settled estates and to the revision of assessments consequent on the survey and classification of the whole inam villages. The increase under item (3) mainly follows the increase in the revenue.

18. *Demand and collection of land revenue and cesses (current).*—The current demand under land revenue and cesses was Rs. 7,78,00,374 ; Rs. 7,66,29,771 or 98·5 per cent, were collected within the fasli and a sum of Rs. 1,814 was written off the accounts.

19. *Demand and collection of arrears.*—The total arrear demand under all the heads was Rs. 9,08,673 ; Rs. 8,65,326 or 95·2 per cent, were collected within the fasli, and Rs. 6,808 or 0·7 per cent, were written off the accounts.

20. *Total balance of land revenue and cesses.*—The balance outstanding at the end of the fasli, including both arrears and current, was Rs. 12,05,328. As finally reported in the monthly demand, collection and balance statements for October 1917, the balance on 1st July was Rs. 12,05,838. Up to the end of October 1917 Rs. 9,46,478 or 78·5 per cent had been collected, Rs. 3,905 written off the accounts and Rs. 791 held to be irrecoverable. The net recoverable balance on 1st November 1917 was Rs. 2,54,664. Steps have been taken to collect this amount.

21. *Reconciliation of differences between the collection of land revenue and cesses as shown in the jamabandi and the Accountant-General's statements and overpayments.*—Information on these points has not yet been received from the Collectors. The subject will be dealt with in a separate report.

22. *Distribution of collections between land revenue and cesses.*—Land revenue and cesses are not collected separately and no attempt is made to exhibit the collections separately under these heads in the village accounts. The total collections are distributed between land revenue and the several cesses in the Collector's office. In this process there are two stages. First, a provisional distribution is effected by

crediting to each head month by month so much of the total collections as will bear the same proportion to the demand under the head as the total collections bear to the total demand under all the heads. The second stage is the final adjustment, which consists in correcting the provisional credit by transfer from one head to another where necessary after the demand for the year under all the heads has been collected or written off.

The statements of distribution for fasli 1326 received from Collectors show that, except in the districts of Kistna, Nellore, Cuddapah, Anantapur, Bellary, Chingleput, South Arcot, Tanjore, Madura, Ramnad and Tinnevelly, the variations between the amounts due to the cesses in fasli 1326 and the amounts actually credited were inconsiderable. The accounts of fasli 1325 remained unadjusted in three districts.

23. *Charges debitable to land revenue.*—The charges of district administration, including salaries and allowances of revenue inspectors but excluding those of village establishments, were Rs. 52,66,856 or 6·8 per cent of the land revenue and cesses realized. The ratio was the same in the preceding fasli. The village service charges (including proprietary estates) during the fasli were Rs. 55,75,039. Including this sum the total charges were Rs. 1,08,41,895 or about 14 per cent of the collections of land revenue and cesses.

24. *Processes under Act II of* 1864.—Statement No. 12 shows the particulars of the coercive processes issued for the realization of Government dues under Act II of 1864. The following abstract compares the number of processes of each kind issued during the year with the figures for the three preceding faslis:—

Coercive processes.	Faslis.			
	1323.	1324.	1325.	1326.
Demand notices	1,024,281	1,331,535	1,160,474	1,012,789
Distraint and attachment notices	87,461	109,712	79,446	61,216
Sale notices	48,102	69,770	51,313	46,877
Sales (number of defaulters)	1,724	2,042	2,168	2,601
Total ..	1,161,568	1,513,159	1,293,401	1,123,483

There is a decrease in the total number of processes issued in the year under report as compared with the preceding fasli.

25. *Demand notices.*—The rule that these notices should only be issued when absolutely necessary has been kept in view. There was a decrease in eighteen districts and an increase in seven districts. The increase is marked in Kurnool and Madura. The Collector of Kurnool reports that the increase in his district was due to the poorness of the harvest, which was the result of very heavy rainfall. The increase in Madura is said to reflect exceptional promptness on the part of the taluk officers in the collection of revenue.

Districts.	Fasli		Increase.
	1325.	1326.	
Kurnool	789	1,417	628
Madura	39,623	42,436	2,813

26. *Distraint or attachment.*—The number of processes under this head was 61,216 in the year under report, against 79,446 in fasli 1325 and 109,712 in fasli 1324. There was a decrease in seventeen districts.

27. There was a decrease in the percentage borne by the number of distraints and attachments to that of demand notices as compared with the previous fasli. The number of defaulters whose immovable property was attached in the year was 11,520, against 14,871 in fasli 1325. In the Madura district, a large disproportion is noticeable, as in previous years, between the number of defaulters whose personal property was distrained (599) and the number of those whose real property was attached (3,888); it is due, as in former years, to the fact that many of the owners of lands irrigated by the Periyar are absentee pattadars.

Percentage of the attachment to the total number of demand notices.

Fasli.	Personal.	Real.	Total.
1324	6·86	1·38	8·24
1325	5·56	1·28	6·84
1326	4·90	1 14	6·04

28. *Sale notices.*—Out of 61,216 defaulters whose property was attached, 14,339, or 23·42 per cent, paid the arrears before the sale notices were issued. The percentage was 35·41 in fasli 1325, 36·41 in fasli 1324 and 45·00 in fasli 1323.

29. *Sales.*—The number of defaulters whose property was sold was greater than in fasli 1325. The percentage of actual sales to sale notices was 5·55, against 4·22 in fasli 1325, and the percentage of defaulters whose property was actually sold to the total number of pattas was ·06, against ·05 in the preceding fasli. The subjoined statement compares the particulars of sales in fasli 1326 with the figures for the three preceding faslis :—

—	Personal property.				Real property.				Total.			
	Fasli 1323.	Fasli 1324.	Fasli 1325.	Fasli 1326.	Fasli 1323.	Fasli 1324.	Fasli 1325.	Fasli 1326.	Fasli 1323.	Fasli 1324.	Fasli 1325.	Fasli 1326.
Percentage of sales of property to—												
(1) The number of pattas ..	·01	·01	·01	·02	·03	·04	·04	·04	·04	·05	·05	·06
(2) The number of attachments.	·53	·57	·78	1·59	9·01	8·31	11·16	15·70	1·97	1·86	2·73	4·24
(3) The number of sale notices.	Figures relating to sale notices do not distinguish between personal and real property.								3·58	2·92	4·22	5·55
Arrears at the beginning of the fasli under report under ryotwar and miscellaneous.	In lakhs of rupees.								6·92	7·24	7·76	6·95
Arrear balance at the end of the fasli.									·90	·68	·17	·33
Percentage of current collections to current demand.									98·85	98·90	99·01	98·81

Value of lands sold.—Immovable property of the estimated value of Rs. 1,64,584 was sold for the recovery of arrears amounting to Rs. 25,015 and realised Rs. 57,737. The price fetched by lands sold to private individuals amounted on the average to seven times the assessment in the case of dry lands and eight times the assessment in the case of wet lands. In fasli 1325, immovable property of the estimated value of Rs. 1,20,235 was sold for the recovery of arrears amounting to Rs. 24,336 and the average price fetched by lands sold to private individuals was six times the assessment in the case of dry lands and seven times the assessment in the case of wet lands.

Extent of lands sold.—The extent of lands sold during the year was 5,399 acres under 'dry' and 1,188 acres under 'wet,' against 7,290 acres under 'dry' and 1,337 acres under 'wet' in fasli 1325. The corresponding figures for fasli 1324 were 8,406 acres under 'dry' and 1,608 acres under 'wet.'

Lands bought in by Government.—The total area of lands bought in by Government for want of bidders was 2,071 acres of dry and 244 acres of wet, against 3,025 acres of dry and 361 acres of wet in fasli 1325. More than half the total area bought in was in Kistna, Anantapur, Bellary, Kurnool and Madura.

30. *Process-service establishment.*—Statement No. 13 gives the particulars of processes served by the ordinary village agency or by special establishments and the fees realized during the year. The total number of processes served was 1,071,186 or 155,472 less than in fasli 1325. The number of processes served by special agency (44,987) was also less than in the previous fasli (51,971).

Special establishments were employed in the same districts as in fasli 1325. Their cost was covered by the fees realized, except in Kistna and Tinnevelly, where there were small deficits.

31. *Costs in civil suits.*—Rupees 45,410 were awarded to Government as costs during the year. Including Rs. 9,733, the revised opening balance, the total demand was Rs. 55,143, of which Rs. 18,918 were collected, Rs. 2,979 were written off the accounts and Rs. 637 were reported to be irrecoverable. The net recoverable balance at the end of the year was Rs. 32,609, made up as follows :—

	Rs.
(i) Amount collected after the close of the fasli	5,397
(ii) Amount remaining uncollected pending decision of appeals by civil courts	415
(iii) Amount involved in execution proceedings	13,936
(iv) Amount uncollected ; either collection is in progress or failure to collect has not been explained	12,861

32. *Interest on arrears of land revenue (statement No.* 14).—The total demand on account of interest on arrears of land revenue, including the balance at the beginning of the fasli, was Rs. 15,662, of which Rs. 10,307 were collected and Rs. 70 remitted, leaving a balance of Rs. 5,285, against Rs. 4,150 (revised figure) at the end of the previous fasli. The largest arrears are in Chingleput (Rs. 1,285) and Chittoor (Rs. 1,171).

33. *Sale of land under Standing Orders Nos.* 15, 16, 20, 21, 45, 90, 91 *and* 197.—Under the rules for the sale of occupancy rights in assessed waste lands (Standing Order No. 15), 2,069 acres, assessed at Rs. 3,678, were sold for Rs. 2,26,527; 2,398 acres of tank-bed lands, assessed at Rs. 3,964, were sold for Rs. 1,22,683 under Standing Order No. 16; 693 acres of waste lands, assessed at Rs. 506, were sold for Rs. 25,015 under Standing Order No. 20; 19 acres of house-sites in towns were sold for Rs. 6,547 under Standing Order No. 21; 480 acres, assessed at Rs. 562, which had been bought in by Government at sales for arrears of revenue, were resold under Standing Order No. 45 for Rs. 2,421; 233 acres, assessed at Rs. 542, which had been acquired for public purposes and were subsequently relinquished, were sold under Standing Order No. 90 for Rs. 54,890; 16 acres, assessed at Rs. 38, which had been acquired for railways and were subsequently relinquished, were sold under Standing Order No. 91 for Rs. 5,385; 7 acres of escheated lands, assessed at Rs. 15, were sold under Standing Order No. 197 for Rs. 857; 5 acres of waste lands in Madras, assessed at Rs. 411, were sold for Rs. 2,51,111 under the rules published with G.O. No. 61, Revenue, dated 11th January 1902.

34. *Subdivision of quit-rent.*—No applications were received during the year under Standing Order No. 58 for the subdivision of the joint liability of shareholders in whole inam villages or minor inams in any of the districts of the Presidency.

35. *Transfer of registration of holdings.*—Transfers of revenue registration fall under one or other of the following three heads :—

(1) Transfers applied for through officers of the Registration department.
(2) Transfers applied for direct to Revenue officers; and
(3) Transfers effected by Revenue officers of their own motion—

(1) Under the first head 285,052 applications were received during the fasli against 242,743 in the previous fasli, an increase of 42,309, or 17·43 per cent. The increase, which is due to the introduction of the revised rules relating to transfer of revenue registry issued with G.O. No. 3150, Revenue, dated 3rd November 1914, is distributed over 21 districts and is especially large in North Arcot (7,013), Trichinopoly (7,349), Ramnad (2,262), Tinnevelly (3,764) and Coimbatore (4,010).

(2) The number of applications presented direct to Revenue officers was 62,392, as against 70,372 in fasli 1325, a decrease of 7,980, or 11·34 per cent. The bulk of the decrease occurred in the districts of Ganjām, Kistna, Cuddapah, Anantapur, North Arcot, South Arcot, Tinnevelly and Malabar.

(3) The number of cases which Revenue officers dealt with on their own initiative under paragraphs 5 and 7 of Board's Standing Order No. 31 fell from 27,414 in fasli 1325 to 20,316 in fasli 1326. The largest decrease was in Tanjore (4,425).

The total number of applications of all kinds to be dealt with in the fasli under report, including the number pending disposal at its beginning, was 4,49,298; of these 3,44,769 were disposed of during the fasli, leaving a balance of 1,04,529 pending at the close of the fasli; of these, 2,720 have since been disposed of. Of the total number of applications disposed of during the fasli, 18,343 or 5 per cent were rejected and the rest accepted.

36. *Ruined tanks.*—During the year under report a tank in each of the districts of Kurnool and Chittoor was handed over to private individuals for repair under Board's Standing Order No. 8. The ayacut of 15·37 acres in the former district and of 2·90 acres in the latter was assessed at special rates of Rs. 3 and Rs. 2 per acre respectively.

37. *Settlement by Collectors.*—The rule laid down in paragraph 2 of Board's Standing Order No. 12 that the settlement of each taluk should be conducted by the Collector himself once in five years, was complied with except as regards Narasapur,

Nuzvid, Nandigama and Tiruvur taluks in the Kistna district. The Collector states that he will take up the settlement of Nuzvid in the current fasli, and adds that as the district contains 13 taluks, it was not always possible to comply with the rule that each taluk should be settled by the Collector once in five years.

38. *Loans and advances.*—The advances made under the Land Improvement Loans Act during fasli 1326 amounted to Rs. 2·16 lakhs and those under the Agriculturists' Loans Act to Rs. 5·28 lakhs. The aggregate amount advanced under both the Acts was thus Rs. 7·44 lakhs as against 7·51 lakhs in the previous year. The fall is the net result of decreases in fourteen districts and of increases in nine districts: there were no transactions in the districts of Gōdāvari and Madras. The decreases were considerable in Guntūr, Cuddapah, North Arcot, Chittoor, Coimbatore, Trichinopoly, and Tanjore, while the increases were large in Kistna, Bellary, Chingleput, South Arcot and Tinnevelly. The decrease in Guntūr was due to paucity of applications for loans for purchase of cattle consequent on the prevalence of excessive cattle mortality during the fasli, in North Arcot and Chittoor to the favourable character of the season, in Coimbatore to the absence of applications for loans for installation of oil-engines, and in Tanjore to the absence of applications from the Pattukkōttai taluk unlike last year. The decrease in the other districts has not been explained. The increase in Chingleput was due to the construction of new wells by the ryots, increase in the purchase of cattle and extension of cultivation. The damage caused by the cyclone of the last year accounts for the increase in South Arcot. The increase in the remaining districts has not been explained.

The relaxation of the loans rules referred to in last year's review does not appear to have stimulated the grant of loans. On the other hand there has been a successive decrease in these two years although the decrease in the year under report is not so noteworthy as in the previous year.

39. *Recoveries.*—Of the sums of Rs. 3·64 lakhs and Rs. 4·41 lakhs repayable during the year under the Land Improvement and the Agriculturists' Loans Acts, respectively, on account of principal, Rs. 3·32 lakhs or 91·2 per cent under the former Act and Rs. 3·83 lakhs or 86·8 per cent under the latter were collected. Advances amounting to Rs. 21,479 and Rs. 20,709 under the two respective Acts were repaid by borrowers on account of loans, the repayment of which had not fallen due, while sums amounting to Rs. 865 under the first Act and Rs. 620 under the second were written off the accounts as irrecoverable.

40. *Coercive processes.*—The aggregate amount of principal and interest repayable during the year under both the Acts was Rs. 11,31,089. Out of this amount Rs. 3,17,026 or 28·0 per cent were collected without resort to coercion, Rs. 6,31,246 or 55·8 per cent after the issue of demand notices and Rs. 55,778 after attachment but before sale. The sum collected by the actual sale of movable property was only Rs. 3,562 and that by the sale of immovable property Rs. 3,123. The balance outstanding at the end of the year was Rs. 1,20,354, the arrears being heaviest in Tanjore (Rs. 30,094), Madura (Rs. 23,123) and South Arcot (Rs. 11,078).

41. The following statement shows the amount of interest payable by the Local Government to the Government of India for fasli 1326:—

Acts.	Amount advanced to the Local Government by the Government of India.			Interest payable for the year by the Local Government to the Government of India at 3½* per cent on the mean outstanding.
	Outstanding at the beginning of the year.	Outstanding at the end of the year.	Mean outstanding.	
	Rs.	Rs.	Rs.	Rs.
Land Improvement Loans Act	30,51,212	29,12,300	29,81,756	1,04,362
Agriculturists' Loans Act	19,47,467	20,71,490	20,09,479	70,331
Total ..	49,98,679	49,83,790	49,91,235	1,74,693

* This rate of interest has been enhanced to 4½ per cent from 1st October 1916 to 1st April 1917 and to 5½ per cent from 1st April 1917. According to these varying rates the total amount of interest payable to the Government of India for the official year 1916–17 is Rs. 1,82,151. The present report relates to the fasli year.

42. The financial results of the operations under the Loans Acts are shown below:—

Items.	Land Improvement Loans Act.	Agriculturists' Loans Act.	Total.
	Rs.	Rs.	Rs.
1. Interest payable for fasli 1326 by the Local Government to the Government of India.	1,04,362	70,331	1,74,693
2. Interest collected during the year	1,64,796	1,28,886	2,93,682
3. Balance of interest accruing to the Local Government, i.e., difference between items 1 and 2.	60,434	58,555	1,18,989
4. Remission of principal	865	620	1,485
5. Net result for 1916–17	+ 59,569	+ 57,935	+ 1,17,504
6. Net result for previous years. 1911–12	+ 50,091	+ 39,005	+ 89,096
1912–13	+ 52,618	+ 35,281	+ 87,899
1913–14	+ 52,369	+ 50,043	+ 1,02,412
1914–15	+ 44,697	+ 37,962	+ 82,659
1915–16	+ 66,068	+ 54 919	+ 1,20,987
7. Expenditure on free grants-in-aid towards the construction of private protective works or on establishment for well-boring or other outlay incurred from current revenue in connexion with Takkavi transactions.	7,515 750	18,494 750	26,049 * 1,500 *

* Represents the cost of special establishments entertained in certain districts and the cost of time devoted to loans work by the ordinary Land Revenue establishment at 3½ per cent on the amount advanced during the year.

43. With the aid of loans under the Land Improvement Loans Act, 362 wells capable of irrigating 1,782 acres of land were constructed during the fasli at an aggregate cost of Rs. 1,10,127 against 433 wells costing Rs. 1,21,777 in the previous year and 200 wells designed to benefit 1,064 acres were repaired at a cost of Rs. 45,900 against 326 wells costing 73,490 in the preceding year. Rupees 23,930 were spent on reclamation of 660 acres against Rs. 34,595 in the previous year: Rs. 7,970 were expended on the purchase and installation of oil engines or pumps in the districts of Anantapur, North Arcot and Tanjore against Rs. 34,900 in the previous year, and Rs. 27,384 were spent on other improvements benefiting about 2,056 acres. In Coimbatore, there was the largest number of wells constructed and repaired (97) and that district is followed by Tinnevelly (81) and Ramnad (79). Under the Agriculturists' Loans Act 7,810 head of cattle were purchased at an aggregate cost of Rupees 4,62,342 against 7,871 head of cattle at a cost of Rs. 5,14,980 last year, while 78 houses were rebuilt at a cost of Rs. 16,555 against 36 houses rebuilt at a cost of Rs. 7,585 in the preceding year. Seed grain was purchased for Rs. 1,527 against Rs. 1,965 in the previous year in the same direction, while Rs. 200 was spent on one sugarcane mill against Rs. 1,150 in the previous year. A sum of Rs. 27,968 was spent for other purposes against Rs. 14,363 in the previous year.

44. *Survey advances.**—The advances drawn by Collectors during the year under the head "Revenue Survey advances—Collectors" amounted to Rs. 47,921 against Rs. 54,201 in the previous year. Of this amount—

	Rs.
Ganjām spent	2,472
Gōdāvari „	4,084
Kistna „	5,637
Cuddapah „	2,965
Bellary „	3,952
Anantapur „	2,314
North Arcot „	2,444
Tanjore „	4,149
Tinnevelly „	3,317
Coimbatore „	3,413
South Kanara „	2,072

Of the total amount of advances outstanding against Collectors, a sum of Rs. 66,282 was adjusted during the year leaving the net debit under "Revenue Survey advances —Collectors" at Rs. 3,47,353.

* The figures relate to the official year 1916–17.

Under the head " Cost of Survey marks—Collectors," a sum of Rs. 49,775 was collected during the year leaving a balance of Rs. 7,261 to be realized. The arrears outstanding at the beginning of the year under the head " Cost of survey marks—Survey officers " were Rs. 98,072.* Fresh landholders' bills to the amount of Rs. 1,97,119 were received from survey officers during the year. Of the total demand of Rs. 2,95,191 under this head, Rs. 1,57,083 were collected during the year leaving a sum of Rs. 1,38,145 to be collected at the end of the year.

45. *Junior Civilians—Knowledge of vernaculars.*—The reports of the Collectors generally show that their Civilian Divisional Officers possess an adequate knowledge of the vernaculars and are able to dispose of vernacular papers without abstracts and that the progress of Assistant Collectors is satisfactory.

46. *Growth of subletting in ryotwari tracts.*—Subletting is chiefly resorted to by those engaged in professions other than agriculture or by large landholders. It is reported to be on the increase in Ganjām, in the Kavali division of Nellore and in a few kumeri villages of the Kasaragod taluk of South Kanara, in which latter taluk kumeri lands were sublet for the cultivation of pepper.

47. *Effects of recent legislation on the people.*—No legislation affecting the people generally was introduced during the year under report. It is reported that the Madras Estates Land Act (I of 1908) has embittered rather than allayed disputes between landholders and their tenants in the Chandragiri division of the Chittoor district. The delegation of powers to Tahsildars and Deputy Tahsildars under the Madras Decentralization Act (VIII of 1914) in the matter of charging enhanced assessment under Act III of 1905 and of dealing with cases of irregular irrigation worked fairly well and contributed to speedy disposal of cases and to the prompt collection of revenue and timely preparation of jamabandi accounts. The system in general has not affected the ryots adversely and there have not been any serious complaints against the orders of Tahsildars and Deputy Tahsildars passed under these powers. It is reported that the Act, in general, worked satisfactorily.

48. *Co-operative societies.*—Four hundred and twenty-one societies were registered under the Co-operative Societies Act during the period under report. Of these, two were central societies, 27 were administrative unions, 325 agricultural and 67 non-agricultural societies. The registration of six agricultural credit societies was cancelled during the same period. The total number of societies at the end of 1916–17 was 2,216 against 1,801 at the end of 1915–16.

49. *Enhanced water-cess for irregular irrigation.*—G.O. No. 684, Revenue, dated 7th March 1913, directed that ryots who had rendered themselves liable to the imposition of enhanced water-cess for the irregular use of Government water should be given previous notice of their liability. The system was tried in all the districts except Madras, Malabar, Anjengo, South Kanara and the Nilgiris where there are no irrigation works. It is reported to have had the wholesome effect of keeping the ryots previously informed of their mistake and of giving them an opportunity to make timely representations to local officers. The Collector of Anantapur, however, reports that many ryots being illiterate still do not avail themselves of the benefit of the rules. On the whole the system worked satisfactorily and Collectors suggest that it may be continued till it is widely understood.

50. *Tank-bed cultivation.*—During the year under report, permission was accorded by Collectors for the cultivation of tank-bed lands with cucumber and melons in the districts of Anantapur, Chingleput, Chittoor, Trichinopoly, Ramnad and Tinnevelly. There were also unauthorized cases of cultivation of such lands in Cuddapah, Anantapur, Chittoor, Trichinopoly, Madura, Tinnevelly and Coimbatore. In the Cocanada taluk of the Gōdāvari district, there were two cases in which tank-bed lands were sold in auction for cultivation. All cases of authorized occupation except in Chingleput were charged with the highest dry rate of the village, while those of unauthorized occupation were generally charged with enhanced assessment; in Chingleput, where Panchamas cultivated them, they were charged only with a single assessment. It is reported that the cultivation of tank-beds did not unfavourably affect the beds.

51. *Examination of village and taluk accounts.*—The accounts were found to have been fairly well maintained and disclosed few serious errors. The defects noticed were pointed out and rectified then and there.

---

* Revised figure.

52. *The taluk and village statistical registers.*—With reference to the opening paragraph of B.P. Mis. No. 509 (Revenue Settlement), dated 21st February 1916, the Collectors of Malabar, South Kanara, Anjengo and the Nilgiris report that taluk statistical registers prescribed in the Revised Manual of Taluk Accounts were maintained in their districts. Such registers for villages were maintained in all the other districts except Madras, which is not a rural district. The subjoined statement shows the progress made in the writing up and checking of the registers up to and during fasli 1326 (1916–17) :—

District.	Number of villages.		Number of villages in which registers have been opened.		Number of villages in which the registers have been written up and checked for fasli 1326.	
	Ryotwar.	Proprietary.	Ryotwar.	Proprietary.	Ryotwar.	Proprietary.
1. Ganjām	1,029	218	1,029	218	890	218
2. Vizagapatam	265	..	265	..	247	..

7. Cuddapah	755	218	755	211	711	28
8. Anantapur	750	136	750	136	565	106
9. Bellary	873	89	873	89	855	87
10. Kurnool	695	..	695	..	695	..
11. Chingleput	1,483	350	1,483	350	1,269	189
12. Chittoor	375	..	375	..	278	..
13. North Arcot	1,697	723	1,696	9	1,590	9
14. South Arcot	2,215	76	2,215	76	2,139	60
15. Tanjore	1,437	..	1,437	..	1,152	..
16. Trichinopoly	736	492	736	133	736	133
17. Madura	728	441	728	..	656	..
18. Ramnad	131	1,244	131	..	127	..
19. Tinnevelly	579	473	579	117	579	60
20. Coimbatore	1,043	55	1,043	..	933	..
21. Salem	1,410	752	752	..	704	..

So far as ryotwari villages are concerned, the work was completed or practically completed for the year under report in all the districts except Ganjām, Anantapur, Tanjore and Salem. It was only in Salem that the work was largely in arrears. The Collector is requested to see that the work is completed early. In respect of proprietary villages, registers were opened during the year under report in all the districts except Vizagapatam, Kistna, Kurnool, Chittoor, Tanjore, Madura, Ramnad, Coimbatore and Salem. Considerable progress in the work of writing up and checking the registers was made in Guntūr and Anantapur but other districts showed no great progress owing to the non-introduction of the Manual of Village Accounts for non-Government villages pending the supply of the vernacular manuals which are under preparation.

53. *Minor irrigation.*—Statement No. 19 shows the number of irrigation works in charge of the Revenue Department, the number repaired and the amount spent on them during the official year ending 31st March 1917. It also shows the number proposed for repairs during the official year ending 31st March 1918.

54. *Conference with ryots.*—In all districts conferences with ryots were held by Collectors and Divisional Officers during their tours and at the time of the jamabandi.

NOTE.—(1) The wholesale prices shown against the Cuddapah district are the prices in the ryots' selling months, i.e., the period adopted as the basis of the commutation rate, but the market prices entered against the rest are the averages of the year.

(2) The commutation rates shown against Trichinopoly are those adopted in the Tanjore district, the difference in the commutation rates deduced from the Trichinopoly prices not being large.

(3) Black paddy was taken as the standard grain for dry in the Godavari and Kistna districts. The commutation rate fixed for this grain was Rs. 96.

No. 9-B.—Statement showing the extent of poramboke land transferred to "assessed" or "unassessed" waste in fasli 1326 (1916–17).

District.	Extent transferred			Class of objectionable poramboke land which cannot be transferred to "assessed" or "unassessed" waste and assigned on patta.	Remarks.
	To assessed waste.	To unassessed waste.	Total.		
(1)	(2)	(3)	(4)	(5)	(6)
	ACS.	ACS.	ACS.		
1. Ganjam ..	162	1,617	1,779	....	An extent of 2,071 acres has already been treated as unassessed waste and formal transfer proposals are awaited. An extent of about 7,699 acres still remains to be investigated. Steps will be taken to get the lands not required for communal purposes transferred to assessed or unassessed waste during the current fasli.
2. Vizagapatam.	*	*	2,629	....	An extent of about 8,020 acres still remains to be investigated.
3. Godavari ..	463	..	463	....	Instructions were issued to subordinate officers to take prompt steps to reduce the area of unobjectionable poramboke.
4. Kistna ..	..	..	..	....	28,472 acres of poramboke were transferred last year to "assessed" or "unassessed" waste. The work has already been completed in the district.
5. Guntur ..	498	2,303	2,801	....	The extent of poramboke transferred to "assessed" or "unassessed" waste in Narasarowpet has not been reported. The work is reported to be almost over while it is said to be still in progress in some taluks.
6. Nellore ..	289	2,143	2,432	....	An extent of about 682 acres still remains to be investigated. The work will be completed before long.
7. Cuddapah ..	*	*	755	....	The matter of investigation is still engaging the attention of all revenue officers in the district.
8. Anantapur ..	284	9	293	....	This area consists of unobjectionable land fit for cultivation originally classed wrongly under poramboke.
9. Bellary ..	316	2,236	2,552	....	Up to fasli 1326, 27,609 acres and 120,437 acres were transferred from poramboke to "assessed" and "unassessed" waste respectively. Transfer of the so-called poramboke to "unassessed" waste was very inadequately done and complete revision has been ordered in all taluks. When it is complete, it should result in the disappearance of the unpenalized poramboke.
10. Kurnool ..	*	*	22,422	1,652 acres consist of lands within half a mile of railway stations, railway B class lands, canal B class lands and village site occupied for straw-yards. 799 acres are composed of small patches of various other kinds of poramboke whose occupation was considered unobjectionable but whose area in individual cases was too small to be subdivided and assigned on patta.	An extent of 1,150 acres consisting of "hill" unsurveyed and unassessed areas have been wrongly shown by Tahsildars under "poramboke" instead of under "unassessed". The attention of the officers concerned has been drawn to the wrong classification. It will be rectified in the current fasli.
11. Chingleput ..	*	*	321	....	....
12. Chittoor ..	65	..	65	....	No appreciable progress has been made. The few transfers made till now were on the ryots' applications for assignment. No real investigation has been started yet. It is doubtful if it is necessary in a district in which a classification of poramboke and unassessed lands was made in the recent resettlement.
13. North Arcot..	317	1,277	1,594	....	....
14. South Arcot ..	185	..	185	....	As the settlement party is working in the district in all the taluks except Vriddhachalam and Chidambaram the classification in those taluks is being carried out by the Settlement Officer.
15. Tanjore ..	*	*	(a) 427	....	(a) Include 382 acres of disafforested blocks in Negapatam taluk. As the resurvey work has been recently completed in Mayavaram and Mannargudi taluks, the Divisional officers of Mayavaram and Mannargudi have been requested to pass orders in regard to the transfer of non-communal porambokes. All the Divisional officers have been asked to submit progress reports.

* Particulars of "assessed" and "unassessed" waste have not been reported separately.

9-B.—Statement showing the extent of poramboke land, etc.—*cont.*

District.	Extent transferred			Class of objectionable poramboke land which cannot be transferred to "assessed" or "unassessed" waste and assigned on patta.	Remarks.
	To assessed waste.	To unassessed waste.	Total.		
(1)	(2)	(3)	(4)	(5)	(6)
	ACS.	ACS.	ACS.		
16. Trichinopoly..	*	*	2,225	..	The reclassification is progressing slowly as it involves subdivision in many cases. The divisional officers and Tahsildars have been, however, repeatedly instructed to complete this work as early as possible and the further progress made will be noted in the current fasli's report.
17. Madura ..	..	..	..	..	The work is in progress.
18. Ramnad ..	*	*	44	..	....
19. Tinnevelly ..	(a) 102	..	102	..	(a) include unassessed lands transferred to "assessed" waste. The reclassification work is nearing completion in three taluks. Steps are being taken to complete the work in the remaining taluks also.
20. Coimbatore ..	259	..	259	6,597 acres of poramboke include also grazing ground, palmyra tope, Railway B class lands, tank beds occupied temporarily for cucumber cultivation and similar other temporary occupations.	The attention of the subordinate officers was drawn to the necessity of completing the work of classification of poramboke lands not required for State or communal purposes as assessed or unassessed lands. The work is in progress and is being reviewed periodically. Steps are being taken to complete the work as early as possible.
21. The Nilgiris..	571	..	571	..	....
22. Salem ..	(a) 757	78	835	..	(a) include "unassessed" waste transferred to "assessed" waste.
23. South Kanara..	..	..	..	..	All poramboke lands as were not required for State or communal purposes were already transferred to "assessed" or "unassessed" waste in previous years.
24. Malabar ..	3	..	3	River-beds and reclamations of backwaters.	No general reclassification of poramboke lands is required in the district.
25. Anjengo ..	..	..	..	..	The poramboke lands of this district are all required for communal purposes.

* Particulars of "assessed" and "unassessed" waste have not been reported separately.

(*a*) The increase of Rs. 6 over the balance at the end of the last fasli represents the two-thirds assessment on the unlocalisable washerman inam of Karapadu added to the peshkash of the Peddakimedi estate.

(*b*) The increase of Rs. 267 over the balance at the end of the last fasli is due to the adoption of correct figures.

(*c*) The increase of Rs. 1,938, is due to the enhancement of peshkash on certain permanently-settled estates in the Pollachi and Udamalpet taluks with effect from 1st July 1906.

(*d*) The increase of Rs. 7,399 over the balance at the end of the last fasli is due to the revision of land-cess in fasli 1326 having been given effect to from fasli 1325 in the case of certain estates.

(*e*) The decrease of Rs. 90 from the balance at the end of the last fasli is due to the wrong inclusion of Rs. 61 under this head instead of under Ryotwar and Miscellaneous ' and to the entry of an item of Rs. 29 twice over.

(*a*) The increase of Rs. 30 over the balance at the end of the last fasli represents the enhanced quit-rent on title-deed No. 2571 of Lakkamdiddi village for faslis 1323, 1324 and 1325 brought to demand in fasli 1326 at the time of jamabandi.

(*b*) The Collector has been asked to explain the difference in figures returned in jamabandi statements Nos. 6 and 7.

(*c*) Excludes beriz deduction.

(*d*) Do.

(*e*) The increase of Rs. 31 over the balance at the end of the last fasli is due to the adoption of revised figures.

(*f*) The increase of Rs. 3 over the balance at the end of the last fasli is due to the inclusion in fasli 1326 of the enhanced land-cess due on title-deed No. 2571 of Lakkamdiddi for faslis 1323, 1324 and 1325.

(*g*) The increase of Rs. 98 over the balance at the end of the last fasli represents the arrear land-cess due for the back ten faslis on certain whole inams in the Sarvasiddhi taluk which escaped the levy of the cess.

(*h*) The increase of Re. 1 is due to rounding.

* Includes railway cess.

(*a*) The increase of Rs. 272 over the balance at the end of the last fasli represents the enhanced ground-rent for fasli 1325 on Pendurgadia market, Berhampur, ordered to be brought to demand in fasli 1326.

(*b*) The increase of Rs. 143 over the balance at the end of the last fasli is made up of the following items : (1) arrear land-cess of Rs. 91 collected for the previous 10 faslis on certain service inams in the Anakapalle taluk, (2) Rupees 2 being the land-cess due on certain shroff service inam in the Viravilli taluk resumed in fasli 1325 but not given effect to in that fasli, (3) Rupees 8 being the difference of land cess due on certain lands in Palkonda taluk transferred from dry to wet in fasli 1325 and brought to demand in fasli 1326 and (4) the assessment of Rs. 42 due on certain shroff service inams in the Viravilli taluk resumed in fasli 1325 but not given effect to in that fasli.

(*c*) The Collector has been asked to explain the difference of Rs. 2,108, between the amount shown in this statement and that shown in column 59 of statement No. 4.

(*d*) The difference of Re. 1 between this amount and that shown in column 59 of statement No. 4 is due to rounding.

(*e*) The decrease of Rs. 10 from the balance at the end of the last fasli is due to the exclusion of the amount of beriz deduction due in fasli 1325 but made in fasli 1326 and to the inclusion of certain amounts shown under "Proprietary Estates Village Service" under "Ryotwar and miscellaneous."

(*f*) Particulars have been called for by the Collector in respect of the difference of Rs. 93 between the amount shown in this statement and that shown in column 59 of statement No. 4.

(*g*) The difference of Re. 1 between this amount and that shown in column 59 of statement No. 4 is due to rounding.

(*h*) Do. do. do.

(*i*) The increase of Rs. 61 over the balance at the end of the last fasli is due to the inclusion of the amount under this head, which was wrongly included under "cesses on permanently-settled estates."

(*j*) The difference between this amount and that shown in column 59 of statement No. 4 is due to the exclusion of the revenue under Proprietary Estates Village Service.

(*k*) and (*m*) The decrease of Rs. 3 and the increase of Rs. 2 over the balances at the end of the last fasli are due to the rectification of errors.

(*l*) The increase of Rs. 4 over the balance at the end of last fasli is due to the inclusion of the amount wrongly shown under collections in fasli 1325.

(*n*) The increase of Re. 1 over the balance at the end of the last fasli is due to rounding.

(*a*) The increase of Rs. 72 over the balance at the end of the last fasli is due to the inclusion in fasli 1326 of the amount of quit-rent due for fasli 1325 on certain village service inams in the Mandasa estate.
(*b*) The decrease is due to the exclusion of Rs. 17 wrongly included under this head.
(*c*) The increase is due to the inclusion of Rs. 4 which was wrongly included under "Ryotwar and Miscellaneous".

No. 12.—Statement showing the details of coercive processes employed in the realization of the arrears of land revenue in the several districts during fasli 1326 (1916–17).

* The figures in column 5 represent the allotments made up to date for "original works" and "repairs" costing not more than Rs. 2,500 and over Rs. 2,500 each for the year 1917-18 and exclude the cost on account of establishment, travelling allowance, etc.

(a) The major portion of the allotment relates to the clearance of, and masonry repairs to, the Tungabhadra channels. The Collector reports that estimates for these works are under preparation.

(b) Includes a sum of Rs. 1,05,500 sanctioned for repairs to minor irrigation works damaged by the cyclone of 1916.

(c) The Collector reports that 11 more works have been partially completed.

(d) The Collector reports that of this amount a sum of Rs. 3,168 has been set apart for kudimaramat repairs to three works in charge of the Public Works Department.

QUINQUENNIAL.

NOTE.—(1) The area and the assessment thereon given in this statement differ from those given in columns 27, 29 and 32 of statement No. 3 against Chingleput, Chittoor, North Arcot, Tinnevelly and Malabar. In Chingleput, the variation is due to the exclusion from this statement of these particulars for rented villages; in Chittoor, it is due to the exclusion from this statement of the particulars relating to the Punganur division; in North Arcot, it is due to the exclusion from this statement of these particulars for Arni and Kuppam divisions; in Malabar, it is due to the exclusion from this statement of these particulars for lease-hold lands in Cochin. The Collector of Tinnevelly has not explained the variation.

(2) The number of ryotwari pattas given in this statement differs from that given in Collector's statement No. 1 against Tinnevelly and Malabar. In Malabar, the variation is due to the cause mentioned in note (1). The Collector of Tinnevelly has not explained the variation.

(3) Columns 83, 84, 87 and 88 against the Nilgiris include 39, 163, 2 and 4, respectively, relating to free-hold lands for which details of classification of holdings are not available.

PROCEEDINGS OF THE MADRAS GOVERNMENT

REVENUE DEPARTMENT

Order—No. 867, Revenue, dated 28th February 1918.

Miscellaneous

Recorded.

2. Of a total increase of 9·27 lakhs during the fasli, 5·64 lakhs is due to an increase under the head of miscellaneous revenue. A considerable part of this sum is accounted for by the sale of Badshah Sahib's buildings in Madras.

3. As usual the revenue was collected without difficulty. As compared with the previous fasli there was a fall both in the number of coercive processes issued and in the number of cases in which resort to distraint or attachment was necessary. The amount of arrears that had eventually to be recovered by sale was trifling—Rs. 38,869 out of a demand of 787 lakhs representing less than ·05 per cent of the whole demand.

4. The information regarding poramboke occupation is not altogether satisfactory. The work of reclassification of porambokes is now reported to be incomplete in several districts (Vizagapatam, Bellary, Chittoor and Coimbatore) in regard to which it was stated last year to be complete or nearly complete. The Government cannot accept the explanation offered of the large increase (19,613 acres) in poramboke occupation in South Arcot and wish to receive a further report in which talukwar figures for the last five years should be given. The large area of poramboke occupied in Anantapur and the low average rate of enhanced assessment continue to be noticeable and demand the further attention of the Collector and the Board of Revenue.

5. Under the head of loans, also, the Government are glad to observe that, as compared with the previous fasli, demand notices were issued in a smaller percentage of cases, a higher percentage was recovered without resort to any coercive process and there was a marked drop from Rs. 15,325 to Rs. 6,685 in the sum collected by the actual sale of defaulters' property.

6. There was a slight increase in expenditure on irrigation works in charge of the Revenue Department. A marked increase in activity is forecasted in the programme for the current official year which covers a part of the fasli under review.

LIBRARY OF THE BOMBAY BRANCH OF THE ROYAL ASIATIC SOCIETY

PROCEEDINGS OF THE BOARD OF REVENUE

(REVENUE SETTLEMENT, SURVEY, LAND RECORDS AND AGRICULTURE).

Resolution—No. 19, *dated 4th February* 1919.

The Board begs to submit its report on the settlement of land revenue in the Presidency for fasli 1327 (1917–18), together with the prescribed statements. The delay in the submission of this review was due to the fact that the reports from Kurnool and South Arcot were received so late as 16th December 1918 and 28th December 1918 respectively. The circumstances that led to their late submission by the Collectors concerned have already been explained in B.P. Mis. No. 2455, dated 21st November 1918, disposed of in Government Memorandum No. 1846-B/18–1, Revenue, dated 6th December 1918.

2. *Season, rainfall and prices.*—The south-west monsoon commenced earlier than usual about the beginning of June with good showers in Vizagapatam Littoral, Gōdāvari, Kistna, Guntūr, the Deccan, the Carnatic, the Central Group of districts except Coimbatore and Trichinopoly, the West Coast and the Hills. The rains of August and September were generally above the average throughout the Presidency and were excessive in places. The total rainfall during this monsoon was above the average in all districts except Vizagapatam Littoral and Malabar. The rainfall during the north-east monsoon was above the average in the Deccan, Nellore, the West Coast and the Circars and was excessive in parts of Gōdāvari and Guntūr. The dry and the hot weather rains were above the average in the majority of the districts. On the whole the year was favourable to agricultural operations and led to an increase in cultivation in many districts, but on account of the abnormally heavy rainfall in both the monsoons, especially in the south-west, standing crops were affected in the Gōdāvari and Kistna deltas and the Deccan except Cuddapah. In Kistna particularly there were floods in some of the lakes which necessitated the grant of remission on a large scale in five taluks; while in the districts of Vizagapatam, Gōdāvari, Guntūr, Kurnool, Bellary, Salem, Madura and Malabar season remissions had to be granted.

The average annual retail prices of the staple food-grains were higher than those of the preceding year. The price of cholam in Kurnool and of cumbu in Guntūr was dearer than the warning rates but cheaper than the scarcity rates. In all the other cases the prices were below the warning rates, while in some of them they were even cheaper than the normal rates. The normal, warning and scarcity rates here adopted for comparison. were those fixed by Government in their order No. 2108, Revenue, dated 31st May 1918.

3. *Cropped area.*—The total cropped area of the year under report (38,821,000 acres) exceeded the normal area (38,166,000 acres) by 655,000 acres. As compared with the normal, paddy, ground nut, cotton and indigo showed large increases, while cholam and cumbu showed large decreases. The decrease under cholam and cumbu was chiefly due to the preference shown by the ryots to grow ground nut, cotton and indigo. As compared with the previous year, there was a large increase under paddy, cholam and cotton and a large decrease under cumbu, ground nut and indigo. The increase under paddy was due to the character of the season favouring the extension of cultivation, while that under cotton is attributed to the high prices fetched by Cambodia cotton at the close of the last season and also to the increased demand from Japan. The decrease under ground nut and indigo was due to the fall in the prices of these commodities.

The outturn was above normal in 107 cases and was normal in 30. It ranged from 75 to 99 per cent of the normal in 164 cases and from 55 to 74 per cent in the remaining 10 cases.

4. *Condition of cattle.*—The total number of deaths from diseases among horned cattle showed an increase of 1,430 as compared with the previous year, the total for the year being 70,018. The increase was due entirely to the ravages of rinderpest, there having been a fall in the number of deaths from other diseases. The mortality

under rinderpest alone was 30,733 against 26,215 in the previous year. The districts which were affected most by this disease were Anantapur, North Arcot, South Arcot, Kistna, Guntur, Bellary, South Kanara, Malabar and Chingleput; additional Veterinary Assistants were posted to combat the disease.

5. *Number of villages.*—In the year under report, there was a net decrease of eleven villages as a result of decreases in Trichinopoly (47) and Madura (18) and an increase in Salem (54). The decrease in Trichinopoly was the net result of the transfer of 52 villages of the Namakkal taluk to the Salem district and of the increase of 5 villages in the Trichinopoly and Lalgudi taluks owing to resurvey, while that in Madura was brought about by the clubbing of the villages of Nilakkottai taluk at resettlement which resulted in a decrease of 20 and the splitting of Melur village into three villages. The increase in Salem is accounted for (i) by the addition of the 52 villages of the Namakkal taluk transferred from Trichinopoly district, (2) by the splitting of one village of the Salem taluk into two and (3) by the addition of Jedarpalaiyam (Toppapatti) village to the Rasipur taluk made under G.O. Mis. No. 3385, Revenue, dated 5th October 1918.

6. The land revenue of the Presidency is derived from the undermentioned sources:—

(*a*) Peshkash or revenue from permanently-settled estates;
(*b*) Shrotriyam jodi or quit-rent levied on inam villages;
(*c*) Assessment, including water-rate, on lands held under the ryotwari system;
(*d*) Miscellaneous revenue; and
(*e*) Proprietary estates' village service.

7. *Peshkash or revenue from permanently-settled estates.*—The total amount of peshkash payable during the fasli was Rs. 49,92,012 against Rs. 49,88,219 in the preceding year. The increase of Rs. 3,793 is the net result of

		Rs.
(*a*) Error in fixing the demand in Kistna and Vizagapatam districts.	+	889
(*b*) Increase not explained by the Collector of Kistna	+	88
(*c*) Addition to peshkash on account of resumed inams made over to the proprietors in Kistna.	+	33
(*d*) Enhancement of peshkash of certain estates in the Trichinopoly district under section 27 (2) of Act II of 1894—vide G.O. No. 2258, Revenue, dated 25th July 1917, (i) current.	+	763
(ii) Arrears for previous faslis	+	2,256
(*e*) Deductions on account of the cancellation of the orders by which unlocalized inams had been made over to certain proprietors in Kistna with an addition to their peshkash.	—	44
(*f*) Deductions from peshkash owing to acquisition of lands for public purposes.	—	191
(*g*) Due to rounding	—	1
	+	3,793

8. The quit-rent payable to Government on villages held on shrotriyam or favourable tenure was Rs. 7,56,655, or Rs. 185 less than in the previous fasli. The following are the reasons for the change:—

		Rs.
(*a*) Rectification of errors in Tanjore	+	481
(*b*) Amount wrongly included under ryotwar and miscellaneous in Ramnad and retransferred to 'shrotriyam jodi'.	+	94
Deduction of amount wrongly included in the demand in the previous years.	—	73
(*c*) Rectification of errors in the Kistna district	—	169
(*d*) Deduction on account of lands taken up for public purposes ...	—	19
(*e*) Deduction on account of payment of arrears of beriz deduction.	—	59
(*f*) Deduction from the demand of arrears of quit-rent levied on a shrotriyam in the South Arcot district in the previous fasli.	—	416
(*g*) Reasons not given	—	20
(*h*) Due to rounding	—	4
	—	185

9. *Holdings.*—The total extent of ryotwari holdings during the year was 25·89 million acres, which exceeded that of the previous year by 89,816 acres. The increase was contributed by all the districts except Gōdāvari and Kurnool which together showed a decrease of 2,370 acres. The increase was marked in the districts of Anantapur and South Kanara.

10. *Assessment.*—The total assessment on holdings was Rs. 522·60 lakhs against Rs. 519·49 lakhs in the previous year, showing an increase of Rs. 3,10,964 which was contributed by all the districts except Gōdāvari and Anjengo. South Arcot and Madura alone were responsible for an increase of Rs. 2,16,327 or about 70 per cent of the total, which was due mostly to the introduction of resettlement rates during the year in portions of the two districts.

11. *Cultivation.*—As compared with the previous year, the total area cropped on ryotwari holdings showed a decrease of 151,109 acres under dry and 10,696 acres under wet. Salem showed a large increase under both the heads and Trichinopoly a large decrease, more or less as a result of the transfer of the Namakkal taluk from the latter district to the former, though in Trichinopoly a poor monsoon also contributed to the decrease to some extent. There were noticeable decreases in South Arcot under dry and in Chingleput, Chittoor, North Arcot and Malabar under wet, which were due generally to the unfavourable character of the season. Dry waste charged showed an increase of 228,187 acres, the increases in Anantapur, South Arcot and Salem having been particularly large. Wet waste charged increased by 21,682 acres, the districts of North Arcot, South Arcot and Malabar alone contributing 14,156 acres. Wet waste remitted fell by 2,455 acres. The fall in Madura (3,419 acres), Ramnad (3,256 acres) and Tinnevelly (5,148 acres) was marked, while Chittoor (4,055 acres), North Arcot (2,524 acres) and Kistna (2,780 acres), showed an appreciable rise. Including the area under 'Miscellaneous cultivation' the total area cropped amounted to 21·53 million acres against 21·74 million acres in the previous year.

12. *Water-rate and second crop charge.*—The revenue from these sources amounted to Rs. 39·40 lakhs as against 38·03 lakhs, or Rs. 1,36,926 more than in the previous year. Under 'water rate', there was a decrease of Rs. 6,604, while under 'second crop charge' there was an increase of Rs. 1,43,530. There were large increases under both the heads together in Gōdāvari, Kistna and Nellore, due partly to an extension in the second crop area irrigated and partly to the levy of enhanced water cess for irregular irrigation especially in the first two districts; while in North Arcot and South Arcot there were considerable decreases, due to the unfavourable character of the season in those districts.

13. *Remissions.*—As compared with the previous year, there was a net decrease of Rs. 2,17,649. Season remissions and beriz deductions showed a decrease, while fixed remissions showed an increase:—

(*i*) *Season remissions.*—The remissions under this head showed a net decrease of Rs. 2·14 lakhs. The decrease occurred under all the sub-heads except 'other remissions.'

(*a*) *Waste remitted.*—The remission under this head amounted to Rs. 1·68 lakhs or Rs. 0·12 lakh less than in the previous year. The decrease was marked in the districts of Madura, Ramnad and Tinnevelly and is reported to have been due to the generally favourable character of the season. Kistna, Chittoor and North Arcot showed large increases. The increase in Kistna is ascribed to large extents having been left uncultivated in the Kaikalur, Ellore and Narasapur taluks owing to submersion and that in Chittoor and North Arcot to the unfavourable character of their season. A sum of Rs. 579 was remitted on 365 acres of dry land in Kurnool under G.O. Mis. No. 1823, Revenue, dated 10th May 1918.

(*b*) *Shavi or short crop.*—The total amount remitted under this head was Rs. 40,068 against Rs. 1,36,888 in the previous year, showing a net decrease of Rs. 96,820. The decrease was due generally to the more favourable monsoons during the year and was marked in the districts of Tanjore (Rs. 16,948), Madura (Rs. 27,944), Ramnad (Rs. 15,746) and Tinnevelly (Rs. 22,947). In Gōdāvari, there was a noticeable increase (Rs. 8,484) due to the season having been unfavourable in parts of that district. Of the total remission under the head, Rs. 40,030 related to wet lands and Rs. 38 to dry lands. A remission of Rs. 9,012 was granted under 'short crop' during the year under report.

(*c*) *Tirwakammi remissions* (i.e., the remission of the difference between wet and dry assessment on wet land cultivated with dry crops owing to the insufficiency or failure of water-supply) amounted to Rs. 1,20,822 against Rs. 1,59,405 in the previous year, showing a net decrease of Rs. 38,583. The decrease, due to the favourable season, was marked in Madura (Rs. 8,323), Ramnad (Rs. 21,459) and Tinnevelly (Rs. 33,858), while in Cuddapah (Rs. 9,442) and Chittoor (Rs. 12,542) there were noticeable increases due to the partial failure of the monsoon during the year.

(*d*) *Injury by floods.*—The amount remitted under this head was Rs. 91,334 against Rs. 1,52,774 in the preceding year, showing a decrease of Rs. 61,440. The decrease in Kistna (Rs 69,598) was marked and was due to the fact that the extent damaged by floods during the year under report was smaller than that in the previous year.

(*ii*) *Fixed remissions* (i.e., abatement of the demand granted for reasons unconnected with the season) amounted to 1·27 lakhs against 1·21 lakhs in the previous year, showing a net increase of Rs. 5,550. The increase occurred under increment remissions (i.e., remissions allowed on the introduction of settlements or resettlements in cases where the increase over the old assessment was in excess of 25 per cent) in the Madura district owing to the introduction of the resettlement rates of assessment in Dindigul, in the non-Periyar areas of the Nilakkottai taluk and in the Periyar villages of the Periyakulam taluk.

(*iii*) *Beriz deductions* (deductions made from village collections in favour of inamdars and religious institutions) amounted to Rs. 8·87 lakhs against Rs. 8·97 lakhs in the previous year, showing a net decrease of Rs. 9,262. The decrease occurred mainly under the head 'payment for religious institutions in lieu of cash payment' and was particularly large in Trichinopoly (Rs. 8,191) and Tinnevelly (Rs. 11,284).

14. *Miscellaneous revenue.*—The revenue under this head amounted to Rs. 98·01 lakhs against 100·25 lakhs in the previous year, showing a net decrease of 2·24 lakhs.

Among the several sub-heads under this head, item 2—'Water-rate on minor inams in ryotwari villages' and item 4 'enhanced water-rate on lands irregularly irrigated' showed large increases, Rs. 59,917 and Rs. 2,03,764 respectively, while item 7 'revenue derived from tree pattas,' item 10 'sale-proceeds of land sold' and item 13 'other items' showed large decreases, Rs. 81,818, Rs. 2,55,149 and Rs. 1,41,643 respectively. The increase of Rs. 9,825 under item 6 'charges levied for the occupation of poramboke land', though not large as compared with the increases under other items, demands notice. All these items are dealt with in detail below. The increases or decreases under the remaining items were small and call for no remarks.

Item 2.—Water-rate on minor inams in ryotwari villages amounted to Rs. 16·28 lakhs against Rs. 15·68 lakhs in the previous fasli, showing a net increase of 0·60 lakh. Gōdāvari showed the largest increase, Rs. 40,713, and next to it Nellore, Rs. 10,673.

Item 4—'*Enhanced water-rate on lands irregularly irrigated.*'—The revenue under this head amounted to Rs. 6·19 lakhs against Rs. 4·15 lakhs in the previous fasli, showing an increase of 2·04 lakhs. Kistna and South Arcot showed large increases, Rs. 89,617 and Rs. 46,318 respectively. The increase in Kistna is attributed to the raising of the scale of enhanced water-rates prescribed in the revised rules for irregular irrigation, while that in South Arcot was due to the levy of deterrent penalties during the fasli.

Item 6—'*Poramboke occupation.*'—The revenue under this head was Rs. 5·66 lakhs against 5·56 lakhs or 0·10 lakh more than in the previous year. Tanjore (Rs. 27,281) showed the largest increase and Ganjām (Rs. 15,465) the largest decrease. The increase in Tanjore was mainly due to the levy of a charge on the backyards of houses with reference to G.O. No 2185, Revenue, dated 23rd September 1916. The decrease in Ganjām is reported to have been due to a reduction in the extent of poramboke cultivation.

Enhanced charges amounting toRs. 3,59,147 were levied on 32,270 acres against Rs. 3,71,631 on 38,691 acres in the previous year, yielding an incidence of Rs. 11 per acre against Rs. 10 in the preceding year. Madura and South Kanara showed the highest average rates (Rs. 49 and Rs. 40 per acre), and this was due to the imposition of heavy penalties to compel the occupants to give up their encroachments.

As regards the progress made in the reclassification of porambokes, a detailed report has already been submitted to Government in B.P. Mis. No. 2593, dated 12th December 1918. In the matter of dealing with encroachments on real porambokes, the penal provisions of Madras Act III of 1905 were resorted to in the districts of Ganjām, Vizagapatam, Gōdāvari, Nellore, Bellary, Kurnool, North Arcot, South Arcot, Ramnad, Tinnevelly and Salem. The Collectors of the remaining districts have furnished no specific information on the point.

Item 7—'*Revenue derived from tree pattas*'.—The revenue under this head amounted to 2·48 lakhs against Rs. 3·30 lakhs in the preceding year. North Arcot and South Arcot together showed a decrease of Rs. 75,259, an abnormal revenue having been realized in fasli 1326 from the sale of the trees blown down in the cyclone of November 1916.

Item 10—'*Revenue derived from the sale-proceeds of lands sold*'.—The amount under this head was Rs. 3·05 lakhs against 5·60 lakhs in the previous year. Kistna (Rs. 96,930) and Madras (Rs. 2,46,995) showed large decreases, while Madura (Rs. 60,040) showed a large increase. The decrease in Kistna was due to the fact that there were no sale of waste lands in the Divi taluk as in the previous year, while that in Madras was due to a fall in the sale-proceeds of waste lands sold during the year but mainly to the fact that the revenue for the previous year included a large sum (Rs. 2,77,000) which was realized from the sale of Badsha Sahib's building and which has since been transferred to the head 'Receipt on account of Public Works Department'. The increase in Madura is reported to have been due to the sale of Periyar affected lands in the Melur taluk.

Item 13—'*Revenue under other items*'.—The amount under this head was Rs. 5·35 lakhs against Rs. 6·76 lakhs in the previous year. Gōdāvari (Rs. 37,556) and South Kanara (Rs. 1,06,084) together contributed a decrease of Rs. 1,43,640). The decrease in South Kanara is attributed to a fall in the collection of back assessment as well as in the sale-proceeds of Laccadive coir and that in Gōdāvari to the inclusion in the amount for the previous year of a casual item of Rs. 44,100 being the capitalized value of abatement of land revenue in respect of lands made over to the railway department.

15. The net ryotwari demand excluding remissions but including water-rate, second-crop charge and miscellaneous revenue amounted to 645·57 lakhs against Rs. 641·16 lakhs in the previous year. The details for the increase of 4·41 lakhs are given below :—

	Lakhs of rupees.
(1) Increase in the assessment of holdings	3·11
(2) Increase under water-rate and second-crop charge	1·37
(3) Decrease under remissions	2·17
(4) Decrease under Miscellaneous Revenue	2·24
Total ...	4·41

16. *Total land revenue demand (current)*.—The demands under the several heads are compared below with the figures for the previous year :—

	Fasli 1326.	Fasli 1327.
	Rs.	Rs.
Peshkash on permanently-settled estates ...	49,88,219	49,92,012
Shrotriyam jodi	7,56,840	7,56,655
Ryotwar and miscellaneous	6,41,01,261	6,45,45,440
Total ...	6,98,46,320	7,02,94,107

The increase under the first head and the decrease under the second have been explained. Under the third head there was an increase.

17. *Total demand under cesses (current).*—The current demand under cesses is as follows:—

	Fasli 1326.	Fasli 1327.
	RS.	RS.
(1) Cess on permanently-settled estates ...	15,75,374	16,97,155
(2) Cess on whole inam villages	4,21,547	4,41,396
(3) Cess on ryotwar and miscellaneous ...	53,18,635	53,80,568
Total ...	73,15,556	75,19,119

There is a net increase under all the items. The increase under item (1) is marked in Ganjām, Vizagapatam, Nellore, Chingleput, Chittoor and Ramnad. In Ganjām, it is due to the introduction of a railway cess during the fasli under report. The increase in Chittoor and Nellore was the result of increased rentals realized by the proprietors. The increase in the remaining districts is due to the triennial revision of the land cess assessments.

The increase under item (2) is marked in Ganjām and Vizagapatam. In Ganjām it is due to the introduction of railway cess and in Vizagapatam to the resurvey of whole inam villages. The increase under item (3) mainly follows the increase in the revenue.

18. *Demand and collection of land revenue and cesses (current).*—The current demand under land revenue and cesses was Rs. 7,84,35,085; Rs. 7,71,57,217, or 98·3 per cent, were collected within the fasli and a sum of Rs. 2,652 was written off the accounts.

19. *Demand and collection of arrears.*—The total arrear demand under all the heads was Rs. 12,19, 627 ; Rs. 11,42,106, or 93·6 per cent, were collected within the fasli and Rs. 14,923, or 1·2 per cent, were written off the accounts.

20. *Total balance of land revenue and cesses.*—The balance outstanding at the end of the fasli including both arrears and current, was Rs. 13,37,814. As finally reported in the monthly demand, collection and balance statements for December 1918, the balance on 1st July was Rs. 13,39,601. Up to the end of December 1918 Rs. 10,40,632 had been collected, Rs. 32,380 written off the accounts, Rs. 61 ordered to be written off and recommendation had been made to write off Rs. 967. The net recoverable balance on 1st January 1919 was Rs. 2,65,561. Steps have been taken to collect this amount.

21. *Reconciliation of differences between the collection of land revenue and cesses as shown in the jamabandi and the Accountant-General's statements and overpayments.*—The subject will be dealt with in a separate report.

22. *Distribution of collections between land revenue and cesses.*—Land revenue and cesses are collected together and no attempt is made to exhibit the collections separately under these heads in the village accounts. The distribution of the total collections between land revenue and the several cesses is effected in the Collector's office. In this process there are two stages: first, a provisional distribution is effected by crediting to each head month by month so much of the total collections as will bear the same proportion to the demand under the head as the total collections bear to the total demand under all the heads. The second stage is the final adjustment, which consists in correcting the provisional credit by transfer from one head to another, where necessary, after the demand for the year under all the heads has been collected or written off.

The statements of distribution for fasli 1327 received from Collectors show that, except in the districts of Gōdāvari, Kistna, Guntūr, Nellore, Chingleput, Tanjore, Trichinopoly and Ramnad, the variations between the amounts due to the cesses in fasli 1327 and the amounts actually credited were inconsiderable. The accounts for fasli 1326 were not finally adjusted except in four districts.

23. *Charges debitable to land revenue.*—The charges of district administration, including salaries and allowances of revenue inspectors but excluding those of village establishments, were Rs. 53,09,289 or 6·8 per cent of the land revenue and cesses realized. The ratio was the same in the preceding fasli. The village service charges

(including proprietary estates) during the fasli were Rs. 55,40,033. Including this sum, the total charges were Rs. 1,08,49,322, or 13·9 per cent of the collections of land revenue and cesses.

24. *Processes under Act II of* 1864.—Statement No. 12 shows the particulars of the coercive processes issued for the realization of Government dues under Act II of 1864. The following abstract compares the number of processes of each kind issued during the year with the figures for the three preceding faslis:—

Coercive processes.	Faslis			
	1324.	1325.	1326.	1327.
Demand notices	1,331,635	1,160,474	1,012,789	894,552
Distraint and attachment notices	109,712	79,446	61,216	71,941
Sale notices	69,770	51,313	46,877	45,715
Sales (number of defaulters)	2,042	2,168	2,601	4,550
Total ..	1,513,159	1,293,401	1,123,483	1,016,758

There has been a gradual decrease in the total number of processes.

25. *Demand notices.*—The rule that these notices should only be issued when absolutely necessary has been kept in view. There was a decrease in fourteen districts and an increase in eleven districts. The increase is marked in the districts of Kistna, North Arcot, Tanjore, Salem and Malabar. The Collector of Malabar reports that the increase was due to the fall in the price of coconuts owing to the war. The increase in North Arcot and Tanjore was due to an unfavourable season and to the fall in the price of groundnut. The increase in Salem and Kistna is not real. In Salem it was due to the inclusion of the figures relating to the Namakkal taluk which was transferred from the Trichinopoly district, while in Kistna the figures adopted in the previous year's return were not correct.

Districts.	Fasli.		Increase.
	1326.	1327.	
Kistna	3,936	12,124	8,188
North Arcot	324,934	360,756	35,822
Tanjore	154,062	171,968	17,906
Salem	4,933	6,901	1,968
Malabar	15,633	20,100	4,467

26. *Distraint or attachment.*—The number of processes under this head was 71,941 in the year under report against 61,216 in fasli 1326 and 79,446 in fasli 1325. There was an increase in twelve districts. It was marked in the districts of Kistna, Anantapur, North Arcot, Tanjore and Malabar.

Districts.	Fasli		Increase.
	1326.	1327.	
Kistna	950	7,583	6,633
Anantapur	1,625	3,164	1,539
North Arcot	2,898	3,645	747
Tanjore	15,593	17,834	2,241
Malabar	1,863	3,499	1,636

The fall in the price of coconuts and groundnut and the unfavourable character of the season already mentioned, account for the increase in Malabar, North Arcot and Tanjore. The increase in Kistna is due to the adoption of the number of defaulters, not, as in the previous year, of the number of notices.

27. Compared with the previous fasli there was an increase in the percentage borne by the number of distraints and attachments to that of demand notices—

Percentage of the attachment to the total number of demand notices.

Fasli.	Personal.	Real.	Total.
1325	5·56	1·28	6·84
1326	4·90	1·14	6·04
1327	6·84	1·21	8·05

The number of defaulters whose immovable property was attached in the year was 10,752 against 11,520 in fasli 1326. In the Madura district, a large disproportion is noticeable, as in previous years, between the number of defaulters whose personal property was distrained (542) and the number of those whose real property was attached (2,882); it is due, as in former years, to the fact that many of the owners of lands irrigated by the Periyar are absentee pattadars.

28. *Sale notices.*—Out of 71,941 defaulters whose property was attached, 26,226 or 36·45 per cent paid the arrears before the sale notices were issued. The percentage was 23·42 in fasli 1326, 35·41 in fasli 1325 and 36·41 in fasli 1324.

29. *Sales.*—The number of defaulters whose property was sold was greater than in fasli 1326. The percentage of actual sales to sale notices was 9·95, against 5·55 in fasli 1326, and the percentage of defaulters whose property was actually sold to the total number of pattas was ·11, against ·06 in the preceding fasli. The subjoined statement compares the particulars of sales in fasli 1327 with the figures for three preceding faslis:—

	Personal property.				Real property.				Total.			
	Fasli 1324.	Fasli 1325.	Fasli 1326.	Fasli 1327.	Fasli 1324.	Fasli 1325.	Fasli 1326.	Fasli 1327.	Fasli 1324.	Fasli 1325.	Fasli 1326.	Fasli 1327.
Percentage of sales of property to—												
(1) The number of pattas ..	·01	·01	·02	·05	·04	·04	·04	·06	·05	·05	·06	·11
(2) The number of attachments.	·57	·78	1·59	3·53	8·31	11·16	15·70	22·24	1·86	2·73	4·24	6·32
(3) The number of sale notices.	Figures relating to sale notices do not distinguish between personal and real property.								2·92	4·22	5·55	9·95
Arrears at the beginning of the fasli under report under ryotwar and miscellaneous.	In lakhs of rupees.								7·24	7·76	6·95	8·61
Arrear balance at the end of the fasli.									·88	·17	·33	·48
Percentage of current collections to current demand.									98·90	99·01	98·81	98·47

Value of lands sold.—Immovable property of the estimated value of Rs. 1,52,456 was sold for the recovery of arrears amounting to Rs. 36,971 and realized Rs. 58,430. The price fetched by lands sold to private individuals amounted on the average to five times the assessment in the case of dry lands and six times the assessment in the case of wet lands. In fasli 1326, immovable property of the estimated value of Rs. 1,64,584 was sold for the recovery of arrears amounting to Rs. 25,015 and the average price fetched by lands sold to private individuals was seven times the assessment in the case of dry lands and eight times the assessment in the case of wet lands.

Extent of lands sold.—The extent of lands sold during the year was 8,156 acres under 'dry' and 1,700 acres under 'wet' against 5,399 acres under 'dry' and 1,188 acres under 'wet' in fasli 1326. The corresponding figures for fasli 1325 were 7,290 acres under 'dry' and 1,337 acres under 'wet'.

Lands bought in by Government.—The total area of lands bought in by Government for want of bidders was 2,092 acres of dry and 469 acres of wet, against 2,071 acres of dry and 244 acres of wet in fasli 1326. Nearly half the total area bought in was in Kistna, Kurnool and Madura.

30. *Process-service establishments.*—Statement No. 13 gives the particulars of processes served by the ordinary village agency or by special establishments and the fees realized during the year. The total number of processes served was 951,019, or 120,167 less than in fasli 1326. The number of processes served by special agency (30,354) was also less than in the previous fasli (44,937).

Special establishments were employed in the same districts as in fasli 1326, except in Tinnevelly. Their cost was covered by the fees realized, except in Vizagapatam, Kistna and Madura, where there were small deficits.

31. *Costs in civil suits.*—Rupees 1,31,490 were awarded to Government as costs during the year. Including Rs. 33,017 the revised opening balance, the total demand was Rs. 1,64,507, of which Rs. 94,058 were collected, Rs. 168 were written off the accounts and Rs. 261 were reported to be irrecoverable. The net recoverable balance at the end of the year was Rs. 70,020 made up as follows :—

	Rs.
(1) Amount collected after the close of the fasli	1,588
(2) Amount remaining uncollected pending decision of appeals by civil courts	578
(3) Amount involved in execution proceedings	840
(4) Amount uncollected; either collection is in progress or failure to collect has not been explained	67,014

32. *Interest on arrears of land revenue (statement No. 14).*—The total demand on account of interest on arrears of land revenue, including the balance at the beginning of the fasli, was Rs. 16,077, of which Rs. 10,102 were collected and Rs. 64 remitted, leaving a balance of Rs. 5,911, against Rs. 5,103 (revised figure) at the end of the previous fasli. The largest arrears are in Nellore (806) and Chingleput (861).

33. *Sale of land under Board's Standing Orders Nos. 15, 16, 20, 21, 45, 90, 91 and 197.*—Under the rules for the sale of occupancy rights in assessed waste lands (Standing Order No. 15), 1,829 acres assessed at Rs. 2,389 were sold for Rs. 1,26,093; 244 acres of tank-bed lands assessed at Rs. 1,020 were sold for Rs. 43,636 under Standing Order No. 16; 581 acres of waste lands assessed at Rs. 942 were sold for Rs. 3,813 under Standing Order No. 20; 36 acres of house-sites in towns were sold for Rs. 27,255 under Standing Order No. 21; 519 acres, assessed at Rs. 443, which had been bought in by Government at sales for arrears of revenue, were resold under Standing Order No. 45 for Rs. 1,173; 17 acres assessed at Rs. 5, which had been acquired for public purposes and were subsequently relinquished, were sold under Standing Order No. 90 for Rs. 4,629; 138 acres assessed at Rs. 232, which had been acquired for railways and were subsequently relinquished, were sold under Standing Order No. 91, for Rs. 24,015; 11 acres of escheated lands assessed at Rs. 12 were sold under Standing Order No. 197 for Rs. 169; 2 acres of waste lands in Madras assessed at Rs. 146 were sold for Rs. 4,116 under the rules published with G.O. No. 61, Revenue, dated 11th January 1902.

34. *Subdivision of quit-rent.*—No applications were received during the year under Standing Order No. 58 for the subdivision of the joint liability of shareholders in whole inam villages or minor inams in any of the districts of the Presidency.

35. *Transfer of registration of holdings.*—Transfers of revenue registration fall under one or other of the following three heads :—

(1) transfers applied for through officers of the Registration department;

(2) transfers applied for direct to Revenue officers; and

(3) transfers effected by Revenue officers of their own motion.

(1) Under the first head, 272,931 applications were received during the fasli against 285,052 in the previous fasli, a decrease of 12,121 or 4·25 per cent. The bulk of the decrease occurred in the districts of Kistna, Guntūr, South Arcot, Tanjore, Trichinopoly, Tinnevelly and Malabar.

(2) The number of applications presented direct to Revenue officers was 54,456 as against 62,392 in fasli 1326, a decrease of 7,936 or 12·72 per cent. The decrease occurred mainly in the districts of Guntūr, Nellore, North Arcot, Tanjore, Trichinopoly, South Kanara and Malabar.

(3) The number of cases which Revenue officers dealt with on their own initiative under paragraphs 5 and 7 of Board's Standing Order No. 31 rose from 20,316 in fasli 1326 to 23,125 in fasli 1327. The largest increase was in Tanjore.

The total number of applications of all kinds to be dealt with in the fasli under report, including the number pending disposal at its beginning was 453,040; of these 334,763 were disposed of during the fasli, leaving a balance of 118,277 pending at the close of the fasli; of these, 1,781 have since been disposed of. Of

the total number of applications disposed of during the fasli 11,483 or 3·43 per cent were rejected. Of the rest, 8,106 applications in South Arcot and 496 applications in Tanjore were transferred to the Special Settlement officers for disposal and the remainder were accepted.

36. *Ruined tanks.*—In the year under report a tank in the Chittoor district was handed over to private persons for repair under Board's Standing Order No. 8. Its ayacut was 12·62 acres and was assessed at a special rate of Rs. 2 per acre.

37. *Settlement by Collectors.*—The rule laid down in paragraph 2 of Board's Standing Order No. 12 that the settlement of each taluk should be conducted by the Collector himself once in five years, was complied with except as regards (1) the Government villages of the Udayagiri Agency in the Chokkapad khandam of the Ganjām district, (2) the taluks of Narasapur, Gannavaram, Nandigama, Bezwada, Bandar and Tiruvur of the Kistna district and (3) the Uttangarai taluk of the Salem district. The Collectors of Salem and Ganjām are requested to take up the areas named in their districts for settlement during the current fasli. The Collector of Kistna is requested to arrange for the settlement of the six-named taluks in his district being conducted by himself at the earliest opportunity.

38. *Loans and advances.*—The advances made under the Land Improvement Loans Act during the year amounted to Rs. 1·98 lakhs and those under the Agriculturists' Loans Act to Rs. 6·27 lakhs. The aggregate amount advanced under both the Acts was thus 8·25 lakhs as against 7·44 lakhs in fasli 1326. The difference was the net result of an increase in the amounts advanced in eight districts and a decrease in fifteen others. There were no transactions in the districts of Gōdāvari and Madras during the year. The advances granted in South Arcot, Salem, Tanjore and the Nilgiris were considerably in excess of those given in fasli 1326, while the amounts advanced in Kistna, Bellary, Anantapur, Chingleput, Madura and Tinnevelly showed a decrease over those of fasli 1326. The decrease in Chingleput is ascribed to the favourable character of the season and in Anantapur both to the season and to the facilities for loans afforded by co-operative societies of which there is a large number in the district. The decreases in the other districts have not been explained. The increase in South Arcot is attributed to the need for State loans felt by the ryots as a result of the damage done to property by the cyclone of 1916; and in Tanjore to a rush of applications in the Tanjore and Papanasam taluks. The grant of loans to proprietors of coffee estates under the new "Coffee Loans" rules referred to below partly explains the increase in Salem and the Nilgiris.

Government issued a press communiqué towards the close of the fasli sanctioning the grant of loans to owners of coffee estates with a view to carrying the planters through the immediate difficulties created by the war. The rules under the Agriculturists' Loans Act have also been revised so as to permit the grant of loans for the acquisition of land for house-sites and the building of houses thereon in villages declared by Collectors to be congested.

39. *Recoveries.*—Of the sums of Rs. 3·47 lakhs and Rs. 4·79 lakhs repayable during the year under the Land Improvement and the Agriculturists' Loans Acts, respectively, on account of principal, Rs. 3·07 lakhs or 88·5 per cent under the Land Improvement Loans Act and Rs. 3·99 lakhs or 83·3 per cent under the Agriculturists' Loans Act were collected. Borrowers made repayments of advances amounting to Rs. 21,405 under the Land Improvement Loans Act and Rs. 15,130 under the Agriculturists' Loans Act on account of loans, the repayment of which had not fallen due, while sums amounting to Rs. 1,453 under the Land Improvement Loans Act and Rs. 1,357 under the Agriculturists' Loans Act had to be written off as irrecoverable.

40. *Coercive processes.*—The aggregate amount of principal and interest repayable during the year under both the Acts was Rs. 11,49,059, of which a sum of Rs. 3,46,898 or 30·1 per cent was collected without resort to coercion and a sum of Rs. 5,82,077 or 50·6 per cent after the issue of demand, Rs. 60,746 were realized after attachment, but before sale, Rs. 425 by the sale of moveable property and Rs. 1,613 by the sale of immovable property. The balance outstanding at the end

of the year was Rs. 1,57,300, the arrears being heaviest in Tanjore (Rs. 41,034), Anantapur (Rs. 18,547), Madura (Rs. 16,229), Tinnevelly (Rs. 10,681) and Bellary (Rs. 10,427).

41. The following statement shows the amount of interest payable by the Local Government to the Government of India for fasli 1327 :—

Acts.	Amount advanced to the Local Government by the Government of India.			Interest payable for the year by the Local Government to the Government of India.
	Outstanding at the beginning of the year.	Outstanding at the end of the year.	Mean outstanding.	
	Rs.	Rs.	Rs.	Rs.
Land Improvement Loans Act	28,83,440	27,51,622	28,17,531	98,614 *
Agriculturists' Loans Act	20,66,231	22,77,075	21,71,653	76,008 *
Total ..	49,49,671	50,28,697	49,89,184	1,74,622 *

* Represents interest at 3½ per cent on the mean outstanding balance. The rate of interest has been enhanced to 4½ per cent in the case of loans sanctioned after 1st October 1916 but before 1st April 1917 and to 5½ per cent on loans sanctioned after 1st April 1917. According to these varying rates, the total amount of interest payable to the Government of India for the official year 1917–18 is Rs. 1,97,167 excluding interests on loans issued under the Co-operative Societies Act and other loans. The present report relates to the fasli year.

42. The subjoined statement shows the financial results of the operations during the year under the Loans Acts :—

Items.	Land Improvement Loans Act.	Agriculturists' Loans Act.	Total.
	Rs.	Rs.	Rs.
1. Interest payable for fasli 1327 by the Local Government to the Government of India.	98,614	76,008	1,74,622
2. Interest collected during the year	1,56,611	1,25,787	2,82,398
3. Balance of interest accruing to the Local Government, i.e., difference of items 1 and 2.	57,997	49,779	1,07,776
4. Remissions of principal	1,453	1,357	2,810
5. Net result for 1917–18	+ 56,544	+ 48,422	+ 1,04,966
6. Net result for previous years. 1912–13	+ 52,618	+ 35,281	+ 87,899
1913–14	+ 52,369	+ 50,043	+ 1,02,412
1914–15	+ 44,697	+ 37,962	+ 82,659
1915–16	+ 66,068	+ 54 919	+ 1,20,987
1916–17	+ 59,569	+ 57,935	+ 1,17,504
7. Expenditure on free grants-in-aid towards the construction of private protective works or on establishments for well-boring or other outlay incurred from current revenue in connexion with Takkavi transactions.	6,936 926	21,924 926	28,860 † 1,852 †

† Represents the cost of special establishments entertained in certain districts and the cost of time devoted to loans work by the ordinary Land Revenue establishment at 3½ per cent on the amount advanced during the year.

43. With the aid of loans under the Land Improvement Loans Act, 237 wells capable of irrigating 1,305 acres of lands were constructed during the fasli at an aggregate cost of Rs. 78,860 against 362 wells costing Rs. 1,10,127 during the previous year and 94 wells designed to benefit 653 acres were repaired at a cost of Rs. 27,725 against 200 wells costing Rs. 45,900 in the preceding year. The amount spent during the year on reclamation was Rs. 12,330 against Rs. 23,930 in the previous year, on the purchase and installation of oil-engines and pumps in the districts of Anantapur, South Arcot, Salem and Coimbatore, Rs. 15,000 as against Rs. 7,970 and 'on other improvements' (benefiting about 975·18 acres), Rs. 26,755 as against Rs. 27,384 (benefiting 2,056 acres). The Coimbatore district showed the largest number of wells constructed and repaired (67) and next to it came Tinnevelly (57). Under the Agriculturists' Loans Act, 7,408 head of cattle were purchased at an aggregate cost of Rs. 4,59,873 against 7,810 head of cattle at a cost of Rs. 4,62,342 in the previous year, while 61 houses were rebuilt at a cost of Rs. 8,390 against 78 houses rebuilt at a cost of Rs. 16,555 in the preceding year. The expenditure over seed grains was Rs. 5,374, over sugarcane mills, Rs. 925 and 'for other purposes' Rs. 68,828 as against Rs. 1,527, Rs. 200 and Rs. 27,968 respectively in the previous year. The last item during the year includes the amounts advanced for the maintenance of coffee estates.

44. *Survey advances.**—The advances drawn by Collectors during the year under the head "Revenue Survey advances—Collectors" amounted to Rs. 40,342 against Rs. 47,921 in the previous year. Of this amount

		Rs.
Gōdāvari	spent	2,755
Kistna	„	3,241
Bellary	„	4,470
Cuddapah	„	2,420
North Arcot	„	3,634
Tanjore	„	2,963
Madura	„	3,033
Tinnevelly	„	2,397
Coimbatore	„	3,037
Malabar	„	2,114

Of the total amount of advances outstanding against Collectors, a sum of Rs. 76,833 was adjusted during the year leaving the net debit under "Revenue Survey advances—Collectors" at Rs. 3,07,987.

Under the head "Cost of survey marks—Collectors," a sum of Rs. 50,086 was collected during the year leaving a balance of Rs. 8,888 to be realized. The arrears outstanding at the beginning of the year under the head "Cost of survey marks—Survey officers" were Rs. 1,38,223 †. Fresh landholders' bills to the extent of Rs. 2,87,194 were received from survey officers during the year. Of the total demand of Rs. 4,25,417 under this head, Rs. 2,32,479 were collected during the year leaving an uncollected balance of Rs. 1,92,938 at its end.

45. *Junior Civilians—Knowledge of vernaculars.*—The reports of the Collectors generally show that their Civilian Divisional Officers possess an adequate knowledge of the vernaculars and are able to dispose of vernacular papers without abstracts and that the progress of Assistant Collectors is satisfactory.

46. *Growth of subletting in ryotwari tracts.*—Subletting is chiefly resorted to by those engaged in professions other than agriculture or by large landholders. It is reported to be on the increase in the Madakasira taluk of the Anantapur district and on the decrease in the Kāvali and Atmakur divisions of the Nellore district owing, in the latter case to the rise in the prices of food-grains.

47. *Effects of recent legislation on the people.*—No legislation affecting the people generally was introduced during the year under report except the Income-tax Amendment Act. The effect of this Act on the people is reported to be not yet apparent. The Madras Estates Land Act (I of 1908) and the Madras Land Encroachment Act (III of 1905) appear to have been working smoothly on the whole. The delegation of powers to tahsildars and deputy tahsildars under the Madras Decentralization Act (VIII of 1914) in the matter of charging enhanced assessment under Act III of 1905 and of dealing with cases of irregular irrigation continued to work satisfactorily and contributed to the speedy disposal of cases, to the prompt collection of revenue and to the timely preparation of jamabandi accounts.

48. *Co-operative societies.*—Five hundred and fifteen societies were registered under the Co-operative Societies Act during the year 1917–18. Of these 5 were central financing banks, 18 were administrative unions, 376, agricultural and 116 non-agricultural societies. One of the supervising unions was converted into a central bank during the year. The registration of nine agricultural and four non-agricultural societies was cancelled during the same period. The total number of societies at the end of 1917–18 was 2,718 against 2,216 at the end of 1916–17.

49. *Enhanced water-cess for irregular irrigation.*—G.O. No. 684, Revenue, dated 7th March 1913, directed that ryots who had rendered themselves liable to the imposition of enhanced water-cess for the irregular use of Government water should be given previous notice of their liability. The system has been under trial now for some years in all the districts except Madras, Malabar, South Kanara, Anjengo and The Nilgiris to which it is not applicable. Most of the Collectors have remarked that the system, while making the ryots alive to the consequences of their mistake, has resulted in the prompt investigation of objections and consequent reduction in the number of water-rate appeals. It will accordingly be continued.

* The figures relate to the official year 1917–18. † Revised figure.

50. *Tank-bed cultivation.*—During the year under report the concession to cultivate tank-bed lands with cucumbers and melons was granted in the districts of Anantapur, Chingleput, Chittoor and Coimbatore. There were also unauthorized cases of cultivation of such lands in Cuddapah, Chingleput, Trichinopoly and Tinnevelly, which were all penalized. In cases of authorized occupation the highest dry rate of the village was charged except in Chingleput, where *Panchamas* were allowed to cultivate on payment of single assessment. It is reported that the cultivation did not in any way affect the tank-beds.

51. *Examination of village and taluk accounts.*—The accounts were found to have been fairly well maintained and to have disclosed generally no serious errors. The defects noticed were pointed out and promptly rectified in most cases.

52. *The taluk and village statistical registers.*—Taluk statistical registers prescribed in the revised Manual of Taluk Accounts were maintained in the districts of The Nilgiris, Malabar, South Kanara and Anjengo. Village statistical registers were maintained in all the other districts except Madras which is not a rural district. The subjoined statement shows the progress made in the writing up and checking of the registers up to and during fasli 1327 (1917–18):—

District.	Number of villages.		Number of villages in which registers have been opened.		Number of villages in which the registers have been written up and checked for fasli 1327.	
	Ryotwar.	Proprietary.	Ryotwar.	Proprietary.	Ryotwar.	Proprietary.
1. Ganjam	1,029	218	1,029	218	1,029	218

20. Coimbatore	1,043	55	1,043	..	1,009	..
21. Salem	1,464	..	804	..	803	..

So far as ryotwari villages are concerned, the work was completed or nearly completed for the year under report in all the districts except Kistna and Salem, where it was much in arrears. The Collectors concerned are requested to see that the work is completed soon. In respect of proprietary villages, the work is in arrears in many of the districts owing to the non-introduction of the Manual of Village Accounts for non-Government villages, pending the supply of the vernacular manuals. Copies of these manuals are under issue to the Collectors with instructions to commence the work from the beginning of fasli 1329 (1919–20).

53. *Minor irrigation.*—Statement No. 19 shows the number of irrigation works in charge of the Revenue Department, the number repaired and the amount spent on them during the official year ending 31st March 1918. It also shows the number proposed for repairs during the official year ending 31st March 1919.

54. *Conference with ryots.*—In all the districts conferences with ryots were held by Collectors and Divisional Officers during their tours and at the time of the jamabandi.

(True extract)

NOTE.—(1) The wholesale prices shown against the Cuddapah district are the prices in the ryots' selling months, i.e., the period is adopted as the basis of the commutation rate, but the market prices entered against them are the averages of the year.

(2) The commutation rates shown against Trichinopoly are those adopted in the Tanjore district, the difference in the commutation rate deduced from the Trichinopoly prices not being large.

(3) Black paddy was taken as the standard grain for dry in the Gōdāvari and Kistna districts. The commutation rate fixed for this grain was Rs. 96.

No. 2.—Statement showing the approximate area and revenue of the zamindaris in the Presidency of Madras for fasli 1327 (1917–18).

Districts.	Names of zamindaris.	As per census of 1881.			Estimated revenue realized by the zamindars for fasli 1327.	Peshkash payable to Government in fasli 1327.
		Cultivated and cultivable area.	Uncultivated area.	Total.

(a) The decrease of Rs. 9 from the closing balance at the end of the last fasli is due to the adoption of correct figures.

(b) The decrease of Re. 1 from the closing balance at the end of the last fasli is due to rounding.

(c) and (d) The difference between the closing balance of last fasli and the opening balance of this fasli is due to the transfer of Namakkal taluk to the Salem district.

(e) The increase of Rs. 1,221 over the closing balance of the last fasli is due to the revision of land-cess in fasli 1327 in certain estates of Chicacole, Aska, Nompeta, Tekkali and Narasannapeta taluks having been given effect to from fasli 1326.

(f) and (g) The decrease from the closing balance of last fasli is due to the adoption of correct figures.

(h) and (j) The difference between the closing balance of last fasli and the opening balance of this fasli is due to the transfer of Namakkal taluk to Salem district and to some adjustments made.

(i) The increase of Rs. 743 over the balance of last fasli is due to the adoption of revised figures after revision of cesses

(*a*) The decrease of Rs. 11 from the balance at the end of the last fasli is due to the adoption of correct figures.

(*b*) and (*d*) The difference between the closing balance of the last fasli and the opening balance of this fasli is due to the transfer of Namakkal taluk to Salem district.

(*c*) The difference of Rs. 6 between the closing balance of the last fasli and the opening balance of this fasli is due to the wrong credit given to this head in the previous fasli which is now deducted.

(*e*) The increase of Rs. 9,805 over the balance of last fasli is due to the adoption of revised figures.

(*f*) The decrease of Rs. 6 from the closing balance of the last fasli is due to certain adjustments made during the year.

(*g*) and (*i*) The difference between the closing balance of last fasli and the opening balance of this fasli is due to the transfer of Namakkal taluk to Salem district and to the adoption of revised figures in Salem.

(*h*) The increase of Rs. 2,434 over the balance of last year is due to the adoption of revised figures.

(*a*) The increase of Rs. 342 is the net result of (1) rectification at the time of jamabandi of the incorrect balance of Berhampur taluk, (2) arrears recovered from the subsequent inamdars and kammi jirayatidars of certain villages in Humma estate and (3) reduction of the incorrect demand in Tekkali division.

(*b*) Increase of Rs. 367 is due to the adoption of revised figures.

(*c*) Decrease of Rs. 127 from the closing balance of last fasli is due to certain adjustments made during the year.

(*d*) The difference of Rs. 60 between the closing balance of last fasli and the opening balance of this fasli represents the mera due to a religious institution for fasli 1326 which was erroneously deducted from the collections.

(*e*) and (*g*) Difference between the closing balance of last fasli and the opening balance of this fasli is due to the transfer of Namakkal taluk to Salem district and to certain adjustments made.

(*f*) The increase of Rs. 69 over the balance of last fasli is made up of Rs. 54 transferred from proprietary estates village service and Rs. 15, omitted in the demand in fasli 1326.

(*h*) The difference of Rs. 118 between this amount and that shown in column 59 of statement No. 4 is due to the revision of demand at the time of preparation of the revised demand, collection and balance statement and to the omission of an amount paid into the Huzur treasury.

(*i*) The difference of Rs. 12,006 between this amount and that shown in column 59 of statement No. 4 is the revenue from proprietary estates village service which is wrongly included in the total ryotwar demand in the latter statement.

* Includes Railway cess.

(*a*) The increase of Rs. 493 over the balance at the end of the last fasli is made up of (1) Rs. 14 which represents the net increase in the arrear demand consequent on raising the quit-rent demand in certain estates in Kudala and Sompeta taluk and reducing that in Tekkali taluk and (2) quit-rent on enfranchised village service inams in Makivalasa agraharam and Devadi estate, Chicacole taluk, for faslis 1316 to 1323 added to the arrear demand.

(*b*) The decrease of Rs. 998 from the balance of last fasli is due to certain adjustments effected during the year.

(*c*) and (*e*) The difference between the closing balance of last fasli and the opening balance of this fasli is due to the transfer of Namakkal taluk to Salem district and to certain adjustments made.

(*d*) The decrease of Rs. 21 is due to the revision of figures.

(*f*) The difference between the last year's and this year's balances is due to rounding.

* The figures in column 5 represent the allotments made up to date for "original works" and "repairs" costing not more than Rs. 2,500 and over Rs. 2,500 each for the year 1918-19.

† Column 6 shows the number of works for which detailed allotments have been made up to 30th September 1918.

(a) Includes incomplete works of last year.

(b) Includes figures relating to the Namakkal taluk which has been transferred to Salem with effect from 1st April 1918.

(c) Incomplete works of previous years and the amounts required for them are not included in these figures.

(d) Necessary steps have been taken by the Collector to utilize the whole allotment before the close of March 1919. A major portion of the allotment of Rs. 5,000 for works costing over Rs. 2,500 each relates to the silt clearance and masonry repairs to the Tungabhadra channels and the works could not be put in hand before January 1919 owing to the presence of water in the channels.

(e) Includes a sum of Rs. 4,962 on account of kudimaramat repairs to four irrigation works to be met out of ryots' contributions.

No. 20.—Statement showing the number of pattas of various values held in the several districts of the Madras Presidency for fasli 1325 (1915–16).

NOTE.—(1) The area and the assessment thereon given in this statement differ from those given in columns 27, 29 and 32 of statement No. 3 against Chingleput, Chittoor, North Arcot, Tinnevelly and Malabar. In Chingleput, the variation is due to the exclusion from this statement of these particulars for rented villages; in Chittoor, it is due to the exclusion from this statement of the particulars relating to the Punganur division; in North Arcot, it is due to the exclusion from this statement of these particulars for Arni and Kuppam divisions; in Malabar, it is due to the exclusion from this statement of these particulars for lease-hold lands in Cochin. The Collector of Tinnevelly has not explained the variation.

(2) The number of ryotwari pattas given in this statement differs from that given in Collector's statement No. 1 against Tinnevelly and Malabar. In Malabar, the variation is due to the cause mentioned in note (1). The Collector of Tinnevelly has not explained the variation.

(3) Columns 83, 84, 87 and 88 against the Nilgiris include 39, 163, 2 and 4, respectively, relating to free-hold lands for which details of classification of holdings are not available.

PROCEEDINGS OF THE MADRAS GOVERNMENT

REVENUE DEPARTMENT

Order—No. 992, Revenue, dated 30th April 1919.

Miscellaneous

Recorded.

2. The revenue was collected without difficulty. The number of coercive processes issued (1,016,758) was the lowest during the last five faslis. The amount of arrears that had eventually to be recovered by sale was Rs. 77,736 out of a total demand of Rs. 784 lakhs.

3. The Government note with satisfaction that, as forecasted last year, there was a marked increase amounting to over a lakh of rupees in the expenditure on irrigation works in the charge of the Revenue department.
